On local major road schemes which are promoted by the respective local highway authority, the Department does not hold information in a format which distinguishes expenditure incurred between local major road schemes and local major public transport schemes and this can be provided only at a disproportionate cost.

Rolling Stock

Mr. Sanders: To ask the Minister of State, Department for Transport what steps his Department is taking to increase rolling stock available to the First Great Western franchise. [287148]

Chris Mole: We are in discussion with First Great Western regarding the provision of additional train capacity, and will make an announcement in due course.

Tolls

Norman Baker: To ask the Minister of State, Department for Transport what Government *(a)* studies, *(b)* trials and *(c)* pilots have been commissioned on road pricing in each year since 1997; and how much each cost. [284706]

Mr. Khan: The Department for Transport has commissioned studies and trials since 1997 to increase its understanding of the key challenges of developing robust and reliable road user charging processes, procedures and technologies. These included the Road Pricing Feasibility Study, the DIRECTS trials on interoperability and other systems engineering studies which between them incurred total expenditure of approximately £29 million, between 1997 and 2007. We have no breakdown of this in the form requested. We have not commissioned any pilots on road pricing.

Since 2007 effort has concentrated on the Demonstrations Project, examining the technology and processes that would be needed if any road pricing scheme was to have the ability to charge by time and distance travelled, as well as place. The first phases of this work are under way following the letting of contracts in September 2008, with a value of £10 million. The project has created a research environment to help us understand the feasibility, operational performance and business issues for market delivered services; however, the Government have no plans to introduce national road pricing.

West Coast Railway Line

Mr. Hoyle: To ask the Minister of State, Department for Transport what account was taken of the travelling requirements of people attending the Rugby League Challenge Cup Final in scheduling maintenance work

on the West Coast Main Line on the weekend of 28 and 29 August 2009. [286672]

Chris Mole: The planning and timing of engineering works is an operational matter for Network Rail under the national possessions regime overseen by the independent Office of Rail Regulation (ORR). Under this regime the majority of engineering possessions are specifically planned by industry-wide agreement, often up to 18 months in advance—and well before the identity of the Rugby League Cup Final teams becomes known.

Network Rail advises that on Saturday 29, Sunday 30 and until 6.30 a.m on Monday 31 August it will be taking a number of possessions on the southern section of the West Coast Main Line, meaning this section of the line will be closed to train services. As a result, passengers travelling between Birmingham New Street and London will be on hourly shuttle services which will be diverted via the Chiltern Line, though the southbound services will still terminate at Euston.

CABINET OFFICE

Advertising Advisory Committee

Mr. Hurd: To ask the Minister for the Cabinet Office on what dates the Advisory Committee on Advertising has met in the last 12 months. [250318]

Tessa Jowell: The Government Strategic Marketing Advisory Board (GSMAB) replaced the Advisory Committee on Advertising (ACA) in January 2008.

The GSMAB has a wider remit than the ACA, not only holding the Central Office for Information (COI) to account but also all Government Departments.

Under the new terms of reference, GSMAB aims to meet at least four times annually at the chairman's discretion.

Over the last 12 months the board has met on the following dates:

4 September 2008

2 December 2008

24 February 2009

10 June 2009

Brain Cancer

Sandra Gidley: To ask the Minister for the Cabinet Office how many cases of brain cancer were diagnosed in each strategic health authority area in each of the last six years. [286379]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how many cases of brain cancer were diagnosed in each strategic health authority area in each of the last six years. [286379]

The latest available figures for newly diagnosed cases of cancer (incidence) are for the year 2006. Numbers of newly diagnosed cases of brain cancer in each strategic health authority area from 2001 to 2006 are in Table 1.

Table 1: Registrations of newly diagnosed cases of brain cancer[1], persons: strategic health authorities[2] in England, 2001 to 2006

	2001	2002	2003	2004	2005	2006
North East	216	198	197	212	225	226
North West	512	489	508	517	496	502
Yorkshire and the Humber	406	408	366	395	384	393
East Midlands	303	306	308	335	342	327
West Midlands	321	375	356	339	373	356
East of England	397	376	395	370	407	382

Brain Cancer: Hampshire

Sandra Gidley: To ask the Minister for the Cabinet Office how many cases of brain cancer were diagnosed in each primary care trust area within the ceremonial county of Hampshire for each of the last six years. [286283]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, July 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how many cases of brain cancer were diagnosed in each primary care trust area within the Ceremonial County of Hampshire for each of the last six years. [286283]

The latest available figures for newly diagnosed cases of cancer (incidence) are for the year 2006. Numbers of newly diagnosed cases of brain cancer in each primary care trust area within the Ceremonial County of Hampshire from 2001 to 2006 are in Table 1.

Table 1: Registrations of newly diagnosed cases of brain cancer[1], persons: Primary Care Trusts[2] within the Ceremonial County of Hampshire, 2001 to 2006

	2001	2002	2003	2004	2005	2006
Portsmouth City Teaching	13	12	7	12	15	16
Southampton City	18	17	5	18	17	15
Hampshire	97	102	103	88	118	99

Civil Servants: Vacancies

Mr. Willetts: To ask the Minister for the Cabinet Office how many graduate vacancies in the Civil Service there *(a)* were in 2008 and *(b)* are expected to be in 2009. [287777]

Angela E. Smith: Departments and agencies undertake their own recruitment, and the Cabinet Office holds no data on graduate recruitment into the civil service generally.

Death

Anne Milton: To ask the Minister for the Cabinet Office how many death certificates mentioning *(a)* methadone, *(b)* cannabis, *(c)* benzodiazepine, *(d)* barbiturates, *(e)* steroids and *(f)* stimulants were issued in each of the last five years. [287370]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked it to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent question asking how many death certificates mentioning (a) methadone, (b) cannabis, (c) benzodiazepine, (d) barbiturates, (e) steroids and (f) stimulants were issued in each of the last five years. (287370)

The table attached provides the numbers of deaths where the underlying cause was drug poisoning and (a) methadone, (b) cannabis, (c) benzodiazepines (d) barbiturates or (e) steroids were mentioned on the death certificate, either alone or together with other substances, in England and Wales, from 2003 to 2007 (the latest year available).

Where more than one drug is mentioned on the death certificate, it is not always possible to tell which of them was primarily responsible for the death.

Figures for deaths where stimulants are mentioned on the death certificate are not available. Stimulants include a broad range of substances, such as amphetamines and ecstasy, but there is no official definition that is used for statistical purposes.

Table 1: Number of deaths where drug poisoning was the underlying cause of death[1] and methadone, cannabis, benzodiazepines, barbiturates or steroids were mentioned on the death certificate, England and Wales[2], 2003-07[3]

					Deaths
	2003	*2004*	*2005*	*2006*	*2007*
Methadone	201	219	220	241	325
Cannabis	11	19	19	17	12
Benzodiazepines	224	233	190	177	207
Barbiturates	20	16	14	17	6
Steroids	0	0	1	3	0

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10). Deaths were included where the underlying cause was due to drug poisoning (shown in the following table) and where the substances were mentioned on the death certificate either alone or together with other substances.
[2] Figures for England and Wales include deaths of non-residents.
[3] Figures are for deaths registered in each calendar year.

ICD-10	*Description*
F11-F16, F18-F19	Mental and behavioural disorders due to drug use (excluding alcohol and tobacco)
X40-X44	Accidental poisoning by drugs, medicaments and biological substances
X60-X64	Intentional self-poisoning by drugs, medicaments and biological substances
X85	Assault by drugs, medicaments and biological substances
Y10-Y14	Poisoning by drugs, medicaments and biological substances, undetermined intent

Anne Milton: To ask the Minister for the Cabinet Office how many *(a)* men and *(b)* women aged (i) under 20, (ii) 21-30, (iii) 31-40, (iv) 41-50, (v) 51-60 and (vi) 61 years and above died from an underlying cause which was (A) obesity-related, (B) diabetes-related, (C) drug-related, (D) eating disorder-related and (E) related to a sexually transmitted infection in each of the last 10 years. [287377]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell:

As National Statistician, I have been asked to reply to your recent question asking how many (a) men and (b) women aged (i) under 20, (ii) between 21 and 30, (iii) between 31 and 40, (iv) between 41 and 50, (v) between 51 and 60 and (vi) 61 years and above died from an underlying cause which was (A) obesity-related, (B) diabetes-related, (C) drug-related, (D) eating disorder-related and (E) related to a sexually transmitted infection in each of the last 10 years. (287377)

The tables attached provide the number of deaths for (a) males and (b) females aged (i) under 21[1], (ii) 21-30, (iii) 31-40, (iv) 41-50, (v) 51-60 and (vi) 61 years and over, where the underlying cause was (1) obesity (Table 1), (2) diabetes (Table 2), (3) an eating disorder (Table 3) or (4) a sexually transmitted infection (Table 4), in England and Wales, 1999 to 2008 (the latest year available), or (5) drug poisoning, in England and Wales, 1998 to 2007 (the latest year available) (Table 5).

The figures provided in Tables 1 to 4 reflect the number of deaths certified as due to the specified conditions. It is not possible to identify all deaths 'related' to these conditions. For example, obesity may play an important role in deaths due to heart disease or diabetes, but is rarely recorded on the death certificate. The figures presented for obesity in Table 1 are therefore likely to underestimate the actual number of deaths in which this factor is involved.

It is likely that the figures in Table 3 underestimate the actual number of deaths where an eating disorder was involved. This is because deaths registered after a coroner's inquest usually state the immediate physical condition which caused death as the underlying cause, and not any mental or behavioural disorder which may have led to that condition.

ONS monitors deaths from drug-related poisoning using a special database, developed to enable the analysis of deaths by the specific substances involved.

The deaths included are certified by Coroners following post-mortem and inquest. Figures for 1998 to 2007 have been provided as figures for 2008 are not yet available.

[1] The specified age group 'under 20' has been amended to 'under 21' so as not to exclude deaths at age 20 from the table.

Table: Number of deaths where the underlying cause was obesity[1], England and Wales[2], 1999-2008[3,4]

Sex/age group	1999	2000	2001	2002	2003	2004	2005	2006	2007	Deaths 2008

[1] Cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) for 1998-2000, and Tenth Revision (ICD-10) from 2001 onwards. The codes for drug poisoning are shown in Box 1 below.
[2] Figures for England and Wales include deaths of non-residents.
[3] Figures are for deaths registered in each calendar year.
[4] Figures for deaths registered in 2008 are provisional.

Box 1. International Classification of Diseases, Ninth Revision (ICD-9) and Tenth Revision (ICD-10) codes used to define drug-related poisoning deaths by underlying cause

Description	*ICD-9*	*ICD-10*
Mental and behavioural disorders due to drug use (excluding alcohol and tobacco)	292, 304, 305.2-305.9	F11-F16, F18-F19
Accidental poisoning by drugs, medicaments and biological substances	E850-E858	X40-X44
Intentional self-poisoning by drugs, medicaments and biological substances	E950.0-E950.5	X60-X64
Assault by drugs, medicaments and biological substances	E962.0	X85
Poisoning by drugs, medicaments and biological substances, undetermined intent	E980.0-E980.5	Y10-Y14

Departmental Electronic Equipment

Jenny Willott: To ask the Minister for the Cabinet Office how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in (i) her Department and (ii) the Prime Minister's Office; how many there were in each Office in each of the last three years; and if she will make a statement. [286167]

Angela E. Smith: The Cabinet Office, including the Prime Minister's Office, has used the following number of photocopiers and scanners in past three years:

	Photocopiers	*Scanners*
May 2009	19	16
May 2008	19	19
May 2007	19	21

Fax machines are procured by individual management units, and we do not keep records of their numbers centrally. There would be a disproportionate cost involved in collecting the data.

Since 2003, my Department has had a policy of installing multi-user MFDs as the main devices for printing, scanning and photocopying. On 17 July 2008, the Cabinet Office launched the Greening Government ICT Strategy. Its aim is to reduce the environmental impact of the computer systems employed by all Government bodies. One important target is to reduce the overall number of printers, photocopiers and scanners used by an organisation and replace them with multi-function devices (MFDs) where security issues allow.

Departmental Manpower

Jo Swinson: To ask the Minister for the Cabinet Office what percentage of employees in the Leader of the House's Office are *(a)* women and *(b)* men; and what the average hourly pay of (i) male employees and (ii) female employees in that Office was in the latest period for which figures are available. [287120]

Angela E. Smith: The staff in the office of the Leader of the House of Commons are part of the Cabinet Office. Information on what percentage of employees in the Cabinet Office are *(a)* women and *(b)* men is published on the Office for National Statistics website and can be found here:

http://www.statistics.gov.uk/downloads/theme_labour/CivilService_tables_2008.xls#Table35'!A1

The Government's evidence to the senior salaries review body provides analysis of senior civil service pay levels by gender and can be found here:

http://www.ome.uk.com/downloads/SSRB%2031st%20Report%202009.pdf

For staff below the senior civil service there is no statistical difference in average salaries of male employees and female employees in the Cabinet Office in the same pay band.

Information on Cabinet Office pay bands is published on the Cabinet Office website and can be found here:

http://www.cabinetoffice.gov.uk/about_the_cabinet_office/working_for/paybands.aspx.

Departmental Sick Leave

Norman Lamb: To ask the Minister for the Cabinet Office (1) how many staff in the Cabinet Office were on sick leave for *(a)* over 30 days, *(b)* over 50 days and *(c)* over 100 days in each of the last five years; [256318]

(2) how many staff in the Cabinet Office were recorded as having been on sick leave for over 12 months on 31 December in each of the last five years. [256639]

Angela E. Smith: The Cabinet Office continues to promote health and wellbeing as part of a civil service policy to reduce absence, increase employee engagement, productivity and so improve service delivery.

The number of staff off on sick leave for *(a)* over 30 days, *(b)* over 50 days and *(c)* over 100 days is set out in the following table based on working days:

	30 to 49 Days	*50 to 99 days*	*Over 100 days*
2004	26	26	12
2005	30	23	17
2006	17	16	7
2007	29	19	9
2008	19	16	8

There were fewer than five members of staff off for over 12 months in each of the last five years. The exact number of staff is not reported as to do so may identify individual members of staff.

According to Cabinet Office records the absence rate is 5.1 days per staff year and is one of the lowest absence rates in the civil service.

The Cabinet Office continue to promote health and wellbeing as part of a civil service policy to reduce absence, increase employee engagement, productivity and so improve service delivery.

The number of staff with no sick absence during the 12 month period ending 30 September 2008 has increased by 1 per cent.

Departmental Standards

Mr. Maude: To ask the Minister for the Cabinet Office what steps 10 Downing Street is taking in respect of Cabinet Office Departmental Strategic Objective 4 to achieve a 50 per cent. reduction in avoidable contact with members of the public by 31 March 2011. [270135]

Angela E. Smith: All Government Departments seek to ensure that their dealings with the public are as helpful and productive as possible. Any contact members of the public may wish to have with 10 Downing street is not affected in any way by the requirements of departmental strategic objective 4.

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer of 17 March 2009, *Official Report*, column 1059W, on departmental standards, what method her Department uses to assess whether its targets in respect of avoidable contact have been met. [271938]

Angela E. Smith: All Government Departments seek to ensure that their dealings with the public are as helpful and productive as possible. Central Government Departments are required to declare the levels of avoidable telephone contact in their Departments as assessed at April 2008 and to halve these values by March 2011. The Cabinet Office has focussed its attentions on the Department for Transport (DFT), Department for Work and Pensions, HM Revenue and Customs (HMRC) and NHS Direct. These Departments account for around 90 per cent. of telephone contact with central Government. Cabinet Office is working with the remaining Departments, who will provide their baseline levels of avoidable contact later in the year.

Upon publication of their avoidable contact levels, all Departments will be required to provide quarterly updates outlining the progress they are making to achieving the March 2011 reduction target.

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer of 17 March 2009, *Official Report*, column 1059W, on departmental standards, what performance measures in respect of avoidable contact apply to 10 Downing Street. [271945]

Angela E. Smith: The 2007 Service Transformation Agreement (STA) requires public-facing service delivery departments to report their levels of avoidable contact. As the Prime Minister's Office is not a service delivery department, it does not need to follow the STA requirement on reporting avoidable contact. However, all Government Departments, and of course the Prime Minister's Office, work to ensure that their dealings with the public are as helpful and productive as possible.

Ministerial Policy Advisers

Daniel Kawczynski: To ask the Minister for the Cabinet Office how many staff based in 10 Downing Street who advise the Prime Minister on foreign policy are not members of staff of the Foreign and Commonwealth Office. [284027]

Tessa Jowell *[holding answer 3 July 2009]:* The Prime Minister receives advice on foreign policy from the Foreign and Commonwealth Secretary and his Department. The Prime Minister also has two advisers on foreign and defence policy and Europe and global issues. They head two sections of the Cabinet Secretariat in the Cabinet Office which support the Prime Minister and the Cabinet by, where appropriate, providing co-ordinated advice on foreign policy issues.

Pay

Mr. Maude: To ask the Minister for the Cabinet Office what the average rate of change of pay growth, including bonuses, in the *(a)* private and *(b)* public sector was in the last 12 months. [287348]

Angela E. Smith: The information requested falls within the responsibility of the UK statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, July 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking for the average rate of change of pay growth, including bonuses, in the *(a)* private and *(b)* public sector in the last 12 months. (287348)

This information is published each month in Table 1S of the Labour Market Statistics Statistical Bulletin. The Table provides annual growth rates based on single months and rates based on three monthly averages. The ONS preferred measure is the three monthly rate as it is less erratic. The latest information, relating to May 2009, was published on 15 July—the three monthly rates for the private sector and public sector are reproduced at the Annex. The Table shows that private sector pay in the three months ending in May was 1.9 per cent. higher than the same three months a year ago. This compares to a growth of 3.5 per cent. in the public sector.

Average Earnings Index: Three monthly growth rates, (average of the latest three months compared to same three months a year earlier)

	Private sector (%)	*Public sector (%)*
June 2008	3.2	3.3
July 2008	3.5	3.4
August 2008	3.4	3.5
September 2008	3.1	3.9
October 2008	3.2	3.8
November 2008	2.9	4.0
December 2008	2.8	4.0
January 2009	1.2	4.0
February 2009	-0.4	3.8
March 2009	-1.1	3.6
April 2009	0.4	3.5
May 2009	1.9	3.5

Notes:
1. Based on seasonally adjusted data.
2 Excluding arrears of pay.

Public Bodies

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer of 5 May 2009, *Official Report*, columns 93-99W, on public bodies, for what reason *(a)* the Met Office, *(b)* Ordnance Survey, *(c)* Royal Mint and *(d)* the Queen Elizabeth II Conference Centre were reclassified as public corporations. [287278]

Angela E. Smith: The information requested falls within the responsibility of the UK statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking for what reason (a) the Meteorological Office, (b) Ordnance Survey, (c) Royal Mint and (d) the Queen Elizabeth II Conference Centre were reclassified as public corporations. (287278)

For national accounts purposes public sector entities are classified in line with international guidance. The guidance is set out in the United Nations' 1993 System of National Accounts (SNA93), and for the European Union in the 1995 European System of Accounts (ESA95).

In line with ESA 95 public sector market entities are classified as public corporations, either within the financial corporations sector or the non-financial corporations sector, and public sector non-market entities are classified in the general government sector. The borderline between market and non-market classification is dependent on whether more than fifty per cent of production costs are covered by sales.

(a) The Meteorological Office was classified as a public corporation from 1996. Prior to this it was classified as central government within the general government sector.

(b) Ordnance Survey was classified as a public corporation from 1999. Prior to this it was classified as central government within the general government sector.

(c) Royal Mint has been classified as a public corporation from 1975.

(d) Queen Elizabeth II Conference Centre was classified as a public corporation from 1997. Prior to this it was classified to central government within the general government sector.

In May 2009 you asked a question (271969) which related to the definition of the Civil Service. Pursuant to this question, employees of the Meteorological Office, Ordnance Survey, Royal Mint and Queen Elizabeth Conference Centre are all included in the ONS' estimates for the Civil Service.

Skin Cancer

Norman Lamb: To ask the Minister for the Cabinet Office how many cases of basal cell carcinoma were diagnosed in patients aged *(a)* under 30, *(b)* 31 to 60 and *(c)* over 60 years of age in each of the last 10 years. [286305]

Angela E. Smith: The information requested falls within the responsibility of the UK statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how many cases of basal cell carcinoma were diagnosed in patients aged (a) under 30, (b) 30 to 59 and (c) over 60 years of age in each of the last 10 years [286305]

The latest available figures for newly diagnosed cases of cancer (incidence) are for the year 2006. Registrations of newly diagnosed cases of non-melanoma skin cancer which had a cell type (morphblogy) identified as basal cell carcinoma, in patients aged (a) under 30, (b) 30 to 59 and (c) over 60 years from 1997 to 2006, are given in Table 1.

ONS has been advised by expert epidemiologists and members of the former Steering Committee on Cancer Registration that non-melanoma skin cancer is greatly under-registered. Consequently, the figures given are likely to be under-estimates.

Table 1: Registrations of newly diagnosed cases of non-melanoma skin cancer identified as basal cell carcinoma[1] by age group: England, 1997 to 2006

Registrations

Age group	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*
<30	183	185	205	187	209	213	234	209	221	210
30-59	7,236	8,265	8,282	8,674	9,445	9,537	10,052	10,396	10,575	10,747
60+	23,255	26,725	26,914	28,311	30,009	30,425	31,765	34,185	35,680	36,440
Total	30,674	35,175	35,401	37,172	39,663	40,175	42,051	44,790	46,476	47,397

[1] Cases were identified as new registrations coded to C44 (non-melanoma skin cancer) in the International Classification of Diseases, Tenth Revision (ICD-10) accompanied by a morphology code of M8090/3 - M8093/3 (basal cell carcinoma) in the International Classification of Diseases for Oncology, Second Revision (ICD-02).

CHILDREN, SCHOOLS AND FAMILIES

Building Schools for the Future Programme

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many schools have received Building Schools for the Future funding for ICT projects in each year since 2005; and if he will make a statement. [286962]

Mr. Coaker: ICT is an integral component of Building Schools for the Future and accounts for approximately 10 per cent. of capital funding provided through that programme. Funding is paid to local authorities rather than to individual schools. To date, 37 local authority projects (and 10 "early win" schemes) have signed contracts covering more than 200 schools. The table shows the break down of BSF contracts which include funding for ICT services.

	Number of schools
2005	10
2006	41
2007	51
2008	46
2009 (to July)	53
Total	201

86 of these projects have already been completed, providing 21st century ICT facilities for over 80,000 young people.

Children: Disabled

Annette Brooke: To ask the Secretary of State for Children, Schools and Families if he will undertake a public information campaign on the rights of children with disabilities. [287303]

Ms Diana R. Johnson: The Government are committed to children's rights, including disabled children's rights, and to making a reality of the United Nations Convention on the Rights of the Child (UNCRC) in the UK. The Government have funded a number of initiatives aimed at raising awareness of the UNCRC such as the

development of a curriculum resource for teachers on the UNCRC to be used with key stage 3 pupils. We provide funding to UNICEF for their Rights Respecting Schools initiative. Training related to human rights and the UNCRC is available for a wide range of professionals working with children.

We have also been working closely with the national strategies to develop new and innovative ways of raising awareness of schools' responsibilities under the Disability Discrimination Act 2005. Work so far has included: workshops at conferences that have had a specific focus on schools' duties and we have also hosted an online discussion on the *Guardian* education website. Ministers have also highlighted the importance of schools' compliance with the disability discrimination legislation in speeches. We are currently discussing with the national strategies what else can be done to further raise awareness of schools' duties.

Children's Workforce Development Council

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what responsibilities the Children's Workforce Development Council has for *(a)* childcare training and *(b)* accreditation of childcare training schemes. [287307]

Dawn Primarolo: The Children's Workforce Development Council (CWDC) is a key organisation in delivery of the 2020 Children and Young People's Workforce Strategy and this includes responsibility for developing the Early Years workforce.

The CWDC's work includes developing the Early Years Professionals Status and ensuring that training and assessment is high quality, that enough candidates are recruited to meet the Government's aims for Early Years Professionals[1] and that the rest of the workforce are qualified to at least level 3. The CWDC has also developed a new process for the sector endorsement of Early Years Foundation Degrees which is a bridge for practitioners from Level 3 to Early Years Professional Status.

CWDC is not responsible for the accreditation of training but has a role in the approval of qualifications.

The accreditation of qualifications for those in the early years workforce is the responsibility of the relevant awarding organisations offering these qualifications.

However, in order for qualifications to sit on the regulated framework they must receive approval from the relevant Sector Skills Council. CWDC is part of the Sector Skills Council, Skills for Care and Development and responds to qualification approval requests on behalf on the early years workforce in England. The CWDC reviews qualifications to ensure they reflect current policy and the available National Occupational Standards (NOS).

[1] The Government aim to have an EYP in every children's centre by 2010 and in every full daycare setting by 2015.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what functions have been transferred from his Department to the Children's Workforce Development Council. [287309]

Dawn Primarolo: Since its establishment in 2005, a small number of functions have been transferred to the Children's Workforce Development Council from the Department for Children, Schools and Families. These include:

- the maintenance of the Early Years and Playwork qualifications database, and providing a helpline for employers and individuals with queries about it;
- the endorsement of Foundation Degrees in early years, and in Working with Young People;
- ownership of National Occupational Standards in Learning, Development and Support Services;
- maintaining and updating managers' and practitioners' guidance and training materials on the Common Assessment Framework, Lead Professional, and updating the Common Assessment Form itself.

Educational Visits: National Curriculum Tests

Mr. Sanders: To ask the Secretary of State for Children, Schools and Families what representations he has received in respect of the cancellation of school excursions arising from the proposed scheduling of Key Stage 2 standard assessment tests in June. [287147]

Mr. Coaker: Key Stage 2 tests in 2010 will be administered between 10 and 14 May as planned; schools will not need to cancel school excursions in 2010 as a result of the scheduling of Key Stage 2 tests.

The Government have accepted the Expert Group on Assessment's recommendation that National Curriculum Key Stage 2 tests should be administered in the middle of June, rather than in May. Having taken account of QCA and Ofqual's advice, we will seek to implement the Expert Group's recommendation on moving the test to mid June in 2011.

GCSE

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many schools in which *(a)* five, *(b)* 10, *(c)* 15 and *(d)* 20 per cent. of pupils received three or more fixed term exclusions had less than 30 per cent. of pupils gain five GCSEs, including English and mathematics at grades A* to C in each year since 2005. [282728]

Mr. Coaker: The information requested can be provided only at disproportionate cost.

Implementation Review Unit

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families with reference to paragraph 5.13, page 74, of his Department's publication, "Your child, your schools, our future", what funding his Department has allocated to the Implementation Review Unit in 2009-10. [286890]

Mr. Coaker: The Implementation Review Unit (IRU) was established in 2003 with a specific remit to advise the Department on reducing bureaucracy in schools. The Department has allocated £250,000 to the IRU for 2009-10. This will cover the costs of the review of barriers to delivery in schools as outlined in "Your child, your schools, our future: building the 21st century schools system" as well as all expenditure related to IRU meetings and other research relating to burdens and bureaucracy in schools.

Mathematics: Primary Education

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much his Department spent on the National Strategies advertisements, "Ensuring progression in primary mathematics", in June and July 2009; and if he will make a statement. [286562]

Mr. Coaker: The cost was £3,358. The guidance identified in the advert is designed to help teachers understand key learning that children need to secure to attain level 4 in mathematics. Alerting teachers to valuable free resources in this manner has generated strong demand at relatively little cost and represents value for money.

Pupils: Per Capita Costs

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families how much has been spent on average per child on *(a)* (i) pre-school, (ii) primary school and (iii) 11 to 16 year-old secondary school pupils in schools in York and *(b)* sixth form students in (A) schools in York and (B) York College in (1) cash and (2) real terms in each year since 1996-97. [285781]

Mr. Coaker: The information on school based expenditure per pupil and combined local authority and school based expenditure per pupil from 1996-97 to 2007-08 is contained within the following tables.

The Learning and Skills Council is responsible for funding schools sixth forms and FE and sixth form colleges. I will ask the LSC's chief executive, Geoff Russell, to write to my hon. Friend with the information requested for sixth form students in schools in York and York College.

£ cash terms

	Primary school based expenditure per pupil	*Pre-primary and primary school based expenditure per pupil*	*Secondary school based expenditure per pupil*	*Combined LA and school based expenditure per pupil*

2007-08	3,360	[4]	4,280	4,910

[1] Combined local authority and school based expenditure includes all expenditure on the education of children in local authority maintained establishments and pupils educated by the authority other than in maintained establishments. This includes both school based expenditure and all elements of central LA expenditure except youth and community and capital expenditure from revenue (CERA). Pupil figures include all pre-primary pupils, including those under 5s funded by the authority and being educated in private settings (only available from 1999-2000), pupils educated in maintained mainstream schools and any other local authority maintained pupils. All pupil numbers are adjusted to be on a financial year basis.

[2] Spending in 1997-98 reflects the transfer of monies from local government to central Government for the nursery vouchers scheme. These were returned to local government from 1998-99.

[3] Figures prior to 1999-00 exclude any expenditure on service, strategy and regulation.

[4] Denotes figures are not available or have not been scored on a consistent basis.

Notes:

1. The expenditure data to 1998-99 are drawn from the annual 'R01' spending returns which local authorities submitted to the former Office of the Deputy Prime Minister (ODPM) (now CLG). Figures for 1999-2000 to 2001-02 are drawn from Section 52 (Table 3) Outturn statements which local authorities submitted to the then DFES (now DCSF). Figures for 2002-03 onwards are taken from Section 52 (Table A) Outturn statements. The change in sources is marked by an empty row.

2. School based expenditure includes only expenditure incurred directly by local authority maintained schools. This includes the pay of teachers and school-based support staff, school premises costs, books and equipment, and certain other supplies and services, less any capital items funded from recurrent spending and income from sales, fees and charges and rents and rates. This excludes the central cost of support services such as home to school transport, local authority administration and the financing of capital expenditure. The pupil data are drawn from the DCSF Annual Schools Census adjusted to be on a financial year basis.

3. From 2002-03 onwards the school based expenditure calculation is broadly similar to the calculation in previous years. However, 2001-02 and earlier years includes all premature retirement compensation (PRC) and Crombie payments, mandatory PRC payments and other indirect employee expenses, while from 2002-03 only the schools element of these categories is included. In 2001-02 this accounted for approximately £70 per pupil of the England total, while the schools element of these categories accounted for approximately £50 per pupil of the England total in 2002-03. Also, for some LAs, expenditure that had previously been attributed to the school sectors was reported within the LA part of the form from 2002-03 and would therefore be excluded from the school based expenditure calculation, though this is not quantifiable from existing sources.

4. Expenditure was distinguished between the pre-primary and primary sector until the inception of Section 52 for the 1999-00 financial year. Consequently we have provided a combined figure for pre-primary and primary schools for 1996-97 to 2001-02 financial years.

5. 1999-2000 saw a change in data source when the data collection moved from the R01 form collected by the ODPM to the Section 52 form from the DCSF. 2002-03 saw a further break in the time series following the introduction of Consistent Financial Reporting (CFR) to schools and the associated restructuring of the outturn tables.

6. Secondary school based expenditure includes all expenditure incurred directly by local authority maintained secondary schools. It is not possible from existing sources to distinguish this expenditure between expenditure on 11 to 16-year-olds and expenditure on 6th form pupils attending maintained secondary schools.

7. The expenditure data for 1999-2000 onwards reflect the return of grant maintained schools to local authority maintenance.

8. Figures are rounded to the nearest £10. As reported by York local authority as at 10 July 2009.

9. Cash figures are converted to 2008-09 prices using the 30 June 2009 Gross Domestic Product (GDP) deflators.

Schools

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families with reference to paragraph 2.25, page 32 of his Department's publication, "Your child, your schools, our future", what is the research evidence referred to. [286884]

Mr. Coaker: The following is a summary of the research evidence referred to in the first sentence of paragraph 2.25 of "Your child, your schools, our future, building a 21st century schools system":

Summary of research evidence on the importance of high quality teaching and teachers:

1. Having high quality teachers and teaching is essential to the achievement of whole-school success. Improvements in teaching have been facilitated by organisational factors, for example, careful recruitment, quality assurance schemes, support for teachers to focus on teaching and sharing of good practice (Rudd et al., 2002).

2. Barber and Mourshed (2007) at McKinsey and Company, argued that the biggest driver of variation in pupil learning is teacher effectiveness and present a strong argument for focusing on recruiting high quality teachers in order to raise attainment of pupils. In particular, they refer to a US study by Sanders and Rivers (1996) that showed that two average eight-year-old pupils placed with different teachers diverged in their performance by more than 50 percentile points within three years. However, this study needs to be treated with caution as the research was conducted in a small number of schools.

3. Slater et al. (2009) estimated the effect of individual teachers on pupil outcomes, and the variability of teacher quality, which they refer to as teacher's impact on test scores. They used a unique primary dataset linking over 7,000 pupils, their exam results and prior attainment to the individual teachers who taught them. They found that a high quality teacher (75th percentile) compared to a low quality teacher (25th percentile) can add 0.425 of a GCSE point per subject to a given pupil, or 25 per cent. of the standard deviation of GCSE points. This further demonstrates the importance of having effective teachers.

Summary of research evidence suggesting that pupils from deprived backgrounds are less likely to experience good quality teaching:

1. There is evidence to suggest that pupils from deprived backgrounds may be less likely to experience good quality teaching. Sammons et al. (2006), in an analysis of teaching practice in 125 year 5 classes, found that the quality of teaching tended to be poorer in schools with higher levels of pupils eligible for free school meals. Differences were apparent in areas such as basic skills development, depth of subject knowledge, social support for learning, pupil engagement and classroom routines. Cabinet Office (2008a) cited evidence that teachers in schools with more than 20 per cent. FSM eligibility were more likely to be rated worse in their teaching, and less likely to have come from an outstanding teacher training institution. Furthermore, Thrupp and Lupton (2006) reported that unchallenging work was evident among schools with deprived intakes.

2. Also, secondary schools with higher proportions of pupils eligible for FSM have, on average, teachers with lower levels of qualifications than other schools. Charles et al. (2007) found that schools in the higher FSM quintiles had fewer teachers with degrees in the subject they taught, compared with schools in the lower FSM quintiles. This was true for most subjects analysed, with the exception of ICT and design and technology, in which teacher qualifications were higher in schools with higher proportions of FSM.

Schools: Sandwell

Mr. Watson: To ask the Secretary of State for Children, Schools and Families how much capital spending there was on *(a)* schools and *(b)* children's centres in Sandwell in each of the last 20 years. [286380]

Mr. Coaker: The information is as follows.

(a) Support for capital investment in schools in Sandwell is shown in the table. Information prior to 1996-97 is not held centrally.

	Schools (£ million)
1996-97	3.4
1997-98	5
1998-99	3.4
1999-2000	4.6
2000-01	[1]27.3
2001-02	10.2
2002-03	20.4
2003-04	20.2
2004-05	20
2005-06	17.6
2006-07	16.7
2007-08	15
2008-09	14.1

[1] Includes a PFI project of £17 million

In addition, Sandwell has a Building Schools for the Future (BSF) wave 3 project with an indicative allocation of £137.2 million of conventional funding and £62.9 million of PFI credits.

Sandwell has a further BSF wave 5 project at planning stage. Allocations have also been made for traditionally procured academies of £24.4 million in 2002-03 and £57 million in 2006-07.

(b) Support for capital investment on Children's Centres in Sandwell is shown in the table.

	Children's Centres (£ million)
1999-2005	4.8
2005-06	3.2
2006-07	5.0
2007-08	2.1
2008-11	1.3

A breakdown for the years 1999 to 2005 is not available as the funding was provided as a single capital allocation through the Sure Start Local Programme. Please note the total allocation for the current spending period (2008-11) has been provided as the 2008-09 audited spend data are not yet available.

Schools: Standards

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families with reference to paragraph 3.3, page 44 of his Department's publication, "Your child, your schools, our future", if he will publish the data supporting his statement that children educated at schools which operate in a form of partnership achieve better results. [282888]

Mr. Coaker: The statement in paragraph 3.3 of "Your child, your schools, our future, building a 21st century schools system" that children educated at schools which operate in a form of partnership offer enhanced opportunities to children and achieve better results is based on published evidence.

Atkinson et al. (2007) conducted a literature review of inter-school collaboration[1], which synthesises and extracts common characteristics of how partnerships can be effective, and gives an overview of the ways partnerships can work. They listed 17 recent initiatives that involve collaborations (for example Diversity Pathfinder Initiative; Beacon Schools scheme; and extended services schools).

[1] The review focused on 39 studies from 1997 onwards.

Atkinson et al. (2007) report gains for school, school staff and pupils taking part in inter-school collaboration

Gains for the school:

economic advantages (for example sharing of resources, accessing new funding streams and economies of scale);

school improvement and raised standards, including improvements in pupil attainment (for example from an enhanced curriculum and development of teacher expertise);

the forging of closer relationships between participating schools and from this outcome, a greater awareness and understanding of other schools; and

it was said that bringing schools together can break down barriers so that they can work together in a mutually beneficial way.

Gains for school staff:

opportunities to exchange ideas and good practice;

new opportunities for training and professional development; and

an enriched support network (a larger number of colleagues available to discuss concerns and issues) which reduced a sense of professional isolation, which could lead to an increase in staff confidence, motivation and morale.

Gains for pupils:

enjoyed an enhanced educational experience (for example better choice of subjects, access to specialist teaching i.e. more personalised learning, and opportunities for out-of-school excursions);

improved attainment was also reported;

increased social opportunities from interacting with pupils from other schools;

where these pupils came from different backgrounds (for example faiths and cultures) there was also the possibility of increasing awareness and understanding of different lifestyles; and

where partnerships existed between primary and secondary schools, increased contact was said to make the transition much easier for pupils moving on to secondary school.

A report published by the National College of School Leadership (2008) entitled "Schools leading schools: the power and potential of National Leaders of Education" highlights the following successes in relation to the National Leaders of Education (NLE) programme:

By July 2008, NLEs had supported 19 schools to be removed from special measures or have NTI withdrawn.

GCSE results in 2008 show marked improvement in schools in which NLEs have worked for one year or more.

Independent evaluation reports commissioned by NCSL over the two years the NLE programme has developed have found the NLE programme to be effective in selecting, appointing and deploying NLEs, in delivering improvements and in removing schools from Ofsted categories.

NCSL Schools Leading Schools report states that "there is a clear association between NLE intervention and improved results".

Social Workers

Dr. Kumar: To ask the Secretary of State for Children, Schools and Families how many full-time children's social workers there are in *(a)* Middlesbrough South and East Cleveland constituency, *(b)* Teesside, *(c)* the North East and *(d)* England. [282904]

Dawn Primarolo: Detailed information on all staff, including children's social workers, directly employed by social services departments is collected by the Department of Health (DH) through the Personal Social Services staff of Social Services Departments return (SSDS001). Since 2004-05 the return has been the responsibility of the NHS Information Centre for health and social care. These data have been published on an annual basis with breakdown by local authority available in the supporting annexes published alongside each report.

Reports published from 2006 onwards are available on the NHS Information Centre website here:

http://www.ic.nhs.uk/statistics-and-data-collections/social-care/childrens-social-care

Special Educational Needs: Pupil Exclusions

Mr. Marsden: To ask the Secretary of State for Children, Schools and Families when he expects to publish the findings of his research into local authority practice on exclusions for children with special educational needs. [286870]

Mr. Coaker: The Department is working with the National Strategies and local authorities to identify good practice among authorities with low rates of exclusion of children with SEN.

With National Strategies, the Department has conducted a series of visits to local authorities designed to identify the factors behind why some authorities are able to maintain low rates of SEN exclusions, while others have higher rates.

National Strategies will publish the outcomes of these visits in autumn 2009.

The Department has asked the National Strategies to support and challenge the highest excluding authorities (including authorities where SEN exclusions are disproportionately high) to reduce the need for exclusion, and to spread good practice from the lower excluding authorities from summer term 2009. The findings from the visits will inform this work.

Findings from the visits will also feedback in Ofsted SEN survey 2009-10 that will focus on the Every Child Matters outcomes achieved by children with special educational needs and disabled children.

Mr. Marsden: To ask the Secretary of State for Children, Schools and Families when he next expects to revise his Department's guidance to schools on pupil exclusions; and what his policy is on holding a case review before children with a special educational need or disability is excluded. [286871]

Mr. Coaker: Existing exclusions guidance already contains strong messages on special educational needs (SEN) exclusion issues. The existing version of this guidance, last revised in September 2008, states that schools should try every practicable means to maintain a pupil with SEN in school, seeking local authority and other professional advice as appropriate. It goes on to state that this might include seeking local authority and other professional advice at "School Action Plus", or where appropriate, asking a local authority to consider carrying out a statutory assessment.

In addition, the guidance sets an expectation that, following a permanent exclusion, the head teacher should use the period between his or her initial decision and the meeting of the governing body to review the exclusion and to work with the local authority to see whether more support can be made available or whether the statement can be changed to name a new school. If either of these options is possible, the head teacher should normally withdraw the exclusion.

We will also be reinforcing the focus of behaviour and attendance partnerships on a range of outcomes, including the need to reduce disproportionately high exclusions of pupils with SEN in a new guidance due to be published later this year.

Specialised Diplomas

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many pupils he expects to enrol on a diploma course in each subject in September 2009; and if he will make a statement. [286958]

Mr. Iain Wright: It is too soon to say how many pupils will be enrolled on a diploma course from this September. Young people are still making choices about which course to study and will do so in part based upon examination results to be published in August.

COMMUNITIES AND LOCAL GOVERNMENT

Council Housing: Standards

Ms Keeble: To ask the Secretary of State for Communities and Local Government (1) how many and what percentage of the housing stock in each local authority did not meet the Decent Homes Standard on the latest date for which figures are available; [287310]

(2) what percentage of housing stock in each local authority did not meet the Decent Homes Standard in each of the last five years. [287311]

Mr. Ian Austin: A set of tables containing the information requested has been placed in the Library.

Departmental Data Protection

Mr. Blunt: To ask the Secretary of State for Communities and Local Government how many breaches of information security there have been at *(a)* his Department and *(b)* its agencies in the last five years. [281067]

Mr. Malik: In the five years to 31 March 2009, there have been four breaches of information security at Communities and Local Government.

The Department and its agencies report all significant personal data security breaches to the Cabinet Office and the Information Commissioner's Office. Information on personal data security breaches are published on annual basis in the Department's annual resource accounts as was announced in the data handling review published on 25 June 2008.

Additionally, all significant control weaknesses including other significant security breaches are included in the statement of internal control that is published within the annual resource accounts.

This answer does not include the Government Office for the English Regions, which carries out work for 10 Government Departments.

Departmental Databases

Jenny Willott: To ask the Secretary of State for Communities and Local Government (1) what categories of personal information on members of the public are contained on each database that contains such data managed by his Department and its agencies; when each category of information was first collected; and if he will make a statement; [284894]

(2) what databases managed by his Department and its agencies hold personal information on members of the public; on what date each such database became operational; and if he will make a statement; [285983]

(3) which of the planned databases that will be managed by his Department or one of its agencies and which will hold personal information on members of the public are expected to become operational in each of the next five years; and if he will make a statement. [286143]

Mr. Malik: Detailed information pertaining to all databases holding personal information in both CLG and its Government Office network is not held centrally. Communities and Local Government holds a variety of databases, including some containing personal data of members of the public and other stakeholders: details of some of these can be accessed via the Department's information asset register at:

http://www.communities.gov.uk/corporate/foi/communities-lgps/asset-register/

These are required for the purposes of conducting its business and implementing its policy agenda. The personal data involved are mainly contact details for stakeholders who have been consulted on issues relating to departmental business and expressed a wish to be kept informed on policy developments, although some databases are more specialised. In the case of the majority of the databases the data collection is recent, and whenever new databases are set up steps are taken to ensure that they are compliant with the Data Protection Act.

New databases containing personal data are set up as and when policy development and implementation of policy dictate the operational need for them. It is not possible to plan or predict which areas of business or policy will require the setting up of a database up to five years ahead.

Departmental Ministerial Policy Advisers

Robert Neill: To ask the Secretary of State for Communities and Local Government (1) how many policy advisers work for the Minister for Housing and Planning; [286643]

(2) what the job *(a)* title and *(b)* description is of each policy adviser, other than special advisers, who has been recruited by his Department in the last six months. [286684]

Mr. Malik: All civil servants in the Department provide policy advice to Ministers as necessary. Specialist staff are from time to time recruited on a time-limited basis to provide additional expertise and capacity as required.

Electromagnetic Fields: Health Hazards

Dr. Stoate: To ask the Secretary of State for Communities and Local Government what guidance his Department *(a)* has issued and *(b)* plans to issue to local planning authorities on planning applications for housing and schools located close to high voltage overhead power lines. [286726]

Mr. Ian Austin: The stakeholder advisory group on extremely low frequency electromagnetic fields (SAGE) published a report in April 2007 which made a number of recommendations to Government on ways to reduce people's exposure to extremely low frequency electromagnetic fields (ELF EMF). The Government are currently finalising their response to the SAGE report.

Housing Revenue Accounts

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government what the level of housing revenue account subsidy was for each local authority in 2009-10. [287113]

Mr. Ian Austin: It is too early as yet to say what the individual subsidy position for each authority will be in 2009-10 as their first subsidy claims for that year do not reflect factors that impact on subsidy entitlement, such as major repairs allowances brought forward from 2010-11 to 2009-10.

Housing: Greater London

Ms Buck: To ask the Secretary of State for Communities and Local Government how many *(a)* homeless, *(b)* statutorily overcrowded, *(c)* medical priority and *(d)* family quota households are on each London local authority housing waiting list. [284717]

Mr. Ian Austin: This information is not held centrally.

Housing: Low Incomes

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the average market value was of a property designated as being available under the *(a)* HomeBuy Direct, *(b)* New Build HomeBuy, *(c)* Rent to HomeBuy and *(d)* First-time Buyers Initiative in each of the last three years. [285964]

John Healey: I refer the hon. Member to the answer given to him by the right hon. Member for Derby South (Margaret Beckett) on 19 May 2009, *Official Report*, column 1352W and the answer he was given by the hon. Member for Hartlepool (Mr. Wright) on 5 May 2009, *Official Report*, column 137W.

In 2006-07 the average price of property designated as available under the NewBuild HomeBuy scheme was £163,460. Data for 2008-09 is not yet available from the Continuous Recording (CORE) returns to the Tenant Services Authority from registered social landlords.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what budget his Department initially set for 2009-10 for *(a)* HomeBuy Direct, *(b)* OwnHome, *(c)* OpenMarket HomeBuy, *(d)* the First Time Buyers Initiative, *(e)* MyChoice HomeBuy, *(f)* New Build HomeBuy, *(g)* Social HomeBuy and *(h)* Rent to HomeBuy. [286010]

John Healey: We have not set individual budgets for each HomeBuy scheme to ensure flexibility within the Homes and Communities Agency's programme.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what target has been set for the number of new affordable homes to be

built in each region in *(a)* 2009-10 and *(b)* 2010-11; how many he expects to be built in each region in each of those years; and how many he expects to be available for social rent in each case. [287305]

Mr. Ian Austin: I refer the hon. Member to the answer I gave him on 8 July 2009, *Official Report*, column 905W.

Housing: Overcrowding

Ms Keeble: To ask the Secretary of State for Communities and Local Government what the performance of each local authority against the statutory overcrowding standard for housing was in the latest period for which figures are available. [287390]

Mr. Ian Austin: This information is not collected by Communities and Local Government.

Islam

Mr. Wallace: To ask the Secretary of State for Communities and Local Government what support his Department is giving to the independent Mosques and Imams National Advisory Board to raise standards in mosques; what objectives have been set for such standards; and how much his Department has budgeted for such support activities. [286106]

Mr. Malik: The Department for Communities and Local Government provided support to the independent Mosques and Imams National Advisory Board (MINAB). MINAB is a community-led organisation and we supported it to develop standards for mosques, which were widely consulted on and piloted. In addition, we supported the development of its operational plan and its first Annual General Meeting.

We allocated the following sums to MINAB: £75,600 in 2007-08; £116,000 in 2008-09; and £58,000 between April and June 2009.

Further information about MINAB, including its five standards, can be found on their website:

www.minab.org.uk

Mr. Wallace: To ask the Secretary of State for Communities and Local Government how many Radical Middle Way *(a)* roadshows and *(b)* other events have taken place in the UK and overseas since 2007; where they have taken place; what the cost of each has been; what assessment has been made of the outcome of each event; and for what dates future such shows have been scheduled. [286107]

Mr. Malik: From October 2007 to June 2008 the RMW held a total of 34 road show events and a number of other formal and informal meetings with domestic and international scholars and speakers in the following locations:

London; Luton; Leicester; Birmingham; Liverpool; Bradford; Peterborough; Milton Keynes; Woking; and Manchester.

CLG and the Foreign and Commonwealth Office provided funding of £250,000 to the project in 2007-08 to support the programme of events including support for the RMW website (£12,000) and external evaluation.

From June 2008 to May 2009 the RMW held a total of 48 road show events and a number of formal and informal meetings with domestic and international scholars and speakers in the following locations:

Blackburn; Bradford; Cambridge; London; Birmingham; Peterborough; Hounslow; High Wycombe; Leicester; Manchester; Milton Keynes; Slough; Derby; Bristol; Rochdale.

CLG has provided funding of £350,000 to the project to support the programme of events. This also included support for the RMW website and an external evaluation.

RMW held its first international road show to Sudan in April 2009, reaching an estimated 25,000 people through six large public events. The FCO provided £70,000 to support this road show and the RMW is planning further pilot road shows in Sudan, Indonesia and Pakistan by end October. The pilot phase of the international project will be evaluated by an independent company.

The RMW project is subject to an independent external evaluation following each phase. Communities and Local Government is currently in the process of determining the future direction of this particular work stream in its domestic context.

Islam: Faith Schools

Mr. Wallace: To ask the Secretary of State for Communities and Local Government which community-based organisations are involved in the development of citizenship education in mosque schools; and where each such organisation is based. [286108]

Mr. Malik: The organisation that is leading this project is the School Development Support Agency based in Leicester.

The SDSA instituted an advisory group with representation from various community based organisations. They include the following:

Ahul Bayt Foundation (London)
Al-Khoei Foundation (London)
Al Mahdi Institute (Birmingham)
British Muslim Forum (National)
Building Bridges (Pendle)
Citizenship Foundation (London)
ContinYou (Coventry)
Islamic Foundation (Markfield, Leicestershire)
Karimia Institute (Nottingham)
Mosques and Imams National Advisory Board (National)
Muslim College (London)
Muslim Council of Britain (National)
National Muslim Women Advisory Group (National)
NIDA Education Trust (London)
Sufi Muslim Council (Rochdale)

Local Authority Business Growth Incentives Scheme

Justine Greening: To ask the Secretary of State for Communities and Local Government how much funding was allocated under the Local Authority Business Growth Incentive Scheme to local authorities in *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11; and how much such funding has been (i) distributed to and (ii) spent by each local authority in each such year. [285731]

Ms Rosie Winterton: In 2008-09, £396 million in LABGI grants was allocated and distributed to local authorities, in respect of business growth in 2007-08. Details of how this funding was distributed are set out in the relevant Grant Determinations, which can be viewed on the Communities and Local Government website at:

Grant Determination No 2 (2008) [No 31/1238]

http://www.local.communities.gov.uk/finance/labgi/seconddtmn0708.pdf

Grant Determination No2 (2009) [No 31/1287]

http://www.local.communities.gov.uk/finance/labgi/contingency/dtmn.pdf

Paper copies of the above have been sent to the hon. Lady and copies have been deposited in the Commons Library.

I refer the hon. Lady to the answer given to the hon. Member for Rochdale (Paul Rowen) on 7 July, *Official Report*, column 835. The final details about the allocation and distribution of LABGI funds in 2009-10 and 2010-11 are currently being discussed with Treasury Ministers and an announcement will be made in the next few weeks.

Records are not kept centrally of how local authorities spend LABGI funding. The grants are not ring-fenced and it is for local authorities to decide how the money is best spent.

Local Government Finance

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what plans he has to allow councils to keep *(a)* receipts from Right to Buy sales and *(b)* income from rents from council housing. [286565]

Mr. Ian Austin: We announced in June that councils can keep capital receipts and rent income from any newly built council homes supported by Social housing grant or funded with the authorities' own resources. In addition we are currently considering whether there are other types of council housing on which capital receipts and rents should be retained.

My right hon. Friend the Minister for Housing's statement on 30 June 2009 also announced our intention to reform the council housing finance subsidy system and that we will be consulting on our proposals before the summer recess. This consultation will include a proposal to allow councils to keep all the capital receipts from right to buy, and income from rents.

Local Government Finance: York

Hugh Bayley: To ask the Secretary of State for Communities and Local Government how much general revenue funding has been allocated to City of York unitary authority in each year since 1996-97. [285705]

Ms Rosie Winterton: The following table shows the increases for the City of York in formula grant for each year from 1998-99 onwards on a like-for-like basis, i.e. after adjusting for changes in function and funding.

	Prior years adjusted Formula Grant2 (£ million)	*Current year's Formula Grant (£ million)*	*Change (£ million)*	*Change (percentage)*
1998-99:	80.691	80.541	-0.150	-0.2
1999-2000:	80.541	84.473	3.932	4.9
2000-01:	84.473	87.978	3.505	4.1
2001-02:	87.529	90.330	2.801	3.2
2002-03:	86.030	91.050	5.019	5.8
Amended 2003-04:	95.109	99.890	4.781	5.0
Amended 2004-05:	96.364	102.518	6.154	6.4
Amended 2005-06:	103.678	108.820	5.142	5.0
2006-0f:	35.965	37.151	1.187	3.3
2007-08:	36.950	38.343	1.392	3.8
2008-09:	41.041	42.366	1.325	3.2
2009-10:	42.321	43.480	1.160	2.7
2010-11 provisional:	43.463	44.571	1.108	2.5

[1] The prior year's formula grant is adjusted for changes in function and funding to enable a like-for-like comparison.
[2] Formula Grant comprises Revenue Support Grant, redistributed business rates, principal formula Police Grant, SSA Reduction Grant (SSA Review), SSA Reduction Grant (Police Funding Review) and Central Support Protection Grant where appropriate.
[3] Prior to 2006-07 support for schools was paid through formula grant. In 2006-07 funding for schools transferred to the Dedicated Schools Grant.

The amount of formula grant an authority receives each year is not directly comparable due to changes in funding and functions. For example, prior to 2006-07 funding for schools was included within formula grant; from 2006-07 onwards funding for schools was provided by the Dedicated Schools Grant. For this reason, we therefore adjust the prior year's formula grant, for comparison purposes only, so that it reflects the notional amount of formula grant an authority would have received in that year had we been financing the same services as in the current year.

The Department only holds data on year-on-year changes in formula grant on a like-for-like basis from 1997-98. This is because it only became necessary to make these calculations when guarantees were introduced that formula grant would not go down from one year to the next.

Planning Permission

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government whether he plans to grant planning powers to *(a)* regional development agencies, *(b)* local authority leaders' boards and *(c)* economic prosperity boards. [286516]

Mr. Ian Austin: Under the terms of the Local Democracy, Economic Development and Construction Bill, Government are to give joint responsibility for a regional strategy to *(a)* the regional development agencies and *(b)* local authorities' leaders' boards in each English region outside of London. These bodies will therefore have joint responsibility for plan-making at regional level.

It is up to local authorities to set out the functions that they wish to pass to an EPB across their area. They may decide that their EPB should play a part in spatial planning—most likely through co-operation in the

production of local development frameworks. It is very unlikely that local authorities would propose ceding the power to make particular planning decisions to an EPB and also unlikely that the Secretary of State would agree to such an arrangement, as the Government wish the link between planning decisions and direct local democratic accountability to be maintained.

Regional Planning and Development

Mr. Drew: To ask the Secretary of State for Communities and Local Government how much funding his Department has allocated to regional empowerment partnerships in the last three years. [286578]

Mr. Malik: The Community Development Foundation received £1,736,990 in 2007-08 and £1,645,000 in 2008-09 from the Department for Communities and Local Government to fund the activities of nine independent regional empowerment partnerships. For the current year 2009-10, the Community Development Foundation has been allocated £1,715,000 to continue this support.

Registered Social Landlords

Mr. Sanders: To ask the Secretary of State for Communities and Local Government (1) how many injunctions have been *(a)* sought and *(b)* obtained under section 13 of the Anti-Social Behaviour Act 2003 in each local authority area in each of the last three years; [280262]

(2) how many injunctions have been *(a)* sought and *(b)* obtained under section 153A of the Housing Act 1996 by landlords in each local authority area in each of the last three years; [280263]

(3) how many injunctions have been *(a)* sought and *(b)* obtained under section 222 of the Local Government Act 1972 by each local authority in each of the last three years. [280264]

Mr. Ian Austin: Registered social landlords owning and/or managing 1,000 or more units/bed spaces obtained the following number of injunctions under Section 153 A of the Housing Act 1996, inserted by section 13 of the Anti-social Behaviour Act 2003, between April 2005 and March 2008:

	Number
2005-06	744
2006-07	1,045
2007-08	1,319

Data are not yet available for 2008-09 and the data collected cannot be broken down by local authority area. Data are not available for smaller registered social landlords. Data are not yet available on injunctions obtained by local authority landlords under section 153 A of the Housing Act 1996 nor by local authorities under section 222 of the Local Government Act 1972.

No data are available on injunctions sought but not obtained.

Rents: Private Sector

Sarah Teather: To ask the Secretary of State for Communities and Local Government what the average private sector rent was in each region of England in *(a)* 2001-02, *(b)* 2002-03, *(c)* 2003-04, *(d)* 2004-05, *(e)* 2005-06, *(f)* 2006-07, *(g)* 2007-08 and *(h)* 2008-09. [287689]

Mr. Ian Austin: Estimates of the mean rent for private tenancies by region for the period 1995-96 and 1996-97 to 2006-07 and 2007-08 are available in Housing Statistics live table 734

http://www.communities.gov.uk/documents/housing/xls/141656.xls

These estimates are based on data from the Survey of English Housing.

Shared Ownership Schemes

Ms Buck: To ask the Secretary of State for Communities and Local Government how many shared ownership purchases were made in *(a)* London and *(b)* England by people registered on housing waiting lists in each year since 2000; and what proportion of all such sales this represented in each such year. [284718]

Mr. Ian Austin: The following table shows the number of shared ownership completions made in London and England by people on housing waiting lists, and as a percentage of total shared ownership sales.

	London		*England*	
	Number of sales	*Percentage of sales*	*Number of sales*	*Percentage of sales*
2000-01	550	53	1,360	36
2001-02	540	47	1,310	32
2002-03	630	50	1,620	36
2003-04	760	49	1,830	38
2004-05	1,170	51	2,830	45
2005-06	820	35	2,910	38
2006-07	1,040	37	3,620	34

Source:
CORE (Continuous Recording) returns to the Tenant Services Authority (TSA) from Registered Social Landlords (RSLs)

CORE data only records data from RSLs with at least 250 units or bed spaces, so the figures above may be underestimates if not all RSLs are included. Also not all CORE data is compulsory for RSLs to complete, and details on whether sales were made to people on LA waiting lists was missing in approximately 20 per cent. of returns.

Details on whether shared ownership sales were made to people on LA waiting lists was removed from the CORE form in 2007-08, so the figures are only available up to 2006-07.

Social Housing Grant: Greater London

Ms Buck: To ask the Secretary of State for Communities and Local Government how much social housing grant was *(a)* allocated to and *(b)* bid for by each London local authority in each allocation round since 2000. [284716]

Mr. Ian Austin: Local authorities have been able to apply for social housing grant since 2004, but to date none has. In May we invited local authorities to bid for a share of the £100 million announced in the Budget

(with a later addition of up to £250 million) for local authorities to deliver new social housing. The first bids are expected shortly.

Tony Clements

Robert Neill: To ask the Secretary of State for Communities and Local Government what post Mr. Tony Clements holds in his Department; and on what date he was appointed. [286645]

Mr. Malik: Tony Clements is a civil servant, working as a policy adviser in the Strategy and Performance Directorate. He was appointed on 29 June 2009.

HEALTH

Aerials: Health Hazards

Andrew Selous: To ask the Secretary of State for Health what monitoring and reviewing of the evidence of the symptoms of radio frequency radiation the Health Protection Agency has undertaken in the last five years; and if he will make a statement. [285575]

Gillian Merron *[holding answer 9 July 2009]:* The HPA carries out research on radiofrequency radiation, monitors other studies, and conducts comprehensive reviews of the scientific evidence. The independent Advisory Group on Non-Ionising Radiation (AGNIR) also prepares reviews for the HPA of the evidence for health effects. AGNIR published a review of health effects in relation to radio waves in 2003 (see documents of the NRPB, volume 14, number 2: "Health Effects from Radiofrequency Electromagnetic Fields: Report of an independent Advisory Group on Non-ionising Radiation"), and the HPA in 2004 (see documents of the NRPB, volume 15, number 3: "Review of the Scientific Evidence for Limiting Exposure to Electromagnetic Fields (0-300 GHz)"). These publications are both available on the HPA website. AGNIR is commencing another review of the health effects of radio wave exposures, which is expected to take two to three years to complete.

A copy of the report "Report 2007" from the independently managed Mobile Telecommunications and Health Research Programme (MTHR), funded by Government and industry, has been placed in the Library. None of the studies completed demonstrated that biological or adverse health effects are produced by radiofrequency exposure from mobile phones or base stations. Further research is being carried out to address longer-term exposures and to assess whether hypersensitivity symptoms can be caused by exposure to terrestrial trunked radio (TETRA) signals. Further information on these studies is available on the MTHR website at:

www.mthr.org.uk/research_projects/MTHR2_projects.htm

The HPA has concluded that there is no consistent evidence to date that exposure to radio waves from wireless networks adversely affects the health of the general population. Radiofrequency exposures are likely to be lower than those from mobile phones and well within the internationally accepted guidelines from the International Commission on Non-Ionizing Radiation Protection. The HPA keeps the situation under ongoing review. The HPA is carrying out a systematic programme of research into wireless local area networks and their use, expected to be complete in 2010. Details can be seen on the HPA website at:

www.hpa.org.uk/webw/HPAweb&HPAwebStandard/HPAweb_C/1195733726123?p=1171991026241

Blood: Contamination

Jenny Willott: To ask the Secretary of State for Health on what date, and in what location, the documents relating to the infection of haemophiliacs through contaminated blood products released by his Department on 20 May 2009 were discovered; and if he will make a statement. [285741]

Gillian Merron *[holding answer 13 July 2009]:* The 468 documents released on 20 May 2009 were found in around 40 folders which contained documents from the late 1980s and 1990. These folders were stored at Wellington house, a Department of Health building. While preparing an inventory of these folders in July 2008, departmental officials became aware that they also contained documents relevant to the period before 1985 and a full assessment of the content of all the folders was therefore undertaken.

Many of the documents from the relevant period were found to be copies of those already released. There were 469 previously unreleased documents identified, none of which was judged to add materially to the knowledge of events in the years before 1985. One document from this batch was withheld as it contained personal information about a patient. The remaining 468 were released as soon as was practicable.

Jenny Willott: To ask the Secretary of State for Health what the documents relating to the infection of haemophiliacs through contaminated blood products have been requested for release and not released by his Department; on what grounds the documents have not been released; and if he will make a statement. [285851]

Gillian Merron *[holding answer 13 July 2009]:* Since 1 January 2005, 30 requests have been received under the Freedom of Information Act to release documents relating to the infection of haemophilia patients through contaminated blood products. Eight of these requests were rejected under section 12 of the Act as the cost involved would exceed the statutory cost limit, which is £600 for central Government.

Of the remaining 22 requests, there were 25 instances where documents were withheld from 12 of these requests. The breakdown is as follows:

One instance withheld as exempt from disclosure under section 28;

Two instances withheld as exempt from disclosure under section 34;

Seven instances withheld as exempt from disclosure under section 35;

Two instances withheld as exempt from disclosure under section 36;

Three instances withheld as exempt from disclosure under section 40; and

10 instances withheld as exempt from disclosure under section 43.

Data are not held on the number of individual documents or parts of documents that each withheld instance relates to.

In addition, more than 5,500 documents (including those released on 20 May 2009) covering the relevant time period have been voluntarily released by the Department in line with the Freedom of Information Act. Of these documents, seven, two of which are duplicates, have been withheld under a Freedom of Information exemption because they contain personal information.

Jenny Willott: To ask the Secretary of State for Health which groups of people other than individuals with bleeding disorders his Department has identified who were exposed to potentially contaminated blood and blood products as a result of medical treatment between the 1970s and 1990s; and if he will make a statement. [286475]

Gillian Merron: The groups, in addition to patients with bleeding disorders, who may have been exposed to potentially contaminated blood and blood products received treatment for a range of conditions. These patients include those with primary immunodeficiency who received immunoglobulins, as well as some who required treatment with several infusions of intravenous immunoglobulin G or of plasma, for conditions such as immune thrombocytopaenic purpura or rapid anticoagulation reversal respectively.

Some patients who received transfusions of blood components (red cells, platelets, fresh frozen plasma and cryoprecipitate) before effective tests to screen donated blood for HIV and hepatitis C became available (1985 and 1991 respectively), may also have been exposed.

Recipients of transfusions of blood components may have been exposed to variant Creutzfeldt-Jakob disease (vCJD) during the 1980s and 1990s. To date, four cases of vCJD infection associated with transfusion have been identified, three of which resulted in clinical symptoms in the transfusion recipient. All recipients of blood from the donors to these cases were traced and those living notified of their risk status. Some recipients of plasma products manufactured from United Kingdom sourced pooled plasma between 1980 and 2001 were identified as being potentially 'at risk' for vCJD as a result of their treatment in line with risk assessment advice from the CJD Incidents Panel in 2004.

Jenny Willott: To ask the Secretary of State for Health (1) whether the Department's look-back exercise to identify patients who may have been infected with HIV or hepatitis C through blood and blood products will include patients who were at risk of infection but who do not have bleeding disorders; and if he will make a statement; [286477]

(2) when the Department plans to *(a)* start and *(b)* finish its look back exercise to identify patients who may have been infected with HIV or hepatitis C as a result of infected blood and blood products, but who are unaware of the fact; and if he will make a statement. [286478]

Gillian Merron: The precise terms and duration of the look-back exercise are due to be finalised imminently with the United Kingdom Haemophilia Centres Doctors' Organisation (UKHCDO). It is likely that the look-back exercise will concentrate on patients with bleeding disorders who may have been infected, as indicated in the Government response to Lord Archer's independent report into national health service supplied contaminated blood and blood products, but the UKHCDO will also take the opportunity to consider the need to include any other patient groups who may have been infected.

There was a look-back exercise in 1995 to identify and offer hepatitis C testing to recipients of blood transfusions from known hepatitis C infected blood donors. The Department's ongoing hepatitis C awareness campaign, which has been running since 2005, highlights the risks of hepatitis C infection, including specifically from blood transfusions or blood products in the UK before it was possible to introduce safety measures, and encourages patients who may be at risk to discuss the need for testing with their doctor.

Patients infected with HIV through contaminated blood transfusions or blood products in the UK are likely to have already been identified because of the clinical nature of the disease, as it is now over 20 years since HIV testing was introduced by the blood services.

Jenny Willott: To ask the Secretary of State for Health how many partners of haemophiliacs infected with *(a)* HIV and *(b)* hepatitis C through contaminated blood products have been infected with (i) HIV and (ii) hepatitis C as a result; and if he will make a statement. [285881]

Gillian Merron: The Department does not hold details of the number of infected partners of haemophiliacs infected with HIV and hepatitis C.

The Macfarlane Trust holds details of the number of partners of HIV infected haemophilia patient registrants, who have become a beneficiary in their own right under the ex-gratia scheme.

The Skipton Fund, which administers the ex-gratia scheme to haemophilia patients and others infected with hepatitis C, does not keep a separate record of the number of people who were infected by their partners.

Jenny Willott: To ask the Secretary of State for Health (1) how many haemophiliacs had tested positive for hepatitis C antibodies in their blood by August 1990 as a result of the application of the Elisa test; and if he will make a statement; [286098]

(2) on what date the *(a)* first and *(b)* last haemophiliac was informed of the results of the test for the prevalence of hepatitis C antibodies in their blood from the Elisa test; and if he will make a statement. [286100]

Gillian Merron: This information is not held centrally by the Department. This is a matter for the patient and their clinician, and such information would not necessarily be held by the Skipton Fund.

Blood: Safety

Mr. O'Hara: To ask the Secretary of State for Health if he will take steps to expedite the adoption of pathogen inactivation measures in order to improve blood safety; and if he will make a statement. [286790]

Gillian Merron: Pathogen inactivation is one of the options the independent Advisory Committee on the Safety of Blood, Tissues and Organs will consider for further reducing the infection risk from platelets (a blood component) at its next meeting in July 2009. There are no pathogen inactivation systems currently available for red cells, the most widely transfused blood component.

Breast Cancer: Males

Mr. Amess: To ask the Secretary of State for Health what research his Department *(a)* has commissioned and *(b)* has evaluated on male breast cancer in each of the last 10 years; what research on the subject it plans to commission; and if he will make a statement. [283719]

Gillian Merron: The Department has not directly commissioned research on male breast cancer, and has no plans to do so.

Over the last 10 years, the main part of the Department's total expenditure on health research has been devolved to and managed by national health service organisations. Details of individual NHS supported research projects undertaken during that time, including some concerned with male breast cancer, are available on the archived national research register at:

https://portal.nihr.ac.uk/Pages/NRRArchiveSearch.aspx

The Medical Research Council is one of the main agencies through which the Government support biomedical research. The MRC is an independent body funded by the Department for Business, Innovation and Skills.

The MRC supports a broad portfolio of research on breast cancer. While this research is mainly related to female breast cancer, much of it will also be relevant to male breast cancer, as symptoms, diagnosis and treatment are similar in men and women.

Electromagnetic Fields: Health Hazards

Mr. Hurd: To ask the Secretary of State for Health what response his Department made to *(a)* the interim report of the Government's stakeholder advisory group on extremely low frequency electronic and magnetic fields (SAGE) of April 2007 and *(b)* the Health Protection Agency's response of October 2007 to the SAGE interim report. [286182]

Gillian Merron: A Government response to the "First Interim Assessment" published by the Stakeholder Advisory Group on Extremely Low Frequency Electromagnetic Fields (SAGE) is currently being finalised.

The Health Protection Agency's advice to Government on the SAGE "First Interim Assessment on power lines and property, wiring in homes and electrical equipment in homes" was issued in October 2007. Both the HPA's advice and the reply from the Minister of State are on the Department's website at:

www.dh.gov.uk/en/Publichealth/Healthprotection/DH_4089500

Epilepsy: Drugs

Chris McCafferty: To ask the Secretary of State for Health what recent assessment his Department has made of the effect on people with epilepsy of generic substitution of anti-epileptic drugs. [286349]

Mr. Mike O'Brien: I refer my hon. Friend to the written answer I gave my right hon. Friend the Member for Leeds, West (John Battle) and the hon. Member for Weston-super-Mare (John Penrose) on 13 July 2009, *Official Report*, columns 165-66W.

Food: Chemical Analysis

Mike Penning: To ask the Secretary of State for Health what guidance the Food Standards Agency has issued to local authorities on their budgetary provision for chemical analysis of food; and if he will make a statement. [285669]

Gillian Merron: Local authority food sampling responsibilities are set out in the statutory food law code of practice (separate parallel codes of practice exist for each of the four United Kingdom countries). Local authorities are required to put together a sampling programme that details their intended food sampling priorities, taking into account the number, type and risk rating of premises in their area and any national or local consumer issues that may influence sampling rates. Also important are any responsibilities under the originating or home authority principle.

Local authorities must ensure the resources necessary to carry out the food sampling programme are made available.

The Food Standards Agency board annually examine monitoring reports of local authorities activities including sampling annually, looking at both national trends and the position of individual authorities. Where an individual local authority reports figures which are not considered to be acceptable, further enquiries are made of that authority, and the agency will, if appropriate, use its powers formally to audit that authority's services.

Health Foods: Channel Islands

Mr. Drew: To ask the Secretary of State for Health (1) pursuant to the contribution of the Minister of State for Health of 5 May 2009, *Official Report*, column 54WH, in the Westminster Hall debate on health food products (Channel Islands), what further information he has received on *(a)* a timetable for the implementation of the food supplements directive and nutrition and health claims regulation in Jersey and *(b)* the plans of the authorities in Guernsey to implement the legislation; and if he will make a statement; [284938]

(2) whether the Food Standards Agency has been asked by the Government of Jersey to provide an opinion on whether the definition of food business operator includes fulfilment businesses; and if he will make a statement. [284940]

Gillian Merron: The FSA is awaiting responses from the Government of Jersey regarding their timetable for implementing the food supplements directive and the nutrition and health claims regulation and from the Government of Guernsey about their plans for the implementation of this legislation.

In September 2008, an official of the Government of Jersey sought the view of the FSA as to the status of businesses trading in foodstuffs which never physically fall into their possession. In its response, the FSA advised that as the definition of 'food business' in Regulation (EC) 178/2002 (General Food Law) refers to

"activities related to any stage of production, processing and distribution of food"

this would not preclude businesses of the type mentioned from falling under the definition and, hence, being subject to relevant food law.

Health Services: Children

Annette Brooke: To ask the Secretary of State for Health if he will bring forward proposals to reduce inequalities in access to health services for children. [287304]

Ann Keen: "Healthy lives brighter futures", the strategy for children and young people's health identified tackling inequalities as a key area for improvement. It sets out plans for universal, targeted and specialist support across three life stages—early years and pregnancy, schools age and young people—as well as the additional support for children and young people in need of acute or ongoing health care, including a range of measures to address inequalities. It is for primary care trusts working with local authorities and other local partners to ensure their local needs assessment and planning addresses the full range of local needs, and that the local service offer is communicated to all families. A copy of the strategy has already been placed in the Library.

Examples of specific initiatives include the family nurse partnership, while the universal programme for all, the Healthy Child programme, includes preventative services for children with additional risks.

Tackling health inequalities in children is also a key theme of the national health inequalities strategy, the "Programme for Action", and reducing the infant mortality gap between routine and manual group and the whole of the population is part of the health inequalities 2010 public service agreement target. A national support team for infant mortality designed to improve infant and maternal health outcomes and service delivery in disadvantaged areas was launched on 22 April 2009. A copy of "Programme for Action" has been placed in the Library.

Health Services: Domestic Visits

Sandra Gidley: To ask the Secretary of State for Health how many times *(a)* he and *(b)* Ministers in his Department visited (i) a dental practice, (ii) an optometrist, (iii) a GP surgery, (iv) a pharmacy and (v) an NHS walk-in centre in the last 12 months. [286787]

Phil Hope: The following visits occurred during the period 1 June 2008 to 9 July 2009. Visits by each Minister were:

Alan Johnson (until June 2009)

Type of organisation	*Number of visits from 1 June 2008 to 9 July 2009*
A dental practice	4
An optometrist	0
A GP surgery	16
A pharmacy	0
An NHS walk-in centre	0

Andy Burnham (from June 2009 onwards)

Type of organisation	*Number of visits from 1 June 2008 to 9 July 2009*
A dental practice	0
An optometrist	0
A GP surgery	0
A pharmacy	0
An NHS walk-in centre	0

Ben Bradshaw (until June 2009)

Type of organisation	*Number of visits from 1 June 2008 to 9 July 2009*
A dental practice	2
An optometrist	0
A GP surgery	8
A pharmacy	0
An NHS walk-in centre	1

Mike O'Brien (from June 2009 onwards)

Type of organisation	*Number of visits from 1 June 2008 to 9 July 2009*
A dental practice	0
An optometrist	0
A GP surgery	1
A pharmacy	0
An NHS walk-in centre	0

Ann Keen

Type of organisation	*Number of visits from 1 June 2008 to 9 July 2009*
A dental practice	2
An optometrist	1
A GP surgery	1
A pharmacy	0
An NHS walk-in centre	0

Dawn Primarolo (until June 2009)

Type of organisation	*Number of visits from 1 June 2008 to 9 July 2009*
A dental practice	0
An optometrist	0
A GP surgery	0
A pharmacy	1
An NHS walk-in centre	0

Gillian Merron (from June 2009 onwards)

Type of organisation	*Number of visits from 1 June 2008 to 9 July 2009*
A dental practice	0
An optometrist	0
A GP surgery	0
A pharmacy	0
An NHS walk-in centre	0

Ivan Lewis (until October 2008)

Type of organisation	*Number of visits from 1 June 2008 to 9 July 2009*
A dental practice	0
An optometrist	0
A GP surgery	0
A pharmacy	0
An NHS walk-in centre	0

Phil Hope (from October 2008 onwards)

Type of organisation	Number of visits from 1 June 2008 to 9 July 2009
A dental practice	1
An optometrist	0
A GP surgery	1
A pharmacy	0
An NHS walk-in centre	0

Lord Darzi

Type of organisation	Number of visits from 1 June 2008 to 9 July 2009
A dental practice	0
An optometrist	0
A GP surgery	9
A pharmacy	1
An NHS walk-in centre	0

Health Services: Private Sector

Norman Lamb: To ask the Secretary of State for Health what guidelines the NHS issues to trusts on procedures for the recovery of debts incurred by private patients. [285461]

Mr. Mike O'Brien: The Department does not provide specific guidelines to national health service trusts in respect of the recovery of debts incurred by private patients.

However, the Department does issue to NHS organisations a model financial governance framework that refers to debt management.

Health Services: Reciprocal Arrangements

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer to Lord Laird of 1 June 2009, *Official Report, House of Lords*, column WA31, on health: former UK residents, what methodology was used to calculate the UK average cost for pensioners and their dependants; and what information his Department has received from the government of the Republic of Ireland on the calculation of its average cost. [283879]

Gillian Merron: The United Kingdom's average cost for pensioners and their dependents, is based upon the number of these people living in the UK (using Office for National Statistics data for the relevant year) and the expenditure that relates to national health service health care provided to them (using information from departmental and NHS accounts). The Department does not have access to the full methodology used by the Republic of Ireland for calculating its average costs, as under European Union rules there is no obligation on one member state to share this with another.

EU regulation 1408/71 covers how citizens visiting, working and retired in other EEA (European economic area) member states access health care.

Under these regulations, member states bill each other back for health care provided to pensioners and their dependents, on the basis of an average cost. Each member state calculates its own average costs, taking into account the overall amount they spend on their health care system and the size and profile of their population.

Member states have their average costs scrutinised and agreed by an EU-level group of which the UK is a member.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer to Lord Laird of 1 June 2009, *Official Report, House of Lords*, column WA32, on health: former UK residents, for what reasons the UK has not made claims against other EU member states in relation to overseas visitors treated by the devolved health authorities; and what estimate he has made of the cost of treatment provided by devolved health authorities in respect of which the UK has not made a claim in each of the last 10 years. [284280]

Gillian Merron: So far, it has not been possible to establish why claims have not been raised by the United Kingdom in respect of treatment provided by the devolved health authorities. However, the Department is working with the Ministry of Justice to identify the information requirements from the devolved Administrations so that this matter can be resolved. As referred to in the answer to Lord Laird of 1 June 2009, *Official Report, House of Lords*, column WA32, departmental officials are currently exploring the scope for obtaining the necessary data. Until systems are in place, it is not possible to make a meaningful estimate of the cost of treatment not historically claimed for.

HF&E Bill 1990 Hansard

Mr. Amess: To ask the Secretary of State for Health (1) if he will place in the Library a copy of each document in his Department's file INW0014/0030/0012/VO2 HF&E Bill 1990 Hansard; and if he will make a statement; [285547]

(2) if he will place in the Library a copy of each document in his Department's file INW0014/0030/0012 HF&E Bill 1990 Hansard; and if he will make a statement. [285549]

Gillian Merron: Volume 1 of file INW 14/30/12, HF&E Bill 1990, Hansard, contains only copies of the daily House of Lords official reports published in 1989 and 1990, editions as shown in the table:

Registered File INW 14/30/12, HF&E Bill 1990, Hansard, VOL 1

Lords/ Commons	Date	Volume Number	Edition Number
Lords	7 December 1989	513	11
Lords	1 February 1990	515	31
Lords	6 February 1990	515	33
Lords	7 February 1990	515	34
Lords	8 February 1990	515	35
Lords	13 February 1990	515	38
Lords	14 February 1990	515	39
Lords	6 March 1990	516	50
Lords	7 March 1990	516	51
Lords	13 March 1990	516	54
Lords	20 March 1990	517	58

Volume 2 of the file contains copies of the daily House of Lords and House of Commons official reports published in 1990 and 1992, editions as shown in the table, plus three copies of the Abortion Regulations 1991:

Registered File INW 14/30/12, HFE Bill 1990, Hansard, VOL 2

Lords/ Commons	*Date*	*Volume number*	*Edition number*
Commons	25 April 1990	171	93
Commons	24 April 1990	171	92
Commons	23 April 1990	171	91
Commons	2 April 1990	170	84
Lords	11 June 1992	537	20
Lords	30 June 1992	537	30
Commons	15 July 1992	211	50
Lords	18 October 1990	522	139
Commons	20 June 1990	174	125
Commons	21 June 1990	174	126

These publications are available from the Library.

HIV Infection and Hepatitis C

Jenny Willott: To ask the Secretary of State for Health what estimate his Department has made of the average *(a)* annual and *(b)* total lifetime cost to the NHS of a person with (i) HIV and (ii) hepatitis C; and if he will make a statement. [285738]

Gillian Merron: The estimated average annual cost to the national health service for a person with HIV is £14,000-£15,000. These costs will vary according to immune status. The average lifetime treatment costs for HIV is estimated to be between £135,000-£181,000 although this may increase as life expectancy continues to increase.

For hepatitis C, the cost of drug therapy is estimated to be between £6,000-£15,000, depending on the duration of treatment, which is currently 24 or 48 weeks.

Influenza

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 23 June 2009, *Official Report*, column 650, on influenza pandemic, what the interim service is that could be launched within a week; [282767]

(2) what tests of the flu line service have been undertaken; when they were undertaken; what was tested in each case; and what the outcome of each such test was. [282768]

Gillian Merron: The interim National Pandemic Flu Service will consist of a phone service that the public can access through a single 0800 number, and a supporting website application. This will mean that people can have their symptoms assessed either over the phone or online. Those symptoms will be checked against an algorithm—a list of the key symptoms and factors that determine whether the patient in question has been exposed to the infection. If it is established that they have developed swine flu, they will if appropriate, be issued with an authorisation number that they will then need to access antivirals. Their go-between—their flu friend—will then take that authorisation number to their nearest collection point to obtain the antivirals.

The following tests have been conducted on the full National Pandemic Flu Service:

April to June 12: Unit and Module testing of the Public Web, Call Centre, National Pandemic Flu Service Professional (i.e. the facility for a limited number of Healthcare professionals to authorise an antiviral). This is to test that each part of the system functions as required, as it is developed. These tests were conducted and demonstrated that the system was functioning as expected. The testing approach and results were also independently reviewed.

15 to 22 June: Functional Acceptance tests. This is to test the entire system, end to end, to ensure all of its components function together as required. These tests were conducted independently of the supplier and demonstrated that the system was functioning as expected.

Further testing will be undertaken as the National Pandemic Flu Service is made ready to go live between now and the autumn. This will include a full user acceptance testing process.

Influenza: Business

Robert Neill: To ask the Secretary of State for Health which public bodies are responsible for *(a)* informing and *(b)* assisting businesses in planning and handling of an influenza pandemic. [286676]

Gillian Merron: Government Departments are responsible for ensuring that their sponsored sectors are aware of the challenges posed by pandemic influenza. They do this through regular exchanges with, for example, representative bodies and the dissemination of relevant information to assist with planning. As part of this two-way process, they also identify emerging policy issues that need to be addressed.

Under the Civil Contingencies Act 2004, local authorities are required to provide advice and assistance to businesses within their area on business continuity planning. In addition, many operators of critical national infrastructure are designated as category 2 responders under the Civil Contingencies Act 2004, and are therefore closely engaged in resilience planning at various levels within the United Kingdom.

In response to the swine flu outbreak, the Government have established a Business Advisory Network for Flu to help co-ordinate advice to employers. Additional guidance and information is available through the Business Link website.

Influenza: Health Services

Sandra Gidley: To ask the Secretary of State for Health what discussions he has had with pharmaceutical wholesalers on preparations for an influenza pandemic in the last 12 months. [284984]

Mr. Mike O'Brien: The Department has a range of discussions with pharmaceutical wholesalers about matters of joint interest. This has included preparations for an influenza pandemic.

Legislation: Documents

Mr. Amess: To ask the Secretary of State for Health what files his Department holds on *(a)* the draft Tissues and Embryos Bill, *(b)* the Human Fertilisation and Embryology Bill [*Lords*] and *(c)* the Human Fertilisation and Embryology Act 2008; and if he will make a statement. [285486]

Gillian Merron: The files held by the Department on the Human Tissues and Embryos draft Bill, the Human Fertilisation and Embryology Bill [*Lords*] and the Human Fertilisation and Embryology Act 2008, are set out in the following table:

File number	*File name*
EAX/034	Human Tissue and Embryos (Draft) Bill
EAX/036	Human Fertilisation and Embryology Bill 2007/08
EAX/037	Human Fertilisation and Embryology Act 2008: Implementation

Mental Health Services: Finance

Lynne Featherstone: To ask the Secretary of State for Health with reference to the statement of 10 October 2007, *Official Report*, columns 297-300, on health and social care, how much of the funding of £170 million for a psychological therapy service has been allocated to each health trust; and if he will make a statement. [287124]

Phil Hope: Annual funding for the Improving Access to Psychological Therapies programme (IAPT) will rise to £173 million in its third year (2010-11) and funding is allocated to strategic health authorities on the basis of a weighted capitation formula.

Under this formula, primary care trusts are allocated funding based on their share of the total population in England, weighted to account for an individual PCT's population's healthcare needs relative to other PCTs.

Allocations to PCTs are made by regional programme boards to those services that meet IAPT programme quality standards. These relate to: clinical leadership; a third of the staff being appropriately qualified to supervise and support the trainees; suitable accommodation for the services to operate from; training provided in line with the programme's national curricula; data systems that can collect outcome information effectively for at least 90 per cent. of patients; and recruitment and work force planning.

Mentally Ill: Suicide

John Howell: To ask the Secretary of State for Health how many *(a)* suicides and *(b)* attempted suicides there have been of individuals in the care of each mental health trust in each year from 2000 to 2008. [287119]

Phil Hope: The Department does not collect these figures centrally. However, the national confidential inquiry into suicide and homicide (NCISH) by people with mental illness collects certain figures around this issue and the following table shows numbers of people by calendar year who were in contact with mental health (MH) services in England in the year prior to their death. This includes those who were under the care of services as out-patients and the table also includes the number and percentage of those in contact with services who were in-patients at the time of their death.

It should be noted that the inquiry sample includes both suicide and open verdicts at coroners' inquest. Open verdicts are often thought to be suicides and are conventionally used in suicide rate estimation in the United Kingdom. Neither the Department nor the NCISH collect information on attempted suicides.

We are unable to release information relating to specific mental health trusts without the permission of those trusts.

Suicides in contact with mental health services in the year prior to death (England only)

	Suicides in contact with MH services N=8,565	*In-patients N=1,153 (%)*
2000	1,248	196
2001	1,260	179
2002	1,249	165
2003	1,249	183
2004	1,307	158
2005	1,253	151
2006	999	121

Reciprocal Health Services: Elderly

Mr. Cox: To ask the Secretary of State for Health what assessment he has made of the effects on the health of elderly people of the termination of the reciprocal health agreement with the Isle of Man; and if he will make a statement. [286704]

Gillian Merron: The Department has not yet given formal notice on the bilateral agreement between the United Kingdom and the Isle of Man but it has informed the Isle of Man of the intention to do so. As the termination of the agreement has not yet been formalised, neither the UK nor the Isle of Man has confirmed which treatments will be chargeable to tourists after the termination of the agreement. However, the Department will recommend private travel insurance for tourists, as it does for all travel outside the UK. Given the wide availability of travel insurance, termination of the agreement is not expected to have a significant adverse effect on any group of the population, including the elderly.

Sunbeds: Young People

Mrs. James: To ask the Secretary of State for Health (1) what recent estimate he has made of the percentage of 11 to 17 year olds who use sun beds in *(a)* urban and *(b)* rural areas in England and Wales; [286603]

(2) with reference to his Department's report on the cancer reform strategy, "Maintaining Momentum", published on 1 December 2008, when he expects to publish further information on sun bed use by young people; [286604]

(3) if he will commission research on the reasons for which those aged under 18 years old use sun beds; [286605]

(4) what recent reports he has received of the annual incidence of deaths arising from sun bed use. [286606]

Gillian Merron: The recent report of the committee on medical aspects of radiation in the environment (COMARE) summarises evidence on sunbed use amongst young people and also refers to estimates of the number of deaths accounted for by sunbed use. The report can be accessed at:

www.comare.org.uk/13thPressRelease.htm

The Department has commissioned further research from Cancer Research UK which is expected to cover what factors motivate young people to use sunbeds in a particular setting. We will consider making these data available in due course.

Swine Flu

Mr. Lansley: To ask the Secretary of State for Health (1) pursuant to the statement of 12 June 2009, *Official Report*, columns 1052-63, on swine flu update, what plans are in place to ensure that critical care capacity is in place where it is needed; and what recent assessment he has made of the level of critical care capacity required to meet those needs; [283907]

(2) what steps he is taking to ensure the operation surveillance and testing for swine flu of people in hospital with respiratory illnesses; [283911]

(3) what percentage of those diagnosed with swine flu have required intensive care treatment to date. [283931]

Gillian Merron: It is not possible to estimate the number of critical care beds required in a flu pandemic because this will depend upon a range of factors such as the clinical attack rate, the most 'at risk' population and the number of flu victims requiring intensive care. The percentage of those diagnosed with swine flu that have required intensive care treatment is less than 1 per cent.

In the 'Managing Demand and Capacity in Health Care Organisations (Surge)' guidance, it is advised that, within their local flu contingency plans, acute hospitals will aim to double the number of critical care beds available. A copy of the guidance has already been placed in the Library. Managing demand will also be achieved by cancelling elective work and redeploying clinical staff from services such as theatres to help provide a level of critical care across this increased demand. The guidance also includes measures to relieve pressure such as increased use of agency and retired staff.

In June 2009, the Chief Medical Officer issued advice to national health service staff about the measures they should take to ensure adequate surveillance and testing of hospital patients for swine flu. A copy of that advice has been placed in the Library.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the statement of 12 June 2009, *Official Report*, columns 1052-63, on swine flu update, from which locations in each primary care trust area patients who require antiviral medication are being asked to collect that medication; what the reasons are for the time taken to designate such collection points; and when he expects all arrangements for such collection points to be in place. [283908]

Gillian Merron: Primary care trusts already have arrangements in place for antiviral collection points as part of pandemic flu planning. Strategic health authorities have been reviewing this earlier this year to ensure that plans are robust, that a good spread is available across each PCT geographically and that sufficient collection points can be up and running to meet the needs of the population. All PCTs are able to establish an initial antiviral collection point (ACP) within 48 hours, to provide at least one ACP which can be operational on a 24/7 basis with the remainder offering a range of opening hours dependent upon demand. Within seven days of the request to mobilise PCTs are able to have sufficient ACPs up and running to meet the needs of the population as necessary. Timing of mobilisation of collection points and locations will depend upon the level of demand from swine flu in each local area. PCTs in each area are providing local communications in each area to tell the population where collection points are located. The detail of where all collection points are operating is not held centrally.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the statement of 12 June 2009, *Official Report*, columns 1052-63, on swine flu update, for what reasons the National Pandemic Flu Line service will not be operational until the autumn; and what estimate he has made of the cost to the public purse of the change to the timetable for the establishment of the full service. [283909]

Gillian Merron: The full National Pandemic Flu service continues to be planned for operation during the autumn, if required. As a result of the swine flu outbreak the build of the original 'flu line' system was put on hold so that an interim solution, including additional antiviral collection point functionality, could be developed and tested to be available more quickly if needed. The additional costs related to building the interim solution amount to approximately £2.5 million and are the only additional system build costs incurred to date in respect of the interim solution.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the statement of 12 June 2009, *Official Report*, columns 1052-63, on swine flu update, who the members of the strategic advisory group of experts are; on which dates the group has met; and if he will place in the Library a copy of the minutes of each such meeting. [283910]

Gillian Merron: On 12 June 2009, the Secretary of State for Health mentioned "SAGE" but in error referred to the strategic advisory group of experts, which advises the World Health Organisation on immunisation. He intended to refer to the scientific advisory group for emergencies (SAGE), which has been established to provide cross government scientific advice regarding the outbreak of swine flu.

The members of this committee are as follows:

Professor John Beddington (Co-Chair)
Professor Sir Gordon Duff (Co-Chair)
Professor David Harper (Lead Government Department)
Professor Sir Roy Anderson
Professor Dame Sally Davies (Departmental Chief Scientific Adviser)
Dr. Mairion Evans
Professor Neil Ferguson
Professor George Griffin
Dr. Peter Grove
Professor Andrew Hall
Dr. Stephen Inglis
Dr. Steve Leach
Professor Susan Michie

Professor Angus Nicoll
Professor Karl Nicholson
Professor Peter Openshaw
Professor Deenan Pillay
Sir John Skehel
Professor Jonathan Van Tam
Professor Maria Zambon

SAGE was established in May 2009 and has since had 11 meetings on the following dates:

5, 8, 12, 18, 20, 26 May

2, 9, 15, 22, 29 June

We will not be placing copies of the minutes of each SAGE meeting in the Library at the present time. The majority of SAGE work is directly commenting on or providing input to the formulation of Government policy. In addition, in order for SAGE to work effectively, members need to be free to discuss issues openly, including confidential evidence in their deliberations. The publication of the minutes may therefore prejudice the effective conduct of public affairs. However, we will keep the publication of minutes under review.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the statement of 12 June 2009, *Official Report*, columns 1052-62, on swine flu update, what decisions the Health Minister took regarding pandemic influenza in 2007. [284271]

Gillian Merron: Departmental Ministers have been fully engaged in preparations for pandemic influenza for many years. Final decisions on pandemic preparedness have been the responsibility of the Secretary of State.

Michael Fabricant: To ask the Secretary of State for Health if he will bring forward proposals to enable people to purchase anti-pyretics in greater quantities over the counter for preparation in the event of them contracting swine influenza. [286366]

Gillian Merron: There are no current plans to do this. Antipyretics such as paracetamol and aspirin are available in packs of 16 tablets or capsules from general sale outlets such as supermarkets and up to two packs can be purchased at any one time. Larger packs of 32 tablets or capsules are designated as pharmacy medicines and are sold by or under the supervision of a pharmacist. Pharmacists have the professional discretion to sell up to 100 tablets or capsules without a prescription if they consider this is in the best interests of the patient. The need for professional advice and supervision when supplying these medicines does not reduce during a pandemic.

Tim Loughton: To ask the Secretary of State for Health whether all primary care trusts have antiviral collection points accessible to all their populations. [287106]

Gillian Merron: Each primary care trust, or where demand from swine flu has been very modest across a number of PCTs has been asked to mobilise at least one antiviral collection point locally. More have been opened to respond to the level of demand from patients and the public for rapid access to antivirals.

Swine Flu: Hospital Beds

Mr. Lansley: To ask the Secretary of State for Health what estimate he has made of the number of intensive care beds occupied by people diagnosed with swine influenza at the latest date for which figures are available. [286318]

Gillian Merron: In the 24 hours up to 8 am on 8 July 2009, 43 in-patients with swine influenza (swabbed or clinically presumed) were receiving critical care in national health service trusts in England.

Thalidomide

Rob Marris: To ask the Secretary of State for Health what recent research his Department has evaluated on the teratogenic properties of thalidomide. [279989]

Mr. Mike O'Brien *[holding answer 29 June 2009]:* The Department has not evaluated any research on the teratogenic properties of thalidomide. Toxicity trials for pharmaceutical products, including tests for their teratogenic properties, are the responsibility of pharmaceutical companies.

Thame Hospital

John Howell: To ask the Secretary of State for Health pursuant to the answer of 23 October 2008, *Official Report*, columns 524-25W, how much of the funding of £4 million from the community hospitals and services programme for the redevelopment of Thame hospital, Oxfordshire had been spent as at 1 July 2009, and what the timetable is for the completion of the re-development. [287116]

Mr. Mike O'Brien: The Thame community hospital programme is one of 28 schemes that has secured funding from the community hospital programme. The latest project programme from the primary care trust indicates that work on the new unit is planned to start on site in August 2010 and completion in September 2011. The PCT schedule indicates a requirement for funding of £2.28 million in 2010-11 and £1.72 million in 2011-12. Additional refurbishment of older buildings takes place from October 2011 to March 2012, and the PCT tells us that it will be operational in March or April 2012.

Tranquillisers

Jim Dobbin: To ask the Secretary of State for Health if he will assess the efficacy of his policy on the prescription of tranquillisers in limiting the number of medicines prescribed. [276005]

Gillian Merron: The addiction to prescription drugs such as benzodiazepines is a very important issue and a number of steps have been taken to tackle this problem with the main focus on advice to prevent such dependence occurring in the first place, by warning general practitioners of the potential side-effects of prescribed medicines and the dangers of involuntary addiction to benzodiazepines.

Over the coming months the Department will be reviewing its policy on addiction to prescription and over-the-counter (OTC) drugs, including tranquillisers.

This review will identify where and how policy should advanced, so that those addicted to prescription or OTC drugs receive high quality, effective services.

West London Mental Health NHS Trust

John Howell: To ask the Secretary of State for Health when the investigation commissioned by the Healthcare Commission in April 2008 into the West London Mental Health Trust will be *(a)* completed and *(b)* published. [287117]

Phil Hope: The Healthcare Commission's successor organisation, the Care Quality Commission, has informed us that it has completed its investigation into West London Mental Health NHS Trust. It will publish its report on its website on 21 July 2009.

Young People's Development Programme

Tim Loughton: To ask the Secretary of State for Health (1) which Minister has lead responsibility for the Young People's Development Programme; [287379]

(2) how much has been spent on the Young People's Development Programme since its inception; and what the Programme's projected budget is for the next five years. [287378]

Gillian Merron: The Minister who lead on Public Health had responsibility for the Young People's Development Programme. This pilot programme ran from 2004 to 2007 at a total cost of £6 million. The programme finished in spring 2007.

INTERNATIONAL DEVELOPMENT

Afghanistan

Mr. Ellwood: To ask the Secretary of State for International Development how many of his Department's staff are working at each forward operating base in Helmand province. [287270]

Mr. Michael Foster: The Department for International Development (DFID) no longer publicises staff numbers for country offices, following an assessment of DFID's work in insecure environments by the National Audit Office in October 2008, and a range of improvements to our security policies and procedures.

Afghanistan: Reconstruction

Mr. Ellwood: To ask the Secretary of State for International Development who is responsible for the reconstruction and development programme following the completion of Operation Panther's Claw in Helmand; and how much funding *(a)* his Department and *(b)* other agencies have allocated for the programme. [287271]

Mr. Michael Foster: Support to reconstruction and development in Helmand is led by an interdepartmental, civilian-military, multinational provincial reconstruction team (PRT), led by a UK Senior Representative from the Foreign Office. Four staff members of the Department for International Development (DFID) are integrated into the Helmand PRT.

DFID core funding for Helmand this year is £18 million, which will include programmes benefiting the Babaji population such as agriculture support, basic infrastructure, and a major road.

The PRT has developed a stabilisation plan around Operation Panther's Claw and the Babaji area. This includes work on supporting the Afghan Government to establish itself in cleared areas, to deliver health, education and policing services and to set up polling stations for the elections in August. The cross-Government stabilisation aid fund has set aside almost £15 million for district stabilisation across Helmand this year.

The Asian Development Bank has pledged $50 million to co-fund two major infrastructure projects with DFID: a road linking Lashkar Gah and Gereshk (which goes around Babaji) and a hydro-power plant in Gereshk (also funded by Denmark). USAID will deliver a major agricultural programme across Helmand over the next year.

Afghanistan: Theme Parks

Mr. Ellwood: To ask the Secretary of State for International Development what assessment he has made of the effectiveness of the theme park for women in Lashkar Gah; and how much it cost. [287269]

Mr. Michael Foster: The Bolan Park was built in Bolan, Lashkar Gah, in 2007 at the request of the Governor of Helmand and in response to an identified local need: it functions as a symbol for security and development in the area. The park is providing much-needed recreational space and facilities for the people of Lashkar Gar and the surrounding area. It is open to men, women and children with one day each week being set aside for women's exclusive use. One of the first major events hosted there was a US-funded agricultural fair to promote legal livelihoods attended by 1,700 Afghans. The park was also used for a successful cultural event organised by the Helmand Governor, which attracted more than 2,000 people.

The UK provided funding for the park through the Provincial Reconstruction Team. The park cost around £420,000 and was built alongside the Helmand River. The costs reflect the fact that during construction gabion walls were put in place to support the river bank, which helps prevent erosion, and to support the Bolan Bridge. In addition, the park has extensive lighting which is important for improving security at night.

Departmental Databases

Jenny Willott: To ask the Secretary of State for International Development what categories of personal information about members of the public are contained on each relevant database managed by his Department and its agencies; on what date each category of information began to be collected; and if he will make a statement. [285979]

Mr. Michael Foster: The Department for International Development (DFID) manages the following databases that contain personal information on members of the public:

Financial and Projects systems (ARIES, MIS and Coda) are used for administration of projects and accounts. These databases contain DFID suppliers and customers' contact and bank details

(name, address, company registration number, VAT number, bank details and payment terms). Information on these categories has been collected since February 1998.

The overseas pensions system supports administration and payment of pensions to former colonial servants. This database contains personal, bank and payment data (name, address, telephone number, bank details, next of kin) on former colonial servants, and was collected from February 1998.

Correspondence systems enable tracking of parliamentary and public correspondence. These systems contain names and contact details (address, telephone, telephone number, email address) of correspondents. The information has been collected since December 1999.

Jenny Willott: To ask the Secretary of State for International Development what categories of personal information on members of the public will be held on each database expected to become operational in the next five years and which will be managed by his Department or one of its agencies; what estimate he has made of the likely number of individuals' details each such database will hold when fully operational; and if he will make a statement. [286152]

Mr. Michael Foster: The Department for International Development has no current plans to build databases containing personal information on members of the public.

Developing Countries: Job Creation

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development pursuant to the oral statement of 6 July 2009, *Official Report*, columns 701-4, on Building Our Common Future, which five fragile countries will receive his Department's new bilateral aid for job creation by 2013. [285914]

Mr. Michael Foster: The Department for International Development's planned new programme of work to expand economic opportunities by creating jobs in fragile states will initially target Nigeria, Afghanistan, Nepal, Yemen and Ethiopia. Through our work in these five countries, we expect to create a maximum of 1.25 million jobs, which will benefit up to 7.5 million people in total over the next five years.

Developing Countries: Overseas Aid

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what grants his Department has made available to UK-based charities for projects to assist fragile states in the last 12 months. [286077]

Mr. Michael Foster: Centrally-managed Department for International Development grants available to UK-based charities for projects to assist fragile states are:

The Civil Society Challenge Fund (CSCF)—£16.7 million of the fund covers projects in 15 fragile states with 31 UK-based agencies.

Governance and Transparency Fund (GTF)—£25.2 million of the fund covers projects in 19 fragile states with 18 UK-based agencies.

Partnership Programme Arrangements (PPAs)—this is unrestricted funding, covering the period 2008-2011 at £110 million a year with 26 UK-based agencies, many of which operate in fragile states.

Conflict, Humanitarian and Security Fund (CHSF)—£28.8 million of these grants provide core funding to seven UK-based agencies, all of which operate in fragile states.

DFID country offices in fragile states will also have made funds available to UK-based charities. It would require disproportionate effort to identify and list all such grants.

Global Partnership for Agriculture Food Security and Nutrition

Tony Baldry: To ask the Secretary of State for International Development who will administer the new global partnership for agriculture food security and nutrition; what the UK's percentage contribution will be to the budget of the Partnership; and what the UK's cash contribution to the partnership will be in each of the next two financial years. [285397]

Mr. Thomas: Discussions are still on-going on administrative arrangements for the global partnership process. Options for staffing, funding needs, and objectives will be assessed. We envisage a fairly light administrative structure, providing primarily secretariat-type functions. A decision on longer-term support by the Department for International Development will be taken in due course.

Sierra Leone: Overseas Aid

Mr. Dismore: To ask the Secretary of State for International Development if he will increase the support provided by his Department for the development of democratic institutions and politicians in Sierra Leone; and if he will make a statement. [283854]

Mr. Thomas: The Department for International Development (DFID) is committed to supporting further the development of democratic institutions and politicians in Sierra Leone.

To this end DFID has, for example, recently begun work to design a project of support to the 2012 elections in Sierra Leone, involving Sierra Leone's electoral management bodies, potential parliamentary candidates and civil society.

Mr. Dismore: To ask the Secretary of State for International Development which non-governmental organisations (NGOs) receive support from his Department *(a)* directly and *(b)* indirectly via the (i) EU and (ii) the United Nations for work in Sierra Leone; what support each such organisation received in (A) cash and (B) kind in 2008-09; for how long each such organisation has been supported by his Department; what projects in Sierra Leone have been supported by such NGOs with funds from his Department; what steps his Department takes to monitor effectiveness of such spending; and if he will make a statement. [283862]

Mr. Thomas: The Department for International Development's support for NGO's in Sierra Leone is set out in the following table. This provides information about the amount of assistance received in 2008-09; the projects funded; and the duration of the projects. DFID has supported NGOs for work in Sierra Leone since the

end of the conflict in 2002. DFID has not funded the EU or UN to work with NGOs in Sierra Leone from its bilateral budget.

DFID monitors closely and actively the effectiveness of all its spending, including that of support to NGOs. DFID staff based in Sierra Leone are in regular contact with project partners, and NGOs and others responsible for project implementation are required to submit regular reports on progress. It is a requirement to hold detailed annual reviews of each project.

NGOs receiving support from the Department for International Development for work in Sierra Leone

NGO	*Project, value and duration*
Christian Aid	£30,000 in 2008-09 for Public Financial Management (PFM) design phase (ensure greater inclusiveness in the budget process, increase access to information, and improved responsiveness geared towards achieving gender-sensitive and pro-poor budgets and programmes) (Jan-June 2009). £50,000 in 2008-09 for Power to the People (five-year project, making governance work for marginalised groups).
Plan International	£1.6 million in 2008-09 through the Water, Sanitation and Hygiene (WASH) programme, to implement a community-led total sanitation project in Port Loko (2007-12).
International Rescue Committee	£100,000 in 2008-09 to support implementation of the Gender Acts with the Ministry of Social Welfare, Gender and Children Affairs (2008-10).
Student Partnership Worldwide (SPW)	£157,116 in 2008-9 as part of Education on Youth Reproductive Health and Life Skills project (2008-12).
Conciliation Resources (CR)	£50,000 in 2008-09 for increasing government accountability in conflict zones through public participation in policymaking (five-year project). £100,871 in 2008-9 for Community Peace and Empowerment in Southern Sierra Leone (2005-10)
Partnership For Transparency Fund	£16,000 in 2008-09 for a Citizens Against Corruption project (five-year project).
BBC World Service Trust	£125,000 in 2008-09 for A National Conversation: Promoting Accountability, Transparency and Participation through partnership with Public Broadcasters in Africa (five-year project)
Tiri	£51,000 in 2008-09 for 'Pro Poor Integrity! Civil Society Engagement to Make Governance and Transparency Work for Poor and Vulnerable Communities' (five-year project)
Amnesty International	£39,000 in 2008-09 for Sierra Leone as part of an Africa Rights Education Programme (four-year project).
Search For Common Ground (SFCG)	£30,000 in 2008-09 as one of the partners of the £3 million PIVOT programme (to promote transparency on elections) (2006-08). £16,000 in 2008-09 for support to messages on Maternal Mortality for International Women's Day (2008). £56,500 in 2008-09 for a media programme to strengthen good governance and transparency (three-year project).
Education Action International (EAI)	£148,180 in 2008-09 for 'Children's Rights to Inclusive and Effective education in Northern Province'' (2005-10).
Apt Enterprise Development	£111,387 in 2008-09 for 'Building the Capacity of Disadvantaged People in Sierra Leone to access their Livelihoods' (2006-10).
Village Aid	£99,915 in 2008-09 for 'Literacy and Livelihoods to Empower Young People and their Organisations in Sierra Leone' (2006-10).
Trades Union Congress (TUC)	£122,747 in 2008-09 for 'Rebuilding Trade Union Capacity in Sierra Leone' (2007-10).
Help The Hospices	£75,775 in 2008-09: Health Development Project (2008-13).
National Democratic Institute	£40,410 in 2008-9 as one of the partners of the £3 million PIVOT programme (to promote transparency on elections) (2006-08).
Westminster Foundation For Democracy	One of the partners of the £3 million PIVOT programme (to promote transparency on elections) (2006-08).
Foundation Hirondelle	£395,915 in 2008-09 as one of the partners of the £3 million PIVOT programme (to promote transparency on elections) (2006-08).
Goal	£21,351 in 2008-09 under the Water and Sanitation (WATSAN) programme to reduce the incidence and impact of water-borne diseases in disadvantaged urban areas of Freetown. (six months in 2008).
World Vision	Leads a consortium with CARE and ActionAid funded by DFID's Conflict, Humanitarian and Security Department (CHASE) to sensitise communities in security issues: 2008-12, value of project £1.6 million.
Care	£1 million in 2008-09 to manage the 'Enhancing the interface between Civil Society and the State (ENCISS)' programme (2004-12). £589,000 in 2008-09 for consortium of NGOs led by CARE to support implementation of the Government's Reproductive and Child Health programme in 5 districts (2006-09). Working on a Conflict, Humanitarian and Security Department (CHASE)-funded security project led by World Vision (see above).
Action Aid	£13,000 in 2008-09 as part of Poverty Reduction Budget Support (PRBS) monitoring to carry out a check of information on school and medical supplies being posted on public notice boards (2008). Working on a Conflict, Humanitarian and Security Department (CHASE)-funded security project led by World Vision (see above).
Oxfam	£102,072 in 2008-09 as one of the partners of the £3 million PIVOT programme (to promote transparency on elections): project ran 2006-08. Working on a Conflict, Humanitarian and Security Department (CHASE)-funded security project led by World Vision (see above).

Development Aid

Tony Baldry: To ask the Secretary of State for International Development what estimate he has made of the growth rate that would need to be sustained in sub-Saharan Africa if that region is to meet the Millennium Development goals by 2015. [285394]

Mr. Michael Foster: Developing countries need sustained economic growth to meet many of the millennium development goals, but growth has a particularly important part to play in helping to achieve the MDG 1 targets,

which are: to halve, between 1990 and 2015, the proportions of people who live on less than a dollar a day and who suffer from hunger. Economic growth rates of at least 6 per cent. would need to be sustained in order to do this.

JUSTICE

Compensation: Local Government

Mrs. Spelman: To ask the Secretary of State for Justice whether his Department has identified a compensation culture within local government. [285257]

Mr. Malik: I have been asked to reply.

The independent review into redress presented its findings on 17 June 2009. The review was not specifically asked to look at the issue of any compensation culture within local government. The review team did commission some focus groups with customers which found that most people, when making complaints about a public service, want a meaningful apology, an acknowledgement of what had gone wrong and a correction of the problem; financial compensation was a low motivator for people seeking redress.

The Department commissioned the review following a commitment made in the Empowerment White Paper. This independent review was chaired by David Cook (the chief executive officer of Kettering borough council) and looked at how local authorities can not only improve how they deal with complaints but how they can get it right first time. The review focused on the more transactional services provided by local authorities, for example refuse collection, and did not focus on specific redress systems currently in place in local authorities across England.

Debt Collection

Mrs. Spelman: To ask the Secretary of State for Justice pursuant to the answer of 24 April 2009, *Official Report*, column 958W, on debt collection, whether HM Courts Service plans to extend the guidance to county courts in the south-east to other Court Service areas. [286076]

Bridget Prentice: Her Majesty's Courts Service is currently evaluating the scheme in the county courts in the south east of taking payments by credit and debit cards, including the guidance. I am awaiting the results of the evaluation and the recommendations on the way forward.

Departmental Manpower

Jo Swinson: To ask the Secretary of State for Justice what percentage of employees in his Department are *(a)* women and *(b)* men; and what the average hourly pay of his Department's (i) male employees and (ii) female employees was in the latest period for which figures are available. [287123]

Mr. Straw: The percentage breakdown by gender in MOJ (excluding the National Offender Management Service) for staff below the SCS is *(a)* 68.43 per cent. female and *(b)* 31.57 per cent. male.

Based on data at 1 August 2008, the average hourly pay of these male and female employees, calculated on basic pay only, is:

	Male	£ Female
London	15.70	14.79
National	11.44	10.55

National Offender Management Service (NOMS)

The percentage breakdown by gender of the work force directly employed by NOMS, excluding SCS, is *(a)* 36 per cent. female and *(b)* 64 per cent. male.

Based on data for June 2009, the average hourly pay of male and female employees in NOMS, calculated on basic pay only is:

(i) £12.72 for male employees;

(ii) £11.33 for female employees.

Senior Civil Service (SCS)

The percentage breakdown by gender for staff in the SCS (includes both MOJ and NOMS) is *(a)* 36 per cent. female and *(b)* 64 per cent. male.

Legal Aid Scheme

Mr. Stewart Jackson: To ask the Secretary of State for Justice with reference to the answer of 20 February 2008 to the hon. Member for Middlesbrough, South and East Cleveland, *Official Report*, column 779W, on the legal aid scheme, what proportion of the population of England and Wales was eligible for civil legal aid in 2008. [286515]

Bridget Prentice: Civil legal aid covers a number of different areas of civil and family justice, and the extent to which applicants' financial circumstances are taken into account in granting legal aid varies considerably across these areas. It is therefore not possible to give figures for the number of people eligible for civil legal aid as a whole. However, some estimates of the likely number that would be eligible are available.

The estimated proportion of the population of England and Wales who were eligible for civil legal aid, for categories in which financial circumstances were taken into account, was 29 per cent. in 2007. We do not have a figure for 2008. In 2009, we estimate that the figure for categories in which financial circumstances are taken into account is 36 per cent.. This increase in the eligible proportion of the population is likely to be due to the effects of the recession plus the 5 per cent. increase in the civil legal aid financial eligibility limits in April 2009. In 2007-08 civil legal aid helped over 1 million people with their civil and family legal problems.

National Archives

Mrs. Laing: To ask the Secretary of State for Justice (1) how much the National Archives expects to raise through the introduction of car parking charges at Kew; [287175]

(2) how many people visited the National Archives at Kew in each of the last five years. [287176]

Mr. Wills: To date The National Archives has provided free parking for visitors to Kew. This has in effect been subsidised from their running costs budget. They are no longer in a position to continue this subsidy. In addition, in the context of the Government's green agenda, it is

increasingly hard to justify the use of public funds in this way. They have therefore proposed the introduction of a fee to use their visitors' car park. The organisation is in the process of assessing the full extent of the car park running costs, and it is their intention that the income from the fee enables them to fully recover the costs. They are consulting with users, to gather their views on the level and structure of the charge. They will continue to provide free parking for holders of 'blue badges'.

The following figures set out the number of unique visitors to the National Archives at Kew in each of the last five years:

	Number of visitors
2004-05	103,257
2005-06	108,269
2006-07	110,323
2007-08	[1]92,855
2008-09	108,100

[1] Between October 2007 and April 2008 there was a reduced service at Kew to allow for the refurbishment of their public services.

Over the course of these years, the number of original documents delivered on site has averaged 600,000 per year. At the same time, there has been a significant increase in the number of documents delivered online which, by the end of March 2009, had reached over 110 million.

Repossession Orders: Mortgages

Mr. Spring: To ask the Secretary of State for Justice how many mortgage possession orders were made in each county court in the east of England in each of the last five years. [286267]

Bridget Prentice: The following table shows the number of mortgage possession orders made in the county courts of east of England Government office region for 2004 to 2008.

These figures can also be obtained from the Ministry of Justice website, released quarterly and can be viewed at

http://www.justice.gov.uk/publications/mortgatelandlordpossession.htm

These figures do not indicate how many homes have actually been repossessed. Repossessions can occur without a court order being made while not all court orders result in repossession.

The civil procedure rules state that all claims for the repossession of land must be commenced in the district in which the land is situated. However, geographical boundaries of county courts may not necessarily be consistent with other administrative or constituency boundaries, and therefore any single court's repossession actions are likely to relate to homes in a different number of boroughs.

Number of mortgage[1] possession orders made[2, 3] in the county courts of the east of England Government office region, 2004 to 2008

	2004	*2005*	*2006*	*2007*	*2008*
Basildon	612	910	1,048	1,050	1,198
Bedford	186	311	269	293	309
Bury St. Edmunds	124	191	220	235	263
Cambridge	194	266	327	348	430

Ministry of Justice

PRIME MINISTER

Parliamentary Private Secretaries

Mr. Maude: To ask the Prime Minister pursuant to the Answer of 18 June 2009, *Official Report*, column 454W, on Parliamentary Private Secretaries, when the new list of Parliamentary Private Secretaries will be published. [287297]

The Prime Minister: I have nothing further to add to the answer I gave the right hon. Member on 18 June 2009, *Official Report*, column 454W.

TREASURY

Departmental Manpower

Jo Swinson: To ask the Chancellor of the Exchequer what percentage of employees in his Department are *(a)* women and *(b)* men; and what the average hourly pay of his Department's (i) male employees and (ii) female employees was in the latest period for which figures are available. [287119]

Sarah McCarthy-Fry: The following table shows HM Treasury employees' average hourly pay. Figures are based on the numbers of full-time equivalent staff as at

1 April 2009 (the date of the most recent pay review). Employees at HM treasury are paid for 36 hours net per week.

Rangelgrade	Percentage men	Men's average hourly salary (£)	Percentage women	Women's average hourly salary (£)
B (AO)	26.9	10.15	73.1	10.63
C (EO)	41.8	12.35	58.2	12.88
D (HEO and SEO)	58.7	16.26	41.3	16.18
E (Grades 7 and 6)	62.6	26.01	37.4	25.16
SCSI (Grade 5)	54.3	34.05	45.7	33.97
SCS2 (Grade 3)	73.7	50.54	26.3	54.31
SCS3 (Grade 2 and above)	100.0	75.18	0.0	—

Departmental Publications

Grant Shapps: To ask the Chancellor of the Exchequer how much it cost to produce each of his Department's publications in each of the last three years. [280772]

Sarah McCarthy-Fry: Separate publication costs within individual campaign costs or report on individual titles within total publications costs are not available. To provide such information would involve disproportionate costs.

Energy: Low Carbon

Alan Simpson: To ask the Chancellor of the Exchequer pursuant to the oral Statement of 22 April 2009, *Official Report*, column 248 on the 2009 Budget, how much of the £405 million to support low-carbon energy production and advanced green manufacturing has been *(a)* allocated and *(b)* spent by each (i) Department and (ii) programme. [286727]

Sarah McCarthy-Fry: The Budget funding of £405 million was split as follows:

£250 million through BIS as part of the strategic investment fund

£155 million through DECC.

BIS

(a) Allocated up to £163.5 million comprising: up to £120 million for the development of the offshore wind industry; £29.5 million for marine energy infrastructure and test facilities; £10 million for low-carbon vehicle infrastructure; £4 million for the manufacturing advisory service. The low-carbon industrial strategy has more detail on these allocations.

(b) These programmes have just been announced, so no money has been spent yet.

DECC

(a) Allocated up to £81.2 million, comprising: up to £22.5 million for the marine energy proving fund; up to £10 million for the green villages, towns and cities challenge; up to £6 million renewable construction materials; up to £6 million for 'smart grid' innovation; up to £6 million for geothermal energy; up to £4 million for pay as you save pilots; up to £1.7 million for the Whitehall district heating scheme; up to £25 million towards the UK innovation investment fund. The Energy White paper and low-carbon industrial strategy have more detail on these allocations.

(b) These programmes have just been announced, so no money has been spent yet.

Alan Simpson: To ask the Chancellor of the Exchequer pursuant to the oral statement of 22 April 2009, *Official Report*, column 248 on the 2009 Budget, if he will allocate a proportion of the £405 million in support of low-carbon energy production and advanced green manufacturing to phase 2 of the low-carbon buildings programme. [286728]

Sarah McCarthy-Fry: £45 million of the £405 million has been made available to the low-carbon building programme. This funding has enabled phase two to be extended from 1 July 2009 until 30 April 2011 with a budget of £30 million. The extension will continue to provide grant funding to charitable, community groups and public-sector organisation projects.

Euro Steering Committee

Mr. Maude: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the minutes of the meeting of the euro steering committee of 6 June 2007. [287359]

Mr. Timms: The Government's policy on membership of the single currency remains unchanged. It remains as set out by the previous Chancellor in his statement to the House of Commons in October 1997, and again in his statement on the five tests assessment in June 2003.

Financial Services: City of London

Mr. Dai Davies: To ask the Chancellor of the Exchequer how much has been paid to City investment banks for advice on restructuring the financial sector in the last 12 months; and how many employees of such banks have been seconded to his Department to work on that restructuring. [279350]

Sarah McCarthy-Fry: The Treasury's accounting system does not separately identify spending with investments banks. The following table shows spending with companies in 2008-09 that are known to be investment banks, but this may not represent a complete list.

Organisation	£ 000
Deutsche Bank	41
Citigroup	1,922
Credit Suisse	6,365
Morgan Stanley	1,501

The figures are provisional as they form part of the Treasury's resource account, which is subject to audit by the Comptroller and Auditor General. The majority of the sums listed relate to advice given to the Treasury on financial stability measures. Under a number of agreements with financial institutions, certain fees are recoverable and the sums listed do not therefore represent a net cost to the Treasury.

No record could be found of staff being seconded from the organisations listed to work on restructuring of the financial sector.

Financial Services: Regulation

Harry Cohen: To ask the Chancellor of the Exchequer if he will bring forward proposals to ensure that non-executive directors of banks and other financial institutions are not appointed by those bodies. [286629]

Sarah McCarthy-Fry: Company directors are accountable to shareholders for the execution of their duties under the Companies Act 2006. Shareholders are responsible for holding directors accountable for their performance and stewardship and decide whether to appoint or reappoint directors. The function of non-executive directors in banks and other financial institutions is being considered by Sir David Walker as part of his review of bank corporate governance. Sir David's consultation paper was published on 16 July 2009 and the Government will consider its recommendations carefully.

Imports

Dr. Starkey: To ask the Chancellor of the Exchequer how many consignments of goods were imported into the UK from Israeli settlements in the occupied Palestinian territory in the last 12 months for which figures are available. [287171]

Mr. Timms: The information is not available. The Israeli settlements in the occupied Palestinian territories do not have a separate country of origin code from which HMRC can identify the imports concerned. Importers can only declare Israel or the occupied Palestinian territory as the country of origin on customs import declarations.

Dr. Starkey: To ask the Chancellor of the Exchequer what estimate he has made of the monetary value of goods exported from the UK to Israeli settlements in the occupied Palestinian territory in the last 12 months for which figures are available. [287172]

Mr. Timms: No estimate has been made. The Israeli settlements in the occupied Palestinian territories do not have a separate country code. Consequently, it is not possible for HMRC to identify the exports concerned. Exporters can only declare Israel or the occupied Palestinian territories as the country of destination on the customs export declaration.

Insurance: Motor Vehicles

Mrs. Riordan: To ask the Chancellor of the Exchequer what recent assessment he has made of the merits of preventing car insurance companies under-settling claims through the practice of early settlement. [287060]

Sarah McCarthy-Fry: I refer the hon. Member to the answer given to her by the Economic Secretary to the Treasury on 11 June 2009, *Official Report*, column 979W.

Members: Correspondence

Ann Winterton: To ask the Chancellor of the Exchequer when he plans to respond to the letter of 10 February 2009, ref 5/04229/2009, on banking bonuses from the hon. Member for Congleton on behalf of her constituent Mr. Pete Dobson. [280713]

Sarah McCarthy-Fry: A reply has been sent to the hon. Member.

Mr. Winnick: To ask the Chancellor of the Exchequer when the chief executive of HM Revenue and Customs plans to reply to the letter from the hon. Member for Walsall, North of 16 June 2009 on a constituent, case reference 1685132723. [287041]

Mr. Timms: The chief executive of HM Revenue and Customs will arrange for a reply to be sent to him no later than the week commencing 27 July 2009.

Nuclear Power: Costs

Alan Simpson: To ask the Chancellor of the Exchequer what estimate he has made of the average cost to households of Exchequer funding and allowances schemes provided for the nuclear industry in respect of *(a)* the production of nuclear energy and *(b)* nuclear waste disposal in each of the last three years. [278405]

Mr. Kidney: I have been asked to reply.

(a) There is no Exchequer funding and allowances schemes provided for the nuclear industry in respect of the production of nuclear energy.

(b) The Nuclear Decommissioning Authority's mission to clean up and decommissioning the civil public nuclear legacy sites, which includes two operational Magnox nuclear power stations, is publicly funded through a mixture of direct government funding and commercial income from the remaining operational units on the legacy sites. The cost of delivering the NDA's mission is some £2.9 billion a year. The cost of the production of nuclear energy at the NDA's Oldbury and Wylfa sites is met through the income generated, with the balance used to offset the cost to the taxpayer of decommissioning the legacy.

In addition, as part of British Energy's financial restructuring in 2005, the Government took responsibility for British Energy's historic nuclear fuel liabilities managed by BNFL (now managed by NDA) at an average cost of some £200 million per annum for the first 10 years, and falling thereafter, until 2029. The Nuclear Liabilities Fund has also made payments related to the cost of nuclear waste disposal and decommissioning of £3.5 million in the year to 31 March 2009.

Pay: North East

Mr. Hepburn: To ask the Chancellor of the Exchequer what the average earnings of people of working age was in *(a)* Jarrow constituency, *(b)* South Tyneside and *(c)* the North East in each year since 1997. [286344]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the average earnings of people of working age was in (a) Jarrow constituency, (b) South Tyneside and (c) the North East in each year since 1997. (286344)

Average levels of earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for all employees on adult rates of pay whose pay for the survey period was not affected by absence. The ASHE, carried out in April each year, is the most comprehensive source of earnings information in the United Kingdom. It is a sample of all employees who are members of pay-as-you-earn (PAYE) schemes.

Estimates for people of working age would only be available at disproportionate cost, but we have provided average weekly earnings estimates for the breakdowns required for full-time and part-time employees.

Median gross weekly pay for full-time employee jobs[a]

£

	Jarrow parliamentary constituency	*South Tyneside local authority*	*North East*

[e] 2006 results with methodology consistent with 2007.

Guide to quality

The Coefficient of Variation (CV) indicates the quality of a figure, the smaller the CV value the higher the quality. The true value is likely to lie within +/- twice the CV—for example, for an average of 200 with a CV of 5 per cent. we would expect the population average to be within the range 180 to 220.

Key:

CV <= 5%

* CV > 5% and <= 10%

** CV > 10% and <= 20%

X CV > 20%

Source:

Annual Survey of Hours and Earnings (ASHE), Office for National Statistics. 1997 to 2008

Public Bodies

Robert Neill: To ask the Chancellor of the Exchequer (1) what the *(a)* terms of reference are and *(b)* timetable is for his Department's review of quangos; [286647]

(2) if he will place in the Library a copy of the recent letter sent by the Chief Secretary to the Treasury to Government departments on reviewing quangos. [286648]

Mr. Byrne: On 3 July 2009 I announced that a review of arm's length bodies would be taken forward as part of the public value programme. The pre-Budget report will provide a progress report on the public value programme.

Taxation: Imports

Dr. Starkey: To ask the Chancellor of the Exchequer how much has been received by the Exchequer in duties collected from companies importing goods into the UK from Israeli settlements in the occupied Palestinian territory in the last 12 months for which figures are available. [287170]

Mr. Timms: In the 12 months ending 31 March 2009, HM Revenue and Customs have issued demands for £21,494 customs duty on products imported into the UK from Israeli settlements in the occupied Palestinian territory under the provisions of the EC-Israel Association Agreement.

WORK AND PENSIONS

Attendance Allowance

Miss McIntosh: To ask the Secretary of State for Work and Pensions what percentage of adults over the age of 65 years she estimates were eligible for attendance allowance in *(a)* Vale of York and *(b)* England in (i) 1997, (ii) 2001 (iii) 2005 and (iv) 2008. [286004]

Jonathan Shaw: We are unable to estimate the percentage of adults over the age of 65 years who may be eligible for attendance allowance.

Carer's Allowance

Andrew George: To ask the Secretary of State for Work and Pensions what steps her Department takes to monitor the adequacy of level of carer's allowance in meeting costs incurred by carers. [287926]

Jonathan Shaw: Carer's allowance provides a measure of financial support for carers who give up the chance of full-time employment in order to look after a severely disabled relative, friend or neighbour. It is an income-maintenance benefit and is not designed to cover any costs arising from a person's caring responsibilities.

Children: Maintenance

Mr. Frank Field: To ask the Secretary of State for Work and Pensions with reference to paragraph 13 of the National Audit Office report, Child Support Agency—Implementation of the Child Support Reforms, HC1174, Session 2005-06, how many cases are now estimated to be stuck in the system. [279055]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, with reference to paragraph 13 of the National Audit Office report Child Support Agency—Implementation of the Child Support Reforms published on 30 June 2006 how many cases are now estimated to be stuck in the system. [279055]

The paragraph from the 2006 National Audit office report you have referenced sets out the Agency's estimate of the number of cases at the end of March 2006 affected by problems in the Agency's computer system which require cases to be progressed clerically. The Commission continues to publish information on the number of cases which are processed wholly clerically in Table 20 of the Child Support Agency's Quarterly Summary of Statistics; a copy of which is available in the House of Commons library, or online at:

www.childmaintenance.org/publications/statistics.html

The number of cases the Agency managed wholly clerically at the end of March 2009 was 60,000. Although the need to progress such cases clerically is not ideal, they should not be seen as stuck as around £1 million in child maintenance is now collected each week for these cases.

Upgrades to the Agency's computer system one of which was also mentioned in paragraph 13 of the National Audit Office report and implemented successfully in September 2008 have reduced the incidence of cases being affected by problems and made it possible to identify and address problems more easily. At the end of March 2009, an estimated 27,500 cases which remain on the computer system also require partial clerical action to keep maintenance flowing to children. As the Agency continues to improve its client service, increasing the number of cases receiving maintenance, any additional cases identified are immediately investigated and either progressed clerically or the issue is resolved to allow the case to be wholly managed by the Agency's computer system.

The number of cases managed clerically will therefore continue to rise in the medium term and information on the numbers so progressed will be published.

I hope you find this answer helpful.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how much *(a)* debt and *(b)* cumulative debt resulting from arrears attributed to the non-resident parent accrued to the Child Support Agency in each year since 1993. [279844]

Helen Goodman *[holding answer 15 June 2009]:* The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, how much (a) debt and (b) cumulative debt resulting from arrears attributed to the non-resident parent accrued to the Child Support Agency in each year since 1993. [279844]

The Child Maintenance and Enforcement Commission regularly publish information on the amount of child maintenance arrears outstanding at the end of each year as well as the overall growth in debt each year in Table 22 of the Child Support Agency Quarterly Summary of Statistics (QSS). This information is only available from April 1999.

The latest copy of the Quarterly Summary of Statistics is available in the House of Commons library or online at:

www.childmaintenance.org/publications/statistics.html

The information that you have requested on the amount of arrears accruing in each year is not included in this table and the Agency can only provide an estimate for each year from March 2007. The attached table sets out both the estimated amount of new child maintenance arrears accruing in each year and the estimated amount by which arrears have been reduced. Arrears can be reduced either through repayment or where information has been provided to allow the case to be reassessed and the amount of arrears subsequently restated.

I hope you find this answer helpful.

Child Maintenance Arrears

	March		
	2007	*2008*	*2009*
Arrears total (£ billion)	3.67	3.79	3.84
Arrears increase (£ million)	n/a	484	405
Arrears reduction (£ million)	n/a	-363	-362

Notes:

1. Movement in arrears components is based on an estimate from internal figures and is only available from March 2007, so only two years of information can be provided.
2. Arrears on each case have been calculated in the year to March 2007, March 2008 and March 2009. From this, each case has been classified as seeing an increase or a decrease in arrears across each year. The value of this increase or reduction has also been calculated.
3. This will only take into account the net arrears movement across the year and may miss some payments that have subsequently been cancelled out by further increases in debt within the year.
4. The figures for March 2009 are at the time of answering this question un-audited internal figures and are subject to revision which will be published in the CSA Annual Report and Accounts for 2008-09.

Departmental Information

Mrs. Laing: To ask the Secretary of State for Work and Pensions how many requests for communications data were made by her Department and its agencies to communication service providers (CSPs) under section 1 of the Social Security Fraud Act 2001 in *(a)* 2001, *(b)* 2002, *(c)* 2003, *(d)* 2004, *(e)* 2005, *(f)* 2006, *(g)* 2007 and *(h)* 2008; and how many of these requests resulted in the requested communications data being disclosed by the relevant CSP. [284874]

Helen Goodman *[holding answer 7 July 2009]:* The information requested is not collated centrally and could be obtained only at disproportionate cost.

Housing Benefit: Greater London

Ms Buck: To ask the Secretary of State for Work and Pensions how many housing benefit claims were made by residents in each London local authority in 2007-08; and how many of these were made in respect of *(a)* private sector tenancies, *(b)* social rented tenancies, *(c)* in-work claims by private tenants and *(d)* in-work claims by social tenants. [284714]

Helen Goodman: The information is not available in the format requested. The available information is in the following table.

Number of housing benefit claimants by tenure: Great Britain, London local authorities, August 2007

	Housing benefit claimants	*Housing benefit claimants with private tenancies*	*Housing benefit claimants with social rented tenancies*
Great Britain	4,040,940	940,600	3,100,350
London	698,340	155,340	543,010
Barking	18,410	3,530	14,880
Barnet	21,780	8,830	12,950
Bexley	11,620	2,780	8,850
Brent	28,230	8,210	20,020
Bromley	15,860	3,880	11,980
Camden	27,990	4,090	23,900
City of London	1,170	70	1,100
Croydon	26,690	10,510	16,190
Ealing	24,610	7,000	17,610
Enfield	25,090	9,650	15,450
Greenwich	25,310	3,750	21,560
Hackney	35,010	5,460	29,540
Hammersmith and Fulham	20,380	3,190	17,190
Haringey	30,980	8,070	22,920
Harrow	12,490	3,650	8,840
Havering	11,160	2,530	8,630
Hillingdon	15,970	4,280	11,690
Hounslow	17,070	3,830	13,240
Islington	28,840	2,210	26,630
Kensington and Chelsea	16,060	2,700	13,360
Kingston upon Thames	7,250	2,010	5,230
Lambeth	35,070	5,230	29,840
Lewisham	29,100	6,050	23,050
Merton	10,570	2,470	8,100
Newham	33,520	9,440	24,080
Redbridge	14,630	5,690	8,940
Richmond upon Thames	8,080	1,900	6,170
Southwark	34,560	3,180	31,380
Sutton	9,740	2,600	7,140
Tower Hamlets	32,040	2,530	29,510
Waltham Forest	22,140	6,090	16,050
Wandsworth	23,200	5,430	17,770
Westminster	23,730	4,510	19,220

Notes:
1. The data refers to benefit units, which may be a single person or a couple.
2. Housing benefit figures have been rounded to the nearest 10.
3. Figures for any non-responding authorities have been estimated.
4. Housing benefit figures exclude any extended payment cases.
5. From February 2007, DWP has been collecting more detailed HB/CTB data electronically from local authorities. Over time this will improve the accuracy, timeliness and level of detail available in the published statistics. However, until the new data have been fully quality assured to National Statistics standards, the most recent summary statistics available are for August 2007.

Source:
Housing Benefit and Council Tax Benefit Management Information System Quarterly 100 per cent. case load stock-count taken in August 2007.

Ms Buck: To ask the Secretary of State for Work and Pensions what the average housing benefit payment was in each London local authority area in respect of *(a)* private and *(b)* social rented accommodation in 2007-08. [284715]

Helen Goodman: The available information is in the following table.

Average weekly amount of housing benefit by tenure: Great Britain, London local authorities, August 2007

£

	Average amount of weekly housing benefit for:	
	Private tenancies	*Social rented tenancies*
Great Britain	89.87	65.84
London	146.39	98.50
Barking	139.46	80.93
Barnet	156.51	101.78
Bexley	126.23	87.71
Brent	156.49	118.91
Bromley	130.08	86.42
Camden	156.82	100.86
City of London	135.93	83.43
Croydon	137.64	86.59
Ealing	151.34	110.77
Enfield	144.75	113.53
Greenwich	125.21	78.15
Hackney	151.74	90.88
Hammersmith and Fulham	156.85	97.79
Haringey	131.86	121.78
Harrow	163.10	109.31
Havering	114.10	71.75

Average weekly amount of housing benefit by tenure: Great Britain, London local authorities, August 2007

£

	Average amount of weekly housing benefit for:	
	Private tenancies	*Social rented tenancies*
Hillingdon	140.75	108.43
Hounslow	139.06	86.48
Islington	141.71	90.18
Kensington and Chelsea	196.59	109.51
Kingston upon Thames	144.90	99.91
Lambeth	122.30	91.09
Lewisham	158.32	81.54
Merton	153.14	78.64
Newham	137.18	132.60
Redbridge	140.82	132.35
Richmond upon Thames	149.38	88.76
Southwark	127.50	80.78
Sutton	133.38	77.90
Tower Hamlets	161.49	97.04
Waltham Forest	115.44	91.93
Wandsworth	192.46	97.76
Westminster	197.87	135.70

Notes:
1. Figures for any non-responding authorities have been estimated.
2. Housing benefit figures exclude any extended payment cases.
3. Average amounts are rounded to the nearest penny.
4. From February 2007, DWP has been collecting more detailed HB/CTB data electronically from local authorities. Over time this will improve the accuracy, timeliness and level of detail available in the published statistics. However, until the new data have been fully quality assured to National Statistics standards, the most recent summary statistics available are for August 2007.

Jobseeker's Allowance: Employment Schemes

Bob Spink: To ask the Secretary of State for Work and Pensions what proportion of jobseeker's allowance claimants started a work trial in each of the last six months. [282443]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking what proportion of Jobseeker's Allowance (JSA) claimants started a Work Trial in each of the last six months. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Please find attached at Annex 1 the number of JSA customers who started Work Trials compared to the number of customers claiming JSA in each of the last six months.

Work Trials and other successful policy interventions have contributed to an average of 269,000 people leaving JSA each month in the past 6 months.

Annex 1—proportion of JSA customers who started a work trial

Month	*Number of JSA customers starting work trial*	*Number of customers claiming JSA*	*Proportion of JSA work trial starts (percentage)*
December 2008	1,397	1,117,540	0.001
January 2009	1,491	1,243,085	0.001
February 2009	1,967	1,416,238	0.001
March 2009	2,365	1,478,222	0.002
April 2009	1,845	1,510,781	0.001
May 2009	2,837	1,516,952	0.002

Source:
BOXI management information, NOMIS

Pensioners: Poverty

Bob Spink: To ask the Secretary of State for Work and Pensions how many pensioners in *(a)* Essex and *(b)* Castle Point were in relative poverty in each of the last five years. [275487]

Angela Eagle: The data source does not allow us to provide robust numbers for estimates below the level of Government office region.

PSA17 includes a range of indicators related to low income for pensioners. These are relative low income (below 50 and 60 per cent. contemporary median household income), and absolute low income (below 60 per cent. of 1998-99 median income uprated in line with prices), all measured after housing costs have been taken into account.

Latest information for east of England, Government office region, is based on three year averages. There were around 0.2 million pensioners in the east of England below 60 per cent. of contemporary median income threshold between 2001-04 and 2005-07. During the same period, around 0.1 million pensioners in the east of England were below 50 per cent. of contemporary median income threshold.

However, between 2001-04 and 2005-07, the percentage of pensioners in the east of England being below the 60 per cent. of contemporary median income, after housing costs, has fallen from 25 per cent. to 16 per cent. The number of pensioners in relative poverty has remained unchanged due to the increase in the pensioner population in the east of England.

Social Security Benefits

Miss McIntosh: To ask the Secretary of State for Work and Pensions what the monetary value of all benefit payments made to residents of *(a)* the Vale of York and *(b)* England was in (i) 1980, (ii) 1997, (iii) 2001, (iv) 2005 and (v) 2008. [287416]

Helen Goodman: The requested information is not available and could be obtained only at disproportionate cost.

Social Security Benefits: Fraud

Mr. Heald: To ask the Secretary of State for Work and Pensions what estimate she has made of the average annual sum lost as a result of benefit fraud in

Alicante; what the objectives of her Department's campaign against benefit fraud in Alicante are; and if she will make a statement. [277049]

Helen Goodman: Information relating to the annual sum lost as a result of benefit fraud in Alicante is not available.

There are estimated to be over a million British people living in Spain, and while the vast majority are law abiding citizens, there will unfortunately be a small minority committing benefit fraud. The objectives of our campaign in Spain are:

To raise awareness of fraud abroad; and,

to track down benefit thieves abroad.

Written Questions: Government Responses

Andrew Selous: To ask the Secretary of State for Work and Pensions when she plans to answer question 274721, tabled on 12 May 2009, on maintenance payments. [278038]

Helen Goodman *[holding answer 4 June 2009]:* I replied to the hon. Member's question on 13 July 2009, *Official Report*, column 52W.

Andrew Selous: To ask the Secretary of State for Work and Pensions when she plans to provide a substantive answer to Question 274721, tabled on 7 May 2009, on child maintenance. [283746]

Helen Goodman *[holding answer 2 July 2009]:* I replied to the hon. Member's question on 13 July 2009, *Official Report*, column 52W.

HOME DEPARTMENT

Calais

Keith Vaz: To ask the Secretary of State for the Home Department what the objectives were of the Minister for Immigration's recent visit to Calais; and if he will make a statement. [285930]

Mr. Woolas: The UK continues to face significant pressure from illegal migrants attempting to reach our shores from the Channel and North sea coast of France. This continuous pressure calls for determined, mutual effort to tackle illegal immigration by the UK and France.

At the UK-France summit in Evian on 6 July, the UK agreed to invest a further £15 million to strengthen United Kingdom border controls at Calais, and other juxtaposed controls in France. The French and British Governments declared a joint commitment to effect a significant increase in enforced return of illegal migrants through their national programmes and through joint returns activity as appropriate.

A copy of the Franco-British declaration on Immigration has been placed in the Libraries of both Houses.

Departmental Contracts

Bob Spink: To ask the Secretary of State for the Home Department which services his Department has outsourced in each of the last five years; and if he will make a statement. [276446]

Mr. Woolas: The Home Office has not outsourced any of its services within the last five years.

Departmental Data Protection

Jenny Willott: To ask the Secretary of State for the Home Department (1) how many attempts were made to gain unauthorised access to each *(a)* database and *(b)* ICT system run by his Department in each of the last three years; and if he will make a statement; [286554]

(2) how many successful attempts were made to gain unauthorised access to each *(a)* database and *(b)* ICT system run by his Department in each of the last three years; and if he will make a statement. [286555]

Mr. Woolas: The security policy framework, the data handling report and the national information assurance Strategy produced by the Cabinet Office provide a strategic framework for protecting information that Government handles and put in place a set of mandatory measures to which Departments must adhere.

It is not in the interest of the security of the department, or that of the public, to disclose detailed information relating to electronic breaches of security of departmental IT systems. Disclosing such information would carry a significant risk of enabling criminals and those who would attempt to cause disruptive threats to the department to deduce how to conduct attacks and therefore potentially enhance their capability to carry out such attacks.

To help defend against electronic attack, it is standard good information security practice not to comment on such incidents.

Departmental Databases

Mr. Watson: To ask the Secretary of State for the Home Department what information databases his Department *(a)* maintains and *(b)* uses which do not contain personal information. [284391]

Mr. Woolas: In line with the Hannigan recommendations, the Home Office holds a register of information assets. Any Home Office information asset register/database which contains personal data adheres to the Data Protection Act.

The information requested would require contacting each information asset owner and asking them to provide any relevant information as appropriate. To identify accurately all Home Office information databases and their uses which do not contain personal information would take significant resource time to undertake and complete. This information can therefore be provided only at disproportionate cost.

Jenny Willott: To ask the Secretary of State for the Home Department (1) what categories of personal information on members of the public are contained on each database which contains such data managed by his Department and its agencies; when each category of information was first collected; and if he will make a statement; [284897]

(2) what databases managed by his Department and its agencies hold personal information on members of the public; on what date each such database became operational; and if he will make a statement; [285973]

(3) which of the planned databases that will be managed by his Department or one of its agencies and which will hold personal information on members of the public are expected to become operational in each of the next five years; and if he will make a statement; [286146]

(4) what categories of personal information on members of the public will be held on each of his Department's and its agency's databases expected to become operational in the next five years; what estimate he has made of the likely number of individuals' details each such database will hold when fully operational; and if he will make a statement. [286497]

Mr. Woolas: In line with the Hannigan recommendations, the Home Office holds a register of information assets. Any Home Office information asset register/database which contains personal data adheres to the Data Protection Act.

The information requested would require contacting each information asset owner and asking them to provide any relevant information as appropriate. To identify accurately all Home Office databases and categories of personal information would take significant resource time to undertake and complete. The information requested can therefore be provided only at disproportionate cost.

Departmental Electronic Equipment

Jenny Willott: To ask the Secretary of State for the Home Department how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in his Department; how many there were in each of the last three years; and if he will make a statement. [286171]

Mr. Woolas: There is not a central register of these items as they are purchased by local business units and to provide an answer to this question would incur costs in excess of the threshold.

Departmental Internet

Mr. Watson: To ask the Secretary of State for the Home Department when his Department plans to update its web browsers from Internet Explorer 6. [285013]

Mr. Woolas: For Home Office core, the United Kingdom Border Agency and the Criminal Records Bureau, there is a project under way that includes the upgrade from Internet Explorer 6; the current timing for this part of the project is February 2010.

IPS has recently signed a 10-year application and enrolment contract with Computer Science Corporation for the provision of IT services including desktop. As part of this contract, there is an 18-month programme called "Technical Transformation" within which there are several components including the roll-out of a new standard desktop.

Deployment of this new desktop, which includes Internet Explorer 7, is due to take place in a phased approach around the middle of 2010. A precise date for the start of this new desktop roll-out has not yet been agreed.

Departmental Lost Property

Mr. Blunt: To ask the Secretary of State for the Home Department how many laptop computers belonging to *(a)* his Department and *(b)* its agencies have been lost or stolen in the last five years. [281056]

Mr. Woolas: The Home Office can provide information on lost and stolen laptops only from 2005 onwards. In 2005, 14 laptops were lost/stolen but it has not been possible to provide a breakdown of this figure by Department/agency. The remaining information requested is set out in the following table:

Lost/stolen laptops

	Home Office core	UKBA	IPS	CRB
2006	5	8	1	0
2007	6	8	1	0
2008	8	13	8	0

Departmental Mobile Phones

Mr. Hoban: To ask the Secretary of State for the Home Department how many *(a)* BlackBerry devices and *(b)* mobile telephones have been lost by (i) Ministers, (ii) special advisers and (iii) civil servants in his Department in each year since 2005. [274458]

Mr. Woolas: Reports of losses by civil servants and special advisers are not recorded separately.

Blackberries

	2005	2006	2007	2008
Ministers	[1]	0	0	0
Civil Servants and Special Advisers	[1]	8	9	[1]

Mobiles

	2005	2006	2007
Ministers	0	0	0
Civil Servants and Special Advisers	26	7	43

[1] Less than 5. Where there have been less than five such cases it is the policy of the Home Office to suppress this information on grounds of confidentiality.

The figures for lost mobile telephones in 2008 are currently unavailable and we will inform the hon. Member when available.

Departmental Public Expenditure

Tony Baldry: To ask the Secretary of State for the Home Department what estimate he has made of his Department's capital underspend in 2009-10; and how much of that sum he proposes to return to the Exchequer. [284334]

Mr. Woolas: The Home Office, as with other Departments, has regular discussions with the Treasury about its financial needs. These discussions cover the financial challenges facing the Department and include the resources associated with major programmes and whether there may be the risk of either over or underspending.

Departmental Work Experience

Mr. Oaten: To ask the Secretary of State for the Home Department how many *(a)* paid and *(b)* unpaid graduate internships his Department has awarded in each of the last six months. [281519]

Mr. Woolas: The information requested on paid and unpaid graduate internships is not currently recorded centrally in the Home Office or its agencies. Internships are authorised and organised locally by managers in business units.

The Home Office provides around 30 placements annually, during July through September, to graduates and undergraduates who are from a minority ethnic background and/or have a registered disability, through the civil service fast stream summer placement schemes. They are paid an allowance at executive officer minimum rate.

Deportation: Bexley

Mr. Evennett: To ask the Secretary of State for the Home Department how many foreign nationals resident in *(a)* Bexleyheath and Crayford constituency and *(b)* the London borough of Bexley were deported in each of the last five years; and how many of those had committed a crime in the UK. [286697]

Mr. Woolas: The information requested is not readily available and could be obtained only at disproportionate cost. The chief executive of the UK Border Agency has regularly written to Home Affairs Select Committee in order to provide them with all the robust and accurate information available relating to foreign national criminals. Copies of these letters are available in the Library of the House.

Deportation: Democratic Republic of Congo

Jeremy Corbyn: To ask the Secretary of State for the Home Department what reports his Department has received on the safety of deportees removed to the Democratic Republic of Congo in the last two years. [280763]

Mr. Woolas *[holding answer 14 July 2009]:* The UK Border Agency continually monitors the situation in asylum claimants' countries of origin by making reference to a wide range of authoritative, publicly available sources.

In addition, the UK Border Agency works closely with the Foreign and Commonwealth Office to ensure that it has the best available information. The British embassy in Kinshasa speaks regularly with a network of local contacts about the treatment of failed asylum seekers on return to the Democratic Republic of Congo and will make inquiries about any specific allegations that arise. This network includes Congolese non-governmental organisations, Congolese civil servants and Government Ministers, and colleagues from other embassies in Kinshasa.

Entry Clearances

John Barrett: To ask the Secretary of State for the Home Department when the visa enquiry section of the British Consulate in Cairo plans to reply to the correspondence from the hon. Member for Edinburgh, West of 11 June 2009 on Manal Mohmed Abdalla. [282941]

Mr. Woolas: Visa staff at our visa section in Cairo have no record of receiving a letter from the hon. Member concerning Miss Abdalla. The only letter from the hon. Member visa staff have seen was part of an appeal bundle received from the applicant, addressed to the Asylum and Immigration Tribunal in the UK. The AIT is independent of the UK Border Agency and handles its own correspondence.

Jo Swinson: To ask the Secretary of State for the Home Department what explanation his Department has received from the British High Commission in Delhi on its refusal to issue a visa to Harvinder Singh Bhandal, ref 2572710; and whether his Department has issued further guidance to the High Commission on this case subsequent to the initial approval of the application. [284306]

Mr. Woolas *[holding answer 3 July 2009]:* I have seen the reasons for refusal as set out in the refusal notice, which in my view is comprehensive.

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department if he will review the decision to refuse entry clearance to Mr McDonald Adolphus Lewis, ref GV100/145918; and if he will make a statement. [285664]

Mr. Woolas: I regret to inform the hon. Member that any information contained in applications to the Home Office is treated as being confidential and is not normally disclosed to third parties. This is, of course, unless they are authorised representatives of the applicant. I hope that you will understand that this is not a question of secrecy for its own sake, but simply a matter of protecting the privacy of the individual.

My Department is writing in confidence separately to the hon. Member.

Entry Clearances: Applications

Mr. Soames: To ask the Secretary of State for the Home Department how many visa applications were *(a)* received, *(b)* issued and *(c)* refused in each year from 1997 to 2008. [267773]

Mr. Woolas *[holding answer 30 March 2009]:* I refer the hon. Member to the visa statistics published in UK Visas' annual reports for the financial years 2004-05 to 2007-08, available on our Visa Services website at:

www.ukvisas.gov.uk

Reliable data are not held for previous years.

Entry Clearances: Overseas Students

Mr. Oaten: To ask the Secretary of State for the Home Department how many applications for overseas student visas from people of each nationality were refused in each month (a) since 31 March 2009 and (b) between 31 March 2008 and 30 March 2009. [280661]

Mr. Woolas *[holding answer 18 June 2009]:* The following table details how many applications for overseas student visas from people of each nationality were refused in each month *(a)* since 31 March 2009 and *(b)* between 31 March 2008 and 30 March 2009.

	Reporting period

Foreign Workers

Mr. Clappison: To ask the Secretary of State for the Home Department how many applications for a work permit on the basis of an intra-company transfer in respect of non-UK nationals were *(a)* made and *(b)* granted in the first two quarters of 2009. [286458]

Mr. Woolas: The table shows the number of work permit applications made and approved for intra-company transfers in the first two quarters of 2009.

	Q1	Q2	Total
Applications made	530	515	1,045
Applications approved	435	510	945

Notes:
1. Number of individual work permit intra-company transfer applications received in each quarter during the period 1 January 2004 to 30 June 2009 and of those how many where approved.
2. Figures are rounded to nearest 5.
3. Because of rounding, figures may not add up to totals shown.

The figures quoted are not provided under National Statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

The figures do not equate to the number of individual nationals who were granted permits because they include those applications approved to extend or amend an existing permit or where the individual has moved to another job with a different employer. Not all those who were granted a permit took up the job and some may have been refused entry clearance or further leave to remain.

Foreign Workers: Immigration Control

Mr. Clappison: To ask the Secretary of State for the Home Department how many non-EU workers were given leave to remain *(a)* as skilled workers under mechanisms in place prior to the implementation of the points-based immigration system and *(b)* under Tier 2 of the points-based immigration system in each of the last 12 quarters for which figures are available. [285848]

Mr. Woolas *[holding answer 13 July 2009]:* Information relating to non-EU workers given leave to remain as skilled workers prior to the introduction of the points-based system is set out in the table.

Information on the points-based system will be published in August.

Figure 1: Number of non-EU HSMP and work permit LTR applications approved from 1 July 2007 to 30 June 2009 by quarter

Quarter	HSMP LTR	Work permit LTR	Total
2006 Qtr 3	5,985	11,460	17,450
2006 Qtr 4	7,065	14,375	21,435
2007 Qtr 1	6,880	11,890	18,770
2007 Qtr 2	4,385	9,705	14,095
2007 Qtr 3	4,350	11,555	15,905
2007 Qtr 4	4,760	10,815	15,580
2008 Qtr 1	4,370	8,645	13,015
2008 Qtr 2	780	9,615	10,395
2008 Qtr 3	25	11,120	11,145
2008 Qtr 4	20	11,200	11,220
2009 Qtr 1	*	6,060	6,065
2009 Qtr 2	*	740	745
Total	38,625	117,190	155,815

* Indicates 1 or 2
"—" Indicates nil
Notes:
Figures are rounded to nearest 5.
Because of rounding, figures may not add up to totals shown.

The figures quoted are not provided under National Statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

Forensic Science: Police

Mr. Hoyle: To ask the Secretary of State for the Home Department which police forces operate in-house forensic science services; and if he will make a statement. [283594]

Mr. Alan Campbell: All police forces use a mixture of in-house services and those provided by external forensic suppliers to carry out forensic work. For example, crime scene investigators, who will generally be employed by a force, may find fingerprints and material which may carry traces of DNA. The fingerprints are compared with IDENT1, the national fingerprint computer system, which produces a shortlist of possible matches. The shortlist is then examined by fingerprint experts who work for the force Fingerprint Bureau to confirm a match. Analysis of material to produce DNA profiles is done by forensic suppliers rather than in-house. In other areas of forensic work, the balance between in-house and external services will vary depending on the nature of the material examined and decisions made by forces. Details of the position in each police force are not held centrally.

Human Trafficking

Dr. Kumar: To ask the Secretary of State for the Home Department how many cases of human trafficking have been recorded in *(a)* the UK and *(b)* the north-east in each year since 1997. [285323]

Mr. Alan Campbell: Figures provided by the UK Human Trafficking Centre indicate that within the UK there have been a total of 384 people dealt with by the criminal justice system on arrest for human trafficking. A total of 106 people have been arrested for trafficking for sexual exploitation, three for conspiracy to traffic and seven for trafficking for forced labour.

Of these, seven people have to date been arrested within the north-east with two convicted of human trafficking.

Identity Cards

Mr. MacShane: To ask the Secretary of State for the Home Department if he will make available to hon. Members on request a provisional identity card document to enable passport-free travel to and from other EU member states. [284693]

Mr. Woolas: From autumn 2009, we will issue voluntary identity cards valid for travel in Europe to airside workers at Manchester and London City airports and to British citizens aged 16 and over resident in Greater Manchester at a fee of £30.

We intend then to extend the rollout of identity cards to the rest of the north-west in the new year and from 2012 we will start to issue identity cards in high volumes alongside passports, offering everyone the choice of being issued with an identity card or a passport or both documents.

Immigration Controls

Damian Green: To ask the Secretary of State for the Home Department how many immigrants entered the UK under tier 2 of the points-based system in 2008. [278550]

Mr. Woolas: During 2008, a total of 91 visas were issued to non-EEA nationals for entry to the UK under tier 2 of the points-based system. Tier 2 was introduced on 27 November 2008.

These data are unpublished and should be treated as provisional.

Patrick Mercer: To ask the Secretary of State for the Home Department how many foreign nationals have been prevented from entering the UK on grounds of *(a)* national security, *(b)* unacceptable behaviour, *(c)* public order and *(d)* serious criminality since July 2005. [283783]

Mr. Woolas: A decision to prevent entry to the UK may be made at the entry clearance application stage, or when a person arrives at the port of entry. Additionally, prevention of entry on grounds of criminality may include foreign national prisoners who have either been deported from, or removed and subsequently excluded from, the United Kingdom.

There are no centrally held records that encompass the total number of foreign nationals who have been prevented from entering the UK, but I can confirm that since July 2005 the Home Secretary has excluded 163 individuals from the UK on the grounds of national security and 106 individuals on the grounds of unacceptable behaviour.

I can also confirm that 2,852 individuals were refused entry at the UK border on non-conducive grounds between 2005 and 2008. Figures for 2009 will not be published until the end of year.

Immigration: Biometrics

Keith Vaz: To ask the Secretary of State for the Home Department which British diplomatic posts *(a)* have and *(b)* do not have biometric identification facilities. [277753]

Mr. Woolas: There are both British diplomatic missions and biometric collection facilities in the following countries:

Albania, Algeria, Angola, Argentina, Armenia, Australia, Austria, Azerbaijan, Bahrain, Bangladesh, Barbados, Belarus, Belgium, Bermuda, Bolivia, Bosnia, Botswana, Brazil, Brunei, Bulgaria, Burma, Cambodia, Cameroon, Canada, Chile, China, Colombia, Congo, Costa Rica, Croatia, Cuba, Cyprus, Czech Republic, Denmark, Dominican Republic, Ecuador, Egypt, Estonia, Ethiopia, Fiji, France, Gambia, Georgia, Germany, Ghana, Greece, Guatemala, Guyana, Hong Kong, Hungary, Iceland, India, Indonesia, Iran, Iraq[1], Ireland, Israel, Italy, Jamaica, Japan, Jordan, Kazakhstan, Kenya, Korea, Kuwait, Latvia, Lebanon, Libya, Lithuania, Macedonia, Malawi, Malaysia, Malta, Mauritius, Mexico, Moldova, Mongolia, Montenegro, Morocco, Mozambique, Namibia, Nepal, Netherlands, New Zealand, Nigeria, Norway, Oman, Pakistan, Panama, Papua New Guinea, Peru, Philippines, Poland, Portugal, Qatar, Romania, Russia, Rwanda, Saudi Arabia, Serbia, Sierra Leone, Singapore, Slovakia, South Africa, Spain, Sri Lanka, St. Lucia, Sudan, Sweden, Switzerland, Syria, Taiwan, Tajikistan, Tanzania, Thailand, Trinidad and Tobago, Tunisia, Turkey, Turkmenistan, United Arab Emirates, Uganda, Ukraine, Uruguay, United States, Uzbekistan, Venezuela, Vietnam, Yemen, Zambia, Zimbabwe.

There are British diplomatic missions but no biometric collection (or visa issuing) facilities in the following countries: Afghanistan, Burundi, Cote d'Ivoire, Eritrea, Guinea, Kosovo.

[1] Iraq: Baghdad and Erbil operate a limited biometric capture facility for specified categories of applicant.

Police: Badge Numbers

Willie Rennie: To ask the Secretary of State for the Home Department whether his Department issues guidance to police authorities on the display of badge numbers by police officers at public protests. [283347]

Mr. Hanson *[holding answer 1 July 2009]:* All police officers are subject to the standards of professional behaviour that are set out in the Police (Conduct) Regulations 2008. These regulations set out the standards of behaviour expected of police officers and include the requirement that officers abide by police regulations, force policies and lawful orders.

Any breach of the standards may lead to disciplinary action being taken against an officer, which in the most serious cases can result in dismissal from the service.

UK Border Agency: Consultants

Bob Spink: To ask the Secretary of State for the Home Department pursuant to the answer of 18 June 2009, *Official Report*, columns 459-62W, on the UK Border Agency: public consultation, how many management consultancies have held contracts with the UK Border Agency in the last three years. [282423]

Mr. Woolas: Over the last three years, 36 management consultancies have held contracts with the UK Border Agency. This number excludes any consultancies providing services via the civil service wide contractual framework agreements or through the Office of Government Commerce, as this would not amount to a contract held with the UK Border Agency. Information on those arrangements could be provided only at disproportionate cost.

UK Border Agency: Lost Property

Damian Green: To ask the Secretary of State for the Home Department how many laptops have been recorded lost, stolen or missing from the UK Border Agency and its predecessor organisations in each of the last three years; how many have subsequently been recovered; and how many of these incidents have happened following a breach of guidelines issued by his Department. [251926]

Mr. Woolas: Figures on the number of laptops stolen, lost or missing from the UK Border Agency for the years when information is available, are provided in the following table:

	Lost/stolen/missing	*Recovered*
2006	8	0
2007	8	0
2008	13	5
Total	29	5

To provide information on how many of these incidents took place following a breach of Home Office guidelines would require a review of each individual report, including validation with the individual and the business area involved. It is likely that this would take significant resource time to undertake and complete and could therefore be provided only at disproportionate cost.

Written Answers to Questions

Monday 20 July 2009

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Subsidies

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs how many farmers did not receive Common Agricultural Policy subsidy payments because of inaccuracies in the maps of their land which they submitted to his Department in the last two years. [284408]

Jim Fitzpatrick: The data required to provide the number of farmers that did not receive CAP subsidy payments because of inaccuracies in the maps of their land is not held in a form that is easily accessible. The process to reconcile such information is resource intensive, time consuming and would cost more than £750 to collate.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs how the new set of maps issued by the Rural Payments Agency in connection with claims for payment under the single payment scheme will seek to prevent claims being submitted by more than one farmer per field. [286069]

Jim Fitzpatrick: Single payment scheme applicants can only claim for land at their disposal for the relevant scheme year. Instances where the same field is being claimed by more than one farmer are identified and resolved through the SPS claim validation process.

The rural land register mapping update exercise will increase the accuracy of the map data used to validate these claims for payment.

Air Pollution

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to reduce levels of *(a)* particulate matter, *(b)* nitrogen dioxide and *(c)* polycyclic aromatic hydrocarbons adjacent to main roads to within the limits prescribed in EU legislation. [285514]

Jim Fitzpatrick *[holding answer 9 July 2009]:* EU air quality limits are already met across 99 per cent. of the UK (land area). For the very small parts of the country where limit values are not yet met, including London, roadside locations present the greatest challenge. The UK, like most other member states is using the provisions in EU legislation to secure from the European Commission additional time to meet the limit values for both particulate matter and nitrogen dioxide. If successful these would extend the compliance deadlines to 2011 for particulate matter and to 2015 for nitrogen dioxide.

The Government submitted in April their application for particulate matter:

http://www.defra.gov.uk/environment/airquality/euint/eudirectives/airqualdirectives/notification.htm

and is working with the Mayor of London and relevant local authorities with a view to consulting on the application for nitrogen dioxide early in 2010. Applications need to set out the measures that will be taken to meet the limit values by the extended deadlines. The additional time will allow current and planned measures to take effect.

EU target values for polycyclic aromatic hydrocarbons do not come into force until 2012. In 2008 all monitoring sites at roadside locations exhibited concentrations of polycyclic aromatic hydrocarbon below the target value. Measures to reduce emissions from traffic source will continue to reduce concentrations at urban sites.

More widely, Government are working to improve the regulation of biomass heating systems to ensure that their rollout minimises any negative impact on air quality.

Susan Kramer: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made on his Department's request for a derogation from EU air quality standards in respect of particulate matter; and if he will make a statement. [287840]

Jim Fitzpatrick: EU air quality limits are already met across 99 per cent. of the UK (land area). For the very small parts of the UK where limit values are not yet met, roadside locations present the greatest challenge. The UK, like most other member states, is using the provisions under directive 2008/50/EC to secure additional time from the European Commission to meet the limit values for particulate matter (PM_{10}).

In April, following public consultation, the UK Government submitted a notification to the Commission applying for the additional time available for eight areas across the UK. These are areas where at some point since 2005 exceedences of the PM_{10} limit values have been reported to the Commission.

Additional information was submitted to the Commission at the beginning of July in response to a request from them following their initial examination of the application. The Commission has indicated that it will conclude its examination in the autumn.

The UK application is available on the DEFRA website at:

www.defra.gov.uk/environment/airquality/eu-int/eu-directives/airqual-directives/notification.htm

The additional information provided to the Commission shall be available on the website shortly.

Animals: Exports

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what recent progress has been made in reducing levels of live animal exports. [288011]

Jim Fitzpatrick: The export of live animals is a lawful trade and to restrict it would be contrary to free trade rules. Such trade must, though, adhere to the standards set out in health and welfare rules.

The Government would prefer a trade in meat to the long distance transport of live animals to slaughter, whether in the UK, or across borders.

Batteries: Recycling

Simon Hughes: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government are taking to increase rates of battery recycling to meet the requirements of the EU batteries directive. [288709]

Dan Norris: The Government have introduced new UK regulations to transpose the EU's batteries directive. The regulations make battery producers responsible for collecting, treating and recycling waste batteries.

Most industrial and automotive batteries are already recycled. The regulations seek to ensure that this will continue. However, few portable batteries are currently recycled. The new regulations require portable battery producers to join a Battery Compliance Scheme. The schemes will be responsible for increasing battery collection rates. DEFRA and the schemes will also carry out publicity activities to encourage consumers to recycle their batteries. From February 2010, most shops selling household batteries will collect waste batteries from consumers.

Batteries: Waste Disposal

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment he has made of the environmental effects of the disposal of batteries. [286359]

Dan Norris: The Department for Business, Enterprise and Regulatory Reform published an impact assessment on the Waste Batteries and Accumulators Regulations 2009 (SI No. 890/2009) in May. This covers environmental effects and can be found at:

http://www.opsi.gov.uk/si/si2009/em/uksiem_20090890_en.pdf

Beef: Imports

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs if he will estimate the volume of Brazilian beef imported into the UK which was raised in illegally deforested areas in the latest period for which figures are available; and if he will make a statement. [285558]

Jim Fitzpatrick: We do not hold figures on the volume of Brazilian beef imported into the UK which would link across to deforestation.

For animal health purposes, Brazil is split into 'safe' and 'unsafe' disease regions, to prevent the arrival of disease into either the UK or EU. The meat imported to the EU must be accompanied by appropriate animal and public health certification and must come from EU approved plants in the exporting country (in this case Brazil).

Any illegal imports of Brazilian meat would be seized, destroyed or re-exported.

We are working hard internationally, including under the UNFCCC to find ways of helping developing countries to address deforestation. The approach aims to provide incentives to reduce deforestation through reflecting the real value of forests, including their role in reducing emissions.

Bovine Tuberculosis: Devon

Mr. Streeter: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has for the introduction of practical steps to reduce levels of bovine tuberculosis in Devon; and what the timescale is of those plans. [287782]

Jim Fitzpatrick: This Government remain committed to working with industry to monitor and enhance TB control measures. Most recently, the TB Eradication Group was set up in November 2008 to make recommendations to the Secretary of State for developing a plan for reducing bovine TB in all parts of England, including Devon, with the ultimate objective of moving towards eventual eradication.

We are also actively pursuing the future use of vaccination of cattle and wildlife, through vaccine research, and the Badger Vaccine Deployment Project (BVDP), alongside our current control measures. Two of the areas for the BVDP are in Devon and the aim is that the vaccination of badgers will commence in summer 2010 and take place for at least five years in each area.

Bovine Tuberculosis: East of England

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs how many farms in *(a)* Essex and *(b)* the East of England were under bovine tuberculosis restrictions on the latest date for which figures are available. [288111]

Jim Fitzpatrick: DEFRA cannot provide the information in the format requested. DEFRA collects data on the number of herds under restriction because TB measures apply to a herd and not a farm.

We can provide the latest data from Vetnet (1 June) which shows that the number of herds under bovine TB restrictions on 31 March 2009 was *(a)* 19 herds in Essex, and *(b)* 636 herds in the East of England region.

Note:

Data downloaded from the Vetnet system is provisional and subject to change as more data becomes available.

Bovine Tuberculosis: Vaccination

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs how many vaccinations of each badger will be required under the new Badger Vaccine Deployment Programme. [287212]

Jim Fitzpatrick: Badgers only need to be vaccinated with BCG once to confer a protective effect on an individual badger. However, it is unnecessary to vaccinate every individual, although the more badgers vaccinated the better overall.

We do not know how long the protection lasts but an annual vaccination campaign is consistent with published results that BCG protection lasts at least one year in animals. Safety data from the Badger Vaccine Study (BVS) on repeated annual vaccinations will be reported in the final report of the BVS which is expected in March 2010.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs how long the temporary tag on badgers as part of the Badger Vaccine Deployment Programme will last. [287213]

Jim Fitzpatrick: The temporary marks on vaccinated badgers will last for at least several weeks, depending on weather conditions. This is so a marked badger re-trapped in any given trapping session can be released without further vaccination. There is no need for long-term marking as there is no detrimental effect if a badger is injected again in subsequent years.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what the timetable is of the Badger Vaccine Deployment Programme. [287214]

Jim Fitzpatrick: DEFRA has recently had a series of meetings with key regional representatives and local veterinary practices in each of the proposed deployment areas. The next step is speaking with farmers in these areas, followed by signing-up participants and training contractors, which will begin during the autumn.

Sign-up will be in phases to allow capacity to be built up and early lessons to be implemented. Therefore, during 2010, vaccination will be carried out in a lead demonstration area, where contractors will be trained, and 20 per cent. (20 km^2) of the other five areas. The project will be fully rolled out, in all the areas, by the third year (i.e. all areas will have been vaccinated by 2012). Once this initial phase has been completed vaccination across 100 per cent. of the areas will continue each year and each area will be vaccinated for at least five years.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what mechanisms will be used to assess the effectiveness of the Badger Vaccine Deployment Programme; [287215]

(2) what estimate has been made of the proportion of farmers and landowners needed to participate in the Badger Vaccine Deployment Programme for the results of the programme to be scientifically meaningful. [287220]

Jim Fitzpatrick: The Badger Vaccine Deployment Project aims to increase farmer confidence in TB vaccines and develop practical know-how for vaccinating badgers, including how best to deploy vaccines in an area and developing an understanding of training needs and costs. To this end, we will be monitoring levels of take up among farmers and contractors, and training will be assessed and monitored throughout the project. We will also build up an understanding of the cost[illegible]ctable badger vaccination. This information wi[illegible]s for future use of both injectable and oral badger vaccines for bovine TB. Possible further measures of success are currently being considered.

The Badger Vaccine Deployment Project is not a scientific trial, but a practical project to develop know how for vaccinating badgers. The project will target cattle farming areas of up to 100km^2 (25,000 acres) in each of the six high incidence TB areas for five years vaccination. While the project will be unable to demonstrate a treatment effect of the vaccine in cattle herds, an exploratory analysis of routinely collected cattle disease data will be carried out at the end of the project and independent expert statistical advice has been taken to ensure the project design gives a good chance of detecting any changes in cattle TB trends that may be associated with vaccination. We expect landowner participation in the project to be at least 70 per cent. within the 300km^2 catchment areas, which will enable us to reach our 100km^2 target in each area. Social science research looking at changes in farmers' attitudes to vaccination and factors that influence farmer behaviour can provide meaningful results on a smaller scale. The project design has also been discussed and agreed with the TB Science Advisory Body, along with two of its subgroups dealing specifically with TB vaccines and economics and social science, key farming and veterinary stakeholders and the TB Eradication Group for England.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what steps will be taken to prevent unvaccinated badgers entering Badger Vaccine Deployment Programme areas; [287216]

(2) whether all badgers will be treated as part of the Badger Vaccine Deployment Programme. [287217]

Jim Fitzpatrick: All trapped badgers will be vaccinated. It is not necessary to trap and vaccinate every individual in a population or to prevent the entry of unvaccinated ones to control a disease. This is because as the proportion of immunised individuals increases, the risk to all individuals, whether vaccinated or not, decreases. The stable social structure of undisturbed badger populations, where there is little mixing of individuals between social groups, lends itself to the generation of this 'herd immunity' through vaccination.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what the estimated cost is of the Badger Vaccine Deployment Programme. [287218]

Jim Fitzpatrick: The final business case for the badger vaccine deployment project is still being developed, and cost estimates will be subject to change to reflect, for example, the costs of contractors bidding for the work and the final costs for purchasing the vaccine. We do not propose to release cost estimates until these are more certain.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs how many people will be employed on the Badger Vaccine Deployment Programme. [287219]

Jim Fitzpatrick: We do not know at this stage exactly how many people will be employed on the Badger Vaccine Deployment Project. However, we do know that it takes 10 people (five teams of two) to vaccinate a 100 km^2 area in one trapping season. The Food and Environment Research Agency (Fera), which already has a number of trained staff, will vaccinate badgers in the training area and will train contractors who will work in the remaining five areas.

Dairy Farmers of Britain: Insolvency

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if he will bring forward proposals to expedite single farm payments to farmers affected by the taking into receivership of Dairy Farmers of Britain. [287821]

Jim Fitzpatrick: Recently agreed EU legislation provides the possibility for member states to make 70 per cent. advance payments under the 2009 single payment scheme (SPS) from 16 October where full scheme controls have been completed.

We have always said that we would consider the case for advance payments on the basis of an assessment by the Rural Payments Agency (RPA) on what consequential impacts would be, including on the timetable of full payments for all claimants. We have yet to take a final decision, but DEFRA have spoken to the chief executive on the issue and it is clear that there would be a real risk that making advances would affect the RPA's ability to match last year's performance in making nearly £1 billion of full SPS payments in December.

Whatever the final decision reached on advances, the RPA will continue to address any cases of individual hardship as sympathetically as possible.

Departmental Data Protection

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* attempts and *(b)* successful attempts were made to gain unauthorised access to each (i) database and (ii) ICT system run by his Department in each of the last five years; and if he will make a statement. [286546]

Dan Norris: It is not in the interests of the UK's national security for Departments to confirm information on the number of attempts, successful or otherwise, to gain unauthorised access to departmental systems or databases. Such disclosure could undermine the integrity and security of departmental systems and thereby expose them to potential threats.

DEFRA complies with the mandatory requirements of the Security Policy Framework in relation to information security including managing the risk of unauthorised access to ICT systems.

Departmental Databases

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs what information databases his Department *(a)* maintains and *(b)* uses which do not contain personal information. [284398]

Dan Norris: DEFRA maintains and uses a wide range of databases reflecting its diverse policy and regulatory functions. A full list could be provided only at disproportionate cost to the Department.

However, DEFRA's Information Asset register does provide details of many of the databases managed by the Department. This register is available on the Department's website at:

http://www.defra.gov.uk/corporate/opengov/defra/available/iar/index.htm

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs what categories of personal information on members of the public will be held on each of his Department's and its agency's databases expected to become operational in the next five years; what estimate he has made of the likely number of individuals' details each such database will hold when fully operational; and if he will make a statement. [286496]

Dan Norris: Information about the categories of personal information on members of the public that will be held on each of the Department's and its agency's databases expected to become operational in the next five years and estimates of the likely number of individual's details that each dataset will hold when fully operational can be provided only at disproportionate cost.

Routine assurance of database developments during the business planning cycle ensures that any planned databases containing personal information are identified before development commences and referred to the departmental data protection team to ensure that they adhere to the Data Protection Act.

Moreover, following the publication of the cross government data handling review in June 2008, staff establishing new projects and programmes that hold significant amounts of personal data are obliged to conduct privacy impact assessments.

Departmental Work Experience

Mr. Willis: To ask the Secretary of State for Environment, Food and Rural Affairs how many interns work in his Department; what terms of reference apply to their appointment; what remuneration they receive; and how long on average an intern appointment lasts. [286422]

Dan Norris: Five graduate internships commenced placements with DEFRA on 6 July 2009, three via the Cabinet Office Summer Development programme (ethnic minorities) and two from the summer placement scheme (disability). All interns are engaged on a paid basis at civil service EO level salaries.

These internships consist of a minimum of 12 weeks' work placement, extendable as required.

The type of work offered to interns will, for example, range from a time-limited project to a more varied programme of work. The aim of such internships is to help internees develop their levels of skill and practical experience, and to increase their employability.

Disease Control

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if he will take steps to encourage the veterinary profession to work more closely with the medical profession on matters relating to the transmission of diseases between humans and animals; and if he will make a statement. [288963]

Jim Fitzpatrick: DEFRA are fully aware of the need for close collaboration between the veterinary and medical profession in preventing and controlling transmission of diseases between humans and animals. Officials continue to collaborate with their counterparts in the Department

of Health, the Health Protection Agency and the devolved Administrations regular inter-departmental meetings are held to assess the risk from diseases, as well as from newly emerging conditions, which might have the potential for inter-species transmission. There is also strong collaboration at the local level where joint assessments and co-ordinated veterinary and medical investigations of disease outbreaks are made.

Domestic Appliances: Carbon Emissions

Simon Hughes: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the annual level of carbon dioxide emissions resulting from electrical appliances being left in standby mode. [287896]

Dan Norris: The most recent analysis of the energy consumption of equipment in households and commercial properties was undertaken by DEFRA's Market Transformation Programme (MTP) in 2006. This estimated that the level of carbon emissions resulting from all the appliances most commonly found in UK homes was at least 7.2 TWh equal to 2.1 per cent. of UK electricity consumption or 0.8 million tonnes of carbon. The MTP is in the process of updating this information for 2008.

The report, 'Estimated UK Standby Electricity Consumption in 2006 (V2.0) (BNXS36)', can be found on the MTP website.

Domestic Waste

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the tonnage of *(a)* aluminium, *(b)* wood, *(c)* paper, *(d)* green waste, *(e)* glass, *(f)* steel and *(g)* textiles in the municipal waste stream in each year since 1997; and how much of each he estimates was (i) recycled, (ii) landfilled and (iii) sent to energy from waste facilities (A) in total and (B) in each local authority area in each such year. [286469]

Dan Norris: DEFRA keeps tonnages of municipal waste sent for recycling in 2005-06, 2006-07 and 2007-08, broken down into material types. Data on waste sent to landfill or for energy recovery is not broken down into material types, but the totals are available. All this data are available at local authority level and will be placed in the Library shortly.

Municipal waste management statistics back to 1995-96 are available at national level on DEFRA's website.

Source:

WasteDataFlow and DEFRA's Municipal Waste Management Survey.

Domestic Waste: Waste Disposal

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make an estimate of the unit cost to a local authority of the provision of wheeled refuse containers for the collection of household waste. [286529]

Dan Norris: It is not feasible to make an estimate of the unit cost to a local authority of the provision of wheelie bins. This will depend on a number of factors including which company the local authority procures the bins from and the number of bins ordered.

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer to Lord Taylor of Holbeach of 2 July 2009, *Official Report, House of Lords*, column WA94, on waste management: refuse collection, what proportion of dwellings used wheeled refuse containers for the collection of residual waste in each year for which figures are available. [286812]

Dan Norris: The following table shows the percentage of dwellings in England that have been issued with wheeled refuse containers by local authorities for the collection of residual (black bag) waste from 2000-01 to 2007-08.

Data for 2004-05 is unavailable. This is due to partial submission of data by local authorities.

Percentage of dwellings using wheeled refuse containers for residual waste

	Percentage
2007-08	63.64
2006-07	61.06
2005-06	57.51
2004-05	n/a
2003-04	58.00
2002-03	55.00
2001-02	52.00
2000-01	51.00

n/a = Not available.

Source:

WasteDataFlow and DEFRA's Municipal Waste Management Survey.

Environment Agency: Consultants

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Environment Agency spent on consultants in each of the last five years. [283736]

Jim Fitzpatrick: The Environment Agency delivers major investment programmes through flood risk and civil engineering work. Expenditure includes the feasibility, design and supervision of these projects which are developed through accessing specialist engineering companies.

The following table shows total Environment Agency expenditure on consultants in each of the last five years. This expenditure includes regional and national civil engineering consultants, water management engineering consultants, environmental policy consultants and management consultants.

£

	2004-05	2005-06	2006-07	2007-08	2008-09
Regional civil engineering/ environmental consultancy	29,083,263.68	25,391,099.61	27,890,749.09	21,012,252.52	27,757,651.67

	2004-05	2005-06	2006-07	2007-08	£ 2008-09
NCPMS civil engineering/ environmental consultancy	42,162,089.61	36,131,701.10	35,326,920.35	27,134,018.64	41,946,590.04
Water management engineering/ environmental consultancy	17,340,988.37	17,019,978.91	17,932,634.73	17,011,410.63	18,944,069.07
Environmental policy consultants	29,619,337.66	22,086,297.51	25,112,247.92	31,655,315.86	30,121,357.01
Management consultants	5,220,346.70	6,806,599.05	4,174,035.10	3,413,657.41	3,306,945.63
Total	123,334,026.02	106,635,568.18	110,436,587.19	100,226,655.06	122,076,613.42

EU Law

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the cost to his Department of the statutory obligations upon it provided for in legislation introduced as a consequence of obligations arising from EU legislation in the most recent 12 months for which figures are available. [285470]

Dan Norris: It is very difficult to provide precise figures for the proportion of UK legislation that stems from the European Union.

The administrative burdens measurement exercise carried out by the Government in 2006 put the proportion of administrative burdens stemming from the EU at approximately one third of the total administrative burden.

The important thing is not the origins of a legislation, which could of course be a devolved administration or a local authority, as well as the Government or the EU, but the quality of the regulation. All regulations, irrespective of their origins, should comply with the principles of better regulation. Regulations should be risk based, proportionate and well designed, so as to achieve their objectives while also keeping costs to a minimum. The Government continue to work with European partners to ensure that EU regulations meet these standards.

Farmers: Loans

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations he has received on levels of bank lending to farmers; and if he will make a statement. [285139]

Jim Fitzpatrick: No recent formal representations have been received on the subject of bank lending to farmers. At the end of March 2009, net lending to agriculture, forestry and hunting in the UK stood at just below £11 billion. This was more than £900 million higher than at the same point in 2008 and some £280 million above the level recorded at the end of 2008. There is strong evidence that the banking sector is continuing to lend to farm businesses with sound business cases but DEFRA will continue to monitor the situation.

Fisheries: Prosecutions

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs how many prosecutions for breaches of fishing quota regulations have been brought in each sea fishery committee area in each of the last five years. [286207]

Huw Irranca-Davies: Sea fisheries committees do not generally prosecute fishing quota offences. Therefore, DEFRA does not record data on prosecutions for breaches of fishing quota regulations by sea fishery committee area.

Flood Control: Finance

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the likely effect of the additional £25 million in capital funding for flood defences brought forward from 2010-11 to 2009-10 and 2008-09 on *(a)* the number of homes receiving earlier flood protection and *(b)* improvements to British Waterways network infrastructure; and how much of the funding has been spent in each month since it was announced. [286651]

Huw Irranca-Davies: In 2008-09, £5.1 million of funding for flood and coastal risk management was brought forward from 2009-10. In 2009-10, £20 million of funding was brought forward from 2010-11 as part of the fiscal stimulation package announced in the 2009 pre-Budget report to provide early protection for 27,000 homes.

The Environment Agency forecasts full spend of its £349.4 million capital budget (not including funding for implementing the recommendations of the Pitt Review) for 2009-10. At the end of May 2009 it had spent £44 million.

As part of the fiscal stimulation package, £5 million of funding for British Waterways was brought forward from 2010-11 to 2009-10 to be spent on infrastructure projects. This will take place as part of the major works programme which is concentrated during winter months when the waterways are not highly used.

Heating: Greenhouse Gas Emissions

Simon Hughes: To ask the Secretary of State for Environment, Food and Rural Affairs if he will estimate the amount of greenhouse gas emissions arising from the use of patio heaters in the UK in *(a)* each year since 2000 and *(b)* each of the next five years. [286438]

Dan Norris: DEFRA does not hold the specific estimates requested. The most recent data available that can be used to estimate the carbon emissions of outdoor patio heaters are from 2007.

In spring 2007, the Government's Market Transformation Programme (MTP) produced a briefing note (BNDH18) intended to estimate the CO_2 emissions as a result of the use of patio heaters. This note estimated that 'outdoor heaters' (both domestic and non-domestic) accounted for around 94.9 GWh of energy being consumed annually, equivalent to 22.2 $ktCO_2$ (thousand tonnes of CO_2).

In October 2007, the MTP updated the assumptions in the original study to estimate CO_2 emissions from patio heaters as a result of the smoking ban. The report estimated that the annual emissions from patio heaters as a result of the smoking ban would be between 96 and 282 kt CO_2, depending on the type of heaters and how they were used.

The MTP estimates are not derived from surveys or detailed research, and should not be interpreted as accurate data on energy consumption and carbon emissions. I am unable to give a prediction of future emissions as we have no way to estimate future sales of patio heaters.

The MTP's Briefing Note 'BNDH18: Outdoor Heating for Comfort' is available at:

www.mtpny.com

Landfill

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many landfill sites in each region are expected to close in each year until 2020; and what the combined area of those sites is. [286353]

Dan Norris: The Environment Agency does not require landfill operators to specify in what year they will close their site. This depends on the rate of infilling, among other factors. As such I am unable to provide a prediction of the number of sites that will close year on year in the period 2009-20.

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many landfill sites there were in each region of England in each year since 1997; and what the combined area of the sites was in each of those years. [286354]

Dan Norris: The Environment Agency has published the number of permitted operational landfill sites for the period 2005 to 2007 on its website. Prior to 2005, data on the number of landfill sites was included in the Environment Agency's 'Strategic Waste Management Information for England and Wales'. The following table provides a summary of the published data.

	1998-99	*2002-03*	*2004-05*	*2005*		*2006*		*2007*
Region	*WML*	*WML*	*WML*	*WML*	*PPC*	*WML*	*PPC*	*PPC*
East of England	—	—	279	116	162	51	201	63	62
East Midlands	—	—	279	127	131	50	208	55	65
London	—	—	40	10	12	6	30	5	7
North East	—	—	191	46	95	21	120	26	28
North West	—	—	306	88	174	30	219	38	52
South East	—	—	405	158	172	60	293	59	83
South West	—	—	400	137	220	35	263	46	57
Wales	—	102	66	66	73	25	160	29	34
West Midlands	—	—	200	60	131	24	164	30	43
Yorkshire and Humberside	—	—	320	201	245	38	307	43	70
England and Wales	1,485	2,151	2,896	1,009	1,415	340	1,965	396	501

Note:
WML is an abbreviation for "Waste Management Licence" and PPC for "Pollution Prevention and Control".

In 1997 all landfill sites required a WML. From 2001 to 2007 all site operators had to apply for a PPC permit, replacing the WML.

The number of permitted landfill sites for 2008 is currently being validated and should be published in the autumn of 2009.

We do not hold information on the combined area of landfill sites.

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how much hazardous waste was sent to landfill sites in each region in each year since 1997. [286355]

Dan Norris: The following tables show the amount of hazardous waste sent to landfill in each year where accurate information is available.

A new hazardous waste management system and database was introduced in July 2005 to coincide with the introduction of the new Hazardous Waste (England and Wales) regulations 2005. Changes in the way hazardous waste was classified and how data was collected caused inconstancies in data for 2005 and it was therefore not published.

Tonnes hazardous waste land filled by region

	East Midlands	*East of England*	*London*	*North East*	*North West*	*South East*
1998-99	198,639.02	—	17,567.05	126,745.13	269,888.51	250,708.77

Source:
Environment Agency

In 1997 all landfill sites required a waste management licence. From 2001 to 2007 all site operators had to apply for a pollution prevention and control permit, replacing the WML.

The number of permitted landfill sites for 2008 is currently being validated and should be published in the autumn of 2009.

We do not hold information on the combined area of landfill sites.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs to which *(a)* organisations and *(b)* purposes revenue from fines due to breaches in landfill targets will be allocated. [287430]

Dan Norris: The Waste and Emissions Trading (WET) Act provides for a fine to be imposed on a waste disposal authority for each additional tonne of biodegradable municipal waste that it sends to landfill above the number of allowances the authority holds under the landfill allowance trading scheme in a particular scheme year.

During the passage of the WET Act through Parliament, there was discussion about the destination of penalties. It was agreed that funds raised from penalties would be returned to all local authorities, including waste collection authorities, but would not be ring fenced to waste management options. It would therefore be for a local authority to decide for what purpose any returned funds were used.

Livestock: Exports

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* cattle, *(b)* sheep, *(c)* goats and *(d)* poultry were exported in each of the last three years. [284943]

Jim Fitzpatrick: Table 1 gives information on exports in cattle from Great Britain and is taken from the GB cattle tracing system. The system is updated on a daily basis and hence these figures can be subject to amendments.

Table 2 gives the number of live sheep, goats and poultry recorded as exported from the UK in 2006, 2007 and 2008 as in HMRC official overseas trade statistics.

Please note these figures are obtained using VAT records and will exclude some EU trade for businesses which are below the VAT threshold. As a result, actual trade levels may be higher than those given, particularly for trade with mainland Europe. As a result care should be taken not to read too much into the year to year changes shown.

Table 1: GB exports of live bovine, 2006-08

Type	2006	2007	Number 2008
Live cattle and calves	89,567	85,487	51,809

Note:
2008 data is subject to amendments. *Source:* GB Cattle Tracing System

Table 2: UK exports of live sheep, goats and poultry, 2006-08

Type	2006	2007	Number 2008
Live sheep and lambs	12,915	1,078	44,992
Live goats	528	[1]	435
Live poultry	29,381,150	31,680,332	28,567,760

[1] There were no recorded exports of live goats in 2007. Exports may still have occurred by traders operating below the VAT threshold and therefore will not have been declared in the HMRC official statistics.

Note:
2008 data is subject to amendments.

Source:
H M Revenue and Customs. Data prepared by Trade statistics, ESP, DEFRA.

Marine and Fisheries Agency: Location

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if he will *(a)* undertake and *(b)* publish an equality impact assessment of the relocation of Marine and Fisheries Agency staff out of London. [288015]

Huw Irranca-Davies: DEFRA officials are currently finalising an equality impact assessment (EqIA) on the relocation of the Marine and Fisheries Agency's HQ office out of London to Tyneside. This will incorporate the impact of the relocation on MFA staff based outside the London HQ office. A copy of the EqIA will be published when completed.

Marine Management Organisation

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what his most recent assessment is of the cost to the public purse of the establishment of the headquarters of the Marine Management Organisation. [287431]

Huw Irranca-Davies: The indicative one-off establishment costs of the Marine Management Organisation (MMO), as shown in the impact assessment accompanying the Marine and Coastal Access Bill, are £2.9 million.

Marine Management Organisation: Intellectual Property

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if he will assess the effects on the intellectual property rights of members of staff of the Marine Management Organisation (MMO), given their change in status as a result of the creation of that organisation; and whether those staff are to be permitted to publish in their own name work produced for the MMO. [288000]

Huw Irranca-Davies: When vested, the MMO will, as any other employer, have the benefits of any work produced by its employees. Employees will not be able to publish works produced for the MMO without the organisation's permission.

Former employees of the Marine Fisheries Agency, or another Government Department, will transfer to the MMO with their existing terms and conditions of service, which give the intellectual property rights to the employer. New MMO employees from elsewhere will be subject to similar restrictions under an MMO contract of employment.

Nature Conservation

Mr. Benyon: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effectiveness of the Invasive Non-native Species Framework Strategy for Great Britain in tackling invasive species arriving from countries which have no comparable strategies. [287595]

Huw Irranca-Davies: We have made no specific assessment of this. However one of the ongoing actions set out in the implementation plan for the Non-Native Species Framework Strategy for Great Britain is to maintain contact with colleagues dealing with invasive non-native species policy issues in other European member states and encourage consistent representation of issues of concern to Great Britain and the United Kingdom. Alongside this, the UK is supporting the European Commission in developing its thinking on proposals for an effective EU Strategy on Invasive Alien Species.

Nitrogen Oxides

Susan Kramer: To ask the Secretary of State for Environment, Food and Rural Affairs at which locations in England levels of nitrogen oxide *(a)* exceed 40 micro gm-3 nitrogen oxide annually and *(b)* exceed 200 micro gm-3 nitrogen oxide hourly more than 18 times per year. [288258]

Jim Fitzpatrick: Under EU legislation, the UK is required to assess ambient air for levels of nitrogen dioxide (NO_2), and to report to the European Commission on an annual basis. Detailed reports on the assessments are available from the air quality archive at:

www.airquality.co.uk

For the purpose of implementing EU legislation, the UK is divided up into 43 agglomeration zones (areas with a contiguous population of over 250,000 as specified by the air quality directives) and non-agglomeration zones. There are 28 agglomeration zones and 15 non-agglomeration zones.

There are a number of locations within England where:

(1) annual mean concentrations of nitrogen dioxide (NO_2) are in excess of 40 microgrammes/m^3; and/or

(2) there are more than 18 occurrences of hourly mean NO_2 >200 microgrammes/m^3 in a year.

The locations where points 1 and/or 2 apply have been identified are in the following tables, with reference to both monitored (measured) and modelled (predicted) NO_2 data.

Monitoring data for 2008 are given in table 1. The modelling assessment for 2008 is not due to be completed until the end of the summer, so 2007 results are given in table 2.

Table 1: Nitrogen dioxide monitoring data, 2008—AURN sites in England

Site name/location	Site type	Annual mean NO_2 (µg/microgrammes/m^3)	Number hours NO_2 > 200 microgrammes/m^3

North Sea: Fishing Catches

Mr. Hayes: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 22 January 2009, *Official Report*, column 1590, on fishing catches, whether the Lithuanian and Polish vessels referred to were entitled to fish in North sea fishing grounds prior to their countries' accession to the European Union. [287856]

Huw Irranca-Davies: The catch statistics for Polish and Lithuanian landings from the North sea provided in my answer of 22 January 2009, *Official Report*, column 1590, relate to landings in 2006. Both Poland and Lithuania joined the European Union in 2004 and therefore were members at that time. Access to North sea fish quota is determined by historic rights or else the countries in question would be required to swap in or purchase quota to access the fishery.

Oil: Pollution

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs how many incidents of oil pollution have been reported in each enumeration area *(a)* in each year since 1997 and *(b)* in 2009 to date; and how many of these incidents have resulted in prosecutions. [286299]

Jim Fitzpatrick: The following table shows the number of reported incidents received by the Environment Agency since 1997. The Environment Agency's national incident recording system began to be used in 2001. It is not possible to access information broken down into each enumeration area prior to 2001 without incurring disproportionate cost.

	Number of oil pollution incidents (Category 1-4)
1997	5,542
1998	5,308
1999	5,381
2000	6,215
2001	5,684

The following table shows the number of reported incidents received by each Environment Agency region since 2002. This includes incidents from category 1-4. Category 1 incidents are the most serious, category 2 are significant but less severe, category 3 are relatively minor and category 4 are unsubstantiated incidents.

Region	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*	*2009*
Anglian	761	706	687	591	518	502	432	195
Midlands	1217	973	811	685	644	619	609	264
North East	466	520	518	476	347	338	308	161
North West	525	642	333	331	242	235	214	95

Region	2002	2003	2004	2005	2006	2007	2008	2009[1]
Southern	552	539	452	389	361	313	292	125

Total	5,161	4,618	4,255	3,919	3,487	3,291	2,922	1,447

[1] January to June.

The following table shows the number of prosecutions from oil pollution incidents since 2001. This information has been provided by the Environment Agency's national enforcement database in tandem with the information above. On that basis information prior to 2001 is not available.

In cases where a prosecution is not the most appropriate course of action, the alternatives of a caution or warning will be considered. A warning is a written notification that, in the Environment Agency's opinion, an offence has been committed. It will be recorded and may be referred to in subsequent proceedings.

There is a lag between incident and prosecution, which may well be in excess of 12 months depending on the type of offence and its complexity.

	2001	2002	2003	2004	2005	2006	2007	2008	2009[1]
Anglian	3	0	0	1	6	2	4	4	0

Total	12	6	22	22	34	32	41	28	19

[1] To date.

Oil: Waste Disposal

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what proposals his Department has for the disposal of residual waste from energy production. [287410]

Dan Norris: DEFRA has no plans affecting the disposal of ash or other residual waste from power stations. This is the responsibility of the operators of such facilities.

Origin Marking: Israel

Dr. Starkey: To ask the Secretary of State for Environment, Food and Rural Affairs if he will commission research into consumer attitudes in respect of country of origin labelling for goods imported into the UK from Israeli settlements in the occupied Palestinian territories. [287155]

Jim Fitzpatrick: The Government are not planning to commission research into consumer attitudes in respect of labelling goods from the occupied Palestinian territories.

Pesticides

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs when he next plans to revise guidelines to farmers on the spraying of pesticides near schools and residences. [287819]

Dan Norris: The Code of Practice for Using Plant Protection Products includes advice to farmers on spraying pesticides near schools and residences.

Two new pieces of European legislation governing the system for pesticides are likely to come into force in 2011; a Regulation on pesticide authorisations that is largely an updating of the existing European regime, and a directive on the sustainable use of pesticides that will establish a framework to promote best practice in the storage, use and disposal of pesticides.

The Government plan to hold a public consultation this autumn on a range of options for the implementation of this new legislation. Once we have agreed our approach to national legislation and guidance, we will revise the Code of Practice for Using Plant Protection Products.

Pollution: Prosecutions

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs how many incidents of diffuse pollution have been recorded in each year since 1997; and how many such incidents have resulted in *(a)* prosecutions and *(b)* fines for those convicted of such offences. [286464]

Huw Irranca-Davies: The Environment Agency's national incident recording system (NIRS) records all pollution incidents reported to the Agency since 2001. The Environment Agency does not classify such incidents as point or diffuse pollution. An approximation of the number of "diffuse incidents" can be derived from NIRS by counting incidents that arose from an unregulated site where the cause was not identified. Data are available and provided on this basis for full calendar years from 2001 until 2009.

For prosecution and fines there is often a time lag between the incident being reported and the completion of any enforcement action. Yearly figures in this table

therefore may relate to incidents which occurred in the previous year or earlier. This is why some prosecutions have been prosecuted and reported in 2009.

	Number of "Diffuse" incidents	Number of prosecutions	Fines (£)
2001	3,233	9	28,850
2002	4,518	7	13,700
2003	3,866	7	19,225
2004	3,506	3	5,000
2005	3,360	8	28,033
2006	3,023	2	1,350
2007	2,686	3	6,000
2008	2,379	10	24,250
2009 (to date)	0	6	7,750

Recycling

Hugh Bayley: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of waste collected in the City of York was recycled in each year since 2003-04; what funding his Department provided to City of York council to increase recycling rates in that period; and what recent steps his Department has taken to encourage local authorities to increase waste recycling rates. [285866]

Dan Norris: Recycling is strongly promoted by a range of Government measures in recognition of its environmental benefits. This includes the introduction of three national indicators within the local government performance framework to encourage local authorities to reduce waste, recycle more and send less household waste to landfill. This is in line with DEFRA's belief that local authorities are best placed to make decisions on the waste management strategy for their communities. 85 per cent. of authorities have negotiated at least one waste-related national indicator target with the Government Office in their region.

DEFRA has provided the City of York council £359,838.71 in 2008-09 and £361,122.65 for 2009-10 as part of Waste Infrastructure Capital Grant (WICG). This funding is provided to help authorities get waste management facilities on the ground in time to help England meet landfill targets.

The following table shows York city council's municipal recycling rates from 2003-04 to 2007-08. 2004-05 is not available due to data not being submitted.

York city council's municipal recycling rate

	Percentage
2003-04	19.01
2004-05	[1]
2005-06	25.71
2006-07	39.36
2007-08	42.28

[1] Data not available

Source:
WasteDataFlow and DEFRA's Municipal Waste Survey

Reservoirs

Frank Dobson: To ask the Secretary of State for Environment, Food and Rural Affairs what the capacity of reservoirs owned by the water industry in England was *(a)* in 1989 and *(b)* on the latest date for which figures are available. [286785]

Huw Irranca-Davies: A reservoir capacity figure for 1989 is unavailable.

The total capacity of reservoirs owned by water companies in England which fall under the Reservoirs Act 1975 (large raised reservoirs with a capacity of 25,000 m^3 or more above natural ground level) was 1,855,244,628 m^3 on 14 July 2009.

River Thames: Pollution

Susan Kramer: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the likely effects of the recent raw sewage spillage in the Thames in the Mogden area on river usage and wildlife. [288784]

Huw Irranca-Davies: The Environment Agency measured the chemical quality of the river using a series of water quality monitoring stations located at strategic points along the estuary. Readings taken indicated a significant decline in the oxygen saturation of the river.

Environment Agency officers were deployed to assess the extent of the incident by monitoring the river in the upper reaches to record the impact on fish at low water. Approximately 200 dead fish, mostly flounder, were found around the Kew area. Other inspections did not identify notable amounts of dead fish.

The monitoring network indicated the river returned to a near normal condition by the afternoon of 5 July.

Rivers: Pollution

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of significant non-water industrial discharges to rivers in each region was reviewed by the Environment Agency in each year since 1997. [286463]

Huw Irranca-Davies: This information is not readily available. It will be placed in the Library of the House as soon as possible.

Television: Energy

Simon Hughes: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of daily energy consumption resulting from the use of stand-by units on televisions. [287897]

Dan Norris: The Government's Market Transformation Programme (MTP) estimates that in 2008 the 66 million television sets in use in UK homes consumed an average of just over 600 Watt hours each per day. Of this an average of 30 watt hours (5 per cent.) was consumed while the television was in stand-by mode.

MTP evidence indicates that the on average a new television consumes 2.5 watts while in stand-by. This will be reduced to one watt from January 2010 as a result of new EU legislation under the ecodesign for energy using products framework directive and falling further to 0.3 watts in 2012.

Thundersley Common

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs if he will assess the effect on mammalian wildlife of the removal of trees from Thundersley Common. [287868]

Huw Irranca-Davies: While negotiating a higher level stewardship agreement with Castle Point borough council to support the council's heathland restoration work on Thundersley Great Common site of special scientific interest (SSSI), Natural England assessed the overall impact on the mammalian fauna as neutral or beneficial, for the following reasons:

(1) The common is small and heavily used by the public, and so does not support a rich mammal fauna, though both bats and badgers do occur;

(2) The restoration only affects part of the common and the wooded part of the common outside the SSSI will not be affected;

(3) The result of the restoration will be a mosaic of open heath, scrub and trees which should be at least as favourable for mammal and bird species as the common is now. The mosaic will also support a range of more unusual heathland plants and animals and provide an open greenspace for the public to enjoy.

Before issuing a felling licence for the removal of some trees, the Forestry Commission assessed the selected trees individually. The commission considered one to be of potential value for roosting bats so Castle Point borough council agreed that this tree should be left and an alternative one removed.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions his Department has had with *(a)* Essex County Council and *(b)* Castle Point Borough Council in respect of Thundersley Common in the last five years. [287870]

Huw Irranca-Davies: My Department has had no substantive discussion with either local authority about Thundersley Common in the last five years. However, Natural England (non-departmental public body sponsored by DEFRA) has had discussions with Castle Point borough council.

Natural England's purpose is to ensure England's natural environment is conserved, enhanced and managed for current and future generations. An important part of Natural England's remit is the protection of sites of special scientific interest (SSSIs)—the country's best sites for wildlife and geology.

Castle Point borough council owns and manages Thundersley Common, which includes Thundersley Great Common SSSI. Within the last five years, discussions in respect of this SSSI between Natural England and the borough council have included several on-site and office meetings and regular discussions by phone, e-mail and letter. Natural England has offered consistent advice to the council on the conservation management of the site, aimed at restoring the heathland habitats for which the SSSI is notified. Since 2007, council staff have negotiated a higher level stewardship agreement with Natural England to support the council's restoration of the SSSI to favourable condition.

Within the last five years, Natural England has not held discussions with Essex county council specifically on this SSSI, because the county council does not own or manage it.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what public consultations have been held in respect of the removal of trees from Thundersley Common; and if he will make a statement. [287872]

Huw Irranca-Davies: Natural England does not have any information on public consultations held in respect of the removal of trees from Thundersley Great Common site of special scientific interest (SSSI), or in respect of the other essential components of the heathland restoration work being undertaken by Castle Point borough council. These works have the full support of Natural England, in fulfilling the council's statutory duties to protect and enhance the special interest features for which this SSSI is notified.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs on what date responsibility for Thundersley Common was transferred to Natural England; and if he will make a statement. [287888]

Huw Irranca-Davies: Thundersley Great Common (14.8 hectares) is owned and managed by Castle Point borough council. In 1987, 8.9 hectares of the common were notified as a Site of Special Scientific Interest (SSSI) under the Wildlife and Countryside Act 1981 by English Nature (one of Natural England's predecessor bodies): the ownership remains with the borough council. Both Castle Point borough council and Natural England have statutory responsibilities to conserve and enhance the special interest features of the SSSI.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs how many oak trees have been removed from Thundersley Common in the last five years; and for what reasons the trees were removed. [287889]

Huw Irranca-Davies: The notified special interest features of Thundersley Common Site of Special Scientific Interest (SSSI) are its dry heath, wet heath and acid grassland plant communities. It is one of the best remaining fragments of heathland in Essex.

Natural England's records show that five oak trees, and one birch, have been removed from Thundersley Great Comn on SSSI since 2004. These trees were felled during the 2008-9 winter by Castle Point borough council with the assent and support of Natural England. The work was done as part of a higher level stewardship agreement to restore the special interest features of the SSSI—namely its rare heathland habitats—to favourable condition. Some tree removal is essential as part of this restoration work because many oaks became established on the heathland in the second half of the last century when the site was less actively managed. There are now over 100 trees on the northern half of the SSSI which are rapidly shading out the remaining patches of heathland vegetation. If these are all left to mature a large part of the SSSI will soon be dense woodland and the heathland will be lost.

Waste Disposal: Fees and Charges

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs what responses his Department has received from *(a)* the Local Authority Recycling Advisory Committee, *(b)* Wastematters, *(c)* the National Association of Waste Disposal Officers, *(d)* the Chartered Institute of Waste Management, *(e)* the Association of Public Service Excellence, *(f)* the County Surveyors Society Waste Panel and *(g)* Keep Britain Tidy on consultations which his Department has conducted on waste incentive schemes in the last two years. [286646]

Dan Norris: The Department received written responses on consultations from these bodies detailed as follows:

Consultation on the Incentives for Recycling by Households, May 2007:

(a) the Local Authority Recycling Advisory Committee

(d) Chartered Institute of Waste Management

(e) Association of Public Service Excellence

(f) County Surveyors Society

Informal consultation on draft guidance, June 2008:

(a) the Local Authority Recycling Advisory Committee

(d) Chartered Institute of Waste Management

(f) County Surveyors Society

Formal consultation on statutory Good Recycling Service guidance, September 2008:

(e) Association of Public Service Excellence

Responses were not received on any consultation from *(b)* Wastematters, *(c)* the National Association of Waste Disposal Officers or *(g)* Keep Britain Tidy.

Waste Disposal: Hazardous Substances

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what waste products have been classified as *(a)* inert and *(b)* toxic waste in the last 18 months. [286964]

Dan Norris: The Environment Agency does not classify individual waste arisings. While it does collect data on all wastes received at sites that it regulates, this information describes the waste using the European waste catalogue codes and as such would not allow the Environment Agency to state which individual waste products have been classified as either inert or 'toxic' (a hazardous property that could make a waste hazardous).

Waste Disposal: Inspections

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many inspections were carried out at industrial and waste sites by staff of each Environment Agency office in each year since 1997. [286369]

Dan Norris: The following table shows the total number of inspections of industrial and waste sites carried out in each Environment Agency region in each year since 1997. Environment Agency records do not provide an office by office breakdown. Inspections include visits and audits for processes regulated under six regimes: Integrated Pollution Control, Pollution Prevention and Control, Waste management licensing, Environmental Permitting Regulation, Special (Hazardous) Waste, and Waste Producers.

Waste Disposal: Private Finance Initiative

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effect of the credit crunch on schemes for waste disposal plants under the private finance initiative. [286795]

Dan Norris: DEFRA continually assesses the relevant finance and construction markets to maintain an up to date understanding of the effect that conditions in credit markets may have on the private finance initiative waste projects. This includes meeting with banks, contractors and waste companies as well as individual local authorities.

Our findings show that while tightening credit conditions since 2008 have had an effect on the availability of finance, commercial lenders are maintaining strong interest in financing waste private finance initiative projects. We also continue to see good evidence of new entrant interest from contractors in recent bid lists.

Waste Management: Private Finance Initiative

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with representatives of the waste industry on the effects on waste disposal plants operated under private finance initiatives of the economic downturn. [287703]

Dan Norris: My right hon. Friend the Secretary of State for Environment, Food and Rural Affairs recently attended the Futuresource conference with representatives of the waste industry, at which a number of issues affecting the waste industry were discussed.

Commercial lenders are maintaining strong interest in financing waste private finance initiative projects and we continue to see good evidence of new interest from contractors in recent bid lists.

The granting of PFI credits for waste projects continues, the most recent being awarded to a partnership between Coventry city council, Solihull metropolitan borough council and Warwickshire county council under their umbrella-title 'Project Transform' in June this year.

Water Charges

Frank Dobson: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the effect of universal water metering on *(a)* the net income of the water industry and *(b)* the rate of consumption of water by domestic consumers. [286786]

Huw Irranca-Davies: No estimate has been made of the effect of universal metering on the net income on the water industry.

Research shows that, on average, the rate of consumption by household customers is reduced by about 10 per cent. when metered.

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what definition his Department uses of a permeable surface in relation to surface water drainage charges. [288074]

Huw Irranca-Davies: Government guidance to Ofwat does not define permeable surfaces. It is generally accepted that they include, for example, burial grounds, grass sports fields and school playing fields. These drain naturally rather than into public sewers. Permeable areas should not count towards the chargeable area under site area charging for surface water drainage.

Water Charges: Voluntary Organisations

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs in which water company areas voluntary groups are affected by the new system of surface water charges; and what assessment has been made of the likelihood of such systems being taken up in other such areas. [288981]

Huw Irranca-Davies: Four of the 10 water and sewerage companies in England and Wales have switched to site area charging for surface water drainage: Northumbrian Water, Severn Trent Water, United Utilities and Yorkshire Water.

While Ofwat is recommending that other companies switch to site area charging for surface water drainage, it is for companies to decide whether to make the switch and for Ofwat, as the independent economic regulator of the water industry, to approve charging schemes.

Water Supply

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the volume of water lost through leakage from *(a)* company supply pipes and *(b)* piping between the water company connection point and a householder's tap in (i) 1997 and (ii) 2008. [286471]

Huw Irranca-Davies: Water companies report annual leakage figures to Ofwat as part of their annual regulatory returns. Ofwat publishes leakage performance annually in the service and delivery report.

Leakage performance for the water company distribution network excluding customer supply pipes, and for customer supply pipes only for the years 1996-97 and 2007-08 were as follows:

Performance (megalitres/day)

	1996-97	*2007-08*
Water company leakage excluding customer supply pipes	3,274	2,468
Customer supply pipe leakage	1,230	823

Water: Meters

Mr. Vara: To ask the Secretary of State for Environment, Food and Rural Affairs how many water meters were installed by water supply companies in homes in *(a)* north-west Cambridgeshire, *(b)* Huntingdonshire, *(c)* Peterborough and *(d)* Cambridgeshire in each of the last five years. [287201]

Huw Irranca-Davies: Ofwat, the economic regulator of the water and sewerage industry, holds information by water company area only.

Tabled as follows are the figures showing how many water meters Anglian Water and Cambridge Water installed in each of the last five years. Anglian Water and Cambridge Water are the companies that supply the areas listed in the question.

The Anglian Water figures also include Hartlepool Water (HPL) as Anglian Water took over Hartlepool Water in 1998 and they now report their figures together.

Total household meters

Number

	2004-05	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Anglian and HPL	23,013	19,374	25,516	28,586	33,222
Cambridge	1,428	1,180	1,466	1,381	1,432

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs how many water meters were installed in homes in Castle Point by water supply companies in each of the last five years. [287503]

Huw Irranca-Davies: Ofwat, the economic regulator of the water and sewerage industry, does not hold data on how many meters are installed in individual constituencies.

The following figures show how many water meters Essex and Suffolk Water has installed in each of the last five years. Essex and Suffolk Water is the company that serves Castle Point.

Essex and Suffolk

	Total household meters
2004-05	9,101
2005-06	11,939
2006-07	22,051
2007-08	16,788
2008-09	12,837

HOUSE OF COMMONS COMMISSION

East of England Grand Committee

Andrew Mackinlay: To ask the hon. Member for North Devon, representing the House of Commons Commission what *(a)* broadcasting and *(b)* other facilities will be available at the venue for the meeting of the East of England Regional Grand Committee at Bedford on 8 September 2009; and if he will make a statement. [287559]

Nick Harvey: The broadcasting of Committees meeting away from Westminster is usually undertaken by local broadcasters themselves, if they wish to do so. The coverage is pooled and they provide copies to the parliamentary recording unit for archive purposes. Guidelines for broadcasters undertaking coverage is available to ensure that compliance with the rules of coverage is maintained. Audio coverage of the meeting will be supplied by Westminster Sound. This will be webcast live on the

www.parliamentlive.tv

and Parliament websites, and will be available for 12 months in the searchable audio-visual archive.

Facilities for Members and for members of the public attending the meeting will be provided in the Borough hall, Bedford, by arrangement with Bedford borough council. I understand that the Clerks of the East of England Regional Grand Committee will be writing to members of the Committee shortly with information about the arrangements, and the hon. Member may wish to address any further enquiries to them.

Members: Allowances

Mr. Steen: To ask the hon. Member for North Devon, representing the House of Commons Commission, how many editions of the Green Book have been issued since 2000; in which year each edition was published; how many copies of each edition were printed; what the cost was of publishing each edition; what consultation there was with hon. Members in respect of the changes made in the edition; by what processes such consultation were held; and which editions were distributed in hard copy to all hon. Members automatically. [287929]

Nick Harvey: Since 2000, revised editions of the Green Book were published as follows. Where known, information is included on the number of copies produced and the cost of production.

	Copies	*Cost (£)*
February 2001	n/a	n/a
April 2002	n/a	n/a
June 2003	2,000	13,135
June 2003 updated December 2003	[1]—	n/a
June 2003 updated July 2004	[1]—	n/a
April 2005	3,000	3,745
July 2006	3,000	n/a
March 2009	3,000	7,290
July 2009	2,000	1,936

[1] Intranet only

All copies except the two intranet only editions shown were sent direct to Members.

Since 2004 the Members Estimate Committee has been responsible for the Green Book and given authority for each edition. Since January 2009, responsibility for advising the MEC of changes to the Green Book has rested with the Members' Allowances Committee.

In respect of the Green Book agreed by the House published in March 2009, this was prepared by the then Advisory Panel on Members' Allowances in consultation with independent advisers and other hon. Members. It was approved by the MEC and agreed by the House in January 2009 prior to publication.

Robert Neill: To ask the hon. Member for North Devon, representing the House of Commons Commission for what reasons the council tax banding of hon. Members' properties was redacted before publication of information relating to hon. Members' expenses. [288259]

Nick Harvey: In July 2008, by order, Parliament agreed an amendment to the FOIA to the effect that any information that relates to the residential address of a member of either House of Parliament fell outside of the scope of that Act.

Taking account of this, editing of the claims-based allowances was done on the principle that the following information would be made available and all other information would be removed:

Name of Member

Allowance type

Date of claim

Value of claim

Goods or services purchased

Identity of supplier providing goods or services to offices (subject to certain rules).

Members: Offices

John Mann: To ask the hon. Member for North Devon, representing the House of Commons Commission, if the House of Commons Commission will discuss with the appropriate authorities in the House of Lords the compilation of information on the number of *(a)* offices occupied by and *(b)* computers provided for members of each House in the Palace of Westminster. [286951]

Nick Harvey: No. Information on House of Lords accommodation and computers is a matter for that House.

Parliament: Internet

Mr. Amess: To ask the hon. Member for North Devon, representing the House of Commons Commission, what steps the Commission *(a)* is taking and *(b)* plans to take over the next two years to provide greater electronic access for the public to parliamentary material; and if he will make a statement. [287824]

Nick Harvey: There are a number of strands of work under way as part of the parliamentary Web and Intranet Programme that will provide greater electronic access for the public to parliamentary material. These include changes to the format of information on the website so that it conforms to accessible data standards and can be accessed and reused by the public, as well as improvements to the presentation to make the information more user friendly and an improved search engine that will enable website visitors to find the information they are looking for quickly and easily.

Portcullis House: Fire Alarms

Simon Hughes: To ask the hon. Member for North Devon, representing the House of Commons Commissions how many times the fire alarm in Portcullis house has been activated *(a)* for fire drill purposes, *(b)* for testing, *(c)* because of a fire or smoke, *(d)* because of a defect in the system and *(e)* for other reasons in (i) each year since 2005 and (ii) 2009 to date. [288030]

Nick Harvey: The information requested is as follows:

Cause of evacuation alarm actuation	*May 2005 to December 2007*	*January to December 2008*	*January to June 2009*
Fire	4	0	1
Smoke	0	0	1
Fire drills	3	1	1
Alarm testing	0	0	1
Working on alarm system	4	0	0
System defect	11	1	0
Other[1]	10	2	2
Total	32	4	6

[1] Includes operation of manual call points for no obvious reason, construction (hot) works and contractors and staff disturbing detection beams.

Fire alarm activation records for 2005 to 2007 are archived off site and it has not been possible to break down the figures for that period by year.

Standing Committees: Internet

Mr. Amess: To ask the hon. Member for North Devon, representing the House of Commons Commission, what steps the Commission is *(a)* taking and *(b)* plans to take over the next two years to make available on the Parliamentary website the transcript of Standing Committee debates held prior to 1997; and if he will make a statement. [287823]

Nick Harvey: 421 volumes of Standing Committee debates, covering the period 1919 to 2004-05, have been digitised. The data will now go through a process of quality assurance with the aim of making them available online in January 2010. They will be published alongside the digitised *Hansard*.

Trade Unions

Mr. Maude: To ask the hon. Member for North Devon, representing the House of Commons Commission, pursuant to the answer of 23 April 2009, *Official Report*, column 841W, on trade unions, what steps the Commission takes to ensure that facilities given to trade unions are not used for political activity or political campaigning. [287288]

Nick Harvey: Political impartiality is a requirement for the majority of House of Commons employees. The staff handbook requires that staff seek permission from their manager before engaging in political activity and that if permission is granted, the activity must not be undertaken in circumstances where it could be reasonably be assumed that they were acting as a representative of the House of Commons. This restriction applies to employees who are accredited representatives or members of unions recognised by the House of Commons service when using facilities provided to them on the parliamentary estate.

The House of Commons service does not directly monitor the use of facilities made available to employees who are accredited representatives or members of recognised unions. If evidence of misuse of facilities is presented, it will be investigated.

TRANSPORT

A127: Speed Limits

Bob Spink: To ask the Minister of State, Department for Transport how many fines have been issued to motorists for exceeding the new speed limits on the A127 in each of the last six months; and how many of those fines resulted in prosecution. [288110]

Paul Clark: This information is not held by the Department for Transport. The speed limit on the A127 is enforced by average speed cameras. Since 1 April 2007 the deployment of safety cameras has been the responsibility of individual local partnerships. The number of fines issued and prosecutions will therefore be a matter for the Essex road safety partnership.

Airports: Noise

Norman Baker: To ask the Minister of State, Department for Transport what the area was inside the *(a)* 57dB LAeq daytime summer contour and *(b)* 48dB LAeq nighttime contour for each major airport in England in (i) 2005, (ii) 2006, (iii) 2007, (iv) 2008 and (v) 2009; and what estimate he has made of the size of each such area if the planned expansion of (A) Heathrow and (B) Stansted takes place. [284704]

Paul Clark: The Department for Transport produces annual 'daytime' aircraft noise contours (16 Hour 57dBA Leq) for Heathrow, Gatwick and Stansted—these airports have been designated for noise control purposes under section 80 and section 78 of the Civil Aviation Act 1982.

Elsewhere it is the responsibility of the airport operator to decide upon the timing and form of any contours.

Information on noise contours around Heathrow, Gatwick and Stansted for 2005 to 2007 is available on the Department's website:

http://www.dft.gov.uk/pgr/aviation/environmentalissues/nec/

The 2008 contours are expected to be published shortly.

Information about future projections is available in ERCD 0705 'Revised Future Aircraft Noise Exposure Estimates for Heathrow Airport'—also available on the Department's website. Additionally ERCD 0308 'Revised Future Aircraft Noise Exposure Estimates for UK Airports'—published at the time of 'The Future of Air Transport' White Paper in 2003—contained future projections for Stansted.

In terms of night time contours, the current night flying restrictions regime at Heathrow, Gatwick and Stansted set the following specific noise abatement objectives for each airport:

At Heathrow, to limit the 6.5 hour 48 dBA Leq contour (the winter and summer seasons combined) to 55 sq km by 2011-12;

At Stansted, to limit the 6.5 hour 48 dBA Leq contour (the winter and summer seasons combined) to 38 sq km by 2011-12.

As regards other airports, the European Environmental Noise Directive 2002/49/EC, (END) requires member states to produce strategic noise maps every five years for major airports (with 50,000 and above movements). The maps are required to represent annual average noise values and use of four different parameters daytime (7 am to 7 pm); evening (7 pm to 11 pm); night (11 pm to 7 am) as well as an estimated annual 24-hour period. The range of contours extend—in five dB steps—for 50 to 70 dBA. Airports produced noise maps for 2007 and these are available on the Department for Environment, Food and Rural Affairs' noise mapping website:

http://services.defra.gov.uk/wps/portal/noise

Airports: South East

Norman Baker: To ask the Minister of State, Department for Transport what forecast he has made of the number of passengers using each airport in the south-east in 2030 on the basis of the most recent gross domestic product forecasts from HM Treasury. [288044]

Paul Clark: The Department for Transport's latest forecasts of the number of passengers using each airport in the south-east in 2030 are given in table G3, page 135 of "UK Air Passenger Demand and CO_2 Forecasts", published in January 2009. This is available at:

http://www.dft.gov.uk/pgr/aviation/atf/co2forecasts09

No update of these forecasts is currently available. The Department aims to publish updated forecasts when there is a policy need, as it did alongside the announcement of policy decisions on the future development of Heathrow airport.

Aviation

Graham Stringer: To ask the Minister of State, Department for Transport to how many airlines his Department has granted fifth freedoms in respect of a regional airport since October 2005. [287732]

Paul Clark: Since October 2005, the Department for Transport has issued operating permits to 267 different airlines allowing them to exercise fifth freedom rights from UK regional airports.

Aviation: Disabled

Dr. Vis: To ask the Minister of State, Department for Transport what obligations apply to air carriers to make available to passengers copies of the rules and regulations which apply to them in respect of the carriage of disabled people and the provision of supplementary oxygen to passengers who require it in flight. [287167]

Paul Clark: Airlines are not obliged under the regulation to make available the rules and regulations as set out. However, many airlines do lay out their policies on carrying medical oxygen on their websites.

The rules themselves are widely available. EU regulation 1107/2006 is published on the EU Commission website. Its obligations are explained in the Department for Transport code of practice, "Access to Air Travel for Disabled Persons and Persons with Reduced Mobility". The Department for Transport and the Equality and Human Rights Commission have also published a step by step guide called "Your rights to fly—what you need to know":

http://www.equalityhumanrights.com/your-rights/rights-in-different-settings/air-travel/your-rights-to-fly-step-by-step-guide/

http://www.dft.gov.uk/transportforyou/access/aviation shipping/yourrightstofly

Free copies of these documents are available from the Department and the Equality and Human Rights Commission website. Copies have also been placed in the Libraries of both Houses of Parliament.

Dr. Vis: To ask the Minister of State, Department for Transport what obligations apply to air carriers based in countries outside the EU in respect of the provision of mobility assistance to passengers on flights into the UK. [287168]

Paul Clark: Airlines based in countries outside the EU are governed by the laws of the state in which they are registered. Passengers needing assistance once they reach the UK should notify the airport where they will arrive 48 hours in advance of their requirements, either through their airline or travel agent. Passengers should always check before they buy a ticket whether the air carrier they choose to fly on offers them the service they want.

Bus Services: Concessions

Sandra Gidley: To ask the Minister of State, Department for Transport what recent estimate he has made of the number of pensioners who *(a)* are entitled to and *(b)* hold a concessionary bus pass in (i) Test Valley borough and (ii) the City of Southampton. [288399]

Mr. Khan: During preparations for the introduction for concessionary travel, the Department for Transport used census data to estimate the number of older people eligible for a concessionary bus pass. The figure for Test Valley was 24,402 and for Southampton unitary authority was 40,145.

The Department is not responsible for issuing passes and so does not maintain records of how many passes individual authorities have issued. The last information held by the Department was that as of April 2009 Southampton had issued approximately 37,000 new smartcard concessionary passes. Test Valley is part of the Hampshire Countywide scheme who had issued approximately 184,000 passes. This includes passes issued to disabled people as well as those aged 60 and over.

Channel Tunnel Railway Line

Norman Baker: To ask the Minister of State, Department for Transport pursuant to the answer of 26 June 2009, *Official Report*, column 1161W, on the Channel Tunnel railway line, whether the *(a)* Channel Tunnel Intergovernmental Commission and *(b)* Office of Rail Regulation has powers to hear appeals in respect of Channel Tunnel access charges. [288054]

Chris Mole: A railway undertaking may appeal in relation to infrastructure charges to the Channel Tunnel Intergovernmental Commission under article 12.1 of the schedule to the Channel Tunnel (International Arrangements) Order 2005 (SI No. 2005/3207, as amended).

The Office of Rail Regulation has no powers to hear such appeals in respect of the Channel Tunnel, but may be called upon to assist the Intergovernmental Commission in dealing with them, under article 4A(1) of the same instrument.

Norman Baker: To ask the Minister of State, Department for Transport pursuant to the answer of 26 June 2009, *Official Report*, column 1161W, on the Channel Tunnel railway line, what assistance the Government plan to give new rail operators to obtain the necessary safety and access approvals to use the Channel Tunnel. [288055]

Chris Mole: The Channel Tunnel Intergovernmental Commission has issued guidance to assist railway operators in making applications for part B safety certificates, which they issue in respect of the Channel Tunnel.

In addition, the Intergovernmental Commission expects to consult shortly on the specific safety rules that apply to the transit of passenger trains through the Tunnel. After 15 years of operation it is necessary to consider whether the rules that were originally put in place remain valid and to ensure that they do not act as an unnecessary obstacle to the free movement of traffic, while at the same time ensuring that existing levels of safety are maintained.

The Government believe that existing legislation do contain, and the new legislation covering Channel Tunnel access to infrastructure for international rail passenger services will contain, clearly specified requirements, so that new rail operators will not need assistance when making an application.

Cycling: Hampshire

Sandra Gidley: To ask the Minister of State, Department for Transport how many qualified instructors of cycle safety training there were in *(a)* Test Valley borough and *(b)* Southampton in each of the last five years. [287763]

Mr. Khan: We do not hold this information.

There are over 3,000 national standard trainers in the country and over 170 organisations registered to deliver Bikeability training, the name under which the national standard is promoted in England.

This includes 10 organisations operating in Hampshire. Four of these, including the city council operate in Southampton. We do not hold details of how many national standard trainers each training organisation employs.

We have no information on the number of people who may deliver other forms of cycle training which does not meet the national standard in the Test Valley, Southampton or nationally.

Damian McBride

Mr. Maude: To ask the Minister of State, Department for Transport on what date the Secretary of State last met Mr. Damian McBride in the course of his official duties. [287406]

Chris Mole: The Secretary of State for Transport has never met Mr. McBride in the course of his official duties.

Departmental Conditions of Employment

John McDonnell: To ask the Minister of State, Department for Transport for what reasons his Department's new probation policy does not make provision for women to take maternity leave during the probation period. [287209]

Chris Mole *[holding answer 16 July 2009]:* The Department for Transport's (central Department) staff handbook contains employees' contractual entitlements to maternity leave. These entitlements are unaffected by the Department's new probationary policy, which applies only to the central Department and not its agencies. In practical terms, new employees are unlikely to be taking maternity leave during their probationary period. If, however, the situation did arise, the employee would be entitled to take maternity leave in accordance with the maternity leave provisions in the staff handbook. In such a case, the employee's probationary period would be frozen and recommenced upon the employee's return from maternity leave.

Departmental Data Protection

Jenny Willott: To ask the Minister of State, Department for Transport how many *(a)* attempts and *(b)* successful attempts were made to gain unauthorised access to each (i) database and (ii) ICT system run by his Department in each of the last five years; and if he will make a statement. [286540]

Chris Mole: It is not in the interests of the UK's national security for Departments to confirm information on the number of attempts, successful or otherwise, to gain unauthorised access to departmental systems or databases. Such disclosure could undermine the integrity and security of departmental systems and thereby expose them to potential threats.

The Department for Transport complies with the mandatory requirements of the security policy framework in relation to information security including managing the risk of unauthorised access to ICT systems.

Departmental Electronic Equipment

Jenny Willott: To ask the Minister of State, Department for Transport how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in his Department; how many there were in each of the last three years; and if he will make a statement. [286165]

Chris Mole: The figures for the Department for Transport and its Agencies for photocopiers, scanning devices (SDs) and fax machines (FMs), excluding multi-function devices (MFDs), are given in the following table. The Department's policy is to gradually replace photocopiers and scanners with MFDs in accordance with the 'Greening Government ICT Strategy' published in July 2008:

	2006	*2007*	*2008*	*2009*	*Comments*
Department for Transport (central)	n/a	25 copiers	25 copiers	25 copiers	2007 figures produced by a specific audit. 2008 and 2009 figures not readily available but estimated to be similar to 2007.
	—	42 SDs	42 SDs	42 SDs	
	—	56 FMs	56 FMs (estimated)	56 FMs (estimated)	
Driver and Vehicle Licensing Agency	n/a	202 copiers	174 copiers	171 copiers	All figures unavailable for 2006, and SD and FM figures for earlier three years unavailable.
	—	—	—	86 SDs	
	—	—	—	353 FMs	
Highways Agency	n/a	n/a	n/a	0 copiers	Figures for first three years unavailable. HA began phasing out standalone machines in 2005 and replacing with MFDs. 2009 figures are just a residue.
	—	—	—	2 SDs	
	—	—	—	7 FMs	
Driving Standards Agency	0 copiers	0 copiers	0 copiers	0 copiers	All copiers are MFDs.
	12 SDs	12 SDs	13 SDs	13 SDs	
	462 FMs	459 FMs	447 FMs	445 FMs	
Maritime and Coastguard Agency	148 SDs	148 SDs	148 SDs	148 SDs	No central record of copiers kept. SD and FM figures constant over last few years.
	205 FMs	205 FMs	205 FMs	205 FMs	
Vehicle and Operator Services Agency	n/a	n/a	n/a	12 SDs	All copiers are MFDs. Scanning device figures are only available for 2009. Fax machine figures unavailable.
Vehicle Certification Agency	4 copiers	4 copiers	4 copiers	4 copiers	Review due this year with a view to replacing with MFDs.
	5 SDs	6 SDs	7 SDs	8 SDs	
	6 FMs	6 FMs	6 FMs	6 FMs	
Government Car and Despatch Agency	4 copiers	4 copiers	4 copiers	4 copiers	
	3 SDs	3 SDs	3 SDs	3 SDs	Have had the same equipment for several years.
	8 FMs	8 FMs	8 FMs	8 FMs	

Departmental Procurement

Lorely Burt: To ask the Minister of State, Department for Transport what progress his Department has made in implementing the recommendations of the Glover report in its procurement processes. [287144]

Chris Mole: The Department for Transport is working with the Office of Government Commerce on the "Access

for All" programme which is the specific response to the Glover report. This programme is currently developing a detailed programme of work in response to each of the 12 key Glover recommendations.

First Great Western

Mr. Drew: To ask the Minister of State, Department for Transport pursuant to the written ministerial statement of 14 July 2009, *Official Report*, column 14WS, on the First Great Western franchise, how much of the £29 million funding for passenger benefits has been *(a)* spent and *(b)* allocated for expenditure; and what system will be used to monitor the performance of First Great Western in meeting its franchise agreement in the future. [288083]

Chris Mole: Benefits have been delivered to passengers since last year, but the relevant dates by which the £29 million must be spent have not yet been reached. The Department for Transport will seek written evidence of compliance with the spending obligations.

Galileo

Graham Stringer: To ask the Minister of State, Department for Transport when he expects the Galileo satellite navigation system to become fully functional. [287733]

Paul Clark: The European Commission envisages the deployment of the Galileo satellite constellation and the establishment of the ground-based infrastructure to run until 2013 and for initial operations to commence in that time frame. Operational capability will be confirmed when the certification of the system, and standard operational measures have been assured and the technical performance and stability of the system have met the mission and performance requirements. This is expected to take place during the exploitation phase of the programme starting from 2014.

Great North Eastern Railway: Connex

Norman Baker: To ask the Minister of State, Department for Transport what estimate he has made of the cost to the public purse of *(a)* GNER and *(b)* Connex surrendering their franchise. [283039]

Chris Mole: The only franchise that has failed is Connex South Eastern. The Strategic Rail Authority incurred costs of £3.8 million, over and above those recovered from Connex. The details can be found in the National Audit Office's report of December 2005, available on their website at:

http://www.nao.org.uk/publications/0506/the_south_eastern passenger_ra.aspx

The former GNER franchise was not surrendered, but was converted to a management contract before being re-let. The costs incurred by the Department for Transport were covered from the franchisee.

Heathrow Airport

Susan Kramer: To ask the Minister of State, Department for Transport what mechanisms his Department has planned for the determination of planning applications in respect of the expansion of Heathrow airport in circumstances in which his Department's proposed special administration regime for major airports is in use. [287905]

Paul Clark: The preparation and timing of any planning application for a third runway and associated terminal facilities at Heathrow airport are a matter for the airport operator. Such a development would be likely to meet the 2008 Planning Act's threshold for a nationally significant airport infrastructure project. The planning application would therefore be subject to consideration by the new Infrastructure Planning Commission if received after March 2010 when the relevant threshold in the Planning Act is due to be commenced.

As part of a recent consultation on proposals to reform the economic regulation of airports, the Department for Transport sought views on a package of proposed measures to strengthen the financial resilience of airports in order to protect consumers. We are currently considering responses to the consultation and will announce our decision in due course.

Helicopters

Mr. Gummer: To ask the Minister of State, Department for Transport what legislative provisions govern the landing of helicopters on private land. [287790]

Paul Clark: A helicopter landing on private land must comply at all times with relevant aviation safety legislation, including the rules governing low flying set out in the rules of the air 2007.

There are no planning rules in England specifically governing the landing of helicopters on private land. It is for local planning authorities to determine, in the first instance, whether planning permission would be required, taking into account the individual circumstances of each case.

Invalid Vehicles

Mr. Oaten: To ask the Minister of State, Department for Transport how responsibility for enforcement of Class 2/3 weight and speed restrictions for powered mobility products is exercised; and by whom. [287991]

Mr. Khan: Class 2 and class 3 powered mobility scooters have to comply with specific speed and weight requirements which are set down in the Use of Invalid Carriages on Highways Regulations 1988. There is currently no official body that routinely checks that class 2 and class 3 scooters conform to these requirements. Local enforcement bodies, including the police, do take an interest in their use and will take action when they are misused.

In addition the Department for Health and Medical and Health Regulatory Authority work with British manufacturers to ensure that the safety and construction standards for mobility scooters are met.

National Express

Norman Baker: To ask the Minister of State, Department for Transport if he will place in the Library a copy of the joint letter of 1 May signed by Dr. Mike Mitchell of his Department and Ray O'Toole of National Express. [288050]

Chris Mole: This document is commercially confidential at the present time.

National Express East Coast

Norman Baker: To ask the Minister of State, Department for Transport what steps he is taking to prevent service disruption on the East Coast Main Line prior to the anticipated default by National Express. [288053]

Chris Mole: The Government have established a publicly owned company, which will take over the management of the franchise when National Express East Coast ceases to operate. The Department for Transport is working with National Express to ensure and orderly handover of operations.

Mrs. Villiers: To ask the Minister of State, Department for Transport pursuant to the statement of 1 July 2009, *Official Report*, columns 424-26, on National Express east coast franchise, what assessment he has made of the effect on his Department's budget for rail Control Period Four, 2009-14, of changes to the National Express east coast franchise. [288189]

Chris Mole: The Department for Transport has sufficient budget cover to fund any shortfall for the operation of services on the East Coast Main Line at the point that National Express East Coast ceases to operate under their current franchise agreement. The Government intend to re-let the franchise in due course; the requirement for public support thereafter will depend upon the terms of the winning bid awarded by a competitive process.

North London Railway Line

Norman Baker: To ask the Minister of State, Department for Transport by what date his Department expects to be able to quantify the savings made under the North London Line Camden Road freight scheme announced last year. [288058]

Chris Mole: The cost and final specification of the scheme are being assessed by Network Rail which is taking the scheme through its project development process. The final cost will be determined by the scheme design of which Network Rail will have a preliminary indication in spring 2010.

Ports: Non-domestic Rates

Robert Neill: To ask the Minister of State, Department for Transport what recent representations his Department has received on the effect on firms located in ports of the application of retrospective business rates in the last six months. [288524]

Paul Clark: Since 1 January 2009 the Department for Transport has received several such representations from a cargo services business in Grimsby and I have answered a parliamentary question from the hon. Member for Preseli Pembrokeshire (Mr. Crabb), on 25 June 2009, *Official Report*, column 1078W.

Railways: Finance

Mark Lazarowicz: To ask the Minister of State, Department for Transport how much his Department plans to spend on subsidy to train operators in 2009-10. [286306]

Chris Mole: The Department for Transport maintains financial forecasts of anticipated subsidy payable to train operating companies. However, this information is commercially confidential and market sensitive.

Historic subsidy payments are published in National Rail Trends which is available on the Office of Rail Regulation's website at:

www.rail-reg.gov.uk

Copies are also available in the Library of the House.

Mark Lazarowicz: To ask the Minister of State, Department for Transport if he will estimate the cost to the public purse of the privatisation of the rail network. [286593]

Chris Mole: The historic costs associated with the privatisation of the railway have been published in the annual reports of the various bodies involved in the process. The following table sets out the reported costs of those organisations between 1991-92 and 1996-97:

	£ million
Department of Transport	93.2
Office of Rail Passenger Franchising	-93.5
Office of Rail Regulation	27.3
British Rail	332.2
Railtrack	78.0
Total	624.2

Norman Baker: To ask the Minister of State, Department for Transport how many rail franchises other than the East Coast Main Line are at red on his Department's financial risk scale. [288052]

Chris Mole: The Department for Transport reviews the operational and financial performance of train operating companies on a regular basis, as part of its routine monitoring of the contractual arrangements between the Department and its franchise holders. That internal analysis is commercially confidential.

Railways: Franchises

Mr. Tom Harris: To ask the Minister of State, Department for Transport which existing rail franchises he expects to return a premium to his Department by the end of the franchise period. [286074]

Chris Mole: Based on existing contracted amounts it is anticipated that the following franchises will return a premium over the life of the contract:

Chiltern
First Great Western
South West Trains
East Midlands Trains
First Capital Connect
NX East Anglia
Southern Trains.

However, overall net premium payments are dependent on any revenue support payments.

NX East Coast has to date paid premiums, and is contracted to do so over the remainder of the franchise.

John McDonnell: To ask the Minister of State, Department for Transport how much his Department expects to receive in premiums from rail franchises in financial year 2009-10. [286900]

Chris Mole *[holding answer 14 July 2009]:* Contracted premiums currently receivable under franchise agreements in 2009-10 total £319 million.

Railways: North West

Geraldine Smith: To ask the Minister of State, Department for Transport what recent steps he has taken to improve rail services in the North West. [287976]

Chris Mole: The North West has benefited considerably from the £8.9 million upgrade of the west coast main line. Since December 2008, more and faster trains have run between London and Chester, Liverpool, Manchester, and major towns and cities between Crewe and Glasgow. Northern Rail services were also improved on the route between Bradford and Manchester and the Cumbrian coast line. Investment to improve reliability has resulted in the best levels of performance ever experienced by Northern Rail during the four-week period ending 30 May 2009.

Railways: Overcrowding

Mrs. Villiers: To ask the Minister of State, Department for Transport pursuant to the answer of 26 March 2009, *Official Report*, column 576W, on railways: overcrowding, when the passengers in excess of capacity measure will be replaced; what measure for monitoring passenger numbers was used in 2008; and what measure for monitoring passenger numbers will be used for 2009. [279313]

Chris Mole: The Department for Transport will continue to monitor passenger numbers against capacity and does not plan to replace this measure.

The Office for Rail Regulation publishes statistics on passengers in excess of capacity in National Rail Trends:

http://www.rail-reg.gov.uk/upload/pdf/rolling-c1-railusage.pdf

In 2008 a measure was published for train operating companies covering London and the south-east. The same measure will be updated in the National Rail Trends Yearbook when it becomes available on 30 July 2009.

Mrs. Villiers: To ask the Minister of State, Department for Transport pursuant to the answer of 26 March 2009, *Official Report*, column 576W, on railways: overcrowding, what capacity benchmarks are used for each franchise let after 2004; and how operators are measured against those benchmarks. [279314]

Chris Mole: Franchises let since 2004 include a performance regime which requires, where appropriate, a franchisee to report actual provision of seating capacity against that scheduled. This regime is based on targets, which usually require the franchisee to progressively improve actual provision compared with planned provision, over the life of the franchise.

The specific arrangements for each operator can viewed on the Department for Transport's website at the following address:

http://www.dft.gov.uk/pgr/rail/passenger/publicregister/current/

Roads: Accidents

Mark Hunter: To ask the Minister of State, Department for Transport if he will use the powers under section 180 (1) of the Road Traffic Act 1988 to provide for the establishment of investigations on the same basis as those conducted by air and rail accident investigation branches in order to determine the underlying causes of road traffic accidents. [287706]

Paul Clark: All fatal collisions on our roads are investigated in great detail by police accident investigators. We are working to improve the analysis of their data which will develop our understanding of the causes of these collisions and focus further measures to prevent deaths on the roads. This work is supplemented by detailed analysis of a sample of collisions by road safety researchers.

We see no case to duplicate this effort by establishing a road accident investigation branch. However, we recently proposed the establishment of an independent expert panel to look at the pattern of fatal accidents on our roads and, on the basis of that analysis, recommend ways to reduce further the number of deaths on our roads.

Roads: Safety

Mark Hunter: To ask the Minister of State, Department for Transport pursuant to the Second Special Report from the Transport Committee, HC 422, Further Government Response to the Eleventh Report of the Transport Committee of Session 2007-08, whether his Department has decided upon the creation of an anonymised database of selected information from police investigations which is not available from the Stats 19 database. [288508]

Paul Clark: The consultation document "A Safer Way" included the option of creating an anonymised database of selected information (not available from the Stats 19) from police investigations into fatal collisions. The consultation closed 14 July and we are now starting to analyse the responses received. We are continuing to review the availability of data on collisions with a view to improving our understanding of the causes of collisions.

Rolling Stock

Norman Baker: To ask the Minister of State, Department for Transport what orders for rail carriages have been placed to date under his Department's provision for new carriages under Delivering a Sustainable Railway; when he expects the remainder of such orders to be placed; and when he expects delivery of carriages arising from such orders to *(a)* commence and *(b)* be completed. [288043]

Chris Mole: 543 vehicles have been ordered to date.

Discussions are continuing with train operating companies for the additional vehicles and announcements on these orders will be made in due course.

Rolling Stock: Procurement

Norman Baker: To ask the Minister of State, Department for Transport on what date he estimates that the *(a)* first and *(b)* last of the 202 new diesel train carriages will be delivered. [288277]

Chris Mole: We expect to make an announcement in due course.

Severn River Crossing

Mrs. Gillan: To ask the Minister of State, Department for Transport what information he holds on the number of vehicles in category three which used the Severn Crossing in each of the last five years; and if he will make an estimate of the number of such vehicles registered in *(a)* England, *(b)* Wales, *(c)* Northern Ireland, *(d)* Scotland and *(e)* other EU member states which used that crossing in each such year. [288048]

Mr. Khan: The numbers of category 3 vehicles recorded travelling westbound on both Severn crossings in the last five years are recorded in the following table.

	2008	*2007*	*2006*	*2005*	*2004*
January	137,759	134,869	129,761	127,078	129,840
February	136,686	129,896	126,091	128,835	128,570
March	135,672	149,375	148,576	142,514	149,912
April	142,564	138,498	132,031	142,484	138,525
May	141,324	148,754	145,714	138,623	138,604
June	137,414	145,641	147,376	145,306	146,776
July	144,900	151,450	143,295	142,417	148,518
August	129,931	146,676	143,308	140,714	139,502
September	138,264	141,487	142,566	143,872	147,489
October	142,618	154,104	148,308	143,056	144,250
November	128,216	151,385	149,910	146,799	148,896
December	119,414	126,566	126,594	127,921	132,820
Total	1,634,762	1,718,701	1,683,530	1,669,619	1,693,702

The number of category 3 vehicles registered in England, Wales, Northern Ireland, Scotland and other EU member states which use the crossings is not known. The operator of the crossings, Severn River Crossing Plc, does not collate such data.

Transport: Costs

Simon Hughes: To ask the Minister of State, Department for Transport what research his Department has undertaken or evaluated on the external costs associated with *(a)* holiday flights and *(b)* private motoring, with particular reference to environmental costs. [287894]

Mr. Khan: The "Aviation Emissions Cost Assessment 2008", which focuses on climate change impacts, was published in July 2008. This research does not attempt to identify the impacts of 'holiday flights' separately from other flights.

A research report, "Surface Transport Costs and Charges" commissioned by the Department for Transport (DfT), provides estimates of the external costs of car use and was published August 2001.

A list of the current values for external costs used in transport appraisal is also available in DfT's online Transport Analysis Guidance 'Webtag':

www.webtag.org.uk

Transport: Finance

Mrs. Villiers: To ask the Minister of State, Department for Transport with reference to proposals contained in the Building Britain's Future document, Cm 7654, how much funding his Department proposes to provide for *(a)* electrification of the railways, *(b)* a North-South high-speed rail line, *(c)* incentives for the take-up of low carbon buses and *(d)* a National Cycle Plan in the next five years; and when he expects such funding to be made available. [288188]

Chris Mole: The work electrifying the railways will be taken forward by Network Rail. Their costs will be added to their Regulated Asset Base, and reimbursed through Track Access Charges and Network Grant determined, in the usual way, by as part of the regulatory review process run by the Office of Rail Regulation.

"High Speed Two", the company set up by the Secretary of State for Transport to advise on the development of new high speed rail lines, has been asked to report by the end of the year on the planning, technological, capacity, value for money and funding issues involved. The Government will decide on future work programmes and funding mechanisms in the light of that advice.

In the meantime, HS2 has been allocated a budget of some £7.1 million for the current year.

We have announced a £30 million fund to support the purchase of new low carbon buses in England, available over the current financial year and next financial year. In addition, bus operators are now eligible to receive an extra payment through Bus Service Operators' Grant of 6p per kilometre for services operated by a low carbon bus.

The forthcoming National Cycle Plan will set out the overall future strategy for cycling. Cycling England's existing budget is £60 million in each of 2009-10 and 2010-11. In addition, the Secretary of State announced in July that a further £5 million would be available to pay for cycle improvements at railway stations.

Detailed decisions on funding for these areas in later years will be made when the Department's overall budget is allocated as part of normal Government-wide processes.

Mrs. Villiers: To ask the Minister of State, Department for Transport pursuant to the answer of 25 March 2009, *Official Report*, column 375W, on transport: finance, what his most recent estimate is of the levels of spending on transport in the period up to 2017 in respect of the commitment to double spending on transport in the period 1997 to 2017 set out in the answer. [288216]

Chris Mole: "Comprehensive Spending Review 2007—Meeting the Aspirations of the British People" (Cm 7227) announced a long-term funding guideline for public spending by the Department for Transport, with £19.7 billion spending in 2017-18.

Mrs. Villiers: To ask the Minister of State, Department for Transport pursuant to the answer of 25 March 2009, *Official Report*, column 375W, on transport: finance, what his most recent estimate is of the projected levels of long-term funding for his Department in order to provide for the 2.25 per cent. real growth in the Long-Term Funding Guideline to 2018-19 set out in the answer. [288217]

Chris Mole: The annual figures for the long-term funding guideline for transport announced in "Comprehensive Spending Review 2007—Meeting the Aspirations of the British People" (Cm 7227) for the years beyond the current spending review period, were as set out in the following table.

	£ billion
2011-12	14.7
2012-13	15.4
2013-14	16.2
2014-15	17.0
2015-16	17.8
2016-17	18.7
2017-18	19.7
2018-19	20.7

Travel

Norman Baker: To ask the Minister of State, Department for Transport (1) what estimate he has made of the average cost per return journey by *(a)* air, *(b)* rail and *(c)* car between (i) London and Edinburgh, (ii) London and Glasgow, (iii) London and Manchester, (iv) London and Aberdeen, (v) London and Newcastle, (vi) Birmingham and Edinburgh, (vii) Birmingham and Glasgow, (viii) Bristol and Edinburgh, (ix) Bristol and Glasgow, (x) Edinburgh and Manchester and (xi) London and Newquay; [288046]

(2) what estimate his Department has made of the number of people who travelled from *(a)* London to Edinburgh, *(b)* London to Glasgow, *(c)* London to Manchester, *(d)* London to Aberdeen, *(e)* London to Newcastle, *(f)* Birmingham to Edinburgh, *(g)* Birmingham to Glasgow, *(h)* Bristol to Edinburgh, *(i)* Bristol to Glasgow, *(j)* Edinburgh to Manchester and *(k)* London to Newquay at least once in the last year for which information is available; and what estimate he has made of the number and proportion of such journeys undertaken by (i) rail, (ii) air and (iii) car in that period. [288051]

Paul Clark: The Department for Transport's only source of large-scale cross-modal travel data is the National Travel Survey (NTS). This can be used to provide broad estimates of the percentage modal share on major inter-region transport corridors, such as London to the West Midlands and London to the North-West, as shown in the following table:

Long distance journeys by mode, 2002-06

Percentage

	Between London and the North-West	*Between London and the West Midlands*
Car/van	46	73
Surface Rail/LT Underground	40	20
Bus inc. private (hire) bus	5	6
Air	8	0
Other	1	1
Total	100	100

However, the NTS sample size is insufficient to provide comparable data on the specific city-to-city routes listed in the question. Moreover, the NTS cannot provide robust estimates of total numbers of people travelling between specific cities in a given year, nor on the relative cost of different travel modes for a given journey. This information is therefore not available centrally and could be obtained only at disproportionate cost.

The calculation of average journey costs between pairs of cities is a complex area, requiring detailed knowledge of routes, the modes taken, the time of day of travel, etc. One flexible source for information is the Department's Transport Direct website at:

www.transportdirect.info

It gives an indicative cost for a car journey between any two British postcodes, and offers the public transport costs as alternatives where possible.

WALES

Departmental Accountancy

Steve Webb: To ask the Secretary of State for Wales when he expects to publish his Department's resource accounts for 2008-09. [287345]

Mr. Hain: The Wales Office accounts are consolidated within the Ministry of Justice Resource Accounts, not published separately. The Ministry of Justice Resource Accounts are to be laid in Parliament today, 20 July 2009.

Welsh Language Board

Mrs. Gillan: To ask the Secretary of State for Wales what the total annual cost of the Welsh Language Board has been in each year since it was established. [288510]

Mr. Hain: Since devolution, the funding of the Welsh Language Board has been a matter for the National Assembly for Wales. The following grant in aid payments have been made to the Welsh Language Board since its creation in 1993:

	£000
1993-94	129
1994-95	1,797
1995-96	1,953
1996-97	2,000
1997-98	5,692
1998-99	5,762
1999-2000	5,929
2000-01	6,330
2001-02	7,127
2002-03	6,828
2003-04	11,584
2004-05	12,329
2005-06	12,677
2006-07	13,441
2007-08	13,454
2008-09	13,534

The increase in funding in 1997-98 relates to the transfer of funding for a number of organisations from the then Welsh Office to the Board. The 2002-03 rise was due to additional funding to coincide with the publication of the Welsh Assembly Government's "Iaith Pawb" scheme.

SCOTLAND

Damian McBride

Mr. Maude: To ask the Secretary of State for Scotland on what date he last met Mr. Damian McBride in the course of his official duties. [287420]

Mr. Jim Murphy: I have not met with Damian McBride in the course of my official duties.

Departmental Databases

Mr. Watson: To ask the Secretary of State for Scotland what information databases his Department *(a)* maintain and *(b)* uses which do not contain personal information. [284387]

Ann McKechin: The Scotland Office maintains and uses the following databases;

1. Ministerial Correspondence database
2. Freedom of Information database
3. Secretary of State stakeholder database
4. Parliamentary Question database
5. HR database
6. Invoices paid database
7. Travel database

All databases which we hold and which contain personal data adhere to the provisions of the Data Protection Act. In addition, following the publication of the cross government data handling review, new projects and programmes that would hold significant amounts of personal data are obliged to conduct privacy impact assessments.

Jenny Willott: To ask the Secretary of State for Scotland (1) what categories of personal information on members of the public are contained on each database which contains such data managed by his Department and its agencies; when each category of information was first collected; and if he will make a statement; [284898]

(2) what databases managed by his Department and its agencies hold personal information on members of the public; on what date each such database became operational; and if he will make a statement; [285978]

(3) which of the planned databases that will be managed by his Department or one of its agencies and which will hold personal information on members of the public are expected to become operational in each of the next five years; and if he will make a statement; [286147]

(4) what categories of personal information on members of the public will be held on each of his Department's databases expected to become operational in the next five years; what estimate he has made of the likely number of individuals' details each such database will hold when fully operational; and if he will make a statement. [286498]

Ann McKechin: The Scotland Office owns very few databases, there are three that contain information about members of the public. The details held are names and contact details, unless otherwise stated.

1. Ministerial Correspondence database—includes the names of members of the public who asked the question.

2. Freedom of Information database—includes the names of members of the public who asked the question.

3. Secretary of State stakeholder database—includes some members of the public.

There are no current plans to store any new data or categories of personal information on members of the public across the Scotland Office as a whole.

All databases which we hold and which contain personal data adhere to the provisions of the Data Protection Act. In addition, following the publication of the cross government data handling review, new projects and programmes that hold significant amounts of personal data are obliged to conduct privacy impact assessments.

All of our databases containing personal information are stored on secure networks and have limited access. The Scotland Office does not permit uncontrolled transfer of these data to unsecured media.

Departmental Internet

Mr. Watson: To ask the Secretary of State for Scotland pursuant to the answer of 13 July 2009, *Official Report*, column 1W, on departmental internet, what the *(a)* names and *(b)* versions are of the web browsers used on the (i) desktop machines and (ii) laptop computers used by his Department's (A) permanent secretary, (B) chief information officer, (C) head of communications and (D) head of finance. [288991]

Ann McKechin: The Scotland Office shares an information technology system (SCOTS) with the Scottish Executive, which is responsible for the development, administration and maintenance of the system, including the provision of hardware and software. All users on the SCOTS system use Internet Explorer 6.

Departmental Manpower

Jo Swinson: To ask the Secretary of State for Scotland what percentage of employees in his Department are *(a)* women and *(b)* men; and what the average hourly pay is of (i) male and (ii) female employees. [288603]

Ann McKechin: Staffing information containing the gender breakdown of the Scotland Office are published in the Office's annual report; available in the House Library or on our website at:

http://www.scotlandoffice.gov.uk/scotlandoffice/10797.135.html

As all staff in the Scotland Office are on secondment from the Scottish Executive or the Ministry of Justice the Office reimburses those Departments for the costs involved. The Office does not maintain a record of the hourly pay of staff; such information is held by the parent Departments.

Departmental Publications

Mr. MacNeil: To ask the Secretary of State for Scotland pursuant to the answer of 15 July 2009, whether special advisers in his Department were involved in the drafting of the background paper Scotland and Oil. [288759]

Mr. Jim Murphy: Special advisers in the Scotland Office, work with the permanent civil service, and provide advice and assistance to Ministers across the range of their activities in accordance with the Code of Conduct for Special Advisers.

Fuels: Prices

Mr. Carmichael: To ask the Secretary of State for Scotland when his Department's officials last met HM Treasury officials to discuss the proposals for a reduced fuel prices pilot scheme in island communities in Scotland. [287717]

Ann McKechin: Officials in the Scotland Office have discussions with HMT officials on a regular basis on a variety of issues.

Mr. Carmichael: To ask the Secretary of State for Scotland (1) what steps his Department has taken to identify suitable locations for the pilot scheme for reduced fuel prices in island communities in Scotland; [287718]

(2) what plans he has for a pilot scheme for reduced fuel prices in the Highlands and Islands; and when the scheme is planned to start. [287719]

Ann McKechin: The Government have no plans to introduce such a scheme. While the Government recognise the impact of higher fuel prices on those living in island communities in Scotland and in other rural areas across the UK, such prices are set by fuel producers and suppliers as a result of their commercial judgments, driven by market forces. OFT reports have repeatedly shown that markets are functioning properly in rural areas such as north-west Scotland and the Scottish islands, but any evidence of anti-competitive behaviour on the part of fuel sellers can of course be brought to their attention.

The Secretary of State met with the hon. Member for Argyll and Bute (Mr. Reid) at his request to discuss these issues.

PRIME MINISTER

Damian McBride

Mr. Maude: To ask the Prime Minister (1) on what date he last met Mr Damian McBride in the course of his official duties; [287363]

(2) on what date each of his special advisers last met Mr Damian McBride in the course of their official duties. [287365]

The Prime Minister: I refer the right hon. Member to the answers I gave during Prime Minister's Questions to the hon. Member for Ilford, North (Mr. Scott) on 17 June 2009, *Official Report*, columns 301-2 and the hon. Member for Rochford and Southend, East (James Duddridge) on 24 June 2009, *Official Report*, column 791.

Departmental E-mail

Daniel Kawczynski: To ask the Prime Minister pursuant to his answer to the hon. Member for Birkenhead of 3 July 2009, *Official Report*, column 499W, on email, at what address members of the public are able to email him; on what date the account was set up; how often the account is checked; and what account he takes of the emails he receives from members of the public in his formulation of policy. [286120]

The Prime Minister: The present e-mail system went live in April 2009 and is available on the No. 10 website at:

https://email.number10.gov.uk/

Emails are checked on a regular basis.

Departmental Reorganisation

Paul Holmes: To ask the Prime Minister what the cost has been of restructuring the machinery of Government since 2007. [280665]

The Prime Minister: I refer the hon. Member to the answer I gave the hon. Member for Sutton and Cheam (Mr. Burstow) on 15 June 2009, *Official Report*, column 51W.

In addition, I have today placed in the Libraries of both Houses a paper by the Cabinet Office which sets out the functions of Departments following the creation of the Department for Business, Innovation and Skills.

Derek Draper

Mr. Maude: To ask the Prime Minister pursuant to the answer of 7 May 2009, *Official Report*, column 379W, on Chequers, for what reason Mr Derek Draper was invited to attend Chequers on 16 November 2008. [287277]

The Prime Minister: A list of guests who have received official hospitality at Chequers is published on an annual basis. For information for the financial year 2008-09 I refer the right hon. Member to the written ministerial statement I made to the House on 16 July 2009, *Official Report*, columns 70-73WS.

Derek Draper and Charlie Whelan

Mr. Maude: To ask the Prime Minister when he last *(a)* met and *(b)* communicated with (i) Mr Derek Draper and (ii) Mr Charlie Whelan in the course of his official duties. [287352]

The Prime Minister: My officials and I have meetings with a wide range of organisations and individuals on a range of subjects.

Eastern Europe

Mr. Hands: To ask the Prime Minister pursuant to the answer of 3 July 2009, *Official Report*, column 499W, on Eastern Europe, on what occasions since June 2007 he has met *(a)* President Václav Klaus of the Czech Republic, *(b)* President Lech Kaczynski of Poland and *(c)* President Dmitri Medvedev of the Russian Federation (i) in the UK, (ii) in each leader's home country and (iii) elsewhere. [287594]

The Prime Minister: I have nothing further to add to the answer I gave the hon. Member on 3 July 2009, *Official Report*, column 499W.

European Commission

Mr. Hayes: To ask the Prime Minister (1) what criteria he plans to adopt in determining the Government's position on the selection of the next President of the European Commission; [287743]

(2) what criteria he plans to adopt in selecting the next UK candidate for the European Commission. [287744]

The Prime Minister: I refer the hon. Member to the answer I gave him on 26 June 2009, *Official Report*, column 1190W.

Former Ministers: Pay

Mr. Hurd: To ask the Prime Minister (1) whether Lord Carter of Barnes *(a)* has received or *(b)* will receive payment on leaving Ministerial office; [289076]

(2) which former Ministers *(a)* received and *(b)* elected to forego payments following their departure from Ministerial office in June 2009. [289077]

The Prime Minister: Severance pay is payable in accordance with section 4 of the Ministerial and other Pensions and Salaries Act 1991.

Iraq Committee of Inquiry

Andrew Mackinlay: To ask the Prime Minister pursuant to the answer of 13 July 2009, *Official Report*, columns 104-8W, on the Iraq Committee of Inquiry: finance, how he plans to update the House on progress made during the summer adjournment on the work being taken forward by the Cabinet Office on the Government's support to, and liaison with, the Chilcot inquiry; and if he will make a statement. [288060]

The Prime Minister: I have nothing further to add to the answer I gave my hon. Friend on 13 July 2009, *Official Report*, columns 104-8W.

Iraq: Armed Conflict

Lynne Jones: To ask the Prime Minister which of the matters referred to in his statement of 15 June 2009, *Official Report*, columns 21-24 on Iraq he would classify as containing the *(a)* costs and *(b)* benefits to the UK of participation in the Iraq war and occupation. [283730]

The Prime Minister: I refer my hon. Friend to the answer I gave her on 26 June 2009, *Official Report*, column 1190W. In addition on costs, I refer my hon. Friend to the answer given by my right hon. Friend the then Defence Secretary (Mr. Hutton) on 23 February 2009, *Official Report*, column 33W.

Lord Carter

Mr. Maude: To ask the Prime Minister whether Lord Carter received a severance payment on relinquishing his role as chief of strategy and principal adviser at 10 Downing Street. [287292]

The Prime Minister: No.

Lord Mandelson

Mr. Maude: To ask the Prime Minister what responsibilities Lord Mandelson has as First Secretary of State. [287293]

The Prime Minister: I refer the right hon. Member to the machinery of government press notice issued by my Office. Copies are available in the Library of the House and are also available on the No. 10 website at:

http://www.number10.gov.uk/Page19525

Members: Correspondence

Andrew Selous: To ask the Prime Minister pursuant to the answer of 10 June 2009, *Official Report*, column 784, when he plans to write to the hon. Member for South-West Bedfordshire following the meeting on 24 June 2009 to set out the steps he is taking to address the issues raised. [288071]

The Prime Minister: I have arranged for my right hon. and learned Friend the Minister of State for Health (Mr. O'Brien) to reply to the hon. Member following our meeting.

Official Gifts

Mr. Hayes: To ask the Prime Minister, if he will publish a list of gifts valued at over £140 which were purchased by his predecessor on leaving office; and if he will make a statement. [287745]

The Prime Minister: I refer the hon. Member to the written ministerial statement I made on 22 July 2008, *Official Report*, column 102WS.

Mr. Hayes: To ask the Prime Minister, when he plans to place in the Library a copy of the list of ministerial gifts received and valued over £140 for 2007-08. [287746]

The Prime Minister: I refer the hon. Member to the written ministerial statement I made on 16 July 2009, *Official Report*, column 66WS.

Official Residences

Robert Neill: To ask the Prime Minister whether the official residence in South Eaton Place has been sold. [286893]

The Prime Minister: I refer the hon. Member to the answer given to him by my hon. Friend the Minister for Borders and Immigration at the Home Office (Mr. Woolas) on 14 July 2009, *Official Report*, column 310W.

Robert Neill: To ask the Prime Minister what use will be made of the Ministerial residence in Admiralty House following Lord Malloch-Brown's departure from the Government. [286894]

The Prime Minister: A decision on this will be made in due course.

Public Expenditure

Tony Baldry: To ask the Prime Minister pursuant to the answer of 1 July 2009, *Official Report*, column 294, what he meant by the phrase a zero per cent. rise in 2013-14. [285202]

The Prime Minister: Spending budgets and forecasts are set out in Budget 2009. I also refer the hon. Member to the press briefing given by my spokesman on 1 July 2009. A transcript of this is available on the No. 10 website at:

http://www.number10.gov.uk/Page19909

and a copy has been placed in the Library of the House.

OLYMPICS

Olympic Park

5. **Mr. Evennett:** To ask the Minister for the Olympics what recent progress has been made on the construction of the Olympic park for the London 2012 Olympics. [287470]

Tessa Jowell: Construction of the Olympic park venues and infrastructure is progressing well.

Building work is well under way on the five main park venues: the stadium, aquatics centre, velodrome, the athletes' village and the international broadcast centre/main press centre, and is ahead of schedule in some cases.

39.2 per cent. of the Olympic Delivery Authority's programme is now complete.

Prostitution

7. **Mr. Steen:** To ask the Minister for the Olympics if she will hold discussions with the Secretary of State for the Home Department on policy to minimise levels of prostitution associated with the number of tourists expected to attend the London 2012 Olympics. [287472]

Tessa Jowell: I have regular discussions with Home Office Ministers on the London 2012 safety and security programme. This is one of many issues that have and will continue to be discussed.

We are currently seeing no evidence to suggest an increase in the sex industry or human trafficking in relation to the games. However, police services will continue to monitor and will respond to the situation should it change before or during the Olympics.

Cycling

8. **Dr. Harris:** To ask the Minister for the Olympics what progress has been made in constructing the facilities for cycling events at the London 2012 Olympics. [287473]

Tessa Jowell: Construction of the velodrome—designed to be the world's fastest track—commenced in March, is progressing as scheduled, and is on track to be completed in early 2011. The foundations of the venue are complete and work on the concrete slabs and ground to concourse columns has commenced.

Construction of the BMX facilities, adjacent to the velodrome will commence in 2010.

The more temporary facilities at Hadleigh farm for the mountain biking events and at Regents park for the finish of the road cycling events will be constructed nearer to 2012.

Housing

Mr. Cunningham: To ask the Minister for the Olympics what steps are being taken to ensure that housing built for the London 2012 Olympics will be available for use by local people after the games. [287468]

Tessa Jowell: After the games the Olympic village, as planned from the outset, will be converted into a mix of private and social housing available for take-up by local people and others.

Nearly 50 per cent. of the 2,818 homes will be provided as affordable by Triathlon Homes, a consortium which includes a Stratford-based registered landlord, East Thames Housing Group.

The allocation of affordable homes will be agreed between Triathlon Homes and the London borough of Newham in the context of national housing policies and the London Mayor's housing strategy.

Legacy: Scotland

Mr. Hamilton: To ask the Minister for the Olympics what recent discussions she has had on the legacy for Scotland from the London 2012 Olympics. [287471]

Tessa Jowell: Construction of the Olympic Park venues and infrastructure is progressing well.

Building work is well under way on the five main Park venues: the stadium, aquatics centre, velodrome, the athletes' village and the international broadcast centre/main press centre, and is ahead of schedule in some cases.

39.2 per cent. of the Olympic Delivery Authority's programme is now complete.

Departmental Consultants

Mr. Hunt: To ask the Minister for the Olympics (1) how much *(a)* the Olympic Delivery Authority and *(b)* her Office spent on consultancy fees in (i) 2007-08 and (ii) 2008-09; [274955]

(2) when she plans to answer Question 274955, tabled by the hon. Member for South-West Surrey on 7 May 2009, on consultancy fees. [280975]

Tessa Jowell *[holding answer 12 May 2009]:* The procurement of consultancy services by both Government Olympic Executive (GOE) and Olympic Delivery Authority (ODA) is a planned response to the need to deliver the Government's commitments and guarantees to deliver the London 2012 games on time and within a budget of £9.325 billion.

The consultants provide valuable short term support or key specialist skills and expertise not otherwise readily available.

The use of consultants has enabled us to make excellent progress across the many facets of the Olympic programme and in particular in the construction of the Olympic venues and development of legacy planning. As well as

rapid progress we have seen significant savings across the venues and infrastructure construction programme, whose anticipated final cost fell by £179 million from £7,413 million when we published the London 2012 Olympic and Paralympic Games annual report in January 2009 to £7,234 million when we published our quarterly economic report in May 2009.

As the International Olympic Committee recently recognised, inputs such as these are continuing to transform the lower Lea valley and provide a lasting legacy for the people of London and the UK.

Spending by the Olympic Delivery Authority on consultancy fees reduced from £19.8 million (3.7 per cent. of total ODA spend) in 2007-08 to £16 million (1.2 per cent.) in 2008-09.

This reduction reflects the shift from the planning, design and preparation phase of the programme, where consultancy costs are traditionally concentrated, to the development phase.

Spending by the Government Olympic Executive (GOE) on consultancy was £0.4 million in 2007-08 and £0.3 million in 2008-09, 4.6 per cent. and 3.4 per cent. respectively of GOE's total budget.

Olympic Games 2012: Consultants

Bob Spink: To ask the Minister for the Olympics how much the Olympic Delivery Authority has spent on consultants in each year since its creation. [279410]

Tessa Jowell: The procurement of consultancy services by both Government Olympic Executive and Olympic Delivery Authority (ODA) is a planned response to the need to deliver the Government's commitments and guarantees to deliver the London 2012 games on time and within a budget of £9.325 billion.

The consultants provide valuable short term support or key specialist skills and expertise not otherwise readily available.

The use of consultants has enabled us to make excellent progress across the many facets of the Olympic programme and in particular in the construction of the Olympic venues and development of legacy planning. As well as rapid progress we have seen significant savings across the venues and infrastructure construction programme, whose anticipated final cost fell by £179 million from £7,413 million when we published the London 2012 Olympic and Paralympics Games annual report in January 2009 to £7,234 million when we published our quarterly economic report in May 2009.

As the IOC recently recognised, inputs such as these are continuing to transform the lower Lea valley and provide a lasting legacy for the people of London and the UK.

Spending by the ODA on consultancy fees reduced from £19.8 million (3.7 per cent. of total ODA spend) in 2007-08 to £16 million (1.2 per cent.) in 2008-09.

This reduction reflects the shift from the planning, design and preparation phase of the programme, where consultancy costs are traditionally concentrated, to the development phase.

Spending by the ODA on consultancy fees in each completed financial year since its creation has been:

	Consultancy fees (£ million)
2005-06	6.1
2006-07	13.7
2007-08	19.8
2008-09	16

NORTHERN IRELAND

Bomb Disposal

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many times the Army Bomb Disposal Squad has been deployed against *(a)* hoax and *(b)* real devices in each month of the last two years. [287646]

Paul Goggins: The following table shows the number of times that the Army Explosive Ordnance Disposal personnel (EOD) have been called out in respect of both hoax and real devices in each month over the last two years.

	IED[1]/Incendiary[2]/Find[3] call outs	*Hoax[4]/False[5] call outs*	*Total call outs*

May	24	11	35
June	22	17	39

[1] IED—The report of EOD action which results in the total neutralisation, disruption or dismantling of an Improvised Explosive Device.
[2] Incendiary—The report of the functioning of an IED which is primarily designed to cause damage by burning.
[3] Find—The report of explosives or bomb-making components, weapons, ammunition or tools found by the police or security forces and confirmed by the EOD operator after full investigation.
[4] Hoax—The report of an incident where, after full investigation, an object is discovered to be a simulated IED.
[5] False—A report made in good faith of an object believed to be an IED which, upon full investigation, proves to be innocuous.

Departmental Buildings

Mr. Crabb: To ask the Secretary of State for Northern Ireland how many square metres of floor space there are at each of the premises occupied by his Department. [285408]

Mr. Woodward: The floor space occupied by the core Department is detailed in the following table. Buildings occupied by less than five individuals are not included.

Building	*Area (m²)*
Annexe A Dundonald House	390
Ballymena Chambers	2,358
Belfast Chambers	6,761
Castle Buildings	3,862
Foyle Chambers	2,360
Hillsborough Castle	124
Hillview	812
Knockview	1,640
Lagan House	947
Linum Chambers	2,710
Lisburn	2,887
Massey House	1,406
Millbank	3,116
Millennium House	2,174
Omagh Chambers	2,733
PSNI Headquarters	153
Royal Courts of Justice Belfast	1,194
Stormont House	500
Stormont House Annexe	1,725
Stormont House Bungalow	140
Unit 2 Walled Garden	350
Windsor House	2,469

Departmental Correspondence

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the *(a)* target and *(b)* average actual time taken to respond to correspondence was of (i) his Department and (ii) its agencies in the most recent period for which figures are available. [284155]

Mr. Woodward: With the exception of the Compensation Agency, the target for responding to correspondence *(a)* for my Department and agencies is 15 working days. The Compensation Agency works to a tighter target of 10 working days because of its closer direct contact with the general public.

Data on the actual time taken to respond to individual correspondence is not held centrally and to collate the average time taken *(b)*, given the volumes of correspondence received, would therefore incur disproportionate costs.

My Department and agencies do however report annually on percentage of correspondence replied to within target timeframes. The most recent period for which performance against these targets is available is the 2008 calendar year, as set out in annex F of the Northern Ireland Office's 2009 departmental report

www.nio.gov.uk

Performance for the period 1 January 2008 to 31 December 2008 was as follows:

	Number of letters received	*Percentage replied to within target*
NIO core	467	87.4
Northern Ireland Prison Service	2,204	99.6
Forensic Science Northern Ireland	64	99
Compensation Agency	61,209	98.7
Youth Justice Agency	94	98.9

Departmental Databases

Mr. Watson: To ask the Secretary of State for Northern Ireland what information databases his Department *(a)* maintain and *(b)* uses which do not contain personal information. [284388]

Paul Goggins: The internal computer databases maintained by the Northern Ireland Office are listed as follows.

Any personal information stored in these databases is subject to the Data Protection Act and to the Northern Ireland Office data protection policy. Also following the publication of the cross government data handling review in June 2008, new projects and programmes that hold significant amounts of personal data are obliged to conduct privacy impact assessments.

Databases containing personal information

Mail Contact Addresses—Stats and Research;
Juvenile Justice Policy Stats database;
Mentally Disordered Offenders;
Fireworks;
CATS (Correspondence and Case Tracking);
Controlled Substances;
Shotfirers;
Prohibited Weapons;
MSER (Register of Explosives Stores);
Registered Premises;
Security Section database;
Firearm Appeals;
KPPS (Key Persons Protection Scheme) Database (.net version);
Security Vetting Database;
Pass Photograph Database;
Pass/Access control system;
Visits Section VIP Database;
Visits Section VVIP Database;
CATS (Correspondence and Case Tracking) Belfast (1);
CATS (Correspondence and Case Tracking) Belfast (2);
CATS (Correspondence and Case Tracking) London;
Board of Visitors database;
Neighbourhood Watch Registered Applications;
Neighbourhood Watch ID Cards;
Antisocial Behaviour Orders Database;
Integra;
Hospitality;
Flight Desk;
Hotel Bookings;
Financial Services Travel System;
Staff Welfare Database.

Databases not containing personal information

COMPASS;
CommVault;
File Registry Internal Audit;
Internal Audit Library;
Druid97;
SAP Solution Manager;
CJPD File Registry Database.

Jenny Willott: To ask the Secretary of State for Northern Ireland which databases managed by his Department and its agencies hold personal information on members of the public; on what date each such database become operational; and if he will make a statement. [284902]

Paul Goggins: Details of the databases managed by the Northern Ireland Office and its agencies which hold personal information on members of the public and the date they became operational are listed in the following tables.

Any personal information stored in these databases is subject to the Data Protection Act and to the Northern Ireland Office data protection policy. Also following the publication of the cross government data handling review in June 2008, new projects and programmes that hold significant amounts of personal data are obliged to conduct privacy impact assessments.

Jenny Willott: To ask the Secretary of State for Northern Ireland what categories of personal information on members of the public will be held on each database expected to become operational in the next five years and which will be managed by his Department or one of its agencies; what estimate he has made of the likely number of individuals' details each such database will hold when fully operational; and if he will make a statement. [286141]

Paul Goggins: Details of the databases which will be managed by the Northern Ireland Office or its agencies and are expected to become operational in the next five years together with the categories of personal information held on members of the public and the estimated number of records are listed in the following table.

Any personal data which will be stored in these databases will be subject to the Data Protection Act and to the Northern Ireland Office data protection policy. Also following the publication of the cross-Government data handling review in June 2008, new projects and programmes that hold significant amounts of personal data are obliged to conduct privacy impact assessments.

Database name	Categories of personal information	Estimated number of records
2009		
Replacement Visitor to Inmate Recognition and Bookings System (VIRBS)	Name, prison number, address, visitor number, DOB, phone/fax numbers	125,000 over five years
Replacement Secure Image Processing System (SIPS)	Name, prison number, address, visitor number, DOB, phone/fax numbers	125,000 over five years
Juvenile Justice Centre Incidents Database	Name, address, DOB, details of incident, physical restraints, single separations, self harm, sanctions imposed, injuries, Section 75 data	Not known
2010		
Youth Justice Agency Case Management System	Name, address, gender, DOB, Section 75, risk assessment, criminal record, offence referral, medical notes, educational attainments, referral programme, review notes, incident reporting	Currently 2,350 individuals referred to YJA per annum

Departmental Electronic Equipment

Miss McIntosh: To ask the Secretary of State for Northern Ireland how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in his Department; how many there were in each of the last three years; and if he will make a statement. [286168]

Mr. Woodward: My Department currently has *(a)* 82 photocopiers, *(b)* 50 scanning devices, and *(c)* 149 fax machines. Figures are not available for previous years.

A pilot scheme is currently running aimed at increasing the use of multifunctional printing devices in line with the Department's Green IT strategy.

Departmental Internet

Mr. Crabb: To ask the Secretary of State for Northern Ireland what the maintenance and development costs of his departmental website were in *(a)* 2005-06 and *(b)* 2006-07. [285410]

Mr. Woodward: A review of the Northern Ireland Office website was conducted in March 2007 to optimise the site and improve performance and download speed. Maintenance and development costs for 2006-07 were £15,677.44. For the period 2005-06 the costs were £10,293.50.

Mr. Watson: To ask the Secretary of State for Northern Ireland (1) pursuant to the answer of 13 July 2009, *Official Report*, column 39W, on departmental internet, what the *(a)* names and *(b)* versions are of the web browsers used on the (i) desktop machines and (ii) laptop computers used by his Department's (A) Permanent Secretary, (B) chief information officer, (C) head of communications and (D) head of finance; [288989]

(2) pursuant to the answer of 9 July 2009, *Official Report*, columns 918-19W, on departmental internet, what the *(a)* names and *(b)* versions are of the web browsers used on the (i) desktop machines and (ii) laptop computers used by his Department's (A) Permanent Secretary, (B) chief information officer, (C) head of communications and (D) head of finance. [288999]

Paul Goggins: The information requested in relation to web browsers currently used by staff in the Northern Ireland Office is listed in the following table.

		(i) Desktop machines	*(ii) Laptop computers*
(A)	Permanent Secretary	*(a)* Internet Explorer	*(a)* Internet Explorer
		(b) V6 (to be compatible with corporate applications)	*(b)* V6 and V7
(B)	Chief Information Officer	*(a)* Internet Explorer	*(a)* Internet Explorer
		(b) V6 (to be compatible with corporate applications	*(b)* V6 and V7
(C)	Head of Communications	*(a)* Internet Explorer	*(a)* Internet Explorer
		(b) V6 (to be compatible with corporate applications	*(b)*V6andV7
(D)	Head of Finance	*(a)* Internet Explorer	*(a)* Internet Explorer
		(b) V6 (to be compatible with corporate applications	*(b)*V6andV7

Departmental Manpower

Mr. Crabb: To ask the Secretary of State for Northern Ireland how many staff are based at each of his Department's buildings. [285409]

Mr. Woodward: The number of staff based at each of my Department's buildings is detailed in the following table.

Buildings	*Staff*
Annexe A, Dundonald House	13
Ballymena Chambers	64
Belfast Chambers/Laganside	177
Castle Buildings	133
Foyle Chambers	43
Hillsborough Castle	24
Hillview Buildings	28
Knockview Buildings	88
Lagan House	38
Linum Chambers	133
Lisburn Chambers	93
Massey House	79
Millbank	70
Millenium House	34
Omagh Chambers	59
Royal Courts of Justice, Belfast	79
Stormont House	29
Stormont House Annexe	55
Stormont House Bungalow	21
Unit 2 Walled Garden	19
Windsor House	55
Other buildings occupied by less than five staff	5

Departmental Public Consultation

Mr. Philip Hammond: To ask the Secretary of State for Northern Ireland what consultations have been carried out by his Department since July 2007; and at what cost. [279345][1]

Mr. Woodward: Since July 2007 my Department, excluding Agencies and non-departmental public bodies, conducted the consultations set out in the following table. The table includes the cost where applicable.

Name of Consultation	*Cost (£)*
Anonymous Registration - Protecting voters at risk in Northern Ireland -February 2008	0
Improving the Administration of Elections to the Northern Ireland Assembly-July 2008	0
Consultation on proposed draft Criminal Damage (Compensation) (Amendment) (Northern Ireland) Order 2008 - June 2008	2,235.83
Proposed Northern Ireland Criminal Injuries Compensation Scheme 2009	2,681.22
Proposed draft of Sexual Offences (NT) Order - November 2007	2,171.26
Draft Guidance on Public Protection Arrangements Northern Ireland -May 2008	240.00
Proposed draft Criminal Justice Order 2007	5,984.39
Investigation Code of Practice issued under POCA 2002	0
Search Code of Practice issued under POCA 2002	0
Mentally Disorder Offenders Victim Information Scheme	0
Fine default in NI	2,088.09
Proposals for the reform of the law on murder, manslaughter and infanticide	2,126.77
Equality Impact Assessment and Guideline Principles for the Test Purchase of Alcohol	0
Pre Policy Consultation Special Measures: an evaluation and review 2009	70
Alternatives to Prosecution: A Discussion Paper	109.30
Draft Strategy for the Management of Women Offenders (inc consultation workshop)	1,545
Government's Proposals for the Safety of Older People took place between 14 June and 30 November 2007	8,094.78
Consultation on Community Safety in Northern Ireland took place between 27 October 2008 and 9 February 2009	28,771.62
The Explosive Amendment Regulations (NI) 2008	356.54
Manufacture and Storage of Explosives (Amendment) Regulations (NI) 2009	92.52

Departmental Surveys

Mr. Paterson: To ask the Secretary of State for Northern Ireland how much was spent by his Department on staff surveys in *(a)* 2007 and *(b)* 2008; and which companies were contracted to carry out the surveys. [287562]

Paul Goggins: The Northern Ireland Office did not carry out any staff surveys in either 2007 or 2008.

Departmental Work Experience

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many work placements his Department provided to *(a)* school pupils, *(b)* university students and *(c)* graduates in each of the last five years. [287477]

1. *[Official Report, 9 September 2009, Vol. 496, c. 33-34MC.]*

Paul Goggins: I refer the hon. Member to the answer I gave on 14 May 2009, *Official Report*, column 876W.

Festivals and Special Occasions

Mr. Paterson: To ask the Secretary of State for Northern Ireland how much his Department spent on marking *(a)* St Patrick's Day and *(b)* the Twelfth in each of the last five years. [287680]

Paul Goggins: The Department has not incurred any spend in the past five years on marking either St. Patrick's Day or the Twelfth.

Fuels: Smuggling

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many people in Northern Ireland were convicted of offences relating to *(a)* fuel smuggling and *(b)* fuel laundering in the last 12 months. [287489]

Paul Goggins: The most up to date details for oils fraud prosecutions were published in Her Majesty's Revenue and Customs autumn performance report 2008. In the period 2007-08 there were three convictions in Northern Ireland for hydrocarbon oil offences. The HMRC autumn performance report does not differentiate between types of hydrocarbon oils offences.

Northern Ireland Information Service: Manpower

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many people are employed in his Department's Northern Ireland Information Service. [286425]

Mr. Woodward: There are 29.5 people employed in Northern Ireland Information Service (NIIS). NIIS conduct all press office work on behalf of the Northern Ireland Office including an in-house media monitoring service for Ministers, senior officials in the Northern Ireland Civil Service and a range of external stakeholders.

Staff within Information Service also have responsibility for any premises related issues that concern Block B, Castle Buildings.

Northern Ireland Policing Board: Irish Language

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many members of the public attended the most recent meeting of the Policing Board held in Irish. [287656]

Paul Goggins: That is an operational matter for the Northern Ireland Policing Board, which is independent of Government. The hon. Gentleman may wish to write to the Chief Executive of the Policing Board.

Mr. Paterson: To ask the Secretary of State for Northern Ireland what the cost has been of holding meetings of the Policing Board in Irish. [287657]

Paul Goggins: That is an operational matter for the Northern Ireland Policing Board, which is independent of Government. The hon. Gentleman may wish to write to the Chief Executive of the Policing Board.

Orange Order

Mr. Paterson: To ask the Secretary of State for Northern Ireland what recent discussions he has had with representatives of the Orange Order. [287487]

Paul Goggins: Ministers regularly engage with a range of organisations including the Orange Order. The last meeting held with representatives of the order was in April 2009.

Organised Crime

Mr. Paterson: To ask the Secretary of State for Northern Ireland with reference to the cases referred to in the Organised Crime Task Force (OCTF) Report 2009 where assets were recovered, what the names were of the persons losing assets; what the alleged criminality was in each case; which OCTF agency led each action; what the monetary value of assets recovered was in each case; on what date action was started in the courts to recover the assets in each case; how each case was concluded; what the overall monetary value was of the assets originally frozen in each case; and how much the person concerned was permitted to retain in each case. [287677]

Paul Goggins: The information requested has to be collated from a number of OCTF partner agencies. I will therefore write to the hon. Member as soon as possible.

Sammy Wilson: To ask the Secretary of State for Northern Ireland what the monetary value of assets recovered from organised crime in Northern Ireland was in each of the last five years. [286872]

Paul Goggins: I will write to the hon. Member as soon as possible with the information requested.

Parades

Mr. Paterson: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of people who *(a)* marched at, *(b)* were spectators at and *(c)* protested against the parades which took place in Northern Ireland on 12 July 2009. [287880]

Paul Goggins: The information requested is not available.

Police Service of Northern Ireland

Mr. Paterson: To ask the Secretary of State for Northern Ireland (1) what his estimate is of the cost of policing the 12 July events in 2009; [287534]

(2) how many *(a)* uninsured and *(b)* untaxed vehicles were (i) involved in an accident and (ii) used in a crime in Northern Ireland in the last five years; [287535]

(3) how much the Police Service of Northern Ireland spent on offsetting its carbon dioxide emissions in each of the last five years; [287564]

(4) how many pieces of body armour the Police Service of Northern Ireland owns; and how many such pieces were *(a)* purchased and *(b)* reported (i) lost and (ii) stolen in each month of the last five years; [287565]

(5) what the average Police Service of Northern Ireland response time to an emergency call was in each of the policing districts in Northern Ireland in the latest period for which figures are available; [287566]

(6) how many armoured Land Rovers are *(a)* in operation and *(b)* in reserve with the Police Service of Northern Ireland; [287568]

(7) what percentage of emergency calls to the Police Service of Northern Ireland were centrally cleared before a response team was sent out in the last 12 months; [287569]

(8) how many Police Service of Northern Ireland firearms have been reported *(a)* stolen and *(b)* lost in each month of the last five years; [287585]

(9) how many tonnes of fertiliser the Police Service of Northern Ireland seized in the last 12 months; [287586]

(10) how many *(a)* armoured and *(b)* unarmoured vehicles the Police Service of Northern Ireland operates; [287609]

(11) for how many days Police Service of Northern Ireland *(a)* helicopters and *(b)* fixed-wing aircraft have been out of service for maintenance and repairs in the last 12 months; [287610]

(12) how many *(a)* helicopters and *(b)* fixed-wing aircraft the Police Service of Northern Ireland operates; [287611]

(13) how many times the Police Service of Northern Ireland has hired *(a)* helicopters and *(b)* aircraft in the last two years; and at what cost; [287612]

(14) what damage Police Service of Northern Ireland *(a)* helicopters and *(b)* fixed-wing aircraft have sustained from criminal activity in the last 12 months; [287614]

(15) what the cost of licensing a personal protection weapon is; [287618]

(16) how many personal protection weapon applications there were in each month of the last five years; [287620]

(17) for what average length of time personal protection weapons were held in the latest period for which figures are available; [287621]

(18) how many personal protection weapons were *(a)* lost and *(b)* stolen in each month of the last five years; [287622]

(19) how many personal protection weapons applications were refused in each month of the last five years; [287624]

(20) how many personal protection weapons were issued in each month of the last five years; [287625]

(21) how many officers are based in the Police Service of Northern Ireland headquarters; [287627]

(22) how many Police Service of Northern Ireland officers are based in each of the policing districts in Northern Ireland; [287628]

(23) how many Police Service of Northern Ireland warrant cards have been reported stolen or missing in the last 12 months; [287635]

(24) how many members of the Police Service of Northern Ireland have received specialist training in *(a)* serious public disorder and *(b)* counter-terrorist activities; [287639]

(25) how many *(a)* full-time and *(b)* part-time Police Service of Northern Ireland officers there are of each rank; [287640]

(26) how many recruits to the Police Service of Northern Ireland since 2004 had previous policing experience; [287647]

(27) how many recruits to the Police Service of Northern Ireland of each *(a)* religion and *(b)* country of residence there were in each month of the last two years; [287648]

(28) what plans there are to introduce mounted police in Northern Ireland; [287649]

(29) what discussions he has had on proposals to introduce mounted police in Northern Ireland; [287651]

(30) which duties accounted for the highest proportion of overtime accrued by Police Service of Northern Ireland officers in the last 12 months; [287652]

(31) how much was spent on overtime for Police Service of Northern Ireland officers for *(a)* counter-terrorism duties and *(b)* other duties in each of the last five years; [287653]

(32) what percentage of the Police Service of Northern Ireland budget was spent on overtime in 2008-09; [287654]

(33) how many incidents of *(a)* violence and *(b)* other crime were reported against ambulance personnel whilst on duty in Northern Ireland in each month of the last five years; [287660]

(34) how many incidents of *(a)* violent and *(b)* other crime were reported against fire service personnel whilst on duty in Northern Ireland in each of the last five years; [287661]

(35) how many officers recruited to the Police Service of Northern Ireland in the last 12 months can speak *(a)* Irish and *(b)* Ulster Scots; [287664]

(36) how much the Police Service of Northern Ireland spent on translating documents into *(a)* Irish and *(b)* Ulster Scots in the last 12 months; [287665]

(37) how many people are employed in the personal protection weapon licensing department; [287669]

(38) what the average *(a)* length of time and *(b)* cost was for processing a personal protection weapon application in the latest period for which figures are available; [287670]

(39) how many Police Service of Northern Ireland officers have been sent out alone on the beat in the last 12 months; [287984]

(40) how many new recruits to the Police Service of Northern Ireland since 2004 have had criminal convictions of each type. [288690]

Paul Goggins: These are operational matters for the Chief Constable. I have asked him to reply directly to the hon. Member, and copies of his letters will be placed in the Library of the House.

Police Service of Northern Ireland: Aircraft

Mr. Paterson: To ask the Secretary of State for Northern Ireland what arrangements are in place for the Army and the RAF to provide aerial support to the Police Service of Northern Ireland; and how many times in the last two years such support has been provided. [287613]

Paul Goggins: Military support is available to the Police Service of Northern Ireland under the Military Assistance to the Civil Power arrangements.

The number of times that the support has been requested in the last two years is an operational matter for the Chief Constable. I have asked him to reply directly to the hon. Gentleman, and will arrange for a copy of the letter to be placed in the Library of the House.

Police Service of Northern Ireland: Reserve Forces

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many pieces of correspondence he has received in the last 12 months *(a)* in favour of and *(b)* against maintaining the level of the police full-time reserve. [287606]

Paul Goggins: As the information requested is not held in the format requested, to answer this question would incur disproportionate costs.

Political Directorate: Manpower

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many people were employed in his Department's political directorate at the latest date for which figures are available. [286426]

Paul Goggins: On 1 July 2009 there were 124 people employed in the political directorate of the Northern Ireland Office.

The political directorate provides parliamentary and private office support to Ministers as well as policy support for the NI political process and other issues including elections, human rights and public inquiries. In preparation for the completion of devolution, the directorate, which will form the core of the future NIO, has also taken management responsibility for relevant corporate services.

Public Opinion

Mr. Paterson: To ask the Secretary of State for Northern Ireland how much his Department spent on *(a)* opinion polling, *(b)* focus groups and *(c)* other forms of market research in each of the last five years; what surveys were commissioned; and what the purpose was of each. [287561]

Paul Goggins: I refer the hon. Gentleman to the reply given to the hon. Member for Hemel Hempstead (Mike Penning) on 27 March 2009, *Official Report*, columns 782-84W.

Security Guards: Licensing

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many times companies have been notified of the refusal of an application they have made for a security licence in each of the last five years. [287643]

Paul Goggins: The numbers of companies notified of the refusal of a licence are as follows:

	Number of licences refused
2004	0
2005	0
2006	0
2007	0
2008	5

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many security companies have been licensed in Northern Ireland in each of the last five years. [287645]

Paul Goggins: The number of companies licensed are as follows:

	Number of companies licensed
2004	92
2005	101
2006	95
2007	115
2008	132

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many new security staff notified to his Department under the provisions of paragraph 13(1) of Schedule 13 to the Terrorism Act 2000 failed vetting; and for what reason in each case. [287673]

Paul Goggins: There were no new security staff notified under the provisions of paragraph 13(1) of schedule 13 to the Terrorism Act 2000 that failed vetting.

The Terrorism Act 2000 provisions fell in 2007 and were replaced by interim arrangements as set out in schedule 6 to the Justice and Security (Northern Ireland) Act 2007.

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many changes in security staff have been notified to his Department by private security companies in Northern Ireland as required under paragraph 13(1) of Schedule 13 to the Terrorism Act 2000 in each of the last five years; what arrangements are in place for vetting those staff; how many changed staff were vetted; and on average how long each vetting took. [287674]

Paul Goggins: The Terrorism Act 2000 provisions fell in 2007 and were replaced by interim arrangements as set out in schedule 6 to the Justice and Security (Northern Ireland) Act 2007. The information requested regarding changes to security staff is not readily available and could be compiled only at disproportionate cost.

Under the Terrorism Act 2000 arrangements, the Secretary of State took into account a range of information from differing sources to determine if a company should be issued with a security licence. It was not the practice to vet individual security staff under these arrangements.

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many companies are licensed as private security companies in Northern Ireland under the provisions of paragraph 6 of schedule 13 to the Terrorism Act 2000; and how many individuals are recorded as employed in those companies. [287676]

Paul Goggins: There are no companies licensed as private security companies in Northern Ireland under the provisions of paragraph 6 of schedule 13 to the Terrorism Act 2000.

The Terrorism Act 2000 provisions fell in 2007 and were replaced by interim arrangements as set out in schedule 6 to the Justice and Security (Northern Ireland) Act 2007.

Swine Flu: Prisoners

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland (1) whether any cases of swine influenza have been diagnosed in the Northern Ireland prison population; [287709]

(2) what contingency arrangements are in place to protect the health of staff in prisons in Northern Ireland in the event of cases of swine influenza among prisoners. [287710]

Paul Goggins: There have been no cases of swine influenza reported among prisoners or prison staff in Northern Ireland. The Northern Ireland Prison Service (NIPS) is working in close partnership with the South Eastern Health and Social Care Trust, the Public Health Agency and other health service colleagues to prepare for a potential outbreak within the prison population.

Pandemic flu contingency plans have been developed and NIPS has a range of measures in place. The key objectives will be to minimise onward transmission of infection and maximise appropriate healthcare interventions.

Advice on infection control is being kept up to date throughout the prison estate and guidance for staff and prisoners has been issued. Infection control measures, including hand gel dispensers and enhanced cleaning regimes, are in place. All three NIPS establishments have been supplied with stocks of personal protection equipment (PPE) for both healthcare and operational staff, and training for staff with regard to PPE is underway. Stocks of antivirals have been issued to each establishment, as well as additional medications for managing the symptoms of swine flu, such as paracetamol, antibiotics and respiratory drugs.

Terrorism

Mr. Paterson: To ask the Secretary of State for Northern Ireland what recent steps he has taken to ensure the safety of Northern Ireland politicians from threats to their personal safety from *(a)* dissident republicans and *(b)* loyalist groups. [287484]

Paul Goggins: Both the Chief Constable and I take seriously the security of all those in Northern Ireland considered to be at risk. In accordance with the state's article 2 obligations, protection is provided commensurate with the threat. I regularly discuss changes to the threat profile with my security advisers.

Mr. Paterson: To ask the Secretary of State for Northern Ireland what steps his Department is taking to reduce the number of punishment shootings. [287485]

Paul Goggins: While the most recent Independent Monitoring Commission report confirms that the number of shooting casualties is down on the preceding six months period, my Department will continue to work with the PSNI and other agencies in an effort to reduce the level of such criminality.

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many people in Northern Ireland were convicted of offences relating to punishment shootings in the last 12 months. [287488]

Paul Goggins: The information is not available in the format requested. Conviction data are collated by offence, but there are no offences provided for by legislation that relate specifically to paramilitary-style shootings.

It is possible, however, to provide information on the number of casualties resulting from paramilitary-style shootings. In 2008-09, there were 20 such casualties, two of which were attributed to loyalists and 18 to republicans.

Mr. Paterson: To ask the Secretary of State for Northern Ireland (1) what steps are being taken to ensure the security and safety of community halls in Northern Ireland; [287490]

(2) how many attacks involving *(a)* petrol bombs, *(b)* blast bombs, *(c)* paint bombs and *(d)* pipe bombs there were in Northern Ireland in each month of the last five years; [287567]

(3) how many *(a)* petrol, *(b)* pipe, *(c)* blast and *(d)* paint bombs were recovered by the Police Service of Northern Ireland in each of last 12 months; [287572]

(4) how many members of dissident republican groups have been arrested in the last two years; [287573]

(5) how many people have been arrested for offences in connection with the activities of loyalist paramilitary groups in the last five years; [287574]

(6) how many people arrested for offences in connection with the activities of *(a)* dissident republican groups and *(b)* loyalist paramilitaries in the last 12 months had (i) a gun licence and (ii) licensed weapons at the time of arrest; [287575]

(7) how many legally-owned weapons have been confiscated in connection with *(a)* dissident republican and *(b)* loyalist paramilitary activities in the last 12 months; [287576]

(8) how many vehicles have been hijacked by *(a)* dissident republicans and *(b)* loyalist paramilitaries in each of the last 12 months; [287577]

(9) how many *(a)* attempted, *(b)* threatened and *(c)* completed attacks there have been by dissident republicans on police stations in Northern Ireland in each of the last 12 months; [287578]

(10) how many *(a)* attempted, *(b)* threatened and *(c)* completed attacks there have been by dissident republicans on schools in Northern Ireland in each of the last 12 months; [287579]

(11) how many *(a)* attempted, *(b)* threatened and *(c)* actual attacks there have been by dissident republicans on army bases in Northern Ireland in each of the last 12 months; [287580]

(12) how many barrack buster mortars have been recovered by the Police Service of Northern Ireland in the last five years; [287582]

(13) how many attacks by dissident republicans have involved barrack buster mortars in the last five years; [287583]

(14) how many video cameras have been seized by the Police Service of Northern Ireland from dissident republicans in the last 12 months; [287605]

(15) how many times *(a)* the Army and *(b)* the RAF have been asked to provide assistance to the Police Service of Northern Ireland in the last 12 months; [287615]

(16) how many police vehicles in Northern Ireland have been *(a)* damaged and *(b)* taken out of service due to criminal acts in each month of the last five years; and what the cost to the public purse has been; [287616]

(17) how many death threats were issued to former members of the *(a)* Police Service of Northern Ireland, *(b)* Royal Ulster Constabulary and *(c)* Ulster Defence Regiment by (i) dissident republicans and (ii) loyalist paramilitaries in each month of the last four years; [287626]

(18) what damage has been sustained by Land Rovers used by the Police Service of Northern Ireland whilst on patrol in Northern Ireland as a result of paramilitary activity in each of the last 12 months; [287629]

(19) what damage has been sustained by soft top vehicles used by the Police Service of Northern Ireland whilst on patrol in Northern Ireland as a result of paramilitary activity in each of the last 12 months; [287630]

(20) how many threats have been issued by *(a)* dissident republicans and *(b)* loyalist paramilitaries against off-duty members of the Police Service of Northern Ireland in the last 12 months; [287631]

(21) what recorded attempts have been made by *(a)* dissident republicans and *(b)* loyalist paramilitary groups to acquire weapons and munitions using legitimate gun licence holders in the last 12 months; [287632]

(22) how many threats have been issued by *(a)* dissident republicans and *(b)* loyalist paramilitary groups against named individuals (i) in the Police Service of Northern Ireland and (ii) not in the Police Service of Northern Ireland in each of the last 12 months; [287633]

(23) how many Police Service of Northern Ireland officers have been injured by paramilitary activity whilst on duty in each month of the last two years; [287636]

(24) how many times Police Service of Northern Ireland officers have come under *(a)* attack and *(b)* attempted attack from an explosive device whilst (i) on duty and (ii) off duty in the last 12 months; [287637]

(25) how many times in the last 12 months Police Service of Northern Ireland officers have come under gun fire whilst *(a)* on duty and *(b)* off duty; [287638]

(26) what percentage of calls answered by the Police Service of Northern Ireland related to counter-terrorism activities in the latest period for which figures are available; [287641]

(27) how many police dogs were *(a)* injured and *(b)* killed as a result of paramilitary activity in each month of the last five years; [287650]

(28) how many times Police Service of Northern Ireland officers *(a)* drew and *(b)* fired weapons in each month of the last five years; [287668]

(29) how many threats have been issued by *(a)* loyalist paramilitaries and *(b)* dissident republicans against former members of the Police Service of Northern Ireland in each of the last five years. [287679]

Paul Goggins: As these are operational matters for the Chief Constable, I have asked him to reply directly to the hon. Gentleman, and will arrange for a copy of his letters to be placed in the Library of the House.

Mr. Paterson: To ask the Secretary of State for Northern Ireland what his estimate is of the number of rocket launchers held by dissident republicans. [287584]

Paul Goggins: It would be inappropriate to comment on what are security and intelligence matters.

Mr. Paterson: To ask the Secretary of State for Northern Ireland what steps have been taken to protect Police Service of Northern Ireland officers whilst they are off duty. [287634]

Paul Goggins: Both the Chief Constable and I take seriously the security of all those in Northern Ireland considered to be at risk. In accordance with the state's article 2 obligations, protection is provided commensurate with the threat. I regularly discuss changes to the threat profile with my security advisers.

Mr. Paterson: To ask the Secretary of State for Northern Ireland what his most recent estimate is of the number of individuals involved in *(a)* dissident republican activity and *(b)* loyalist paramilitary activity. [287642]

Paul Goggins: It would be inappropriate to comment on what are security and intelligence matters.

Mr. Paterson: To ask the Secretary of State for Northern Ireland what recent representations he has received on paramilitary punishment shootings; and if he will make a statement. [287985]

Paul Goggins: Ministers receive representations relating to criminal activity, including punishment attacks, on a regular basis. Where offences have occurred they are actively investigated by the PSNI.

Weapons

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many personal protection weapon applications which were refused in each month of the last five years were subject to *(a)* successful and *(b)* unsuccessful appeals against the refusal. [287619]

Paul Goggins: The following table indicates the number of appeals relating to PPWs that were allowed or refused in each month since January 2004. In March 2009 the decision was taken not to make any further decisions on appeals until the outcome of the PSNI's internal review was known. I am now considering those appeals that were suspended during that period.

	Appeal	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2004	Allowed	—	—	—	—	—	—	—	—	—	—	—	—
	Refused	—	—	—	—	—	1	—	—	—	—	1	2
2005	Allowed	—	—	—	—	—	—	—	—	—	—	1	—
	Refused	1	2	—	—	—	—	—	—	2	1	3	1
2006	Allowed	—	—	—	—	—	—	—	—	—	1	2	—
	Refused	—	2	1	1	1	—	—	—	—	—	1	—
2007	Allowed	—	—	—	—	—	—	1	—	—	—	—	—
	Refused	—	—	2	1	2	1	7	—	—	—	—	—
2008	Allowed	—	1	—	—	—	—	—	—	—	—	—	1
	Refused	—	1	—	—	1	1	3	—	—	1	1	—
2009	Allowed	—	—	—	—	—	—	—	—	—	—	—	—
	Refused	1	1	—	—	—	—	—	—	—	—	—	—

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many personal protection weapons are held in Northern Ireland. [287623]

Paul Goggins: The Chief Constable of the Police Service of Northern Ireland has informed me that there were 3,224 personal protection weapons held on firearm certificates in Northern Ireland at the end of June 2009.

CULTURE, MEDIA AND SPORT

Bingo Industry

14. **Simon Hughes:** To ask the Secretary of State for Culture, Media and Sport what recent representations he has received on the future of the bingo industry; and if he will make a statement. [287450]

Mr. Sutcliffe: We have not received any recent representations on the future of the bingo industry, but I am aware of such representations being made to my right hon. Friend the Chancellor of the Exchequer.

We recognise the important social role bingo clubs play in many communities and continue to engage with the industry on a range of issues affecting the state of the sector.

Royal Opera House: Thurrock

15. **Andrew Mackinlay:** To ask the Secretary of State for Culture, Media and Sport what recent discussions he has had on future uses of the Royal Opera House production campus in Thurrock. [287451]

Barbara Follett: I have had no discussions on the future uses of the Royal Opera House production in Thurrock.

However, I have recently discussed with the Minister for Skills (Kevin Brennan) at the Department for Business Innovation and Skills the progress of the capital bid that the Creative and Cultural Nationals Skills Academy has put in for a national training centre in Thurrock in partnership with the Royal Opera House.

Tourism Industry

16. **Mr. Crabb:** To ask the Secretary of State for Culture, Media and Sport what assessment his Department has made of the effect on the tourism industry of changes to the furnished holiday lettings rules. [287452]

Barbara Follett: My Department has been working with the tourism and hospitality industry to produce a detailed assessment of the impact that the changes made to the furnished holiday lettings rules in this year's Budget could have on the 50,000 individuals who declare income from them each year.

Although a range of other reliefs continue to be available under property income rules, I am making representations on behalf of the industry to the Exchequer Secretary to the Treasury on this matter.

Local and Regional Newspapers

17. **Hugh Bayley:** To ask the Secretary of State for Culture, Media and Sport what support his Department plans to provide to local and regional newspapers during the recession. [287453]

Mr. Simon: The Government have taken action to support local and regional newspapers including a local media summit held in April; a recent OFT review of the media merger rules; an invitation to the audit commission to look at local authority free sheets; Killian Pretty's recommendations on planning and advertising and a commitment in the Digital Britain White Paper to introduce independently funded news consortia which would be broadcast and syndicated more widely across the local and regional news environment.

Community Sports

18. **Mr. Allen:** To ask the Secretary of State for Culture, Media and Sport what estimate he has made of levels of revenue and capital funding for community sport projects in the regions in the period to 2012; and if he will make a statement. [287454]

Mr. Sutcliffe: The new Sport England strategy focuses investment predominantly through the national governing bodies of sport. This funding is used to deliver Government's key community sport objectives across the country. £480 million has been made available to these national governing bodies for the period between 2008-09 and 2012-13. A further £220 million of mixed and open funding will also come on line throughout the period.

Pub Closures

19. **Mr. Evennett:** To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the number of public houses which have closed in the last 12 months; and if he will make a statement. [287455]

Mr. Sutcliffe: The DCMS Statistical Bulletin on Alcohol, Entertainment and Late Night Refreshment does not identify the number of pubs in England and Wales; but rather the number of premises authorising the sale or supply of alcohol by means of a premises licence or a club premises certificate. We understand that CGA Strategy, the pub and drinks market analyst, which tracks the pub closure rate on behalf of the British Beer and Pub Association, currently estimates that between 51 and 53 pubs a week are closing. At 53 per week, the pub closure level would equate to around 2,750 per year.

Ministerial Visits

Mr. Timpson: To ask the Secretary of State for Culture, Media and Sport what sites *(a)* he and *(b)* Ministers in his Department plan to visit in Crewe and Nantwich constituency in July and August 2009. [287716]

Mr. Bradshaw: We have no current plans to do so.

Departmental Accountancy

Steve Webb: To ask the Secretary of State for Culture, Media and Sport when he expects to publish his Department's resource accounts for 2008-09. [287338]

Mr. Bradshaw: The Department's annual report and resource accounts for 2008-09 will be published by the end of July 2009.

Departmental Postal Services

Mr. Weir: To ask the Secretary of State for Culture, Media and Sport how much his Department spent on Royal Mail services in each of the last two years. [288740]

Mr. Bradshaw: In the last two financial years the Department for Culture, Media and Sport has paid the following amounts to the Royal Mail:

	£
2007-08	35,538.40
2008-09	22,677.86

Digital Broadcasting: Northern Ireland

Mr. Paterson: To ask the Secretary of State for Culture, Media and Sport what steps have been taken to prepare Northern Ireland for digital switchover. [287476]

Mr. Bradshaw: As digital switchover in Northern Ireland in 2012 draws closer, Digital UK will run a communication programme about switchover and what people can do to ensure that they receive digital television in the area covered by the Ulster TV region.

In respect of digital radio, we will be working with broadcasters and transmission providers in the coming months to consider how and when the coverage of digital audio broadcasting (DAB) will be extended and improved across all parts of the UK. We plan to deliver the digital radio upgrade programme by the end of 2015, as set out in the recently published Digital Britain White Paper, but the top-level principle of the programme is that it should not result in reduced access to radio services.

Hotels: DVD

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what recent discussions he has had with VisitEngland on its guidance to hoteliers on the DVD concierge licence. [287906]

Barbara Follett: VisitEngland recently explained in its 'Quality Edge' magazine (which is distributed to all properties quality assessed by VisitEngland) that under copyright law businesses such as bed and breakfast accommodation should purchase a licence if DVDs are made available to guests.

I have had no discussions with VisitEngland about this matter.

Tourism

Geraldine Smith: To ask the Secretary of State for Culture, Media and Sport what steps he is taking to encourage people to take a greater proportion of their holidays in the UK. [287839]

Barbara Follett: In partnership with other Government Departments, the tourism industry and the wider public sector, the Department for Culture, Media and Sport (DCMS) has a clear and coherent policy framework for industry growth. This includes branding and marketing improvement led by VisitBritain; the national tourism skills strategy; and work across Britain on driving up product quality through the accommodation grading schemes.

Central Government are committed to providing £130 million between 2008 and 2012 for marketing Britain overseas and England to the British. In addition, between £3.3 million and £3.5 million is provided annually to the regional development agencies for tourism support. In addition to this, Government have committed £350 million to helping small businesses get the training they need to get through the economic downturn. This investment is across the economy but we encourage small and medium-sized enterprises in the tourism industry to take full advantage of it.

Specifically, in recent months VisitBritain has emphasised its "Value Britain" message, which aims to impress on potential overseas visitors the wide range of affordable accommodation, transport and attractions available in Britain. VisitEngland has also launched its "Enjoy Every Minute, Enjoy England" campaign, designed to inspire and stimulate consumers to take day visits, short breaks and holidays in England this year based on the range of experiences, fantastic quality and value on offer.

Tourism: Morecambe

Geraldine Smith: To ask the Secretary of State for Culture, Media and Sport what funding from the public purse has been made available for tourism regeneration projects in Morecambe and Lunesdale constituency in the last five years. [287833]

Barbara Follett: I have been informed by the North West Development Agency that spending on tourism regeneration projects in Morecambe and Lunesdale in the last five years is as follows:

Project	*Description*	*Funding (£)*
Midland Hotel Morecambe	Redevelopment of Midland Hotel, Morecambe	4,070,523
The Whoop Hall, Burrow, Kirkby Lonsdale	Refurbishment of redundant rooms to create four letting bedrooms	6,221
Carnforth Market Town—Winter Promotion Scheme	Partnership launch event and retail promotion of Carnforth retail centre	42,667
Winter Gardens Morecambe	Feasibility work only to allow for HLF bid	15,000
Winter Gardens, Morecambe	Detailed Planning Stage—Various technical reports to support funding applications	298,381
Seaside Square—site clearance	Site clearance and improvements to land adjacent to the Midland hotel	226,253
Total	—	4,659,045

Winter Gardens Project: Morecambe

Geraldine Smith: To ask the Secretary of State for Culture, Media and Sport what funding from the public purse has been given to the Winter Gardens Project in Morecambe since its inception. [287834]

Barbara Follett: The Single Regeneration Budget (SRB) funding the Winter Gardens in Morecambe started in 1996 and was managed by Government office for the north-west. The SRB Programme was passed to the North West Development Agency (NWDA) to manage, upon its inception in 1999. I am informed by the NWDA that the total SRB funding between 1996 and 2001 was £546,864, and that additional investments totalling £313,381 were made by the NWDA after the closure of the specific SRB.

World Heritage Sites

Mr. Paul Murphy: To ask the Secretary of State for Culture, Media and Sport what plans he has to visit *(a)* Blaenavon and *(b)* other UK World Heritage sites. [288802]

Mr. Bradshaw: I have no current plans to visit Blaenavon Industrial Landscape World Heritage Site, but I will be undertaking a series of regional visits in the coming months and hope to be able to include some of the UK's World Heritage Sites. The Minister for Culture and Tourism recently visited Stonehenge.

LEADER OF THE HOUSE

Damian McBride

Mr. Maude: To ask the Leader of the House on what date she last met Mr Damian McBride in the course of her official duties. [287407]

Ms Harman: I have had no contact with Damian McBride since his resignation from the post of special adviser to the Prime Minister.

Glasgow

John Mason: To ask the Leader of the House whether she plans to visit Glasgow on official business during the summer adjournment. [288925]

Barbara Keeley: My right hon. and learned Friend has no plans, at this time, to visit Glasgow on official business.

Members: Allowances

Mr. Maude: To ask the Leader of the House how much has been spent under the communications allowance in each year since it was established. [287210]

Barbara Keeley: The communications allowance—renamed the communications expenditure on 1 April 2009—was established on 1 April 2007. Since then, the following amounts have been spent in each financial year:

	Amount (£000)
2007-08	4,699
2008-09	5,126

Mr. Maude: To ask the Leader of the House when she plans to introduce proposals to amend controls on the communications allowance payable to hon. Members to take into account the pre-candidacy spending limits introduced by the Political Parties and Elections Bill. [287362]

Barbara Keeley: My right hon. and learned Friend hopes to bring forward the necessary amendments after the summer adjournment.

Members: Correspondence

Sir George Young: To ask the Leader of the House when she plans to reply to the letters of 2 June and 6 July from the right hon. Member for North-West Hampshire on the rules on registration of earnings. [287811]

Barbara Keeley: My right hon. and learned Friend the Leader of the House has recently met with House authorities on this issue and will reply in full in light of the outcome of that meeting.

Political Parties and Elections Bill

Mr. Hurd: To ask the Leader of the House whether she plans to bring forward proposals to amend controls on expenditure from the communications allowance during the pre-candidacy regulated period to be introduced on commencement of the provisions in the Political Parties and Elections Bill. [289079]

Barbara Keeley: My right hon. and learned Friend hopes to bring forward the necessary amendments after the summer adjournment.

Scottish Grand Committee

Andrew Mackinlay: To ask the Leader of the House what consideration the Government have given since November 2003 to arranging for a sitting of the Scottish Grand Committee; and if she will make a statement. [288410]

Barbara Keeley: The Government keep the matter of Grand Committees under constant review. My right hon. and learned Friend the Leader and I are happy to hear any suggestions, from my hon. Friend, on the matter.

Written Questions

Sandra Gidley: To ask the Leader of the House what recent assessment she has made of the quality of answers given by Ministers to parliamentary questions for written answer. [288401]

Barbara Keeley: My right hon. and learned Friend and I keep the quality of answers given to written parliamentary questions under constant review.

We welcome the recent report of the Procedure Committee on this subject and will be carefully considering the proposals in that report.

CHILDREN, SCHOOLS AND FAMILIES

Children: Disabled

Mark Hunter: To ask the Secretary of State for Children, Schools and Families (1) what steps he has taken to ensure that all English local authorities meet the readiness criteria for the distribution of Aiming High for Disabled Children short breaks funding in 2010-11; [287707]

(2) which local authorities did not meet the readiness criteria for the distribution of Aiming High for Disabled Children short breaks funding by March 2009. [287708]

Ms Diana R. Johnson: The Department has contracted with the organisation Together for Disabled Children (TDC) to support local authorities and primary care trusts in improving short-break services.

Early in 2008 the Department asked those local authorities that fell outside of short break pathfinder areas to undertake preparatory work on short break service reform, ahead of receipt of major new funding from April 2009. Nine criteria were set against which robust preparation could be measured.

TDC informs us that by March 2009, 15 authorities had met six, seven or eight of the criteria, these were: Brent, Hackney, Havering, Hounslow, Kingston upon Thames, Southwark, Tower Hamlets, Darlington, Northumberland, Redcar and Cleveland, St. Helens, Warrington, Southampton, Kirklees, Wiltshire

Three non-pathfinder local authorities had met less than six criteria, these were: City of London, Oldham, Sheffield.

The remaining 111 non-pathfinders authorities met all the criteria.

TDC also reports that as of the end of June 2009, 122 of the 129 non-pathfinder areas had met all nine criteria, a further six had met eight criteria, while one authority had yet to meet four criteria.

The short break national programme has now moved beyond the preparation stage and all areas have received short break funding. Readiness criteria are not being applied to the 2010-11 financial year, however TDC continue to concentrate their resource on those authorities where progress is slowest, and are providing remedial support where readiness criteria remain unmet.

Education Maintenance Allowance

Joan Ryan: To ask the Secretary of State for Children, Schools and Families what measures his Department has in place to reassess a student's eligibility for the education maintenance allowance in the event of a change in the student's financial circumstances. [287046]

Mr. Iain Wright: For most young people, eligibility for education maintenance allowance (EMA) is subject to an assessment of their household income based on the financial year prior to the academic year in which they start their course. A successful assessment provides a young person with a guaranteed entitlement of up to three years of EMA on the same rate regardless of whether their income increases. If there is a drop in income from one year to the next then a young person may apply to be reassessed for the subsequent academic year. They could be assessed as eligible for EMA where they were not previously, or an increased rate of it. They would receive the EMA guarantee based on the rate awarded following the most recent assessment.

There are a limited number of exceptional circumstances in which a young person may apply to be reassessed for EMA during the academic year. Those circumstances are:

(i) someone whose income was taken into account in determining financial eligibility has died;

(ii) a person whose income was taken into account in determining financial eligibility has experienced a reduction in income due to their own disability, or the disability of any other person for whom he or she has responsibility as primary carer (disability means as defined in the Disability Discrimination Act 1995);

(iii) Since the assessment of income was made, the young person has become estranged from their parents, guardians or someone else whose income was taken into account in determining financial eligibility;

(iv) The young person has become a parent with responsibility for their own child.

The financial needs of young people can be affected by a range of circumstances, including reductions in household income due to redundancy, or reduced working hours. Other mechanisms exist to help with the costs of

supporting young people aged 16 to 19 in learning. Child benefit provides support for parents regardless of income, and tax credits are designed to tailor support to current circumstances and to be responsive to changing needs.

In addition to the support provided to families, discretionary learner support funds are made available via the Learning and Skills Council to colleges and local authorities. This funding is provided to enable schools and colleges, using their discretion, to help individual learners facing hardship and financial barriers to learning that are not addressed through other mechanisms. This funding can be used to respond to any hardship needs of learners that may arise through sudden changes in circumstance.

Extended Schools: Finance

Ms Buck: To ask the Secretary of State for Children, Schools and Families what guidance his Department has issued to local education authorities on the distribution of extended schools funding in respect of children *(a)* with special needs and *(b)* entitled to free school meals. [286237]

Ms Diana R. Johnson: The Government are committed to every school providing access to a core offer of extended services and has provided significant funding to support the delivery of extended services, including committing over £1 billion in the period 2008-09 to 2010-11. Funding is allocated to local authorities. DCSF guidance states that local authorities should work closely with their schools and other children's service partners through the children's trust to develop and agree strategic plans for using the extended services funding. Local authorities are strongly encouraged to devolve as much of their extended schools funding to schools as possible. In determining allocations, local authorities are encouraged to consider the needs and context of schools and their population, including levels of deprivation, of which free school meals is one of the indicators. DCSF guidance also states that extended activities and services will be of particular benefit to disabled children and young people and those with special educational needs.

As part of this funding, there is over £200 million of extended services subsidy. This is focused on supporting the access to extra-curricular activities by disadvantaged children, including children eligible for free school meals. The DCSF has issued the message to local authorities that all subsidy funding is to be passed to schools to help increase the level of participation for those children. The DCSF has, working with the Council for Disabled Children, issued guidance: "Extending Inclusion—Access for disabled children and young people to extended schools and children's centres: a development manual", emphasising the importance of making extended services accessible to all children. This is available from www.teachernet.gov.uk

Residence and Guardianship Orders

Jim Cousins: To ask the Secretary of State for Children, Schools and Families how many *(a)* residency and *(b)* guardianship orders there were in force in each local authority social services area in each of the last five years. [286436]

Bridget Prentice: I have been asked to reply.

The number of residency and special guardianship orders made in England and Wales over the last five years are contained in the following table.

In the majority of cases individuals, not local authorities, apply for these orders in private law proceedings. Special guardianship orders came into force on 30 December 2005 and are provided for in sections 14A to 14G of the Children Act 1989.

A court may resolve a local authority's public law application by making a residence or special guardianship order to a named individual.

Residence and Special Guardianship Orders for England and Wales

	Private Law		*Public Law*	
	Residence	*Special Guardianship*	*Residence*	*Special Guardianship*
2007	23,703	451	2,529	1,096
2006	22,991	730	2,700	176
2005	26,253	n/a	2,580	n/a
2004	31,878	n/a	2,976	n/a
2003	31,966	n/a	2,866	n/a

Note:
These figures are for 'Orders made' not orders in force

School Meals

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which local authorities have applied for the exceptional capital funding for new kitchens in schools announced in December 2007; which local authorities have received such funding; and if he will make a statement. [286960]

Ms Diana R. Johnson: The Department announced in 2006 that it would make £150 million targeted capital funding available in the next spending review period to local authorities to build new kitchens in areas of greatest need. Bids totalling £49,908 million were received in this first round and approved from the following local authorities:

Local authority

West Sussex
Swindon
N E Lincolnshire
Lincolnshire
North Somerset
Dorset
Wigan
Harrow
Hillingdon

Plymouth
Buckinghamshire
Bournemouth
Kingston upon Thames
Northamptonshire
Worcestershire

Bids from Gloucestershire and Hull did not meet the criteria. Payments to successful LAs are being phased over the three years 2008 to 2011 according to the needs of the individual authorities.

The Government announced in December 2007 that local authorities could bid for the remaining £100 million to support the improvement of kitchens and dining areas in order to improve school lunch take up.

Bids were received from 133 authorities and totalled just under £200 million. Although the bids varied significantly, all of them met our criteria. It was therefore decided to apply an across the board cut of just under 50 per cent. so that all LAs received a proportionate amount of their bid.

SOLICITOR-GENERAL

Members' Constituency Work: Hemsworth

Jon Trickett: To ask the Solicitor-General if the Attorney-General will meet the hon. Member for Hemsworth to discuss a constituency issue. [287705]

The Solicitor-General: A meeting has been scheduled with the Attorney-General.

Patrick Brendon Smith: Sentencing

Mr. Timpson: To ask the Solicitor-General whether the Attorney-General considered lodging an appeal against the sentence imposed on Patrick Brendon Smith by Preston Crown Court in October 2008. [288093]

The Solicitor-General: Mr. Smith was convicted of attempting to abduct a child and was sentenced to 12 months' imprisonment. Section 36 of the Criminal Justice Act 1988 empowers the Attorney-General to refer certain sentences to the Court of Appeal for review. The offence of child abduction is not an offence to which section 36 applies and the Attorney-General could not therefore consider referring the case.

WOMEN AND EQUALITY

Breast Feeding

Mrs. Gillan: To ask the Minister for Women and Equality what recent representations she has received on the proposals in the Equality Bill in relation to a mother breastfeeding in a public place who is asked to *(a)* leave that place by a person in authority and *(b)* stop breastfeeding by a member of the public. [288049]

Michael Jabez Foster: Following Second Reading of the Equality Bill, interested organisations raised concerns that, as drafted, the Bill reduced the existing protection against discrimination for pregnant women and new mothers. This drew our attention to an unintended consequence of the drafting which would have potentially allowed discrimination against pregnant women or new mothers if this could be shown to be reasonable. Therefore on 9 June, we tabled amendments to the Bill which represent a return to the level of protection given against pregnancy and maternity discrimination under the Sex Discrimination Act 1975 (as amended). These amendments were briefly debated on 16 June and agreed, and now stand part of the Bill.

The Bill makes absolutely clear that breastfeeding mothers are protected from sex discrimination in relation to provision of services to the public, whatever their baby's age. So a woman who is breastfeeding her baby in a restaurant or on a bus cannot lawfully be asked to leave, or get off, for that reason. At present we have no plans to bring forward proposals to provide a legal right for women to breastfeed in public places.

Departmental Operating Costs

Sammy Wilson: To ask the Minister for Women and Equality what the running costs of the Government Equalities Office have been in each year since its establishment. [286942]

Michael Jabez Foster: Since its establishment on 12 October 2007, the running costs for the Government Equalities Office have been:

Expenditure

£000

	2006-07	2007-08	2008-09
Pay costs	3,118	3,996	5,142
Non-pay costs	339	1,212	2,701
Total	3457	5,208	7,843

Equality Bill

Mr. Evennett: To ask the Minister for Women and Equality what recent representations she has received from religious organisations on the provisions of the Equality Bill. [288122]

Michael Jabez Foster: My officials and I have received a number of representations from religion and belief organisations and individuals since the introduction of the Equality Bill in April this year.

Since April there have been meetings with the Catholic Bishops Conference of England and Wales, the General Synod of the Church of England and the National Secular Society.

In that same period we have also received 45 letters from religious or belief organisations and members of the public on the provisions within the Bill. The main issues raised were:

The public sector equality duty;
The occupational requirements employment exception;
Catholic adoption agencies;
The harassment provisions;
The curbing of religious freedom and expression; and
A perceived hierarchy of rights where some protected characteristics take precedence over others.

In addition to the representations mentioned above, a number of religious and belief organisations made submissions to the House of Commons' Public Bill Committee on the Equality Bill. The Catholic Bishops' Conference of England and Wales and the British Humanist Association presented written evidence. Oral evidence

was presented by the British Humanist Association, the Board of Deputies of British Jews, the Catholic Bishops Conference of England and Wales, the General Synod of the Church of England, the National Secular Society and the Muslim Women's Network.

Members: Correspondence

Sir John Stanley: To ask the Minister for Women and Equality when she plans to reply to the letter of 23 February 2009 and 23 May 2009 from the right hon. Member for Tonbridge and Malling on behalf of Mr Colin Packman. [287298]

Michael Jabez Foster: I am sorry that the right hon. Member has not received a response.

The office for the Minister for Women and Equality had no record of receiving the correspondence referred to. Following contact with the right hon. Member's office, the Government Equalities Office has now received a copy the relevant correspondence, and I will reply by the end of July.

Terrorism Bill

Mr. Grieve: To ask the Minister for Women and Equality what expenditure the Commission for Equality and Human Rights incurred on commissioning legal advice on the compliance of the Terrorism Bill with the European Convention on Human Rights. [286798]

Michael Jabez Foster: The Equality and Human Rights Commission spent £9,603 (including VAT) on expert legal advice from counsel.

Women and Work Commission

Meg Munn: To ask the Minister for Women and Equality when she expects the Women and Work Commission to report on the impact of the recommendations adopted by the Government in response to the report of the Commission in 2006. [287736]

Michael Jabez Foster: The Women and Work Commission are due to publish their report on 29 July 2009.

INTERNATIONAL DEVELOPMENT

Departmental Buildings

Grant Shapps: To ask the Secretary of State for International Development what properties his *(a)* Department and *(b)* Department's non-departmental public bodies have sold in each of the last five years; and how many of these have been sold for housing development. [286495]

Mr. Michael Foster: In the last five years, the Department for International Development and the non-departmental bodies it oversees have sold no property in the United Kingdom.

Departmental Data Protection

Jenny Willott: To ask the Secretary of State for International Development what databases which will be managed by his Department and which will contain personal information are *(a)* under construction and *(b)* expected to go live in each of the next five years; and if he will make a statement. [286505]

Mr. Michael Foster: The Department for International Development has no current plans to build new databases containing personal information.

We do expect to replace existing databases used for internal administration of human resources and correspondence within the next five years.

Jenny Willott: To ask the Secretary of State for International Development how many *(a)* attempts and *(b)* successful attempts were made to gain unauthorised access to each (i) database and (ii) ICT system run by his Department in each of the last five years; and if he will make a statement. [286544]

Mr. Michael Foster: It is not in the interests of the UK's national security for departments to confirm information on the number of attempts, successful or otherwise, to gain unauthorised access to departmental systems or databases. Such disclosure could undermine the integrity and security of departmental systems and thereby expose them to potential threats.

The Department for International Development complies with the mandatory requirements of the security policy framework in relation to information security including managing the risk of unauthorised access to ICT systems.

Departmental Work Experience

Mr. Willis: To ask the Secretary of State for International Development how many interns work in his Department; what terms of reference apply to their appointment; what remuneration they receive; and how long on average an intern appointment lasts. [286821]

Mr. Michael Foster: The Department for International Development does not have an intern scheme.

Food Security Initiative

Mr. Andrew Mitchell: To ask the Secretary of State for International Development how much funding the UK has pledged to the new G8; what the timescale for that funding is; and whether this funding is additional to existing funding provision. [287267]

Mr. Michael Foster: The UK announced £1.1 billion for agriculture, rural development and food security over the period 2009-10 to 2011-12.

£370 million of this had previously been announced in 2008-09 as part of the UK's £900 million response to the food crisis.

COMMUNITIES AND LOCAL GOVERNMENT

Aerials: Planning Permission

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Beckenham (Jacqui Lait) of 7 January 2008, *Official Report*, column 252W, on planning permission: aerials, what progress has been made on the review of planning regulations affecting mobile telephone masts; and if he will bring forward legislative proposals to require full planning permission for the construction of such masts. [284004]

Mr. Ian Austin: We will be announcing the conclusions of our review of permitted development rights for telecommunications shortly.

Business: Government Assistance

Mr. Don Foster: To ask the Secretary of State for Communities and Local Government (1) how much of the £3 million fund for high streets adversely affected by the economic downturn has been *(a)* allocated to and *(b)* spent in each region; [288525]

(2) how many unused commercial premises have been taken over for community creative use since his announcement on such usage in April 2009. [288526]

Mr. Malik: There has been widespread interest in the "Looking after our town centres" guide, with nearly 9,000 downloads of the document since it was published in April. However, information on how commercial premises are being used is not collected centrally, as this is a matter for local authorities and their partners. An announcement will be made shortly on how the £3 million funding will be allocated.

Central Manchester Development Corporation: Archives

Kate Hoey: To ask the Secretary of State for Communities and Local Government with reference to the answer of 21 February 2008, *Official Report*, column 900W, on the Central Manchester Development Corporation: archives, which archives of the Central Manchester Development Corporation are within the Government Office for the North-West registry. [287405]

Ms Rosie Winterton: There are no Central Manchester Development Corporation archives held in GONW. All such files were sent to an external storage facility in March 1998 with instructions to be securely destroyed on 1 April 2006.

Council Tax: Pensioners

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government if he will assess the merits of introducing a council tax deferment scheme for home-owning pensioners. [286564]

Ms Rosie Winterton: The Government have no plans to assess the merits of introducing a council tax deferment scheme for home-owning pensioners. Regulation 21 of Council Tax (Administration and Enforcement) Regulations 1992 (SI 1992/613) already enables local authorities to defer payment of council tax for individual taxpayers, including pensioners. The details of such arrangements are a matter for individual local authorities.

Councillors: Allowances

Robert Neill: To ask the Secretary of State for Communities and Local Government what statistical information his Department holds on average councillor allowances. [288294]

Ms Rosie Winterton: We do not collect or report on allowances paid to local authority members, which are matters for each council to decide, having regard to the recommendations of their independent remuneration panel, and on which the council is accountable to their local electorate.

Departmental Data Protection

Jenny Willott: To ask the Secretary of State for Communities and Local Government how many *(a)* attempts and *(b)* successful attempts were made to gain unauthorised access to each (i) database and (ii) ICT system run by his Department in each of the last five years; and if he will make a statement. [286549]

Mr. Malik: It is not in the interests of the UK's national security for Departments to confirm information on the number of attempts, successful or otherwise, to gain unauthorised access to departmental systems or databases. Such disclosure could undermine the integrity and security of departmental systems and thereby expose them to potential threats.

Communities and Local Government complies with the mandatory requirements of the Security Policy Framework in relation to information security including managing the risk of unauthorised access to ICT systems.

Departmental Databases

Mr. Watson: To ask the Secretary of State for Communities and Local Government what information databases his Department *(a)* maintains and *(b)* uses which do not contain personal information. [284394]

Mr. Malik: The information requested is not held centrally and could be provided only at disproportionate cost.

Jenny Willott: To ask the Secretary of State for Communities and Local Government what categories of personal information on members of the public will be held on each of his Department's and its agency's databases expected to become operational in the next five years; what estimate he has made of the likely number of individuals' details each such database will hold when fully operational; and if he will make a statement. [286494]

Mr. Malik: New databases containing personal data are set up by Communities and Local Government as and when policy development and implementation of policy dictate the operational need for them. It is not possible to plan or predict how many individuals' details nor what categories of their personal information are likely to need to be held on new databases that are

required for the business of the Department up to five years ahead. None the less, Communities and Local Government always takes steps to ensure that new databases are fully compliant with the provisions of the Data Protection Act.

Departmental Electronic Equipment

Jenny Willott: To ask the Secretary of State for Communities and Local Government how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in his Department; how many there were in each of the last three years; and if he will make a statement. [286178]

Mr. Malik: The information requested is not held centrally and could be provided only at disproportionate cost. Communities and Local Government are reviewing its use of such devices with the aim of reducing the numbers and moving to a more carbon efficient approach in line with the requirements of the "Greening Government ICT programme".

Fire Services

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what the latest estimated total gross cost is of the FIREControl project. [283697]

Mr. Malik: We will be updating the cost figures contained in the FiReControl Business Case in due course to reflect the rescheduling I announced to the House on 15 July 2009.

Fires

Chris Huhne: To ask the Secretary of State for Communities and Local Government how many *(a)* injuries and *(b)* deaths were caused (i) by all fires and (ii) by fires with a source of ignition in (A) wires and cables and (B) leads and appliances in each year since 2003. [287083]

Mr. Malik: The latest data on the number of injuries and deaths by the types of source of ignition requested are shown in the following table.

Casualties in fires by source of ignition, England, 2003-07[1]

	All casualties	*Leads to appliances*[2]	*Wires and cables*[3]
2003			
Fatal casualties	468	1	2
Non-fatal casualties	12,383	89	263
2004			
Fatal casualties	368	1	2
Non-fatal casualties	11,447	60	225
2005			
Fatal casualties	387	2	3
Non-fatal casualties	11,251	68	243
2006			
Fatal casualties	398	5	3

Fire data reports to CLG

Floods: Gardens

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for the Vale of York (Miss McIntosh) of 2 June 2009, *Official Report*, column 335W, on floods: gardens, when he expects to *(a)* receive and *(b)* publish the final report of the research into the effects of the paving of back gardens on levels of flood risk. [286510]

Mr. Ian Austin: The Government have now received the research report on permeable and impermeable surfacing. We intend to publish the report shortly with the consultation on a package of measures to respond to the recommendations from Killian Pretty for improving the planning process.

Government Office for London: Finance

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what the *(a)* administrative cost and *(b)* total expenditure of the Government Office for London were in 2008-09. [286514]

Ms Rosie Winterton: The 2008-09 administrative costs for Government Office for London (GOL) were:

Salary: £10,799,080
Non-pay: £972,438
Total: £11,771,518

The gross accommodation spend for GOL for 2008-09 was £4,458,591 and related tariff/minor occupier income of £358,700. The net accommodation expenditure was £4,099,891.

Home Information Packs

Grant Shapps: To ask the Secretary of State for Communities and Local Government what estimate he has made of the number of registered home inspectors there were in each of the last three years. [286421]

John Healey: No estimate of the number of inspectors registered to produce home condition reports in each of the last three years has been made. The number of registered inspectors on 14 July 2009, which is the most recent date for which numbers were available, was 963.

Homes and Communications Agency: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much he expects to provide the Homes and Communications Agency in grant in aid in 2009-10. [288492]

John Healey: The latest estimate of the amount of grant in aid that the Department expects to give the Homes and Communities Agency is published in the notes to the Department's Main Estimates 2009-10, on the Treasury website at:

http://www.hm-treasury.gov.uk/d/13403_me08_dclg_lst.pdf

Homes and Communities Agency: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the *(a)* capital and *(b)* resource allocation for (i) the Homes and Communities Agency and (ii) the Tenant Services Authority is for (A) 2009-10 and (B) 2010-11. [286439]

John Healey: I refer the hon. Member to the answer I gave him on 16 June 2009, *Official Report*, column 202W.

Homes and Communities Agency: Guardian

Grant Shapps: To ask the Secretary of State for Communities and Local Government what *(a)* financial and *(b)* administrative support the Homes and Communities Agency provides to the Guardian newspaper website for its Housing Horizons microsite; and if he will make a statement. [288405]

John Healey: The HCA has made no financial contribution or administrative support for the housing microsite, Housing Horizons.

Housing

Robert Neill: To ask the Secretary of State for Communities and Local Government to how many local newspapers the Minister for Housing and Planning's letter on being green while tackling the recession was sent. [286685]

John Healey: No such letters were sent out. However, an article I wrote was made available to local newspapers through the Central Office of Information.

Housing: Energy

Annette Brooke: To ask the Secretary of State for Communities and Local Government what assessment he has made of the effect on the level of demand for the services of accredited energy assessors of his Department's funding for energy assessments to be performed by Eaga. [286324]

John Healey: My Department does not provide funding for energy assessments performed by Eaga plc.

Justine Greening: To ask the Secretary of State for Communities and Local Government what assessment he has made of the effect on *(a)* energy efficiency in council homes, *(b)* the number of new social rented homes, *(c)* the number of households in temporary accommodation, *(d)* repairs to council housing stock and *(e)* the progress of regeneration and housing infrastructure projects of the £775 million in capital funding for housing and regeneration, brought forward from 2010-11 to 2009-10 and 2008-09; and how much of the funding has been spent in each month since it was announced. [286654]

John Healey: The £775 million consisted of £150 million for social rented housing, through the Affordable Housing Programme; £250 million for decent homes, which has been allocated to fund improvements and improve energy efficiency in council homes; £175 million for major repairs to council housing stock; and £100 million and £80 million respectively for the regional development agencies and Homes and Communities Agency (HCA) to support key regeneration and housing infrastructure projects.

The investment in social rented homes forms part of the National Affordable Housing Programme and is reported as part of that programme. Information on spending for new affordable housing is published in HCA's Annual Report and Accounts. The money for decent homes has been allocated directly to local authorities as part of the overall Decent Homes programme and is not reported on separately. £162 million of the £175 million for major repairs has been allocated to 39 local authorities.

A large number of our programmes are aimed at reducing the number of people in temporary accommodation. Over the past year those households placed in temporary accommodation has reduced by 17 per cent. to 64,000 from a peak of 101,000 in December 2004 (as at 30 March).

The regeneration funding was intended for 2009-10. As sponsor Department for the regional development agencies, the Department of Business, Innovation and Skills leads on the monitoring of the £100 million reprioritised for critical regeneration projects with relevant projects due to begin work in the autumn. The HCA are due to begin investment of the £80 million allocated to them shortly, with work beginning on relevant priority projects during the autumn/winter.

Because these schemes represent elements of wider programmes with established reporting mechanisms, monthly breakdowns of spend are not available.

Housing: Low Incomes

Bob Spink: To ask the Secretary of State for Communities and Local Government (1) how many affordable homes have been built in *(a)* Essex and *(b)* Castle Point in each of the last five years. [285479]

(2) how many homes for social rent have been built in *(a)* Essex and *(b)* Castle Point in each of the last five years. [285480]

(3) how many properties he expects to be added to the stock of social rented housing through *(a)* construction and *(b)* purchase in (i) Essex and (ii) Castle Point in (A) 2009-10 and (B) each of the next four years. [285529]

Mr. Ian Austin: The following table shows the number of new affordable homes built in Essex and Castle Point in each of the last five years.

	Castle Point	Essex
2003-04	0	350
2004-05	30	500
2005-06	0	840
2006-07	0	660
2007-08	20	1,260

The following table shows the number of new social rented homes built in Essex and Castle Point in each of the last five years.

	Castle Point	Essex
2003-04	0	330
2004-05	30	450
2005-06	0	650
2006-07	0	490
2007-08	10	840

Note:
Figures have been rounded to nearest 10 units.
Source:
Homes and Communities Agency Investment Management System (IMS), and local authority returns to CLG.

Not all social rented and affordable housing is provided by new build completions, as some supply can come from acquisitions. For example, in 2007-08, a total of 1,440 additional affordable homes were provided in Essex (new build and acquisitions).

Communities and Local Government do not set targets for the National Affordable Housing Programme (NAHP) at a local level. The Homes and Communities Agency's National Affordable Housing Programme (NAHP) awards grant funding for the provision of social housing on the basis of competitive bidding.

Mr. Jenkins: To ask the Secretary of State for Communities and Local Government how much funding has been *(a)* allocated to and *(b)* spent in the West Midlands under the My Choice HomeBuy scheme in 2009-10. [286334]

John Healey: We have not set individual budgets for each HomeBuy scheme to ensure flexibility within the Homes and Communities Agency's National Affordable Housing programme 2008-11.

To the end of June £953,055 had been spent on My Choice HomeBuy in the West Midlands.

Grant Shapps: To ask the Secretary of State for Communities and Local Government during what periods bidding has taken place for funding under the *(a)* HomeBuy Direct, *(b)* New Build HomeBuy, *(c)* Rent to HomeBuy and *(d)* the First time Buyers initiative since the inception of each scheme. [286398]

John Healey: An *Official Journal* of the European Union compliant competition to select suitable schemes and providers for HomeBuy Direct commenced on 1 October and closed on 7 November 2008.

FTBI schemes were procured by the former English Partnerships in 2006-07.

For the National Affordable Housing Programme (NAHP), bidding for the 2006-08 programme took place between July and October 2005. The initial bid round for the 2008-11 programme ran from September to early November 2007. This was followed by two Regular Market Engagements (RME). The first RME bid round ran from mid-April to mid-May 2008 and the second ran in July 2008. From September 2008 we moved to Continuous Market Engagement under which there are no longer pre-defined bid rounds and bidding is always open.

New Build HomeBuy and Rent to HomeBuy are part of the NAHP.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much his Department has spent on Rent to HomeBuy in 2009-10 to date. [286422]

John Healey: Up to the end of June £26,954,819 had been spent on Rent to HomeBuy in 2009-10.

Robert Neill: To ask the Secretary of State for Communities and Local Government what effect the decision to end the Open Market HomeBuy scheme will have on other HomeBuy schemes. [286811]

John Healey: The Government remain committed to helping households who could not otherwise afford to buy into homeownership and the HomeBuy Direct, New Build HomeBuy and Rent to HomeBuy schemes remain available to help those who cannot afford to purchase without Government assistance.

Jim Cousins: To ask the Secretary of State for Communities and Local Government what his plans are for the future operation of OpenMarket HomeBuy; and if he will make a statement. [287726]

John Healey: I refer my hon. Friend to my written statement to the House on 30 June 2009, *Official Report*, columns 8-10WS.

Jim Cousins: To ask the Secretary of State for Communities and Local Government what his most recent estimate is of the level of take-up of OpenMarket HomeBuy in each region; and how many purchases were made under what scheme in *(a)* 2007-08, *(b)* 2008-09 and *(c)* 2009 to date; and what the monetary value of those purchases was in each period. [287727]

John Healey: I refer the hon. Member to my written statement to the House on 30 June 2009, *Official Report*, columns 8-9WS. Since 1997, we have helped over 35,000 households through the Open Market HomeBuy scheme. However, we want to maximise our efforts behind building of new affordable homes, so we are closing the open market homebuy scheme to new applicants and in future our low cost home ownership programme will be directed to schemes which support new build homes.

The following table shows the take-up of, and number of purchases made through Open Market HomeBuy by scheme and region for 2007-08, 2008-09 and the first quarter of 2009-10.

Number

	2007-08		2008-09[1]	2009-10[1]

[1] 2008-09 and 2009-10 figures are provisional.
[2] eOMHB: Transitional arrangement for those households who had already been approved in 2007-08.
Source:
Homes and Communities Agency.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many potential homebuyers have been informed that their applications to the MyChoice Homebuy scheme have been refused as a result of all the scheme's funding having been allocated. [288227]

John Healey: The total number of people contacted is not held centrally.

Funding for the MyChoice HomeBuy scheme is confirmed only at the point when the equity loan provider has approved an applicant's purchase in writing. Applicants are always advised not to incur any costs until they have received written confirmation from the equity loan provider stating that their chosen property is eligible, that funding has been reserved for them and confirming that the applicant can proceed with their purchase.

Applicants who have not received confirmation have been contacted by MyChoice HomeBuy providers informing them that funding has been fully committed and that the scheme is now closed.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many homes for *(a)* intermediate low cost ownership and *(b)* social rent he expects to be (i) started and (ii) completed in each local authority area in each of the next three years. [288491]

John Healey: We do not make future estimates of the number of intermediate affordable homes and social rented homes started and completed by local authority area.

Improvement and Development Agency: Finance

Mr. Drew: To ask the Secretary of State for Communities and Local Government how much direct funding his Department has allocated to the Improvement and Development Agency in each year since 2000. [286576]

Ms Rosie Winterton: The Improvement and Development Agency receives revenue support grant (RSG) funding from my Department to provide core services for local government improvement. We give additional money for specific projects from CLG allocations. Since 2000 they will have received the following amounts

	Improvement and Development Agency funding allocated (£)
2009-10	32,670,000
2008-09	28,730,000
2007-08	30,688,000
2006-07	36,924,000
2005-06	38,549,978
2004-05	21,097,000
2003-04	20,563,000

	Improvement and Development Agency funding allocated (£)
2002-03	14,212,000
2001-02	17,041,000
2000-01	14,939,000

Knowledge Network Project

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough of 11 May 2009, *Official Report*, column 538W, on the Knowledge Network project, if he will place in the Library a copy of the guidance provided for staff in his Department on using the Knowledge Network. [284765]

Mr. Malik: Communities and Local Government has no specific guidance relating to staff using the Knowledge Network.

Local Democratic Renewal Programme

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what plans he has for implementation of the policies outlined in the Local Democratic Renewal Programme; and if he will make a statement. [286613]

Ms Rosie Winterton: Government are preparing to consult shortly on a range of issues around local democratic renewal. A number of questions around future policy will be posed in that consultation, and we will take forward ideas in the light of comments received.

Local Government Finance

Mr. Drew: To ask the Secretary of State for Communities and Local Government whether his Department is taking steps to reform the parish cheque payment system operating in local authorities. [286580]

Ms Rosie Winterton: The reform of the parish cheque payment system is the subject of continuing discussions with the National Association of Local Councils and other interested parties. Once these discussions are concluded it is our policy to look for an appropriate legislative vehicle to replace the relevant legislative provisions.

Mr. Drew: To ask the Secretary of State for Communities and Local Government whether his Department is taking steps to protect local authorities against vexatious objections to the local authorities auditing system. [286581]

Ms Rosie Winterton: The Code of Audit practice makes it clear that auditors should reject objections that disclose no reasonable cause for action, are frivolous or vexatious objections to the local council auditing system.

Justine Greening: To ask the Secretary of State for Communities and Local Government (1) which *(a)* specific and *(b)* area-based grants are distributed to local authorities by each division of his Department; [285043]

(2) what recent estimate has been made of the annual cost to *(a)* his Department of distributing each grant made by it to local authorities and *(b)* local authorities of administering each such grant. [285044]

Ms Rosie Winterton: The Government believe in giving local authorities greater flexibility to take decisions on local priorities. The introduction of the area based grant has reduced ring-fencing, giving councils increased flexibility to manage their budgets. Alongside this, the new local performance framework has provided a simplified and more effective structure for priority setting and performance measurement.

The following specific grants are being paid by this Department direct to local authorities in 2009-10:

Cornish Language 2009

Housing Option Grant 2009-10

Minor Repairs and Adaptations "Handyperson" Grant 2009-10

Overcrowding Grant 2009-10

Supporting Local Delivery Grant for Local Improvement Adviser Support 2009

Planning Sector-Led Support 2009-10

Homelessness Revenue Grant 2009-10

Fire and Rescue Authorities Capital Funding 2009-10

Olympic Park Grant 2009-10

Growth Fund 2009-10

Olympic Security Funding—Dorset Fire and Rescue 2009-10

Olympic Security Funding—LFEPA 2009-10

Timely Information to Citizens 2009-10

FiReControl Implementation Funding 2009-10

Preventing Repossession Revenue Grant 2009-10

Minor Repairs and Adaptations "Enhanced Services" Grant 2009-10

Capacity Building and Efficiency Grant for Regional Improvement and Efficiency Partnerships 2009

Fire and Rescue Authorities Capital Funding (Diversity Recruitment Target Commitment) 2009-10

Empty Shops Funding 2009-10

Local Public Service Agreements Performance Reward Grant 2009-10

Supporting Worklessness Delivery Grant for Regional Efficiency and Improvement Partnerships 2009-10

Business Rates Deferral Scheme 2009-10

Community Infrastructure Fund 2009-10

Fund to Manage Transitional Impacts of Migration (No 2) 2009-10

Local Authority Business Growth Incentives

Local Enterprise Growth Initiative (capital element)

Warden Resource Centre Grant

Coastal Communities Regeneration Handbook

Housing and Planning Delivery Grant

Supporting People Programme Grant

Disabled Facilities Grant

Rent Officers Pension Liabilities

New Dimension Grant.

Area based grant is paid by Communities and Local Government on behalf of the Government as a whole, in monthly instalments. Funding streams from this Department which are being paid through area based grant in 2009-10 are:

Community Cohesion

Local Enterprise Growth Initiative (resource element)

Stronger Safer Communities
Supporting People Administration
Working Neighbourhood Fund
Preventing Violent Extremism
Climate Change.

The Department does not routinely estimate the costs of distributing grant each year, although it does consider the cost-effectiveness of proposals as part of the policy development process. It also assesses whether there will be any new burdens on local authoritjes, and ensures that these are fully funded when a policy is implemented.

Local Government Services

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government on what methodology his Department's *(a)* Total Place and *(b)* Place Shaping approach to local service delivery was based. [286522]

Ms Rosie Winterton: The Total Place project is based on a refinement of the methodology developed by the Leadership Centre for Local Government. The idea emerged from an in depth analysis of the leadership of places run by the leadership centre in February 2007.

Our planned approach to local service delivery was set out in the 2006 Local Government White Paper "Strong and Prosperous Communities", which was in turn informed by the work of the Lyons Inquiry into the future role, function and funding of local government. The improved delivery of services through local strategic partnerships and local area agreements has been further developed by provisions within the Local Government and Public involvement in Health Act 2007, and its success is being measured both through the new comprehensive area assessment and through evidence including the Citizenship Survey and Place Survey.

Local Government: Procurement

David Taylor: To ask the Secretary of State for Communities and Local Government what guidance his Department provides to local authorities on the procurement of halal meat; and whether that guidance differentiates between stunned and pre-stunned meat. [287725]

Ms Rosie Winterton: The Department for Communities and Local Government has not issued any guidance to local authorities on the procurement of Halal meat. However, the Food Quality Standards, published by the Office of Government Commerce (OGC) in November 2008, offers guidance to public authorities on purchasing Halal food. The standards can be accessed using the following link:

http://www.ogc.gov.uk/food_food_quality_standards.asp

Mortgages

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what assessment has been made of the effects of the level of availability of high loan-to-value mortgages on the ability of first-time buyers to obtain mortgages. [288099]

John Healey: Communities and Local Government is working closely with Her Majesty's Treasury and the Financial Services Authority to support sustainable mortgage lending to first time buyers.

The current median average loan-to-value percentage secured by first-time buyers is 75 per cent., down from 90 per cent. in December 2007. However, the Government have substantially increased investment in low cost home ownership products; such as HomeBuy Direct which provides a 30 per cent. equity loan that can be used as a deposit.

Mortgages: Government Assistance

Sandra Gidley: To ask the Secretary of State for Communities and Local Government (1) how much money has been allocated to the *(a)* Mortgage Rescue and *(b)* Homeowners Mortgage Support scheme for expenditure in (i) Test Valley borough and (ii) Southampton; and whether his Department has placed a limit on the number of households which may be assisted under each such scheme; [286320]

(2) how many households in *(a)* Test Valley borough and *(b)* Southampton have received assistance under the (i) Mortgage Rescue and (ii) Homeowners Mortgage Support scheme to date. [286321]

John Healey: The £285 million Government Mortgage Rescue Scheme has been operational across the country since 1 January 2009. The Government do not allocate money directly to local authorities under the scheme. It is a demand-led scheme, with the number of vulnerable households benefiting [illegible] local authority dependent on numbers of eligible [illegible]ants approaching their local authority for assistance.

As part of the monitoring arrangements for the scheme, headline data for January to May 2009, provided by local authorities and broken down by Government office region, are available on the Department's website

http://www.communities.gov.uk/publications/corporate/statistics/mortgagerescuestatistics

Figures reported by local authorities from January to May 2009 are provided in a table, which has been placed in the Library.

The Homeowners Mortgage Support scheme provides enhanced support for homeowners who have fallen on difficult times by enabling them to reduce their mortgage interest payments to affordable levels. The Government do not allocate money directly to households under the scheme. There is no target or limit to the number of households who may be assisted under the scheme in any particular region or area. Official figures on numbers of households entering HMS will be published later this year.

Mr. McLoughlin: To ask the Secretary of State for Communities and Local Government what estimate he has made of the number of people who will be assisted by the Homeowners Mortgage Support Scheme in *(a)* West Derbyshire and *(b)* the UK in the next 12 months. [286408]

John Healey: I refer the hon. Member to the answer I gave to the hon. Member for Tamworth (Mr. Jenkins) on 24 June 2009, *Official Report*, column 961W.

Non-domestic Rates

Robert Neill: To ask the Secretary of State for Communities and Local Government if he will establish a cross-Government review on the effect of the new regime of retrospective business rates on *(a)* businesses and *(b)* cross-border trade. [286681]

Ms Rosie Winterton: There will be no cross-Government review, as the business rates legislation concerning when a business becomes liable to pay rates has not changed.

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough of 13 March 2009, *Official Report*, column 768W, on non-domestic rates: small businesses, what timetable his Department has set for the publication of data on the take-up rate of small business rate relief. [286814]

Ms Rosie Winterton: No timetable for this work has yet been set. We are currently examining data reported by local authorities on the annual national non-domestic rate return to assess their quality before making a decision on whether they are suitable for publication.

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Meriden of 24 April 2009, *Official Report*, column 921W, on non-domestic rates: small businesses, what the maximum cash value of small business rate relief, including the value of the lower small business multiplier to a firm in *(a)* London and *(b)* outside London is in (i) 2008-09 and (ii) 2009-10. [279885]

Ms Rosie Winterton: Eligible businesses which have been granted small business rate relief have their rates calculated using the small business rates multiplier, and those under £10,000 in rateable value also receive a discount. The maximum value of the small business rate relief will apply to properties of £5,000 rateable value, as properties up to that value receive the maximum 50 per cent. discount.

The maximum cash value of small business rate relief that could be granted to a firm both inside and outside of London (excluding the City of London) was £1,165 in 2008-09 and £1,222.50 in 2009-10.

The City of London authority is allowed to add an additional supplement onto the rates multiplier of 0.4p in the pound. This means the maximum cash value of small business rate relief that could be granted to a firm in the City of London was £1,175 in 2008-09 and £1,232.50 in 2009-10.

This does not take into account any deferral of the rate increase for 2009-10.

Non-domestic Rates: Ports

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 24 June 2009, *Official Report*, column 962W, on non-domestic rates: ports, if he will place in the Library a copy of the items of correspondence. [286686]

Ms Rosie Winterton: No. It would be inappropriate for Ministers to release correspondence they receive from hon. Members and their constituents without their authority.

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 8 July 2009, *Official Report*, columns 912-13W, on non-domestic rates: ports, what guidance his Department provided to the Valuation Office Agency on the 2005 revaluation. [287107]

Ms Rosie Winterton: The assessment of rateable value and the maintenance of rating lists is the responsibility of the Valuation Office Agency and not this Department. We do not provide guidance to the Valuation Office Agency on professional valuation issues.

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 8 July 2009, *Official Report*, column 912W, on non-domestic rates: ports, (1) for what reasons the Valuation Office Agency did not initiate its review of all major ports in 2005; how many properties identified by the review as separately rateable had not been assessed; for what reasons those properties were not separately listed in 2005; and when and how the owners of such properties were notified of the findings of the review in respect of their properties; [287111]

(2) how many separate assessments on port businesses were undertaken by the Valuation Office Agency in 2005; whether such assessments were listed in respect of how many other businesses it was established that a separate assessment should be made; when such assessments were *(a)* made and *(b)* listed; and how many businesses which were separately assessed in (i) 2005 and (ii) 2006 consequent on the review of all major ports were reassessed in (A) 2007, (B) 2008 and (C) 2009; [287112]

(3) how many port businesses have been subject to separate assessments; and how many of those businesses were reassessed in *(a)* 2007, *(b)* 2008 and *(c)* 2009. [287165]

Ms Rosie Winterton: The original assessments in the 2005 rating list were produced in good faith on the basis of the information held by the Valuation Office Agency (VOA). The VOA did not undertake a review of occupations within ports at this time because it had not identified evidence that such a review was required.

Once evidence that additional properties within ports should be separately assessed came to the Agency's attention, it had a statutory duty to carry out such assessments and enter them onto the rating list.

Over 1,600 properties within the 45 ports in England were separately assessed immediately prior to the completion of the review of each port. After review, some of those properties were no longer separately listed or had their list entry altered.

A total of 748 additional properties were separately assessed for the first time with an effective date of 1 April 2005 as a result of the Agency's review of ports, of which 28 are no longer separately listed. As at 8 July 2009 the number of properties within ports that are separately assessed was 2,207, a net increase of around 600 compared with the position immediately prior to the review of each port.

The Agency notified the occupiers of these properties of the findings of the review as and when each review was completed. The exact date and method of notification varies from port to port and occupier to occupier.

Information on the date that each separate assessment was made and information on the number of separate assessments within ports that have been re-assessed in each of the years 2007, 2008 and 2009 could be obtained only at disproportionate cost.

Privacy: Impact Assessments

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what his Department's policy is on performing privacy impact assessments to accompany new regulations or legislation. [284917]

Mr. Malik: It is the Department's policy to follow the Information Commissioner's guidance on when a privacy impact assessment is required and how it should be carried out.

Regional Government: Operating Costs

Sammy Wilson: To ask the Secretary of State for Communities and Local Government what the running costs were of each regional Government Office in the last year for which figures are available. [287018]

Ms Rosie Winterton: I refer the hon. Member to the answer I gave to the hon. Member for Putney (Justine Greening) on 12 June 2009, *Official Report*, columns 1062-64W.

Regional Planning and Development

Mr. Drew: To ask the Secretary of State for Communities and Local Government how much funding his Department has allocated through regional efficiency and improvement partnerships in the last three years. [286577]

Ms Rosie Winterton: The Regional Improvement and Efficiency Partnerships were set up in April 2008 and receive core funding from my Department. My Department has provided £50 million core funding for Regional Improvement and Efficiency Partnerships since their inception in April 2008, and is committed to providing a further £135 million core funding over the remaining CSR07 period, including the £68 million investment I confirmed on 15 July 2009 for this year (2009-10). We also provide additional money for specific projects. Funding provided is as follows:

£

	Revenue funding	*Capital funding*
2008-09	74,922,000	26,412,000
2009-10	54,000,000	13,500,000
Total	128,922,000	39,912,000

Mr. Drew: To ask the Secretary of State for Communities and Local Government what financial support his Department has provided to local authorities and their representative bodies through *(a)* regional efficiency and improvement partnerships and *(b)* regional empowerment partnerships in the last three years. [286579]

Ms Rosie Winterton: The Regional Improvement and Efficiency Partnerships were set up in April 2008 and receive core funding from my Department. My Department has provided £50 million core funding for Regional Improvement and Efficiency Partnerships since their inception in April 2008, and is committed to providing a further £135 million core funding over the remaining Comprehensive Spending Review 07 period, including the £68 million investment I confirmed on 15 July 2009 for this year (2009-10). We also provide additional money for specific projects.

It would not be possible to disaggregate how much the RIEPs support individual local councils and their representatives bodies.

This Department has also provided funding, via the Community Development Foundation, to the Regional Empowerment Partnerships (REPs), to support local government of all types to help improve their empowerment and engagement practice. It would not be possible to disaggregate how much the REPs support different types of councils.

Regional Planning and Development: West Midlands

Robert Neill: To ask the Secretary of State for Communities and Local Government at what phase of the West Midlands Regional Spatial Strategy review an assessment of ecotown applications will be made. [288327]

Mr. Malik: The Examination in Public into the West Midlands Regional Spatial Strategy took place between 28 April and 24 June 2009. The Examination considered what role in principle eco-towns or new settlement proposals might have in providing for housing development in the region.

The Panel Report is anticipated in September. Following this the Secretary of State aims to publish Proposed Changes to the Regional Spatial Strategy before the end of the year.

Rented Housing: Carbon Emissions

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what progress has been made towards the target for all new *(a)* private sector and *(b)* social rented housing to be zero carbon by 2016. [286524]

John Healey: The Government announced in July 2007 that all new homes will be zero carbon from 2016. Following a consultation paper released last December, I made a written ministerial statement to the House announcing further decisions on the definition of zero carbon homes on 16 July 2009 *Official Report*, columns 43-44WS. A summary of consultation responses and updated impact assessment were published on the same day see:

www.communities.gov.uk/planningandbuilding/theenvironment/zerocarbonhomes/

Government continue to support the transition to low and zero carbon homes in a number of ways:

in my 16 July 2009 statement, I announced the first four pioneering locations for eco-towns in England and the publication of the planning policy statement on eco-towns. Eco-towns will demonstrate the highest levels of sustainability and will be zero carbon across all the town's buildings;

the Technology Strategy Board is working with partners to enable it to harness the market for environmentally sustainable buildings, since 2004 investing £46 million in this area. Under its Low Impact Buildings Innovation Platform a further total of £50 million is now earmarked for allocation to research relevant to new build by 2011. This includes over £30 million of capability building work to be awarded over the next two years and up to £8.5 million in new build demonstration programmes;

the Government's Code for Sustainable Homes (the Code) provides a single national standard to guide industry in the design and construction of sustainable new homes. Recently, post-construction certificates were issued for the first homes built to Code level 6 (zero carbon achieved on-site or via private wire);

the Homes and Communities Agency (HCA) Carbon Challenge programme aims to accelerate the home building industry's response to climate change by building homes that reach Code level 6. Four new communities are planned which will together provide around 1,700 zero carbon and highly sustainable homes. Work on the first site at Hanham Hall, near Bristol, is expected to start in late 2009;

Budget 2009 announced a £400 million Kickstart Housing Delivery programme targeted at currently stalled sites, to support construction of high quality mixed tenure housing developments. This amount was subsequently increased under the Housing Pledge as part of Building Britain's Future last month. Homes built to higher levels of the Code are encouraged under this programme;

my Department is providing funding support to the Zero Carbon Hub, the industry-led delivery body for zero carbon homes. The Hub reports to the 2016 Task Force, which I jointly chair with the Executive Chairman of the Home Builders Federation and which provides strategic oversight of our zero carbon homes policy;

stamp duty land tax exemption or reduction is available for the first acquisition of a zero carbon home.

In relation to social housing:

social housing funded under the National Affordable Housing Programme is required to meet level 3 of the Code. The HCA is reviewing the timetable for requiring housing funded under this programme to be built to higher levels of the Code;

Budget 2009 announced £100 million of new funding for local authorities to deliver new social housing at higher energy efficiency standards. This funding has been increased under the Housing Pledge to enable up a four-fold increase in new social homes to be built by local authorities.

Social Rented Housing: Essex

Bob Spink: To ask the Secretary of State for Communities and Local Government what proportion of *(a)* local authority and *(b)* housing association homes in (i) Essex and (ii) Castle Point met the decent homes standard in each of the last five years. [285481]

Mr. Ian Austin: The following table outlines the proportion of *(a)* local authority and *(b)* housing association homes in (i) Essex and (ii) Castle Point that failed to meet the decent homes standard in each of the last five years.

Proportion of dwellings that are non-decent

Percentage

	Local authority					*Registered social landlords*				
	2004	*2005*	*2006*	*2007*	*2008*	*2004*	*2005*	*2006*	*2007*	*2008*
Castle point	14.4	11.8	16.0	11.5	10.6	n/a	11.3	7.1	7.9	10.3
Essex	33.7	32.7	30.9	26.9	18.9	n/a	7.6	7.3	5.7	19.5

Source:
Annual returns, from all LAs that retain social housing stock, to Communities and Local Government and annual return from Registered Social Landlords.

Social Rented Housing: Standards

Sarah Teather: To ask the Secretary of State for Communities and Local Government how many social homes in each region have not reached the Decent Homes standard; and what estimate he has made of the cost to the public purse of bringing such homes up to the standard. [283831]

Mr. Ian Austin: The following table provides the information requested:

Number of social sector non-decent dwellings as 1 March 2008

	Non-decent dwellings	*Total stock*	*Percentage non-decent*
North East	72,000	274,000	26
North West	94,000	576,000	16
Yorkshire and the Humber	104,000	424,000	24
East Midlands	53,000	305,000	17
West Midlands	62,000	424,000	15
East of England	54,000	387,000	14
London	175,000	786,000	22
South East	58,000	483,000	12
South West	41,000	306,000	13
England	714,000	3,965,000	18

Source:
Annual returns, from all LAs that retain social housing stock, to Communities and Local Government and annual return from registered social landlords.

Landlord statistical returns show that the 18 per cent. of the social housing stock is non-decent compared to 38 per cent. in 2002.

The cost per house of meeting the decent homes standard varies across the country and the Department does not collect that information. Some landlords are refurbishing the houses in their area above the decent homes standard. Any higher local standard, and how that is to be achieved, will be determined by local circumstances and the level of resources that can be delivered into the programme locally. The Government expect over £40 billion to have been spent on refurbishing council houses by 2010.

Temporary Accommodation

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many *(a)* disabled and *(b)* elderly people were in temporary accommodation in each year since 1997. [288493]

John Healey: The information requested is not held centrally.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many *(a)* dependent children, *(b)* expectant mothers and *(c)* children aged (i) 16 and (ii) 17 years were in temporary accommodation in each year since 1997. [288494]

John Healey: Information is not collected or available in the form requested.

WORK AND PENSIONS

Atos

Greg Mulholland: To ask the Secretary of State for Work and Pensions what proportion of people who undertook a health test administered by Atos on behalf of her Department were scored at zero out of 15 in the latest period for which figures are available. [283983]

Jim Knight *[holding answer 3 July 2009]:* The information is not held centrally and could be made available only at disproportionate cost. Decisions about the total points applicable from a work capability assessment or a personal capability assessment are made by Jobcentre Plus decision-makers in each case, taking account of the available evidence, including any evidence provided by the claimant in a work capability assessment questionnaire, a personal capability assessment questionnaire, the claimant's general practitioner, and advice provided to Jobcentre Plus by the Atos health care professional. Although the decision-maker records the points scored in each individual case, there is no central record of how many people score zero points.

Attendance Allowance

Miss McIntosh: To ask the Secretary of State for Work and Pensions what percentage of total expenditure on benefits payments attendance allowance accounted for in *(a)* 1980, *(b)* 1997, *(c)* 2001, *(d)* 2005 and *(e)* 2008. [287417]

Jonathan Shaw: The information is in the following table.

Percentage of DWP total benefit expenditure accounted for by attendance allowance

	Percentage
1980-81	1.3
1997-98	3.0
2001-02	3.1
2005-06	3.3
2008-09 estimated out-turn	3.4

Note:
DWP total benefit expenditure excludes benefits that are no longer within the remit of DWP. Child benefit and war pensions have been excluded.
Source:
DWP accounting data

Children: Maintenance

Mr. Sanders: To ask the Secretary of State for Work and Pensions what mechanism is in place for the recovery of child maintenance payments from British national absent parents who are resident overseas. [281844]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Maintenance and Enforcement Commission, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner. The Child Support Agency is now the responsibility of the Child Maintenance Enforcement Commission.

You asked the Secretary of State for Work and Pensions, what mechanism is in place for the recovery of child maintenance payments from British national absent parents who are resident overseas. [281844]

The Child Maintenance and Enforcement Commission retains the power to pursue a non-resident parent who moves overseas, but only where the non-resident is regarded as being habitually resident in the UK. The criteria for establishing jurisdiction when a non-resident parent leaves the United Kingdom is described at Section 44 of the Child Support Act. There is no distinction made between an EU state and a non-EU state.

There are certain cases where the nature of employment will bring the non-resident parent under the jurisdiction of the Commission, for example those employed in the Civil Service or a member of the naval, military or air forces. The Commission may also have jurisdiction where a non-resident parent is employed by a company that is prescribed in Child Support (Maintenance Arrangement and Jurisdiction Regulations) 1992, Regulation 7A(2).

The Ministry of Justice, however operates a system for administering international child and spousal maintenance cases where the non-resident parent can not be treated as habitually resident in the UK; this is known as the Reciprocal Enforcement of Maintenance Orders (REMO).

Where a parent with care applies to their local magistrates' court or family proceedings court, details of the maintenance liability can be referred to the foreign jurisdiction - where the non-resident parent now resides - whom will be able to apply their domestic collection and enforcement mechanisms in order to recover the amount due. They will then refer this money back to the UK REMO administrators.

The UK has reciprocal maintenance agreements with over 100 states and territories.

I hope you find this answer helpful.

Mr. Chaytor: To ask the Secretary of State for Work and Pensions how many parents making payments to the Child Support Agency have their full liability reduced because they have responsibility for the care of their child for more than one night per week. [283211]

Helen Goodman *[holding answer 8 July 2009]:* The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, how many parents making payments to the Child Support Agency have their full liability reduced because they have responsibility for the care of their child for more than one night per week. [283211]

The Agency estimates that at the end of March 2009, there were around 180,000 cases across both schemes where the maintenance liability has been reduced to take into account a shared care arrangement between the non resident parent and parent with care.

It should be noted that the current statutory maintenance scheme defines a shared care arrangement as one where a qualifying child spends at least 52 nights per year with the non-resident parent. However the original statutory maintenance scheme defined a shared care arrangement as one where the qualifying child spends two days or more per week with the non resident parent. The figure quoted above is based on these definitions.

I hope you find this answer helpful.

Damian McBride

Mr. Maude: To ask the Secretary of State for Work and Pensions on what date she last met Mr. Damian McBride in the course of her official duties. [287419]

Yvette Cooper: I can confirm that I have not met with Mr. Damian McBride in the course of my ministerial duties.

Departmental Databases

Mr. Watson: To ask the Secretary of State for Work and Pensions what information databases her Department *(a)* maintain and *(b)* uses which do not contain personal information. [284383]

Jim Knight: The Department maintains a variety of large and small databases in order to process benefits, run the Department and deliver the range of services for which the Department is responsible. Those that contain personal information include: operational systems such as our Customer Information System; databases for research purposes; databases that contain staff-related resource management information and others that relate to the administration of specific benefits. Where personal information is stored and processed on such databases these comply with the requirements of the Data Protection Act.

Departmental Electronic Equipment

Jenny Willott: To ask the Secretary of State for Work and Pensions how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in her Department; how many there were in each of the last three years; and if she will make a statement. [286162]

Jim Knight: The Department had 5,243 photocopiers in April 2007; 4,952 in April 2008 and 4,294 in April 2009. 181 scanners and 1,377 fax machines have been ordered through the DWP IT catalogue since July and November 2007 respectively. Information on other orders and the total numbers in the Department are not available.

The Department is currently undertaking a project to rationalise the Department's printers and photocopiers and introduce where ever possible multi-functional devises with the capability to print, copy, fax and scan. This initiative will lower the total cost of printing and copying in the Department, reduce our carbon footprint and provide better support for our staff.

Departmental Risk Assessment

Mr. Rooney: To ask the Secretary of State for Work and Pensions how many investigations her Department's Risk Assessment Division carried out with external programme providers in each of the last five years; and how many resulted in *(a)* prosecution, *(b)* an administrative financial penalty, *(c)* other further action and *(d)* no further action. [285198]

Jim Knight *[holding answer 9 July 2009]:* Data in the format requested are only available from 2006-07.

The figures are shown in the following table:

	1 April 2006 to 31 March 2007	*1 April 2007 to 31 March 2008*	*1 April 2008 to 31 March 2009*	*1 April 2009 to present*
Number of investigations	26	34	15[1]	2[1]
Prosecutions	0	0	0	0
Other further action	13	14	4	0
No further action	13	20	6	0

[1] Five investigations in 2008-09 and two investigations in the current year to date are continuing and no conclusion has been reached.

All DWP contracts contain robust clauses that allow us to terminate or seek damages for breach. 'Administrative financial penalties' are not included in DWP contracts because penalty clauses, as such, are unenforceable through the courts. Contracts will be terminated where the breach of the contract terms is sufficiently serious.

Departmental Secondment

Sarah Teather: To ask the Secretary of State for Work and Pensions how many employees of her Department have been posted to work in offices of hon. Members of each political party in each of the last five years. [284883]

Jim Knight: Civil servants may shadow MPs as part of a programme run by the industry and Parliament Trust. Details on numbers of civil servants from this Department that have had such an attachment is not held centrally.

Civil servants are required to act in accordance with the requirements of the Civil Service Code.

Drugs: Rehabilitation

Mike Wood: To ask the Secretary of State for Work and Pensions (1) how many people in each region were referred from Jobcentre Plus to Progress2Work in 2008-09; [284992]

(2) how many people in each region were referred from Jobcentre Plus to Progress2Work-LinkUP in 2008-09. [284993]

Jim Knight *[holding answer 8 July 2009]:* The available information is in the table.

Customers in each region who started on the progress2work and progress2work-Link UP following a referral by Jobcentre Plus, in the 2008-09 operational year

Region	Starts onto progress2work	Number Starts onto progress2work-Link UP
East Midlands	100	180
East of England	0	200
London	280	80
North East	100	40
North West	480	640
Scotland	540	540
South East	100	160
South West	140	40
Wales	100	60
West Midlands	280	240
Yorkshire and Humberside	240	420
Total	2,360	2,820

Notes: 1. Figures have been rounded to the nearest 20. 2. Although the question has asked how many were referred by Jobcentre Plus in 2008-09 we can only say of those who started in 2008-09 how many were referred by Jobcentre Plus offices. *Source:* Department for Work and Pensions progress2work/Link Up Evaluation Database.

Employment Schemes

Mr. Harper: To ask the Secretary of State for Work and Pensions how many and what proportion of *(a)* lone parents, *(b)* incapacity benefit claimants and *(c)* jobseeker's allowance claimants she estimates will be covered by the single personalised employment programme pilot scheme. [282685]

Jim Knight *[holding answer 29 June 2009]:* On 16 June 2009 we announced that we would pilot the Personalised Employment Programme in three Jobcentre Plus Districts: the London boroughs of Barnet, Enfield and Haringey, Hampshire and the Isle of Wight district and Thames Valley district

These pilot areas will cover around 6 per cent. of benefit claimants across the eligible customer groups.

Mr. Harper: To ask the Secretary of State for Work and Pensions what changes have been made to the single personalised employment programme pilot scheme since it was first announced; and when it is expected to commence. [282684]

Jim Knight *[holding answer 29 June 2009]:* In January 2009 the Department for Work and Pensions published a discussion paper on the next steps in implementing the Gregg Review. In this document the Government announced that the pilots would include parents with younger children in addition to jobseekers and those with health conditions or disabilities. The programme was also renamed and it is now known as the Personalised Employment Programme.

Changes to the programme have not altered the roll-out date for the pilots, which are expected to commence in March 2011.

Mrs. May: To ask the Secretary of State for Work and Pensions (1) what the budget for *(a)* the Future Jobs Fund, *(b)* support to take an existing job in a key employment sector, *(c)* work-focused training places and *(d)* places on a community task force component of the Young Person's Guarantee is for (i) 2009-10, (ii) 2010-11 and (iii) 2011-12; [283577]

(2) what funding her Department has allocated for the delivery of *(a)* the Community Task Force and *(b)* additional training places provided under the Young Persons' Guarantee in (i) 2009-10, (ii) 2010-11 and (iii) 2011-12; [286755]

(3) who in her Department is responsible for the delivery of the Community Task Force under the Young Person's Guarantee. [286756]

Jim Knight: The total funding for Young Person's Guarantee, which includes Future Jobs Fund, the Community Task Force, Sectoral Pathways and additional training, is £250 million for 2009-10 and £838 million for 2010-11. In addition, there is £20 million to support delivery through Jobcentre Plus. There is no funding allocated for 2011-12.

The Community Task Force will be delivered by contracted providers. The procurement process is being led by the Department.

Mrs. May: To ask the Secretary of State for Work and Pensions for how long the Government's Young Person's Guarantee will be offered; and what steps the Government plans to take to fulfil the Guarantee after the closure of the Future Jobs Fund in March 2011. [283579]

Jim Knight: The Young Person's Guarantee and Future Jobs Fund will last from April 2009 to March 2011. Those who join the offer on the last date will continue until their placement ends.

Mrs. May: To ask the Secretary of State for Work and Pensions what mechanism there is for provision of the community task force under the Young Person's Guarantee; who will provide task force places; for how long on average a participant will be on the task force; how much Government funding has been allocated for provision of the task force; what incentives providers will receive to secure job entries; and whether young people participating in the community task force will receive a training allowance in place of jobseeker's allowance. [283611]

Jim Knight: The Budget announced a Young Person's Guarantee; a guaranteed offer of a job, work experience placement or training for all jobseeker's allowance customers approaching 12 months of their claim.

The Community Task Force is the work experience element of the Young Person's Guarantee. It will offer work-focused placements of benefit to the community, designed to move customers closer to the labour market.

When the Young Person's Guarantee is introduced in January 2010, the Community Task Force will be offered on a voluntary basis to all customers not taking up another element of the guarantee. It is expected to become mandatory for all customers who do not take up another element from spring 2010. Placements will last up to six months while the scheme is voluntary, and three months when it becomes mandatory, with the option in the latter case for young people to stay on for a further three months on a voluntary basis.

The Department for Work and Pensions will be contracting with external providers to provide these placements. The Community Task Force will use a standard funding model, comprising a service fee and outcome payment. The outcome payment will be paid to the provider when a customer finds sustained, paid employment.

Customers taking part in the Community Task Force will be paid a training allowance, rather than jobseeker's allowance. However, they will still be expected to be actively looking for work and to leave the programme if they find paid employment.

Funding for the Community Task Force is included in the Young Person's Guarantee funding and is not available as a separate figure. The budget for the Young Person's Guarantee is approximately £250 million for 2009-10 and £838 million for 2010-11.

Mrs. May: To ask the Secretary of State for Work and Pensions what mechanism there is for provision of work-focused training places under the Young Person's Guarantee; who will provide such places; for how long on average a participant will receive training; how much government funding has been allocated for such places; what incentives providers will receive to secure job entries; and whether young people participating in such training will receive a training allowance rather than jobseeker's allowance. [283612]

Jim Knight: A range of public and private sector training providers will deliver the training element of the Young Person's Guarantee. Learners can access the training through their Jobcentre Plus personal adviser or by going direct to a provider.

The length of training depends on the type of course that the participant enrols in. Shorter, sector specific training through Sector Routeways is designed to take up to eight weeks, providing more focused training for people closer to the labour market. Longer training from three to six months is designed for people who need a more significant and sustained boost to their skills.

The budget for this training is £122,400,000 in total from 2009-11. The funding model for this offer, which will detail any provider incentives and training allowances, has not yet been finalised.

Employment Support Allowance

Jenny Willott: To ask the Secretary of State for Work and Pensions how many and what proportion of those who started claiming employment support allowance have moved into work since it came into force; and if she will make a statement. [286482]

Jonathan Shaw: Information on the number and proportion of people who have left employment and support allowance to move into work is not available at present.

Employment and support allowance replaced incapacity benefit for new claims from 27 October 2008. The latest provisional headline figures available are for November 2008.

Financial Assistance Scheme

Steve Webb: To ask the Secretary of State for Work and Pensions how many people she estimates will receive pensions under her Department's Financial Assistance Scheme; and of these how many she expects to have rights to do so based *(a)* solely and *(b)* partly on pre-1997 service. [286416]

Angela Eagle *[holding answer 13 July 2009]:* We estimate that the Financial Assistance Scheme will provide assistance payments to 147,000 members.

Of these, it has been estimated that 66,000 members have pension rights based solely on pre-1997 service and 74,000 members have pension rights based partly on pre-1997 service. The remaining 7,000 have solely post 1997 service.

Foreign Workers

Mr. Clappison: To ask the Secretary of State for Work and Pensions what proportion of the increase in *(a)* people in employment and *(b)* people of working age in employment between the third quarter for 1997 and (i) the third quarter for 2008 and (ii) the most recent quarter for which figures are available was accounted for by non-UK citizens. [286461]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking what proportion of the increase in *(a)* people in employment and *(b)* people of working age in employment between the third quarter for 1997 and (i) the third quarter for 2008 and (ii) the most recent quarter for which figures are available was accounted for by non-UK citizens. (286461)

The information requested is shown in the attached tables. The estimates are derived from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

The figures in the table are derived from the LFS microdata which are weighted using the official population estimates published in autumn 2007. They are not entirely consistent with the figures published in the monthly Labour Market Statistics Statistical Bulletin, including the migrant worker figures published every quarter, which are weighted using more up-to-date population estimates.

Table 1: People aged 16 and over in employment by nationality: Three month period ending September 1997 and 2008; three month period ending March 2009—United Kingdom, not seasonally adjusted

		Number in employment (thousand)			Change since 1997 Q3 (thousand)			Change since 1997 Q3 as proportion of total change (%)		
		UK nationals	Non-UK nationals	Total[1]	UK nationals	Non-UK nationals	Total[1]	UK nationals	Non-UK nationals	Total[1]
1997	Q3	25,725	986	26,707	—	—	—	—	—	—
2008	Q3	27,207	2,329	29,535	1,482	1,337	2,825	52	47	100
2009	Q1	26,763	2,397	29,128	1,042	1,372	2,421	43	57	100

[1] Includes those whose nationality was not known.

Table 2: People of working age[1] in employment by nationality: Three month period ending September 1997 and 2008; three month period ending March 2009—United Kingdom, not seasonally adjusted

		Number in employment (thousand)			Change since 1997 Q3 (thousand)			Change since 1997 Q3 as proportion of total change (%)		
		UK nationals	Non-UK nationals	Total[2]	UK nationals	Non-UK nationals	Total[2]	UK nationals	Non-UK nationals	Total[2]
1997	Q3	24,928	964	25,893	—	—	—	—	—	—
2008	Q3	25,928	2,279	28,214	1,000	1,315	2,321	43	57	100
2009	Q1	25,454	2,313	27,775	526	1,348	1,882	28	72	100

[1] Men aged 16-64 and women aged 16-59.
[2] Includes those whose nationality was not known.
Source:
Labour Force Survey

It should be noted that the above estimates exclude people in most types of communal establishment (e.g. hotels, boarding houses, hostels mobile home sites etc.)

Future Jobs Fund

Mrs. May: To ask the Secretary of State for Work and Pensions how many jobs are proposed to be created by bids for the Future Jobs Fund in total. [283571]

Jim Knight: The Future Jobs Fund will create 150,000 new jobs, of which we will specifically target 50,000 in areas of high unemployment.

Tony Baldry: To ask the Secretary of State for Work and Pensions what the procedure will be for *(a)* individuals and *(b)* businesses to apply for funding from the Future Jobs Fund. [286631]

Jim Knight: The Future Jobs Fund is a fund of around £1 billion to support the creation of jobs for long-term unemployed young people and others who face significant disadvantage in the labour market.

Bids for funding can come from anyone, but we have a strong preference for partnership bids. We expect the majority of bids to the Future Jobs Fund to be led by local authorities, sub-regional, city region and local partnerships, or by national or local public sector and third sector bodies. We published the invitation to bid on 13 May, and had received over 200 bids by 30 June, which we are currently assessing. Up-to-date guidance on how to bid is available from the Future Jobs Fund website at:

www.dwp.gov.uk/futurejobsfund

We expect that in most cases eligible candidates will be referred to employers by Jobcentre Plus. In some cases individuals may self-present to the employer, or may be identified by them directly. In these situations, Jobcentre Plus will need to confirm an individual's eligibility. Future Jobs Fund employers will be encouraged to sign a local employment partnership with Jobcentre Plus.

Health and Safety Executive: Reorganisation

Mr. Dai Davies: To ask the Secretary of State for Work and Pensions how many copies of the consultation paper on proposed changes to the Nuclear Directorate of the Health and Safety Executive have been printed; what methods have been used to publicise the consultation; and what financial impact assessment of the proposed changes has been undertaken. [286862]

Jonathan Shaw: The joint Department for Work and Pensions (DWP)/Department of Energy and Climate Change (DECC) consultation on the restructuring of the Health and Safety Executive's (HSE) Nuclear Directorate was launched on 30 June 2009 and will run until 22 September 2009. A total of 170 copies of the consultation document have been printed. Copies of the document are available from Publications Orderline, Admail 528, London SW1W 8YT. It is also available electronically via the DECC website at:

http://www.decc.gov.uk/en/content/cms/consultations/hse_restruct/hse_restruct.aspx

A written ministerial statement announcing the launch of the consultation was made by the Parliamentary Under-Secretary of State for Energy and Climate Change on 30 June. The consultation was publicised through a press notice and on the DWP, DECC and HSE websites. Copies of the consultation document were sent electronically to around 2,200 contacts.

A partial impact assessment, which includes an assessment of the financial impact of the proposed restructuring, was published as part of the consultation document.

Health and Safety: Teachers

Bob Spink: To ask the Secretary of State for Work and Pensions how many non-fatal major injuries which were sustained in the workplace by *(a)* secondary, *(b)* primary and nursery and *(c)* special needs education teaching professionals resulted in legal proceedings in each of the last five years. [285727]

Jonathan Shaw: There are no prosecution cases recorded on the Health and safety Executive's database resulting from reported non-fatal major injuries to individuals in the teaching profession in the last five years.

Health Professions

Mrs. Moon: To ask the Secretary of State for Work and Pensions pursuant to the answer of 22 June 2009, *Official Report*, column 684W, on social security benefits: medical examinations, how many of the health care professionals against whom complaints were made under the heading claimants experiences were the subject of more than one complaint and how many health care professionals have been *(a)* disciplined and *(b)* dismissed. [283836]

Jim Knight: Further to the answer of 22 June 2009, there were 15 health care professionals against whom complaints were made under the heading claimants experiences were the subject of more than one complaint.

The number of health care professionals that have been *(a)* disciplined is nil and *(b)* dismissed is nil.

Incapacity Benefit

Mr. Harper: To ask the Secretary of State for Work and Pensions what estimate her Department has made of the average cost of re-assessment of an existing incapacity benefit claimant as part of the programme to migrate the current incapacity benefit population onto the employment and support allowance by 2013; and how much her Department plans to spend on assessing the existing incapacity benefit population in *(a)* 2009-10, *(b)* 2010-11, *(c)* 2011-12 and *(d)* 2012-13. [288519]

Jonathan Shaw: The average cost of a medical assessment for an incapacity benefits claimant is commercially sensitive and can not be provided.

Planned expenditure on medical assessments for existing incapacity benefits customers is detailed in the following table.

Medical assessment expenditure

	£ million
2009-10	20
2010-11	45
2011-12	35
2012-13	35

Notes:
1. Figures include the planned expenditure on reassessing incapacity benefits claimants under the Personal Capability Assessment and the additional funding to reassess incapacity benefits customers under the Work Capability Assessment.
2. Figures are rounded to the nearest £5 million.

Industrial Injuries

John Mann: To ask the Secretary of State for Work and Pensions if she will estimate the average weekly saving to the public purse of an individual delaying making a claim for industrial injury benefit for beat knee and osteoarthritis of the knee. [286875]

Jonathan Shaw: Osteoarthritis of the knee was added to the list of diseases covered by the industrial injuries scheme on 13 July 2009. The disease prescribed disease A6 (commonly known as 'Beat Knee') has been prescribed since 1958.

Any person who feels they may be eligible to claim for either disease should do so as soon as possible. Awards may be backdated up to three months. If a person makes a claim for osteoarthritis of the knee within three months of 13 July 2009, any award may be backdated to that date only, as no payment can be made for the period before the law changed.

John Mann: To ask the Secretary of State for Work and Pensions if she will make available expert advisers from her Department to inform the public of beat knee and osteoarthritis of the knee industrial injury claims at public meetings organised by hon. Members. [286877]

Jonathan Shaw: The communication strategy for osteoarthritis of the knee has been deliberately targeted at the most effective means of reaching the mining community. My officials have met with senior representatives of the National Union of Mineworkers (NUM), National Association of Colliery Overmen, Deputies and Shotfirers (NACODS), and the Union of Democratic Mineworkers (UDM) at their headquarters to explain what the changes mean for their members, and have contacted the miners' pension schemes to ensure all retired miners would be aware of the change. Press releases and posters containing contact details for advice on claiming have supported that strategy and its effectiveness has already been demonstrated by the numbers of claims already received. I am satisfied with our publicity arrangements, and do not plan to routinely make officials available to attend public meetings.

Prescribed Disease A6 (commonly known as Beat Knee) has been covered by the IIDB scheme since 1958. It is well known and we have no plans to further publicise this disease.

John Mann: To ask the Secretary of State for Work and Pensions what provision her Department is making with Atos Origin to allow local and cost-effective medical examinations for beat knee and osteoarthritis of the knee industrial injury claims. [286878]

Jonathan Shaw: Atos Origin IT Services Ltd. (Atos Healthcare) has Medical Examination Centres (MEC) across the country. All DWP customers claiming Industrial Injuries Disablement Benefit (IIDB) for beat knee and osteoarthritis of the knee will be asked to attend the MEC nearest to their home. In addition the DWP do not require customers to travel further than 90 minutes, each way, by public transport. Where there is no MEC within 90 minutes of a customer's home address, Atos Healthcare can make alternative arrangements.

Discussions are under way between the DWP and Atos Healthcare to secure the best value for money solution to deliver this new requirement.

John Mann: To ask the Secretary of State for Work and Pensions how many industrial injury claims for beat knee and osteoarthritis of the knee were submitted in advance of the July start date for compensation payments. [286879]

Jonathan Shaw: 4,834 claims for osteoarthritis of the knee were received before the law came into force on 13 July 2009 to include this disease in the industrial injuries scheme.

Prescribed Disease A6, commonly known as 'Beat Knee', has been on the list of diseases covered by the scheme since 1958. There were 880 new claims for Prescribed Disease A6 received during the period October 2007 to September 2008. This is the latest full year validated figures held for that disease.

Source:
Clerical Count 100 per cent. data

John Mann: To ask the Secretary of State for Work and Pensions what guidance her Department has issued to claimants of industrial injury benefit for beat knee or osteoarthritis of the knee on charges levied by claims handlers. [286880]

Jonathan Shaw: Osteoarthritis of the knee was added to the industrial injuries disablement benefit scheme on 13 July 2009. We have made it clear in our publicity that customers do not need to involve solicitors and they should contact Jobcentre Plus industrial injury disablement benefit offices direct for advice about claiming.

Prescribed Disease A6 (commonly known as Beat Knee) has been covered by the industrial injury disablement benefit scheme since 1958. The Jobcentre Plus leaflet covering industrial injury disablement benefit advises individuals to contact their local Jobcentre Plus industrial injury disablement benefit regional centre if they require more information or want to make a claim.

John Mann: To ask the Secretary of State for Work and Pensions how many advertisements her Department has placed to explain industrial injury benefit claims for beat knee and osteoarthritis of the knee in the last 12 months. [286681]

Jonathan Shaw: We have not placed any paid-for advertisements in the last 12 months. We have, however, produced 500 posters to publicise the new entitlement to industrial injuries disablement benefit for miners with osteoarthritis of the knee. These have been distributed to MPs in their constituencies, and the major miners' unions to distribute through their networks (including National Association of Colliery Overmen, Deputies and Shotfirers [NACODS], Union of Democratic Mineworkers [UDM], and National Union of Mineworkers [NUM]).

In addition, we have sent articles to pension trustees of the above unions to include in their newsletters and other communications. We have also placed an article in September's edition of Touchbase, the Department for Work and Pension's newsletter for its advisers.

We have worked with national and local media outlets to explain the change and achieved free coverage in the *Daily Mirror*, on the BBC news website, and throughout the country, particularly in mining and former mining communities, including the *Newcastle Journal, Northern Echo, Hartlepool Mail, Sunderland Echo, Wigan Observer, Warwickshire Telegraph, Coventry Telegraph, Nuneaton News, Staffordshire Newsletter and the Sheffield Star*.

The Under-Secretary of State for Work and Pensions, my hon. Friend the Member for Burnley (Kitty Ussher), visited the National Coal Mining Museum in Wakefield, along with representatives from NUM and NACODS. The visit was covered by the *Yorkshire Post, Yorkshire Star and Sheffield Telegraph* newspapers, as well as BBC Look North and BBC Radio Leeds.

My hon. Friend wrote a letter advising potential applicants in South Wales to apply direct to Jobcentre Plus, after local solicitors were found to be targeting miners. The letter was published in the *Bridgend & Porthcawl Gem, South Wales Echo, Western Mail and the Cynon Valley Leader*.

John Mann: To ask the Secretary of State for Work and Pensions how many claim forms for industrial injuries disablement benefit in relation to beat knee or osteoarthritis of the knee have been *(a)* ordered from and *(b)* returned to her Department by claims handlers working for the company BCP. [287016]

Jonathan Shaw: Jobcentre Plus does not keep information about the number of industrial injuries disablement benefit claim forms ordered by and returned from claims handlers and individual organisations.

Jobcentre Plus

Mr. Brady: To ask the Secretary of State for Work and Pensions if she will instruct Jobcentre Plus staff to seek to schedule regular meetings with jobseekers in part-time work to take place on days when they are not regularly employed. [284421]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking if she will issue guidance to Jobcentre Plus that it should seek to schedule regular meetings with jobseekers in part-time work to take place on days when they are not regularly employed. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Regular face-to-face contact with people is the most effective method of helping them find work quickly, and ensuring they remain entitled to payment of benefit by demonstrating they are actively seeking work. People claiming Jobseeker's Allowance are therefore usually required to attend their nearest Jobcentre for regular jobsearch reviews and more in-depth interviews with a personal adviser if they do not find work quickly. Where someone is undertaking part-time work we will make every effort to make alternative arrangements to accommodate their part time working patterns. We will, however, ensure that the guidance is clarified in this respect.

Steve Webb: To ask the Secretary of State for Work and Pensions (1) when the results of the next Jobcentre Plus staff survey will be reported; and if she will place in the Library a copy of that report; [286638]

(2) if she will place in the Library a copy of the results of each of the three most recent Jobcentre Plus staff surveys. [286639]

Jim Knight: Copies of the three most recent sets of survey results for Jobcentre Plus, from the Department for Work and Pensions Surveys conducted in 2009, 2008 and 2006, have been placed in the Library. There was no staff survey in 2007 as surveys were conducted in November 2006 and January 2008.

As part of the Cabinet Office cross-Government employee engagement programme the next staff survey of Jobcentre Plus, which is part of the Department for Work and Pensions Survey, will take place in October/November 2009. Results will be available in January/February 2010. The results will be placed in the Library.

Jobcentre Plus: Buildings

John Barrett: To ask the Secretary of State for Work and Pensions (1) whether her Department consulted disability organisations on the most recent programme of refurbishment to Jobcentre Plus offices; [284017]

(2) whether the tendering contract for the most recent refurbishment to the Jobcentre Plus offices stipulated the provision of accessible seating for elderly and disabled people in Jobcentre Plus offices. [284247]

Jim Knight *[holding answer 3 July 2009]:* The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your questions asking: whether her Department consulted disability organisations prior to the most recent programme of refurbishment to Jobcentre

Plus offices and whether the tendering contract for the most recent refurbishment to the Jobcentre Plus offices stipulated the provision of accessible seating in Jobcentre Plus offices. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

During the programme to roll out Jobcentre Plus offices, in the period 2002 to 2006, Jobcentre Plus worked in partnership with the Department's Diversity and Equality specialist, to ensure the changes met the needs of all our customers. The Jobcentre Plus Project developed a Jobcentre Plus Environmental Guide (JPEG) in association with the project architects which referenced all relevant external legislation including the Disability Discrimination Act (DDA). DDA requires all providers of public services to ensure that services to customers can be accessed by all, whether that is in regard to the physical office environments or by other means. The JPEG was reviewed throughout the rollout programme to ensure compliance with the Act. This was reflected both in the standards and specifications deployed in the physical refurbishment of our offices and in the design of specific components.

The tendering exercise for the national roll out of Jobcentre Plus offices between 2002 and 2006 identified a range of customer seating which complied with statutory requirements. The scope of the tenders included a range of design options that took account of our business-related Health and Safety considerations and also met key customer needs such as comfort, visibility and ease of use. Consultation with the Department's Diversity and Equality specialists provided Jobcentre Plus with assurances that the broadest range of customer requirements would be met.

As part of the planning for delivery of services through the new Jobcentre Plus network, each District drew up a local service delivery plan which was the subject of consultation with a range of local stakeholders, including customer representatives. Customer Service Directors have recently been asked to review their existing service delivery arrangements in meeting the challenge of the current economic climate, taking account of the planned welfare reform changes for the next two to three years.

This exercise has identified that a number of Jobcentre Plus offices currently face capacity pressures. These pressures will be met through a range of solutions. This includes making our services more accessible to customers by providing a range of support through outreach, often delivering advisory and other support on partners' premises. We are supplementing these measures by operating extended opening hours in some locations where the need for this is identified locally, including some offices opening to the public on Saturday. In the light of the increase in customer demand we have embarked on a programme to convert or extend our existing buildings where necessary, deploying existing components including similar seating to that already installed as part of the 2002-2006 roll out of Jobcentre Plus offices.

However, we will only acquire new space where all other measures are insufficient.

John Barrett: To ask the Secretary of State for Work and Pensions how much her Department has spent on projects to refurbish Jobcentre Plus offices since 2001. [284018]

Jim Knight *[holding answer 3 July 2009]:* The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State for Work and Pensions has asked me to respond to your question asking how much her Department has spent on projects to refurbish Jobcentre Plus offices since 2001. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Jobcentre Plus came into being in April 2002. The refurbishment of Jobcentre Plus offices was carried out over five years as part of the £1.9 billion rollout of the Jobcentre Plus office network, which included estates refurbishment costs of £782 million.

Jobcentre Plus: Essex

Bob Spink: To ask the Secretary of State for Work and Pensions what the rate of *(a)* absence and *(b)* absence resulting from injury at work was among Jobcentre Plus employees in (i) Essex and (ii) Castle Point in each of the last five years; what estimate she has made of the cost to the public purse of such absences; and if she will make a statement. [283886]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking what the rate of (a) absence and (b) absence resulting from injury at work was among Jobcentre Plus employees in (i) Essex and (ii) Castle Point in each of the last five years; and what estimate she has made of the cost to the public purse of these absences. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The system we use to monitor sick absence is a relatively new system so I am only able to provide data from May 2007 to June 2009. I have therefore detailed below the average working days lost per member of staff in Jobcentre Plus in Essex between June 2007 and May 2008, and between June 2008 and May 2009 along with the associated financial cost. I am unable to provide you with details for Castle Point as we do not record them for this area specifically.

	Average work days lost to sickness (in days)	*Total cost of sickness days lost (£)*
June 2008 to May 2009	8.79	964,874
June 2007 to May 2008	11.17	1,072,866

The level of sickness absence data that Jobcentre Plus collects does not allow us to identify specific work related injuries as the cause of sickness absence.

Jobcentre Plus is very aware of the negative impact of sickness absence on customer service and is committed to improving performance in this area. Indeed, our strategies are delivering considerable success, with the latest data confirming the improving trend we have seen over the last 16 months. We remain committed to securing further improvements.

In addition, we are embarking upon a major health and wellbeing programme across all of our sites. The programme provides staff with a wealth of information and guidance to support healthier lifestyles. It gives them access to a confidential on-line health and wellbeing assessment and delivers targeted solutions to support the individual. The programme also provides managers at our Jobcentres with comprehensive information about the potential health risks to staff, ensuring specific preventative action is taken to address the issues.

My District Manager for Essex, Neil Brettell, will be happy to talk to you further if you have any further questions. He can be contacted on 01245 214242, by post at Government Buildings, Beeches Road, Chelmsford, Essex CM1 2RT or by email at Neil.Brettell@jobcentreplus.gsi.gov.uk

Bob Spink: To ask the Secretary of State for Work and Pensions how many jobs have been advertised at customer-facing Jobcentre Plus units in *(a)* Essex and *(b)* Castle Point in each of the last 12 months; and if she will make a statement. [283887]

Jim Knight: All Jobcentre Plus offices have access to all vacancies advertised by Jobcentre Plus. Each office has jobpoints that allow jobseekers to search for jobs by various criteria including location. Therefore jobseekers using the Jobcentre Plus offices in Essex and Castle Point will be able to access the same vacancies as would a jobseeker in any other part of the country.

The number of vacancies advertised for Essex and the Castle Point constituency in the latest 12 months for which data are available are shown in the following table.

	Number of notified vacancies		*Number of live unfilled vacancies*	
	Essex	*Castle point*	*Essex*	*Castle point*
June 2008	8,144	331	6,606	331
July 2008	6,706	270	6,662	366
August 2008	8,203	210	6,633	259
September 2008	6,299	263	5,939	253
October 2008	6,864	263	6,185	318
November 2008	6,855	180	5,803	188
December 2008	3,923	135	4,311	168
January 2009	2,241	108	2,687	103
February 2009	6,150	329	3,890	164
March 2009	4,782	254	3,954	226
April 2009	4,534	231	3,758	125
May 2009	5,503	246	4,112	241

Notes:
1. Interpretation of these data need to take account of changes in recent years to Jobcentre Plus procedures for taking and handling vacancies. These figures are not fully comparable over time and may not indicate developments in the labour market. A more detailed explanation is available on the nomis website.
2. Notified vacancies include any speculative placings recorded by Jobcentre Plus. Datasets from May 2006 may reflect substantially reduced levels of speculative placings as part of the notified series. Consequently, care should be taken in interpreting time-series data.
3. The stocks of unfilled vacancies reflect more accurately job opportunities available via Jobcentre Plus. In the case of unfilled vacancies, use of the figures on live vacancies is recommended (that is, excluding suspended vacancies), and this is the default option. Live vacancies may still include some vacancies which have already been filled or are otherwise no longer open to recruits, due to natural time lags in procedures for following up vacancies with employers.
4. Data are unrounded.
5. Comprehensive estimates of all job vacancies (not just those notified to Jobcentre Plus) have been available from the monthly ONS Vacancy Survey since April 2001, based on a sample of some 6,000 enterprises. However, the ONS survey is currently designed to provide national estimates only.

Jobcentre Plus Labour Market System.

Bob Spink: To ask the Secretary of State for Work and Pensions whether free at the point of use telephones are available to Jobcentre Plus customers in each jobcentre in Essex. [286356]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking whether free at the point of use telephones are available to Jobcentre Plus customers in each Jobcentre in Essex. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

We have Customer Access Telephones in all our Jobcentres in Essex. These telephones are free for our customers to access a range of services. They are primarily used to make enquires about benefit claims and other services offered by us. They can also be used to contact employers and other agencies that can help customers find work. On request we can also make other telephones available, at no cost, for customers to telephone prospective employers or make other relevant calls.

Jobcentre Plus: Finance

Mrs. May: To ask the Secretary of State for Work and Pensions how much and what proportion of its annual budget Jobcentre Plus plans to spend on *(a)* staff and *(b)* Jobcentre Plus programmes in (i) 2009-10 and (ii) 2010-11. [278232]

Jim Knight *[holding answer 8 June 2009]:* The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State for Work and Pensions has asked me to reply to your question asking how much and what proportion of its annual budget Jobcentre Plus plans to spend on (a) staff and (b) Jobcentre Plus programmes in (i) 2009-10 and (ii) 2010-11. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The available information is provided below.

Employment programme budgets are not held by Jobcentre Plus but are controlled centrally by DWP.

Jobcentre Plus administration budget

	£ million
2009/10	3,683
2010/11	3,951

Source:
DWP Three Year Business Plan

Based on our indicative plans for 2009/10, our best estimate is that approximately 70 per cent of the Jobcentre Plus administration budget will be spent on staff costs. The remaining 30 per cent will be spent on other non staff related costs. Detailed planning for 2010/11 has not yet commenced but it is expected that a similar proportion will also be spent on staff costs in that year.

Tony Baldry: To ask the Secretary of State for Work and Pensions on which programmes the planned additional £3 billion funding allocation to Jobcentre Plus will be spent. [285988]

Jim Knight: The Department was allocated £1.7 billion additional funding in the Budget 2009 in addition to the

£1.3 billion announced in the pre-Budget report in November 2008 to fund additional volumes. The funding will be used to support Jobcentre Plus activity and to fund additional long-term employment programmes.

The funding for long-term employment programmes is £620 million as announced in Budget 2009, plus £350 million announced at the pre-Budget report 2008. Most of the provision for the long-term unemployed will be provided through the Flexible New Deal over the next two years. However phased implementation means that there will still be some expenditure on New Deal and Employment Zones programmes over the next two years.

Jobcentre Plus: Job Description

Mr. Sanders: To ask the Secretary of State for Work and Pensions what guidance her Department gives to jobcentres on procedures to ensure that job advertisements placed with them are genuine. [285813]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State for Work and Pensions has asked me to reply to your question asking what guidance is given to jobcentres on procedures to ensure that job advertisements placed with them are genuine. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The following guidance is provided to Jobcentre Plus staff when handling vacancies from employers to ensure they are genuine. When advertising with Jobcentre Plus employers must provide us with:

a full and clear job description (which is lawful and unambiguous to our customers)

a rate of pay equal to or more than that stated in the National Minimum Wage Act

a guarantee that all other terms and conditions of employment are lawful; and

an assurance that all jobs are available on an open and fair basis to jobseeking customers using our services.

To ensure wherever possible that the employers and their vacancies are genuine we also require:

a full postal address

a landline telephone number

contact name, position with the company and direct telephone number

the type of business they are involved in

the number of employees they have at the individual site; and

a verbal/written National Minimum Wage assurance.

To ensure vacancies advertised by recruitment agencies are genuine, the recruitment agency must sign a service level agreement agreeing to the terms under which Jobcentre Plus will advertise their vacancies. This agreement specifies that all vacancies must be genuine and the agency must supply details of the employer on whose behalf they are advertising.

Jobcentre Plus also contacts all employers 48 hours after their vacancy was advertised to discuss the vacancy and this provides additional assurance that the employer and vacancy are genuine.

Jobcentre Plus: Opening Hours

Mrs. May: To ask the Secretary of State for Work and Pensions how many Jobcentre Plus offices operate extended opening hours. [271697]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many Jobcentre Plus offices operate extended opening hours. This is something that falls within the responsibilities delegated to me as acting Chief Executive of Jobcentre Plus.

Extending opening hours is one of the ways in which we are responding to the demands on our service. The precise numbers of offices operating extended hours will vary week by week depending on the need.

However, as an example, between 15 and 28 June a total of 301 Jobcentres opened to customers on Saturday, 21 opened to customers on Sunday and 63 opened for extra hours during the week. Our Service Delivery plans are kept under constant review to make sure we offer the best possible service to meet the needs of our customers.

Jobcentre Plus: Qualifications

Paul Rowen: To ask the Secretary of State for Work and Pensions whether she has made an assessment of the merits of requiring minimum qualifications for Jobcentre Plus personal advisers; and if she will make a statement. [275406]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Ruth Owen:

The Secretary of State has asked me to reply to your question to James Purnell asking whether he had made an assessment of the merits of requiring minimum qualifications for Jobcentre Plus personal advisers. This is something that falls within the responsibilities delegated to Mel Groves as Acting Chief Executive of Jobcentre Plus. As Mel Groves is currently on annual leave, I am replying in his absence.

I have recently commissioned a review to develop an accreditation strategy for a number of key job roles across Jobcentre Plus, which will include the personal adviser role. The results of this review will be available in the Autumn.

Currently, within the recruitment process all Jobcentre Plus personal advisers are required to meet a minimum entry standard. This is assessed through testing literacy and numeracy. Successful candidates will then go to the second stage interview where the individual's relevant competencies are examined.

Once recruited, in addition to an internal learning programme we invest in the S/NVQ programme where personal advisers work towards an externally recognised qualification in 'advice and guidance'. This is not a mandatory requirement.

Jobcentre Plus: Telephone Services

John Battle: To ask the Secretary of State for Work and Pensions what steps her Department is taking to ensure the provision of access to freephone Government helplines in Jobcentre Plus offices for benefit claimants; and if she will make a statement. [278372]

Mr. Sanders: To ask the Secretary of State for Work and Pensions if she will instruct Jobcentre Plus to ensure all calls to social fund offices are free of charge to customers using either landline or mobile telephones. [282636]

Jim Knight: The Department believes strongly that calls to its 0800 numbers should be free to mobile phone users as they already are to callers from landlines. Officials from the Department have accordingly held discussions with the Telephone Helplines Association, and with mobile telephone operators, seeking to secure the Department's customers a free service when contacting the Department's 0800 numbers via a mobile phone. These discussions are continuing.

Jobseeker's Allowance

Steve Webb: To ask the Secretary of State for Work and Pensions if she will estimate the proportion of jobseeker's allowance claimants of each age who have skills levels equivalent to less than level 2. [287316]

Jim Knight *[holding answer 15 July 2009]:* The information requested is not available.

Jobseeker's Allowance: Fraud

Chris Grayling: To ask the Secretary of State for Work and Pensions how many applications for jobseeker's allowance were rejected owing to fraudulent documents being used in support of such applications in each of the last five years. [281986]

Jim Knight: We do not record the number of applications for jobseeker's allowance (JSA) rejected due to fraudulent documents being used. However, we can provide reassurance that rigorous checks of all documentation are undertaken when an application to JSA is made. If there is a suspicion about the validity of the documentation produced, the case is referred to our Fraud Investigation Service. The claim will not be put into payment until the questions around the documentation are resolved.

Jobseeker's Allowance: Personation

Chris Grayling: To ask the Secretary of State for Work and Pensions how many individuals have been found to be claiming jobseeker's allowance under a false or stolen identity in each of the last five years. [281987]

Jim Knight: The information requested is not available.

Lone Parents: Employment

Jenny Willott: To ask the Secretary of State for Work and Pensions how many and what proportion of the lone parents who were moved from income support onto jobseeker's allowance as a result of changes to benefit rules in December 2008 are in employment; and if she will make a statement. [286481]

Jim Knight: Due to unavoidable time lags in the collation and assessment of our benefits and employment data, the Department cannot provide this information at this point in time. Our comprehensive evaluation of Lone Parent Obligations will address benefit transitions and employment outcomes and this information will be available in due course.

New Deal Schemes: Essex

Bob Spink: To ask the Secretary of State for Work and Pensions how many people in *(a)* Essex and *(b)* Castle Point have participated in a New Deal programme in each of the last three years. [282435]

Jim Knight: The figures for New Deal starters in Essex and in Castle Point are shown in the tables:

(a) Essex

	2006	2007	2008
New deal for young people—starters (spells)	2,450	2,640	2,590
New deal 25+—starters (spells)	1,260	2,140	1,740
New deal for lone parents—starters (spells)	2,240	2,940	4,730
New deal for disabled people—starters (spells)	930	940	1,070
New deal 50+—starters (individuals)	260	130	100
New deal for partners—starters (individuals)	10	10	40

(b) Castle Point

	2006	2007	2008
New deal for young people—starters (spells)	120	130	150
New deal 25+—starters (spells)	60	90	60
New deal for lone parents—starters (spells)	130	180	330
New deal for disabled people—starters (spells)	100	80	80
New deal 50+—starters (individuals)	10	10	—
New deal for partners—starters (individuals)	—	—	10

Notes:
1. Westminster Parliamentary Constituency (post May 2005) is allocated using the ONS postcode directory and customer's postcode.
2. Time series—year of starting: the calendar year of starting the New Deal. Latest data is to February 2009.
3. The measure used for New Deal 50 Plus and New Deal for Partners is Starters (individuals) as spells are not available in these cases.
4. Since June 2008, the New Deal for Disabled People has ceased to operate as a national programme.
5. Figures are rounded to the nearest 10.

Department for Work and Pensions Information Directorate. Figures are available at:
http://research.dwp.gov.uk/asd/asd1/tabtools/tabtool_nd.asp

New Deal: Pathways to Work

John McDonnell: To ask the Secretary of State for Work and Pensions what *(a)* criminal and *(b)* administrative penalties are available in respect of contractors for work under the (i) New Deal and (ii) Pathways to Work programmes found to have defrauded her Department; and if she will make a statement. [283974]

Jim Knight: All DWP Welfare to Work contracts, including Pathways to Work and New Deal programmes, include mandatory clauses outlining the remedies where contractor fraud is committed. Remedies range from a formal warning with the recovery of any amounts paid by the Department in respect of any fraud or financial irregularity and damages that are appropriate through to termination of contract. Contracts will be terminated where the breach of the contract terms is sufficiently serious.

DWP deals with minor irregularities internally. Where the Department believes the matter is more serious, and where there may be sufficient evidence for a prosecution, the matter will be referred to the police.

DWP will always investigate any allegations and take action where there is sufficient evidence for us to do so.

John McDonnell: To ask the Secretary of State for Work and Pensions how many investigations her Department is undertaking into contracts for *(a)* New Deal and *(b)* Pathways to Work. [283975]

Jim Knight: The Department is undertaking four investigations into contracts for New Deal and one investigation into contracts for Pathways to Work.

Pension Credit: Bexley

Mr. Evennett: To ask the Secretary of State for Work and Pensions how many households in *(a)* Bexleyheath and Crayford constituency and *(b)* the London Borough of Bexley have received pension credit in each year since its inception. [286690]

Angela Eagle: The information requested is in the following table.

Household recipients of pension credit

As at November each year	*Bexleyheath and Crayford parliamentary constituency*	*Bexley local authority*
2003	2,030	5,280
2004	2,690	7,020
2005	2,810	7,250
2006	2,820	7,340
2007	2,780	7,360
2008	2,770	7,390

Notes:
1. The number of households in receipt are rounded to the nearest 10.
2. Household recipients are those people who claim Pension Credit either for themselves only or on behalf of a household.

Source:
DWP Information Directorate Work and Pensions Longitudinal Study 100 per cent data

Pension Credit: Derbyshire

Mr. McLoughlin: To ask the Secretary of State for Work and Pensions how many households in *(a)* Derbyshire and *(b)* West Derbyshire have received pension credit in each year since its inception. [286415]

Angela Eagle: The information requested is in the following table.

Household recipients of pension credit

As at November each year	*Derbyshire local authority*	*West Derbyshire parliamentary constituency*
2003	25,700	2,470
2004	34,090	3,400
2005	35,140	3,540
2006	35,420	3,590
2007	35,120	3,510
2008	34,800	3,560

Notes:
1. The number of households in receipt are rounded to the nearest 10.
2. Household recipients are those people who claim pension credit either for themselves only or on behalf of a household.

Source:
DWP Information Directorate Work and Pensions Longitudinal Study 100 per cent. data

Pension Credit: North East

Dr. Kumar: To ask the Secretary of State for Work and Pensions how many pension credit recipients live in Middlesbrough, South and East Cleveland constituency. [280704]

Angela Eagle As at November 2008, there were 5,230 households in receipt of pension credit in Middlesbrough, South and East Cleveland constituency.

Notes:
1. The number of households in receipt are rounded to the nearest 10.
2. Household recipients are those people who claim pension credit either for themselves only or on behalf of a household.

Source:
DWP Information Directorate Work and Pensions Longitudinal Study 100 per cent. data.

Pension Service: Internet

Justine Greening: To ask the Secretary of State for Work and Pensions how many upgrades have been made to the Pension Service's state pension forecast e-service system since September 2008; when each upgrade was made; for how long the online form was unavailable as a result of each upgrade; and if she will make a statement. [287547]

Angela Eagle: Since September 2008 there have been three upgrades of the online state pension forecasting service.

To implement these upgrades, the online service was unavailable as follows:

From 00.00 on 24 October 2008 to 07:00 on 27 October 2008

From 17:00 on 23 January 2009 to 07:00 on 26 January 2009

From 19:00 on 3 April 2009 to 01:00 on 4 April 2009

Times are given using the 24 hour clock.

Pensioners: Council Tax

Mr. Sanders: To ask the Secretary of State for Work and Pensions if she will make an assessment of the effect on the disposable income and quality of life of pensioners in receipt of pension credit of changes in council tax levels over the last 10 years. [275481]

Angela Eagle: Pension credit was introduced in October 2003. Between then and 2007-08 (the latest data available) average council tax liability for pension credit recipients has remained the same at around 7 per cent. of net income.

Notes:
1. Receipt of the guarantee credit element of pension credits brings entitlement to full help with a council tax bill through council tax benefit.
2. Based on the family resources survey and as such subject to a degree of sampling and non-sampling error.

Pensioners: Poverty

Steve Webb: To ask the Secretary of State for Work and Pensions if she will estimate the number of pensioners that would be lifted out of poverty if take-up of means-tested benefits was 100 per cent.; and if she will make a statement. [287325]

Angela Eagle: Our latest estimates show that if there were 100 per cent. take-up of all income related benefits by pensioners entitled to them the number of pensioners below 60 per cent. of contemporary median income, after housing costs, would fall by around 700,000, after housing costs have been taken into account, based on 2008-09 benefit rates.

Pensioners: Social Security Benefits

Hugh Bayley: To ask the Secretary of State for Work and Pensions what the average monetary value of benefits in kind provided by her Department was to *(a)* single pensioners and *(b)* pensioner couples in York in respect of (i) NHS services, (ii) social services, (iii) travel concessions, (iv) television licences, (v) insulation and home repairs and improvements grants and (vi) other services in each year since 1996-97. [286008]

Angela Eagle: A wide range of services and benefits in kind are available to older people and these are administered both centrally and locally. As a result, the information is not available in the format requested: some information is not collected and some could be obtained only at disproportionate cost. The information which is available is given as follows.

(i) NHS services

People aged 60 and over are able to claim free prescriptions and eye tests on the grounds of age. Detailed information on prescription charges is not held in the format requested.

Free NHS sight tests were made available to people aged 60 and over from 1 April 1999. Information on the average value of NHS sight tests provided to people aged 60 and over within the area of the former York and Selby primary care trust is only available on a consistent basis for the three years 2003-04 to 2005-06 and is set out in the following table.

Financial year	Number of free NHS sight tests given to people aged 60 and over	Estimated cost of NHS sight tests to people aged 60 and over (£)
2003-04	26,254	453,144
2004-05	26,619	474,351
2005-06	25,057	460,798

PCTs were restructured in October 2006 and no equivalent data for 2006-07 are available. Information for 2007-08 is available for the North Yorkshire and York PCT area and is set out in the following table.

Financial year	Number of free NHS sight tests given to people aged 60 and over	Estimated cost of NHS sight tests to people aged 60 and over (£)
2007-08	88,428	1,708,429

NHS optical vouchers and free dental treatment may additionally be available to individuals in receipt of certain qualifying benefits, or if they have been assessed as eligible for assistance under the NHS Low Income Scheme. Information on the value of such NHS services is not available centrally and could be obtained only at disproportionate cost.

(ii) Social services

The following table shows the gross current expenditure by York council on social services for people aged 65 or over from 1996-97 to 2007-08.

Gross current expenditure[1] by York council on older people (aged 65 or over)

1 April to 31 March	Gross current expenditure (£000)
1996-97	15,200
1997-98	16,300
1998-99	17,400
1999-2000	18,700
2000-01	19,100
2001-02	19,400
2002-03[2]	23,500
2003-04[3]	21,900
2004-05	25,600
2005-06	27,500
2006-07	27,600
2007-08	27,600

[1] Gross expenditure includes income from client contributions, but excludes capital charges and certain income items which count as expenditure elsewhere in the public sector, such as contributions from primary care trusts. This is to avoid double counting within the aggregate public sector accounts of the money involved.
[2] From 2002-03 onwards, the data includes clients who transferred to council with social services responsibilities (CSSR) support on 8 April 2002, who were formally in receipt of higher rates of income support under the Department for Work and Pensions preserved rights scheme.
[3] From 2003-04, additional funding was made available to CSSRs via the Supporting People grant.
Source:
R03 and PSS-EX1 returns

(iii) Travel concessions

The statutory minimum travel concession, introduced in April 2008, gives those aged 60 or over and eligible disabled people free off-peak local bus travel in any part of England. The Government provide around £1 billion a year to fund the concession.

Travel concession schemes are provided through local authorities, which have flexibility to enhance their schemes to offer more than the statutory minimum, so there are local variations in what is offered and take-up of concessionary travel also varies from one area to another. Therefore it is not possible to quantify the value of the benefit in kind in a specific local authority area.

(iv) Television licences

Free television licences for people aged 75 or over were introduced in November 2000. TV Licensing, who administer free licences as agents for the BBC, are not able to provide geographical breakdowns of licences issued. However, figures, shown in the following table, are available for the number of households with at least one person aged 75 or over claiming winter fuel payments in York local authority. These people would be eligible for a free television licence.

York local authority area

	Number of households with someone aged 75 or over
2004-05	11,685
2005-06	11,930
2006-07	12,070
2007-08	12,240

Television licence fees for each year since the concession was introduced are shown in the following table:

TV licence fees

	£	
	Colour	*Black and white*
2000-01	104.00	34.50
2001-02	109.00	36.50
2002-03	112.00	37.50
2003-04	116.00	38.50
2004-05	121.00	40.50
2005-06	126.50	42.00
2006-07	131.50	44.00
2007-08	135.50	45.50
2008-09	139.50	47.00

TV licence fees

	£	
	Colour	*Black and white*
2009-10	142.50	48.00

(v) Insulation

The Warm Front scheme is the Government's main programme for tackling fuel poverty in vulnerable households in the private sector in England. Warm Front provides grants for heating, insulation and energy efficiency measures. The following table displays the number of pensioner households that have received Warm Front assistance in the York local authority area since the scheme's inception in 2000, and the average spend on each of those households.

	Number of single pensioner households assisted in York	*Average spend per single pensioner household assisted (£)*	*Number of two pensioners households assisted in York*	*Average spend per two pensioner household assisted (£)*
2000-01	63	345.50	16	791.74
2001-02	170	502.44	43	1,156.06
2002-03	184	611.81	46	1,424.28
2003-04	82	748.75	21	1,701.55
2004-05	87	693.71	22	1,596.59
2005-06	199	778.45	102	765.08
2006-07	364	753.92	252	657.25
2007-08	390	1,020.33	297	998.20
2008-09	199	1,741.24	155	1,612.50

Pensions

Hugh Bayley: To ask the Secretary of State for Work and Pensions what the rates of basic state pension payable to *(a)* single pensioners and *(b)* couples were in (i) 1996-97 and (ii) the latest date for which figures are available; and what the rates would have been if they had been uprated in line with earnings. [285753]

Angela Eagle: The information requested is in the following table:

Financial year	*Level of the basic state pension (£ per week)*	
	Standard rate on own contributions	*Standard rate for couple where wife is reliant on husband's insurance*
1996-97	61.15	97.75
2009-10 (actual)	95.25	152.30
2009-10 (uprated by prices)	88.70	141.80

Notes:
1. All figures in cash terms.
2. Uprating calculations employ historic annual increase in the RPI series for September of the previous year.
3. There is no such thing as an actual 'singles rate' though the standard rate of the Category A pension is commonly referred to as the 'singles rate'. Similarly the sum of the Category A and Category B(L) pension is often referred to as the 'couples rate'.
4. Category B(L) pension is about 60 per cent. of the standard rate basic Category A pension. It is payable by virtue of a spouse's qualifying years or earnings.

Pensions: Ex-servicemen

Mr. Roger Williams: To ask the Secretary of State for Work and Pensions for what reasons non-taxable war disablement pension is not disregarded in means-testing calculations for the provision of NHS and other services to armed services veterans. [286405]

Jonathan Shaw: Access to NHS services is a matter for my hon. Friend the Secretary of State for Health.

Armed service veterans who are in receipt of pension credit, income support, income-based jobseeker's allowance or income related employment and support allowance have access to free prescriptions, dental treatment, eye tests and other NHS services.

For all means-tested benefits income is normally taken fully into account when calculating entitlement. However, a £10 disregard is applied to payments of War Disablement Pension, War Widow's Pension and their replacement under the Armed Forces Compensation Scheme when calculating a person's entitlement to these benefits. This disregard, which gives war pensioners an advantage over other groups, is made in recognition of the special nature of these payments.

Certain elements paid with War Disablement Pension are disregarded in full. These are constant attendance

allowance, mobility supplement, severe disablement occupational allowance and dependency increases for anyone other than the applicant or his partner.

In addition to the statutory disregards mentioned, local authorities, who administer housing benefit and council tax benefit, have discretion to disregard all or part of a War Pension over and above the statutory £10 disregard. The cost of any further disregard is met by the local authority, not by central Government. It is, therefore, for each local authority to decide whether a higher disregard should apply.

Research Report

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many individuals in each birth cohort, as shown in Figure 4.3 on page 55 of DWP Research Report number 558, would be modelled as having payback equivalent to having received at least the full value of the assumed rate of return used in the modelling; and what the equivalent figures are under alternative scenarios (a) 1 and (b) 2 as referred to on page 57 of DWP Research Report number 558. [287114]

Angela Eagle: The Department's population-level modelling calculates payback rather than internal rate of return, and there is no simple correspondence between the two measures—for each individual it depends on their patterns of saving and decumulation through time. As a result it would be a major exercise to calculate the distribution of internal rates of return for birth cohorts, and the cost of producing this analysis would be disproportionate.

Sick Leave: Stress

Chris Ruane: To ask the Secretary of State for Work and Pensions how many working days were lost due to stress-related illness in each of the last 30 years. [286290]

Jonathan Shaw: The information the HSE holds on the estimated working days lost due to stress is as follows:

Estimated days lost due to stress, anxiety and depression

	Days lost—rounded to nearest 1,000
2007-08	13,547,000
2006-07	13,760,000
2005-06	10,537,000
2004-05	12,820,000
2003-04	12,803,000
2001-02	12,919,000
1995[1]	6,465,000

[1] The figure for 1995 was gathered using a different method from those for subsequent years, but is included for completeness; it should not be used for comparison purposes.

The Health and Safety Executive collects this information by commissioning a self-reported work-related ill-health (SWI) survey conducted on its behalf by the Office for National Statistics as part of its Labour Force Survey.

No data are available before 1995 and the SWI Survey has not always been conducted on an annual basis.

Social Security Benefits: Expenditure

Mr. Harper: To ask the Secretary of State for Work and Pensions if she will place in the Library a copy of each quarterly update of her Department's benefit expenditure tables produced in the last two years. [285844]

Jim Knight: The benefit expenditure tables are updated every half year following each Budget and pre-Budget report forecasting round.

The tables are not formatted for printing, and their number and size means that formatting could be done only at disproportionate cost. However, they are made available on the Department's internet site for public access.

The 2009 Budget report benefit expenditure tables are currently on the Department's website at

http://research.dwp.gov.uk/asd/asd4/expenditure.asp

State Retirement Pensions

Sandra Osborne: To ask the Secretary of State for Work and Pensions how many people have opted to defer their state pension in each year since the deferred scheme was introduced. [286673]

Angela Eagle: I refer the hon. Member to the written answer that was given to the hon. Member for Eastbourne (Mr. Waterson) on 19 November 2008, *Official Report*, column 570W.

State Retirement Pensions: Females

Christine Russell: To ask the Secretary of State for Work and Pensions what estimate she has made of the number of women who would become eligible to receive a full state pension if the reduction in the number of qualifying years required for those reaching the state pension age at or after 6 April 2010 were applied to all women in receipt of a state pension in 2010-11; and what estimate she has made of the cost to the Exchequer of such an extension. [284491]

Angela Eagle: It is estimated that an extra 850,000 women in Great Britain would become eligible to receive a full basic state pension based on their own contributions if the number of qualifying years necessary to receive a full basic state pension were lowered from 39 to 30, along with the implementation of other changes in the 2007 pension reforms, for women already in receipt of a basic state pension in April 2010.

Calculating basic state pension entitlement on the basis of 30 qualifying years, along with the implementation of other changes in the 2007 pension reforms, for women pensioners would cost around £1 billion (2009-10 price terms) in 2010 (net of income-related benefits).

Unemployed: Qualifications

Mr. Burrowes: To ask the Secretary of State for Work and Pensions how many applicants for Jobcentre Plus registered qualifications at levels one to five in *(a)* London and *(b)* Enfield in (i) 2008 and (ii) 2009 to date. [286006]

Jim Knight: The information requested is not available.

Unemployment Benefits

Hugh Bayley: To ask the Secretary of State for Work and Pensions what the cost to the Exchequer has been of unemployment benefits *(a)* in current prices and *(b)* as a percentage of gross domestic product in each year since 1997. [285697]

Jim Knight: The information requested is shown in the following table.

Benefit expenditure to unemployed, Great Britain

£ million (at 2009-10 prices)

	Housing benefit	Council tax benefit	Jobseeker's allowance	Total benefit expenditure	Percentage of GDP
1997-98	2,255	413	5,109	7,777	0.7
1998-99	1,820	348	4,571	6,739	0.6
1999-2000	1,581	315	4,102	5,998	0.5
2000-01	1,408	281	3,585	5,274	0.4
2001-02	1,266	247	3,170	4,684	0.4
2002-03	1,270	236	3,093	4,599	0.4
2003-04	1,098	248	2,933	4,279	0.3
2004-05	1,216	243	2,459	3,918	0.3
2005-06	1,271	264	2,527	4,061	0.3
2006-07	1,327	259	2,596	4,182	0.3
2007-08	1,329	251	2,323	3,903	0.3
2008-09 (estimated outturn)	1,645	299	2,909	4,854	0.3

DWP statistical and accounting data.

Unemployment: Hemsworth

Jon Trickett: To ask the Secretary of State for Work and Pensions what the level of *(a)* claimant unemployment, *(b)* youth unemployment and *(c)* long-term unemployment was in Hemsworth constituency (i) in 1997 and (ii) at the latest date for which information is available. [288692]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking what the level of *(a)* claimant unemployment, *(b)* youth unemployment and *(c)* long-term unemployment was in Hemsworth constituency (i) in 1997 and (ii) at the latest date for which information is available. (288692)

The Office for National Statistics (ONS) compiles unemployment statistics for local areas from the Annual Population Survey and its predecessor the annual Labour Force Survey (LFS) following International Labour Organisation (ILO) definitions. Estimates of youth unemployment and long term unemployment are not available for the Hemsworth constituency due to the small sample size.

The Office for National Statistics (ONS) compiles the number of claimants of Jobseeker's Allowance (JSA) from the Jobcentre Plus administrative system. The number of persons claiming JSA in June 1997 was 2,400 and in June 2009 was 2,300.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at:

http://www.nomisweb.co.uk

Unemployment: Oxfordshire

Tony Baldry: To ask the Secretary of State for Work and Pensions pursuant to the Draft Legislative Programme 2009, Cm 7564, page 37, who in Oxfordshire will be responsible for delivering the proposed programme for access to jobs supported by recruitment subsidies, skills training or volunteering opportunities for adults who have been unemployed for six months or more. [284959]

Jim Knight: On 6 April 2009, the Department introduced an offer of extra support for customers who have been claiming jobseeker's allowance for six months. This included access to recruitment subsidies, work-focused training and volunteering opportunities. Jobcentre Plus personal advisers discuss these options with customers at interview.

For the work-focused training element of the six-month offer, customers in Oxfordshire will be referred to Oxford and Cherwell Valley college or in some cases Newbury college if they reside in South Oxfordshire. These colleges have been contracted by the Learning and Skills Council for delivering this part of the six-month offer in Oxfordshire.

BTCV are the lead organisation responsible for delivering access to volunteering opportunities in England. In partnership with v, Volunteering England and Community Service Volunteers, they run a brokerage network offering work-focused volunteering opportunities to eligible jobseekers.

Jobcentre Plus is responsible for the delivery of the recruitment subsidy throughout England, Scotland and Wales. The recruitment subsidy is available through two delivery channels: it can either be issued as a voucher to individual jobseeker's allowance customers by their Jobcentre Plus personal adviser, or multiple vouchers can be delivered to employers with higher volume or long-term recruitment plans who are working with Jobcentre Plus account managers.

Winter Fuel Payments

Dr. Cable: To ask the Secretary of State for Work and Pensions what the cost to the public purse of

winter fuel payments was in each of the last five years; and what estimate she has made of the cost in each of the next five years. [285844]

Angela Eagle: Published information is in the table.

Benefit expenditure, Great Britain (£ million)

	2004-05	2005-06	2006-07	2007-08	2008-09	2009-10	2010-11
Winter Fuel Payments (at 2009-10 prices)	2,109	2,166	2,166	2,166	2,720	2,730	2,121
Winter Fuel Payments (nominal terms)	1,962	1,982	2,015	2,071	2,604	2,730	2,153

These figures are published on the DWP website:
http://research.dwp.gov.uk/asd/asd4/medium_term.asp

Written Questions: Government Responses

Mr. MacNeil: To ask the Secretary of State for Work and Pensions when she plans to answer question *(a)* 273933, *(b)* 273934, *(c)* 273935 and *(d)* 273936, tabled on 5 May 2009, on the Cabinet meeting in Glasgow. [281298]

Jim Knight: The hon. Member's questions were replied to as follows: 273933 on 24 June 2009, *Official Report*, column 1021W; 273934 and 273936 on 19 June 2009, *Official Report*, column 553W; 273935 on 16 June 2009, *Official Report*, column 139W.

Justine Greening: To ask the Secretary of State for Work and Pensions when she plans to answer question 277517, on Jobcentre Plus, tabled on 21 May 2009. [283934]

Jim Knight: I replied to the hon. Member's question on 7 July 2009, *Official Report*, columns 742-46W.

Young Person's Guarantee

Mr. Harper: To ask the Secretary of State for Work and Pensions what estimate she has made of the effect of the introduction of the Young Person's Guarantee on predicted levels of referrals to the flexible New Deal; and whether young people unemployed for 12 months or more will have a choice of being referred to the flexible New Deal or one of the options offered through the Young Person's Guarantee. [285139]

Jim Knight: The Young Person's Guarantee will provide all customers aged 18-24 approaching 12 months of their claim to jobseeker's allowance with the opportunity of a job, work-focused training or work experience placement.

The flexible new deal gives providers the flexibility to offer personalised support tailored to each individual jobseeker. It will be introduced in phase 1 areas from October 2009 and from October 2010 in Phase 2 areas.

The Young Person's Guarantee will be available to all eligible customers on a voluntary basis from January 2010. In line with the jobseeker's allowance benefit entitlement rules, any customer who is offered suitable paid employment through the Young Person's Guarantee must accept it or could face a sanction. However, while the programme is voluntary, customers may choose to be referred to the flexible new deal instead of the training or work experience options of the Young Person's Guarantee.

The Young Person's Guarantee will become mandatory from spring 2010. Then all customers must complete an element of the Young Person's Guarantee before they are referred to the flexible new deal.

The Department will continue to liaise with the Flexible New Deal Preferred Bidders about any potential impacts on referrals to the flexible new deal as a result of the Young Person's Guarantee. Any impacts will be time-limited, as referrals to the Young Person's Guarantee will end in March 2011.

Mrs. May: To ask the Secretary of State for Work and Pensions when she expects the Community Task Force to be operational under the Young Person's Guarantee. [286742]

Jim Knight: The Young Person's Guarantee will provide all customers aged 18 to 24 approaching 12 months of their claim to jobseeker's allowance with the opportunity of a job, work-focused training or work experience placement. The community task force is the work experience element of the Young Person's Guarantee.

In phase 1 flexible new deal areas, the community task force will be available to all eligible customers on a voluntary basis from January 2010. The community task force will become mandatory in these areas later in 2010 for all customers who do not take up another element of the Young Person's Guarantee.

In phase 2 flexible new deal areas, the 'work experience placement' element of the Young Person's Guarantee will be delivered through the voluntary sector and environmental task force options of the new deal for young people. When referrals to this provision stop during 2010, customers will instead be referred to the community task force.

Mrs. May: To ask the Secretary of State for Work and Pensions (1) whether young people aged between 18 and 24 years old who complete one of the options on the Young Person's Guarantee but who have not secured employment will be referred on to the Flexible New Deal; [286752]

(2) what plans her Department has to provide assistance for young people aged between 18 and 24 years old who complete one of the options on the Young Person's Guarantee but who have not secured employment. [286753]

Jim Knight: The Young Person's Guarantee will provide all customers aged 18 to 24 approaching 12 months of their claim to jobseeker's allowance with the opportunity of a job, work-focused training or work experience placement.

The flexible new deal will be introduced in phase 1 areas from October 2009, and in phase 2 areas from October 2010. It will give providers the flexibility to offer personalised support tailored to each individual jobseeker.

All customers in phase 1 areas who participate in work-focused training or take up a work experience placement and who do not manage to secure employment will be referred to the flexible new deal.

Prior to the introduction of the flexible new deal in phase 2 areas, customers who do not secure employment as part of the Young Person's Guarantee will be referred to the new deal for young people.

From October 2010, all customers in phase 2 areas who do not manage to secure employment after completing one of the options of the Young Person's Guarantee will also be referred to the flexible new deal.

DEFENCE

Afghanistan

Mark Pritchard: To ask the Secretary of State for Defence if he will hold discussions with his Chinese counterpart about the reported involvement of Chinese nationals in fighting UK armed forces in Afghanistan. [283025]

Mr. Bob Ainsworth: The UK and China routinely discuss issues of mutual interest, including Afghanistan. Although there are occasional media reports of Chinese nationals fighting inside Afghanistan, these reports are unconfirmed and no individuals killed or detained by UK forces operating in Afghanistan have been confirmed as having Chinese nationality.

Afghanistan: Helicopters

Mr. Hancock: To ask the Secretary of State for Defence on how many occasions British commanders in Afghanistan have requested the use of coalition helicopters; and on how many occasions this has been agreed to. [283433]

Mr. Bob Ainsworth: Helicopter support to ISAF operations in Regional Command (South) is provided from a multinational pool of helicopters, to which the UK makes a significant contribution. The UK routinely requests the use of the Regional Command (South) helicopter assets, and these requests are met by available assets. UK helicopters are also tasked by Regional Command (South) to support other nations within the Regional Command (South) area of operations. The specific number of requests and occasions when British Commanders have used coalition helicopters is not held centrally and could be provided only at disproportionate cost.

Mr. Laws: To ask the Secretary of State for Defence which helicopters owned by the armed forces of other nations and manned by *(a)* UK and *(b)* non-UK aircrew the UK has borrowed for service in Afghanistan since 1 January 2008; and if he will make a statement. [284819]

Bill Rammell: Helicopter support to ISAF operations in Southern Afghanistan, where the majority of British troops are located, is provided from a multinational pool of helicopters allocated by Regional Command (South), to which the UK makes a significant contribution. Therefore, the UK makes use of helicopter capability from other nations and also provides helicopter capability to support other nations. Helicopters are matched to tasks on the basis of capacity, capability and availability rather than nationality.

The UK does not provide complete crews for helicopters from other nations. On occasion the UK deploys exchange officers with the armed forces of other nations but we do not centrally record the individual missions which they are tasked with in Afghanistan. This information could be provided only at disproportionate cost.

Afghanistan: Peacekeeping Operations

Mr. Hancock: To ask the Secretary of State for Defence how many explosions caused by improvised explosive devices were recorded by the armed forces in Afghanistan in *(a)* 2007, *(b)* 2008 and *(c)* 2009 to date. [283559]

Mr. Bob Ainsworth: Records of incidents for the whole of Afghanistan are not held centrally and could be provided only at disproportionate cost.

Data are more readily available for attacks within Regional Command (South), which includes the vast majority of UK forces deployed to Afghanistan.

The following table shows all improvised explosive device detonations in Regional Command (South):

	2007	*2008*	*2009*
January	20	54	83
February	19	44	78
March	31	55	85
April	26	76	74
May	61	64	98
June	56	76	
July	55	115	
August	46	120	
September	63	106	
October	56	90	
November	51	99	
December	46	104	

These figures do not include improvised explosive device finds with no detonation or improvised explosive device false alarms. These figures are based on information derived from a number of sources and can only be an estimate, not least because of the difficulties in ensuring a consistent interpretation of the basis of collating statistics in a complex fast-moving multinational operational environment.

Nick Harvey: To ask the Secretary of State for Defence what investigations his Department has undertaken into incidents involving civilian death or injury as a result of the use by British forces of enhanced blast munitions in Afghanistan. [284854]

Mr. Bob Ainsworth: UK forces thoroughly investigate all reports of civilian casualties in Afghanistan, regardless of their potential cause. We regret incidents where

civilians are accidentally killed as a result of actions by UK armed forces. In addition to investigating all reports of civilian casualties, procedures are in place, and being constantly updated in the light of experience, to minimise the risk of these casualties occurring.

Mr. Laws: To ask the Secretary of State for Defence which UK helicopter types were deployed in Afghanistan as at 13 July 2009; and if he will make a statement. [287699]

Mr. Bob Ainsworth: ISAF helicopter support in Regional Command (South) in Afghanistan is provided through a multinational pool to which the UK makes a significant contribution. The UK currently has Chinook, Sea King and Lynx helicopters deployed to undertake combat support roles, and in addition has Apache attack helicopters deployed in theatre.

Mr. Ellwood: To ask the Secretary of State for Defence what his policy is on day landings at Kandahar airbase. [287928]

Mr. Bob Ainsworth: The Ministry of Defence takes a risk based approach to landings at all operational bases, including Kandahar airbase. The level of risk takes into account the task concerned, the security situation and the aircraft. I am withholding further information on this subject as its disclosure would prejudice the capability, effectiveness or security of the armed forces.

Mr. Lancaster: To ask the Secretary of State for Defence how many of the Mk3 Chinooks currently being upgraded he expects will be deployed to Afghanistan; and what the dates of deployment will be. [287936]

Mr. Quentin Davies: We are converting the eight Chinook Mk3 helicopters to a support helicopter role. The first of these aircraft will be delivered to operational squadrons before the end of this year thus increasing the pool of Chinooks available for deployment. It is for the chain of command to determine how many and which of their aircraft should be deployed and when.

Ann Winterton: To ask the Secretary of State for Defence what supplies were lost when the Mi-26T helicopter carrying supplies to a British base in Afghanistan crashed on 14 July 2009; and of what nationality the crew members of that helicopter were. [288220]

Mr. Bob Ainsworth: The Mi-26T helicopter was carrying non-sensitive cargo, including food and fuel, when it crashed. The crew members were Ukrainian.

Ann Winterton: To ask the Secretary of State for Defence what *(a)* types of aircraft and *(b)* nationality of aircraft crews other than British, American and Canadian supply British forces in Afghanistan. [288221]

Mr. Bob Ainsworth: A combination of UK military and civilian charter aircraft are used to transport supplies to British forces in Afghanistan. Within Afghanistan, supplies are delivered to UK forces by UK Hercules and C17 aircraft, UK Chinook, Sea King and Lynx helicopters and by helicopters from troop contributing nations in Regional Command (South). Within Regional Command (South), helicopter support is provided from a multinational pool of helicopters, to which the UK makes a significant contribution. The UK also makes use of a range of civilian helicopters through the NATO logistics supply contract and a UK contract for transporting non-sensitive stores.

We are not able to comment on the types of helicopter deployed by other nations in Regional Command (South) or on the nationality of the crews which operate them, since this is a matter for each individual nation. Contracts for helicopter assets are let for the provision of a capability. Consequently, the types of contracted helicopter and the nationality of those who operate them are a matter for the contractor.

Mr. Hoyle: To ask the Secretary of State for Defence what the maximum number of *(a)* Royal Navy and *(b)* Royal Air Force helicopters is which could be deployed in Afghanistan. [288238]

Mr. Bob Ainsworth: I refer the hon. Member to the answer the hon. Member for Grantham and Stamford (Mr. Davies) gave on 17 June 2009, *Official Record*, column 338W, to the hon. Member for Woodspring (Dr. Fox).

Helicopters and crews from all three services continue to serve with distinction in Afghanistan. We have already deployed to Afghanistan the maximum number of helicopters that are both properly equipped for the challenges of the operational theatre, and that we can sustain on an enduring basis. While it would be possible to surge additional helicopters into theatre on a temporary basis, this would be unsustainable over time and would severely impact upon the achievement of harmony guidelines for helicopter air and ground crews and training of new and existing crews. We are working hard to increase the number of deployed helicopters but we need to do so sustainably. That is why we have been investing in additional aircraft and crews, logistics and infrastructure, as well undertaking significant modifications to our existing helicopter fleet to enhance their capabilities.

Helicopter capability is measured by flying hours rather than airframe numbers. The helicopter fleet is managed to ensure that our operational and other commitments are met, including an 84 per cent. increase in flying hours in Afghanistan between November 2006 and April 2009.

Mr. Moore: To ask the Secretary of State for Defence pursuant to the answer of 11 June 2009, *Official Report*, column 999, on armed conflict: Afghanistan, what his policy is on the introduction of a single, uniform system by which all members of the International Security Assistance Force investigate and provide compensation to civilian casualties. [283871]

Mr. Bob Ainsworth: A civilian casualties tracking cell has been established by NATO ISAF to investigate reports, with the Government of Afghanistan, of alleged incidents involving ISAF in Afghanistan.

As detailed in my answer of 11 June 2009, *Official Report*, column 999W, compensation claims brought against the Ministry of Defence as part of the International Security Assistance Force are considered on the basis of whether or not the Department has a legal liability to pay compensation. Where there is a proven legal liability, under UK law, compensation is paid.

Other members of the International Security Assistance Force will also assess liability when considering compensation claims though this will be against their own national law. This therefore precludes the implementation of a uniform system for providing compensation for civilian casualties.

Apache Helicopters

Mr. Wallace: To ask the Secretary of State for Defence (1) what through-life upgrades are planned for the Apache helicopter; [288195]

(2) when he plans to start the Block 3 upgrade to the Apache helicopter. [288194]

Mr. Quentin Davies: The MOD plans to upgrade the Apache helicopter throughout its life to sustain the capability provided, through a Spiral Development programme, starting before 2017 when the US Army will stop operating their AH64D block 1 aircraft on which the Apache AH Mk1 is based. A number of options have been identified, which include utilising US Army block 3 technology. The UK assessment phase of the upgrade is scheduled to commence in financial year 2012-13.

Armed Forces: Afghanistan

Mr. Ellwood: To ask the Secretary of State for Defence what percentage of all Afghan government military forces are based in Helmand province; and what efforts are being made to increase that percentage. [287272]

Mr. Bob Ainsworth: The number of Afghan National Security Forces in Helmand province is approximately 7,500, the total number of Afghan National Security Forces in Afghanistan is approximately 170,000.

The decision on where to deploy Afghan National Security Forces is a decision for the Afghan Government. The UK is working closely with the Government of Afghanistan, the International Security Assistance Force, and the Combined Security Transition Command to ensure that new Afghan National Security Force units are deployed where they are needed most.

Mr. Hancock: To ask the Secretary of State for Defence how many UK service personnel have been killed or seriously injured while being transported in road vehicles on operations in Afghanistan in circumstances where helicopters would have been used for the transport if they had been available in each of the last five years. [287434]

Mr. Bob Ainsworth: The Ministry of Defence recognises the vital role that helicopters play in supporting operations in Afghanistan. There are also many tasks that can only be carried out by troops on the ground, and situations in which road vehicles are a more suitable or better means of transporting personnel than helicopters.

It is not possible to make an assessment of whether an incident in which a UK serviceman has been killed or sustained serious injuries could have been avoided should a helicopter have been used in place of a road vehicle. We constantly monitor and respond to the capability and protection requirements of our troops, and strive to ensure that our armed forces have the protection and mobility they need to do their jobs as safely and effectively as modern technology allows.

Armed Forces: Health Services

Willie Rennie: To ask the Secretary of State for Defence for how many service personnel his Department has purchased accelerated access to *(a)* NHS and *(b)* private treatment in each region in each of the last 10 years. [282936]

Mr. Kevan Jones: Accelerated access is a term used by MOD in the context of physical illnesses and injuries. It is separate to the specific "fast track" arrangements for orthopaedic treatment; separate provision is also made for access to in-patient care for mental health conditions.

Secondary healthcare accelerated access for Service personnel is commissioned through the NHS. In England, contracts have been established with selected NHS Trusts in the locations shown in the following table. There are no such formal arrangements with private sector providers for physical conditions.

Patients based in the devolved Administrations who require accelerated access will have this provided through local commissioning arrangements with relevant NHS Trusts.

Comprehensive data for the last 10 years are not readily available and could be provided only at disproportionate cost. However, during the period 2004-05 to 2007-08 a total of 100,112 treatments have been delivered through accelerated access arrangements in England. A detailed breakdown of this activity by hospital is provided in the following table.

	Derriford	*Frimley Park*	*Northallerton*	*Peterborough*	*Portsmouth*	*RCDM*[1]	*Royal Surrey*
2004-05	2,491	5,897	3,106	4,985	6,895	2,214	962
2005-06	1,858	5,554	3,421	4,762	6,605	1,777	876
2006-07	2,770	5,663	3,511	5,109	5,057	2,191	887
2007-08	2,470	6,754	3,011	4,741	2,953	2,684	908
Total	9,589	23868	13,049	19,597	21,510	8,866	3,633

1 Royal Centre for Defence Medicine, hosted by University Hospital Birmingham Foundation Trust

Final confirmed numbers for 2008-09 are not yet available.

Willie Rennie: To ask the Secretary of State for Defence (1) on how many occasions his Department has arranged fast access to *(a)* NHS and *(b)* private surgery under the orthopaedic-fast track programme for service personnel in each region in each of the last 10 years; [283007]

(2) what the average waiting time for service personnel to receive physiotherapy *(a)* on the orthopaedic-fast track programme and *(b)* in each of his Department's regional rehabilitation units was in each of the last 10 years. [283006]

Mr. Kevan Jones: The most common medical conditions in military patients are musculo-skeletal disorders. Since April 2004, for patients with these conditions, we have

arranged rapid access to diagnosis and, for the minority who are then found to need it, surgery in NHS facilities, thus enabling the services to respond to the current high operational tempo and return personnel to full fitness for task when this is clinically deliverable.

The following table shows how many referrals to fast-track surgery have been made by each rehabilitation and recovery unit in the UK in each financial year since 2005-06. Details as to which medical facility each referral was made could be obtained only at disproportionate cost. Figures for 2004-05 are not readily available.

	2005-06	2006-07	2007-08	2008-09[1]	2009-10[2]
Aldergrove	10	114	6	7	1
Aldershot	90	28	14	21	1
Belfast	39	32	36	13	18
Catterick	7	22	32	10	14
Colchester	24	35	39	9	7
Cranwell	40	40	27	7	1
Edinburgh	90	147	64	20	8
Halton	81	97	93	15	22
Honington	17	24	25	37	4
Lichfield	22	65	71	13	20
London (Headley Court)	3	14	20	9	1
Plymouth	43	96	115	68	19
Portsmouth	47	101	47	52	7

[1] 2008-09 statistics subject to final analysis and confirmation
[2] 2009-10 figures up to June 2009

Typically we achieve a decision as to which path the patient will follow, either to surgery or straight to physiotherapy/rehabilitation within 10-20 days of injury. Those needing only physiotherapy/rehabilitation treatment (the majority) are referred directly for treatment in one of the RRUs. Typically, these patients will start physiotherapy within four to six weeks of the decision on their treatment path.

Patients requiring physiotherapy following fast track surgery will receive this either at a local MOD Primary Care Rehabilitation Facility (PCRF) or by referral back to an RRU. This will usually commence within two weeks of surgery, depending upon the patient's individual and geographic circumstances. No strict measure of waiting times are taken, as each patient's care pathway is individually managed and co-ordinated by the referring RRU, and timescales will depend on continuing assessment and surgical outcome.

Willie Rennie: To ask the Secretary of State for Defence (1) at which armed forces medical centres the Defence Medical Information Capacity Programme is in use; and on what date the programme is expected to be introduced at medical centres where it is not yet in use; [283026]

(2) what mechanisms are in place to ensure the exchange of information between the Defence Medical Information Capacity Programme and health services in the devolved administrations; [283027]

(3) whether the roll-out of the Defence Medical Information Capability Programme has been completed; [283036]

(4) when the interface between the Defence Medical Information Capacity Programme and the NHS National Programme for IT is expected to be completed. [283082]

Mr. Kevan Jones: The roll-out of the Defence Medical Information Capability Programme (DMICP) is being undertaken in three parts, to fixed permanent defence medical facilities; to deployed defence medical facilities; and to enable information exchange with the NHS. The first part of the roll-out is now drawing to a close. The list of medical centres where DMICP is already in use and a list of the expected dates of implementation of DMICP in medical centres, where it is not yet in use will be placed in the Library of the House.

The second part of the roll-out is to cover deployed operational and maritime units. It is expected to start in September 2009 with field trials and pilot sites, with the main roll-out due to begin in January 2010. The deployed roll-out is expected to complete by December 2010, subject to any necessary rescheduling for operational reasons, ship upkeep and maintenance periods, and to reflect lessons learned from earlier phases.

Services to deliver the third part of the roll-out—the interface between DMICP and the NHS National Programme for IT (NPfIT)—will be introduced in a phased manner beginning later this year and are expected to be completed by the end of 2014.

Although NPfIT does not extend to the NHS in the devolved Administrations, we are in contact with their health officials so that as far as possible the same benefits, in terms of speedy and accurate exchange of data, will be available to defence patients and medical staff in Scotland, Wales and Northern Ireland over the same period.

Armed Forces: Helicopters

Dr. Fox: To ask the Secretary of State for Defence how many *(a)* Army, *(b)* Royal Air Force and *(c)* Royal Navy personnel (i) entered and (ii) completed pilot training for each helicopter type in each of the last five years. [284518]

Bill Rammell: Initial training for all three Services is provided by the Defence Helicopter Flying School (DHFS) at Shawbury. Around 140 new pilots complete the training

each year. On completion of single engine training at DHFS, the three Services conduct separate training streams leading to the final phase in which pilots convert onto specific aircraft types. This is known as Operational Conversion Flight/Operational Conversion Unit training.

The numbers of armed forces personnel who entered and completed helicopter conversion to type pilot training, by each helicopter type, in the last five years, where data are available, are provided in the following tables.

Royal Navy helicopters

Personnel numbers

A breakdown by Service of pilots trained on RAF and Royal Navy helicopter types is not held centrally and could be provided only at disproportionate cost.

Pilots entering training in one year may not complete training in the same year. Therefore, numbers entering and completing training in each of the financial years may not equate.

Armed Forces: Housing

Lady Hermon: To ask the Secretary of State for Defence how many emergency maintenance requests were made for properties occupied by service personnel and their families in each month since October 2007; and what the average time was for requested maintenance to take place. [277258]

Mr. Kevan Jones: The requested information is not held centrally and will take a little time to collate and verify. I will write to the hon. Member.

Substantive answer from Kevan Jones to Lady Sylvia Hermon:

In my answer of 1 June 2009 (Official Report, column 37W) I undertook to write to you with details of how many emergency maintenance requests were made for properties occupied by Service personnel and their families in each month since October 2007; and what the average time was for requested maintenance to take place.

The table below shows the number of emergency repair calls in the UK since October 2007. Like for like information about cases overseas is not held centrally or on a consistent basis.

	UK
October 2007	3,085
November 2007	3,784
December 2007	3,637
January 2008	4,105
February 2008	3,464
March 2008	3,412
April 2008	3,073
May 2008	2,389
June 2008	2,263
July 2008	2,621
August 2008	2,809
September 2008	3,046
October 2008	3,591
November 2008	4,044
December 2008	5,441
January 2009	5,022
February 2009	3,739
March 2009	3,447

Information on response times is not held in the format requested. The MOD contract sets the response time for attending emergency repairs as 3 hours, and repairs to remedy or make safe are to be completed within 24 hours.

In the UK, requests for repairs to Service Family Accommodation are classed as an emergency in cases where there is an immediate risk of injury to individuals or damage to property, or where the problem could give rise to serious inconvenience or hardship to occupants. Examples include a total loss of essential facilities or insecure premises.

Angus Robertson: To ask the Secretary of State for Defence how many and what percentage of units of service *(a)* single living accommodation and *(b)* service family accommodation at each location in (i) England, (ii) Wales and (iii) Northern Ireland are in each condition grade. [287911]

Mr. Kevan Jones: Details of single living accommodation (SLA) and service family accommodation (SFA) units broken down by grade and location in England, Wales and Northern Ireland are not held centrally and could be provided only at disproportionate cost.

However, as at June 2008, the latest date for which figures are available, SLA in each country was at the following "grade", an assessment of the physical condition of the accommodation and "scale".

	Grade 1	*Grade 2*	*Grade 3*	*Grade 4*	*Total*
England	30,705	15,702	18,862	56,799	122,068
Percentage	25	13	15	47	—
Northern Ireland	1,002	960	1,402	776	4,140
Percentage	24	23	34	19	—
Wales	671	1,277	160	1,129	3,237
Percentage	21	39	5	35	—

An asset survey of SFA in England and Wales is currently being undertaken to help plan and prioritise the maintenance and improvement of SFA properties more effectively and to target resources at areas of greatest need. As at 1 July 2009, of the 44,000 SFA properties in England and Wales, over 33,500 had been surveyed and were at the following Standard for Condition (SfC).

SfC	*Number of properties*	*Percentage*
S1fC	12,089	36
S2fC	19,525	58
S3fC	1,850	6
S4fC	231	[1]—

[1] Less than 1 per cent.

Although NI SFA has not been assessed for its SfC, it is generally considered to be in a good condition.

Armed Forces: Mental Health Services

Willie Rennie: To ask the Secretary of State for Defence how much funding his Department has given to each military department of community mental health in each year since their inception; and how much has been allocated to each department in the next two years. [283077]

Mr. Kevan Jones: The MOD has 15 Departments of Community Mental Health (DCMHs) in the UK (with additional satellite centres in Germany, Cyprus and Gibraltar), which have since 2004 provided out-patient mental healthcare for members of the armed forces. Responsibility for their individual management is shared between the single service commands, and it is not possible to separate out costs from overall unit medical budgets. Each service funds its respective DCMHs differently, with funding provision coming from a number of areas. Due to the number of budgets to which costs would be attributable, any detailed study of DCMH finances would incur disproportionate costs.

Nick Harvey: To ask the Secretary of State for Defence (1) how many military psychiatrists of each specialism there are in each of the armed services; and at what location each is working; [283663]

(2) how many service personnel have been referred to a military psychiatrist in each of the last 10 years. [283664]

Mr. Kevan Jones: All military psychiatrists are trained as general psychiatrists. There are currently 15 uniformed consultant psychiatrists working for the Defence Medical Services (DMS), as well as 13 civilian consultant psychiatrists, many of whom are former military members of the DMS. They work in the military Departments of Community Mental Health (DCMH), which provide out-patient mental health care for members of the armed forces. I will place a copy of the specific location of each consultant in the Library.

	Military psychiatrists	Civilian psychiatrists	Total
Aldershot	1	1.5	2.5
RAF Brize Norton	1	1	2
Catterick	2	1	3
Colchester	1	0	1
RAF Cranwell	1	0	1
Donnington	1	1	2
RAF Kinloss	1	0	1
RAF Leuchars	0.5	0	0.5
RAF Marham	1	0	1
Northern Ireland	0.5	0	0.5
Plymouth	0	3	3
Portsmouth	0	2.5	2.5
Tidworth	1	1	2
Woolwich	1	0	1
Rhine (Germany)	1	0	1
Holme (Germany)	0	1	1
Paderborn (Germany)	0	1	1
Gutersloh (Germany)	1	0	1
Other[1]	1	0	1
Total	15	13	28

[1] "Other" includes personnel in staff posts.

Note:
Two individuals work part-time at two separate DCMHs. These are shown as "0.5" at each location.

Service personnel who have a concern about their mental health will normally be referred in the first instance for assessment and/or treatment at one of the DCMHs, which are manned by multi-disciplinary teams of consultant psychiatrists, clinical psychologists, community mental health nurses and mental health social workers.

Since July 2007 the Defence Analytical Services and Advice (DASA) organisation has reported on the psychiatric morbidity of the UK armed forces. Quarterly reports for the whole of 2007 and 2008 are available to view both in the Library of the House and on the DASA website at the following link:

www.dasa.mod.uk

Equivalent verified data prior to 2007 are not held centrally and could be provided only at disproportionate cost.

The morbidity report shows numbers of new attendances at DCMHs or at the MOD's in-patient contractor during each quarter and the results of the initial mental health assessment. However, the data collected do not indicate whether an individual was seen by a military psychiatrist or by another qualified member of the mental health team.

Armed Forces: Training

Dr. Fox: To ask the Secretary of State for Defence how many armed forces personnel *(a)* entered and *(b)* completed fast jet training in each aircraft type in each of the last five years. [284519]

Bill Rammell: The following table provides the number of RAF and RN personnel who *(a)* entered and *(b)* completed fast jet training and the type of aircraft they trained on in each of the last five years. All personnel start training on the Hawk but move on to receive more advanced training on other types of aircraft.

	Financial year				
Aircraft type	2004-05	2005-06	2006-07	2007-08	2008-09
(a)					
Hawk	65	61	71	70	69
(b)					
Harrier GR7/9	8	7	6	3	6
Tornado GR 4	28	27	26	29	26
Tornado F3	28	19	18	12	6
Typhoon	0	0	4	3	4
Jaguar	9	4	0	0	0
Total	73	57	54	47	42

Note:
Jaguar was withdrawn from Service after financial year 2005-06 and formal Typhoon pilot training commenced in financial year 2006-07.

With the introduction of Typhoon we are bringing into service a state of the art multi-role weapons system, suitable and adaptable to meet the challenges of the 21st century. It is in certain key aspects already a significantly more capable platform than the aircraft it replaced and it continues to develop and improve. Typhoon requires only a one-person crew rather than a two-person crew like the Tornado F3, which is being phased out.

Additionally, as the 2004 Defence White Paper "Delivering Security in a Changing World" made clear, "the effectiveness of modern precision weapons and sensors, which can be used in all weathers, day and night, mean that highly accurate air delivered offensive effects can be achieved with fewer fast jets than before... Similarly the air threat to deployed forces has greatly reduced and the capability of our air superiority aircraft and other air defence assets is continuing to improve. So we need fewer aircraft and fewer ground-based air defence systems to meet the threat."

The number of fast-jet aircrew completing training is sufficient to meet training requirements, and aircrew training for Typhoon is planned to increase over the next few years as the aircraft comes into wider service. Under current plans, by 2014-15 there will be an annual requirement for 16 newly qualified Typhoon pilots each year, to support a requirement for 92 front-line Typhoon pilots within a total force of 122 pilots.

Bob Spink: To ask the Secretary of State for Defence in what proportion of his Department's military training exercises *(a)* an injury to armed forces service personnel, *(b)* damage to public property and *(c)* damage to private property has occurred in each of the last 10 years. [286357]

Bill Rammell: The information requested is not held centrally and could be provided only at disproportionate cost. I can assure the House, however, that every effort is taken to ensure that our service personnel undertake military training safely and to minimise damage to either public or private property.

We can identify the number of service personnel who have sustained an injury whilst on a training exercise as reported on the MOD Health and Safety systems between 2006 and 2008[1].

[1] Figures have been rounded to the nearest five.

Service	*2006*	*2007*	*2008*
Naval Service[1]	65	5	25
Army	240	240	325
RAF	30	15	20

[1] Naval Service figures include Royal Navy and Royal Marines.

Armed Forces: Yorkshire and the Humber

Hugh Bayley: To ask the Secretary of State for Defence how many people were recruited to the armed forces through Armed Forces Career Offices in the Yorkshire and the Humber in each year since 2001. [285704]

Mr. Kevan Jones: The number of officers recruited to the Royal Air Force through Armed Forces Career Offices in the Yorkshire and Humberside area can be found in the following table.

	RAF
2003-04	20
2004-05	10
2005-06	20
2006-07	20
2007-08	30
2008-09	30

The Naval Service currently recruit officers through one of seven Officer Careers Liaison Centres (OCLCs) situated throughout England, and Army officers are currently recruited by Army Career Advisors and are not recruited through the Armed Forces Career Offices. Both of these figures are not held centrally and could be provided only at disproportionate cost.

The number of Other Ranks recruited to the armed forces through Armed Forces Career Offices in the Yorkshire and Humberside area can be found in the following table.

	Naval Service	*Army*	*RAF*
2001-02	—	1,330	—
2002-03	—	1,510	—
2003-04	270	1,300	310
2004-05	260	1,020	180
2005-06	280	1,110	130
2006-07	250	1,390	180
2007-08	240	1,230	230
2008-09	260	1,300	320

Following a move onto a new reporting system accurate data for the Naval Service and RAF are only available from financial year 2003-04.

Yorkshire and Humberside covers the Armed Forces Careers Offices based in Hull, Leeds and Sheffield. Additionally Army Regular soldier figures include those recruited from Army Career Information Offices in York, Scarborough, Barnsley, Doncaster, Bradford, Halifax, Huddersfield and Wakefield.

All figures have been rounded to the nearest 10 to avoid disclosure and are provisional and subject to review.

Armoured Fighting Vehicles

Ann Winterton: To ask the Secretary of State for Defence what assessment he has made of the capacity of the new Husky vehicle to withstand the impact of improvised explosive devices and mines in Afghanistan. [287100]

Mr. Quentin Davies: I refer the hon. Member to the answer I gave her on 14 July 2009, *Official Report*, column 269W. Husky has been subject to a range of tests, including the impact of improvised explosive devices. It has passed these tests, but for reasons of operational security it would be inappropriate to comment further.

Ann Winterton: To ask the Secretary of State for Defence what the cost per vehicle is of the extra armour added to the new Husky vehicle prior to deployment. [287101]

Mr. Quentin Davies: The armour solution on Husky is an integral part of the vehicle, embodied on the production line. There is no extra armour added to the vehicle prior to deployment. There is therefore no cost for extra armour.

Ann Winterton: To ask the Secretary of State for Defence what the unladen weight is of the new Husky vehicle. [287102]

Mr. Quentin Davies: The unladen weight of the Husky cannot be released as this would, or would be likely to, prejudice the operational security of our armed forces.

Armoured Fighting Vehicles: Procurement

Ann Winterton: To ask the Secretary of State for Defence what criteria were used in the evaluation process for the procurement of the new Husky vehicle. [287099]

Mr. Quentin Davies: The Navistar Defence vehicle selected for the Husky programme was evaluated against a number of key user requirements, which included protection and mobility, a demanding delivery timeline and the requirement to provide value for money.

Army: Training

Mr. Wallace: To ask the Secretary of State for Defence what the average waiting time for an Army infantry recruit to enter basic training after passing initial entry assessments and requirements was in the latest period for which figures are available. [288199]

Mr. Kevan Jones: Over the period 1 July 2008 to 30 June 2009, the average waiting time between an applicant obtaining a pass at an Army development and selection centre and commencing infantry training was 79 days.

Having obtained a pass at a selection centre, a commencement date is mutually agreed by the individual and their recruiting staff, and is tailored to the Army's and the individual's circumstances.

Astute Class Submarines

Mr. Hancock: To ask the Secretary of State for Defence what the estimated in-service date is for each of the first four Astute-class submarines. [287192]

Mr. Quentin Davies: I refer the hon. Member to the answer I gave him on 22 January 2009, *Official Report*, column 1667W. The Astute programme is currently being re-baselined and I will make an announcement in due course.

Baha Mousa Inquiry

Harry Cohen: To ask the Secretary of State for Defence whether legal aid has been made available to any persons who are to appear as witnesses at the Baha Mousa Inquiry. [287179]

Mr. Bob Ainsworth *[holding answer 16 July 2009]:* Legal aid is not available to participants in public inquiries. However, under the Inquiries Act 2005 the chairman may make awards where he considers it appropriate. I understand that the right hon. Sir William Gage, chairman of the Baha Mousa Public Inquiry, which is established under the Inquiries Act, has made two awards under section 40(2) of that Act in respect of legal representation for two of the Inquiry's core participants. Separately, legal assistance at no cost to the individual will be offered to all current and former service personnel and civil servants who are asked to provide evidence as a consequence of their employment.

Barron Report

Dr. Fox: To ask the Secretary of State for Defence, if he will place in the Library a copy of the Barron Report on defence land needs. [245123]

Mr. Kevan Jones: A copy of the 'Barron Report', which was prepared some years ago, is being obtained and will be placed in the Library of the House.

Substantive answer from Kevan Jones to Liam Fox:

In my answer to your Parliamentary Question of 12 January (Official Report, column 86W), asking for a copy of the Barron Report on defence lands needs to be placed in the Library of the House, I advised that a copy was being obtained and would be placed in the library of the house as soon as practicable.

I regret that, given the amount of time that has elapsed since the production of the Report (some 20 years); and despite strenuous efforts by officials, it has not proved possible to locate a copy.

I apologise for any inconvenience this may have caused.

Clyde Naval Base: Radioactive Waste

Jo Swinson: To ask the Secretary of State for Defence pursuant to the answer of 12 May 2009, *Official Report*, column 753W, on radioactive waste: waste management, if he will introduce an annual review of compliance with best practice of arrangements for the handling, movement, processing, storage and disposal of radioactive waste at HM Naval Base, Clyde, Faslane. [288295]

Mr. Quentin Davies: Management of radioactive waste at Her Majesty's Naval Base (HMNB) Clyde is carried out in accordance with a comprehensive set of requirements, both statutory and those derived from MOD policy, including authorisation conditions (ACs) imposed by the Department's Defence Nuclear Safety Regulator. These ACs require an annual review to be carried out for all nuclear facilities, including the two facilities that deal with radioactive waste: the Active Processing Facility and the Radioactive Effluent Disposal Facility.

Damian McBride

Mr. Maude: To ask the Secretary of State for Defence on what date he last met Mr Damian McBride in the course of his official duties. [287396]

Mr. Bob Ainsworth: I have not met with Damian McBride in the course of my official duties.

Defence: Procurement

Sir Nicholas Winterton: To ask the Secretary of State for Defence what reports he has received of the outcome of legal proceedings in the United States against L-3 Communications Corporation; if he will assess the effect on his Department's policies on *(a)* security and *(b)* ethical procurement of its contract with L-3 Communications Corporation to examine the replacement of the Nimrod R-1 fleet; and if he will make a statement. [278808]

Mr. Quentin Davies: The Ministry of Defence is aware of the legal proceedings in the USA involving L-3 Communications, with whom MOD has a number of contracts.

We have not yet made a final decision on the solution for sustaining the Airborne Signals Intelligence Capability, currently provided by Nimrod R-1.

All major equipment procurements are subject to MOD's assurance processes, which include an assessment of the suitability of prospective contractors before any commitments are entered into.

Departmental Buildings

Susan Kramer: To ask the Secretary of State for Defence what *(a)* land and *(b)* buildings his Department has sold since 1997. [278021]

Mr. Kevan Jones: Records of transactions prior to 2000 are not held centrally and could be provided only at disproportionate cost. I will write to the hon. Member with the information on land and buildings sold since 2000 as soon as this data has been verified and collated.

Substantive answer from Kevan Jones to Susan Kramer

In my answer of 9 June 2009 (Official Report, column 831W) I undertook to write to you with details of what land and buildings have been sold since 1997.

I am placing a copy of the details of the land and buildings that have been sold since 2000 in the Library of the House.

As I indicated in my earlier response, records of transactions prior to 2000 are not held centrally and could only be provided at disproportionate cost.

Departmental Contracts

Lorely Burt: To ask the Secretary of State for Defence how many contracts let by his Department were awarded to businesses with fewer than 50 employees in each of the last five years; and what the monetary value of such contracts was in each such year. [287798]

Mr. Quentin Davies: The information requested is not held centrally and could be provided only at disproportionate cost.

Departmental Data Protection

Jenny Willott: To ask the Secretary of State for Defence (1) how many successful attempts were made to gain unauthorised access to each *(a)* database and *(b)* ICT system run by his Department in (i) 2008 and (ii) 2009; and if he will make a statement; [286557]

(2) how many attempts were made to gain unauthorised access to each *(a)* database and *(b)* ICT system run by his Department in (i) 2008 and (ii) 2009; and if he will make a statement. [286556]

Mr. Bob Ainsworth: It would not be in the interests of the UK's national security for the MOD to confirm whether it holds information about attacks against its data or ICT systems as this would enable individuals to deduce how successful the Department is in detecting these attacks.

Departmental Detergents

Annette Brooke: To ask the Secretary of State for Defence if he will make it his policy to ensure that no cleaning products or ingredients of cleaning products used by his Department have been tested on animals. [261130]

Mr. Bob Ainsworth: Cleaning services are generally procured by the Ministry of Defence through wider Facilities Management and PFI contracts. The MOD requires contractors to comply with all applicable legislation. Above this, the Department does not have a specific policy regarding animal testing.

Departmental Disclosure of Information

Dan Rogerson: To ask the Secretary of State for Defence (1) which requests for information received by his Department under the provisions of the Freedom of Information Act 2000 in 2008 were *(a)* classified as not resolvable and *(b)* refused in full; [286135]

(2) in respect of which requests for information received by his Department in 2008 under the provisions of the Freedom of Information Act 2000 it has received permission to extend the deadline for a response by more than 40 days; and what the reason for the request for an extension was in each case. [286159]

Mr. Kevan Jones: In 2008 the Ministry of Defence received some 2,631 requests for information centrally, under the Freedom of Information Act.

As of 30 January 2009,258 cases were closed in which the information requested was withheld in full. A further 315 cases were closed and classed as not resolvable.

As at the same date, 49 cases required more than 40 days on top of the statutory 20 working day period and have now been closed. As of 30 January 2009, a further 69 cases remained open in which the statutory 20 working day period and a further 40 working days had passed.

The exact text of each of the 791 requests in the categories listed above, and the detailed reasons for each extension, could be provided at only disproportionate cost. However, I will write to the hon. Member to provide a short summary of each request for information received in 2008 that was classified as 'not resolvable' or 'withheld in full', and list any exemptions that applied. I will also set out simplified reasons for those that have required more than 40 working days on top of the statutory 20 working day period.

Departmental Manpower

Hugh Bayley: To ask the Secretary of State for Defence how many *(a)* regular military, *(b)* Territorial Army and other part-time military and *(c)* civilian personnel were employed by his Department in (i) total, (ii) Yorkshire and the Humber, (iii) North Yorkshire and (iv) City of York in each year since 1997. [285733]

Mr. Kevan Jones: Regular military strength breakdown by Government office region prior to 2002, local authority level breakdown of MOD Civilians prior to 2006 and stationed location of Volunteer Reserve personnel are not held centrally and cannot be provided without incurring disproportionate cost.

The following table shows the total Regular Service, Civilian and Volunteer Reserve Force Strengths. Civilian strength is reported as full-time equivalents (FTE) and includes MOD permanent and casual personnel, trading funds, royal fleet auxiliaries and locally engaged civilians.

	Volunteer reserve force				
	Regular military personnel[1]	*Naval reserves*[2]	*Territorial army*[3]	*Royal auxiliary air force*	*MOD civilian personnel*
1997	210,820	4,260	n/a	2,020	133,330
1998	210,140	4,440	n/a	2,490	126,290
1999	208,640	4,520	n/a	2,620	123,010
2000	207,610	4,820	n/a	2,740	121,290
2001	205,650	4,830	n/a	2,570	118,170
2002	204,680	4,980	n/a	2,590	110,090
2003	206,910	4,910	n/a	2,580	107,580
2004	207,020	4,480	38,320	2,580	109,050
2005	201,100	4,360	37,260	2,450	108,470
2006	195,850	n/a	38,460	2,300	103,380
2007[4]	190,400	3,680	36,790	p2,160	97,690
2008[5]	187,060	3,590	p35,020	p2,200	89,500
2009[6]	188,370	n/a	p35,350	n/a	86,620

The following table shows the strength of regular military and civilian personnel in Yorkshire and the Humber Government Office Region (GOR). Civilian strength is reported in full-time equivalent (FTE) for MOD permanent and casual personnel only. GOR breakdown excludes trading funds, royal fleet auxiliaries and locally engaged civilians.

	Regular military personnel[1]	*MOD civilian personnel*
2001	n/a	2,880
2002	13,760	2,840
2003[7]	n/a	3,400
2004[7]	n/a	3,770
2005	13,830	3,790
2006	13,040	3,700
2007	13,790	3,590
2008	13,530	3,560
2009	14,730	3,640

The following table shows the strength of regular military and civilian personnel in North Yorkshire. Civilian strength is reported in full-time equivalent (FTE) for MOD permanent and casual personnel only. Local authority level breakdown excludes trading funds, royal fleet auxiliaries and locally engaged civilians.

	Regular military personnel[1]	*MOD civilian personnel*
2002	12,000	n/a
2003[7]	n/a	n/a
2004[7]	n/a	n/a
2005	12,690	n/a
2006	11,880	2,000
2007	12,540	1,980
2008	12,140	1,950
2009	13,310	1,930

The following table shows the strength of regular military and civilian personnel in City of York. Civilian strength is reported in full-time equivalent (FTE) for MOD permanent and casual personnel only. Local authority level breakdown excludes trading funds, royal fleet auxiliaries and locally engaged civilians.

	Regular military personnel[1]	*MOD civilian personnel*
2002	640	n/a
2003[7]	n/a	n/a
2004[7]	n/a	n/a
2005	730	n/a
2006	710	760
2007	800	650
2008	840	650
2009	880	680

n/a = not available
p = provisional
[1] UK Regular forces includes all trained and untrained personnel. Gurkhas, full-time Reserve personnel, and mobilised reservists are excluded.
[2] Includes the Royal Naval Reserve and Royal Marine Reserve.
[3] Territorial Army data prior to 2004 are not available.
[4] 2007 Territorial Army data are as at 1 March.
[5] 2008 Territorial Army data are as at 1 June.
[6] Data on Naval Reserves and Royal Auxiliary Air Force at 1 April 2009 are due to be published in September 2009
[7] 2003-04 Regular military stationed location figures are not available because of concerns over data quality.
Note:
Figures are rounded to the nearest 10, numbers ending in 5 have been rounded to the nearest multiple of 20 to avoid systematic bias.

Mr. Hancock: To ask the Secretary of State for Defence how many civilian staff his Department *(a)* employed in each of the last three years, *(b)* employs and *(c)* plans to employ in each of the next three years. [287199]

Mr. Kevan Jones: Table 1 comprises the total number of Full-Time Equivalent (FTE) civil servants employed by the Ministry of Defence at each 1 April point since 2006.

Table 1: Total civilian personnel strengths

		FTE
	Civilian Level 1	*Civilian Level 0*
April 2006	78,140	103,380
April 2007	73,780	97,690
April 2008	69,050	89,500
April 2009	66,440	86,620

Notes:
1. Civilian Level 1 includes all permanent and casual civilian personnel and Royal Fleet Auxiliaries, but excludes Trading Funds and Locally Engaged Civilians.
2. Civilian Level 0 contains all those at Level 1 plus Trading Funds and Locally Engaged Civilians.
3. Numbers are rounded to the nearest 10. Numbers ending in "5" have been rounded to the nearest multiple of 20 to prevent systematic bias.
4. Full time equivalence counts part time staff by the number of hours they work as a proportion of their full time conditioned hours.

Stat Mann.

Data provided are provisional and subject to review. As the Department develops more mature plans for the delivery of the required input savings and outsourcing then these figures will be subject to change.

Departmental Work Experience

Mr. Oaten: To ask the Secretary of State for Defence how many *(a)* paid and *(b)* unpaid graduate internships his Department has awarded in each of the last six months. [281514]

Mr. Kevan Jones: The information requested is not held centrally and could be provided only at disproportionate cost.

EU Law

Bob Spink: To ask the Secretary of State for Defence what estimate he has made of the cost to his Department of the statutory obligations upon it provided for in legislation introduced as a consequence of obligations arising from EU legislation in the most recent 12 months for which figures are available. [283479]

Bill Rammell: The Department has a responsibility to ensure that it complies with all relevant EU legislation. The cost of complying with these obligations is not held centrally and could be provided only at disproportionate cost.

Future Lynx Helicopters

Mr. Carswell: To ask the Secretary of State for Defence (1) when he expects the first Future Lynx helicopters to enter service; [287236]

(2) what estimate he has made of the cost to the public purse of the procurement of Future Lynx helicopters; [287237]

(3) what his policy is on proceeding with the Future Lynx contract. [287238]

Mr. Quentin Davies: There are two variants of the Future Lynx aircraft which is now known as the Lynx Wildcat. The first aircraft is due to enter service in January 2012, leading to an initial operating capability in 2014 for the Army's Battlefield Reconnaissance Helicopter (BRH) and in 2015 for the Royal Navy's Surface Combatant Maritime Rotorcraft (SCMR). A contract has been agreed with AgustaWestland for the procurement of 62 Lynx Wildcat aircraft. The total cost of the demonstration and manufacture of the project is forecast to be some £1.7 billion.

Gurkhas: Pensions

Mr. Hancock: To ask the Secretary of State for Defence how many Gurkha soldiers who retired prior to 1997 would have qualified for a British Army pension given their length of service, if eligibility for a British Army pension was extended to such soldiers. [287432]

Mr. Kevan Jones: There are no plans to extend eligibility to transfer from the Gurkha pension scheme (GPS) to the armed force pension scheme (AFPS) to those Gurkhas who retired before 1 July 1997. Their pension arrangements have been found to be fair and lawful in two Judicial Reviews and a High Court appeal.

However, of the recipients of the GPS who retired before 1 July 1997 (which includes Gurkha veterans, their widows or dependants), it is estimated that about 1,800, would, by length of service or because of disability, be qualified for an immediate pension from the date of their discharge under the AFPS. A further 8,800 who were discharged after 1 April 1975 would be qualified for a preserved pension under the AFPS from the age of 60.

Those Gurkha service pensioners who served for less than 22 years and who discharged before 1 April 1975, would not be entitled to a service pension since there were no preserved pensions prior to the introduction of AFPS 75.

Helicopters

Ann Winterton: To ask the Secretary of State for Defence what the average cost is of upgrading a Merlin helicopter for use in Afghanistan. [287103]

Mr. Bob Ainsworth: It is envisaged that all 28 Merlin Mk3/3a helicopters will be upgraded at a cost in the region of £42 million. This equates to an average of £1.5 million per aircraft. These figures are lower than previously reported and stated in the written answer my predecessor, my right hon. Friend the Member for Barrow and Furness (Mr. Hutton), gave on 2 March 2009, *Official Report*, column 1364W, to the hon. Member for Congleton. This is due to improved maturity in our cost estimates following work undertaken in the intervening period.

Ann Winterton: To ask the Secretary of State for Defence what progress has been made in the conversion of the eight Mark 3 Chinook helicopters; and if he will make a statement. [287104]

Mr. Quentin Davies: The conversion of the Chinook Mk3 helicopters is progressing well. The first successful test flight of the modified aircraft took place in June 2009. This is a significant milestone on the project. The programme is on schedule to deliver the first aircraft to operational commanders later this year.

HMS Invincible

Mr. Hancock: To ask the Secretary of State for Defence what plans his Department has for the disposal of HMS Invincible. [287194]

Mr. Quentin Davies: HMS Invincible is currently in a state of very low readiness and on present plans she will be withdrawn from service in 2010. Once she has been declared surplus to Royal Navy requirements, all disposal options will be considered.

Military Aircraft

Dr. Fox: To ask the Secretary of State for Defence how many training sorties have been flown by each aircraft type in each of the armed forces in each year since 2003. [284538]

Bill Rammell: Training does not cease after pilots have completed their formal training but continues throughout their flying career because all operational flying contains an element of training. The information is not held in the format requested; either by the number of training sorties undertaken during basic flying training or by qualified personnel undertaking training on other aircraft types. In addition, flying is not recorded by the number of sorties undertaken by individual pilots. Furthermore, the number of hours flown during basic flying training is not held centrally and could be provided only at disproportionate cost.

Military Aircraft Reach and Sustainability Programme

Mr. Hancock: To ask the Secretary of State for Defence when he expects to announce decisions on the future of the Military Aircraft Reach and Sustainability programme. [287191]

Mr. Quentin Davies: The requirements and procurement strategy for the Military Aircraft Reach and Sustainability programme are currently under review and we expect to announce a way forward later this year.

Military Aircraft: Training

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* required and *(b)* actual number of training instructors for each Royal Air Force aircraft type was in each of the last five years. [284545]

Bill Rammell: Historical information for each of the last five years is not held centrally and could be provided only at disproportionate cost.

The required and actual training instructor number for each aircraft type in the armed forces as at 9 July 2009 is provided in the following table. These figures are for RAF flying instructors in current flying instructional positions of all ranks.

Training instructor numbers fluctuate on a day by day basis as individuals are reassigned, medically downgraded or leave the service. The overall aircraft fleet is currently undergoing significant change with some aircraft types drawing down and new aircraft coming into service, such as with the rapid expansion of the Merlin Force. Numbers of training instructors are responding to reflect these changes and action is being taken to ensure that current operations are not affected.

Aircraft type	*Required training instructors*	*Actual training instructors*
Hercules C130J	37	38
Hercules C130K	8	8
VC10	25	22
TriStar	5	5
C17A	3	3
HS125	1	1
BAe146	1	1
Tornado GR4	50	39
Typhoon	27	20
Tornado F3	0	0
Harrier GR9	8	11
Nimrod MR2/MR4	32	29
Nimrod R1	7	7
Sentinel R1	5	5
E3D	25	21
King Air	30	24
Dominie	34	32
Tutor EFT	33	43
Tutor UAS	15	21
Tucano	51	49
Hawk	71	60
Puma	19	21
Chinook	25	23
Merlin	17	15
Squirrel	19	18
Sea King	15	12
Griffin	49	45
Augusta 109	1	1
Reaper	1	1
Islander	1	1

Military Bases: Northern Ireland

Mr. Paterson: To ask the Secretary of State for Defence pursuant to the answer of 6 July 2009, *Official Report*, column 558W, on gifts and endowments, which military bases in Northern Ireland were sold to the Northern Ireland Executive; and at what cost. [287786]

Mr. Kevan Jones: To date, three sites have been sold to the Northern Ireland Executive at market value. They are Grosvenor Barracks, Enniskillen at £15.45 million, Girdwood Barracks, Belfast at £7 million and Clooney Barracks, Londonderry at £12.78 million.

In addition, working in partnership with the Northern Ireland Housing Executive and the Department of Social Development, Oaklee Housing Association were appointed to take ownership of 112 former Ministry of Defence houses at Pond Park, Lisburn which were sold for £7 million in financial year 2008-09.

Navy

Mr. Hancock: To ask the Secretary of State for Defence what his Department's plans are for replacing the Royal Navy's mine countermeasures vessels. [287166]

Mr. Quentin Davies: I refer the hon. Member to the answer I gave on 30 March 2009, *Official Report*, columns 891-92W, to the hon. Member for New Forest, East (Dr. Lewis).

Navy: Manpower

Mr. Hancock: To ask the Secretary of State for Defence how many naval officers are serving on all ships in commission, including those in refit. [287195]

Bill Rammell: I refer the hon. Member to the answers my predecessor gave to the hon. Member for Woodspring (Dr. Fox) on 13 November 2007, *Official Report*, column 127W and 4 February 2009, *Official Report*, column 1257W.

Nuclear Weapons

Dr. Julian Lewis: To ask the Secretary of State for Defence whether a British nuclear deterrent system consisting of *(a)* land-based, *(b)* air-launched and *(c)* ship-borne nuclear cruise missiles would be compatible with the provisions of the 1987 Intermediate-range Nuclear Forces Treaty. [287182]

Mr. Bob Ainsworth: The 1987 Intermediate-range Nuclear Forces Treaty is a bilateral treaty between the US and Russia. The UK is not a state party to the treaty and our nuclear deterrent is not bound by its provisions.

Harry Cohen: To ask the Secretary of State for Defence what his latest estimate is of the lifetime cost of a replacement system for Trident. [288433]

Mr. Bob Ainsworth: I refer the hon. Member to the answer I gave on 13 July 2009, *Official Report*, column 19W, to the hon. Member for Orkney and Shetland (Mr. Carmichael).

Parachute Training

Dr. Fox: To ask the Secretary of State for Defence how much expenditure on parachute training his Department has incurred in each of the last five years. [284534]

Bill Rammell: The figures provided in the following table show the operating and staff costs for: No 1 Parachute Training School (PTS), RAF Brize Norton; its Parachute Support Wings; and the Joint Service Parachute Centres (JSPC). The training undertaken by the PTS and its support wings provide basic parachute training and specialist high altitude training. The JSPCs undertake freefall parachute training as part of military adventurous training.

	Cost (£ million)
2004-05	5.2
2005-06	5.5
2006-07	5.0
2007-08	4.6
2008-09	5.3

The costs include those incurred by the RAF Falcons Display team which cannot be separated. However, the majority of team members are instructors and their display activities are considered to be training in free-fall techniques which they then use in their role as instructors. Military aircraft costs are excluded as they have already been programmed as part of the RAF Management Plan and would be incurred whether the aircraft were used for parachute training or other activities.

During financial year 2005-06 the Parachute Support Wings were restructured, which is a contributory factor in the drop in costs in subsequent years.

Permanent Joint Headquarters

Mr. Lancaster: To ask the Secretary of State for Defence for what reasons there is no permanent representation of *(a)* the Stabilisation Unit and *(b)* the Joint Civic Group at Permanent Joint Headquarters. [287937]

Mr. Bob Ainsworth: There are good working relationships between the Ministry of Defence, Stabilisation Unit and the Joint Civil-Military Co-ordination Group at all levels. No requirement has been identified for permanent representation of the Stabilisation Unit or the Joint Civil-Military Co-ordination Group at the Permanent Joint Headquarters given the close engagement that exists on a wide range of issues.

There is an increasingly capable joint effort in Afghanistan brought together through the Civil Military Mission Helmand which is staffed by civilian personnel from across Whitehall and the armed forces.

Piracy

Mr. Holloway: To ask the Secretary of State for Defence pursuant to the answer to the hon. Member for Shrewsbury and Atcham (Daniel Kawczynski) of 29 June 2009, *Official Report*, column 46W, on piracy: Navy, on what authority the Royal Navy has seized weapons during the boarding of pirate vessels in the last 12 months. [287714]

Bill Rammell: In the last 12 months, the Royal Navy has seized weapons from suspected pirates in accordance with the United Nations Convention on the Law of the Sea (UNCLOS) Article 105.

Principal Anti Air Missile System: HMS Daring

Mr. Hancock: To ask the Secretary of State for Defence what the estimated cost to the public purse is of the Principal Anti Air Missile System; and what the estimated cost is of the construction of HMS Daring. [287197]

Mr. Quentin Davies: As set out in the Major Projects Report 2008 (MPR08), the total procurement cost of the Type 45 programme is £6.5 billion. This includes the design and manufacture costs for all six Type 45s to be built and the Principal Anti Air Missile System (PAAMS), renamed Sea Viper by the Royal Navy. These costs are broadly split 60 per cent. for the ship and 40 per cent. for the weapons system. As set out in MPR08, the unit production cost for each Type 45, including PAAMS, is £649 million.

RAF Regiment Field Squadron

Mark Pritchard: To ask the Secretary of State for Defence when he expects to announce the UK basing arrangements for the new RAF Regiment Field Squadron. [286987]

Bill Rammell: I refer the hon. Member to the written ministerial statement 'RAF Force Protection Wing' released on 9 July 2009, *Official Report*, column 51WS. The new RAF Regiment Field Squadron will be based at either RAF Shawbury or RAF Leuchars. The final outcome of the study to determine the optimum basing solution is expected by autumn 2009.

RFA Fort Austin

Mr. Hancock: To ask the Secretary of State for Defence for how long RFA Fort Austin is planned to remain in extended readiness; and for what reasons it is not being used. [287195]

Mr. Quentin Davies: I refer the hon. Member to the answer my predecessor, my right hon. Friend the Member for East Kilbride, Strathaven and Lesmahagow (Mr. Ingram), gave to him on 3 May 2007, *Official Report*, column 1854W. It is MOD policy not to publish details of the readiness states of individual Royal Navy and Royal Fleet Auxiliary vessels or types.

Thermobaric Weapons

Willie Rennie: To ask the Secretary of State for Defence how many times thermobaric weapons have been used by UK armed forces in each of the last 12 months. [281928]

Bill Rammell *[holding answer 23 June 2009]*: UK armed forces use variants of the AGM-114N Hellfire missile, which is an enhanced blast weapon, in Afghanistan.

The Ministry of Defence does not classify this weapon as thermobaric. It is, however, sometimes referred to as such in the media. The following table provides details of the number of enhanced blast munitions fired on operations over the last 12 months.

	Number
June 2008	5
July 2008	3
August 2008	3
September 2008	3
October 2008	1
November 2008	2
December 2008	0
January 2009	3
February 2009	4
March 2009	13
April 2009	3
May 2009	3
Total	43

Wind Power: Heysham

Geraldine Smith: To ask the Secretary of State for Defence for what reasons his Department has objected to the siting of a wind turbine by British Telecom at Heysham, Morecambe. [287993]

Mr. Kevan Jones: The Ministry of Defence has objected to the Heysham development on the grounds that the turbines would cause unacceptable interference to air traffic control radar at the nearby Warton airfield. It is believed that this would unacceptably jeopardise flight safety in the airspace around the turbines.

We are working with the developer and hope that we can find mitigation measures to enable us to remove our objection. Failing this, the objection will be maintained.

TREASURY

Assets: Sales

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer pursuant to the Prime Minister's oral statement of 29 June 2009, *Official Report*, columns 21-41, on Building Britain's Future, what categories of asset he plans to include in the proposed £16 billion asset sale. [284414]

Mr. Byrne: Budget 2009 announced that new incentives and mechanisms would be introduced with the aim of realising up to £16 billion of property and other asset sales over the period 2011-14. This comprises fixed asset sales. As announced in "Building Britain's future", the Shareholder Executive will be strengthened by the appointment of a board of external experts to support this agenda.

Banks

Andrew Rosindell: To ask the Chancellor of the Exchequer how many banks he has visited on official business in the last 12 months. [287955]

Sarah McCarthy-Fry: I refer the hon. Member to the answer given to him on 10 June 2009, *Official Report*, column 901W.

Budget 2009

Andrew Rosindell: To ask the Chancellor of the Exchequer how many copies of the Budget 2009 Report his Department ordered; and what the cost was of that order. [287947]

Mr. Timms: HM Treasury ordered 1,800 copies of the Budget 2009 report at a cost of £41,000. This figure has been rounded to the nearest thousand pounds and excludes VAT.

Business: Government Assistance

Mr. Oaten: To ask the Chancellor of the Exchequer how many applications have been made under the working capital scheme for small and medium-sized businesses to date. [255607]

Ms Rosie Winterton: I have been asked to reply.

The Working Capital Scheme is not available directly to businesses. The scheme enables participating banks to increase the amount of working capital they can make available to businesses.

By guaranteeing portfolios of working capital facilities, this will release regulatory capital held by the banks against these portfolios. The banks have agreed they will make commitments to re-deploy this capital in order to increase all types of lending to Small and Medium sized Enterprises (SMEs) and Mid Size Corporates above their current base line.

We have signed £1 billion of guarantees with RBS and Lloyds for portfolios of £2 billion. The financing for businesses it releases has already started from 1 March as a result of the lending agreements based on the Asset Protection Scheme and WCS. We will be allocating from the £10 billion WCS, guarantees for trade credit insurance in response to the constraint to working capital arising from withdrawal of trade credit insurance. We will also be consulting on the viability of using some of these guarantees for letters of credit and other forms of export finance which are also possible areas of constraint for working capital.

Charities

Andrew Rosindell: To ask the Chancellor of the Exchequer what recent discussions he has had with charities which have lost money as a result of the collapse of Icelandic banks. [287954]

Sarah McCarthy-Fry: The Government take the problems faced by the charities affected by the Icelandic banking collapse seriously and Treasury Ministers—the Financial Services Secretary and the Economic Secretary—along with the Minister for the Third Sector, have met with representatives of the charities to understand the challenges they face.

Child Trust Fund

Steve Webb: To ask the Chancellor of the Exchequer when he expects to publish the Child Trust Fund annual report for 2009. [287319]

Sarah McCarthy-Fry: There is no date fixed for the publication of the next Child Trust Fund Annual Statistical Report.

Steve Webb: To ask the Chancellor of the Exchequer what estimate he has made of the number and proportion of stakeholder child trust funds which have decreased in monetary value since they were taken out; and what estimate he has made of the average monetary value of such decreases. [288178]

Sarah McCarthy-Fry: HM Revenue and Customs does not hold data on how many individual child trust fund accounts have fallen or risen in value, nor what the average rise or fall in those values has been. Child trust funds are long-term investments, and the first accounts will not mature until 2020.

Child Trust Fund: Bexley

Mr. Evennett: To ask the Chancellor of the Exchequer how many children in *(a)* Bexleyheath and Crayford constituency and *(b)* the London Borough of Bexley had received child trust fund payments by the latest date for which figures are available. [288228]

Sarah McCarthy-Fry: The most recent constituency level statistics on child trust fund accounts were published on 6 November 2008 and can be viewed on the HM Revenue and Customs website at:

http://www.hmrc.gov.uk/ctf/cons-stats-oct08.pdf

There were 11,700 children born before 6 April 2007 in the London borough of Bexley who have a child trust fund account.

Child Trust Fund: Hertfordshire

Mike Penning: To ask the Chancellor of the Exchequer how many children in *(a)* Hemel Hempstead constituency, *(b)* Dacorum and *(c)* Hertfordshire had received Child Trust Fund payments on the latest date for which figures are available. [287861]

Sarah McCarthy-Fry: In Hertfordshire there were 57,300 children born before 6 April 2007 who have a child trust fund account. Similarly in Dacorum there were 7,100 such children.

I referred the hon. Member to the constituency level data available on the HM Revenue and Customs website in my answer to him on 2 July 2009, *Official Report*, column 422W.

Contracts

Mrs. McGuire: To ask the Chancellor of the Exchequer what research has been carried out into the number of contracts for goods or services let by the Government which are then sub-contracted by the prime contractor. [286713]

Ian Pearson: No specific research has been carried out into the number of contracts let by Government which are then subcontracted.

The Glover report, "Accelerating the SME economic engine", refers to limited research conducted by Middlesex university and to earlier external research, both covering SME subcontracting and is available at:

www.ogc.gov.uk/documents/Accelerating_the_SME_Economic_Engine.pdf

Damian McBride

Mr. Maude: To ask the Chancellor of the Exchequer on what date the Parliamentary Secretary to the Treasury last met Mr. Damian McBride in the course of his official duties. [287408]

Sarah McCarthy-Fry: The duties and responsibilities of the Chief Whip are not matters for the Treasury. However, I understand that the Parliamentary Secretary to the Treasury has not met Mr. Damian McBride in the course of his official duties.

Departmental Accountancy

Steve Webb: To ask the Chancellor of the Exchequer when he expects to publish his Department's resource accounts for 2008-09. [287344]

Sarah McCarthy-Fry: The Department's resource accounts for 2008-09 have been published.

Departmental Conditions of Employment

Lynne Featherstone: To ask the Chancellor of the Exchequer what percentage of employees in his Department are on a *(a)* flexible working contract and *(b)* job share employment contract. [287105]

Sarah McCarthy-Fry: The Treasury offers flexible working and job share to staff where operational constraints permit in order to improve work/life balance. Many flexible working arrangements including job share are made informally between managers and staff and are therefore not formally recorded. This information could therefore be provided only at disproportionate cost.

Departmental Flags

Andrew Rosindell: To ask the Chancellor of the Exchequer how many flags his Department owns; and what the cost of maintaining them was in the latest period for which figures are available. [287958]

Sarah McCarthy-Fry: The Treasury owns five flags on which no maintenance costs are incurred.

Departmental Flowers

Andrew Rosindell: To ask the Chancellor of the Exchequer how much his Department spent on flowers in each of the last five years. [287950]

Sarah McCarthy-Fry: For information on spending on flowers by the Department, I refer the hon. Member to the answer I gave on 11 February 2009, *Official Report*, column 2101W to the hon. Member for South-West Surrey (Mr. Hunt). Spending in 2004-05 on flowers was the same as in 2005-06.

Departmental Internet

Andrew Rosindell: To ask the Chancellor of the Exchequer how much has been spent on the maintenance of his Departmental website in each of the last two years. [287953]

Sarah McCarthy-Fry: For previous answer referring to maintenance costs of the departmental website for the last two years, I refer the hon. Member to the answer given on 10 June 2009, *Official Report*, column 901W.

Economic Growth

Andrew Rosindell: To ask the Chancellor of the Exchequer what recent discussions he has had with Ministerial colleagues on economic growth rates over the next two financial years. [287960]

Sarah McCarthy-Fry: The Treasury's latest assessment of the economy was published in Budget 2009 (HC 407). HM Treasury continues to monitor all relevant factors to inform its assessment of the UK economy, and has regular engagements with outside organisations including relevant Government Departments on a range of issues relating to the economy.

Empty Property

Mr. Maude: To ask the Chancellor of the Exchequer which public bodies are not required to report their actual and vacant property to the e-PIMS database. [287360]

Ian Pearson: The following public bodies are not required to report their actual and vacant property to the e-PIMS database:

1. HM Court Service Courts
2. Laboratories
3. Other specialist facilities owned, leased and occupied by central Departments, agencies and NDPB's such as museums, power stations and port facilities
4. Civil engineering infrastructure owned, leased and used by central Departments, agencies and NDPB's such as flood defences, roads, canals and railways.
5. English Heritage estate.
6. Historic Royal Palaces.
7. Defence military estate.
8. Prisons estate.
9. NHS Estate, e.g. hospitals.
10. DEFRA estate e.g. farms.
11. F and CO and Home Office overseas estate.
12. Doctors' surgeries and clinics.
13. Schools.
14. Higher Education facilities.
15. Police stations.
16. Fire stations.
17. All local government estate.
18. The Crown estate.
19. Parliament's estate.
20. Public corporations' estate
21. Devolved assemblies.

EU Grants and Loans: Wales

Hywel Williams: To ask the Chancellor of the Exchequer pursuant to the answer of 17 June 2009, *Official Report*, column 325W, on EU grants and loans: Wales, whether monies received by the Welsh Assembly Government from the EU Convergence Programme are paid through his Department. [287265]

Mr. Byrne: The European Commission makes cash payments from the EU Convergence Programme direct to the United Kingdom paying authorities, including the devolved Administrations, not through HM Treasury.

EU Law

Bob Spink: To ask the Chancellor of the Exchequer what estimate he has made of the cost to his Department of the statutory obligations upon it provided for in legislation on matters for which it is responsible which were introduced as a consequence of obligations arising from EU legislation in the most recent 12 months for which figures are available. [283470]

Sarah McCarthy-Fry: The information requested is not held centrally and could be provided only at disproportionate cost. It is very difficult to provide precise figures for the proportion of UK legislation that stems from the European Union.

Holiday Homes

Miss McIntosh: To ask the Chancellor of the Exchequer (1) what consultation he undertook before deciding to reclassify income from holiday lets as unearned income; [288116]

(2) what estimate he has made of the effects on the revenue of the Exchequer of reclassifying income from holiday lets as unearned income. [288117]

Ian Pearson: The Government are not reclassifying income from holiday lets as unearned income.

Income from furnished holiday lettings will continue to be assessed as property income, but after the repeal of the FHL rules, it will no longer be treated as trade income for certain purposes.

This change was necessary because the FHL rules may not be compliant with EU law, it was therefore not appropriate to consult on whether a change should be made.

The repeal was announced in the Budget 2009 in order to provide advance notice of the change, and allow those affected time to plan. Although a formal consultation is not planned, the Government do intend to publish draft legislation at the pre-Budget report, and will be happy to receive comments at that time.

Estimates of the revenue impact of this change were published at Budget 2009, and an impact assessment will be published at PBR 2009 alongside the draft legislation.

Andrew George: To ask the Chancellor of the Exchequer how many people claimed tax relief for expenditure on furnished holiday letting properties in each of the last five years; and how much was claimed in relief in each of those years. [288205]

Ian Pearson: I refer the hon. Member to the reply given to the hon. Member for Chesham and Amersham (Mrs. Gillan) on 5 May 2009, for estimates for 2006-07, the last full year for which information is available. Estimates for earlier years are of a similar magnitude.

Housing

Andrew Rosindell: To ask the Chancellor of the Exchequer what recent discussions he has had with Ministerial colleagues on the sale and rent back market. [287949]

Sarah McCarthy-Fry: Treasury Ministers and officials meet with a wide variety of organisations in the public and private sectors to discuss as part of the process of policy development and delivery. As was the case with previous administrations, it is not the Government's practice to provide details of all such discussions.

On 1 July 2009, the Government extended the scope of Financial Services Authority (FSA) regulation to include sale and rent back agreements. The FSA's regime affords borrowers important protections and provides

consumers with means of redress in case they experience problems. More information on the FSA's regime is available at:

http://www.fsa.gov.uk/pages/Library/Policy/Policy/2009/09_09.shtml

Housing: Valuation

Robert Neill: To ask the Chancellor of the Exchequer with reference to the answer of 6 November 2008, *Official Report*, column 682W, on housing: valuation, what the value significance of each individual locality reference in each valuation area in the *(a)* North East and *(b)* North West is. [286813]

Mr. Timms: A list of locality reference numbers, ranked in order of value significance by valuation area within the areas covered by *(a)* the Government Office for the North East and *(b)* the Government Office for the North West, has been placed in the Library. The list is based on data extracted between 9 June 2009 and 17 June 2009.

Information that identifies the extent of each locality can be provided only at disproportionate cost.

Individual Savings Accounts: Pensions

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer if he will assess the merits of permitting persons with a value of £250,000 or over to add the proceeds of such accounts to their personal pension provisions in return for a guarantee of retirement with immediate effect. [287694]

Sarah McCarthy-Fry: Individual investors are free to use their savings from individual savings accounts as they choose. Any contributions to registered pension schemes will be subject to the tax rules that apply to those schemes. Those rules include limits on the amount of tax relief that is provided.

Industrial Health and Safety: Training

Andrew Rosindell: To ask the Chancellor of the Exchequer how much his Department spent on health and safety training in each of the last two years. [287951]

Sarah McCarthy-Fry: Estimated external expenditure on health and safety training was £36,500 in 2007-08 and £40,000 in 2008-09. Other information and training for officials is provided by our in-house health and safety team and costs cannot be identified separately from their other duties.

Members: Correspondence

Mr. McLoughlin: To ask the Chancellor of the Exchequer (1) when the Financial Secretary plans to respond to the letter from the right hon. Member for West Derbyshire of 31 March 2009 on the KSFIOM Depositors Group; [286873]

(2) when the Financial Secretary will respond to the letter from the right hon. Member for West Derbyshire of 31 March 2009 on the KSFIOM Depositors Group. [285493]

Sarah McCarthy-Fry: A reply has been sent to the right hon. Member.

Mr. Burns: To ask the Chancellor of the Exchequer pursuant to the Answer of 7 July 2009, *Official Report*, column 778W, on Members: correspondence, for what reason the Answer did not set out the information requested on the time taken to reply. [287043]

Sarah McCarthy-Fry: The current economic and financial situation has given rise to a huge increase in the volume of correspondence received over the last 12 months in particular. There has been an increase of over 100 per cent. in Members' correspondence over the previous 12-month period, creating a considerable backlog, which HM Treasury is in the process of clearing. The hon. Member's correspondence was unfortunately part of that backlog and we apologise for the delay.

Mr. Sanders: To ask the Chancellor of the Exchequer when he plans to respond to the letter from the hon. Member for Torbay of 31 March 2009 on a constituent, Mr Robert Phillips of Torquay. [287184]

Sarah McCarthy-Fry: The hon. Member's correspondence was transferred to the Department of Works and Pension for reply.

Mr. Sanders: To ask the Chancellor of the Exchequer when he plans to reply to the letter from the hon. Member for Torbay of 9 April 2009 on the 2009 Budget; and what the reason is for the time taken to reply. [287185]

Mr. Timms: I have replied to the hon. Member.

Mr. Winnick: To ask the Chancellor of the Exchequer when he intends to reply to the letter of 10 June 2009 from the hon. Member for Walsall North, regarding a constituent, PO Ref: 6/00416/2009. [287899]

Sarah McCarthy-Fry: A reply has been sent to the hon. Member.

Mr. Harper: To ask the Chancellor of the Exchequer when the Financial Secretary to the Treasury will reply to the letters of 14 April and 20 May 2009 from the hon. Member for Forest of Dean, on funding for charities and loss of funds with KSF, reference FD1288. [287931]

Sarah McCarthy-Fry: A reply was sent to the hon. Member on 14 July.

Mr. Harper: To ask the Chancellor of the Exchequer when he will reply to the letters of 16 April and 14 May 2009 from the hon. Member for Forest of Dean, on expatriates, reference FD7868. [287933]

Mr. Timms: The correspondence was transferred to the Department for Works and Pensions on 19 May and a notification sent to the hon. Member on that date.

Official Gifts

Mr. Hands: To ask the Chancellor of the Exchequer what the monetary value is of *(a)* bequests and *(b)* other gifts and donations made to the nation in

each of the last five years; and how much was given (i) in the form of (A) cash, (B) works of art and (C) property and (ii) in other forms. [287516]

Mr. Timms: The information is not available.

Her Majesty's Revenue and Customs (HMRC) does hold information on bequests and gifts where tax relief has been claimed. However HMRC's data systems do not hold sufficient information to distinguish those which might be regarded as "gifts to the nation".

Procurement

Lorely Burt: To ask the Chancellor of the Exchequer whether his Department has accepted the recommendations of the All-Party Parliamentary Small Business Group report on access to public procurement in respect of *(a)* the introduction of specific proposals aimed at the micro-enterprise sector and *(b)* the provision of feedback on unsuccessful bids; and if he will make a statement. [287678]

Ian Pearson: The Government welcomed the report from the All-Party Parliamentary Small Business Group on 'SME Access to Public Procurement', which identified a similar set of barriers to SME participation as the Glover Review, 'Accelerating the Economic Engine'. The Government are now working to deliver the Glover recommendations, and will continue to take account of the needs of all businesses, including micro-enterprises.

Property

Sarah Teather: To ask the Chancellor of the Exchequer what estimate he has made of the amount of capital gains tax receipts which would have accrued from the UK property market if there had been no offshoring in the latest period for which figures are available. [287514]

Mr. Timms: No such estimate has been made.

Property Unit Trusts

Sarah Teather: To ask the Chancellor of the Exchequer what the cost to the public purse was of the exemption from capital gains tax of authorised property unit trusts in the latest period for which figures are available. [287523]

Sarah McCarthy-Fry: The information requested is not available.

Reforming Financial Markets: Public Consultation

Mr. Dai Davies: To ask the Chancellor of the Exchequer what representations he received from representatives of *(a)* bank employees and *(b)* consumer groups during the drafting of the proposals contained in Reforming Financial Markets, Cm 7667. [287828]

Sarah McCarthy-Fry: The Government are consulting widely on the proposals contained in Reforming Financial Markets—this includes a formal 12-week consultation process, which concludes on 30 September 2009.

Revenue and Customs: Communication Service Providers

Mrs. Laing: To ask the Chancellor of the Exchequer how many requests for communications data were made by HM Revenue and Customs to communication service providers (CSPs) under the Taxes Management Act 1970 in *(a)* 2000, *(b)* 2001, *(c)* 2002, *(d)* 2003, *(e)* 2004, *(f)* 2005, *(g)* 2006, *(h)* 2007 and *(i)* 2008; and how many of these requests resulted in the requested communications data being disclosed by the relevant CSP. [284868]

Mr. Timms: Prior to 2005 when the Inland Revenue and HM Customs and Excise merged to form HM Revenue AND Customs (HMRC) S.20 Notices under the Taxes Management Act were regularly sought by the Inland Revenue Inspectors of Taxes on a case by case basis and could be issued from any tax office and a copy retained in individual taxpayers folders. There was no form of central record of the issue of S.20 Notices and the type of information requested. It is therefore not possible to provide this information for this period.

In February 2006 the HMRC Single Point of Contact (SpoC) for the acquisition and disclosure of communications data was designated as the National Telecoms Unit who are responsible for all departmental matters relating to communications data, including RIPA requests, witness statements and Production Orders. From 2006 onwards the HMRC SpoC has not issued any S.20 TMA Notices.

Revenue and Customs: Manpower

Bob Spink: To ask the Chancellor of the Exchequer how many *(a)* administration assistants, *(b)* assistant officers, *(c)* officers, *(d)* higher officers, *(e)* senior officers, *(f)* fast stream/trainees, *(g)* Grade 7 employees, *(h)* Grade 6 employees and *(i)* senior civil servants there were in each HM Revenue and Customs office in each of the last five years. [285536]

Mr. Timms: A table setting out the number of staff in each grade at each HM Revenue and Customs office in each of the last five years has been placed in the Library.

Tax Credits

Mr. Davidson: To ask the Chancellor of the Exchequer (1) what his most recent estimate is of the number of people in *(a)* Scotland, *(b)* Glasgow and *(c)* Glasgow South West constituency claiming family tax credit; [287596]

(2) what his most recent estimate is of the number of people in *(a)* Scotland, *(b)* Glasgow and *(c)* Glasgow South West constituency claiming working tax credit; [287597]

(3) what his most recent estimate is of the level of take-up of working tax credit in *(a)* Scotland, *(b)* Glasgow and *(c)* Glasgow South West constituency; [287598]

(4) what his most recent estimate is of the level of take-up of family tax credit in *(a)* Scotland, *(b)* Glasgow and *(c)* Glasgow South West constituency. [287599]

Mr. Timms: Working families tax credit was replaced by working tax credit and child tax credit in April 2003.

The latest estimates of the average number of families benefiting from child and working tax credits in each Government office region, local authority and parliamentary constituency are published in the HM Revenue & Customs (HMRC) finalised awards geographical publication, "Child and Working Tax Credits Statistics Finalised annual awards Geographical analyses" for 2007-08. The publication is available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm.

The most recent child tax credit (CTC) take-up rates for United Kingdom regions and countries are published on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-take-up2006-07.pdf.

Child tax credit take-up rates are not available below these levels.

Working tax credit take-up rates are not available for geographies below United Kingdom level.

Tax: Isle of Man

Andrew Rosindell: To ask the Chancellor of the Exchequer what recent discussions he has had with the Isle of Man government on Isle of Man tax reforms. [287948]

Mr. Timms: Treasury Ministers and officials hold periodic discussions with the Isle of Man.

Taxation: Banks

Andrew Rosindell: To ask the Chancellor of the Exchequer what recent discussions he has had with the banking industry on a code of practice on tax for banks. [287959]

Sarah McCarthy-Fry: The consultation document on the Code of Practice on Taxation for banks was issued on 29 June 2009. Since then HM Revenue and Customs has been in regular contact with banks, their industry representatives and advisers regarding the issues arising from this.

Taxation: Domicil

Mr. Sanders: To ask the Chancellor of the Exchequer what criteria his Department uses to determine when to investigate alleged tax fraud cases concerning *(a)* non-domiciled status and *(b)* other matters. [278502]

Mr. Timms: Her Majesty's Revenue and Customs criminal investigation policy is available on its website. The criteria for investigating people with non-domiciled status are no different from those for people with domiciled status. A decision to investigate any specific case is based on the available evidence, along with the facts and features of the case.

Taxation: Pensioners

Steve Webb: To ask the Chancellor of the Exchequer how many and what proportion of recipients of tax relief on pension contributions are women. [287326]

Sarah McCarthy-Fry: There were 6.6 million women in receipt of tax relief on pension contributions. This represented 44 per cent. of all recipients. This information relates to 2008-09.

UK Financial Investments

Mr. Dai Davies: To ask the Chancellor of the Exchequer what discussions he has had with the chief executive of UK Financial Investments on its policy on publishing information about its activities. [287851]

Sarah McCarthy-Fry: HM Treasury has regular discussions with UK Financial Investments and regularly monitors UKFI's performance against its objectives. It is not the Government's practice to provide details of all such meetings.

VAT: Overpayments

Mr. Gauke: To ask the Chancellor of the Exchequer what estimate he has made of *(a)* the monetary value of claims lodged with HM Revenue and Customs for repayment of overpaid value added tax arising as a result of the decision of the House of Lords in the cases of Fleming and Conde Nast and *(b)* the amount paid out by HM Revenue and Customs in respect of such claims. [282981]

Mr. Timms *[holding answer 29 June 2009]:* The Government have already made prudent provision in the public finances to represent tax and interest that might be repaid following this ruling.

The total value of claims received by HM Revenue and Customs (HMRC) as a result of the House of Lords decision in the joined cases of Michael Fleming t/a Bodycraft and Condé Nast Publications Ltd. is estimated at around £8.5 billion. Past experience of such claims suggests that many will prove either to be speculative, incorrect or otherwise overstated.

In those cases so far verified by HMRC, around half the amount claimed by tax value has been refused following verification, and around £1.5 billion in tax and interest has been repaid to date. HMRC is also ensuring that taxpayers bring to account any direct tax liabilities created as a result of these repayments.

The provision for future repayments of tax and associated interest will be reviewed and adjusted as necessary, to reflect HMRC's continuing experience in verifying these claims.

Working Tax Credit: Morecambe and Lunesdale

Geraldine Smith: To ask the Chancellor of the Exchequer how many people in Morecambe and Lunesdale constituency claimed working tax credit in the latest period for which figures are available. [288447]

Mr. Timms: The average number of families benefiting from working tax credit in the Morecambe and Lunesdale parliamentary constituency was 3,720 for 2007-08.

This information is given in the HM Revenue and Customs (HMRC) finalised awards geographical publication, "Child and Working Tax Credits Statistics Finalised annual awards Geographical analyses, 2007-08", available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm

World Customs Organisation

Mr. Oaten: To ask the Chancellor of the Exchequer which Minister is responsible for representing the Government's interest at the World Customs Organisation. [287992]

Mr. Timms: The World Customs Organization (WCO) is the only intergovernmental organisation with competence on Customs Issues. HM Revenue and Customs officials usually represent the UK's interests at WCO. I am the Minister responsible for Customs policy, and I am accountable to Parliament for HMRC.

Zimbabwe

Mr. Hands: To ask the Chancellor of the Exchequer what the value of local Zimbabwean bonds held by his Department was in each of the last 10 years, expressed in *(a)* Zimbabwean dollars and *(b)* pounds sterling. [287517]

Sarah McCarthy-Fry: The value held in the last 10 years is zero: local Zimbabwe bonds are not held in the UK's foreign currency reserves (the Exchange Equalisation Account).

HOME DEPARTMENT

Antisocial Behaviour

Mr. Sanders: To ask the Secretary of State for the Home Department what proportion of local government formula funding has been spent on tackling anti-social behaviour in 2009-10 to date. [282544]

Mr. Alan Campbell: Information on the amount spent by local authorities on tackling antisocial behaviour is not collected centrally. In both England and Wales, it is for local partnerships to agree how the grants received should be allocated against locally determined priorities, including tackling antisocial behaviour.

Asylum

Dr. Starkey: To ask the Secretary of State for the Home Department pursuant to the answer of 3 February 2009, *Official Report*, columns 1040-41W, on asylum, how many of the 500 Iraqi refugees identified for resettlement during 2008-09 under the Gateway Protection Programme are being or have been resettled from Syria. [255377]

Mr. Woolas *[holding answer 9 February 2009]:* I wrote to my hon. Friend on 17 July 2009.

Asylum: Iran

David Howarth: To ask the Secretary of State for the Home Department what recent representations he has received on the effects on policy on Iranian asylum seekers of the recent unrest in Iran. [286308]

Mr. Woolas: We have not received any such representations. We continue to monitor closely the political and human rights situation in Iran through key governmental, non-governmental and other human rights organisations. The visa operation in Tehran is monitored on a daily basis by the UK Border Agency and the Foreign and Commonwealth Office.

The asylum determination process assesses the protection needs of claimants and where the recent unrest in Iran impacts directly on the circumstances of an individual claimant, then it is duly considered as part of that individual's claim.

All Iranian asylum and human rights applications are considered by the Home Office on their individual merits, in accordance with our obligations under the 1951 UN refugee convention and the European convention on human rights (ECHR).

Each application is assessed against the latest available information about the situation in Iran. Specially-trained case owners consult these sources via the Iran Country of Origin Information Report produced by UKBA's Country of Origin Information Service, and the Iran Operational Guidance Note which gives guidance on the most common types of asylum claims received and the circumstances in which they are likely to prove founded or unfounded.

Asylum: Northern Ireland

Lady Hermon: To ask the Secretary of State for the Home Department how many asylum seekers who entered through Northern Ireland airports in the last 12 months have presented as *(a)* having no identification, *(b)* being juveniles without any identification and *(c)* being juveniles without any identification and have subsequently absconded from social services accommodation. [274349]

Mr. Woolas: I have written to the hon. Member.

Asylum: Offenders

Damian Green: To ask the Secretary of State for the Home Department how many foreign nationals of each nationality who have been released from UK prisons since 2005 have subsequently applied for asylum in the UK. [282991]

Mr. Woolas: Published statistics on immigration and asylum are available from the Library and from the Home Office Research, Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Borders: Police

Nadine Dorries: To ask the Secretary of State for the Home Department how much funding his Department has allocated to border policing in each year since 1997; and if he will make a statement. [282651]

Mr. Hanson: Local forces have responsibility for policing at the border. However, between 1998-99 and 2008-09 the Home Office contribution to these costs rose from £121.4 million to £222.4 million, an increase of 83.2 per cent. over this period.

The costs of police at ports are met as part of the forces overall policing duties and the division of these funds is a matter for each force, in consultation with the police authority. In some cases, such as where an airport is "designated" under the Aviation Security Act 1982, contributions are provided by airport operators. Provisions included within the Police and Crime Bill currently being debated in the other place, include the requirement for all airports to provide such contributions. No central record is kept of these costs.

In addition, between April 1998 and April 2009 the Home Office made a contribution to the costs of special branch officers at ports as a part of the dedicated security post grants. From April 2009 funding of these posts will be made as part of the wider funding of police counter terrorism activity. The overall level of the dedicated security post grants for the years it was allocated is detailed in the following table. For security reasons, we do not disclose the breakdown of this grant between different security functions.

	£ million
1998-99	121.4
1999-2000	142.5
2000-01	146.8
2001-02	154.5
2002-03	155.3
2003-04	196.5
2004-05	203.4
2005-06	212.6
2006-07	212.6
2007-08	212.6
2008-09	222.4

Cabinet: Glasgow

Mr. MacNeil: To ask the Secretary of State for the Home Department (1) how many *(a)* special advisers and *(b)* officials of his Department accompanied him to Glasgow for the Cabinet meeting on 16 April 2009; [273961]

(2) what car journeys he took in attending the Cabinet meeting in Glasgow on 16 April 2009; [273962]

(3) how much expenditure was incurred by his Department in respect of the Cabinet meeting in Glasgow on 16 April 2009; [273963]

(4) what expenditure on *(a)* travel, *(b)* accommodation and *(c)* food he (i) incurred and (ii) officials in his Department in connection with the Cabinet meeting in Glasgow on 16 April 2009. [273964]

Mr. Woolas: The then Home Secretary was accompanied by two officials during the Cabinet. No special advisers travelled.

For security reasons we do not disclose details of the Home Secretary's travel arrangements.

The cost incurred by the two officials supporting the Home Secretary came to a total of £926.45, including the cost of return flights, accommodation and meals.

For information relating to the Cabinet and public engagement event held in Glasgow on 16 April, I refer the hon. Member to the answer given by my right hon. Friend the Prime Minister on 3 June 2009, *Official Report*, column 487W.

CCTV

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department what funding his Department has allocated to *(a)* local authorities and *(b)* police forces for the installation and operation of CCTV cameras fitted with microphones in the last 12 months. [284147]

Mr. Hanson: There has been no specific funding issued to local authorities or police forces for CCTV cameras fitted with microphones.

Between 1999 and 2003, £170 million of Home Office capital funding was made available to local authorities for investment in public space CCTV. Around 680 CCTV town centre schemes were set up with this funding.

Closed Circuit Television: York

Hugh Bayley: To ask the Secretary of State for the Home Department how much funding allocated by his Department has been spent on closed circuit television in York since 1997. [285709]

Mr. Hanson: Yorkshire and Humberside (information is not available on a constituency-by-constituency basis) received a total of £20,357,137 as part of the Home Office Crime and Disorder Reduction Programme, between 1997 and 2003. No further funding has specifically been provided for the installation of town centre CCTV security systems by the Home Office since 2003. However, crime reduction funding could have been used by Crime and Disorder Reduction Partnerships for CCTV.

Community Relations: Finance

Mr. Paul Goodman: To ask the Secretary of State for the Home Department pursuant to the answer of 21 January 2009, *Official Report*, column 1482W, on community relations: finance, which 33 projects receive funding from the £5.8 million fund to disrupt violent extremism; and how much each of these projects will receive in 2008-09 and in each of the two subsequent years. [259142]

Mr. Hanson: The information requested is given in the table.

Project	*2008-09*[1]	*2009-10*[1]	£ *2010-11*[1]
UKBA West Midlands Pilot	190,000	—	—

[1] These figures are correct at 7 July 2009

Crime

Chris Huhne: To ask the Secretary of State for the Home Department how many offences of *(a)* less serious wounding, *(b)* harassment, *(c)* assault without injury, *(d)* criminal damage to a dwelling, *(e)* criminal damage to a building other than a dwelling, *(f)* criminal damage to a vehicle and *(g)* other criminal damage which were deemed to be racially or religiously aggravated have been recorded in each police force area in each year since 1997. [286038]

Alan Johnson: The available information is given in the tables placed in the House Library. Racially aggravated offences have been included in the recorded crime series from 1999-2000. Religiously aggravated offences were added in 2002-03.

Crimes of Violence: Essex

Bob Spink: To ask the Secretary of State for the Home Department what proportion of violent crime committed in *(a)* Essex and *(b)* Castle Point in each of the last 12 months for which figures are available was perpetrated against (i) young people, (ii) families and (iii) pensioners. [287502]

Mr. Alan Campbell: The requested information is not collected centrally.

Recorded crime data provided to the Home Office from each police force area cannot separately identify the individual circumstances of victims.

Criminal Records Bureau: Compensation

Tom Brake: To ask the Secretary of State for the Home Department how much has been paid in compensation to people whose Criminal Records Bureau disclosure was delayed in each year since the inception of the disclosure service. [283426]

Mr. Hanson: The Criminal Records Bureau (CRB) makes financial awards to redress customers for its maladministration in accordance with Treasury Policy. It calculates each award on the merit of the claim. Awards range from small consolatory payments for inconvenience, to larger sums representing actual loss. The CRB does not maintain separate statistics which distinguish delay from the other elements which merit an award.

Cybercrime

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department (1) what his most recent estimate is of the cost of e-crime to the economy; [287110]

(2) how much money was misappropriated through online fraud in the UK in each of the last three years; and if he will make a statement. [286995]

Mr. Alan Campbell: These data are not kept centrally. The Government prosecute crimes on the basis of the offence committed and not the medium used. UK legislation does not distinguish between offences committed online or offline and so there are no estimated costs of e-crime or online fraud as a whole.

Damian McBride

Mr. Maude: To ask the Secretary of State for the Home Department on what date *(a)* he and *(b)* the Chief Secretary to the Treasury last met Mr. Damian McBride in the course of their official duties. [287368]

Alan Johnson: I have not met Damian McBride in the course of my ministerial duties, nor have I met him personally.

Demonstrations: Parliament Square

Patrick Mercer: To ask the Secretary of State for the Home Department whether notice of the Tamil demonstration in Parliament Square and adjacent areas has been given to the Commissioner of Police for the Metropolis under section 133 of the Serious Organised Crime and Police Act 2005; and whether the Commissioner has given authorisation under section 134 of that Act. [271681]

Mr. Hanson: I am informed by the Commissioner of the Metropolitan Police that many of those demonstrating in Parliament Square and the adjacent areas did not notify the Commissioner of the Metropolitan Police of their intention to demonstrate in accordance with section 133 of the Serious Organised Crime and Police Act 2005.

On 20 April notice of a demonstration by the British Tamil Student society was given to the Commissioner of the Metropolitan Police in accordance with section

133 of the Serious Organised Crime and Police Act 2005. The Commissioner of the Metropolitan Police authorised the demonstration notified to him as required under section 134(2) of the 2005 Act. I am further informed that a condition was placed on the organisers of this demonstration limiting the numbers of participants to 50 people.

Demos

Mr. Watson: To ask the Secretary of State for the Home Department whether his Department has any contracts with the think-tank Demos. [279501]

Mr. Hanson: The Home Department has no current contract with Demos. However, in 2008 Demos was engaged to run workshops on counter terrorism and ethics, and international context courses.

Departmental Consultants

Chris Huhne: To ask the Secretary of State for the Home Department how much his Department and its agencies have spent on consultants in each year since 1997. [286039]

Alan Johnson: It is not possible to provide figures going back to 1997 without incurring disproportionate cost owing to a change in accounting systems during the intervening period. Available information on Home Department's consultancy expenditure from 2004-05 is as follows:

£ million

Financial year	*Home Department including executive agencies consultancy expenditure*
2004-05	139
2005-06	139
2006-07	148
2007-08	96
2008-09	140

This expenditure on consultancy services is associated with the high volume of major programmes currently underway across the Department to deliver new technologies and business change, providing skills not readily available within the civil service. Consultancy services are procured under strict oversight from Commercial Directorate and are negotiated and contracted in accordance with Office of Government and Commerce/National Audit Office guidelines.

Departmental Drinking Water

Andrew Rosindell: To ask the Secretary of State for the Home Department how much his Department has spent on *(a)* bottled water and *(b)* water coolers in each of the last six months. [284111]

Mr. Woolas: The requested information cannot be obtained without incurring disproportionate cost.

Departmental Flags

Andrew Rosindell: To ask the Secretary of State for the Home Department how many flags his Department *(a)* owns and *(b)* maintains; and what the cost of maintaining them was in the last 12 months. [284106]

Mr. Woolas: For the Home Office HQ at 2 Marsham street the Department has 10 flags including replacements. Union flag replacements are needed every three to six months according to weather conditions at a cost of around £130 per flag. Flag pole maintenance costs are not held separately as they are part of the building's overall PFI charge. Information on the number and annual cost of flags held across the rest of the Department is not held centrally.

Departmental Internet

Andrew Rosindell: To ask the Secretary of State for the Home Department how much his Department has spent on maintenance of its website in each year since 2007. [284189]

Mr. Woolas: The costs of maintaining Home Office websites (i.e. hosting, licensing, domain registration, and updates but excluding staff costs) has been:

	£
2006-07	750,100
2007-08	620,000
2008-09	577,000

Departmental Secondment

Sarah Teather: To ask the Secretary of State for the Home Department how many employees of his Department have been posted to work in offices of hon. Members of each political party in each of the last five years. [284891]

Mr. Woolas: Civil servants are required to act in accordance with the requirements of the Civil Service Code.

Civil servants may shadow MPs as part of a programme run by the industry and Parliament Trust. Details on numbers of civil servants from this Department that have had such an attachment are not held centrally.

Deportation

Kitty Ussher: To ask the Secretary of State for the Home Department how many foreign nationals with addresses in Burnley were deported in each of the last five years; and how many of them had committed a crime in the UK. [286454]

Mr. Woolas: The information requested is not readily available and could be obtained only at disproportionate cost. The chief executive of the UK Border Agency has regularly written to Home Affairs Select Committee in order to provide them with all the robust and accurate information available relating to foreign national criminals. Copies of these letters are available in the Library of the House.

Deportation: Prisoners

Chris Huhne: To ask the Secretary of State for the Home Department how many foreign national prisoners who were released from prison between February 1999 and March 2006 have *(a)* since been deported and *(b)* remain at large. [286610]

Alan Johnson [*holding answer 14 July 2009*]: The Chief Executive of the UK Border Agency has regularly written to the Home Affairs Select Committee in order to provide all of the most robust and accurate information on the removal and deportation of foreign national prisoners, including those released from prison before March 2006. A copy of these letters are available in the Library of the House.

DNA: Databases

Chris Grayling: To ask the Secretary of State for the Home Department (1) how many staff of each organisation authorised to use the national DNA database have been *(a)* investigated, *(b)* disciplined and *(c)* dismissed for unauthorised or improper use of that database in each of the last five years; [276825]

(2) whether loss of data obtained from the national DNA database has been reported by any organisation which has access to *(a)* the database and *(b)* data from the database. [276826]

Alan Johnson: Direct access to information on the National DNA Database (NDNAD) is restricted to a limited number of designated personnel under the control of the National Policing Improvement Agency (NPIA), either directly, or under a contract awarded to the Forensic Science Service (FSS) for operation and maintenance of the NDNAD and development of its IT systems. Throughout the lifetime of the contract, the FSS are required to demonstrate compliance with specified security requirements. Police and law enforcement personnel do not have access to the information on the NDNAD, but receive reports from the NDNAD Delivery Unit of matches between DNA taken from crime scenes and that taken from individuals.

In relation to those NPIA and FSS staff, there has been one instance of unauthorised use of the database during the last five years. This involved a contractor working for the FSS who was found to have used an administrator account on the IT system rather than his own. Following an investigation by the NPIA, no evidence of any improper access to database records was found. However, as use of the administrator account was in contravention of security procedures, the individual was removed from further work on the database. No incidents of unauthorised or improper use of match reports by police and law enforcement personnel have been reported to the NDNAD in the last five years.

Since the NDNAD was set up in 1995, two instances of loss of data have been reported. These took place in February 2009 when the FSS faxed DNA reports intended for two police forces to incorrect fax numbers. In both instances, the faxes were either retrieved by the police or destroyed within 36 hours of the event. A thorough investigation was undertaken by the NPIA and reported to the Home Office. No evidence was found of any malicious intent by any individual.

As a result of the investigation into this incident, an existing project to replace use of fax was accelerated. As from 17 April 2009, fax has no longer been used to transmit any DNA reports to forces. They are now sent in line with Cabinet Office guidance over a secure network either by email or as a web service on a secure network.

John McDonnell: To ask the Secretary of State for the Home Department whether any *(a)* data and *(b)* samples relating to profiles on the National DNA Database have been released to (i) commercial and (ii) research organisations in each of the last three years for which figures are available. [283446]

Mr. Alan Campbell [*holding answer 2 July 2009*]: Requests for the release of data or samples relating to the DNA profiles held on the National DNA Database (NDNAD) must be approved by the NDNAD Strategy Board. Requests are also considered by the NDNAD Ethics Group, which makes recommendations to the Board on whether the request should be approved. The Police and Criminal Evidence Act 1984 (PACE) lays down that DNA samples and the profiles derived from them can only be used for the purposes of prevention and detection of crime, the investigation of an offence, the conduct of a prosecution or, since April 2005, for the purposes of identifying a deceased person. In accordance with these requirements, the Board does not approve any research unless it has clear operational benefit to the police.

Details of requests from commercial organisations for data or samples relating to profiles held on the NDNAD which have been approved by the NDNAD Strategy Board in each of the last three years and in 2009 to date can be found in the following table. No requests from research organisations have been approved during this time. The information provided from the NDNAD was anonymised (i.e. no details enabling individuals to be identified were supplied to the commercial organisations).

	Details of request
2006-07	Data requested by Cellmark Forensic Services to enable the further development of familial searching software.
	Data requested by LGC Forensics to enable the further development of familial searching software.
	Samples requested by LGC Forensics to enable the validation of a system to provide confirmation of rarely found types of DNA.
	Permission requested by Cellmark Forensic Services to provide profiles held by Cellmark to Cybergenetics.
2007-08	No requests approved
2008-09	No requests approved
2009-10[1]	No requests approved

[1] As at 30 June 2009

Mrs. Laing: To ask the Secretary of State for the Home Department for how long records relating to those *(a)* convicted of an offence and *(b)* released without charge are kept on the national fingerprint database. [283525]

Mr. Alan Campbell: Fingerprints records are currently retained indefinitely on IDENT1 (the national fingerprint database) for persons arrested for a recordable offence, whether or not subject to a conviction or acquittal or no further action. Proposals on future retention policy are set out in the public consultation paper 'Keeping the right people on the DNA Database' published on 7 May 2009.

Chris Grayling: To ask the Secretary of State for the Home Department how many arrests have been made of people who were matched to a crime using the

national DNA database but who were not subsequently charged with an offence in the latest period for which figures are available. [285950]

Alan Johnson: I refer the hon. Member to the reply I gave him on 30 June 2009, *Official Report*, column 165W.

Driving Offences: Alcoholic Drinks

Mr. Hoyle: To ask the Secretary of State for the Home Department how many *(a)* blood and *(b)* urine samples related to suspected incidents of drink-driving were processed at each Forensic Science Service centre in each of the last five years. [283333]

Mr. Alan Campbell *[holding answer 30 June 2009]:* The records on blood and urine tests carried out by the FSS are generated by the machines running the analysis. These records do not differentiate between tests on or for blood and urine and cannot be broken down by type. The detailed breakdown of combined blood and urine is outlined as follows:

	Total samples analysed
2003	20,833
2004	20,361
2005	17,683
2006	13,336
2007	10,228
2008	9,257
2009 (year to date)	4,385
Total	96,083

The FSS estimates that 90 to 95 per cent. of these will be blood samples.

The Chorley laboratory is the only FSS laboratory currently processing such samples. This has been the case for more than 10 years

Drug and Alcohol Action Team

James Brokenshire: To ask the Secretary of State for the Home Department how much his Department allocated to each drug and alcohol action team in England in *(a)* 2007-08 and *(b)* 2008-09; and how much has been allocated for 2009-10. [284831]

Mr. Alan Campbell: The following tables show the amount of funding allocated to each DA(A)T in England in the periods 2007-08, 2008-09 and 2009-10 under each of the specified grant programmes:

Table 1: Young People Substance Misuse Partnership Grant (YPSMPG)

Table 2: Drug Interventions Programme (DIP) Main Grant

Table 3: Alcohol Arrest Referral (AAR) Pilot Grant

Since 2008-09, arrangements for the payment of the YPSMPG have seen one element of the previously pooled budget routed through area based grant which is paid to local authorities by communities and Local Government on a non ring-fenced basis to allow maximum local flexibility; and other elements are paid to youth offending teams through the Youth Justice Board or to primary care trusts through the pooled treatment budget.

Table 1: Young People Substance Misuse Partnership Grant (YPSMPG): Home Office allocations for young people substance misuse services

EU Law

Bob Spink: To ask the Secretary of State for the Home Department (1) what estimate he has made of the proportion of statutory obligations provided for by legislation on matters for which his Department is responsible, which were introduced as a consequence of obligations arising from EU legislation in the latest period for which figures are available; [281862]

(2) what estimate he has made of the cost to his Department of the statutory obligations upon it provided for in legislation introduced as a consequence of obligations arising from EU legislation in the most recent 12 months for which figures are available. [283474]

Mr. Woolas: It is very difficult to provide precise figures for the proportion of UK legislation that stems from the European Union and the consequent cost. All proposals for EU legislation are, however, deposited with Parliament with an assessment of any legislative changes that would be required to implement them in the UK and an explanation of the HMG policy in the area concerned, including in the case of proposals on migration and asylum, by choosing not to opt in to them where appropriate.

The origins of a regulation could be a devolved Administration or a local authority, as well as the Government or the EU. All regulations, irrespective of their origins, should comply with the principles of better regulation. Regulations should be risk based, proportionate and well designed, so as to achieve their objectives whilst also keeping costs to a minimum. The Government continue to work with European partners to ensure that EU regulations meet these standards.

Entry Clearances

Mr. Carswell: To ask the Secretary of State for the Home Department how many and what proportion of applications for family visit visas from *(a)* India, *(b)* Nigeria, *(c)* Bangladesh and *(d)* Pakistan have been refused in each of the last six years. [273592]

Mr. Woolas: The number of applications family visit visas (a) received and (b) refused at UK visa-issuing posts in India, Nigeria, Bangladesh and Pakistan in each of the last five calendar years is shown in the following tables, together with refusal rates for each country/year. Reliable data are not held for years prior to 2004.

	2004			2005		
	Applications received	*Refused*	*Refusal rate (percentage)*	*Applications received*	*Refused*	*Refusal rate (percentage)*
Bangladesh	6,703	2,169	43	9,356	3,458	36
India	83,089	15,648	19	99,341	20,024	21
Nigeria	41,137	16,781	41	60,065	25,125	44
Pakistan	31,932	6,727	36	57,122	25,901	43

	2006			2007		
	Applications received	*Refused*	*Refusal rate (percentage)*	*Applications received*	*Refused*	*Refusal rate (percentage)*
Bangladesh	12,760	4,547	36	13,909	5,351	40
India	108,572	20,548	19	108,233	22,193	21

	2006			2007		
	Applications received	*Refused*	*Refusal rate (percentage)*	*Applications received*	*Refused*	*Refusal rate (percentage)*
Nigeria	59,276	30,353	52	52,042	23,309	46
Pakistan	86,664	28,575	33	75,769	31,611	41

	2008		
	Applications received	*Refused*	*Refusal rate (percentage)*
Bangladesh	11,381	3,966	35
India	98,645	16,647	17
Nigeria	42,612	18,532	43
Pakistan	56,477	28,750	47

The data are unpublished and should be treated as provisional.

Chris Grayling: To ask the Secretary of State for the Home Department how many *(a)* visa entry clearance officers and *(b)* risk assessment officers are employed in (i) Islamabad, (ii) Pakistan and (iii) Afghanistan. [280138]

Alan Johnson: For security and efficiency reasons, we have transferred visa decision-making for Pakistan to our visa sections in Abu Dhabi and the UK. We have 34 Entry Clearance Officers (ECOs) in Abu Dhabi, including seasonal relief staff, and a full staffing capacity of five ECOs in the UK working on Pakistan casework. 13 ECOs currently remain in Islamabad.

Risk and Liaison Overseas Network staff are employed on a risk assessment basis.

We do not have a visa office in Afghanistan.

Entry Clearances: Pakistan

Chris Grayling: To ask the Secretary of State for the Home Department what percentage of visa applications received by the consulate in *(a)* Karachi and *(b)* Lahore in the last 12 months for which figures are available were checked for fraud by entry clearance officers in each post. [272744]

Alan Johnson: There are no entry clearance officers (ECOs) posted to Karachi or Lahore. All checks for fraud are carried out in Islamabad, where there are 10 ECOs. All applications are checked for fraud.

Forensic Science Service

Mr. Hoyle: To ask the Secretary of State for the Home Department what recent assessment has been made of the likely effect of a closure of the Chorley Forensic Science Service (FSS) laboratory on FSS response times for analysing evidence. [285003]

Mr. Alan Campbell: The Forensic Science Service has undertaken detailed analysis of projected casework demand, throughput and detailed force requirements in accordance with the National Forensic Framework Agreement, and in conjunction with the expected efficiencies from their ongoing Transformation programme. Their conclusion is that they can service demand, within contractually binding response times, from a reduced number of laboratories. Closure of the Chorley site is currently only a proposal, to be tested and challenged through the consultation process.

Mr. Hoyle: To ask the Secretary of State for the Home Department whether the Forensic Science Service (FSS) has consulted all coroners on *(a)* the proposed headcount reduction in the FSS and *(b)* the proposed closure of the Chorley FSS laboratory. [285004]

Mr. Alan Campbell: The Forensic Science Service (FSS) has a pathology laboratory based in Sheffield. Staff at this facility have held discussions on the transformation of the FSS with local coroners.

The FSS has discussed the principles of a revised site structure with all of its core customers. There have been no specific discussions on these proposals with coroners beyond those spoken to by the facility in Sheffield.

Mr. Hoyle: To ask the Secretary of State for the Home Department whether the Forensic Science Service (FSS) has consulted all police authorities in the North West on *(a)* the proposed headcount reduction in the FSS and *(b)* the proposed closure of the Chorley FSS laboratory. [285005]

Mr. Alan Campbell: Police authorities have not been consulted on proposed changes but each police force has been consulted. It is the police forces who are the direct customers of the Forensic Science Service, and as such, they are the people with whom such discussions have taken place.

Forensic Science Service Transformation Plan: Consultants

John McDonnell: To ask the Secretary of State for the Home Department which consultants have been engaged to work on the Forensic Science Service Transformation Plan; what the monetary value of each contract is; and what task each contract is for. [283866]

Mr. Alan Campbell *[holding answer 3 July 2009]:* The only major consultancy services engaged by the Forensic Science Service (FSS) have been obtained from Deloitte (who assisted in 2008 with preliminary thinking on business transformation). Deloitte has also been the FSS pension advisers for some time. FSS have used a number of specialist providers in a smaller way to support the design of the business transformation programme. The transformation team itself has also been staffed by a number of agency and interim specialists to work alongside and train in-house resources (for example Lean Sigma training). Some components of the transformation (e.g. IT enabling projects) will involve the engagement of a number of our existing external service support providers (e.g. Cap Gemini), but these companies are not involved in the provision of broader consultancy services.

The work undertaken by Deloitte in 2008, which constitutes the only single major contract, cost £1.5 million.

Forensic Science Service: Chepstow

Jessica Morden: To ask the Secretary of State for the Home Department what information his Department has provided to staff at the Chepstow Forensic Science Service laboratory on the proposed Forensic Science Service closure and redundancy programme. [286623]

Mr. Alan Campbell: On 24 June, the Forensic Science Service (FSS) shared proposals about the approach to redundancy and operational site deployment with both trade union and employee forum representatives and copies of these proposals were made available to all FSS staff.

The approach to redundancy proposal covers:

Individual consultation

Appeals process

Maximising redeployment opportunities

Trial periods

Notice periods

Support and outplacement

Redundancy package

Voluntary redundancy.

The operational site deployment proposal covers the approach, rationale and proposed site deployment based on the proposed move to national business streams. It provides details about:

the options considered;

the criteria against which the proposed option was selected (e.g. co-location of body fluid/DNA casework;

available laboratory space;

delivery of the national framework products/services and quality;

lowest risk to customer disengagement;

the operational considerations and impacts.

Forensic Science Service: Chorley

Mr. Hoyle: To ask the Secretary of State for the Home Department how much has been spent on updating equipment at Chorley Forensic Science Service laboratory in each of the last five years. [283334]

Mr. Alan Campbell *[holding answer 30 June 2009]:* During 2004-05, £451,000 was spent on new scientific equipment for the Chorley laboratory. In 2005-06, this fell to around £233,000 and in 2006-07, dropped to just under £48,000. In 2007-08 this figure stood at £163,000. There has been no spend on equipment during 2008-09.

Mr. Hoyle: To ask the Secretary of State for the Home Department what representations have been received from *(a)* police forces in the North West, *(b)* coroners based in the North West and *(c)* the Isle of Man Government on the proposed closure of the Forensic Science Service laboratory in Chorley. [286413]

Mr. Alan Campbell: As part of ongoing discussions with customers regarding the proposed restructure of the Forensic Science Service, senior staff from the company recently met with the north west Association of Chief Police Officers procurement lead from Cheshire constabulary, at his request, to discuss the plans in detail.

There have been no representations from coroners or from the Isle of Man Government.

Freedomain Radio

Chris Grayling: To ask the Secretary of State for the Home Department whether he has received reports on the activities of Freedomain Radio in the last two years; and if he will make a statement. [278289]

Alan Johnson: I have not been made aware of any reports on the activities of this website.

Global Initiative to Combat Nuclear Terrorism

Mr. Dai Davies: To ask the Secretary of State for the Home Department what support the UK has undertaken to provide for the Global Initiative to Combat Nuclear Terrorism (GICNT); where the secretariat of GICNT is based; and when the next meeting of participating parties will be. [287536]

Mr. Ivan Lewis: I have been asked to reply.

The UK has held two Global Initiative to Combat Nuclear Terrorism (GICNT) events with international partners to date. A nuclear smuggling workshop in September 2007 and a knowledge proliferation seminar in October 2008. The next UK GICNT event will take place in London in early 2010, when we will host a joint workshop with the US on the issue of detecting radiological materials.

In addition to hosting workshops, we regularly send UK experts to events hosted by partners to share information on a range of issues spanning the GICNT principles. Recent examples of this are: a workshop in Garmisch in May 2009, to design a nuclear detection framework document; a workshop in Rabat in June 2009 concerning the trafficking of dangerous materials; and a workshop in Canberra in July 2009 on consequence management.

The GICNT does not have a secretariat. The US and Russia are co-chairs, with the annual plenary and workshops held by partners on a voluntary basis. The last plenary was held in June 2009 in The Hague.

The next meeting of partners will be in the Netherlands on 24-26 November 2009 at a workshop to examine international co-operation and information sharing in a nuclear-radiological security event.

Homicide

Paul Holmes: To ask the Secretary of State for the Home Department how many cases of homicide involving killing by a sharp instrument there have been in each police force area in each year since 1997. [281673]

Mr. Alan Campbell: Available information is from the Homicide Index and relates to the number of homicides recorded by police in England and Wales between 1997-98 and 2007-08.

Homicides currently recorded[1] where apparent method of killing is sharp instrument[2], by police force area: England and Wales

Year offence initially recorded as homicide[3]

[1] As at 4 November 2008, figures are revised as cases are dealt with by the police and by the courts, or as further information becomes available.
[2] Includes knives as well as other sharp instruments.
[3] Offences are shown according to the year in which the police initially recorded the offence as homicide. This is not necessarily the year in which the incident took place or the year in which any court decision was made.

Human Trafficking

Mr. Vara: To ask the Secretary of State for the Home Department pursuant to the answer of 26 January 2009, *Official Report*, columns 94-5W, on human trafficking, what guidance has been issued by his Department to the agencies involved in the national referral mechanism on systematic identification of victims of human trafficking. [277244]

Mr. Alan Campbell: Specialist teams within the UK Human Trafficking Centre and the UK Border Agency have been set up to act as decision making competent authorities within the multi-agency national referral mechanism.

Comprehensive guidance and training, utilising expertise from within and outside Government, has been provided to these teams. Staff within these teams have been instructed to engage with external agencies to assist in the identification process.

In addition, myself and the Association of Chief Police Officers lead for human trafficking wrote to all

chief officers to direct them to the Home Office website which holds information about the national referral mechanism:

http://www.crimereduction.homeoffice.gov.uk/humantrafficking005.htm

All other relevant agencies have also been directed to this information.

Identity Cards

Chris Grayling: To ask the Secretary of State for the Home Department how many *(a)* fake and *(b)* fraudulently obtained national identity cards have been seized in each month since the introduction of the national identity card scheme. [285940]

Alan Johnson: As part of the national identity card scheme we began issuing identity cards to foreign nationals on 25 November 2008. To date we have not identified or recovered any cards found to be fake or to have been obtained fraudulently.

Chris Grayling: To ask the Secretary of State for the Home Department how many national identity cards have been withdrawn, recalled or returned as a result of errors in the data *(a)* displayed on the card and *(b)* contained on the chip since the introduction of the scheme. [285941]

Alan Johnson: Since November 2008, over 50,000 identity cards have been issued to foreign nationals by the UK Border Agency. Of these, four cards have been withdrawn, recalled or returned as a result of errors in the data either displayed on the card or contained on the chip since the introduction of the scheme.

Chris Grayling: To ask the Secretary of State for the Home Department how many records checks have been made against the national identity card database by *(a)* police forces and *(b)* other agencies in each month since the introduction of the national identity card scheme. [285943]

Alan Johnson: The National Identity Register, which will hold the identity information of everyone issued with a national identity card, will not begin operation until later this year when we start to issue voluntary ID cards to airside workers at Manchester and London city airports as well as to British citizens living in the Greater Manchester area.

There have, therefore not yet been any checks made on the National Identity Register.

Identity Cards: Expenditure

Chris Grayling: To ask the Secretary of State for the Home Department how much has been spent on the National Identity Card Scheme; and what proportion of this expenditure has been on identity cards alone. [279615]

Alan Johnson: The Identity Cards are paid for by customer fees.

Between the financial years 2003-04 and 2005-06, £41.1 million was spent by the Home Office Identity Cards Programme in total in development. Since the merger of the Home Office Identity Cards Programme and the UK Passport Service to create the Identity and Passport Service on 1 April 2006, projects to deliver passports including facial images and fingerprints, identity cards and other improvements have been necessarily combined. As much of the technology and operational processes needed to implement identity cards are also required for the implementation of these new passports, this is the most cost-effective way to deliver these initiatives.

Much of the work conducted by Identity and Passport Service cannot be categorised, both financially and operationally, as contributing towards either the introduction of passports with facial images and fingerprints or identity cards alone. The work is accounted for as future development projects which in the 2006-07 financial year amounted to £30.9 million, in 2007-08 £61.7 million and 2008-9 £81.5 million (subject to finalisation of the 2008-09 accounts process).

Identity Cards: Police

Chris Grayling: To ask the Secretary of State for the Home Department what guidance his Department has issued to police *(a)* forces and *(b)* officers on the use of identity cards in policing. [285942]

Alan Johnson: In addition to the general guidance published on the Identity Card for Foreign Nationals, the UK Border Agency has engaged with representatives from police forces and produced guidance about the use of identity cards. This guidance is reviewed regularly and updates will be issued whenever necessary.

In respect of identity cards issued to British citizens, the Identity and Passport Service has yet to produce any guidance on identity cards and will be producing guidance on the security features to be incorporated in the identity cards issued to later this year.

Illegal Immigrants

Chris Huhne: To ask the Secretary of State for the Home Department for what reasons the publication of his Department's report on Understanding the market for facilitated illegal entry in the UK has been delayed; and when he intends to publish it. [247896]

Alan Johnson *[holding answer 20 January 2009]:* The normal process for publishing research is that such reports must undergo a rigorous quality assurance process including external peer review and only research that meets our high quality standards is published by the Department. Once this process has been completed in this case, we expect to be able to publish the report in summer 2009.

Immigrants: Social Security Benefits

Mr. Blunkett: To ask the Secretary of State for the Home Department on what date the UK Border Agency or its predecessor informed Jobcentre Plus that Khadra Ali Hassan of Sheffield was no longer entitled to income support and related benefits arising out of her previous temporary leave to remain. [278876]

Mr. Woolas *[holding answer 10 June 2009]:* My right hon. Friend the Home Secretary wrote to my right hon. Friend on 15 July 2009.

Immigration

Mr. Drew: To ask the Secretary of State for the Home Department (1) how many people had awaited determination of their application for *(a)* leave to remain and *(b)* indefinite leave to remain under the immigration rules for more than (i) one, (ii) two, (iii) three and (iv) four years; [250959]

(2) when he plans to answer question 250959, tabled on 21 January 2009, on the timescale for processing immigration cases. [286588]

Mr. Woolas: The data my hon. Friend requires are provided in the following table.

	2004	*2005*	*2006*	*2007*	*2008*
Leave to remain					
Two years	3,767	4,077	8,127	2,627	1,904
Three years	—	—	1,103	2,713	1,031
Four years	—	—	—	1,487	1,119
Five years	—	—	—	—	1,253
Indefinite leave to remain					
Two years	1,441	3,081	2,623	4,523	2,740
Three years	—	—	797	3,097	1,782
Four years	—	—	—	1,440	1,551
Five years	—	—	—	—	1,194

The above data are not provided under the National Statistics protocols. They have been derived from local management information and are therefore provisional and subject to change.

Data for some of these periods are not available. This is because there was a major change in our IT systems in 2002. Data on cases lodged in or before 2002 will therefore not be complete. This means we are unable to supply reliable information on some of the cases you requested. The data could now be reliably gathered only by the examination of individual files for historic information and this could be achieved only at disproportionate cost to the organisation.

LTR and ILR outstanding applications are generally complex cases involving ECHR and those overstaying existing leave granted.

We are improving migration workstreams, as new processes are introduced with initial focus on clearing older cases, then improving overall throughput.

Mark Lazarowicz: To ask the Secretary of State for the Home Department when he plans to announce his decision on the application for a residence permit submitted by Mrs Tatiana Stebel-Nowakowska. [284423]

Mr. Woolas: I wrote to my hon. Friend on 17 July 2009.

Mr. Byers: To ask the Secretary of State for the Home Department pursuant to the answer of 18 May 2009, *Official Report*, column 1163W, on immigration, whether the UK Border Agency has obtained the further information needed in order to be able to decide the immigration case of Mrs Mohinder Kaur. [286710]

Mr. Woolas *[holding answer 14 July 2009]:* It is anticipated that the decision will be notified to Mrs. Kaur shortly.

Immigration Controls: Abuse

Chris Grayling: To ask the Secretary of State for the Home Department how many organisations purporting to be education and training providers have been closed for abuse of the immigration system in each of the last five years. [279320]

Alan Johnson: This information is not recorded centrally either by the UK Border Agency or the previous Department for Innovation, Universities and Skills and could be obtained only at disproportionate cost.

Immigration: Gurkhas

Jo Swinson: To ask the Secretary of State for the Home Department what *(a)* legal status and *(b)* residency rights Gurkhas who do not qualify to settle in the UK but who are not subject to immediate deportation have. [273542]

Mr. Woolas: On 21 May 2009 the Home Secretary announced a revised policy for former members of the Brigade of Gurkhas who had been discharged prior to 1 July 1997. Under the terms of this policy any former Gurkha with more than four years' service who had been discharged from the Brigade of Gurkhas before 1 July 1997 would be eligible for settlement in the UK.

All Gurkhas who meet the criteria and who wish to settle in the United Kingdom will be eligible to do so unless there are particular reasons for excluding an individual from settlement, for example criminality. We therefore cannot foresee circumstances in which ex Gurkhas in the UK do not meet the criteria but are not subject to immediate administrative removal or deportation. If this unlikely situation did arise the legal status and residency rights of the individual would be considered on a case by case basis.

Jo Swinson: To ask the Secretary of State for the Home Department what potentially analogous categories of immigrant his Department considered when formulating its policy on the rights of residence of Gurkhas; and what elements of the Government's policy on such rights of residence would apply to each such category. [276908]

Mr. Woolas: When formulating the policy on the settlement rights of former Gurkhas it was important to find a package which met the needs of the Gurkhas, which was affordable and was consistent with our broader immigration policies. This included consideration of the settlement rules for Commonwealth soldiers, the policies on other immigration categories that provide a route to settlement, the time limits on applications, dependants and the UK Government's wider responsibilities under the Human Rights Act.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he plans to reply to the letter to him dated 5 January 2009 from the right hon. Member for Manchester, Gorton, with regard to Mr. Paul Cookson. [260327]

Alan Johnson: The UK Border Agency is meeting with the Centre for Social Justice in September and a reply to my right hon. Friend's letter will be sent out shortly.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he plans to reply to the letter of 12 February 2009 from the right hon. Member for Manchester, Gorton, with regard to Ms K Billington. [266372]

Alan Johnson: I wrote to my right hon. Friend on 9 July 2009.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department (1) when he plans to reply to the letter from the right hon. Member for Manchester, Gorton of 25 February 2009, with regard to Mr. M Rashid; [269341]

(2) when he plans to reply to the letter of 25 February 2009 from the right hon. Member for Manchester, Gorton, on Mr. M Rashid. [271024]

Alan Johnson: I wrote to my right hon. Friend on 9 July 2009.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he plans to reply to the letter dated 7 April 2009 from the right hon. Member for Manchester, Gorton with regard to Ms Yewande Augustina Adeleke. [278840]

Alan Johnson: I wrote to my right hon. Friend on 15 July 2009.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he plans to reply to the letter to his predecessor of 18 May 2009 from the right hon. Member for Manchester, Gorton with regard to Mr. D Albubasinmwin. [283357]

Alan Johnson: I wrote to my right hon. Friend on 2 July 2009.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he plans to reply to the letter to his predecessor of 22 May 2009 from the right hon. Member for Manchester, Gorton with regard to Fawzia Izat and Hilla Akhterzi. [284722]

Alan Johnson: I wrote to my right hon. Friend on 10 July 2009.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department (1) when he plans to reply to the letter to his predecessor of 18 May 2009 from the right hon. Member for Manchester, Gorton on Ms Sujla Afrin Suma; [286794]

(2) when he plans to reply to the letter to his predecessor of 18 May 2009 from the right hon. Member for Manchester, Gorton with regard to Ms Sajia Afrin Suma. [284726]

Alan Johnson: I wrote to my right hon. Friend on 10 July 2009.

Metropolitan Police: Volunteers

Ms Buck: To ask the Secretary of State for the Home Department how many volunteers have been *(a)* acting and *(b)* recruited as independent lay custody visitors in the Metropolitan Police Authority in each year since 2000. [286236]

Mr. Hanson: The Metropolitan Police Authority (MPA) advises that prior to 2006, individual boroughs managed independent custody visiting in their areas and that figures on recruitment are not centrally available. From April 2007, the MPA took pan-London responsibility for management of custody visitor and visit information. The authority has provided the following information:

As of December 2007 the MPA had 360 independent custody visitors of which 70 were new recruits during the year.

As of December 2008 there were 401 independent custody visitors of which 140 were new recruits during the year.

National Extremism Tactical Coordination Unit

David Howarth: To ask the Secretary of State for the Home Department how much funding was allocated to the National Extremism Tactical Co-ordination Unit (NETCU) in each financial year since 2003-04; and how many staff were employed by NETCU in each such year. [282011]

Mr. Hanson *[holding answer 24 June 2009]:* Funding to the National Extremism Tactical Co-ordination Unit is managed on behalf of the Home Office by the Association of Chief Police Officers Terrorism and Allied Matters (ACPO TAM). We do not disclose details of grants provided to individual units on security grounds. Nor do we disclose details of the numbers of staff employed by individual units.

National Identity Scheme

Chris Grayling: To ask the Secretary of State for the Home Department what contracts his Department has signed for delivery of the National Identity Scheme to date; with which suppliers such contracts have been entered into; and what the *(a)* monetary value and *(b)* expected duration of each such contract is. [281970]

Alan Johnson: The contracts that have been signed for delivery of the National Identity Service which is necessary for the introduction of biometric passports to date are as follows:

Thales UK Ltd.

Thales UK Ltd was awarded a contract in July 2008 for the technology and process for early release of NIS which is worth £18 million. It has been awarded for four years with four successive six month options to extend.

De La Rue

De La Rue was selected in June 2009 as the preferred bidder for the Design and Production of next generation UK passport books which is worth £400 million. The contract was signed on 2 July, and has been awarded for a period of 10 years.

CSC

CSC was awarded a contract in April 2009 for the upgrade of IPS's Application and Enrolment system which is worth £385 million. It has been awarded for a period of 10 years.

IBM

IBM was awarded a contract in May 2009 to operate the biometric data base for passports and to support identity cards which is worth £265 million. It has been awarded for seven years with one three-year option to extend.

In addition, four existing contracts were amended to support the initial rollout of identity cards. These include:

secure mail delivery provider SMS for the passport book to extend delivery services;

Teleperformance to include an option to provide support for the introduction of identity cards;

3M SPSL to include production and personalisation of the identity cards; and

nCipher (now part of Thales) for specialist encryption equipment was amended to adapt this equipment for the rollout to UK nationals.

As spend has been in relation to only one contract and has therefore been with only one supplier, this information is considered to be commercially sensitive.

National Policing Improvement Agency: Consultants

Bob Spink: To ask the Secretary of State for the Home Department how much the National Policing Improvement Agency spent on consultants in each of the last five years. [280341]

Mr. Hanson: The National Policing Improvement Agency was established by statute on 1 April 2007. Data are only available for 2007-08 and 2008-09.

NPIA consultancy spend was £71.4 million in 2007-08. The figure for 2008-09 is £57.2 million.

National Policing Improvement Agency: Manpower

Bob Spink: To ask the Secretary of State for the Home Department how many *(a)* directors, *(b)* senior managers, *(c)* specialist and delivery managers and *(d)* executive support and administration staff there were in each National Policing Improvement Agency office in each of the last five years. [279287]

Mr. Hanson: The National Policing Improvement Agency was established by statute on 1 April 2007. Data for 2007-09 are given in the tables. Data prior to this period are not available.

NPIA staff

1 April 2007

Note:
The definitions used in response to this question are as follows: Directors—CEO and chief officers. Senior managers—NPIA Grades 4A - 4B. Specialist and delivery managers—NPIA Grades 2B - 3B. Executive support and administration staff—All other grades.

National Public Order Intelligence Unit

David Howarth: To ask the Secretary of State for the Home Department how much his Department has allocated to the National Public Order Intelligence Unit in each year since its establishment; and how many staff the unit employed in each such year. [284134]

Mr. Hanson: The Home Office does not provide funding directly to the National Public Order Intelligence Unit. Funding is provided by top-slice of the police grant and a contribution from the Metropolitan Police Service.

We do not disclose details of grants provided to individual units on security grounds. Nor do we disclose details of the numbers of staff employed by individual units.

Offences Against Children

Bob Spink: To ask the Secretary of State for the Home Department how many police cautions were given for the *(a)* possession of and *(b)* creation of pornographic images of children in each of the last 10 years; and if he will make a statement. [282745]

Mr. Alan Campbell *[holding answer 29 June 2009]:* Information provided by the Ministry of Justice showing the number of offenders cautioned for the possession, taking, distributing or publishing of indecent photographs or pseudo photographs of children in England and Wales, from 1998 to 2007 can be viewed in the following table.

Number of offenders cautioned[1] for possessing, taking, distributing or publishing indecent photographs or pseudo photographs of children, in England and Wales, 1998 to 2007[2, 3]

Offence	*Statute*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*
Possession of an indecent photograph or pseudo-photograph[3]	Criminal Justice Act 1988 Sec. 160 as amended by the criminal Justice and Court Services Act 2000, and Criminal Justice Act 1988 Sec 160 as amended by the Criminal Justice and Public Order Act 1994, Secs.84(4) and 86(1)	19	34	25	32	53	205	162	151	147	142
Take, permit to be taken, or to make distribute or publish indecent photographs or pseudo-photographs of children	Protection of Children Act 1978 Section 1 as amended by Criminal Justice and Public Order Act 1994, Sec 84 and Criminal Justice and Court Services Act 2000 S.41(1).	26	31	35	38	63	239	201	195	168	185

[1] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and warnings. These figures have been included in the totals.
[2] The cautions statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been cautioned for two or more offences at the same time the principal offence is the more serious offence.
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
Source:
Evidence & Analysis Unit—Office for Criminal Justice Reform

Offenders: Foreigners

Damian Green: To ask the Secretary of State for the Home Department how many foreign national prisoners were on bail on 28 February 2009. [263214]

Mr. Woolas: I refer the hon. Gentleman to the letter of 7 July 2009 from the Chief Executive of the UK Border Agency to the Home Affairs Select Committee which is available in the House Library.

Office of Cyber Security: Cyber Security Operations Centre

Jenny Willott: To ask the Secretary of State for the Home Department what the *(a)* budget and *(b)* number of staff of the (i) Office of Cyber Security and (ii) Cyber Security Operations Centre in Cheltenham is in 2009-10; and if he will make a statement. [286486]

Mr. Hanson: The Office of Cyber Security (OCS) will be established in September 2009 to provide strategic leadership for and coherence across Government, and to establish a cross-Government programme to address priority areas in pursuit of the UK's strategic cyber security objectives. The exact staffing and budgetary arrangements are currently being determined.

The Cyber Security Operations Centre (CSOC) will be established at the same time to bring together existing multi-agency efforts to provide situational awareness, analysis and incident response co-ordination in the cyber security field, making sure that new and existing resources are used to best effect in the areas where they are needed the most. The exact staffing and budgetary arrangements are currently being determined.

The additional resources for the Government's overall cyber security programme will be reported to the House in the autumn.

Official Residences

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department how much has been paid to Westminster City Council in council tax on the empty property of 62 South Eaton Place in each month since the right hon. Member for Sheffield, Brightside vacated the Ministerial residence there. [273466]

Mr. Woolas: The following annual council tax payments have been made:

	£
2006-07	1,271
2007-08	825
2008-09	824

Discount for empty property was claimed for 2007-08 and 2008-09.

Passports: Fraud

Chris Grayling: To ask the Secretary of State for the Home Department how many biometric passports issued to applicants had subsequently been withdrawn on the basis of *(a)* fraud and *(b)* ineligibility of the applicant on the latest date for which figures are available. [276828]

Alan Johnson: In terms of fraud recording, the Identity and Passport Service does not yet differentiate between biometric and non-biometric passports.

Chris Huhne: To ask the Secretary of State for the Home Department how many fraudulent passport applications were detected in each year since 1997; and how many instances of passport fraud his Department estimates were undetected in each such year. [285925]

Alan Johnson: The Identity and Passport Service (IPS) figures for passport frauds detected in each year since 1997 are shown in table 1:

Table 1

	Number
1997[1]	1,880
1998[1]	1,368
1999[1]	1,535
January to March 2000[1]	362
2000-01	1,484
2001-02	2,419
2002-03	1,973
2003-04	2,651
2004-05	1,497
2005-06	6,497
2006-07	6,108
2007-08	9,382
2008-09	9,254

[1] Calendar years were used until April 2000

The estimated number of fraudulent passport applications which go undetected, for years in which figures are available, is set out in table 2

Table 2

	Estimated proportion of fraudulent applications (percentage)[1]	*Estimated number of undetected frauds*[1]
1997	—	—
1998	—	—
1999	—	—
January to March 2000	—	—
2000-01	—	—
2001-02	—	—
2002-03	0.09	2,974
2003-04	—	—
2004-05	—	—
2005-06	0.25	10,058
2006-07	0.25	9,672
2007-08	0.25	5,372
2008-09	0.26	4,410

[1] Figures do not include cases in which a false declaration has been made by a passport applicant but identity and eligibility for a passport are not in doubt.

The process IPS uses to estimate the number of fraudulent applications it receives is based on sampling and statistical extrapolation.

The estimate of the number of fraudulent applications which evade IPS controls is derived from a simple arithmetical calculation in which the number of frauds identified and prevented is deducted from the estimated number of fraudulent applications received.

IPS first conducted an exercise to establish an estimate of the number of fraudulent applications in 2002 and details of its findings were made available to Parliament in response to questions.

In 2006 IPS introduced a more refined and robust sampling process drawing on the experience of 2002 and its increased understanding of the nature and pattern of fraud. This increased understanding of the nature and pattern of fraud has also enabled IPS to refine the way it records fraud and to identify fraudulent applications which had been stopped by routine controls but which had not been previously recorded as fraud.

Passports: Interviews

Chris Huhne: To ask the Secretary of State for the Home Department how many and what proportion of first-time passport applicants have been interviewed in each month since the interview system was established. [285794]

Alan Johnson: The proportion of first time adult passport applicants who have received passports and who had been interviewed in each month since the interview system was established in 2007 is approximately 90 per cent.

See following table:

	Total first time adult interviews conducted	*Total first time adult passports issued*	*Percentage of first time adults being interviewed*
October 2007	2,259	26,132	9
November 2007	5,207	25,778	20
December 2007	9,031	17,293	52

April 2009	24,210	25,607	95
May 2009	30,818	33,220	93
June 2009	18,955	19,948	95
Total	432,756	479,631	90

Chris Huhne: To ask the Secretary of State for the Home Department what the *(a)* staffing and *(b)* other costs have been of each passport interview centre in each month since such centres were established. [285795]

Alan Johnson: Personal passport interviews are conducted through the Interview Office Network (ION) of the Identity and Passport Service. The costs for each passport interview centre in each month since the Interview Office Network was established in July 2007 are as follows. This excludes the cost of depreciation of relevant set-up capital expenditure.

Police

Keith Vaz: To ask the Secretary of State for the Home Department (1) what estimate he has made of the proportion of time spent by police officers in each police force *(a)* on front-line duties and *(b)* in completing (i) all administrative, (ii) incident-related administrative and (iii) stop and search forms in the latest period for which figures are available; [280930]

(2) what estimate he has made of the proportion of the working day spent by police officers, *(a)* on front-line duties and *(b)* in completing (i) all administrative forms and (ii) stop and search forms in the latest period for which figures are available. [286931]

Mr. Hanson: Figures for all forces for front-line policing and for paperwork at a national level are given in the following tables. Figures for paperwork for individual forces should be sought from those forces, as it is not possible for the Home Office to release them without incurring disproportionate cost. The Home Office does not collect data on time spent on stop and search routinely, but we estimate that hand written completion of stop and search forms on the street takes on average three to seven minutes. The time spent on completing the form depends on the circumstances of the individual stop.

Figures are not available on a force by force basis.

Table A: Paperwork and frontline activity for all officers 2007-08[1]

	Percentage
Time spent on incident-related paperwork	12.4
Time spent on non incident-related paperwork	9.3
Total time spent on paperwork	21.7
Time spent on patrol[3]	13.8
Frontline policing measure[4]	64.9

[1] The information is taken from activity analysis, which is collected by all forces over a two-week period in each year and provides a snapshot of how officers are deployed.
[2] Excluding Staffordshire.
[3] Includes officers on foot/car/boat patrol, CID and traffic officers.
[4] The frontline policing measure includes activities other than those shown in the table such as dealing with crimes and non-crime incidents.

Table B: Frontline activity by force 2007-08

Force	Frontline policing measure (percentage)
Avon and Somerset	58.9
Bedfordshire	67.6
Cambridgeshire	64.3
Cheshire	63.9
City of London	67.8
Cleveland	60.8
Cumbria	62.3
Derbyshire	71.2
Devon and Cornwall	61.3
Dorset	71.4
Durham	57.3
Dyfed-Powys	61.9
Essex	64.3

Northumbria	71.2
Nottinghamshire	72.1
South Wales	62.5
South Yorkshire	70.0
Staffordshire	n/a
Suffolk	67.4
Surrey	64.6
Sussex	60.0
Thames Valley	62.5
Warwickshire	65.5
West Mercia	64.4
West Midlands	65.6
West Yorkshire	68.5
Wiltshire	67.2

Keith Vaz: To ask the Secretary of State for the Home Department what methodology his Department uses to collate figures on the amount of time spent by police officers on administrative tasks; and who in his Department has responsibility for the collection of such figures. [286932]

Mr. Hanson: The frontline policing measure and other measures of time spent on patrol and paperwork have been discontinued as part of the Government's commitment to reduce the burden on police forces imposed by statistical and other data. This will allow police officers to concentrate their efforts on fighting crime and being more visible.

The decision to discontinue the measure is based on the maturing relationship which exists between the police service and the Home Office around performance management. Over time a performance management culture has been embedded, and following the success that forces have had in reducing crime and the move to one centrally set target around public confidence, we believe that this approach is the right one.

Police Community Support Officers: Lancashire

Geraldine Smith: To ask the Secretary of State for the Home Department how many police community support officers are employed in Lancashire. [287837]

Mr. Hanson: There were 400 police community support officers in Lancashire constabulary as at 30 September 2008. This figure is calculated on a full-time equivalent basis.

This and other related data are published annually as part of the annual Police Service Strength Home Office Statistical Bulletin. The latest bulletin can be found at:

http://www.homeoffice.gov.uk/rds/policeorg1.html

and bulletins for this and previous years are deposited in the Library of the House.

Annual 30 September figures are provided as interim figures to the more detailed 31 March figures which can also be found at the above link. 31 March 2009 figures are due to be published on 23 July 2009 on the same webpage.

Police: Cybercrime

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department when he expects the regional police squads established to tackle cyber crime to be operational; and what *(a)* budget and *(b)* personnel will be provided for those squads. [286944]

Mr. Hanson: The work of the Association of Chief Police Officers e-crime Committee includes a project to set up regional cyber crime teams. Chief constables have a budget which they are able to use on the priorities for their forces. Any decision on funding or staffing for regional teams is a matter for the chief constables for that region.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what mechanisms are in place to co-ordinate the work of police forces in reducing levels of cybercrime. [286943]

Mr. Hanson: The Government have provided £3.5 million over three years to support the work of the police central e-crime unit (PCeU). One of the roles that the PCeU has been given is to develop the response to e-crime across the police service. The co-ordination of that work is a matter for the police and for ACPO.

Police: Training

Mrs. May: To ask the Secretary of State for the Home Department pursuant to the answer of 19 November 2008, *Official Report*, column 602W, on police training, what progress the National Police Improvement Agency has made in refreshing its training modules on domestic abuse to include *(a)* female genital mutilation, *(b)* stalking and harassment and *(c)* honour-based violence. [283731]

Mr. Alan Campbell: The National Policing Improvement Agency has reviewed the existing training materials for domestic abuse and has begun developing a new learning programme. Part 1 of this training relates to risk identification, assessment and management which will be available from end July 2009.

Further training material is to be launched in Q3 2009 and will include general awareness training for all police officers and staff and specialist training for all experienced specialist domestic abuse officers and all investigators.

All of the new training materials incorporate *(a)* female genital mutilation, *(b)* stalking and harassment and *(c)* honour-based violence.

Prisoners Release: Foreigners

Mr. Grieve: To ask the Secretary of State for the Home Department how many people are unlawfully at large having been removed from prison to an immigration removal centre and subsequently released into the community. [278329]

Mr. Woolas: The UK Border Agency and its partners are currently pursuing for the deportation of 64 individuals who breached the conditions of the parole license and have not yet been recalled.

Refugees: Iraq

Dr. Starkey: To ask the Secretary of State for the Home Department how many of the 28,000 Iraqi refugees in Syria submitted by the UN for resettlement since 2007 have been accepted by the UK. [279640]

Mr. Woolas: I wrote to my hon. Friend on 17 July 2009.

Serious and Organised Crime Agency

Chris Grayling: To ask the Secretary of State for the Home Department on how many occasions the Serious and Organised Crime Agency has provided information to support prosecutions in each of the last 24 months. [285946]

Alan Johnson: The information is not readily available and could be recovered only at disproportionate cost.

Chris Grayling: To ask the Secretary of State for the Home Department how many staff from the Serious and Organised Crime Agency provided evidence in person or in writing during trials in each of the last 24 months. [285947]

Alan Johnson: The information is not readily available and could be recovered only at disproportionate cost.

Serious Crime Prevention Orders: Antisocial Behaviour Orders

Sammy Wilson: To ask the Secretary of State for the Home Department (1) how many *(a)* serious crime prevention orders and *(b)* antisocial behaviour orders have been issued in England and Wales since their introduction; [284645]

(2) how many antisocial behaviour orders are in force in England and Wales. [284646]

Mr. Alan Campbell: Antisocial behaviour orders (ASBOs) became available from 1 April 1999. The number of ASBOs issued at all courts in England and Wales between 1 April 1999 and 31 December 2007 (latest available) was 14,972.

ASBOs can be of a fixed duration (minimum two years) or made until further order. It is therefore not possible to determine from centrally collected data how many ASBOs are in force at a particular point in time.

Serious crime prevention orders became available on 6 April 2009. Up to 31 May 2009 the Serious Organised Crime Agency had secured 19 such orders and we understand that three further orders had been secured by other law enforcement authorities.

Serious Organised Crime Agency: Travel

Chris Grayling: To ask the Secretary of State for the Home Department how much was spent on travel and accommodation by the Serious and Organised Crime Agency in each of the last three years. [278441]

Alan Johnson: The Serious Organised Crime Agency's expenditure on all its travel and accommodation in the UK and overseas for each of the last three years was:

	£
2006-07	18,189,370.31
2007-08	16,778,991.09
2008-09	18,574,892.35

These costs were incurred necessarily in the delivery of the agency's functions. During the three years 2006-07 to 2008-09, SOCA had approximately 4,000 members of staff of whom approximately 140 were based overseas.

Terrorism: Arrests

Mr. Evans: To ask the Secretary of State for the Home Department how many people arrested under the Terrorism Act 2006 have subsequently been deported. [272197]

Mr. Woolas *[holding answer 1 May 2009]:* None. There is no power of arrest under the Terrorism Act 2006. Any arrest for terrorism offences would be under either the Terrorism Act 2000 or other legislation.

Details of the number of arrests for terrorism offences between 11 September 2001 and 31 March 2008 are contained in the Home Office Statistical Bulletin:

"Statistics on Terrorism Arrests and Outcomes Great Britain 11 September 2001 to 31 March 2008" at:

http://www. homeoffice.gov.uk/rds/pdfs09/hosb0409.pdf

Details of the numbers of people arrested for a terrorism offence who have subsequently been deported are not available.

Travel Restrictions

Mr. Evans: To ask the Secretary of State for the Home Department pursuant to the answer of 17 June 2009, *Official Report*, column 321W, on travel restrictions, what the outcome of the discussions on the Government's policy on exclusion with US officials was. [281930]

Mr. Woolas *[holding answer 25 June 2009]:* Following the bi-lateral meeting between UK and US officials, UK officials agreed in principle to provide further information to their US counterparts about the operation of the Government's policy on exclusion in the event of future inquiries.

Mr. Evans: To ask the Secretary of State for the Home Department pursuant to the answer of 17 June 2009, *Official Report*, column 321W, on travel restrictions, whether he received any representations from US officials about the inclusion on the list of foreign nationals barred from entry to the UK of *(a)* Michael Savage and *(b)* any other US citizen. [282340]

Mr. Woolas *[holding answer 29 June 2009]:* A bi-lateral meeting was held between UK and US officials following the publication of the list on 5 May 2009 to discuss the Government's policy on exclusion on the grounds of unacceptable behaviour. Officials set out the background to the policy and Michael Savage's inclusion on the list.

UK Border Agency: Correspondence

Mr. Mullin: To ask the Secretary of State for the Home Department if he will require the Chief Executive of the UK Border Agency (UKBA) to report on when a response will be sent to the hon. Member for Sunderland South's letter of 24 April 2009, regarding his constituent, Mrs Louise Chambers, Home Office reference U1062508; and for what reasons no response to the correspondence has been provided to the hon. Member through the hon. Members' hotline. [282896]

Mr. Woolas: The Deputy Director, Operations, of the London and South East Region wrote on 26 June regarding Mrs. Umber's application. The MPs' Hotline was unavailable for technical reasons which have now been addressed.

UK Border Agency: Manpower

Damian Green: To ask the Secretary of State for the Home Department how many foreign nationals are employed by the UK Border Agency. [282994]

Mr. Woolas: All candidates are subject to the same pre-appointment checks regardless of nationality. Our pre-appointment checks ensure that we only select those that pass eligibility in accordance with the Cabinet Office nationality requirements:

http://www.civilservice.gov.uk/jobs/Nationality-Requirements/Nationality-Requirements.aspx

UK Border Agency: Passports

Chris Huhne: To ask the Secretary of State for the Home Department what estimate he has made of the average time taken by the UK Border Agency and its predecessors to check a passport at each *(a)* airport and *(b)* port in each of the last 10 years. [285793]

Alan Johnson: The time taken to check a passport at each port is not routinely recorded.

All new passports issued within the EU and in many countries across the world are now chip enabled and current policy is to scan 100 per cent. of passports at border control. The embedded chips from different countries have different reading rates, varying from three to 15 seconds depending on the detail of information stored on the chip.

Thereafter, the further checks made by border force officers will depend on a range of other factors as the passenger presents themselves at the desk, including eligibility for entry to the UK, prior concerns as flagged by e-borders, suspicious behaviour or unusual circumstances and alerts from other law enforcement agencies.

New automated iris recognition gate arrangements, now rolling out to a further eight arrivals halls over the next two months will further reduce queuing and speed the passenger flow.

Alongside our Automated Clearance System trials, UKBA are already facilitating the journey of other legitimate passengers through our Iris Recognition Immigration System (IRIS). IRIS combines speed and maximum security to let positively vetted passengers travel faster. The scheme was launched in January 2006 and is available at 10 airport terminals throughout the UK.

UK Border Agency: Training

Damian Green: To ask the Secretary of State for the Home Department how many UK Border Agency staff have been on training courses abroad in each country in each of the last five years. [282946]

Mr. Woolas: Data are not collected centrally on the number of UK Border Agency staff who have attended training courses abroad in the last five years, and could be only provided at disproportionate cost.

FOREIGN AND COMMONWEALTH OFFICE

Arabic Language

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to increase the number of Arabic speakers in his Department. [287013]

Chris Bryant: The Foreign and Commonwealth Office (FCO) places a great deal of importance on improving the language skills for its staff. It currently has over 40 active Arabic speaker slots (jobs with an operational language requirement). The number of these jobs, and level of language proficiency necessary, are regularly reviewed in the light of requirements.

The FCO offers a mix of full-time and part-time language training, in-country training, and on-the-job training to officers selected for these jobs. In addition, it assesses the level of Arabic language proficiency of the jobholders, through exams accredited to the Chartered Institute of Linguists.

Australia: Diplomatic Service

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs what criteria in respect of fair and open competition apply to appointments to the post of High Commissioner to Australia; and on how many occasions an appointment to this post has been made through open competition within the Diplomatic Service in the last 10 years. [287400]

Chris Bryant: No one has been appointed as high commissioner to Australia through Diplomatic Service open competition for the last 10 years.

High commissioners can be appointed either through the civil service recruitment process or by Diplomatic Service Order in Council.

Cybercrime

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his US counterpart on cyber security; and what assessment he has made of the merits of taking steps in co-operation with the US administration to prevent cyber attacks. [286948]

Mr. Ivan Lewis: There have been no recent discussions between my right hon. Friend the Foreign Secretary and his US counterpart on cyber security.

The Cabinet Office currently provides the lead for policy on cyber security and has, supported by representatives from across Government, continued to engage closely with the US administration during the development of the UK's recently published Cyber Security Strategy which, in addition to other key areas, addresses the importance of cyber attack prevention. As the strategy explains, the security of cyber space is a transnational issue and, as such, working with international partners, including the US, is essential to achieving the UK's strategic cyber security objectives.

Cyprus: Land

Sammy Wilson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Cypriot Government on the effects on British citizens of title deed trap fraud perpetrated in Cyprus. [286965]

Chris Bryant: Our high commissioner in Nicosia has made a number of representations to the Cypriot authorities to make clear our concerns, most recently on 27 April 2009. We have been assured that the Cyprus Government will introduce legislation to speed up the issuing of title deeds. Our high commission in Cyprus will remain engaged in supporting British citizens on this issue and regularly meets with action groups formed by British nationals such as the Cypriot Property Action Group to listen to their concerns. Arrangements for the issuing of title deeds are a matter of national competence. However, we will continue to make our concerns clear to the authorities.

Deen International

Mr. Holloway: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer to Baroness Warsi of 2 June 2009, House of Lords, *Official Report*, column WA70, on Deen International, when he expects the University of Islamabad to publish its independent report; when he expects the evaluation reports commissioned by his Department in *(a)* Islamabad and *(b)* London to be completed; and if he will place in the Library copies of any of these reports which have already been completed. [287728]

Mr. Ivan Lewis: "I am Muslim I am British", a project conducted by Deen International with Foreign and Commonwealth Office (FCO) funding, concluded as scheduled on 2 May 2009. FCO guidance requires evaluation reports to be completed within three months of the end of project delivery. The university of Islamabad's evaluation, which is based on over 600 detailed interviews, is currently being finalised and is due to be shortly signed off by the head researcher. The further evaluations in London and Islamabad will be informed by the university's detailed report.

The evaluations are internal FCO documents and we have no plans to place them in the Library of the House.

Departmental Contracts

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* institutions supported by the Higher Education Funding Councils

and *(b)* other organisations and bodies have been awarded contracts by his Department's (i) research analysts and (ii) policy planning staff in each financial year since 2003. [282666]

Chris Bryant: The following institutions supported by the Higher Education Funding Councils have been awarded contracts by Research Analysts since 2003:

Institute for the Study of the Americas (University of London)
Oxford University
Dundee University
London School of Economics
African Studies Centre

No contracts were awarded by Strategy Unit (formerly Policy Planners) to institutions supported by the Higher Education Funding Councils in financial year 2008-09 (the only year for which figures are available for Strategy Unit in its current form).

The following organisations or bodies were awarded contracts for services by Research Analysts in the years from 2003 (contracts for the supply of goods such as office equipment are not included):

Chatham House
Communicaid
Economic and Social Research Council
Factiva
Henry L. Stimson centre
Iraq Institute for Strategic Studies
Linguarama
Rainbow
Royal African Society
World Language Consultants

The following organisations or bodies were awarded contracts for services (contracts for the supply of goods such as office equipment are not included) by the Strategy Unit (formerly Policy Planners) in financial year 2008-09 (the only year for which figures are available for Strategy Unit in its current form):

National School for Government
Overseas Development Institute
International Institute for Strategic Studies
European School for Governance
PA Consulting Group
Ashridge Consulting
Wilton Park Executive Agency
Happy Computers
RUSI Trading Ltd.
Libra Advisory Group
Mary-Louise Clark Associates Ltd.
Open Society Institute
Barkers
Centre for Parliamentary Studies

Departmental Data Protection

Jenny Willott: To ask the Secretary of State for Foreign and Commonwealth Affairs how many successful attempts were made to gain unauthorised access to each *(a)* database and *(b)* ICT system run by his Department in each year since 2006; and if he will make a statement. [286560]

Chris Bryant: It is not in the interests of the UK's national security for Departments to confirm information on the number of attempts, successful or otherwise, to gain unauthorised access to departmental systems or databases. Such disclosure could undermine the integrity and security of departmental systems and thereby expose them to potential threats.

The Foreign and Commonwealth Office complies with the mandatory requirements of the Security Policy Framework in relation to information security including managing the risk of unauthorised access to information and communications technology systems.

Departmental Internet

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 9 July 2009, *Official Report*, column 947W, on departmental internet, which web browser his Department has chosen to replace Internet Explorer 6; what proportion of computers in his Department have been updated; and when he expects the update process to be completed. [287023]

Chris Bryant: The Foreign and Commonwealth Office is updating its web browsers to Internet Explorer 7 as part of the deployment of its replacement desktop infrastructure. By the end of June 2009, some 57 per cent. of its networked computers had been updated. Completion is scheduled for the end of May 2010.

Departmental Manpower

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what percentage of employees in his Department are *(a)* women and *(b)* men; and what the average hourly pay of his Department's (i) male employees and (ii) female employees was in the latest period for which figures are available. [287122]

Chris Bryant: As at 1 July 2009, 41 per cent. of the current Foreign and Commonwealth Office (FCO) workforce is female and 59 per cent. is male.

The average hourly rate of basic pay for male staff in the FCO is £20.56 and for female staff £20.11.

These figures are for basic salary only and are taken from the last Equal Pay Audit conducted in the autumn of 2007. The executive summary of the audit highlighted:

> "that average basic salaries for each grade when compared on the grounds of gender, ethnicity and disability are within the 5 per cent. tolerance set out by the EOC (Equal Opportunities Commission)"

(now Equality and Human Rights Commission).

Departmental Publications

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what publications his Department has issued in the UK in the last 12 months. [286243]

Chris Bryant: Details of our publications can be found at:

http://www.fco.gov.uk/en/about-the-fco/publications/publications

Diplomatic Service

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many diplomats in each British diplomatic mission overseas have been accused by the authorities of the host country of committing a serious criminal offence in the period 2004 to 2008, broken down by type of offence. [285106]

Chris Bryant *[holding answer 8 July 2009]:* Central records show that no diplomats in any of our diplomatic missions overseas have been accused by the authorities of the host country of committing a serious criminal offence in the period 2004 to 2008.

EU Institutions: Manpower

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK nationals *(a)* applied for and *(b)* have been accepted for traineeships in the European Commission since March 1997. [270842]

David Miliband: I refer the hon. Member to the answer I gave on 5 May 2009, *Official Report*, column 44W.

Foreigners: Honours

Mr. Holloway: To ask the Secretary of State for Foreign and Commonwealth Affairs on whom *(a)* honorary knighthood and *(b)* honorary citizenship has been conferred in each year since 1997. [287892]

Chris Bryant: Recipients of honorary awards, including honorary knighthoods, have been published on the Foreign and Commonwealth Office (FCO) website since 2007:

http://www.fco.gov.uk/en/about-the-fco/what-we-do/honours

The UK awarded 167 honorary knighthoods between 1997 and 2006, of which 89 were awarded during State and Guest of Government visits. Full details have been placed in the Library of the House.

Honorary knighthoods in the Royal Victorian Order have not been included as they are in the personal gift of The Queen and are not, therefore, administered by the FCO.

The UK does not confer honorary citizenships.

Hamas

Mr. Wallace: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on meetings between representatives of the Government and Hamas. [288495]

Mr. Ivan Lewis: The UK position is clear: we do not believe it is productive to talk to Hamas directly. The military wing of Hamas is proscribed in the UK as a terrorist organisation: they fire rockets at innocent civilians and put ordinary Palestinians in harm's way. We believe that to talk to Hamas directly at this time would simply undermine those Palestinians who are committed to peace.

The Arab League has mandated Egypt to communicate with Hamas. We are in regular contact with both the Arab League and Egypt.

Human Rights

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will hold discussions with the Association of Tour Operators on introducing a traffic light system to classify foreign tourist destinations as having good, fair or bad human rights records. [287012]

Mr. Ivan Lewis: Consular officials from the Foreign and Commonwealth Office (FCO) are in regular contact with travel industry professionals and associations on a range of issues. It is for individuals to decide where to travel. We would encourage people to take such decisions on the basis of our travel advice and other publicly available information on their proposed destination. The FCO's Annual Human Rights Report, published most recently on 26 March 2009, provides a comprehensive assessment of the human rights record of countries of concern around the world.

Sammy Wilson: To ask the Secretary of State for Foreign and Commonwealth Affairs what his most recent assessment is of the human rights situation in relation to Christians in *(a)* North Korea, *(b)* Saudi Arabia, *(c)* Iraq, *(d)* Afghanistan and *(e)* Somalia; and what representations he has made on that situation to the Government of each such country. [287019]

Mr. Ivan Lewis: We condemn all instances of violence and discrimination against individuals and groups because of their faith or belief, wherever they happen or whatever the religion of the individual or group concerned.

The Government continue to be extremely concerned about continuing reports of serious, widespread, and systematic human rights abuses in North Korea, including the suppression of religious freedoms. We raise these concerns with the North Korean authorities at every appropriate opportunity, most recently in February 2009, urging them to engage with the international community, particularly the UN Special Rapporteur on North Korea Human Rights. They continue to refuse to engage on this issue. We are also working with non-governmental organisations, including Christian Solidarity Worldwide, as we prepare for the Universal Periodic Review (UPR) of North Korea's human rights record at the UN Human Rights Council in December 2009.

The human rights situation in Saudi Arabia remains poor. We particularly oppose the lack of freedom of expression and religion. Saudi Arabia is a Muslim country which does not allow the practice of other religions. We continue to urge the Saudis to respect freedom of religion and to honour article 18 of the Universal Declaration of Human Rights. This is done at ministerial, ambassadorial and official level.

In February 2009 the UN UPR reviewed human rights in Saudi Arabia. The UK made a number of recommendations. On 26 March 2009 the Foreign and Commonwealth Office's 2008 Annual Human Rights report was launched by the Foreign Secretary. In the report we highlighted that "the public practice of any religion other than Islam remains banned. Renouncing

religious belief in Islam is an offence punishable by death". Our embassy last raised Freedom of Expression with the Saudi Government in Riyadh on 13 July 2009. We will continue to lobby on this and other important issues.

The security situation in Iraq shows continued signs of improvement, but violence does continue to affect many people, including Christians. The UK continues to encourage the Government of Iraq to protect all communities and to take tough action against those responsible for any acts of violence and intimidation regardless of political, ethnic or religious affiliation.

Promoting human rights is integral to building a stable democracy in Afghanistan. But after 30 years of conflict Afghanistan is starting from a low base. Poverty and weak state institutions are big contributors to human rights violations. Conservative cultural values often exacerbate the severe hardships many still face. We condemn all instances where individuals, including Christians, are persecuted because of their faith or belief and take every opportunity to urge Afghanistan to implement laws and practices which foster tolerance and mutual respect. This includes full implementation of those norms laid out in the 1981 UN Declaration on the Elimination of all Forms of Intolerance and of Discrimination Based on Religion or Belief. Our embassy in Kabul continues to follow the human rights situation on the ground closely and raise matters of concern with the Afghan Government.

We recognise that the human rights situation in Somalia has been appalling for a very long time. The ongoing civil conflict has impacted adversely on all sections of society, but particularly on vulnerable ethnic and religious minorities including the small community of Christians. We continue to urge the Transitional Federal Government to combat human rights abuses as an important component of the Djibouti Process to restore peace and stability to the country. We support the mandate of the UN Independent Expert on Human Rights in Somalia and the work of human rights organisations to gather accurate information and evidence about the situation on the ground.

Iran: Politics and Government

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his US counterpart on the political situation in Iran. [282305]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary has spoken to Secretary Clinton by telephone since the Iranian elections on 12 June 2009. We continue to stay in close contact with US officials.

The UK and US share concerns about the Iranian authorities' heavy handed response to post-election protests. Both agree that it is for the Iranian people to decide their own government but that it is incumbent on the Iranian authorities to address the allegations of irregularities.

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 7 July 2009, *Official Report*, column 628W, on Iran: foreign relations, what recent representations he has made to the Iranian Government on executions in Iran. [286615]

Mr. Ivan Lewis: The Government remain deeply concerned by the increasing use of capital punishment in Iran, which has one of the highest per capita execution rates in the world. We regularly make representations to the Government of Iran, in our bilateral contacts and through the EU, to express general concern about the use of the death penalty in Iran and to raise individual execution cases. We have done so on at least 20 separate occasions in 2009.

In an EU presidency statement dated 5 July 2009, we strongly condemned the recent executions in Iran, in particular the execution of 20 persons on 4 July 2009, in the city of Karaj. Alongside our EU partners we will continue to call on the Iranian authorities to abolish the death penalty completely and, in the meantime, to establish a moratorium on executions as urged by UN General Assembly resolutions 62/149 and 63/168.

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 7 July 2009, *Official Report*, column 628W, on Iran: foreign relations, what his most recent assessment is of the human rights situation in Iran. [286616]

Mr. Ivan Lewis: Iran's human rights record has continued to deteriorate throughout 2009. Even before the recent unrest we were particularly concerned by worrying signs of growing pressure on anyone with foreign contacts, including numerous arrests on counts of espionage and threatening national security. We are also witnessing an increasing use of the death penalty, and the continued practice of juvenile executions.

The violence and brutality we witnessed in response to peaceful protests following the elections only served to compound the genuine concerns long held by the international community with regards to Iran's human rights record. In the aftermath of the elections we are concerned that large numbers of political opponents, students, journalists, lawyers and human rights defenders have been arrested and remain in detention. We are concerned about the conditions under which they are being detained, and that they are being denied access to due legal process.

We have repeatedly raised our concerns with the Iranian authorities regarding human rights violations and will continue to do so. The Iranian Government must heed strong calls from the international community and its own people to live up to its freely undertaken human rights commitments by respecting basic human rights and democratic freedoms.

Israel

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has made any recent assessment of the economic relationship between Israeli commercial and residential settlements. [287151]

Mr. Ivan Lewis: No such assessment has been made.

Israel: Imports

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 8 July 2009, *Official Report*, column 856W, on Israel: imports, if he will place in the Library a copy of *(a)* the

draft voluntary guidance on origin labelling of produce from the occupied Palestinian territories and *(b)* the minutes of the roundtable meeting with representatives from food retailers and trading organisations. [287258]

Jim Fitzpatrick: I have been asked to reply.

The Department for Environment, Food and Rural Affairs is working with other Departments, including the Foreign and Commonwealth Office, HM Revenue and Customs, the Department for Business, Innovation and Skills and the Food Standards Agency with the intention of carrying out a public consultation on the labelling of produce from the Occupied Palestinian Territories shortly. The draft voluntary guidance will be available on DEFRA's website. The details of the roundtable meeting with food retailers and traders will not be disclosed, since to do so could harm the frankness and candour of internal discussion.

Libya: Terrorism

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer to the hon. Member for Aylesbury (Mr. David Lidington) of 13 January 2009, *Official Report*, columns 545-6W, on Libya: terrorism, whether the Prime Minister discussed with President Gaddafi the issue of compensation for UK victims of terrorism at their meeting on 9 July 2009; and if he will make a statement. [287558]

Mr. Ivan Lewis: I am acutely aware of the pain caused by Libya's past actions and the victims of Irish Republican Army atrocities have the Government's whole hearted sympathy.

The Government continue to monitor the Libyan position on this matter, and raised it in discussions with Libyan Ministers as recently as February 2009. The Libyans maintain their firm view that they consider the matter closed. The Government therefore see no prospect of a bilateral agreement on this matter and I therefore did not raise this matter with the Libyan Leader.

Mauritania: Diplomatic Relations

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what consideration the Government has given to opening an embassy in Mauritania. [276200]

Chris Bryant: We have no plans to open an embassy in Mauritania.

However, we do intend to deploy a diplomatic officer into Nouakchott later this year. The officer will be remote working from, and responsible to, our embassy in Rabat.

Members: Correspondence

Mr. Harper: To ask the Secretary of State for Foreign and Commonwealth Affairs when the Minister for Europe will reply to the letters of 16 April and 14 May from the hon. Member for Forest of Dean, regarding expatriates, reference FD7868. [287932]

Chris Bryant: The hon. Member's letters of 16 April 2009 and 14 May 2009 are not for the Foreign and Commonwealth Office to answer. My hon. Friend the Minister of State at the Department for Work and Pensions (Angela Eagle), replied to the hon. Member's letters on 17 June 2009.

Ministerial Policy Advisers

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 6 July 2009, *Official Report*, column 548W, on Ministerial policy: advisers, what the names of the three members of his Department based in 10 Downing Street are; what their job descriptions are; for how long each has been posted there; and what advice they provide to his Department while on secondment. [286242]

Chris Bryant: Of the three advisers referred to in the previous answer, Simon McDonald has been officially based at the Cabinet Office, rather than at No. 10, as Foreign Policy Adviser to my right hon. Friend the Prime Minister, since 2007. Two other members of Foreign and Commonwealth Office (FCO) staff are based at No. 10 as foreign policy advisers. Tom Fletcher since September 2007 and Nick Catsaras since July 2008.

FCO officials at No. 10 advising the Prime Minster on foreign policy issues work very closely with officials from the Department for International Development, the Ministry of Defence and the Foreign and Commonwealth Office.

Nuclear Weapons

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs when he received reports on the export of nuclear weapons technology, blueprints and fissionable material by the Kahuta Nuclear Research Institute in Pakistan to *(a)* Iran, *(b)* Libya, *(c)* North Korea and *(d)* Saudi Arabia; and what steps he has taken in response to those reports. [286818]

Mr. Ivan Lewis: In 2003 reports suggested that AQ Khan, who headed the Kahuta Nuclear Research Institute, supplied technology that could be used to make nuclear weapons to some of the countries mentioned. There is no evidence that Khan provided technology to Saudi Arabia. The UK played a leading role in Libya's renunciation of weapons of mass destruction in December 2003 and we support all the UN Security Council Resolutions in place with regards to Iran and the Democratic People's Republic of Korea.

Pakistan: Armed Conflict

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his Pakistani counterpart on Pakistan's policies in the Swat Valley; and what steps he has taken to seek to establish peace in that area. [287548]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary discussed the situation in the Swat Valley on his recent visit to Pakistan with a wide range of Government of Pakistan officials, including President Zardari and Prime Minister Gilani.

The Foreign Secretary also discussed with the Government of Pakistan the need for military gains to be followed by reconstruction and development and commitment to a long-term political strategy for improving governance, justice and services and addressing the roots of militancy.

The UK is working bilaterally and with international partners through the Friends of Democratic Pakistan to support the Government of Pakistan to deliver such a strategy. The UK, through the Department for International Development, has given £22 million in immediate humanitarian assistance for internally displaced people. We continue to lobby international partners to increase their contributions.

Pakistan: Crimes of Violence

Lembit Öpik: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will hold discussions with his Pakistani counterpart on the attack on Christians in Bahmani Wala on 30 June 2009; and if he will make a statement. [287085]

Mr. Ivan Lewis: We are concerned about reports that members of the Christian community in Bahmani Wala, Pakistan have been attacked. The UK supports freedom of religion and condemns persecution because of faith or beliefs. Incidents such as the attack in Bahmani Wala are an example of the sectarian violence and violent extremism that feed the discrimination faced by religious minorities.

With our EU partners, we regularly raise our concerns with the Government of Pakistan over the situation of religious minorities in Pakistan and we will continue to do so. The most recent EU demarche in December 2008 called upon the Government of Pakistan to promote tolerance, and take measures to protect freedom of religion or belief. This demarche also called for the reform of discriminatory legislation and urged the Minister for Minority Affairs to raise awareness about abuses against minorities and to increase their political representation at all levels.

Bilaterally, both in London and through our High Commission, officials regularly raise the treatment of minorities with their Pakistani interlocutors and will continue to do so. My hon. Friend the Member for Lincoln (Gillian Merron), the former Parliamentary Under Secretary of State, met Shahbaz Bhatti, Pakistan's Minister for Minority Affairs, during her visit to Pakistan in February 2009. She raised concerns about the difficulties faced by religious minorities in Pakistan, and the misuse of blasphemy legislation.

Palestinians

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has received recent reports of Palestinians working in Israeli settlements in the occupied Palestinian territory being subject to *(a)* restrictions on their involvement, *(b)* detention, *(c)* removal of their work permits, *(d)* the loss of land and *(e)* other forms of coercion by Israeli soldiers. [287156]

Mr. Ivan Lewis: We follow closely the situation of Palestinians across the West Bank, Gaza and East Jerusalem. But we have not received specific reports relating to Palestinians working in settlements.

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports his Department has received of the terms and conditions of employment of *(a)* Palestinian, *(b)* Israeli and *(c)* Thai workers employed on the Israeli settlements of the occupied Palestinian territory. [287159]

Mr. Ivan Lewis: The Department has not received such reports.

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 7 July 2009, *Official Report*, column 632W, on Palestinians, what response he has received from his Israeli counterpart to his call for Israel to freeze settlement construction; and following the demolition of houses in East Jerusalem, if he will call for the suspension of the EU/Israel Association Agreement. [287259]

Mr. Ivan Lewis: There is still the need for more movement from Israel, including a complete freeze in settlement construction, in line with Israel's Roadmap commitments. We will continue to make our position clear both publicly and privately.

On the second point, EU Foreign Ministers emphasised on 15 June 2009 that an upgrade in the relationship must be set against the context of our shared interests and objectives, including progress on the middle east peace process. The EU proposed that the current plan should remain in place for the time being.

Palestinians: Children

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has received recent reports of the use of child labour in the occupied Palestinian territory. [287154]

Mr. Ivan Lewis: We have received no such reports.

Palestinians: Israel

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment his Department has made of the working conditions of Palestinians employed in the Israeli settlements in the occupied Palestinian territory; and on what evidential basis the assessment was made. [287158]

Mr. Ivan Lewis: We have made no such assessment.

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent estimate he has made of the number of businesses in Israeli settlements which export goods or produce to the UK which have been built on Palestinian private property. [287162]

Mr. Ivan Lewis: We have made no such assessment.

Ports: Non-Domestic Rates

Mr. Stewart Jackson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations his Department has received from French companies operating in Britain on business rates in relation to British ports. [284176]

Ms Rosie Winterton: I have been asked to reply.

We have received one representation from a British registered company which is a subsidiary of a French company.

Russia: Diplomatic Service

Sir John Stanley: To ask the Secretary of State for Foreign and Commonwealth Affairs how many locally employed British embassy staff in Russia have immunity from jurisdiction under Article 38.1 of the Vienna Convention on Diplomatic Relations 1961. [287300]

Mr. Ivan Lewis: No locally employed members of staff at British diplomatic missions in the Russian Federation have immunity under Article 38 (1) of the Vienna Convention on Diplomatic Relations 1961.

Sir John Stanley: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment has been made of the merits of conferring diplomatic status on non-Diplomatic Service staff employed by UK posts in the Russian Federation in accordance with the Diplomatic Service Regulations 2006. [287301]

Chris Bryant: Staff are appointed under article 7 of the Vienna Convention on Diplomatic Relations 1961, according to the functions they perform at the mission. In practice, the privileges and immunities staff enjoy stem from the receiving state's recognition that they have been appropriately classified, in line with their functions.

The diplomatic service regulations do not apply to locally engaged staff who are employed on local terms and conditions, governed by local law and practice.

Sri Lanka

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has discussed the application of economic sanctions to Sri Lanka with his counterparts in other governments in the last two years. [287204]

Mr. Ivan Lewis: We have held wide ranging discussions with partners in the international community on the situation in Sri Lanka, but there have been no formal discussions at the EU or UN on economic sanctions. There are currently no economic embargoes or sanctions in place against Sri Lanka. It is important to ensure any action does not adversely affect the Sri Lankan people themselves.

Sri Lanka: Human Rights

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of recent reports of human rights abuses in refugee camps in Sri Lanka; and if he will make a statement. [287381]

Mr. Ivan Lewis: We are increasingly concerned about the lack of freedom of movement in the camps for internally displaced persons (IDP) and the restrictions put on protection activities, including ensuring the safety of the IDPs, reuniting unaccompanied children with their families and registration of the IDP population as a whole.

We continue to encourage the Government of Sri Lanka to do everything possible to ensure the civilian nature of the camps and allow humanitarian agencies to operate effectively on the ground. I refer to the written ministerial statement by my hon. Friend the Minister of State for International Development (Mr. Thomas) on 14 July 2009 *Official Report*, columns 12-13WS, which contains further information on the latest humanitarian situation in Sri Lanka.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has made representations to the UN Human Rights Council on a full investigation into alleged human rights abuses during the recent conflict in Sri Lanka. [287382]

Mr. Ivan Lewis: During the UN Human Rights Council Special Session on 26-27 May 2009, the UK made clear our concerns about events in Sri Lanka during the recent conflict. We believe it is important there should be an independent investigation into what happened because the extent of civilian casualties during the conflict remains unclear. The UK and the EU did our utmost to reach a consensual outcome at the Special Session and we are disappointed that the adopted resolution did not address many of our concerns.

A copy of the UK's full statement can be found here:

http://ukungeneva.fco.gov.uk/resources/en/pdf/pdfl/hrc-sri-lanka-statement-26052009

In addition, the UK endorses the EU's calls of 18 May 2009 for an independent inquiry into possible violations of international humanitarian law. It is important that any investigation is credible and transparent.

Sri Lanka: International Assistance

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the government of Sri Lanka on access of aid agencies to refugee camps in that country. [287380]

Mr. Ivan Lewis: In addition to the recent representations outlined by my hon. Friend the Minister of State at the Department for International Development (Mr. Michael Foster) in his reply of 13 July 2009, *Official Report*, column 32W, we continue to raise the issue of access to the camps with the Government of Sri Lanka and have urged them to work in partnership with the UN, the International Committee of the Red Cross and other humanitarian agencies to address the ongoing needs of internally displaced persons (IDP).

My noble Friend the Minister for Africa, Asia and the UN, Lord Malloch-Brown, also released a statement on 9 July 2009 urging the Government of Sri Lanka to continue its dialogue with the Red Cross in relation to the civilians in IDP camps. A copy of the statement can be found here:

http://www.fco.gov.uk/en/newsroom/latest-news/?view=PressS&id=20551605

Ukraine: Embassies

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will assess the merits of establishing a network of honorary consuls in Ukraine. [286928]

Chris Bryant: We have no honorary consuls in Ukraine, and there are currently no plans to establish such a network.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what consular provision there is for UK citizens *(a)* residing in and *(b)* visiting the Crimea region of Ukraine; and if he will make a statement. [286929]

Chris Bryant: Our embassy in Kiev provides consular assistance to British nationals residing in or visiting Ukraine, including the Crimea region.

Ukraine: Monuments

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the condition of the war memorial and its immediate surroundings at Cathcart Hill, near Sevastopol; and what information his Department holds on *(a)* the terms under which the memorial is maintained and *(b)* the body responsible for its maintenance. [286982]

Chris Bryant: Our embassy in Kyiv, in conjunction with local Sevastopol authorities, has been actively seeking a successful resolution to the long-standing issue of the Cathcart Hill monument. This private monument was built by a local entrepreneur in 1993 supported by public subscription, but has fallen into disrepair due to weathering, vandalism, theft and lack of maintenance by its owner.

Following the efforts of the embassy, the land on which the monument stands and associated historical artefacts have now been transferred to the ownership of the Sevastopol City Administration, a prerequisite for the expenditure of Ukrainian state funds. Work is now underway for the official British Crimean War memorial near the village of Dergachi to become the focus for official commemoration with the complex at Cathcart Hill being simplified to become a place for quiet contemplation.

Western Sahara

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will seek to ensure that the rights of the Saharawi population of Western Sahara to enjoy specific natural resources, as stated in Article 1 of the International Covenant of Civil and Political Rights, are fulfilled. [288001]

Mr. Ivan Lewis: The Government believe that progress towards a negotiated solution to the dispute in Western Sahara, providing for the self-determination of the people of Western Sahara, is best achieved under the auspices of the UN. In accordance with UN Security Resolution 1871 of 30 April 2009, the UK fully supports the efforts of the UN Secretary General and his Personal Envoy, Christopher Ross, to facilitate a negotiated solution to the conflict.

The UK maintains its position that Morocco, as the de facto administering power of Western Sahara, is obliged under international law to ensure that economic activities under administration—including the extraction and exportation of natural resources—do not adversely affect the interests of the people in Western Sahara.

Written Answers to Questions

Monday 20 July 2009

HEALTH

Accident and Emergency Departments: Young People

Anne Milton: To ask the Secretary of State for Health how many stomach pumps were administered in accident and emergency departments *(a)* to under 16 year-olds, *(b)* to under 25 year olds and *(c)* in total in each of the last five years. [287369]

Mr. Mike O'Brien: Data on the administration of stomach pumps in accident and emergency departments is not collected centrally.

Allergies: Consultants

Jo Swinson: To ask the Secretary of State for Health pursuant to the answer of 7 July 2009, *Official Report*, column 685W, on allergies, (1) if he will make it his policy to increase the number of *(a)* adult and *(b)* paediatric allergy consultants; [288306]

(2) if he will make it his policy to increase the number of specialist allergy training posts available. [288307]

Ann Keen: In 2007 the House of Lords Science and Technology Committee published a report on allergy. The Government published a response to that report in November 2007. An update on the current situation regarding allergy services has recently been placed in the Library.

As part of implementing the House of Lords recommendations, in June 2007 the Department created five additional allergy and immunology training posts.

Workforce planning in the national health service is managed locally and led by the strategic health authorities (SHAs) taking into account the national policy direction. SHAs assess with local services and clinicians the need for posts for allergists.

The National Occupational Standards developed by Skills for Health, together with the development of care pathways and clinical guidance, will help enhance the knowledge and expertise of primary care staff caring for patients with allergies

Childbirth: Shropshire

Mr. Dunne: To ask the Secretary of State for Health what the percentage change in rates of birth to *(a)* UK-born mothers and *(b)* foreign-born mothers has been in the Shropshire County Primary Care Trust area since 2001. [288431]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician I have been asked to reply to your question about what the percentage change in rates of birth to (a) UK born mothers and (b) foreign born mothers has been in the Shropshire County Primary Care Trust area since 2001. (288431)

In order to calculate the requested birth rates, population estimates for UK born and foreign born females by five-year age group for Shropshire County PCT are required. These estimates are only available at the national level.

Estimated birth rates for UK born and foreign born women in England and Wales have been published for 2004-2007 (Table 1). These rates show that fertility among UK born women has risen since 2004 while fertility among foreign born women, although higher, has remained relatively unchanged.

Table 1: Estimated total fertility rates for UK born and foreign born women, England and Wales, 2004-07

	Total fertility rate			
	2004	*2005*	*2006*	*2007*
UK born women	1.7	1.7	1.8	1.8
Foreign born women	2.5	2.5	2.4	2.5

Source:
Birth registrations and Annual Population Survey.

The number of live births to UK born and foreign born mothers are available from birth registration. Table 2 below shows the number of live births to UK born and foreign born mothers usually resident in Shropshire County PCT in 2001 and 2007 (latest year available). The final two columns show the percentage change in live births to UK born and foreign born mothers between 2001 and 2007 in Shropshire County PCT and England and Wales. The percentage change in the number of births to UK born and foreign born women will reflect both changes in the size and age structure of the UK born and foreign born populations and any changes in birth rates.

Table 2: Live births to UK and foreign born mothers and percentage change, Shropshire county PCT, 2001-07

	County of birth of mother			
	Shropshire county PCT			*England and Wales*
	Live births 2001	*Live births 2007*	*Percentage change 2001-07*	*Percentage change 2001-07*
UK born	2,510	2,676	7	7
Foreign born	118	188	59	64
All	2,628	2,864	9	16

Source:
Birth registrations

Compulsorily Detained Mental Patients: Children

Mr. Laws: To ask the Secretary of State for Health how many children were detained under the Mental Health Act 1983 in each of the last 12 months. [287531]

Phil Hope: This information is not centrally collected.

Dental Services: Morecambe

Geraldine Smith: To ask the Secretary of State for Health (1) what the average waiting time for access to NHS dental services was in Morecambe and Lunesdale constituency in the latest period for which figures are available; [287978]

(2) how many people were waiting for access to NHS dental services in Morecambe and Lunesdale constituency on the latest date for which figures are available. [287980]

Ann Keen: The information requested is not collected centrally.

Departmental Accountancy

Steve Webb: To ask the Secretary of State for Health when he expects to publish his Department's resource accounts for 2008-09. [287333]

Mr. Mike O'Brien: The Department's 2008-09 Resource Accounts were laid before the House of Commons on the 14 July (HC456), and copies are available in the Vote Office. The Resource Accounts will be published by The Stationery Office by the end of July.

Departmental Consultants

Frank Dobson: To ask the Secretary of State for Health how much his Department has spent on management consultants in each year since 1996-97. [287692]

Phil Hope: Specific information detailing spend on consultancy has been routinely collected by the Department since April 2005. Information on consultancy spend before April 2005 is not held by the Department.

The figures from April 2005 until March 2008 are shown as follows:

	£ million
2005-06	133
2006-07	205
2007-08	132

In July 2008, the Department implemented a new business management system which has given the Department the scope to be more specific about the nature of each of the consultancy commissions.

Work is ongoing to verify and validate the complete breakdown 2008-09 consultancy spend information with this new level of detail. We will endeavour to place the results in the Library shortly.

Geraldine Smith: To ask the Secretary of State for Health how much his Department has spent on non-medical consultants in each year since 2005. [288451]

Phil Hope: The figures from April 2005 until March 2008 are as follows:

	£ million
2005-06	133
2006-07	205
2007-08	132

In July 2008, the Department implemented a new business management system which has given the Department the scope to be more specific about the nature of each of the management consultancy commissions.

Work is ongoing to verify and validate the complete breakdown 2008-09 management consultancy spend information with this new level of detail. We will endeavour to place the results in the Library shortly.

Departmental Contracts

Lorely Burt: To ask the Secretary of State for Health how many contracts let by his Department were awarded to businesses with fewer than 50 employees in each of the last five years; and what the monetary value of such contracts was in each such year. [287801]

Mr. Mike O'Brien: The requested information is not collected centrally by the Department.

Departmental Databases

Jenny Willott: To ask the Secretary of State for Health (1) which databases managed by his Department and its agencies hold personal information on members of the public; on what date each such database become operational; and if he will make a statement; [284905]

(2) what categories of personal information about members of the public are contained on each relevant database managed by his Department and its agencies; on what date each category of information began to be collected; and if he will make a statement; [285981]

(3) what categories of personal information on members of the public will be held on each database expected to become operational in the next five years and which will be managed by his Department or one of its agencies; what estimate he has made of the likely number of individuals details each such database will hold when fully operational; and if he will make a statement. [286153]

Phil Hope: A list of the databases managed by the Department and its agencies that hold personal information on members of the public has been placed in the Library. All such databases are managed in compliance with the Department's responsibilities under the Data Protection Act 1998. Since the publication of the cross government data handling review in June 2008, new projects and programmes that hold significant amounts of personal data are obliged to conduct privacy impact assessments.

The categories of personal information contained in Department of Health databases are set out in the Department's entry in the Register of Data Controllers, the Information Commissioner's record of the annual notifications of processing that all data controllers are obliged to provide. A copy of the Department's current entry has been placed in the Library. The categories listed in the Department's entry are: personal details; family, lifestyle and social circumstances; education and training details; employment details; financial details; good or services provided; racial or ethnic origin; religious or other beliefs; physical or mental health or condition; sexual life. To provide a more detailed analysis linking categories of personal data to each database and stating when information in each category began to be collected would incur disproportionate cost.

A table which lists databases expected to go live in the next five years with brief descriptions of the categories

of information they will contain and estimates of number of individuals whose details they will hold, has been placed in the Library.

Departmental Hospitality

Norman Lamb: To ask the Secretary of State for Health what guidance his Department has issued on the declaration of gifts and hospitality by *(a)* its staff, *(b)* staff of non-departmental public bodies which his Department sponsors and *(c)* NHS employees. [286637]

Phil Hope: All staff in the Department are required to comply with the Civil Management Service Code guidance on gifts and hospitality. The Department also expects its non-departmental public bodies to abide by the same principles. National health service staff are required to comply with the guidance Standards of Business Conduct for NHS Staff, issued in 1993. Foundation trusts are free to develop their own guidance for staff.

Departmental Procurement

Lovely Burt: To ask the Secretary of State for Health what progress his Department has made in implementing the recommendations of the Glover Report in its procurement processes. [287140]

Mr. Mike O'Brien: Following the publication of the Glover report in November 2008 the Office of Government Commerce established its Access4All programme in April 2009. This was developed to co-ordinate the implementation of the Glover Committee recommendations across Government and the public sector. The Department is represented in this initiative and will continue to participate fully as it develops.

Departmental Work Experience

Mr. Willis: To ask the Secretary of State for Health how many interns work in his Department; what terms of reference apply to their appointment; what remuneration they receive; and how long on average an intern appointment lasts. [286424]

Phil Hope: The Department has committed to five places on the New Graduate Internships Programme announced by the Department for Business, Innovation and Skills earlier this year.

The detailed arrangements for these graduate internships, including specific terms of reference and remuneration are yet to be agreed. The placements will last a minimum of 12 weeks and aim to offer new graduates project focused work that will build their employability, and help them make informed choices about future career paths.

The Department has also placed nine students on the Cabinet Office's Ethnic Minority Summer Development Programme this summer. This offers training placements in Government Departments to high calibre candidates from black and ethnic minority backgrounds or those with disabilities, with the aim of increasing representation from those groups in the Fast Stream and Senior Civil Service. Placements last eight weeks and those taking part receive £350 per week in London and £300 per week outside London.

The Department also regularly takes on one year placement students and summer students within the analytical community. In 2008-09 there were eight students on one year placements and four summer students. They are paid a maximum of £19,662 per annum on a pro rata basis in London and £16,462 outside London.

Dermatology: Pharmacy

Mr. Burstow: To ask the Secretary of State for Health when he expects work to start on developing a future curriculum for pharmacists so that an improvement in the level of dermatology education can be included; and if he will make a statement. [287877]

Mr. Mike O'Brien: In the White Paper, "Pharmacy in England: Building on strengths—delivering the future" (Cm7341), we set out plans to ensure that the pharmacy undergraduate degree course and pre-registration training provides pharmacists with clinical competencies to deliver the services of the future. Since February 2009, we have been working with the Modernising Pharmacy Careers Programme Board to develop a new model for undergraduate and pre-registration training and proposals for improving pharmacist postgraduate training, including where this supports better patient access to more specialist services. The Board, led by the Chief Pharmaceutical Officer, brings together wide-ranging pharmacy expertise and experience from schools of pharmacy, professional regulation, hospital and community pharmacy, research and the United Kingdom pharmaceutical industry.

Dermatology: Training

Mr. Burstow: To ask the Secretary of State for Health if he require dermatology to be a mandatory part of medical student and GP training. [287876]

Ann Keen: The content of curriculum and quality and standard of training for medical students and general practitioners is not the responsibility of the Department but the responsibility of the appropriate professional regulatory body.

However, the Department is committed to working with the professional regulatory bodies, Royal colleges and others to promote high standards of education and training to ensure that students and doctors are equipped with the up-to-date knowledge, skills and attitudes essential for professional practice.

Diabetes: Health Services

Anne Milton: To ask the Secretary of State for Health how many people were treated for a diabetic ulcer in each of the last five years. [287376]

Ann Keen: The information requested is not collected in the requested format. Preventing the long-term complications of diabetes, including diabetic foot ulcers, is a key part of the Diabetes National Service Framework. This is supplemented by guidance from the National Institute of Health and Clinical Excellence on the prevention and management of foot problems in people with diabetes. This recommends that people with diabetes should have their feet examined by trained personnel as part of the annual review process. We continue to work with NHS Diabetes to support the national health service in the

provision and delivery of diabetes services. In June 2009, Diabetes UK in partnership with NHS Diabetes published Putting Feet First, which is guidance to support the management and prevention of diabetic foot disease in hospitals. A copy has already been placed in the Library.

Diamorphine

Sandra Gidley: To ask the Secretary of State for Health what his most recent assessment is of the adequacy of the stock of diamorphine for the treatment of patients with serious or terminal conditions. [287775]

Mr. Mike O'Brien: I refer the hon. Member to the written answer I gave the hon. Member for Torbay (Mr. Sanders) on 16 June 2009, *Official Report*, column 225W.

Drugs: Counterfeit Manufacturing

Mark Simmonds: To ask the Secretary of State for Health what assessment he has made of the merits of the European Commission's proposals on an amendment to Council Directive 2001/83/EC in relation to the prevention of the counterfeiting of medicinal products. [287812]

Mr. Mike O'Brien: The Government strongly support the overall aims of these proposals to strengthen the medicines supply chain from the growing threat from counterfeit medicines. In drawing up their position for the European Union negotiations, the Government have consulted widely on the European Commission's proposals and continue to discuss the implications of the detailed provisions with the relevant sectors of the pharmaceutical industry and other stakeholders.

Epilepsy: Medical Treatments

Sir Paul Beresford: To ask the Secretary of State for Health how many NHS trusts have implemented the clinical guidelines for the treatment of epilepsy set out by the National Institute for Health and Clinical Excellence in 2004. [288309]

Ann Keen: Information on the number of national health service trusts acting on the National Institute for Health and Clinical Excellence (NICE) guidance for the treatment of epilepsy is not collected.

I will shortly be writing to all the strategic health authority long-term condition leads drawing their attention to the importance of implementing the NICE guidance on epilepsy.

Fujitsu

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) with reference to the answer of 5 November 2008, *Official Report*, columns 1199-1200W, for what reason each breach of contract notice to Fujitsu under the Local Service Provider contract was issued; [286966]

(2) with reference to the answer of 5 November 2008, *Official Report*, columns 1199-1200W, on NHS: information and communication technology, what definition of the term contractor event of default he uses; to which suppliers and on what dates, each contractor event of default was issued; and for what reason each such notice was issued. [286967]

Mr. Mike O'Brien: I refer the hon. Member to the answers given on 12 January 2009, *Official Report*, columns 171-73W.

"Contractor event of default" is defined in Local Service Provider contracts, and covers a wide range of possible circumstances in which the supplier may fail or cease to be compliant with the supplier's obligations or duties as described in the contract. These include failure to achieve key milestones, level or quality of service failures, breach of confidentiality, loss of patient data, or insolvency.

Health Professions: Training

Anne Milton: To ask the Secretary of State for Health (1) how many *(a)* nurse return to practice course places and *(b)* health visitor return to practice course places were available in each of the last 10 years; [287890]

(2) how many applications for places on *(a)* nurse return to practice courses and *(b)* health visitor return to practice courses were received in each of the last 10 years. [287891]

Ann Keen: This information is not collected centrally.

Health Services: Buildings

Mark Pritchard: To ask the Secretary of State for Health what his policy is on the use of portable buildings for provision of medical and clinical services in acute hospitals. [287027]

Mr. Mike O'Brien: The Department does not produce policies on the use of portable buildings.

National health service organisations are locally responsible for the provision of facilities including temporary buildings. All clinical, cleanliness, safety and quality, requirements that apply to permanent buildings will also apply to temporary ones.

Health Services: Oxfordshire

Tony Baldry: To ask the Secretary of State for Health pursuant to the Draft Legislative Programme 2009, Cm 7654, page 70, who in Oxfordshire will have responsibility for ensuring *(a)* that patients receive (i) hospital treatment within 18 months and (ii) access to a cancer specialist within two weeks and *(b)* that people between the ages of 40 and 74 years of age receive free NHS health checks. [284937]

Mr. Mike O'Brien: Proposals will be brought forward in the autumn.

Health Services: Prisoners

Anne Milton: To ask the Secretary of State for Health how many prisoners received treatment for self-harm in each of the last five years. [287373]

Phil Hope: The number of prisoners who have received treatment for self harm in each of the last five years is not collected centrally by the Department.

Anne Milton: To ask the Secretary of State for Health how many prisoners received treatment for *(a)* drug misuse and *(b)* alcohol misuse in each of the last five years. [287374]

Phil Hope: The Department does not centrally collect the information on the number of prisoners who have received treatment for alcohol and drug misuse requested for each of the last five years.

However, mechanisms have been put in place as of 1 April 2009 and prisons are now collecting baseline data on the number of drug users in effective treatment. This will enable the Department to collect comparable data for the treatment of drug misuse from April 2010.

Health Visitors: Manpower

Ms Buck: To ask the Secretary of State for Health how many full-time equivalent health visitors were employed per 1,000 of the population in each primary care trust area in England in each year since 2002. [286612]

Ann Keen: Figures are not collected per 1,000 population. However, the following table outlines the number per 10,000.

It is for individual primary care trusts (PCTs) to determine how to use its funding to commission services to meet the health needs of their local populations. However, to support the Child Health Strategy and the Lord Laming recommendations on safeguarding, an 'Action on Health Visiting' programme was agreed at a joint Department of Health/Community Practitioners' and Health Visitors' Association (CPHVA) summit on 5 May 2009.

This will be taken forward in partnership with the CPHVA and other stakeholders. Action will be prioritised to increase workforce capacity and capability and to clarify the contribution of health visitors to the Healthy Child Programme, to working with vulnerable children and families and to safeguarding.

NHS hospital and community health services: Health visitors in England per 10,000 population by strategic health authority (SHA) area and by primary care trust (PCT) area as at 30 September each specified year

		2003	2004	2005	2006	2007	2008

Notes:
1. Figures are based on full-time equivalent health visitor figures.
2. PCT figures have been mapped to the current organisational structure.
3. 2008 population figures are not yet available. Figures have been calculated using workforce figures and population estimates from the previous year, so 2008 figures are calculated using 2008 census figures and 2007 population estimates.
4. A small number of health visitors are employed by NHS trusts for which population figures are not available. These staff are included in SHA area and England totals.
5. Figures are at one decimal place per 1,000 and two decimal places per 10,000.

Sources:
The NHS Information Centre for health and social care Non-Medical Workforce census. PCO Mid-Year Final Population Estimates, 2001 Population Census Based. ONS Population Estimates.

Health: Children

Mr. Clifton-Brown: To ask the Secretary of State for Health (1) what representations he has received on the usefulness of his Department's guidance on the maximum recommended amount of time infants aged up to six months should spend in *(a)* pushchairs and *(b)* car seats of categories 0 and 0+; [281704]

(2) what guidance *(a)* his Department, *(b)* its agencies and *(c)* the NHS issue on the maximum safe length of time for an infant aged up to six months to spend in a car seat. [285820]

Ann Keen: No guidance has been issued by this Department on the length of time an infant aged up to six months should spend in either a pushchair or car seat.

Our publication the "Pregnancy Book" provides general advice on the use of pushchairs and car seats. We advise that pushchairs are only suitable for babies if they have fully reclining seats which allow the baby to lie flat. In a car, a safety restraint must be used. It is dangerous and illegal for a baby to be carried in their parents' arms in a car. Similar advice is given in "Birth to Five"; guidance on parenthood and the first five years of life.

Copies of the relevant chapters have been placed in the Library.

Heart Diseases

Mr. David Anderson: To ask the Secretary of State for Health how many people each primary care trust had registered as having *(a)* chronic obstructive pulmonary disease, *(b)* asthma, *(c)* tuberculosis and *(d)* lung cancer on the latest date for which figures are available. [286913]

Ann Keen: Figures for the number of people, in England, registered with chronic obstructive pulmonary disease or asthma can be found in the 2007-08 Quality and Outcomes Framework (QOF), a copy has already been placed in the Library.

The table in question, PCT level QOF tables 2007-08—prevalence.xls, can be viewed on the following link:

www.ic.nhs.uk/statistics-and-data-collections/supporting-information/audits-and-performance/the-quality-and-outcomes-framework/qof-2007/08/data-tables

A copy of the table has been placed in the Library.

We do not hold figures for the number of people registered with tuberculosis or lung cancer.

Hospital Wards: Gender

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 11 March 2009, *Official Report*, column 511WA, on hospital wards, what local improvements and changes *(a)* were planned to be implemented and *(b)* were implemented by the end of June 2009; and how much was spent on each improvement and change which has been implemented. [288570]

Ann Keen: Strategic health authority (SHA) plans for the £100 million Privacy and Dignity Fund have already been placed in the Library, detailing the planned improvements and changes.

The latest information from the SHAs confirms almost 50 per cent. of the schemes were completed by the end of June. Examples of the work undertaken include new and refurbished bathrooms and toilets, curtains and partitions to improve the privacy of patients and a number of communication initiatives to raise awareness with staff, the patients and the public. Regular monitoring of progress against SHA plans continues.

Information is not available to confirm the funding for each individual project.

Hospitals: Admissions

Anne Milton: To ask the Secretary of State for Health how many prisoners were admitted to hospital due to *(a)* drug misuse, *(b)* alcohol misuse and *(c)* self-harm in each of the last five years. [287372]

Phil Hope: The Department does not centrally collect data on the number of prisoners admitted to hospital due to alcohol or drug misuse.

The number of prisoners (both male and female) admitted to hospital due to self harm in each of the last five years is as follows.

Self harm incidents—England and Wales (male and female) admitted as in-patient to hospital

	Number
2004	134
2005	153
2006	159
2007	122
2008	135

Incontinence

Mr. Stephen O'Brien: To ask the Secretary of State for Health what provision is made for *(a)* pre- and *(b)* post-registration education and training for nurses on the provision of continence services. [288028]

Ann Keen: This information is not collected centrally.

Work force planning, including training, in the national health service is managed and led at a local level by the strategic health authorities taking into account the national policy direction.

Local NHS organisations are best placed determine the levels of service and resource required to meet the health needs of the local population.

Bill Wiggin: To ask the Secretary of State for Health whether the Government intends continence care to be part of its Carers Dignity and Respect agenda. [285586]

Phil Hope: Incontinence is a challenge to dignity and through the Dignity in Care campaign we are equipping local people with the information, advice and support necessary to drive up standards of care with respect to dignity for the individual.

Insect Bites

Norman Lamb: To ask the Secretary of State for Health how many *(a)* hospital admissions and *(b)* bed days with a primary or secondary cause of insect bites were recorded in each of the last five years. [286983]

Gillian Merron: The data requested are not available in precisely the form requested.

From 2003-04 to 2007-08 the activity in English national health service hospitals, and English NHS commissioned activity in the independent sector, for the number of admissions and bed days in hospital due to the patient being bitten or stung by a non-venomous insect or other non-venomous arthropod (e.g. spider or tick), recorded in Hospital Episode Statistics (HES) as cause code W57, is shown in the following table:

	Finished admission episodes	*Total bed days during the year*
2003-04	1,719	3,790
2004-05	1,988	3,929
2005-06	2,161	4,179
2006-07	2,738	4,655
2007-08	2,614	4,548

Notes:

1. Finished admission episodes—A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Finished admission episodes are counted against the year in which the admission episode finishes. Admissions do not represent the number of inpatients, as a person may have more than one admission within the year.
2. Total bed days during the year—Bed days of finished episodes only include days of bed occupancy from episode start date or 1 April (whichever is later) to episode end date or 31 March (whichever is earlier). These do not include unfinished episodes which end in the subsequent year.
3. Cause code W57—Bitten or stung by non-venomous insect and other non-venomous arthropods. The cause code is a supplementary code that indicates the nature of any external cause of injury, poisoning or other adverse effects. The field within HES counts only the first external cause code which is coded within the episode.
4. Ungrossed data—Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Hospital Episode Statistics (HES), The NHS Information Centre for health and social care

Kidneys: Health Education

Mrs. Dean: To ask the Secretary of State for Health pursuant to the answer of 8 July 2009, *Official Report*, column 868W, on kidneys: health education, (1) what plans he has to consult *(a)* patients and *(b)* clinicians prior to the publication of his Department's information leaflet on identifying unhealthy kidneys; and what plans he has to ensure the wide availability and distribution of the leaflet; [288462]

(2) when he plans to publish the patient information leaflet on identifying unhealthy kidneys; and what plans he has to publicise its launch. [288463]

Ann Keen: The patient information leaflet on proteinuria is being developed in partnership with clinicians and patients. This is to be part of a pack of information on proteinuria testing already published on the Department's website for general practitioners and laboratories.

This can be found at:

www.dh.gov.uk/en/Healthcare/Secondarycare/Pathology/DH_096049

We are in the process of determining how best to promote the leaflet widely before publication by early autumn.

Medic Alert: Organs

Bob Russell: To ask the Secretary of State for Health (1) if he will take steps to promote MedicAlert as a sole central register for those with organ donation wishes and advanced decision wishes; and if he will make a statement; [287412]

(2) if he will take steps to ensure that, on commencement of their roles, all emergency services personnel receive training in the life-saving services provided by the MedicAlert Foundation. [287429]

Ann Keen: It is important that people wishing to be organ donors have flexibility in making that wish known, for example they can carry a donor card, register on the national organ donor register, make their wishes known to another organisation or simply tell family and friends. The important thing is that the information is readily available at the appropriate time.

The Government do not see a single national database or central register for advance decisions as the best way forward. The intention has always been to allow as much flexibility as possible for those making advance decisions.

Ambulance trusts are responsible for providing appropriate training for staff, and information on whether this includes training on MedicAlert is not available centrally.

Mental Health Services

Bob Spink: To ask the Secretary of State for Health what steps his Department is taking to provide treatment for *(a)* psychotic and *(b)* bipolar depressive conditions. [287499]

Phil Hope: We have made very substantial resources available to the national health service from which to provide mental health care treatments and services. However, the responsibility for providing all NHS services, including provision of treatments for bi-polar depressive conditions and psychosis, now rests with primary care trusts.

Since 2001-02, real terms investment in adult mental health services increased by 44 per cent. (or £1.7 billion) putting in place the services and staff needed to transform mental health services. The NHS spent £5.53 billion on these services in 2007-08 (£3.844 billion in 2001-02).

There are 67 per cent. more consultant psychiatrists, 79 per cent. more clinical psychologists and at least 23 per cent. more mental health nurses than we had in 1997, providing better care and support for people with mental health problems.

More than 740 new community mental health teams offer home treatment, early intervention, or intensive support for people who might otherwise have been admitted to hospital.

Mental Health Services: Morecambe

Geraldine Smith: To ask the Secretary of State for Health what steps he is taking to improve mental health provision for young people in Morecambe and Lunesdale constituency. [287838]

Ann Keen: The information requested is not held centrally. It is the responsibility of local national health service organisations to plan, develop and improve local health services according to the needs of the local population. My hon. Friend may wish to approach the North Lancashire primary care trust and the Lancashire Care NHS Foundation Trust for information relevant to the Morecambe and Lunesdale area.

Mentally Incapacitated: Children

Mr. Ellwood: To ask the Secretary of State for Health at what locations in Bournemouth severely mentally impaired children may be treated; and what choice parents have about the location at which treatment is provided. [287885]

Phil Hope: The South West strategic health authority has advised that there is a range of outreach support and choice to young people who have a mental illness, learning disabilities and challenging behaviour, and their families, in a variety of local settings including the individuals' own home, schools and general practitioner surgeries. These services are backed up by specialist intensive outreach and in-patient provision, and provide support for young people across Bournemouth, Poole and Dorset.

The service is aimed at being sensitive to the rights and needs of parents and carers, and involves them in the intervention process where appropriate. It also adheres to the Heath Advisory Service requirements, the Children Acts 1989 and 2004 and the National Service Frameworks for mental health and children and young people, and offers confidentiality in the context of safeguarding children.

Midwives: Recruitment

Mr. Drew: To ask the Secretary of State for Health if he will take steps to increase the numbers of midwives employed by the NHS. [288013]

Ann Keen: The Secretary of State announced a package of measures in February 2008 to recruit an extra 1,000 midwives by 2009, rising to around 4,000 by 2012, dependent on the birth rate continuing to rise.

Mid-Yorkshire NHS Trust: Doctors

Jon Trickett: To ask the Secretary of State for Health how many doctors were employed by the Mid-Yorkshire NHS Trust *(a)* in 1997 and *(b)* at the latest date for which figures are available. [289118]

Ann Keen: The information is not available in the format requested. The information as is available is shown in the following table.

Number of doctors employed by the Mid-Yorkshire Hospitals NHS Trust, 2002-08

	Number (headcount)	*Full-time equivalent*
2002	580	544
2003	572	543
2004	626	597
2005	665	641
2006	678	654
2007	705	686
2008	705	686

Notes:

1. The structure of national health service trusts in the Wakefield area has changed over the period the data is requested for. In April 2002, the Mid-Yorkshire Hospitals NHS Trust was formed from the partial-merger of the Pinderfields and Pontefract Hospitals NHS Trust and the Dewsbury Health Care NHS Trust. Data is shown for the Mid-Yorkshire Hospitals NHS Trust, from 2002 onwards.
2. Work force statistics are compiled from data sent by more than 300 NHS trusts and primary care trusts (PCTs) in England. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data. Processing methods and procedures are continually being updated to improve data quality. Where this happens, any impact on figures already published will be assessed but unless this is significant at national level they will not be changed. Where there is impact only at detailed or local level this will be footnoted in relevant analyses.

Source:
NHS Information Centre for health and social care.

National Joint Registry Steering Committee

Mike Penning: To ask the Secretary of State for Health (1) what the annual salary was of each member of the board of the National Joint Registry Steering Committee in each of the last five years; [288839]

(2) how much the National Joint Registry Steering Committee spent on staffing in each of the last five years; [288840]

(3) how many *(a)* full-time equivalent and *(b)* part-time staff are employed by the National Joint Registry Steering Committee; [288841]

(4) how much was spent on external consultancy by the National Joint Registry Steering Committee in each of the last five years; [288842]

(5) what the cost of the office premises occupied by the National Joint Registry Steering Committee was in each of the last five years; [288965]

(6) what the budget for the National Joint Registry Steering Committee was in each of the last five years; [288966]

(7) on what dates Ministers in his Department last met staff of the National Joint Registry Steering Committee. [288967]

Ann Keen: The National Joint Registry Steering Group is an advisory non-departmental public body. Members are unpaid but reimbursed for their travel and subsistence. The steering group does not employ staff and does not occupy any office premises. It does not have an annual budget, as it receives its funding through a levy on hip and knee joint replacements supplied to the national health service and independent health care providers, and it has not spent any money on external consultancy.

Neurology

Sir Paul Beresford: To ask the Secretary of State for Health what assessment he has made of the progress by local NHS trusts in implementing the National Service Framework for long-term neurological conditions since the end of the framework planning period in 2008. [288308]

Ann Keen: We have made no assessment of the progress being made by primary care trusts in implementing the long-term conditions National Service Framework (NSF) since the end of the framework planning period.

I will shortly be writing to all strategic health authority long-term conditions leads outlining the importance of the recommendations made in the NSF for long-term conditions.

Mark Hunter: To ask the Secretary of State for Health what assessment he has made of the effectiveness of the implementation of the National Service Framework for long-term neurological conditions *(a)* before and *(b)* after the devolution of responsibility for the framework to the regional Long Term Conditions Delivery Support Team. [288365]

Ann Keen: We have made no recent assessment of the effectiveness of the implementation of the National Service Framework (NSF) for long-term neurological conditions.

I will shortly be writing to all strategic health authority long-term conditions leads outlining the importance of the recommendations made in the NSF for long-term conditions.

Mark Hunter: To ask the Secretary of State for Health what recent assessment he has made of the merits of appointing a full-time national lead officer for neurological conditions. [288455]

Ann Keen: We have made no recent assessment of the merits of appointing a national lead officer for neurological conditions.

NHS: Finance

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the Answer of 1 July 2009, *Official Report*, columns 346-48W, on NHS: finance, when each loan was made; for what purpose each loan was made; what the reasons are for differences in the interest rates charged; and which of the trusts listed in the Answer are in the financially challenged trusts regime. [286926]

Mr. Mike O'Brien: The information requested is provided in the table. The interest rate paid on loans is the National Loan Fund (NLF) Equal Instalment of Principle rate. The interest rate is updated daily and the actual rate charged relates to the term of loan. The rate is published daily by the Debt Management Office. Current and historic rates are available at:

www.dmo.gov.uk/index.aspx?page=PWLB/PWLB_Interest_Rates

Of the organisations who have outstanding loans, Whipps Cross University Hospitals NHS trust is the only organisation currently designated as a financially challenged trust.

NHS trust name	*Original loan value £000*	*Date loan made*	*Loan purpose*

NHS: Management Consultants

Frank Dobson: To ask the Secretary of State for Health how much the NHS has spent on management consultants in each year since 1996-97. [287693]

Mr. Mike O'Brien: The Department does not collect the specific information requested centrally.

NHS: Manpower

Mr. Spring: To ask the Secretary of State for Health how many public health workers have been employed in the NHS in the East of England region in each year since 1997. [286273]

Ann Keen: Information is not available in the format requested. The following table, however, shows the number of medical and dental staff within the public health medicine (PHM) and community health services (CHS) group of specialists in the East of England strategic health authority (SHA) area since 1997.

It is worth noting, that there are increasing numbers of non-medical public health workers, following the introduction of an MSc in public health for non-medical staff, which would not be picked up in the medical and dental workforce census. There have also been a number of reorganisations within the national health service since 1997, which may account for fluctuation in figures.

NHS hospital and community health services (HCHS): Medical and dental staff within the PHM and CHS group of specialties in East of England SHA, England, at 30 September each year

	Headcount
1997	394
1998	326
1999	331
2000	296
2001	271
2002	293
2003	275
2004	291
2005	294
2006	280
2007	310
2008	276

Notes:
The data in the table shows only medical and dental staff specifically working within the PHM and CHS specialty group. The public health medicine area is a large, somewhat complex area and it is not possible to separately identify staff in this area using the available census data breakdowns. Data has therefore been provided for those staff we can identify as working in this area. Figures exclude all non-medical staff, such as nursing and allied health professionals.

Data quality:
Workforce statistics are compiled from data sent by more than 300 NHS trusts and primary care trusts in England. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data. Processing methods and procedures are continually being updated to improve data quality. Where this happens any impact on figures already published will be assessed but unless this is significant at national level they will not be changed. Where there is impact only at detailed or local level this will be footnoted in relevant analyses.
Source:
The NHS Information Centre for health and social care Medical and Dental Workforce Census.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 1 July 2009, *Official Report*, columns 348-49W, on NHS: manpower, if he will place in the Library a copy of each of the National Framework Agreements; what pay rates are used under each agreement; and what estimate he has made of the proportion of such pay that *(a)* agencies and *(b)* employees receive under each such contract. [286311]

Ann Keen: The national framework agreements for these contracts and the rates of pay included in them are confidential and commercially sensitive. The framework agreement has only recently been awarded and to release its full provisions would not be in the commercial interests of the companies concerned nor of the national health service as a whole.

Although there is an interest in releasing this data to ensure that the public sector's procurement practices are as transparent as possible, we must set this against the risk that the release of the information would prejudice fair competition between the current suppliers of temporary staff and their competitors both in this framework agreement and in future tenders.

It would be extremely difficult to estimate the proportion of pay that agencies and employees receive and present it in a meaningful form. This is because every supplier tenders a unique pay and charge rate for each type of temporary worker supplied. For doctors alone there are 140 different grades and specialties each with an individual pay and charge rate. On top of that there are 19 different discount options and both a long and a short-term booking version from each of the 53 agencies giving nearly 300,000 prices on this contract alone.

NHS: Meat

David Taylor: To ask the Secretary of State for Health what guidance his Department provides to the NHS on the procurement of halal meat; and whether that guidance differentiates between stunned and pre-stunned meat. [287720]

Mr. Mike O'Brien: The Department does not provide advice to national health service trusts on the purchase of halal meat.

NHS: Public Consultation

Mr. Gordon Prentice: To ask the Secretary of State for Health what host has been appointed to each local involvement network; and how much funding his Department provided to each such network in 2008-09. [287997]

Ann Keen: Local authorities with social services responsibilities are under a statutory duty to make arrangements for local involvement network (LINk) activities to be carried on in their area. They do this by contracting with what is known as a host organisation. Neither local authorities nor hosts are required to inform the Department of which host has been contracted for which LINk.

However, the National Centre for Involvement maintains a contact list of host organisations on an informal basis which is available as a .pdf document. The latest version has been placed in the Library.

The Department provides funds to local authorities to support LINk activities as part of the annual area-based grant. The grant is not ring-fenced. The allocations to each local authority for 2008-09 to 2010-11 are given in the following table.

Local authority	*2008-09*	*2009-10*	*£ million 2010-11*

Mr. Gordon Prentice: To ask the Secretary of State for Health what recent assessment he has made of the effectiveness of *(a)* local involvement networks and *(b)* the hosts contracted to set up and run those networks. [288019]

Ann Keen: I refer my hon. Friend to the answer given to my hon. Friend the Member for Liverpool, Riverside (Mrs. Ellman) on 11 June 2009, *Official Report*, column 964W.

Local authorities hold the contracts with host organisations and are responsible for the management of those contracts.

Mr. Gordon Prentice: To ask the Secretary of State for Health whether all host organisations contracted to set up and run local involvement networks have taken out indemnity cover for members of those networks; and if he will make a statement. [288020]

Ann Keen: The information requested is not collected centrally.

Nurses: Training

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether continence education and training is included in the national curriculum for pre- and post-registration training for nurses. [286925]

Ann Keen: The responsibility for setting standards required for professional registration sits with the professional regulators, and the training curricula is designed to meet these standards by the higher education institutes in partnership with national health service providers and the regulators. The Department, along with local NHS bodies that commission professional training, continues to work with the regulators and higher education institutes to ensure that their standards and curricula reflect the changing needs of patients and service delivery.

Organs: Research

Jo Swinson: To ask the Secretary of State for Health what assessment his Department has made of the merits of including in its National Organ Recovery scheme provisions for making organs which are not suitable for transplant available for research purposes. [288302]

Ann Keen: The Human Tissue Act 2004 allows organs donated for transplant but not used for transplant to be used for research where appropriate consent is in place. It is routine practice when seeking consent to donation for transplantation for donor transplant coordinators to also seek consent for research should the organs not be suitable for transplant.

Pain: Health Services

Bob Spink: To ask the Secretary of State for Health how many NHS specialist pain management services there were in *(a)* Essex and *(b)* Castle Point in the latest period for which figures are available. [287497]

Ann Keen: This information is not held centrally.

Palliative Care

Laura Moffatt: To ask the Secretary of State for Health what progress has been made on the preparation of the interim reports on the implementation of the National Institute for Health and Clinical Excellence Supportive and Palliative Care Guidance. [288210]

Ann Keen: The National Institute for Health and Clinical Excellence published guidance on supportive and palliative care for adults with cancer in March 2004. The National Cancer Action Team is working closely with cancer networks to monitor and support the implementation of this guidance by the end of December 2009. Plans for the implementation of this guidance are now in place in every cancer network, and it is expected to be fully implemented by the December 2009 deadline.

Patients: Travel

Andrew George: To ask the Secretary of State for Health how many patients in each primary care trust area have accessed funding through the Healthcare Travel Costs Scheme in each of the last five years. [287852]

Mr. Mike O'Brien: The Department does not collect information on the number of patients who have accessed funding through the Healthcare Travel Costs Scheme. Our policy is to empower the local national health service to manage services in a way which best meets the needs of their local population. The Department's role is to set national strategic direction, as it has done by providing guidance on eligibility and administration of the scheme.

Andrew George: To ask the Secretary of State for Health what steps his Department takes to monitor the effectiveness of the Healthcare Travel Costs Scheme. [287854]

Mr. Mike O'Brien: The Department does not routinely monitor the operation of the Healthcare Travel Costs Scheme. An evaluation will begin in autumn 2009, to assess the impact of revisions made in April 2008 which extended the scope of the scheme to include patients travelling to treatment following direct referral by a doctor or dentist, as well as those people under the care of a hospital consultant.

Prescriptions: Fees and Charges

Mark Simmonds: To ask the Secretary of State for Health pursuant to the answer of 25 June 2009, *Official Report*, columns 1121-22W, on prescriptions: fees and charges, which organisations responded to the written consultation; which stakeholders contributed to the oral evidence sessions; which GPs attended the workshops; and at what locations the workshops were held. [286912]

Mr. Mike O'Brien: A list of respondents to oral and written evidence is provided in the following list. For confidentiality reasons the names of individuals submitting evidence is withheld and we have included instead the organisations that they work for. For written submissions, in most cases but not all, the responses were on behalf of the listed organisation rather than the individual. We are unable to provide details of the general practitioners who participated in the workshops, because they did so on an anonymised basis. Workshops were held in London, Newton Abbot, Northampton, Manchester, Newcastle and Croydon.

The following organisations or individuals provided written evidence:

Academy of Medical Royal Colleges
Addison's Disease Self Help Group
All-Party Parliamentary Group on Sickle Cell and Thalassaemia
The Association of Cancer Physicians
Asthma UK
British Heart Foundation
British Medical Association
British Society for Rheumatology
British Thoracic Society
Coeliac UK
Cystic Fibrosis Trust
Diabetes UK
East Birmingham and Solihull GP Vocational training scheme—West Midlands Deanery
Epilepsy Action
Gorlin Syndrome Group
HEART UK
Highcliffe Medical Centre Patient Participation Group
Jubilee Medical Centre

MRC Environmental Epidemiology Unit, Southampton General Hospital
MIND
Motor Neurone Disease
Parkinson's Disease Society
Prescriptions Coalition
Royal College of General Practitioners
Royal College of Ophthalmologists
Royal College of Physicians, Diabetes and Endocrinology, Joint Specialty Committee
Royal College of Physicians, Ethical Issues in Medicine Committee
Royal College of Physicians GP Network
Royal College of Physicians, Palliative Medicine Joint Specialty Committee
Royal Hospital for Neuro-disability
Sickle Cell Society
Socialist Health Association
Society for Endocrinology
South Bank University
Spinal Injuries Association
Submissions from individuals (three)
UK Thalassaemia Society.

Oral evidence was given by the following organisations:

Advisory Committee on Borderline Substances
British Medical Association
Citizen's Advice Bureau
Dispensing Doctors' Association
Kings Fund
MIND
National Pharmacy Association
National Association of Primary Care
National Voices
Patients' Association
Pharmaceutical Services Negotiating Committee
Prescriptions Pricing Division of the NHS Business Services Authority
Prescriptions Coalition of charities (including Asthma UK; Diabetes UK; Behcet's Syndrome Society; Parkinson's Disease Society)
Royal College of General Practitioners
Royal College of Nursing
Royal Pharmaceutical Society of Great Britain
A Strategic Health Authority prescribing adviser
University of Manchester.

Pressure Sores: Compensation

Mr. Barstow: To ask the Secretary of State for Health how many cases were dealt with by the NHS Litigation Authority in 2008-09 in which pressure ulcers were the ground for the claim; how many of them were settled in the claimant's favour; what the administrative cost was of dealing with such cases; and how much was paid in settlements and compensation in such cases. [287684]

Ann Keen: The data requested was provided by the NHS Litigation Authority in the following table.

Number of clinical negligence claims closed 2008-09 where pressure sore was one of the injury codes

	Closed—nil damages	*Settled—damages paid*	*Total*
Number of claims	15	49	64
Damages paid (£)	0	1,197,324	1,197,324
Defence costs paid (£)	10,918	296,134	307,052
Claimant costs paid (£)	0	896,561	896,561
Total paid (£)	10,918	2,390,020	2,400,938

Damages also cover other injuries that formed part of the claim.

Number of clinical negligence claims closed in 2008-09 where damages were paid

	Number/£ million
Number of claims closed with damages	3,113
Damages paid (£ million)	312.4
Defence costs paid (£ million)	103.6
Claimant costs paid (£ million)	39.6
Total paid (£ million)	455.6

Preventive Technology Grant

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether he plans to extend the provisions of the Preventative Technology Grant to apply in respect of the 2008-09 financial year. [288029]

Phil Hope: The Preventative Technology Grant funding ended in March 2008, although any remaining monies were allowed to be carried over into 2008-09 to sustain the momentum. It is now the responsibility of local authorities to ensure that they are able to provide mainstreamed telecare services.

Primary Care Trusts: Dorset

Mr. Ellwood: To ask the Secretary of State for Health what changes to the funding allocations to primary care trusts in Dorset there have been in financial year 2009-10; and what such changes he anticipates in financial year 2010-11. [287553]

Mr. Mike O'Brien: The Department announced the primary care trust (PCT) revenue allocations for 2009-10 and 2010-11 on 8 December 2008. The allocations represent an investment of £164 billion in the national health service: £80 billion in 2009-10 and £84 billion in 2010-11.

The revenue allocations made to the two PCTs serving communities in the Dorset area are provided in the following table:

	2009-10 allocation	*2009-10 increase*	*2010-11 allocation*		*2010-11 increase*	
	£000	*£000*	*Percentage*	*£000*	*£000*	*Percentage*
Dorset PCT	580,964	30,287	5.5	613,261	32,296	5.6
Bournemouth and Poole PCT	509,400	25,100	5.3	535,600	26,200	5.1

Source: Department of Health Resource Allocation, Efficiency and Income Generation.

Primary Care Trusts: Greater Manchester

Graham Stringer: To ask the Secretary of State for Health which primary care trusts in the Greater Manchester area have a financial deficit against their budget for 2009-10; and how much the deficit is in each such case. [287730]

Ann Keen: There are no primary care trusts within the Greater Manchester area that are forecasting a deficit in the 2009-10 financial year.

Primary Care Trusts: Wakefield

Jon Trickett: To ask the Secretary of State for Health what revenue allocations were made to each primary care trust in Wakefield in each year since 2003-04. [288665]

Ann Keen: The revenue allocations made to primary care trusts (PCTs) in Wakefield for the period 2003-04 to 2010-11 are shown in the following tables.

Table 1: 2003-04 to 2005-06 primary care trust revenue allocations

	Allocation (£000)			Three-year increase	
Primary care trust	2003-04	2004-05	2005-06	£000	Percentage
Eastern Wakefield PCT	171,930	189,117	208,492	51,104	32.5
Wakefield West PCT	131,156	143,375	156,303	35,519	29.4

Table 2: 2006-07 to 2007-08 primary care trust revenue allocations

	Allocation (£000)		Two-year increase	
Primary care trust	2006-07	2007-08	£000	Percentage
Eastern Wakefield PCT	255,393	283,337	53,962	23.5
Wakefield West PCT	189,155	205,849	32,182	18.5

Table 3: 2008-09 primary care trust revenue allocations

	Allocation	Cash increase	
Primary care trust	£000	£000	Percentage
Wakefield District PCT	515,905	26,719	5.5

Table 4: 2009-10 to 2010-11 primary care trust revenue allocations

	Allocation (£000)		Two-year increase	
Primary care trust	2009-10	2010-11	£000	Percentage
Wakefield District PCT	564,093	595,118	66,463	12.6

Notes:
1. On 1 October 2006, the number of PCTs reduced from 303 to 152. The Eastern Wakefield PCT and the Wakefield West PCT merged to become the Wakefield District PCT. Allocations were made to the Wakefield District PCT from 2008-09.
2. Comparisons between allocations should be made with caution because of changes to PCT baseline funding between rounds.

Queen Mary's Hospital Sidcup

Mr. Evennett: To ask the Secretary of State for Health what recent representations his Department has received on the future of Queen Mary's Hospital, Sidcup. [282753]

Mr. Mike O'Brien: In relation to the future of Queen Mary's hospital Sidcup between 1 September 2008 and 29 June 2009, the Department's correspondence and parliamentary questions database shows approximately 400 letters, of which, approximately 150 are about the future of services. There were 22 parliamentary questions found but there were no ministerial meetings or debates.

Sexual Offences: Health Professionals

Mr. Willis: To ask the Secretary of State for Health what funding his Department has allocated for specialist support and remedial treatment services for patients who have been sexually abused by health workers for the period 2007-2012. [286730]

Ann Keen: No specific allocation is made for this purpose.

Smoking

Mike Penning: To ask the Secretary of State for Health what estimate he has made of the proportion of (1) deaths which were attributable to smoking in each of the last 10 years; [284737]

(2) adults who were smokers in each of the last five years. [284748]

Gillian Merron: The prevalence of smoking and the numbers of deaths from smoking have both significantly reduced over the past 10 years (from the latest data available). In England there are around 2.5 million fewer smokers since 1998 and the number of deaths from smoking has been reduced to around 82,000 per year.

The information requested is available at:

www.statistics.gov.uk/downloads/theme_compendia/GHS07/GHSSmokingandDrinkingAmongAdults2007.pdf

Social Services

Andrew George: To ask the Secretary of State for Health how many people have received care packages following an assessment by social services in each local authority in each of the last five years; and if he will make a statement. [286988]

Phil Hope: The NHS Health and Social Care Information Centre has provided data on all adults aged 18 and over who received social care services as a result of a community care assessment by councils with adult social services responsibilities in each of the last five years. The information has been placed in the Library.

Andrew George: To ask the Secretary of State for Health what the cost of *(a)* continuing care assessments and *(b)* core assessments by social services in each local authority was in each of the last five years; and if he will make a statement. [286990]

Phil Hope: The costs of continuing care assessments are not collected centrally.

The following table shows the total gross current expenditure by each local authority in England on assessment and care management for adults aged 18 and over.

This is information is derived from data collected annually on social services expenditure from councils with social services responsibilities.

Data on local authority expenditure on state funded adult social care are collected and published by the NHS Information Centre for health and social care.

Gross current expenditure on assessment and care management by local authority, 2003-04 to 2007-08, England

£000

[1] 2003-04 to 2006-07 figures include assessment and care management for all asylum seekers including children and families. In 2007-08 this information was collected separately and only adults' expenditure has been included.

Stepping Hill Hospital: Parking

Mark Hunter: To ask the Secretary of State for Health what the *(a)* revenue income and *(b)* estimated overhead cost of the parking charges scheme at Stepping Hill Hospital has been in each year since the introduction of such charges. [288454]

Ann Keen: Hospital car parking charges are decided locally by individual trusts to help cover the cost of running and maintaining a car park. All trusts should have exemption and concessionary schemes in place to ensure that patients and carers who visit hospital regularly are not disadvantaged. They should also have sustainable public transport plans in place for staff and visitors.

Data on the gross income that national health service trusts receive from car parking charges paid by staff and visitors have been collected since 2000. These data are provided by the NHS on a voluntary basis and have

not been amended following their collection, nor have they been actively checked by the Department and therefore cannot be confirmed to be accurate or complete.

According to data collected through the Estates Related Information Collection (ERIC) system, Stepping Hill hospital[1], Stockport NHS foundation trust, have received the following income:

[1] The site data also list a hospital with the same name at the Pennine Care NHS trust, but this does not have any car parking income and is therefore not the one under consideration.

£

	Income from staff	Income from visitors	Total income
2001-02	98,693	197,261	295,954
2002-03	88,939	192,509	281,448
2003-04	80,929	164,338	245,267
2004-05	144,983	301,849	446,832
2005-06	218,899	489,518	708,417
2006-07	223,533	467,105	690,638
2007-08	238,408	499,185	737,593

Note:
Prior to 2001-02, car parking data were collected at trust level only and therefore Stepping Hill hospital's specific income could not be identified.

Estates Related Information Collection System, Department of Health.

Surgery: Greater Manchester

Graham Stringer: To ask the Secretary of State for Health how many operations were performed at the Greater Manchester Surgical Centre in *(a)* the 12 month period from 18 May 2005 and *(b)* each subsequent 12 month period starting 18 May. [287731]

Mr. Mike O'Brien: The Department does not hold information about the number of operations performed at the Greater Manchester Surgical Centre but does hold data for finished consultant episodes.

The following table shows finished consultant episodes performed at the Greater Manchester Surgical Centre where there was a procedure or intervention. There is no clear definition of the term 'operation' used in hospital episode statistics (HES). HES have provided data for financial years (1 April to 31 March) 2005-06, 2006-07 and 2007-08 (the most recent year for which data is available).

Finished consultant episodes

	Number
2007-08	4,770
2006-07	5,574
2005-06	3,649

Swine Flu

Mr. Drew: To ask the Secretary of State for Health if he will direct each *(a)* primary care trust and *(b)* hospital trust to publish its contingency plan to deal with swine flu. [284944]

Gillian Merron: Primary care trusts (PCTs) and national health service trusts flu pandemic plans are already in action and are working well. It would not be the best use of NHS resources at this time to direct PCTs and NHS trusts to publish these plans. In addition, these plans are being continuously reviewed and, where necessary, updated informed by the latest expert scientific and medical advice of the current swine flu pandemic. Publication of contingency plans by PCTs and hospital trusts will, therefore, not be requested.

Local NHS communications efforts are now directed to providing local staff and communities with the latest information about the current pandemic, how it is developing and what they can do to prepare and manage it. The Department has written to all NHS chief executives to make clear that this is core responsibility of all organisations.

Teenage Pregnancy: Hampshire

Sandra Gidley: To ask the Secretary of State for Health how many pregnancies in girls under 16 years old were recorded in *(a)* Test Valley Borough and *(b)* Southampton in each of the last five years. [287768]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent question asking how many pregnancies of girls under 16 years old were recorded in (a) Test Valley Borough and (b) Southampton in each of the last five years. (287768)

Figures on conceptions are estimates based on the number of live births, stillbirths or legal abortions. They do not include miscarriages and illegal abortions.

The table below provides the number of conceptions among girls under 16, for (a) Test Valley local authority district and (b) Southampton unitary authority for 2003 to 2007 (the most recent year for which figures are available).

Table 1: Number of conceptions among girls aged under 16[1], for (a) Test Valley local authority district and (b) Southampton unitary authority 2003 to 2007

Numbers

Conceptions	2003	2004	2005	2006	2007[2]
Test Valley LAD	7	11	19	10	17
Southampton UA	39	36	35	43	37

[1] Under 16 years at estimated date of conception.
[2] Figures for 2007 are provisional.

Tranquillisers

Jim Dobbin: To ask the Secretary of State for Health which *(a)* policy advisers, *(b)* special advisers, *(c)* other individuals and *(d)* other groups have provided advice to his Department on the subject of tranquillisers in the last two years; and what expertise each has to advise on that subject. [264896]

Gillian Merron: The Department is not aware of any advice given by policy advisers, special advisers, other individuals or advisory groups specifically in relation to tranquilisers. The Commission on Human Medicines, the UK Health Ministers' independent safety experts and advisers, provides scientific advice on all medicines for human use before a product is given a marketing authorisation or if any post marketing safety issue arise.

Over the coming months the Department will be reviewing its policy on addiction to prescriptions and over the counter (OTC) drugs, including tranquilisers.

This review will identify where and how policy should be advanced, so that those addicted to prescription or OTC drugs receive high quality, effective services.

Wakefield NHS Trust: Expenditure

Jon Trickett: To ask the Secretary of State for Health what the capital expenditure of Wakefield NHS Trust was in each year since 1996-97. [288658]

Ann Keen: The information is not available in the format requested.

The following table shows data for 2001-02 for the Pinderfields and Pontefract Hospitals NHS Trust and for 2002-03 to 2007-08 for the Mid-Yorkshire Hospitals NHS Trust, which are the only years for which information is available for these organisations.

Charge against the capital resource limit (CRL)

	£000
2007-08	10,647
2006-07	20,876
2005-06	12,936
2004-05	15,222
2003-04	12,300
2002-03	10,031
2001-02	10,687

Notes:
1. The data provided in 2001-02 is for the Pinderfields and Pontefract Hospitals NHS Trust which merged with the Dewsbury Health Care NHS Trust in 2002-03 to form the Mid-Yorkshire Hospitals NHS Trust.
2. The term 'capital expenditure' has been interpreted to mean the charge against the CRL for the year. This charge is calculated as follows:
a. Gross capital expenditure in accruals terms for the period
b. Less the net book value of assets disposed of
c. Plus any loss on disposal of donated assets
d. Less capital grants received
e. Less donations

NHS audited summarisation schedules.

ENERGY AND CLIMATE CHANGE

Carbon Emissions: Business

Mr. Jim Cunningham: To ask the Secretary of State for Energy and Climate Change what assistance his Department provides to small and medium-sized businesses to reduce their greenhouse gas emissions. [288073]

Joan Ruddock: KBCC provides funding for the provision of support, advice and information on reducing greenhouse gas emissions to small and medium-sized businesses, in particular through the Carbon Trust. Advice and information is provided through a dedicated phone line and website. Financial support is provided through interest-free loans to small and medium-sized businesses for energy saving investments. Up to £83.9 million of additional funding for this scheme is being provided for firms in England over the next two years.

The Carbon Trust also administers the Enhanced Capital Allowance scheme for energy-saving technologies, which provides businesses that invest in designated energy efficient equipment with enhanced tax relief. DECC has also established voluntary agreements with the major energy suppliers to promote energy efficiency and energy services to small and medium-sized businesses.

Carbon Emissions: Housing

Mr. Burns: To ask the Secretary of State for Energy and Climate Change how many grants have been made through the Low Carbon Buildings programme to *(a)* schools, *(b)* hospitals and *(c)* other public buildings in (i) West Chelmsford constituency, (ii) Essex and (iii) England in each year since the inception of the programme. [278397]

Mr. Kidney: The following number of grants have been made through the Low Carbon Buildings programme to *(a)* schools, *(b)* hospitals and *(c)* other public buildings in (i) West Chelmsford constituency, (ii) Essex and (iii) England in each year since the inception of the programme.

Departmental Advertising

Mr. Greg Knight: To ask the Secretary of State for Energy and Climate Change what his Department's advertising budget is for 2009-10. [284847]

Joan Ruddock: Between April 2009 and July 2009, DECC is expected to spend approximately £370,000 on Act on CO_2 campaign advertising media and production. We are considering our advertising plans for the rest of 2009-10.

Departmental Data Protection

Jenny Willott: To ask the Secretary of State for Energy and Climate Change how many *(a)* attempts and *(b)* successful attempts were made to gain unauthorised access to each (i) database and (ii) ICT system run by his Department; and if he will make a statement. [286547]

Joan Ruddock: It is not in the interests of the UK's national security for Departments to confirm information on the number of attempts, successful or otherwise, to gain unauthorised access to departmental systems or databases. Such disclosure could undermine the integrity and security of departmental systems and thereby expose them to potential threats.

DECC complies with the mandatory requirements of the Security Policy Framework in relation to information security including managing the risk of unauthorised access to ICT systems.

Departmental Databases

Jenny Willott: To ask the Secretary of State for Energy and Climate Change which databases managed by his Department and its agencies hold personal information on members of the public; on what date each such database become operational; and if he will make a statement. [284907]

Joan Ruddock: The Department and its agencies hold a large number of databases ranging in size. These range from corporate databases to small local databases with just a few users held by units within the Department and its agencies, in addition to a large number of spreadsheets containing data, of which, the larger and more sophisticated could be described as fulfilling a database function. Some of these databases and systems can be expected to hold information on members of the public gathered in support of a wide range of departmental initiatives and activities. It is not possible due to disproportionate costs to identify which of the many databases contain personal data on members of the public and the date each one became operational.

All databases containing personal data maintained by DECC are managed in accordance with the Data Protection Act and following the publication of the cross government data handling review in June 2008, new projects and programmes that hold significant amounts of personal data are obliged to conduct privacy impact assessments.

Departmental Internet

Mr. Watson: To ask the Secretary of State for Energy and Climate Change when his Department plans to update its web browsers from Internet Explorer 6. [285017]

Joan Ruddock: The Department is currently reviewing its options for the technology refresh of software such as Internet Explorer 6, as part of a PFI Agreement for the provision of IT Services.

Energy Saving Trust: Finance

Charles Hendry: To ask the Secretary of State for Energy and Climate Change (1) what the Energy Saving Trust's budget is for *(a)* advertising, *(b)* consultancy fees and *(c)* administration in (i) 2009-10, (ii) 2010-11, (iii) 2011-12 and (iv) 2012-13; [286859]

(2) what expenditure the Energy Saving Trust incurred on *(a)* advertising, *(b)* consultancy fees and *(c)* administration in (i) 2007-08 and (ii) 2008-09. [286860]

Joan Ruddock: The Energy Saving Trust is a not-for-profit private company limited by guarantee. As part of the terms and conditions of the grant funding DECC provides to the Energy Saving Trust, the trust is required to provide DECC with audited annual accounts within five months of the end of the financial year.

The Energy Saving Trust statutory accounts for the financial years ending 2008 and 2009 are deposited with Companies House and are in the public domain.

Environmental Transformation Fund: Finance

Charles Hendry: To ask the Secretary of State for Energy and Climate Change (1) how much in public funding for the Environmental Transformation Fund *(a)* was provided in (i) 2007-08 and (ii) 2008-09 and *(b)* is planned to be provided in (i) 2009-10, (ii) 2010-11, (iii) 2011-12 and (iv) 2012-13; [285079]

(2) what proportion of expenditure under the Environmental Transformation Fund was spent on UK-based projects in *(a)* 2007-08 and *(b)* 2008-09; [285084]

(3) what proportion of expenditure under the Environmental Transformation Fund he expects to be spent on UK-based projects in *(a)* 2009-10, *(b)* 2010-11, *(c)* 2011-12 and *(d)* 2012-13. [285085]

Joan Ruddock: The Environmental Transformation Fund (ETF) began operation in April 2008—therefore there was no ETF expenditure in the financial year 2007-08. The ETF budgets are for the current CSR period, so no budgets have yet been agreed for financial year 2011-12 or beyond.

The ETF has international and national components, which are managed separately. The International ETF is jointly controlled by my Department and by the Department for International Development; its total budget for the CSR period was £800 million with £100 million available in financial year 2008-09, £200 million in financial year 2009-10 and £500 million in financial year 2010-11. None of the international component is spent in the UK, whereas the national component is spent exclusively in the UK.

The National ETF total budget for the CSR period was £400 million with up to £133 million available in financial year 2008-09, up to £118 million in financial year 2009-10 and up to £149 million in financial year 2010-11. In its first year of operation National ETF spent £91m[1] on UK-based projects.

[1] Figure is provisional and subject to finalisation of accounts for the year. It also includes up to £7 million which has been, or will be, handed back by recipients of Offshore Wind Grants who would prefer to claim Renewables Obligation Certificates instead, now that the regime has changed. In addition, the figure includes £24,000 which has been received back from a hydrogen and fuel cell company that went into receivership.

Industrial Diseases: Compensation

John Mann: To ask the Secretary of State for Energy and Climate Change to which 100 firms of solicitors his Department and its predecessors has paid the most in costs in respect of the coal health compensation scheme. [286399]

Mr. Kidney: The top 100 claimants' representatives who the Department has paid the most in fees broken down by chronic obstructive pulmonary disease (COPD), vibration white finger (VWF) and miscellaneous claims is shown in the following table.

[1] Includes costs for noise induced hearing loss and other miscellaneous diseases.

John Mann: To ask the Secretary of State for Energy and Climate Change how many persons with active claims under the Coal Health Compensation Scheme his Department has informed of the findings of solicitors' disciplinary tribunals in respect of the solicitors *(a)* Beresfords, *(b)* Avalon and *(c)* Raleys. [287017]

Mr. Kidney: The Department has not taken any such steps. The Solicitors Disciplinary Tribunal (SDT) findings on Beresfords have been published but Beresfords have lodged an appeal against the SDT's findings and it would be inappropriate to comment before the appeal process has been completed. The formal SDT findings on Raleys and Avalon have not yet been published.

The Department has written to the Claimants Group (CG) who represent claimants' solicitors asking them what steps they are taking to make their clients aware of the SDT findings. To date, the CG have confirmed that they have not received any request from Beresfords clients on this matter.

Lighting: Government Departments

Mr. Jim Cunningham: To ask the Secretary of State for Energy and Climate Change what his most recent estimate is of the number of light bulbs used by *(a)* his Department and *(b)* other Government departments which are energy efficient. [285386]

Joan Ruddock *[holding answer 9 July 2009]:* As at Friday 17 July 2009, there are 2,643 energy efficient light bulbs in use in DECC's estate. The Department does not hold records on light bulbs used in other Government Departments.

Low Carbon Buildings Programme

Jenny Willott: To ask the Secretary of State for Energy and Climate Change what the estimated total capacity is of microgeneration units of each type of technology installed under the household stream of the Low Carbon Building Programme in each year since it began operating; and if he will make a statement. [286483]

Mr. Kidney: The estimated total capacity of microgeneration units of each type of technology installed under the household stream of the Low Carbon Building Programme in each year since the commencement of the Low Carbon Buildings Programme is as shown in the table.

LCBP Householder Stream—Installed Capacity

Statistics reflect paid grants as these are the only ones that The Energy Saving Trust has data for and have confirmation that technologies have been installed.

LCBP Householder Stream: Installed Capacity

Technology	*Number of paid grants*	*Power output kW or kWp*	*Thermal output kW*	*Collector area M2*

[1] There are currently no installed/paid Biomass technologies.

Low Carbon Technologies

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change what assessment he has made of the implications for his Department's policies of the recent report of the Carbon Trust on commercialising low carbon technologies. [286771]

Joan Ruddock: The Carbon Trust report 'Focus for success—A new approach to commercialising low carbon technologies' is an important contribution to the debate on how to ensure the UK maximises the economic benefit of the move to a low carbon economy. DECC worked closely with the Carbon Trust as it developed the report. We welcome its publication and broadly support its conclusions. The report is part of the evidence base and wider considerations that have informed the

prioritisation decisions being made on the allocation of the low carbon investment funding announced in Budget 2009, as set out in the UK Low Carbon Transition Plan and UK Low Carbon Industrial Strategy published on 15 July.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Energy and Climate Change when the Minister of State plans to reply to the email from the hon. Member for West Worcestershire, dated 1 May 2009, on Vesta's Isle of Wight plant. [279387]

Mr. Kidney: My noble colleague, Lord Hunt, responded to the hon. Member on 30 June 2009.

Nuclear Power Stations: Accidents

Mr. Weir: To ask the Secretary of State for Energy and Climate Change what *(a)* coolant leaks and *(b)* fires have been recorded at each UK nuclear installation in each of the last 10 years. [280802]

Mr. Kidney: ND screens incident reports made by licensees to identify those which have had the potential to challenge a nuclear safety system. A search of the raw input data for such screening from January 2001 to June 2009 has been undertaken for details of leaks and fires at nuclear installations. This identifies the relevant information in the tables. Such data are not available for the period before January 2001.

Notes:

1. A 'coolant leak' has been interpreted as being a loss of coolant, including clean coolant, from an item of plant into the working environment of the licensed site. Coolant itself has been interpreted as being water, carbon dioxide or hydrogen on a power station, and water elsewhere.

2. A fire has been interpreted as being a situation where ignition of material has taken place on the licensed site or instances of smouldering there where such ignition could not reasonably be ruled out given the information in the record.

Coolant leaks to environment

	Site	Incident
2001		
14 March	Dungeness A	Carbon dioxide leak from high pressure pump on carbon dioxide plant
26 October	Hinkley Point B	Cooling water leak from turbine alternator 7 exciter
3 November	Heysham 1	Cooling water leak to turbine generator
3 December	Rosyth	Loss of coolant from primary circuit clean-up resin column
2002		
6 February	Oldbury	Reactor 2 cooling water pipe failure
27 February	Hinkley point B	Leak of tritiated water from reactor bypass gas plant
31 March	Torness	Carbon dioxide leak from refuelling machine
14 May	Sizewell B	Indication of historic leak of primary coolant from control rod drive mechanism housing
26 June	Hunterston B	Leak of carbon dioxide from gas bypass plant
26 November	Hunterston B	Condenser leak on turbo generator 7
18 December	Hinkley point B	Leak of tritiated water from break tank
23 December	Dungeness B	Steam leak on reactor
2003		
31 January	Heysham 2	Steam leak on boiler half unit valve
19 February	Heysham 1	Release of cooling water from buffer store tube vent valve
1 March	Dungeness B	Carbon dioxide leak from flange on clean side of reactor gas pressurising unit
16 March	Hunterston B	Steam leak in the supply pipe work to Unit 7 main boiler feed pump
3 April	Hunterston B	Clean carbon dioxide leak from failed bursting disc on gas bypass plant on Reactor 8
13 May	Dungeness A	Leak from LP feed water pipe to R1 boilers
15 July	Heysham 1	Carbon dioxide leak from pressure transducer on refuelling machine
27 July	Dungeness B	Leak of water from base of flask E97
14 August	Wylfa	Leak from a Boiler 1 feed water line flange
29 September	Dungeness A	Clean carbon dioxide leak from pipe work in R1 pends area
7 December	Heysham 1	Leak of water from two failed joints in fuel route emergency cooling water 'A' main
2004		
2 February	Oldbury	Leak from LF feed main stub pipe
30 March	Sizewell A	Carbon dioxide release through failed vacuum pump oil separator
31 March	Hunterston B	Leak from auxiliary cooling water pipe flange
7 April	Hunterston B	Carbon dioxide release from the gas bypass plant autoclave room vacuum pump
14 April	Hartlepool	Leak through crack in heat exchanger flange
19 April	Heysham 1	Carbon dioxide leak from west storage plant
5 May	Hunterston B	Cooling water leak from generator yellow phase enclosure
11 May	Hinkley Point B	Carbon dioxide leak from storage tank
16 May	Hinkley Point B	Leak from Reactor 4 condensate system
9 June	Hartlepool	Leak of tritiated water from radioactive effluent treatment plant

Coolant leaks to environment

	Site	*Incident*
13 June	Torness	Carbon dioxide leak from storage tank
14 July	Sellafield	Leaking water from flask supply in B205
14 July	Hunterston B	Carbon dioxide leak from storage tank bursting disc
21 July	Hinkley Point B	Carbon Dioxide leak from blowdown route
25 July	Heysham 1	Carbon Dioxide found in pressure vessel tendon box
3 August	Heysham 2	Carbon Dioxide leak from ring main
9 September	Hartlepool	Leak in low pressure back up cooling system pipe work
18 November	Heysham 1	Alternator hydrogen coolant leak
26 November	Heysham 2	Oil leak from transformer
2005		
1 January	Heysham 2	Steam leak on Turbine Generator 7
5 February	Hinkley Point B	Carbon dioxide leak from tank
19 February	Hinkley Point B	Carbon dioxide leak from tank
25 February	Torness	Carbon dioxide leak through in-service inspection penetration
15 March	Torness	Carbon dioxide leak from ring main
25 June	Dungeness A	Carbon dioxide leak from main CO_2 plant
4 July	Sellafield	Damp patch discovered adjacent to B30 pond wall
25 July	Oldbury	Steam leak through thermocouple pocket of Boiler 4 on Reactor 1
4 August	Hinkley Point B	Carbon dioxide leak from vaporiser valve
30 October	Dungeness A	Carbon dioxide leak through failed isolation valve to pressure gauge
2006		
30 January	Sellafield	Leak of dosed cooling water from B832 cooling tower
18 February	Sellafield	Leak of pond water through expansion joint above the stainless steel seal in B30 AGR storage pond
24 March	Hunterston B	Carbon dioxide leak in pipe trench
11 September	Hinkley point B	Carbon dioxide leak from supply pump
23 September	Hartlepool	Alternator hydrogen coolant leak
26 September	Hartlepool	Fracture of emergency cooling water main
2 October	Dungeness B	Auxiliary cooling water pipe work leak
15 October	Sizewell A	Steam leak from Turbine Alternator 1
18 November	Heysham 2	Steam leak from Reactor 7

Coolant leaks to environment

	Site	*Incident*
2007		
7 January	Sizewell A	Fracture of pond recirculating water system pipe work
18 January	Sellafield	Waste Vitrification Plant electrical inductor cooling water leak
1 March	Hinkley Point B	Carbon dioxide leak outside plant room
26 March	Dungeness B	Carbon dioxide leak in reactor basement
1 June	Hunterston B	Leak from condensate booster pump
2 June	Heysham 2	Leak in low pressure feed heater pipe work
18 July	Dungeness B	Leak of tritiated water Identified
19 September	Hartlepool	Leak of pressure vessel cooling water identified on boiler closure unit
28 September	Hunterston B	Steam leaks in high pressure gland pipe work
26 September	Dungeness B	Carbon dioxide leak from storage tank
27 October	Oldbury	Carbon dioxide leak from fuelling machine
2008		
19 February	Oldbury	Carbon dioxide leak from storage tank
20 February	Torness	Carbon dioxide leak from gas bypass plant
26 June	Heysham 2	Steam leak in gland steam drain line
26 July	Heysham 1	Carbon dioxide leak from storage tank
7 October	Wylfa	Carbon dioxide leak from storage tank
23 December	Torness	Carbon dioxide leak from valve in the fuel machine standby CO_2 coolant supplys
2009		
24 April	Hartlepool	Hydrogen leak from Unit 2 alternator frame
26 May	Heysham 1	Turbine cooling water leak
28 May	Hinkley Point B	Pressure vessel cooling water leak from Reactor 4 sump

Fire

	Site	*Incident*
2001		
18 January	Hunterston B	Control transformer fire in gas circulator workshop
14 February	Hunterston A	Fire in pit in charge machine maintenance building
18 February	Dungeness A	Fire near No. 1 bearing
14 March	Sellafield	Fire during sawing of camera frame

Fire

	Site	*Incident*
19 May	Dungeness A	Fire in region of slip ring and alternator on turbo-alternator 2
14 June	Hunterston B	Fire in lagging below pump main bearing
16 June	Harwell	Fire in fan assembly in electrical trunking on Helios 1 linear accelerator facility
20 June	Dounreay	Sodium/potassium fire in Dounreay Fast Reactor sphere
4 July	Sellafield	Fire in portable beta-in-air activity monitor
11 July	Amersham	Fire in administration building
18 July	Dounreay	Fire in sodium/potassium heating loop on Dounreay Fast Reactor
27 July	Berkeley Centre	Sodium and natural uranium fire in fume cupboard
30 August	Harwell	Fire in building 424
27 September	Hunterston B	Air circulation fan motor fire in electrical switch room
23 October	Dungeness B	Fire in canteen deep fat fryer
24 October	Heysham 2	Fire in incinerator fire box
30 October	Dounreay	Uranium residue fire in a D1202 glovebox
14 November	Wylfa	Fire in services switchboard transformer
1 December	Heysham 1	Fire on scaffolding in turbine hall basement
3 December	Hunterston B	Light fitting fire in outage planning building
2002		
9 March	Hinkley Point B	Lagging fire on Turbine 8 steam drain lines
11 April	Dungeness B	Smouldering lagging on turbine (1)
11 April	Dungeness B	Smouldering lagging on turbine (2)
29 May	Dounreay	Fire in D1207 roof void
12 July	Oldbury	Circulator lagging fire
13 August	Berkeley Centre	Fire in multiplexor unit
27 November	Hunterston B	Fire in light fitting
21 December	Heysham 1	Fire in turbine electrical terminal box
2003		
10 January	Hunterston B	Bearing fire in Main Control Building air conditioning compressor
27 January	Heysham 1	Ignition of expansion joint on pile cap
15 February	Dounreay	Waste drum fire in DN026 waste store
25 April	Heysham 2	Bearing fire in Turbine 8
8 June	Hunterston B	Fire in 415 V electrical supply board
8 July	Heysham 2	Lagging fire on main boiler feed pump

Fire

	Site	*Incident*
11 July	Dungeness B	Boiler feed pump primary oil pump fire
15 July	Harwell	Fire in B220 Laboratory GB38 fume cupboard
17 July	Wylfa	Light fitting fire above TA1
30 July	Rolls Royce Manufacturing	Swarf fire during machining in Clean Shop
28 August	Barrow	Smouldering plastic during burning-off operation
2 October	Hinkley Point B	Debris fire in R3 Circulator Hall
4 October	Heysham 2	Lagging fire between bearings 4 and 5 of turbine 8
24 October	Devonport	Welding fire in sonar transducer space
16 December	BNFL Capenhurst	Fire in pit beneath smelter
2004		
13 January	Sellafield	Two Magnox fuel decanning fires in Fuel Handling Plant
22 January	Hunterston B	Fire in reactor building lift motor room
5 February	Bradwell	Fire in portable water pump to showers in turbine hall
7 March	Hunterston A	Vacuum cleaner motor fire
27 May	Hunterston B	Electric motor fire in low level waste building annex
13 June	Heysham 2	Power supply cubicle fire
17 June	Hinkley Point B	Smouldering wash water pump drive belt
20 July	Berkeley	Fire in building C24
4 October	Hunterston B	Main boiler feed pump lagging fire
13 October	Sizewell A	Inboard pump bearing fire
28 October	Drigg	Combustion of loose waste material
17 November	Bradwell	Fire in reactor building electrical socket
2005		
4 February	Heysham 1	Smouldering lagging on turbine
8 March	Heysham 2	Fire on reactor basement sump pump
22 April	Harwell	Capacitor fire in building 459
22 June	Torness	Variable frequency output transformer fire
30 June	Barrow	Portacabin fire
14 July	Heysham 2	Fire in bearing of fuel handling plant extract fan
16 September	Torness	Fire in purge air compressor No. 2

Fire

	Site	*Incident*
31 October	Dungeness A	Fire in bulk group 4 LF power supply
2006		
23 January	Sellafield	Smoking bitumen seal around pipe on Combined Heat and Power Plant turbine
24 March	Dounreay	Hydrogen ignition during waste cutting operation in Prototype Fast Reactor
21 April	Springfields	Uranium shredder fire in building 338
23 October	Heysham 2	Smouldering leak management tray beside hot turbine reheat pipework
23 December	Burghfield	Smouldering cable in plant room
2007		
1 February	Hinkley Point B	Fire in bund of gas circulator lube system
2 June	Hunterston B	Bearing fire on turbogenerator 7
12 August	Heysham 2	Bearing fire in cooling water pump
2008		
7 January	Dounreay	Fire in office suite of D1208
13 March	GE Healthcare	Fire in inactive recycling plant
15 June	Rolls Royce Manufacturing	Fire in glove box
2 December	Hartlepool	Aerosol can fire
3 December	Trawsfynydd	Convector heater fire in ponds office
2009		
12 March	Heysham 1	Lagging smoke/fire
15 March	GE Healthcare	Fire in services spine duct
31 March	Barrow	Fire on the casing of Astute Boat 2 during welding/grinding operations
18 April	Barrow	Fire on the bridge fin of Astute Boat 1
29 April	Oldbury	Smoking air circuit breaker
18 May	Wylfa	Fire in Turbine alternator

Renewable Energy

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change what meetings have been held between officials of his Department and the hon. Member for Nottingham, South (Alan Simpson) in his capacity as adviser on the implementation of the feed-in tariff programme. [287541]

Mr. Kidney: No meetings have been held between DECC officials and my hon. Friend the Member for Nottingham, South (Alan Simpson) on feed-in tariffs.

UDM-Vendside

John Mann: To ask the Secretary of State for Energy and Climate Change on how many occasions *(a)* officials and *(b)* lawyers from his Department have visited UDM-Vendside headquarters in Mansfield since 1997. [286708]

Mr. Kidney: Officials and Department's legal advisers have had formal business meetings with UDM/Vendside on a number of occasions but we don't have comprehensive records of these, and an accurate number is not, therefore, available. I should also add that similar business meetings have also taken place with the Claimants' Solicitors Group.

John Mann: To ask the Secretary of State for Energy and Climate Change how many meetings *(a)* his Department and *(b)* solicitors acting on his Department's behalf have had with UDM-Vendside in each year since 2005. [286867]

Mr. Kidney: Officials have had formal business meetings with UDM-Vendside but we do not have comprehensive records of these, and an accurate number is not, therefore, available. I should also add that similar business meetings have also taken place with the Claimants' Solicitors Group.

Warm Front Scheme

Justine Greening: To ask the Secretary of State for Energy and Climate Change how many complaints were *(a)* received and *(b)* upheld about the 10 Warm Front contractors who received the most work under the scheme (i) in the UK and (ii) in Wandsworth in (A) 2006, (B) 2007, (C) 2008 and (D) 2009. [285191]

Mr. Kidney: The following table details the number of complaints *(a)* received and *(b)* upheld about 10 Warm Front contractors who received the most work under the scheme (i) in England and (ii) in Wandsworth in years 2006-07 to 2008-09 and from 1 March to 19 May in 2009-10 (the latest period for which figures are available).

	England		*Wandsworth*	
	Complaints received	*Upheld complaints*	*Complaints received*	*Upheld complaints*
2006-07	532	276	7	3
2007-08	813	261	3	1
2008-09	435	190	4	2
2009-10[1]	198	87	3	2
Total	1,978	814	17	8

[1] Up to 19 May 2009

Wind Power

Mr. Cash: To ask the Secretary of State for Energy and Climate Change what criteria are used in the selection of sites for the construction of wind turbines; what assessment is made of the potential environmental effects on the local area of the siting of such turbines; and if he will make a statement. [287702]

Mr. Kidney: It is for the market to bring forward proposals for sites for onshore or offshore wind farms and these are then considered through the planning

system by the relevant planning authority as to whether it is appropriate to grant development consent. Environmental licences may also be required, for example, under the Food and Environmental Protection Act (FEPA).

Offshore, following a Strategic Environmental Assessment by DECC or the relevant Devolved Administration in Scotland and Northern Ireland, The Crown Estate is responsible for awarding site leases for offshore wind development to the market through a competitive process. Any subsequent proposals are considered through the planning process.

The Government have made clear that wind farms should be located in appropriate places and that local concerns should be listened to in this process. Planning Policy Statement (PPS) 22 on renewable energy[1] makes clear the need to ensure that all renewable energy developments take place within the formal planning procedure, which allows all relevant stakeholders, including members of the public, to put forward their views on the likely impact of any proposal on the environment and the local community. Similar policies are in place in Scotland, Northern Ireland and Wales.

We set out in the Renewable Energy Strategy published this week[2] steps to improve the planning process for renewable and low carbon energy while protecting legitimate environmental and local concerns.

Planning applications should be accompanied by an environmental statement based on an Environmental Impact Assessment (EIA). This includes details of the likely impact of the project in question on the environment and wildlife, among other things. In considering an application, the planning authority will consult with a range of stakeholders, including the statutory advisers on nature conservation as well as others with an interest in the project. This ensures that decisions on whether to grant consent for a wind farm are considered in the light of the best available information about its likely environmental impacts. Any development of renewable energy must also be seen within the wider context of reducing carbon emissions and improving security of the energy supply.

Where relevant, an Appropriate Assessment will be undertaken to meet the requirements of the Birds[3] and Habitats Directives[4].

Written Questions: Government Responses

Mr. Watson: To ask the Secretary of State for Energy and Climate Change when he plans to answer questions *(a)* 285519 and *(b)* 285520, tabled on 6 July 2009 on the proposed national deep-level geographical repository for radioactive waste. [287730]

Mr. Kidney: I refer my hon. Friend to the answers I gave on 15 July 2009, *Official Report*, columns 420-21W.

CABINET OFFICE

Alcoholic Drinks: Death

Sandra Gidley: To ask the Minister for the Cabinet Office how many deaths in which alcohol was an underlying cause were recorded in each health trust area within the ceremonial county of Hampshire in each of the last five years. [287764]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, July 2009:

As National Statistician, I have been asked to reply to your recent question asking how many deaths in which alcohol was an underlying cause were recorded in each health trust within the Ceremonial County of Hampshire in each of the last five years. (287764)

The table attached provides the number of deaths with an alcohol-related underlying cause in Hampshire, Portsmouth City Teaching and Southampton City primary care organisations, from 2004 to 2008 (the latest year available). These primary care organisations are located within the area covered by Hampshire county, Portsmouth unitary authority and Southampton unitary authority, which together comprised the County of Hampshire prior to local government reorganisation.

Table 1: Number of deaths with an alcohol-related underlying cause[1] in primary care organisations in Hampshire county, Portsmouth unitary authority and Southampton unitary authority[2], 2004-08[3, 4]

Primary care organisation	2004	2005	2006	2007	2008
Hampshire	118	128	142	100	120
Portsmouth City Teaching	23	31	26	27	32
Southampton City	25	35	32	32	27

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10). The specific causes of death categorised as alcohol-related, and their corresponding ICD-10 codes, are shown in box 1.
[2] Based on boundaries as of 2009.
[3] Figures are for deaths registered in each calendar year.
[4] Figures for 2008 are provisional.

Box 1. Alcohol-related causes of death—International Classification of Diseases, Tenth Revision (ICD-10)

Cause of death	ICD-10 code(s)
Mental and behavioural disorders due to use of alcohol	F10
Degeneration of nervous system due to alcohol	G31.2
Alcoholic polyneuropathy	G62.1
Alcoholic cardiomyopathy	I42.6
Alcoholic gastritis	K29.2
Alcoholic liver disease	K70
Chronic hepatitis, not elsewhere classified	K73
Fibrosis and cirrhosis of liver (excl. Biliary cirrhosis)	K74 (excl. K74.3-K74.5)
Alcohol induced chronic pancreatitis	K86.0
Accidental poisoning by and exposure to alcohol	X45

Box 1. Alcohol-related causes of death—International Classification of Diseases, Tenth Revision (ICD-10)

Cause of death	*ICD-10 code(s)*
Intentional self-poisoning by and exposure to alcohol	X65
Poisoning by and exposure to alcohol, undetermined intent	Y15

Census: Fines

Robert Neill: To ask the Minister for the Cabinet Office how many people were fined for not supplying information in their 2001 Census return. [288260]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician I have been asked to reply to your recent question asking how many people were fined for not supplying information in their 2001 Census return. (288260)

Of the 38 people that were successfully prosecuted for non-completion of 2001 Census returns, fines were imposed in 32 cases. Prosecutions were carried out in a Magistrate's Court and the imposition and amount of the fine was at the discretion of the Magistrate within the limits of the standard scale under the Criminal Justice Act.

Census: Travelling People

Robert Neill: To ask the Minister for the Cabinet Office what steps are planned to collect information from Travellers in the 2011 Census. [288261]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician I have been asked to reply to your recent question asking what steps are planned to collect information from Travellers in the 2011 Census. (288261)

We are making special preparations to enumerate the Gypsy and Traveller community and these will be trialled in the Census Rehearsal which takes place on 11 October 2009 in areas within Newham, Lancaster and Isle of Anglesey. In developing the plans we are working closely with local authorities' Gypsy and Traveller Liaison Officers, and are liaising with Gypsy and Traveller community groups.

Advance information about traveller sites will be gathered including any requirements for help with literacy or sight or hearing impairment issues. Authorised sites will be visited as pre-arranged with the site manager to hand deliver questionnaires. Transit sites and any temporary roving caravans, travelling fairs and circuses will also be visited on Rehearsal day to complete both delivery and collection of questionnaires.

Following face-to-face meetings with a number of Roma and Romani community leaders and support organisations, plus direct meetings with representations of Travellers and Gypsy communities, we are planning to recruit directly from those communities to help overcome issues of literacy, language and concerns about confidentiality. The community leaders themselves have also offered to support our Census awareness campaign.

Following the Rehearsal the procedures will be evaluated and adapted as necessary prior to the 2011 Census. We are continuing to improve contact with Gypsy and Traveller groups through the community liaison programme.

The proposed 2011 Census ethnic group question includes for the first time a specific category for 'Gypsy or Irish Traveller'. A write-in option is also available for those Travellers who may wish to identify themselves in any other way.

Civil Servants: Manpower

Graham Stringer: To ask the Minister for the Cabinet Office with reference to box 2.6 of the White Paper, Your region your choice, Cm 5511, how many civil servants were employed in each region in each year from 2003. [287729]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician I have been asked to reply to your recent Parliamentary Question, with reference to box 2.6 of the White Paper, Your region your choice, Cm 5511, how many civil servants were employed in each region in each year from 2003. (287729)

The requested statistics are attached at Annex A.

Annex A: Regional distribution of Civil Service employment 2003–2008[1]—Permanent employees

Full-time equivalents

Civil Servants: Pay

Mr. Maude: To ask the Minister for the Cabinet Office what information the Office for National Statistics holds on the *(a)* non-ministerial departments, *(b)* non-departmental public bodies and *(c)* public corporations which pay a salary of more than (i) £100,000, (ii) £150,000 and (iii) £200,000 to one or more individual civil servants. [287242]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician I have been asked to reply to your recent Parliamentary Question, concerning what information the Office for National Statistics holds on the (a) non-ministerial departments, (b) non-departmental public bodies and (c) public corporations which pay a salary of more than (i) £100,000, (ii) £150,000 and (iii) £200,000 to one or more individual civil servants. (287242)

The Office for National Statistics (ONS) collects a range of information, including the annual salaries of civil servants, as part of the Annual Civil Service Employment Survey (ACSES). The ACSES provides regional analyses, diversity and earnings statistics for the Civil Service population. The survey's content is outlined in the table at Annex A. The ACSES is a complete census of the Civil Service and includes all non-ministerial departments and a number of non-departmental public bodies and public corporations that are staffed by civil servants.

Further detail on the content of the ACSES is available from the ONS website at:

http://www.ons.gov.uk/about-statistics/methodology-and-quality/quality/qual-info-economic-social-and-bus-stats/quality-reports-for-business-statistics/annual-civil-service-employment-survey.pdf

Mr. Maude: To ask the Minister for the Cabinet Office how many civil servants in *(a)* departments, *(b)* executive agencies and *(c)* non-departmental public bodies receive an annual salary of over £150,000. [287257]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician I have been asked to reply to your recent Parliamentary Question, concerning how many civil servants in (a) departments, (b) executive agencies and (c) non-departmental public bodies receive an annual salary of over £150,000. (287257)

The Office for National Statistics (ONS) collects the annual salaries of civil servants, as part of the Annual Civil Service Employment Survey (ACSES).

The requested data are attached at Annex A.

Annex A: Number of individual civil servants paid more than £150,000 in departments, executive agencies and non-departmental public bodies (NDPB)[1] permanent employees

	Headcount
31 March 2008	*Greater than £150,000*
Departments[2]	80
Executive agencies	10
Non-departmental public bodies	—

[1] Numbers are rounded to the nearest ten and numbers less than five are represented by "—".
[2] Includes ministerial and non-ministerial Departments.

Annual Civil Service Employment Survey (ACSES).

Civil Service

Mr. Maude: To ask the Minister for the Cabinet Office whether employees in public corporations are reckoned to be Civil Service employees for headcount purposes. [287347]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician I have been asked to reply to your recent Parliamentary Question concerning whether the number of employees in public corporations are reckoned to be Civil Service employees for headcount purposes. (287347)

If the employees of public corporations have civil service status they will be included in the civil service headcount statistics. At Quarter 1 2009, there were 525,000 Civil Service employees and 568,000 employees of public corporations. Of those employed by public corporations, 31,493 were included in Civil Service headcount estimates (all not seasonally adjusted).

Civil Service: Languages

Mr. Boswell: To ask the Minister for the Cabinet Office what information the Cabinet Office collates on the competences of domestic civil servants in modern foreign languages; and what steps she is taking to improve such competence levels. [278929]

Kevin Brennan: I have been asked to reply.

Information on the competencies of domestic civil servants in modern foreign languages is not held centrally. Departments may hold this information where it is relevant to the post.

The UK Inter-Departmental Standing Committee on Languages (UKIDSCOL), a cross-governmental languages group has identified a lack of higher education provision in certain languages operationally important (notably Pashtu, Farsi, Dari, Kurdish and Somali). In response, UKIDSCOL recently began working with

Government Skills (the skills council for central government) to encourage the higher education sector to provide teaching in these languages. Progress on this work is expected by the end of the year.

Civil Service: Pensions

Mr. Philip Hammond: To ask the Minister for the Cabinet Office what the cost was of administering the Principal Civil Service Pension Scheme in each of the last five years. [289128]

Angela E. Smith: I refer the hon. Member to the reply given to the hon. Member for Northavon (Steve Webb) on 15 May 2009, *Official Report*, column 1048W.

Death: Cannabis

Bob Spink: To ask the Minister for the Cabinet Office how many cannabis-related deaths there were in *(a)* Essex and *(b)* Castle Point in each of the last five years. [288112]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent question asking how many cannabis-related deaths there were in (a) Essex and (b) Castle Point in each of the last five years. (288112)

There were no deaths where the underlying cause was drug poisoning[1] and cannabis was mentioned alone or with other substances on the death certificate, in (a) Essex county,[2] including Castle Point local authority,[3] from 2003 to 2007[4] (the latest year available).

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10). Deaths were included where the underlying cause was due to drug poisoning (shown in the box below), and where cannabis was mentioned on the death certificate.

[2] In addition, there were no deaths from this cause in Southend-on-Sea and Thurrock unitary authorities, which were part of the former County of Essex, in any of these years.

[3] Based on boundaries as of 2009.

[4] Figures are for deaths registered in each calendar year.

Cause of death	*ICD-10 code(s)*
Mental and behavioural disorders due to drug use (excluding alcohol and tobacco)	F11-F16, F18-F19
Accidental poisoning by drugs, medicaments and biological substances	X40-X44
Intentional self-poisoning by drugs, medicaments and biological substances	X60-X64
Assault by drugs, medicaments and biological substances	X85
Poisoning by drugs, medicaments and biological substances, undetermined intent	Y10-Y14

Death: Heart Diseases

Mr. Sheerman: To ask the Minister for the Cabinet Office how many people under the age of 18 years have died of cardiovascular failure in each of the last 10 years. [288388]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, July 2009:

As National Statistician, I have been asked to reply to your recent question asking how many people under the age of 18 years have died of cardiovascular failure in each of the last 10 years. (288388)

The table attached provides the number of deaths of persons aged under 18 years, where cardiovascular disease was the underlying cause of death in England and Wales, from 1999 to 2008 (the latest year available).

Table 1. Number of deaths where cardiovascular disease was the underlying cause of death[1], persons aged under 18 years, England and Wales[2], 1999 to 2008[3, 4]

	Number
1999	173
2000	172
2001	159
2002	139
2003	163
2004	143
2005	145
2006	177
2007	171
2008	155

[1] Cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes 390-459 for the years 1999 and 2000, and Tenth Revision (ICD-10) codes 100-199 from 2001 onwards.

[2] Figures for England and Wales include deaths of non-residents.

[3] Figures are for deaths registered in each calendar year.

[4] Figures for deaths registered in 2008 are provisional.

Death: Seas and Oceans

Mr. Brazier: To ask the Minister for the Cabinet Office how many people died in marine accidents in British territorial waters in each year from 2002 to 2008; and how many of those deaths in each such year were suicides. [286617]

Paul Clark: I have been asked to reply.

The number of people that have died in maritime related accidents or committed suicide in the maritime environment in each year from 2002 to 2008 in the United Kingdom Search and Rescue Region is given in the following table:

	Maritime related accidents	*Suicides in the maritime environment*
2002	110	71
2003	105	55
2004	100	115
2005	101	113
2006	124	105
2007	127	71
2008	93	92

Departmental Accountancy

Steve Webb: To ask the Minister for the Cabinet Office when she expects to publish her Department's resource accounts for 2008-09. [287323]

Angela E. Smith: The Cabinet Office's Annual Report and Accounts 2008-09 were published on 16 July and are available in the Libraries of the House for the reference of Members.

Departmental Databases

Jenny Willott: To ask the Minister for the Cabinet Office (1) what categories of personal information on members of the public are contained on each database which contains such data managed by her Department and its agencies; when each category of information was first collected; and if she will make a statement; [284893]

(2) what databases managed by her Department and its agencies hold personal information on members of the public; on what date each such database became operational; and if she will make a statement; [285982]

(3) which of the planned databases that will be managed by her Department or its agency and which will hold personal information on members of the public are expected to become operational in each of the next five years; and if she will make a statement; [286142]

(4) what categories of personal information on members of the public will be held on each of her Department's and its agency's databases expected to become operational in the next five years; what estimate she has made of the likely number of individuals' details each such database will hold when fully operational; and if she will make a statement. [286493]

Angela E. Smith: Of the databases owned by the Cabinet Office, there are six that contain information about members of the public. The personal information held is name and contact details, unless otherwise stated.

(1) The Office of the Third Sector (OTS) stakeholder database has been operational since 2006, when OTS was established in the Cabinet Office. There are some members of the public on this database.

(2) The Queen's Award nominations database has been operational since 2002. Most of the nominees are members of the public. Additional category of information held is the reason for the award nomination.

(3) The Departmental Correspondence database has been operational since 1997. It includes members of the public who have corresponded with the department.

(4) The Prime Minister's Office stakeholder database has existed in electronic form since 1999. There are some members of the public on this database.

(5) The Emergency Planning College database has been operational since 2006. It includes information on members of the public who attend the college. Additional categories of information held are: vehicle registration and dietary preference for students; and research interests of visiting lecturers and researchers.

(6) The Fast Stream Recruitment database has been operational since 2004. It includes information on members of the public who have applied to the Fast Stream graduate recruitment scheme. Additional categories of information held are: employment and education history; equality and diversity information; disclosure certificates and references.

There are no current plans to store any new data or categories of personal information on members of the public within the Cabinet Office as a whole.

All databases which we hold which contain personal data adhere to the provisions of the Data Protection Act. In addition, following the publication of the cross government data handling review, new projects and programmes that hold significant amounts of personal data will be obliged to conduct privacy impact assessments.

All of our databases containing personal information are stored on secure networks and have limited access. Cabinet Office policy does not permit uncontrolled transfer of these data to unsecured media.

Departmental Expenditure

Mr. Maude: To ask the Minister for the Cabinet Office what the planned real terms change in *(a)* cash and *(b)* percentage terms in her Department's expenditure is in each of the next three years. [287249]

Angela E. Smith: Details of the Cabinet Office's planned expenditure to the end of the current comprehensive spending review period are available in the Department's Annual Report and Accounts 2008-09 which were published on 16 July and are available in the Libraries of the House for the reference of Members.

Departmental Personnel

Mr. Maude: To ask the Minister for the Cabinet Office with reference to the answer of 4 November 2008, *Official Report*, column 335W, on departmental personnel, how many staff in the Cabinet Office have no post; how many such staff without posts were classified as being without post upon return from maternity leave; and how many of the staff without posts have been classified as such for at least *(a)* six months and *(b)* 12 months. [249947]

Angela E. Smith: As at 30 June 2009 there were 32 Cabinet Office employees without a permanent role. All staff are allocated short-term critical projects to allow flexibility and effective use of Cabinet Office resources. None of these staff are returnees from maternity leave.

Departmental Publications

Mr. Maude: To ask the Minister for the Cabinet Office (1) with reference to the answer to the right hon. Member for Tatton of 22 February 2005, *Official Report*, column 525W, on departmental publications, what the title is of the Cabinet Office's current staff newsletter; how much it costs to produce; and with what frequency is it published; [241640]

(2) if she will place in the Library a copy of each edition of the Cabinet Office's staff magazine from the last three months redacting *(a)* personally identifiable names and photographs of junior civil servants and *(b)* information necessary to safeguard national security. [287262]

Mr. Hurd: To ask the Minister for the Cabinet Office if she will place in the Library a copy of each edition of her Department's internal staff journal, with sensitive personal information redacted. [250299]

Tessa Jowell: The Cabinet Office no longer has a weekly staff publication. Instead, it runs an online news service for its staff on its departmental intranet, which is updated daily. Costs for maintaining the news service are covered by the Department's existing staff budget.

Employment: Hemsworth

Jon Trickett: To ask the Minister for the Cabinet Office how many *(a)* men and *(b)* women were in employment in the Hemsworth constituency in May in each year since 1997. [288662]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many (a) men and (b) women were in employment in the Hemsworth constituency in (i) May 1997 and (ii) May of each year since 1997. (288662)

The Office for National Statistics (ONS) compiles employment statistics for local areas from the Annual Population Survey and its predecessor the annual Labour Force Survey (LFS) following International Labour Organisation (ILO) definitions. Estimates for local areas are only available on an annual basis.

Table 1, attached, shows the number of people in employment aged 16 and over by gender, resident in the Hemsworth constituency. Estimates are provided for the 12 months ending in February from 1998 to 2004 from the annual LFS, and for the 12 months ending in December from 2004 to 2008, from the APS.

As these estimates are for a subset of the population in small geographical areas, they are based on small sample sizes, and are therefore subject to large margins of uncertainty.

Table 1: Men and women in employment[1] in Hemsworth parliamentary constituency

12 months ending	*Men*	*Thousand Women*
February 1998	18	15
February 1999	20	15
February 2000	18	15
February 2001	20	18
February 2002	21	16
February 2003	26	16
February 2004	25	18
December 2004	22	18
December 2005	20	18
December 2006	25	20
December 2007	22	20
December 2008[2]	***22	***17

[1] Levels of employment are provided for persons aged 16 and over.
[2] Coefficients of Variation have been calculated for the latest period as an indication of the quality of the estimates. See Guide to Quality below.

Guide to Quality:
The Coefficient of Variation (CV) indicates the quality of an estimate, the smaller the CV value the higher the quality. The true value is likely to lie within +/- twice the CV—for example, for an estimate of 200 with a CV of 5 per cent. we would expect the population total to be within the range 180-220

Key Robustness	*Coefficient of Variation (CV) (%)*	*Statistical*
*	0 ≤ CV<5	Estimates are considered precise
**	5 ≤CV <10	Estimates are considered reasonably precise
***	10 ≤CV <20	Estimates are considered acceptable
****	CV ≥20	Estimates are considered too unreliable for practical purposes

Source:
Annual Labour Force Survey and Annual Population Survey.

Employment: Hertfordshire

Mike Penning: To ask the Minister for the Cabinet Office (1) how many people were self-employed in *(a)* Hemel Hempstead constituency, *(b)* Dacorum and *(c)* Hertfordshire in each year since 1997; [287860]

(2) how many people have claimed jobseeker's allowance in *(a)* Hemel Hempstead constituency, *(b)* Dacorum and *(c)* Hertfordshire in each year since 1997. [287857]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Questions asking how may people were self-employed in (a) Hemel Hempstead, (b) Dacorum and (c) Hertfordshire in each year since 1997; and how many people have claimed jobseeker's allowance in (a) Hemel Hempstead, (b) Dacorum and (c) Hertfordshire in each year since 1997. (287860, 287857)

The Office for National Statistics (ONS) compiles labour market statistics for local areas from the Annual Population Survey (APS) and its predecessor the Annual Labour Force Survey (LFS). The number of people claiming Jobseeker's Allowance is compiled from Jobcentre Plus administrative data.

Table 1 shows the number of self-employed people resident in Hertfordshire in each year. Estimates for self-employed people for Hemel Hempstead and Dacorum are not available.

Table 2 shows the number of people claiming Jobseeker's Allowance resident in the requested areas for June of each year since 1997.

National and local area estimates for many labour market statistics, including employment and unemployment, are available from the NOMIS website at:

http://www.nomisweb.co.uk

Table 1: Number of self-employed[1] people resident in Hertfordshire in each year since 1997

[1] People in employment who are self employed aged 16 and over.
[2] Coefficients of Variation have been calculated for the latest period as an indication of the quality of the estimates. See Guide to Quality following.

Guide to Quality:
The Coefficient of Variation (CV) indicates the quality of an estimate, the smaller the CV value the higher the quality. The true value is likely to lie within +/- twice the CV—for example, for an estimate of 200 with a CV of 5 per cent. we would expect the population total to be within the range 180-220
Key Coefficient of Variation (CV) (%) Statistical Robustness
* 0 ≤ CV <5 Estimates are considered precise
** 5 ≤ CV <10 Estimates are considered reasonably precise
*** 10 ≤ CV <20 Estimates are considered acceptable
**** CV ≥ 20 Estimates are considered too unreliable for practical purposes

Islamic Bank of Britain

Jo Swinson: To ask the Minister for the Cabinet Office whether the Charity Commission has had recent discussions with representatives of Lloyds Banking Group on the Group's decision to order the Islamic Bank of Britain to cease processing payments for Interpal. [288312]

Angela E. Smith: The information requested falls within the responsibility of the Charity Commission. I have asked the Commission to reply.

Letter from Andrew Hind, July 2009:

As the Chief Executive of the Charity Commission, I have been asked to respond to your written Parliamentary Question on whether the Charity Commission has had any recent discussions with representatives of Lloyds Banking Group on the Group's decision to order the Islamic Bank of Britain to cease processing payments for Interpal.

In response to your question, the Commission has not had any recent discussions relating to this decision. The decision made by Lloyds Banking Group is not one in which the Commission can become directly involved or seek to influence, as it is a business decision for any bank as a supplier of financial services as to whom they offer those services. However, the Commission as regulator is clear that in order to operate effectively and transparently when delivering aid or other charitable work, every charity must have access to banking services. We would have serious concern if a charity were not able to operate for lack of a bank account, because of the harm that could result to its charitable work and its ability to operate transparently.

The Commission does on occasion engage with the banking industry generally in the course of its business, and has held discussions with the banking industry in relation to a number of issues affecting charities including the impact of overseas countries designation lists.

I hope this is helpful.

Jobseeker's Allowance: Chelmsford

Mr. Burns: To ask the Minister for the Cabinet Office how many and what proportion of young people aged between 18 and 24 years old resident in the Chelmsford local authority area claimed jobseeker's allowance in *(a)* each of the last five years and *(b)* 2009 to date. [287045]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many and what proportion of young people aged between 18 and 24 years old resident in the Chelmsford local authority area claimed jobseeker's allowance in (a) each of the last five years and (b) 2009 to date. (287045)

The Office for National Statistics (ONS) compiles the number of claimants of Jobseeker's Allowance (JSA) from the Jobcentre Plus administrative system. Table 1 shows the number and percentage of persons aged 18-24 claiming Jobseeker's Allowance in each month since January 2004.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at:

http://www.nomisweb.co.uk

Jobseeker's Allowance: Ethnic Groups

Steve Webb: To ask the Minister for the Cabinet Office how many and what proportion of jobseeker's allowance claimants were from each ethnic minority in each of the last 24 months. [287340]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many and what proportion of jobseeker's allowance claimants were from each ethnic minority in each of the last 24 months.(287340)

The Office for National Statistics (ONS) compiles the number of claimants of Jobseeker's Allowance (JSA) from the Jobcentre Plus administrative system. The ethnicity of claimants is not available for the United Kingdom and has been provided for Great Britain. Ethnicity is also not available for non-computerised claims.

Tables 1a-c show the number of computerised claims of Jobseeker's Allowance for each recorded ethnic group for each of the last 24 months. Tables 2a-c show the proportion of all computerised claims by each ethnic group for the same time periods.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at:

http://www.nomisweb.co.uk

Jobcentre Plus administrative system

Jobseeker's Allowance: Lancashire

Geraldine Smith: To ask the Minister for the Cabinet Office how many people have been claiming jobseeker's allowance in Morecambe and Lunesdale for over two years. [288360]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many people have been claiming jobseekers allowance in Morecambe and Lunesdale for over two years. (288360)

The Office for National Statistics (ONS) compiles the number of claimants of Jobseeker's Allowance (JSA) from the Jobcentre Plus administrative system. There were 10 people in Morecambe and Lunesdale claiming Jobseeker's Allowance for two years or more in June 2009.

National and local area estimates for many labour market statistics, including employment, unemployment and the claimant count, are available on the NOMIS website at:

http://www.nomisweb.co.uk

Lobbying: Charities

Norman Lamb: To ask the Minister for the Cabinet Office how many investigations by the Charity Commission for breaches of rules relating to political lobbying by registered charities *(a)* were initiated, *(b)* were completed and *(c)* resulted in the application of sanctions in each of the last three years. [286675]

Angela E. Smith: The information requested falls within the responsibility of the Charity Commission. I have asked the Commission to reply.

Letter from Andrew Hind, dated July 2009:

As the Chief Executive of the Charity Commission, I have been asked to respond to your written Parliamentary Question on how many investigations by the Charity Commission for breaches

of rules relating to political lobbying by registered charities (a) were initiated, (b) were completed and (c) resulted in the application of sanctions in each of the last three years.

It may be useful if I start by explaining the framework which the Charity Commission applies to charities and campaigning and political activity. Charity law on campaigning and political activity is set out in our published guidance "Speaking Out—Guidance on Campaigning and Political Activity by Charities (CC9)" which is available on our website at www.charitycommission.gov.uk. All charities must be established for exclusively charitable purposes and, as a general principle, charities may undertake campaigning and political activity, subject to the law and the terms of their governing document, in as much as it is a positive way of furthering or supporting their purposes. However, in doing so, charities must be mindful of their independence and must not engage in any form of party political activity.

Your question is in three parts and I will deal with each part separately.

Turning to part (a) of your question, the Charity Commission's Assessment Unit considers those complaints where it is evident that they cannot be dealt with by advice and support and which appear serious enough for us to look at more closely. The Assessment Unit determines the appropriate way to deal with complaints based on issues of risk and proportionality, and whether the issue raised falls within our regulatory remit. The following table shows how many of the cases we assessed in each of the last three financial years included issues that we categorised as "political activities" (issues of "political lobbying" would be categorised in this way):

	Political activity cases identified at compliance assessment stage
2006-07	22
2007-08	30
2008-09	8

Turning to part (b) of your question regarding completed investigations the Commission undertakes two types of investigations into concerns of non-compliance including breaches of rules around charities and campaigning and political activity. Firstly we undertake non-statutory "regulatory compliance cases". These are cases where risk to the charity is limited and where it is likely that issues can be resolved through providing supervision, regulatory advice and guidance to trustees, and without the need to intervene by using our statutory powers. Secondly, in the few cases of significant risk and more serious regulatory concern, we may open a statutory inquiry under section 8 of the Charities Act 1993.

The following table sets out the number of regulatory compliance cases and statutory inquiries that the Commission completed during that year which involved concerns about "political activities".

	Investigations—Regulatory Compliance Cases completed which included concerns about "political activity"	*Investigations—Statutory Inquiries completed which included concerns about "political activity"*
2006-07	10	0
2007-08	5	0
2008-09	11	1

Finally, turning to part (c) of your question regarding sanctions, it is important to explain that our objective in such cases is to protect charitable assets and our actions are designed to protect these assets rather than as punitive measures.

When we close a statutory inquiry we publish a "statement of results of inquiry" (SORI) on our website. We also publish reports for those regulatory compliance case investigations which meet certain criteria relating to the public interest—the criteria are published on our website at:

www.charitycommission.gov.uk/investigations/inquiryreports/ingreps.asp

The publication of these reports can, in itself, be a form of sanction as the findings of the investigations are put into the public domain. Nonetheless the main aim of publication is to enable other charities to better understand the work we do and to learn general lessons from the way we have dealt with particular cases. Copies of both these types of reports, if they are less than six months old, are available on the Commission's website. Older reports are available by request. If you would like a copy of any of the reports which contain issues relating to political activity we are happy to provide these to you.

In terms of more formal sanctions, in most cases issues have been resolved through providing supervision, regulatory advice and guidance to trustees without the need to intervene by using our statutory powers. However, there has been one occasion in the last three years when we have used our statutory powers to ensure compliance in this area. We used section 19A of the Charities Act 1993 (introduced by section 20 of the Charities Act 2006) to direct the charity to carry out a governance review.

In general, it would be unusual in this type of case for the Commission to need to use the interventionist and remedial measures which are available only in statutory inquiries, such as the freezing of bank accounts, the suspension and removal of trustees, or the appointment of interim managers.

I hope this is helpful. If you have any further questions please do not hesitate to get in touch.

Pay: Hertfordshire

Mike Penning: To ask the Minister for the Cabinet Office (1) what the average annual earnings of people of working age was in *(a)* Hemel Hempstead constituency, *(b)* Dacorum and *(c)* Hertfordshire in each year since 1997; [287858]

(2) what the rate of average earnings growth was in *(a)* Hemel Hempstead constituency, *(b)* Dacorum and *(c)* Hertfordshire in each year since 1997. [287859]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions asking what the average earnings of people of working age was in (a) Hemel Hempstead constituency, (b) Dacorum and (c) Hertfordshire in each year since 1997 (287858) and what the rate of average earnings growth was in (a) Hemel Hempstead constituency, (b) Dacorum and (c) Hertfordshire in each year since 1997. (287859)

Average levels of earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for all employees on adult rates of pay whose pay for the survey period was not affected by absence.

ONS's primary indicator of average earnings growth is the Average Earnings Index. As this does not produce regional estimates, the ASHE has been used. The ASHE, carried out in April each year, is the most comprehensive source of earnings information in the United Kingdom. It is a sample of all employees who are members of pay-as-you-earn (PA YE) schemes.

The sample sizes for more detailed geographies can be small and this affects the quality of the resulting estimates, which are subject to a margin of uncertainty.

Estimates for people of working age would only be available at disproportionate cost, but we have provided median gross weekly earnings estimates and annual percentage changes for the specified geographies for full-time and part-time employees.

Notes:
[a] Employees on adult rates whose pay for the survey pay-period was not affected by absence.
[b] 2004 results excluding supplementary survey for comparison with 2003
[c] 2004 results including supplementary surveys designed to improve coverage of the survey (for more information see National Statistics website www.statistics.gov.uk).
[d] 2006 results with methodology consistent with 2005
[e] 2006 results with methodology consistent with 2007
Guide to quality:
The Coefficient of Variation (CV) indicates the quality of a figure, the smaller the CV value the higher the quality. The true value is likely to lie within +/- twice the CV - for example, for an average of 200 with a CV of 5%, we would expect the population average to be within the range 180 to 220.
Key
CV <= 5%
* CV >5% and <=10%
** CV > 10% and <=20%
a CV > 20%

Annual Survey of Hours and Earnings (ASHE), Office for National Statistics 1997 - 2008

Personal Income: Wakefield

Jon Trickett: To ask the Minister for the Cabinet Office what the average wage for *(a)* full-time and *(b)* part-time (i) male and (ii) female employees is; and what the average household income of working age households was in the Wakefield local authority area in (A) 1997 and (B) 2008. [288664]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the average wage for *(a)* full-time and *(b)* part-time (i) male and (ii) female employees is; and what the average household income of working age households was in the Wakefield local authority area in (A) cash and (B) real terms in (1) 1997 and (2) 2008. (288664)

Average levels of earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for all employees on adult rates of pay whose pay for the survey period was not affected by absence. I attach a table showing the median gross weekly earnings for full-time, male full-time, female full-time, part-time, male part-time and female part-time employees for the Wakefield local authority area in years 1997 and 2008.

Information regarding the average household income of working age households is not available for the Wakefield local authority area.

Median gross weekly pay—for employee jobs[a]: Wakefield local authority, 1997 and 2008

£

Population Statistics

Mr. Clappison: To ask the Minister for the Cabinet Office what the most recent projections made by the Office for National Statistics are of population densities in *(a)* the UK, *(b)* England, *(c)* Scotland, *(d)* Wales and *(e)* Northern Ireland for (i) the earliest date for which such projections have been made (ii) 2031, (iii) 2056 and (iv) the most distant date for which such projections have been made; what estimate has been made of the population density of each such area in 2009; and what information the Office for National Statistics holds on the population density of other EU member states for the purposes of comparison with its projections for the UK. [288409]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your question asking what most recent projections made by the Office for National Statistics are of population densities in (a) the UK, (b) England, (c) Scotland, (d) Wales and (e) Northern Ireland for (i) the earliest date for which such projections have been made

(ii) 2031, (iii) 2056 and (iv) the latest date for which such projections have been made; what estimate has been made of the population density of each such area in 2009; what information the Office for National Statistics holds on the population density of other EU Member States for the purposes of comparison with its projections for the UK. (288409)

Projected population densities can be calculated for any year from the published projected total population for that year and the relevant land area. The estimated population density for mid-2006 and projected population densities derived from the 2006 population base are given in the table below for the years 2009, 2031, 2056, 2081 and 2106.

The next set of national population projections, based on the mid-2008 population estimates, are due for publication by the Office for National Statistics on 21 October 2009.

Projected population density of UK and constituent countries for selected years 2006 to 2106

Persons/sq km

	2006	*2009*	*2031*	*2056*	*2081*	*2106*
United Kingdom	250	255	293	324	352	379
England	390	398	464	521	574	626
Wales	143	145	159	165	168	171
Scotland	66	66	69	67	64	61
Northern Ireland	128	132	147	153	152	150

Note:
Population densities for 2006 are derived from mid-year population estimates, whilst those for 2009 onwards are derived from the 2006-based population projections. All densities have been calculated assuming constant land area for the UK and its constituent countries into the future.
Source:
Office for National Statistics, General Register Office for Scotland and Northern Ireland Statistics and Research Agency

National population projections are produced for up to 100 years ahead, but only published for up to 75 years ahead, and are available from the National Statistics website at:

http://www.statistics.gov.uk/statbase/Product.asp?vlnk=8519

However, long-term projections should be treated with great caution. Population projections become increasingly uncertain the further they are carried forward, particularly for smaller geographic areas.

Eurostat publishes estimates of population densities for all EU countries up to 2007—see table tps0003 under main demographic indicators at:

http://epp.eurostat.ec.europa.eu/portal/page/portal/population/data/main_tables

Public Bodies

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer of 5 May 2009, *Official Report*, columns 93-99W, on public bodies, which of the bodies classified as public corporations in *(a)* 1996 and *(b)* 2008 were deemed to be part of the Civil Service. [287279]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, July 2009:

As National Statistician I have been asked to reply to your recent Parliamentary Question pursuant to the Answer of 5 May 2009, Official Report, columns 93-99W, on public bodies, which of the bodies classified as public corporations in (a) 1996 and (b) 2008 were deemed to be part of the Civil Service. (287279)

The requested information is attached at Annex A. The list for 1996 comprises public corporations not included in the Answer of 5 May 2009, as further information has recently become available.

Annex A

Public Corporations deemed to be part of the Civil Service in 1996

1. Central Office of Information;
2. Companies House;
3. Driving Standards Agency;
4. Fire Service College;
5. Land Registry;
6. Meteorological Office;
7. Patent Office;
8. Registers of Scotland;
9. Royal Mint;
10. UK Hydrographic Office.

Public Corporations deemed to be part of the Civil Service in 2008

1. Central Office of Information;
2. Companies House;
3. Defence, Science and Technology Laboratory;
4. Defence Support Group;
5. Driving Standards Agency;
6. Export Credit Guarantee Department;
7. Fire Service College;
8. Land Registry;
9. Medical and Healthcare Products Regulatory Agency;
10. Meteorological Office;
11. OGC Buying Solutions;
12. Ordnance Survey;
13. Registers of Scotland;
14. Royal Mint;
15. The Queen Elizabeth II Conference Centre;
16. UK Hydrographic Office;
17. UK Intellectual Property Office; previously the Patent Office;
18. Vehicle and Operator Services Agency.

Trade Unions

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer of 20 May 2009, *Official Report*, column 1479W, on trades union, what checks are undertaken by the Cabinet Office on whether office working space provided to trade union representatives is used for political activities. [287281]

Angela E. Smith: I refer the right hon. Member to the answer given on 20 May 2009, *Official Report*, column 1479W.

Ulcers: Death

Mr. Burstow: To ask the Minister for the Cabinet Office how many deaths there were in respect of which pressure ulcers were listed on the death certificate as a contributory cause of death in each region in each of the last five years. [287683]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent question asking how many deaths there were where pressure ulcers were listed on the death certificate as a contributory cause of death in each region in each of the last five years. (287683)

The attached table provides the number of deaths where pressure ulcer was mentioned anywhere on the death certificate, for government office regions in England, for 2004 to 2008 (the latest year available).

Table 1: Number of deaths with any mention of pressure ulcer on the death certificate[1], Government office regions[2], England, 2004-08[3,4]

Deaths (persons)

Region	2004	2005	2006	2007	2008
North East	50	68	51	71	44
North West	138	160	139	143	160
Yorkshire and the Humber	69	79	78	69	64
East Midlands	75	85	74	95	86
West Midlands	127	141	122	125	107
East of England	122	122	128	136	102
London	103	114	142	140	126
South East	132	137	133	148	155
South West	59	75	68	69	73
England	875	981	935	996	917

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10) code L89 (Decubitus ulcer, bedsore, plaster ulcer or pressure ulcer) where it appeared anywhere on the death certificate.
[2] Based on boundaries as of 2009.
[3] Figures are for deaths registered in each calendar year.
[4] Figures for deaths registered in 2008 are provisional.

Unemployment

Mrs. May: To ask the Minister for the Cabinet Office (1) what information her Department holds on the number of people who were *(a)* unemployed and *(b)* long-term unemployed between (i) 1980 and 1985 and (ii) 1990 and 1995, by (A) qualification and (B) previous occupation; [286748]

(2) how many people were *(a)* unemployed and *(b)* long-term unemployed in each year between (i) 1980 and 1985 and (ii) 1990 and 1995, by (A) qualification and (B) previous occupation. [286749]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Questions asking:

what information her Department hold on the number of people who were (a) unemployed and (b) long-term unemployed between (i) 1980-1985 and (ii) 1990-1995, by (A) qualification and (B) occupation. (286747)

what information her Department holds on the number of people who were (a) unemployed and (b) long-term unemployed between (i) 1980-1985 and (ii) 1990-1995, by (A) qualification and (B) previous occupation. (286748)

how many people were (a) unemployed and (b) long-term unemployed in each year between (i) 1980-85 and (ii) 1990-95, by (A) qualification and (B) occupation. (286749)

Estimates on the number of people who were unemployed by qualification are not available for 1980 to 1985 and 1990 to 1995. Estimates for unemployed people by occupation in last job are available for 1992 to 1995 and are provided in the attached table. The estimates are derived from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty. This is assessed in a footnote to the table.

The figures in the table are derived from the LFS microdata which are weighted using the official population estimates published in autumn 2007. They are not entirely consistent with the figures published in the monthly Labour Market Statistics Statistical Bulletin, which are weighted using more up-to-date population estimates.

Unemployed people aged 16 and over by occupation in last job and duration of unemployment, three month periods ending September, 1992-95, Great Britain, 1992-94; United Kingdom, 1995, not seasonally adjusted

Thousand

	Occupation in last job[1]	Unemployed[2]	Long-term unemployed[3]
1992	Managers and senior officials	195	63
	Professional occupations	79	18
	Associate professional and technical	123	37
	Administrative and technical	288	91
	Skilled trades occupations	491	194
	Personal service occupations	204	65
	Sales and customer service occupations	185	54
	Process, plant and machine operatives	328	129
	Elementary occupations	358	166
	Total[4]	2,808	1,039
1993	Managers and senior officials	204	84
	Professional occupations	93	28
	Associate professional and technical	132	37
	Administrative and technical	297	101
	Skilled trades occupations	497	239
	Personal service occupations	213	79
	Sales and customer service occupations	196	68
	Process, plant and machine operatives	350	160
	Elementary occupations	339	159
	Total[4]	2,887	1,205
1994	Managers and senior officials	182	75
	Professional occupations	87	25
	Associate professional and technical	121	41
	Administrative and technical	249	93
	Skilled trades occupations	386	192
	Personal service occupations	207	78
	Sales and customer service occupations	171	58
	Process, plant and machine operatives	305	146

Unemployed people aged 16 and over by occupation in last job and duration of unemployment, three month periods ending September, 1992-95, Great Britain, 1992-94; United Kingdom, 1995, not seasonally adjusted

	Occupation in last job[1]	*Unemployed*[2]	*Thousand* *Long-term unemployed*[3]
	Elementary occupations	341	170
	Total[4]	2,644	1,123
1995[5]	Managers and senior officials	165	68
	Professional occupations	86	28
	Associate professional and technical	109	37
	Administrative and technical	251	79
	Skilled trades occupations	332	171
	Personal service occupations	197	72
	Sales and customer service occupations	183	56
	Process, plant and machine operatives	310	151
	Elementary occupations	303	132
	Total[4]	2,535	1,028

[1] Standard Occupational Classification 1990.
[2] Includes those whose duration of unemployment was not known.
[3] Includes those unemployed for 12 months or more.
[4] Includes those whose occupation was not known.
[5] Coefficients of Variation have been calculated for the latest period as an indication of the quality of the estimates, as described below:
Guide to Quality:
The Coefficient of Variation (CV) indicates the quality of an estimate, the smaller the CV value the higher the quality. The true value is likely to lie within +/- twice the CV - for example, for an estimate of 200 with a CV of 5% we would expect the population total to be within the range 180-220.
Key Coefficient of Variation (CV) (%) Statistical Robustness
* 0 ≤ CV<5 Estimates are considered precise
** 5 ≤ CV <10 Estimates are considered reasonably precise
*** 10 ≤ CV <20 Estimates are considered acceptable
**** CV ≥ 20 Estimates are considered too unreliable for practical purposes
It should be noted that the above estimates exclude people in most types of communal establishment (e.g. hotels, boarding houses, hostels mobile home sites etc.)

JUSTICE

Aylesbury Prison: Injuries

Dr. Vis: To ask the Secretary of State for Justice how many incidents of self-injury have been recorded in Aylesbury prison in each month since January 2009; and how many such injuries have required hospital treatment. [286788]

Maria Eagle: The latest recorded self-harm figures available are for 2008. NOMS records data across a diverse range of incident types. These data are subject to reporting lags and other issues inherent in any large scale administrative database. Therefore NOMS policy is not to provide current year-to-date figures.

In 2008, there were 265 incidents of self-harm at HMYOI Aylesbury. Of these incidents, six required treatment in external hospital. These figures are given in aggregate form only. NOMS also has a policy not to provide breakdowns of data, particularly of prison-level data, to the extent where the anonymity of individuals may be compromised.

The National Offender Management Service has a broad integrated and evidence-based prisoner suicide prevention and self harm management strategy that seeks to reduce the distress of all those in prison. This encompasses a wide spectrum of prison and Department of Health work around such issues as mental health, substance misuse and resettlement. Any prisoner identified as at risk of suicide or self-harm is cared for using the assessment, care in custody and teamwork (ACCT) procedures. Most self harm is not directly life threatening, but nevertheless can be extremely distressing for those who have to deal with it. A prisoner focussed care planning system for those at risk has helped prisons manage self harm. There are no easy answers to managing self harming behaviour but we remain committed to finding ways to manage it.

Bail Accommodation and Support Service

Mr. Grieve: To ask the Secretary of State for Justice in which parliamentary constituency each Bail Accommodation and Support Service property *(a)* opened and *(b)* closed since 12 January 2009 is located. [286829]

Mr. Straw: As at 10 July there have been 28 bail accommodation and support service properties opened and 10 properties closed since 12 January 2009.

(a) Bail accommodation and support service properties opened since 12 January 2009

Constituency	*Date opened*
Bedford	14 January 2009
Southampton Test	16 January 2009
Southend West	20 January 2009
Rochford and Southend East	20 January 2009
Ipswich	29 January 2009
Luton South	4 February 2009
Reading West	9 February 2009
Portsmouth South	9 February 2009
Hazel Grove	12 February 2009
Poplar and Canning Town	16 February 2009
North East Milton Keynes	16 February 2009
Erith and Thamesmead	26 February 2009
Bracknell	19 March 2009
Nottingham South	20 March 2009
Cardiff South and Penarth	20 March 2009
Folkestone and Hythe	27 March 2009
Slough	30 March 2009
North Thanet	30 March 2009
Stretford and Urmston	8 April 2009
Newport East	9 April 2009
Cardiff West	21 April 2009
Northampton North	30 April 2009
Slough	2 June 2009
Swansea East	17 June 2009
Carlisle	23 June 2009
Carlisle	23 June 2009
Worcester	24 June 2009
Truro and St. Austell	8 July 2009

(b) Bail accommodation and support service properties closed since 12 January 2009

Constituency	Date opened	Date closed
Lewisham East	20 September 2007	28 February 2009
Reading East	31 August 2007	12 March 2009
Portsmouth South	27 June 2007	15 March 2009
Luton North	28 September 2007	19 March 2009
Cardiff West	2 February 2007	24 April 2009
Lewisham East	30 March 2009	13 May 2009
Newport West	29 August 2007	20 May 2009
Swansea East	8 July 2008	7 June 2009
Northampton North	25 October 2007	12 June 2009
Nottingham East	11 October 2007	13 June 2009

Damian McBride

Mr. Maude: To ask the Secretary of State for Justice on what date he last met Mr. Damian McBride in the course of his official duties. [287398]

Mr. Straw: We can find no record of any meeting with Mr. McBride connected with my official duties.

Departmental Data Protection

Jenny Willott: To ask the Secretary of State for Justice how many *(a)* attempts and *(b)* successful attempts were made to gain unauthorised access to each (i) database and (ii) ICT system run by his Department in each of the last five years; and if he will make a statement. [286543]

Mr. Straw: The Ministry of Justice was established in May 2007. The Ministry has robust security measures in place to protect the information held on its computer systems. One unsuccessful attempt was made to gain unauthorised access to the Money Claim On Line System in 2008. The integrity of the system and information held on it was not compromised.

Departmental Databases

Mr. Watson: To ask the Secretary of State for Justice what information databases his Department *(a)* maintain and *(b)* uses which do not contain personal information. [284389]

Jenny Willott: To ask the Secretary of State for Justice which databases managed by his Department and its agencies hold personal information on members of the public; on what date each such database become operational; and if he will make a statement. [284903]

Mr. Straw: The Ministry of Justice maintains a large number of major databases covering different aspects of the justice system, as well as smaller database systems which support local business areas.

The main databases, which are maintained centrally, are as follows:

CaseMan
FamilyMan
e-Diary
Money Claim On Line
Crest
Juror
Juror Summoning Bureau
eXchanging Hearing Information By Internet Technology
ProbateMan
ARIA (Asylum and Immigration system)
Service Upgrade Project (pilot)
Funds Accounting System
Receivership Accounting System
Special Educational Needs and Disability Tribunal system
Generic Appeals Processing System 2
Mental Health Tribunal
ETHOS (Employment Tribunal system)
CLAIMS (Criminal Injuries and Compensation Panel system)
MERIS (Office of the Public Guardian system)
ORACLE financials (General Ledger, Supplier database, Accounts Payable, Accounts Receivable, Fixed Assets)
Local Fees database
CHRIMSON (HR system)
Occupational Health, Counselling and Screening Services
Business Management System
Magistrates Courts databases
Libra application
Trust Accounting and Banking System
BACCHUS (Bankruptcy case management system)
Centralised Attachment of Earnings
County Court Bulk Centre
Commercial Court
Electronic Records Management
Judicial Database
Management Information System
Tax Tribunal Remuneration
Decree Absolute System
Parental Responsibility
Supreme Court Costs Office System
Wardship System
Crown Office Information Network System
Life Imprisonment Minimum Term
Payment of Legal Aid Remuneration
Case Recording System
RECAP (Civil Appeals Case Management)
CASREC (Public Guardian Office Case Recording)
CACTUS (Criminal Appeals Case Recording)
LIDS (Local Inmate Database System)
IIS (Inmate Information System)
P-NOMIS
OASYS
SIS (Security Intelligence System)
Phoenix
National Intelligence Unit
APVU (Assisted Prison Visitors Unit)
Prisoner Location Service
Pin Phone
PSIMON
Lifers Service
Branston Staff Files
Branston IRMS Service
ROWD MIS
Construction Unit Service
E&SS Textile Service
DGCU Service

Accommodation and Occupancy
Registered Intermediaries database
Court Appearance Database
PROGRESS
XHIBIT Portal
CJS Exchange Links
CJ MIS
FOI database
Sharepoint
Mandatory Drugs Testing Database
Accommodation and Occupancy Database
4Projects Database
Delius
ICMS Case Management System
CRAM Case Management System
IAPS
HR Data warehouse

Most of the databases contain some personal information.

The Ministry is committed to ensuring the confidentiality, integrity and security (in accordance with HMG policy) of personal information held within the Department's systems. Because of the potential security threat, it would not be appropriate to disclose the detailed information requested.

Jenny Willott: To ask the Secretary of State for Justice (1) what categories of personal information about members of the public are contained on each relevant database managed by his Department and its agencies; on what date each category of information was first collected; and if he will make a statement; [285974]

(2) what categories of personal information on members of the public will be held on each database expected to become operational in the next five years and which will be managed by his Department or one of its agencies; what estimate he has made of the likely number of individuals' details each such database will hold when fully operational; and if he will make a statement; [286150]

(3) what databases which will be managed by his Department or one of its agencies and which will contain personal information are *(a)* under construction and *(b)* expected to go live in each of the next five years; and if he will make a statement. [286506]

Mr. Straw: Ministry of Justice maintains 82 major databases which support different aspects of the justice system. These databases are of varying size and complexity and cover a wide range of activities, for example, enabling processing and tracking of cases through the court system, scheduling appointments, and tracking systems for monitoring departmental correspondence. Any personal data stored on databases are subject to the Data Protection Act.

Following publication of the cross Government Data Handling Review in June 2008, new projects and programmes that hold significant amounts of personal data are obliged to conduct privacy impact assessments.

Detailed information relating to individual databases is held within individual projects and business areas and not available centrally. This information could be compiled only at disproportionate cost.

Drugs

Chris Huhne: To ask the Secretary of State for Justice how much *(a)* his Department and *(b)* its agencies spent on the implementation of drugs policies in each category in each of the last 10 years. [286734]

Maria Eagle: The Ministry of Justice delivers a broad range of work in relation to drugs, primarily through the National Offender Management Service (NOMS).

Most of the expenditure for this work is part of prison and probation services general funding and therefore, it is not possible to accurately disaggregate the costs. NOMS is currently undertaking a specification, benchmarking and costing exercise which will provide more accurate costing of the interventions delivered.

Elections Bill

Mr. Maude: To ask the Secretary of State for Justice what assessment has been made of whether the new provisions in the Political Parties and Elections Bill on non-resident donors are compatible with *(a)* European Union law and *(b)* the European Convention on Human Rights. [288090]

Mr. Straw: When legislating, the Government are always mindful of the requirements of EU law and the rights enshrined in the European Convention on Human Rights. Having considered those requirements, as we are obliged to do, the Government are satisfied that the provisions of the Political Parties and Elections Bill are compatible with all relevant rights and freedoms.

Elections: Campaigns

Mr. Maude: To ask the Secretary of State for Justice whether candidate freepost election mailings in European and Parliamentary elections are delivered to households who have registered with the Mailing Preference Service a desire not to receive unsolicited mailings. [287349]

Mr. Wills: Candidate freepost election mailings can be delivered to all households for European and Parliamentary elections. Registering with the Mailing Preference Service does not apply to election mailings. This provides for a level playing field for all candidates and ensures that those standing for election have an opportunity to make their policies known to the electorate.

Electorate

Mr. Maude: To ask the Secretary of State for Justice what estimate he has made of the proportion of *(a)* armed forces personnel and *(b)* members of the public who are registered to vote. [287358]

Mr. Wills: No assessment has been made of the proportion of *(a)* armed forces personnel and *(b)* members of the public who are registered to vote. This is because the Office for National Statistics (ONS) does not have information on the proportion of the public who are registered to vote, as not everyone who is usually resident is entitled to vote. The total number of full-time armed forces personnel at 1 May 2009 was 194,280.

ONS figures reveal that as of 1 December 2008 the number of armed forces personnel who registered by way of a service declaration was 21,928. Not all armed forces electors, however, register as service voters. They may either register as an ordinary elector, an overseas elector or a service elector. The Ministry of Defence Service Voting Survey 2008 indicates that 75 per cent. of respondents were registered as ordinary voters.

The Government are keen to support armed forces personnel in registering to vote. In order to increase service registration rates, the Government have recently announced that we will increase the service voter declaration period from three years to five years, which we hope will encourage more service personnel to register. We aim to bring forward this change in secondary legislation as soon as possible.

The statistics for the proportion of members of the public registered are similarly difficult to calculate because ONS figures on total population do not show whether those people are eligible electors. ONS reports that the total number of local government electors registered in the UK on 1 December 2008 stood at 46,147,877.

Firearms: Sentencing

Chris Huhne: To ask the Secretary of State for Justice how many and what percentage of people in each age group who were convicted of carrying an illegal firearm under the Criminal Justice Act 2003 received the mandatory sentence provided for by that Act in each of the last five years; and what the average length of sentence was of those convicted of carrying an illegal firearm under the Criminal Justice Act 2003 in each of the last four years. [285759]

Mr. Straw: The requested information is found in the following table.

Persons sentenced for firearms offences liable for mandatory minimum custodial sentence as prescribed by the Criminal Justice Act 2003[1]

		2003	*2004*	*2005*	*2006*	*2007*
Juveniles[5]	Total sentenced	69	60	36	17	16
	Immediate custody	10	12	9	8	7
	Received mandatory minimum[3] at least three years	n/a[2]	n/a[2]	4	5	2
	Percentage of offenders sentenced receiving mandatory minimum	n/a	n/a	11.1	29.4	12.5
	ACSL[4]	11.2	22.7	26.0	29.8	30.6
Young adults	Total sentenced	121	122	59	46	40
	Immediate custody	23	35	34	31	32
	Received mandatory minimum—at least three years[6]	n/a[2]	n/a[2]	7	14	15
	Received mandatory minimum—at least five years[6]	n/a[2]	n/a[2]	18	10	9
	Percentage of offenders sentenced receiving mandatory minimum	n/a	n/a	42.4	52.2	60.0
	ACSL[4]	18.6	39.5	45.5	43.6	42.1
Adults	Total sentenced	713	565	294	220	208
	Immediate custody	183	206	199	173	171
	Received mandatory minimum[7]—at least five years	n/a[2]	n/a[2]	124	126	132
	Percentage of offenders sentenced receiving mandatory minimum	n/a	n/a	42.2	57.3	63.5
	ACSL[4]	29.3	35.3	48.6	54.0	56.3

[1] Offences under Firearms Act 1968 of: Possessing or distributing prohibited weapons or ammunition, or Possessing or distributing firearm disguised as other object.
[2] The mandatory is only applicable for offences that occurred on or after 26 January 2004.
[3] Mandatory minimum for persons aged under 18 at time of offence and for offences taking place after 26 January 2004 is three years.
[4] Average custodial sentence length (months) excludes life and indeterminate sentences.
[5] Not all of those in this age bracket would have been eligible for the mandatory minimum as they may have been under 16 at the time of the offence.
[6] Mandatory minimum is dependant on age at the time of the offence data held by the Ministry of Justice only shows age at time of sentence so offenders in this age group could have been liable for three or five years, offenders have not been double counted.
[7] Mandatory minimum for persons aged over 18 at time of offence and for offences taking place after 26 January 2004 is five years.
Notes:
These figures have been drawn from administrative data systems.
Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.
Source:
OMS Analytical Services, Ministry of Justice.
Ref: PQ(OMSAS) 722 (8/07/2009).

These figures may also be found in the answer given to Dominic Grieve on 18 December 2008, *Official Report*, column 1014W. Data for 2008 will not be available until 'Sentencing Statistics 2008' is published later in the year.

The Criminal Justice Act 2003 prescribed mandatory minimum custodial sentences for the offences of: Possessing or distributing prohibited firearms or ammunition and Possessing or distributing firearm disguised as other object where the offences were committed on or after 26 January 2004.

The minimum sentence it set was three years where the offender was aged between 16 and 18 at the time of the offence and five years for offenders aged over 18 at the time of the offence.

Data held by the Ministry of Justice cannot determine the date the offence took place or the age of the offender at the time of the offence rather it is the date the sentence was passed and the age of the offender at the time of sentencing that is held.

Data provided in this answer shows all offenders given the mandatory minimum from 2005-07, while all offenders sentenced in 2005 may not have been eligible for the mandatory minimum it is not possible to separately identify those cases that occurred prior to 26 January 2004.

Those offenders in the juvenile (10-17 years old) age band are all assumed to be eligible for the three year mandatory minimum, similarly those in the adult age band (21+) are all assumed to be eligible for the five year mandatory minimum, those offenders in the young adult age band (18-20) could potentially have been eligible for either minimum sentence so the numbers given between three and five years and over five years have been shown separately.

Freedom of Information

Mr. Dai Davies: To ask the Secretary of State for Justice what representations he has received on the time taken by the Information Commissioner's office to investigate complaints relating to refusals by bodies to provide information requested by applicants under the Freedom of Information Act 2000. [286816]

Mr. Wills: I have received correspondence from members of the public and from hon. and right hon. Members on this matter. I have also responded to Parliamentary Questions on this subject. In addition, the Justice and Constitution Select Committees have commented on the timeliness of the Information Commissioner's Office's handling of freedom of information cases.

For this financial year, the Government have identified additional funding of £500,000 for the Information Commissioner's Office's freedom of information work, over and above the baseline funding of £5 million. We are discussing with the Office how it can use this additional funding most effectively to reduce the number of outstanding cases. In addition, seven secondees from central government departments are working for the ICO to help clear the freedom of information cases at their home departments' expense.

Mrs. Laing: To ask the Secretary of State for Justice which organisations have responded to his Department's consultation on extending the Freedom of Information Act 2000 to cover additional bodies. [287189]

Mr. Wills: On 16 July, the Government published their response to the consultation on extending the Freedom of Information Act 2000 to cover additional bodies through a section 5 order. Copies have been made available in the Libraries of both Houses, the Vote Office and Printed Paper Office and on the Ministry of Justice website. Annex B of the report lists all of the respondents to the consultation.

HM Courts Service: Pay

Bob Spink: To ask the Secretary of State for Justice how much was paid in bonuses to *(a)* directors, *(b)* senior managers, *(c)* specialist and delivery managers and *(d)* executive support and administration staff in HM Courts Service in each of the last five years. [280673]

Mr. Straw: Non-consolidated performance payments are available for all staff in Her Majesty's Court Service (HMCS), as they are for all staff across the Ministry of Justice.

HMCS was created on the 1 April 2005 and the first reporting year ended on 31 March 2006. Non-consolidated performance payments are paid following the conclusion of the reporting year and the first non-consolidated performance payments for staff in HMCS were paid in the financial year 2006-07.

HMCS does not categorise its staff as asked in the question and to extract the data from Ministry of Justice records in relation to HMCS staff below the Senior Civil Service would involve disproportionate cost.

We have included all Senior Civil Servants within HMCS in providing the answer for the category 'Directors'. The figures for the last three years are as set out in the table:

		£
2006-07	Senior Civil Servants	358,250
2007-08	Senior Civil Servants	389,000
2008-09	Senior Civil Servants	345,500

Homicide: Rape

Mr. Garnier: To ask the Secretary of State for Justice how many *(a)* murders and *(b)* rapes were committed by offenders subject to Multi-Agency Public Protection Arrangements (MAPPA) in each of the last five years for which figures are available, broken down by MAPPA level. [287887]

Mr. Straw: The following table shows the total number of offenders living in the community in England and Wales who were charged during the period in question with a serious further offence (SFO) allegedly committed by them at a time when their management was overseen via multi-agency public protection arrangements (MAPPA) meetings. This will include all charges of *(a)* murder and *(b)* rape but also those for other serious sexual and violent offences. The data is aggregated from the MAPPA annual reports produced in each of the 42 areas of England and Wales and it is not possible, except at disproportionate cost, to identify retrospectively which relate to murder and rape charges only.

The table relates to those offenders managed at MAPPA levels 2 and 3 at the point of charge. Offenders at level 1 are those who are eligible for MAPPA meeting oversight but whose risk management plan does not currently require it; offenders move between levels depending on the requirements of the risk management plan.

Over the years in question, between 0.4 per cent. and 0.6 per cent. of offenders subject to active multi-agency management have been charged with serious further offences.

England and Wales	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Total MAPPA managed offenders (i.e. level 2 and 3)	[1]2,152	12,766	13,688	15,291	12,806
SFOs at level 2	n/a	47	50	69	72
SFOs at level 3	26	32	12	13	7

[1] Reflects only level 3 total. Data at level 2 not collected.

Judicial Appointments Commission: Newspaper Press

Mrs. Laing: To ask the Secretary of State for Justice how many newspaper advertisements the Judicial Appointments Commission placed in the last 12 months; and at what cost. [287186]

Mr. Straw: In the 12 month period from 1 July 2008 to 30 June 2009, the judicial appointments commission placed 35 newspaper advertisements which cost £81,674.57 excluding VAT.

Judiciary: Pensions

Mr. Grieve: To ask the Secretary of State for Justice what estimate he has made of the cost of the Judicial Pensions Scheme in each of the next 10 years. [287129]

Mr. Straw: No estimate of costs over that period have been made. Forecasts of actual costs of pension benefits payable and lump sums based on current assumptions of inflation and salary costs for the next five years are shown in the following table.

	Salary costs (£)
2009-10	75,685,000
2010-11	76,028,000
2011-12	77,928,000
2012-13	80,829,000
2013-14	83,445,000

Forecasts of costings on an accruals basis are only available for the next two years and are shown in the following table.

	Forecast of costings (£)	
	Current service cost	*Interest cost*
2009-10	108,000,000	110,000,000
2010-11	111,000,000	119,000,000

To obtain figures for further years would require assessments to be made on assumptions and calculations made by the scheme actuary and the costs to do so would be disproportionate.

Legal Aid

Mr. Grieve: To ask the Secretary of State for Justice how many legal aid awards were made available to defendants with incomes of over *(a)* £50,000 and *(b)* £100,000 per annum in the last year for which figures are available. [285300]

Mr. Straw: In 2008-09, two defendants in the magistrates courts with earnings over £50,000 and one defendant with earnings over £100,000 were awarded legal aid. All three were awarded under hardship review which provides a safety net for those with high incomes who are genuinely unable to pay their defence costs. In most circumstances applicants with an income in excess of £22,325 will not be granted legal aid in the magistrates courts.

The Legal Services Commission is unable to answer the question in respect of defendants in the Crown court. In the Crown court, provided applicants pass the Interests of Justice test, they are currently entitled to legal aid regardless of income, and since no income test is applied to applicants, it is not known how many applicants (defendants) have incomes in excess of £50,000 or £100,000. However, we will be introducing means testing in Crown courts from January 2010 and rolling it out across England and Wales by June 2010.

No awards have been made to applicants in civil proceedings as there is a gross income cap of £31,884.

Legal Services Commission: Finance

Mr. Grieve: To ask the Secretary of State for Justice with reference to page 78 of the Legal Services Commission's Annual Report 2008-09, what the expenditure was which was reported as miscellaneous; and if he will make a statement. [286909]

Mr. Straw: The Legal Services Commission's annual report for 2008-09 has not yet been laid before Parliament.

In 2007-08, the miscellaneous expenditure reported on page 78 of the annual report was £460,000. The vast majority of this (£457,000) related to an exercise carried out to catch up on certain payments to solicitors which should have been made but had not. These payments were against costs orders, awarded by the judge at the end of a case, which included costs incurred prior to the grant of legal aid. These costs are only payable when recovered from the opponent of the legally aided person.

Offensive Weapons: Convictions

Chris Huhne: To ask the Secretary of State for Justice how many and what percentage of people aged *(a)* under 16, *(b)* between 16 and 18 and *(c)* over 18 years old who were convicted of possession of a knife in 2007 received a fine; and what the (i) average, (ii) smallest and (iii) largest such fine was in that year. [285760]

Mr. Straw: The requested information is shown in the following tables.

Table 1: Offences involving the possession of a knife or offensive weapon resulting in a fine[1,2] by offender age group, England and Wales, 2007

Age band	*Number of offences receiving a fine*	*Total number of offences receiving a caution or a sentence*	*Percentage offences receiving a fine*
10 to 15 year olds	9	3,128	*
16 and 17	56	3,860	1
18 and over[3]	1,187	21,350	6

[1] As recorded by the police on the police national computer.
[2] The figures are a count of offences rather than offenders. Where an offender has been sentenced for several possession offences each sentence has been counted.
[3] Adults are classed as offenders aged 18 and over, juveniles are those aged 10-17.
* Indicates that one or more of the comparative numbers are less than 50. For small numbers this could give misleading percentage changes.

Table 2: Minimum, maximum and average fine amounts[1] for the possession of a knife or offensive weapon, England and Wales, 2007

	£
Minimum fine amount	10
Maximum fine amount	2,000
Average[2] fine amount	156

[1] As recorded by the police on the police national computer.
[2] There were six offences that were given a fine but without a recorded fine amount, these were removed from the average.

These figures have been drawn from the police's administrative IT system, the police national computer (PNC), which, as with any large scale recording system, is subject to possible errors with data entry and processing. The figures are provisional and subject to change as more information is recorded by the police.

PNC data have been used here rather than court data, which is the usual source of published sentencing statistics. The PNC data provide more up to date figures ahead of the finalised annual court data and was used for the Ministry of Justice's publication 'Knife Crime Sentencing: Quarterly Brief' published on 12 March 2009 and available from:

http://www.justice.gov.uk/publications/knife-crime-sentencing.htm

Operation Safeguard: Billing

Jenny Willott: To ask the Secretary of State for Justice how much his Department has been invoiced by each police force in respect of costs incurred under Operation Safeguard in each month of 2009; and if he will make a statement. [286490]

Mr. Straw: Police cells have not been used since 22 September 2008 and no police cells have been on stand by since the end of October 2008.

Political Parties

Mr. Maude: To ask the Secretary of State for Justice whether an impact assessment, including a small firms impact assessment, will be made in relation to the new provisions in the Political Parties and Elections Bill on non-resident donors. [288088]

Mr. Straw: Impact assessments for all substantive provisions in the Political Parties and Elections Bill, including the new provisions requiring a declaration as to taxation status of individual donors, will be published at Royal Assent. The new provisions relating to taxation status relate only to donations made by individuals and do not impose or reduce costs on business. There is thus no requirement for a small firms impact assessment to be conducted in relation to these provisions.

Mr. Maude: To ask the Secretary of State for Justice what his timetable is for consultation with other political parties on the scope for further amendments to the provisions in the Political Parties and Elections Bill on non-resident donors. [288091]

Mr. Straw: The Government have circulated revised versions of the amendments to the taxation status provisions in the Political Parties and Elections Bill to Opposition spokespeople and others with an interest ahead of further parliamentary consideration.

Mr. Maude: To ask the Secretary of State for Justice whether the provisions of the Political Parties and Elections Bill on non-resident donors will place restrictions on overseas residents campaigning in UK elections. [288092]

Mr. Straw: The amendments tabled by the Government to the Political Parties and Elections Bill on taxation status will restrict donations above £7,500 in a calendar year from an individual who is not resident, ordinarily resident and domiciled in the United Kingdom for income tax purposes.

Section 52(1)(g) of the Political Parties, Elections and Referendums Act 2000 states that

"the provision by any individual of his own services which he provides voluntarily in his own time and free of charge"

should not be regarded as a donation. Therefore a non-resident individual who campaigns on behalf of a party voluntarily, in his own free time and free of charge would not be required to be resident, ordinarily resident and domiciled in the United Kingdom for income tax purposes.

Section 50(2)(f) of the 2000 Act states that

"the provision otherwise than on commercial terms of any property, services or facilities for the use or benefit of the party (including the services of any person)"

should be regarded as a donation.

Political Parties: Finance

Mr. Maude: To ask the Secretary of State for Justice what estimate his Department has made of the cost to the public purse of implementing the recommendation on introducing tax relief for small donations to political parties made in the Sixth Report of the Committee for Standards in Public Life. [287353]

Mr. Wills: The Fifth Report of the Committee on Standards in Public Life (CSPL), entitled "The Funding of Political Parties in the United Kingdom", recommended that tax relief should be introduced on donations to political parties, capped at a level of £500 per donor per year.

The Government's response to the CSPL's Fifth Report said

"Tax relief would amount to general state aid by another route. A tax-relief scheme would be expensive for the Inland Revenue and political parties to administer relative to the likely level of take-up. Furthermore, the Government has to balance the loss of revenue (likely to be upwards of £4 or £5 million a year against other spending priorities."

(The funding of political parties in the United Kingdom: The Government's proposals for legislation in response to the Fifth Report of the Committee on Standards in Public Life, page 33, paragraph 6.3).

The Government have not made any further estimate of the likely cost of introducing tax relief for small donations to political parties. Under the legislative framework set out in the Political Parties, Elections and Referendums Act 2000, recipients of donations are not required to record details of any donations received below the level of £200. It is therefore difficult to know with any accuracy how many such donations occur in a given year and thus what the cost of providing tax relief on such donations would be likely to be.

Prisoner Escapes

Chris Huhne: To ask the Secretary of State for Justice how many inmates who escaped from prison in each year since 1979 remain at large. [285791]

Mr. Straw: Escapes from prison have been falling for over a decade and 2008-09 saw the lowest level of prison escapes since centralised recording of these incidents

began. The data in the table show the number of prisoners who have escaped from prisons in England and Wales in each of the last 12 years and those who remain unlawfully at large. Figures on prisoners unlawfully at large following an escape are not available centrally before this period and could be obtained only at disproportionate cost.

Escapes of prisoners by year from prisons in England and Wales showing those remaining unlawfully at large

		Number
	Escaped prisoners	*Offender remaining at large*
1997-98	23	0
1998-99	28	2
1999-2000	30	1
2000-01	11	0
2001-02	15	0
2002-03	5	1
2003-04	10	1
2004-05	12	0
2005-06	3	0
2006-07	2	0
2007-08	4	1
2008-09	1	0

Notes:
1. There has not been an escape of a category A prisoner since 1995.
2. Figures on those unlawfully at large following an escape are not available centrally prior to 1997 and could not be provided without incurring disproportionate cost.
3. These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Figures on escapes and a range of other prison performance statistics are available at:

http://www.hmprisonservice.gov.uk/assets/documents/10004423prison_escapes_jan09.pdf

Prisoners

Jenny Willott: To ask the Secretary of State for Justice how many prisoners held in a cell designed for two people shared their cell with two or more other prisoners in each prison in *(a)* 2007-08 and *(b)* 2008-09; and if he will make a statement. [286488]

Maria Eagle: The figures requested are shown in the following table. Since 1997, the Government have increased prison capacity by over 24,000 places (not all of them new build). The Government increased capacity by over 3,300 places last year, aim to increase it by around 1,750 this year and are committed to increase net capacity to 96,000 by 2014.

[1] Excludes police cells.

The table is taken from table 6.6 in the Offender Management Caseload Statistics 2007, a copy of which can be found in the Libraries of the House and which can be found at the following website:

http://www.justice.gov.uk/publications/prisonandprobation.htm

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners: Drugs

Chris Huhne: To ask the Secretary of State for Justice how many people *(a)* of each sex and *(b)* in each age group admitted to prison have tested positive for illegal drugs on arrival in each of the last 10 years; and which drug or drugs they tested positive for. [286736]

Maria Eagle: Prisoners can be subject to mandatory and clinical drug tests on reception. Clinical drug test results are not held centrally and can be obtained only by surveying 138 establishments, which would be at disproportionate cost.

Not all prisons operate reception mandatory testing, and of those that do, not all are on new receptions into custody.

However, the number of positive samples by gender under the mandatory drug testing (MDT) programme on reception is given in the following table. It is not possible to provide figures by age group.

MDT conducted on reception

Number of positive samples for each drug

	Total number of positive samples	*Cannabis*	*Opiates*	*Cocaine*	*Benzodiazepines*	*Methadone*	*Amphetamines*	*Barbiturates*	*LSD*	*Buprenorphine*
Female prisoners										
1999-2000	3	1	2	1	1	0	0	0	0	0
2000-01	0	0	0	0	0	0	0	0	0	0
2001-02	0	0	0	0	0	0	0	0	0	0
2002-03	0	0	0	0	0	0	0	0	0	0
2003-04	1	1	1	1	1	0	0	0	0	0
2004-05	0	0	0	0	0	0	0	0	0	0
2005-06	3	1	2	1	2	0	0	1	0	0
2006-07	41	14	25	27	27	6	0	4	0	0
2007-08	13	1	10	8	11	1	0	0	0	2
2008-09	36	15	16	12	17	4	0	0	0	5
Male prisoners										
1999-2000	776	534	282	72	140	18	19	3	0	2
2000-01	1,024	640	476	156	299	30	26	3	0	10
2001-02	508	313	220	86	140	13	19	2	0	7
2002-03	485	300	195	90	160	12	9	3	0	8
2003-04	491	330	154	84	138	12	10	9	0	23
2004-05	687	488	175	91	164	11	25	8	0	66
2005-06	860	555	254	91	177	27	19	16	0	82
2006-07	1,087	643	350	120	263	47	24	9	0	74
2007-08	1,456	860	489	149	391	109	34	9	0	128
2008-09	1,302	782	365	142	342	120	15	5	0	183

Notes:
1. MDT results are recorded anonymously. It is possible therefore that some positive samples relate to the same prisoner.
2. The sum of the number of positive samples for each drug is greater than the total number of positive samples. This is due to some samples testing positive for more than one drug.
3. These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system. The data are not subject to audit.

Chris Huhne: To ask the Secretary of State for Justice how many prisoners *(a)* of each sex and *(b)* in each age group tested positive for illegal drugs in each of the last 10 years; and which drug or drugs they tested positive for. [286737]

Maria Eagle: Prisoners can be subject to mandatory, voluntary and clinical drug testing. Voluntary and clinical drug test results are not held centrally and can be obtained only by surveying 138 establishments, which would be at disproportionate cost.

The number of positive results under all types of mandatory drug testing (MDT) is given in the following tables. It is not possible to provide figures by age group.

MDT conducted on female prisoners

		Number of positive samples for each drug								
	Total number of positive samples	*Cannabis*	*Opiates*	*Cocaine*	*Benzodiazepines*	*Methadone*	*Amphetamines*	*Barbiturates*	*LSD*	*Buprenorphine*

Notes:
1. MDT results are recorded anonymously. It is possible therefore that some positive samples relate to the same prisoner.
2. The sum of the number of positive samples for each drug is greater than the total number of positive samples. This is due to some samples testing positive for more than one drug.
3. These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system. The data are not subject to audit.

Prisoners: Financial Provision

Mr. Garnier: To ask the Secretary of State for Justice what information his Department holds on the financial circumstances of adult male and female prisoners at the time of imprisonment; what research he has commissioned on the subject; and if he will make a statement. [284848]

Maria Eagle: The only information systematically held is from the assessment of offending related factors made through the Offender Assessment System (OASys) which is only applied to young prisoners and to adult prisoners serving sentences of more than 12 months.

During the period 1 April 2008 until 31 March 2009, 7,844 adult male offenders and 825 adult female offenders

were assessed at the start of a custodial sentence as having an offending linked factor related to 'financial management and income'.

Pilots are under way regarding extending assessment to all prisoners and Surveying Prisoner Crime Reduction (SPCR) is a longitudinal study aiming to provide an overview of prisoners' needs, interventions received and related outcomes.

Prisons

Mr. Garnier: To ask the Secretary of State for Justice pursuant to his answer of 1 June 2009, *Official Report*, columns 80-81W, on prison accommodation, (1) what proportion of his Department's expenditure of £60 million at the former RAF Coltishall he expects to be incurred on *(a)* structural changes, *(b)* refurbishment, *(c)* construction of new buildings, *(d)* security measures, *(e)* hygiene and other services and *(f)* other works; [286759]

(2) what estimate he has made of the lifetime of *(a)* the new prison development at RAF Coltishall and *(b)* the capital construction cost per prison place per year of that lifespan. [286761]

Mr. Straw: It is estimated that approximately £1.8 million will be spent on structural changes, £31.4 million will be spent on refurbishment, £13.6 million will be spent on construction of new buildings, £2.8 million will be spent on security measures, £7.2 million will be spent on hygiene and other services and £3 million will be spent on other works.

The estimated lifespan of the new prison development at Coltishall is 60 years. The capital construction cost is £60 million or approximately £2,000 per prison place per year during this time.

Mr. Garnier: To ask the Secretary of State for Justice what the *(a)* current and *(b)* certified normal capacity of the prison estate in each region is; what estimate he has made of the estate's capacity in 2016; and what proportion of the current prison population originated in each region is. [286762]

Maria Eagle: The following table shows the certified normal accommodation (CNA) of prisons in each region against the corresponding operational capacity as of May 2009.

Capacity by region, May 2009 data

Region	(a) Operational Capacity	(b) In use CNA
East Midlands	10,373	9,197
Eastern	8,355	7,486
London	7,736	6,421
North East	5,217	4,623
North West	13,167	10,777
South East	14,220	12,760
South West	6,830	5,954
Wales	2,860	1,936
West Midlands	8,322	7,307
Yorkshire and the Humber	9,725	8,223

Operational capacity in the table does not take into account the prison estate's "operating margin". This is reflected in the useable operational capacity of the estate and is the best estimate of the total number of prisoners that the estate can readily hold taking into account control, security and the proper operation of regimes including single cell risk assessments. It allows for the fact that prisoners are managed separately by sex, risk category and conviction status and that the population will not exactly match the distribution of places available across the country. Useable operational capacity is currently set at 2,000 places (the "operating margin") below the overall capacity of the prison estate.

Our analysis suggests we need to increase the capacity of the prison estate to around 96,000 places by 2014, and we are on course to achieve this through the current building programme. No decisions have been made on the provision of further capacity once the programme to increase the estate to 96,000 places is complete.

The following table shows the prison population originating from each region as of September 2008.

Population by region of origin[1], September 2008 data

Region	Originating population
East Midlands	5,900
Eastern	5,700
London	17,200
North East	3,900
North West	13,100
South East	8,600
South West	4,700
Wales	4,200
West Midlands	8,900
Yorkshire and the Humber	8,700
Grand total[2]	80,900

[1] Region of origin is derived from a prisoner's home address. If this home address is not recorded centrally the prisoner's court of committal is used as a proxy for home area.

[2] This total excludes around 2,400 prisoners who do not have a centrally recorded home or court address.

Note:
Data are rounded to the nearest 100.

Prisons: Drugs

Mr. Pelling: To ask the Secretary of State for Justice what assessment he has made of the cost effectiveness of the use of *(a)* random and *(b)* non-random mandatory drugs testing in prisons between 2002-03 and 2008-09; and what plans he has for the future use of mandatory drugs testing in prisons. [285885]

Maria Eagle: There is no research directly into the cost-effectiveness of mandatory drug testing.

Independent research carried out by the Office for National Statistics

http://www.homeoffice.gov.uk/rds/pdfs05/rdsolr0305.pdf

concluded that the mandatory drug testing programme met its key objectives. Mandatory drug testing continues to be an integral part of the strategy to reduce the supply of drugs in prisons.

The success of the strategy overall is reflected in a reduction in drug misuse in prisons of 63 per cent. since 1996-07.

Probation: Hemel Hempstead

Mike Penning: To ask the Secretary of State for Justice how many high risk *(a)* male and *(b)* female offenders in each age group there were in the Hemel Hempstead probation area in each of the last five years. [284320]

Maria Eagle: The total number of male offenders, by age group and the total number of female offenders in Hertfordshire probation area who were categorised as Tier 4 (high risk) as at 31 March in each of the last three years is provided in the following table. Information is available at probation area level only and has not been provided for women by age group because of the small numbers of cases involved.

	2006		2007		2008	
Age group	Males	Females	Males	Females	Males	Females
18-20	32	[1]—	58	[1]—	50	[1]—
21-24	37	[1]—	49	[1]—	46	[1]—
25-29	53	[1]—	68	[1]—	53	[1]—
30-39	78	[1]—	104	[1]—	70	[1]—
40-49	39	[1]—	53	[1]—	54	[1]—
50 and over	20	[1]—	18	[1]—	16	[1]—
All	259	32	350	24	289	9

[1] Data not provided because of the small numbers involved.

Information on tier prior to 1 April 2005 was not recorded.

These figures have been drawn from administrative IT systems which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Probation Service

Rob Marris: To ask the Secretary of State for Justice how much the Probation Service spent on *(a)* consultants, *(b)* monitoring of performance, *(c)* IT systems which were abandoned as unsuccessful, *(d)* IT systems which were retained as successful and *(e)* management in (i) 2003-04, (ii) 2004-05, (iii) 2005-06, (iv) 2006-07 and (v) 2007-08. [282472]

Maria Eagle: It is not possible to answer the questions, except for the C-NOMIS project and the Delius case management system, without incurring disproportionate cost as it would be necessary to request information from each of the 42 local area probation boards that comprised the National Probation Service (NPS) in England and Wales up to 31 March 2008.

However, some elements of IT provision are managed centrally, within which Delius, a case management system already in use by some probation areas, has been implemented where existing NPS case management systems are in urgent need of replacement. This replacement began in 2007-08 and for that financial year, expenditure was £367,000.

The National Audit Office (in its report on the National Offender Management Information System, HC292, 2008-09) estimated that the National Offender Management Service had spent around £15 million on the probation element of C-NOMIS which is no longer required.

Reoffenders: Crimes of Violence

Mr. Lancaster: To ask the Secretary of State for Justice how many offenders from Milton Keynes were charged with each category of violent offence while under supervision by the Probation Service in each of the last five years. [283651]

Maria Eagle: Local reoffending data was published for the first time on 12 February 2009, covering the period 1 October 2007 to 30 September 2008.

The National Offender Management Service holds information on the number of offenders charged with serious further (violent) offences while under probation supervision for the years 2006-07 and 2007-08. However, this does not include all types of violent offence and the data are collected at probation area level. The information in relation solely to Milton Keynes is not held centrally and would involve checking the local records for the Thames Valley probation area at a disproportionate cost.

Voting Methods

Mr. Maude: To ask the Secretary of State for Justice what progress has been made on his Department's review of weekend voting; and what timetable has been set for the Government's response to the consultation. [287356]

Mr. Wills: The "Election Day: Weekend Voting" consultation attracted nearly 1,000 responses. It has taken time to analyse, in detail, the views and evidence provided. The Government's response to the consultation will be published in due course.

Young Offender Institutions: Per Capita Costs

Mr. Grieve: To ask the Secretary of State for Justice with reference to the answer of 17 November 2008, *Official Report*, column 24W, on young offender institutions: per capita costs, what the average cost of providing a place in *(a)* a young offender institution for 18 to 21 year olds, *(b)* a young offender institution for 15 to 17 year olds and *(c)* a secure training centre for under 15 year olds was in 2008-09. [285491]

Mr. Straw: The average cost per year of a place at a young offender institution (YOI) for 2008-09 is not yet available. The figures will be calculated after completion of the National Offender Management Service (NOMS) Annual Report and Accounts, due to be issued at the end of July, and published on the NOMS website. I will write to the hon. Member when the figures are available.

The average cost per year of a place at a secure training centre (STC) for 2008-09, as provided by the Youth Justice Board, was £179,972. The age range of young people held in STCs is 12-17 years.

BUSINESS, INNOVATION AND SKILLS

Adult Education

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 14 May 2009, *Official Report*, column 993W, on basic skills, how many Learning and Skills Council-funded adult learners aged between 16 and 19 years old were eligible for inclusion in statistics used to measure progress against the Skills for Life Public Service Agreement target in *(a)* 2002-03, *(b)* 2003-04, *(c)* 2004-05, *(d)* 2005-06 and *(e)* 2006-07. [278871]

Kevin Brennan: Table 1 shows Skills for Life achievement figures for working age 16 to 19 year-olds between 2002-03 and 2007-08. The table shows only those achievements which count towards the 2010 PSA target which is to improve the basic skill levels of 2.25 million adults between the launch of Skills for Life in 2001 and 2010. This target was achieved in 2008.

Table 1: Skills for Life 2010 target-bearing achievements (annual discounted achievements)

	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08
16 year-old	50,100	70,200	86,900	99,000	105,500	111,400
17 year-old	30,200	43,200	58,200	78,300	81,600	84,300
18 year-old	13,000	22,900	33,200	47,500	52,200	51,800
19 year-old	6,400	12,200	19,500	28,000	32,000	32,400
16 to 19 year-olds	99,600	148,400	197,700	252,900	271,200	279,900

Notes:
1. Volumes are rounded to the nearest hundred.
2. Achievements are "discounted" to take into account learners that may have previously contributed to the target. For example, if a learner had previously achieved a level 1 literacy qualification in 2005-06 but subsequently achieved a level 1 numeracy qualification in 2006-07, we "discount" the number of learners to ensure we do not double-count learners achieving the target.

Source:
Individualised Learner Record Student data.

Apprentices

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many people aged 16 to 24 started an apprenticeship in each quarter since August 2007. [283991]

Kevin Brennan *[holding answer 14 July 2009]:* Table 1 shows apprenticeship starts for 16 to 24 year-olds in each quarter since August 2007.

Table 1: Apprenticeship starts by age

	1 August 2007 to 31 October 2007	1 November 2007 to 31 January 2008	1 February 2008 to 30 April 2008	1 May2008 to 31 July 2008	1 August 2008 to 31 October 2008	1 November 2008 to 31 January 2009	1 February 2009 to 30 April 2009
16-18 year-olds	54,500	17,800	16,800	18,000	32,200	16,100	13,400
19-24 year-olds	28,700	17,200	23,600	20,600	31,500	18,100	18,300

Notes:
1. Volumes are rounded to the nearest hundred.
2. Age is calculated based on age at the start of the course.

WBL ILR

The National Apprenticeship Service has developed a 16-18 Apprenticeships Action Plan and is taking forward a range of actions to increase the number of young people starting an apprenticeship. These include: an £11 million investment to provide 3,000 additional places with large businesses that have a track record in offering high-quality apprenticeships, with 1,800 places for 16 to 18 year-olds; a £7 million investment in Group Training Associations which can help attract new and hard to reach employers and new individuals to become apprentices; a focus on increasing the number of apprenticeship places available in the public sector by 21,000 this year with a specific focus on health, education, central and local government; and the publication of OGC guidance to enable Central and Local Government to utilise the £175 billion spent each year on procurement contracts to increase apprenticeship numbers and investment in training.

Mr. Clifton-Brown: To ask the Minister of State, Department for Business, Innovation and Skills what progress has been made towards provision of the proposed 1,500 apprenticeships under the New Opportunities, New Challenges strategy. [286188]

Kevin Brennan: In the Manufacturing: New Opportunities, New Challenges strategy, the Government committed to extend and expand high quality Apprenticeships by approximately 1,500 new places, by inviting bids from larger manufacturers to train additional apprentices, including for their supply chains.

On 1 December 2008 the Apprenticeship Expansion Programme Prospectus was launched, inviting Expressions of Interest from employers or groups of employers who are already delivering high-quality Apprenticeship programmes.

On 13 May the majority of the successful bids were announced. Out of the approximately 3,000 additional Apprenticeships created under the Expansion Programme, at least 1,400 will be in the Engineering and Manufacturing sector. The first additional apprentices will be taken on in September 2009.

Stephen Williams: To ask the Minister of State, Department for Business, Innovation and Skills how much his Department has spent on level four apprenticeships in each year since 2001. [286798]

Kevin Brennan: Our records show that in 2006-07, £115,000 was spent on funding level four apprenticeship places. This rose to £202,000 in 2007-08, as more learners started apprenticeships and we continued to fund the programmes of those who had started in the previous year. In previous academic years, level four apprenticeships were not available.

Apprentices: Females

Mr. Laws: To ask the Minister of State, Department for Business, Innovation and Skills how many and what proportion of apprenticeships were completed by women in each of the last 10 years. [284282]

Kevin Brennan: The table shows the volume and proportion of apprenticeships completed by women in each year from 2003/04 to 2007/08.

Apprenticeships completed by women

	Volume	*Proportion (percentage)*
2003/04	25,200	51
2004/05	32,200	48
2005/06	45,700	46
2006/07	50,900	45
2007/08	50,800	45

Note:
Figures have been rounded to the nearest hundred, and percentages to the nearest per cent.
Source:
WBL ILR

In many areas the take up of apprenticeships reflects the gender divide in the workplace. For example 1 per cent. of construction apprentices are women but in the care sector women comprise 97 per cent. of apprentices. We do not accept this and we have asked that the new National Apprenticeship Service to take action to address inequalities within the Apprenticeship programme.

Apprentices: Hertfordshire

Mr. Pelling: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of apprenticeships to be taken up by those over the age of 24 years in *(a)* Hemel Hempstead constituency, *(b)* Dacorum and *(c)* Hertfordshire in the next five years. [285889]

Kevin Brennan: The table shows apprenticeship starts in Hemel Hempstead parliamentary constituency and Hertfordshire local authority in 2007/08, the latest year for which we have full-year information. Information is not available at local authority district level and hence figures for Dacorum, which is part of Hertfordshire local authority, are not shown.

Apprenticeship starts in 2007/08

	Area	
Age at start of programme	*Hemel Hempstead constituency*	*Hertfordshire local authority*
Under 19	140	1,300
19-24	160	1,200
25 plus	50	300
All starts	350	2,800

Notes
1. Area is based on home postcode of learner.
2. Figures for parliamentary constituency have been rounded to the nearest ten and figures for local authority have been rounded to the nearest hundred. Therefore figures may not sum to the total due to rounding.
3. Age is calculated based on age at start of programme.
Source:
WBL ILR

Nationally, in 2008/09 we anticipate that more adults than ever before will start an apprenticeship. As part of our unprecedented investment in apprenticeships we have seen tremendous growth in the adult (25 plus) Apprenticeship programme from just 300 starts in 2006/07, to over 27,000 in 2007/08 in England. We are delighted that this trend has continued and demand from employers for adult apprenticeships remains very high. This demonstrates that apprenticeships provide a high-quality, all-age offer for businesses and that employers recognise the benefits of continuing to train in the current economic climate. The Government's Skills Investment Strategy 2010-11 (due in autumn 2009) will set out national projections for apprenticeship starts for 2009/10 and 2010/11 academic years.

Apprentices: Thames Valley

Tony Baldry: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of apprenticeships which will be taken up by those over the age of 24 years resident in *(a)* the Thames Valley and *(b)* Oxfordshire in the next 12 months. [285595]

Kevin Brennan: The following table shows apprenticeship starts in Oxfordshire in 2007-08, the latest year for which we have full-year information. Information is also provided for all of the local authorities covered by the Thames Valley Local Learning and Skills Council.

Apprenticeship starts in 2007-08

	Age at start of programme			*All starts*
Local authority	*Under 19*	*19-24*	*25+*	
Bracknell Forest	200	200	100	400
Buckinghamshire	800	700	100	1,600
Milton Keynes	400	500	100	1,000
Oxfordshire	1,000	800	200	2,000
Reading	200	200	100	500
Slough	200	200	100	400
West Berkshire	300	300	100	700
Windsor and Maidenhead	200	200	—	400
Wokingham	900	900	300	2,000
Total	4,100	3,900	1,100	9,100

Notes:
1. Area is based on home postcode of learner.
2. Figures have been rounded to the nearest hundred and may not sum to the total due to rounding.
3. '—' indicates a value of less than 50.
4. Age is calculated based on age at start of programme.

Nationally, in 2008-09 we anticipate that more adults than ever before will start an Apprenticeship. As part of our unprecedented investment in Apprenticeships we have seen tremendous growth in the adult (25+) Apprenticeship programme from just 300 starts in 2006-07, to over 27,000 in 2007/08 in England. We are delighted that this trend has continued and demand from employers for adult Apprenticeships remains very high. This demonstrates that Apprenticeships provide a high-quality, all-age offer for businesses and that employers recognise the benefits of continuing to train in the current economic climate.

Better Regulation Executive

Tim Loughton: To ask the Minister of State, Department for Business, Innovation and Skills what the projected expenditure by the Better Regulation Executive is for each of the next five years. [283431]

Ian Lucas: The Better Regulation Executive has a formal budget for 2009-10 and an indicative budget for 2010-11 as set out:

	2009-10 (formal)	£ million 2010-11 (indicative)
Programme budget	4.7	4.7
of which:		
Local Better Regulation offices	4.4	4.4
Communications	0.3	0.3
Administration budget	6.4	6.4
Total budget	11.1	11.1

These budgets were set out in the comprehensive spending review (CSR) 2007, covering the financial years 2008-09, 2009-10, and 2010-11. Budgets for future years will be decided as part of the next spending round, which has not yet been announced by HM Treasury.

Business: Billing

Mrs. McGuire: To ask the Minister of State, Department for Business, Innovation and Skills how many times cases under *(a)* the Late Payment of Commercial Debts (Interest) Act 2002 and *(b)* other late payment legislation have been brought in UK courts in the last four years. [286711]

Ms Rosie Winterton: The Ministry of Justice does not hold any statistical information about court applications (including Scotland) relating specifically to *(a)* the Late Payment of Commercial Debts (Interest) Act 2002 and *(b)* other late payment legislation.

This is because the administrative computer systems used in the courts do not presently identify these specific application types. While the relevant cases will be logged on the system, they cannot be distinguished from other types of claims issued. Changing the administrative systems to create specific case types for these types of cases would incur disproportionate cost.

Mrs. McGuire: To ask the Minister of State, Department for Business, Innovation and Skills what research has been carried out into the size of companies bringing court cases under late payment legislation. [286712]

Ms Rosie Winterton: The Ministry of Justice does not hold any statistical information about applications (including Scotland) relating specifically to payment legislation.

This is because the administrative computer systems used in the courts do not presently identify these specific application types. While the relevant cases will be logged on the system, they cannot be distinguished from other types of claims issued. Changing the administrative systems to create specific case types for these types of cases would incur disproportionate cost.

Business: Coastal Areas

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills what steps he is taking to encourage business growth in seaside resorts in England. [284759]

Ms Rosie Winterton: Support is available to established businesses, new businesses and those wanting to start a business throughout England, including in seaside resorts, via Business Link. Business Link is the Government's multi-channel business support service providing access to information and advice and directing clients to private and public sector support.

This Department sponsors the nine English RDAs. The RDAs are the delivery vehicle for business development at a sub-national level and are responsible for the day-to-day management of Business Link. The RDAs have an important role to play, with other partners, in helping coastal areas in their regions to achieve their full economic potential, as part of wider regional strategies to deliver sustainable growth.

Business: Empty Property

Mr. Binley: To ask the Minister of State, Department for Business, Innovation and Skills what his most recent estimate is of the number of empty business properties there are in each constituency in England. [286596]

Ms Rosie Winterton: These data are not available at constituency level.

Business: Government Assistance

Mr. Newmark: To ask the Minister of State, Department for Business, Innovation and Skills how many businesses have received assistance from the Working Capital Guarantee Scheme; and how much funding has been committed to date. [259010]

Ms Rosie Winterton *[holding answer 26 February 2009]:* The Working Capital Scheme (WCS) is not available directly to businesses. The scheme enables participating banks to increase the amount of working capital they can make available to businesses.

By guaranteeing portfolios of working capital facilities, this will release regulatory capital held by the banks against these portfolios. The banks have agreed they will make commitments to re-deploy this capital in order to increase all types of lending to small and medium-sized enterprise (SMEs) and mid-sized corporates above their current base line.

We have signed £1 billion of guarantees with RBS and Lloyds for portfolios of £2 billion. The financing for businesses it releases has already started from 1 March as a result of the lending agreements based on the Asset Protection Scheme and WCS. We will be allocating from the £10 billion WCS, guarantees for trade credit insurance in response to the constraint to working capital arising from withdrawal of trade credit insurance. We will also be consulting on the viability of using some of these guarantees for letters of credit and other forms of export finance which are also possible areas of constraint for working capital.

Mr. Amess: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of companies which will apply for assistance under the Working Capital Scheme; how much has been allocated by his Department to the scheme; what criteria are used by his Department on deciding suitability under the scheme; under what

circumstances assistance would be refused; whether interest is charged under the scheme; and if he will make a statement. [259065]

Anne Main: To ask the Minister of State, Department for Business, Innovation and Skills how many businesses have received funding under the Working Capital Scheme. [260556]

Ms Rosie Winterton: The Working Capital Scheme (WCS) is not available directly to businesses. The scheme enables participating banks to increase the amount of working capital they can make available to businesses

By guaranteeing portfolios of working capital facilities, this will release regulatory capital held by the banks against these portfolios. The banks have agreed they will make commitments to re-deploy this capital in order to increase all types of lending to small and medium sized enterprise (SMEs) and mid-sized corporates above their current base line.

We have signed £1 billion of guarantees with RBS and Lloyds for portfolios of £2 billion. The financing for businesses it releases has already started from 1 March as a result of the lending agreements based on the Asset Protection Scheme and WCS. We will be allocating from the £10 billion WCS guarantees for trade credit insurance in response to the constraint to working capital arising from withdrawal of trade credit insurance. We will also be consulting on the viability of using some of these guarantees for letters of credit and other forms of export finance which are also possible areas of constraint for working capital.

Helen Southworth: To ask the Minister of State, Department for Business, Innovation and Skills what business support measures from his Department are available to small and medium-sized businesses in Warrington. [276518]

Ms Rosie Winterton: The Government fully appreciate the challenges faced by small and medium-sized businesses, especially during these difficult economic times, and we provide real help to businesses in the Warrington area through a wide range of business support. Details are set out in our 'Real Help' publication for the north-west which can be found at:

http://realhelpnow.bmg.gov.uk/pdf/northwest.pdf

The Northwest Regional Development Agency also provide a broad range of business support in areas such as small business loans (from £3,000 to £50,000), grants, venture capital (ranging from £50,000 to £250,000), start-up, innovation and efficiency, high growth, international trade, training and development, and specific sector-based initiatives in areas such as manufacturing, digital and creative, business and professional services—full details can be found at:

http://www.nwda.co.uk/publications/business/support-for-northwest-business.aspx

Any business looking for support can access it through Business Link Northwest by visiting:

www.businesslink.gov.uk

Simon Hughes: To ask the Minister of State, Department for Business, Innovation and Skills how many businesses in the London Borough of Southwark have *(a)* applied for and *(b)* received assistance from the (i) Enterprise Finance Guarantee Scheme and (ii) Capital for Enterprise Fund in 2009; and how much funding has been provided to businesses in Southwark under each scheme. [279301]

Ms Rosie Winterton *[holding answer 15 June 2009]:* The Department records information on the Enterprise Finance Guarantee and Capital for Enterprise Fund on a regional basis, including London. It does not hold the information requested at borough level and it could be provided only at disproportionate cost.

Set out in the following tables is the information for London since the launch of the Enterprise Finance Guarantee and Capital for Enterprise Fund on 14 January:

Enterprise Finance Guarantee

	Number
Number of eligible applications	395
Number of loans offered	354
Number of loans drawn	212
	£ million
Value of eligible applications	43.9
Value of loans offered	37.2
Value of loans drawn	22.4

Capital Enterprise Fund

	Number
Number of inquiries	91
Number of inquires under consideration	11
	£ million
Investment required	108.2
Value of inquires under consideration	16.7

The fund managers are continuing due diligence on the proposals that have been put forward.

Simon Hughes: To ask the Minister of State, Department for Business, Innovation and Skills what sources of support are available to raise finance for small businesses which apply for assistance under the Enterprise Finance Guarantee Scheme and meet the eligibility criteria but are not accepted on the scheme by commercial lenders; and if he will make a statement. [279644]

Ms Rosie Winterton *[holding answer 15 June 2009]:* EFG is only available,to viable businesses which are at the margins of commercial lending because they have insufficient security or their proposal involves a higher risk of loss in case of default.

Businesses that have been unable to secure funding from a lender under EFG may be eligible for a loan or other assistance from their Regional Development Agency. Business Link can advise on what additional finance help is available in the English regions on 0845 600 9 006 or via:

www.businesslink.gov.uk

In addition Business Link offers businesses a free review of their business by a professional business adviser. As at 11 June 2009, over 57,800 businesses have benefited from these reviews. An average of 1,865 per week since the service began in October 2008.

Mr. Evennett: To ask the Minister of State, Department for Business, Innovation and Skills what recent steps his Department has taken to assist *(a)* small and *(b)* medium-sized businesses in the London Borough of Bexley. [281657]

Ms Rosie Winterton: Through Business Link, small and medium-sized businesses (SMEs) in Bexley can access a wide range of mainstream Government business support products and services. Recent additional support has been made available to help SMEs during these tough economic times, including business health checks and a rapid response service to help SMEs hit hardest by the recession.

The Government are further assisting SMEs with 'real help now for businesses' which consists of targeted products and initiatives to help SMEs, including those in Bexley, during the downturn.

The full suite of business support services is routinely delivered in Bexley, including: advice, guidance and practical financial support with business start-ups, support for entrepreneurs and innovators with information on how to develop and explore their ideas, from inspiration to planning, to research, marketing, launch, business growth and exporting. Community development finance institutions (CDFIs) provide loans and other financial services to SMEs experiencing difficulty in accessing mainstream finance. This support complements that offered to SMEs by other departments:

Jobcentre Plus assists local businesses with recruitment and training and the LSC provides Train to Gain and apprenticeship funding.

Alongside support targeted at specific businesses the London Development Agency continues to support development of the local business infrastructure in Bexley. Examples include:

Estates Excellence South London/Soloman Ltd. (supporting 480 SMEs),

Building Futures/Trust Thamesmead (employment support to 200 SME employers),

Community Leaders Development (58 businesses supported, 11 new businesses created),

East London Business Place (6 Bexley SMEs supported)

Business: Insurance

Peter Luff: To ask the Minister of State, Department for Business, Innovation and Skills what recent representations he has received from *(a)* representative business organisations and *(b)* individual businesses on the availability of trade credit insurance; and if he will make a statement. [278604]

Ms Rosie Winterton *[holding answer 8 June 2009]:* The Government have had regular discussions with the CBI and a range of businesses on the availability of trade credit insurance.

In response, the Government launched a trade credit insurance scheme to help those businesses who have suffered reductions in their level of cover. This top-up scheme will help mitigate disruption to trade and cash flows.

Following further engagement, the Government announced on 9 June that eligibility for the scheme will be backdated to include suppliers who had their cover reduced since 1 October 2008.

Business: York

Hugh Bayley: To ask the Minister of State, Department for Business, Innovation and Skills how many businesses were registered for value added tax in *(a)* City of York constituency and *(b)* the York unitary authority area in each year since 1992. [285872]

Ms Rosie Winterton: The total numbers of businesses registered for VAT at the start of each year from 1992 to 2008 for the city of York constituency and York local unitary authority are shown as follows:

Year[1]	*City of York parliamentary constituency*	*York local unitary authority area*
1994	2,110	4,070
1995	2,115	4,075
1996	2,115	4,100
1997	2,090	4,130
1998	2,145	4,235
1999	2,180	4,335
2000	2,220	4,425
2001	2,270	4,560
2002	2,315	4,665
2003	2,330	4,790
2004	2,425	4,965
2005	2,505	5,105
2006	2,565	5,200
2007	2,635	5,270
2008	2,705	5,435

[1] Large increases in the compulsory VAT registration threshold in 1991 and 1993 mean that figures before and after these dates are not directly comparable to data from 1994 onwards. The VAT series between 1980 and 1993 is available from the following link: http://stats.berr.gov.uk/ed/vat/vat8093.xls

Between 1994 and 2008, the number of VAT registered businesses in the city of York constituency and the York local authority area increased by 31 and 34 per cent. respectively.

Constructing Excellence: Finance

Mrs. Spelman: To ask the Minister of State, Department for Business, Innovation and Skills what funding *(a)* his Department and *(b)* each regional development agency has given to (i) the Centre for Constructing Excellence and (ii) each regional centre for constructing excellence since its inception. [278541]

Ms Rosie Winterton: The table shows funding provided by my Department to Centre for Constructing Excellence.

BIS funding to Constructing Excellence

	£ million
2003-04	6
2004-05	4.6
2005-06	3.4
2006-07	1.5
2007-08	0.1
2008-09	0.2

Notes:
1. These figures include core funding for specific projects.
2. The RDAs did not provide any funding to the Centre for Constructing Excellence since its inception.
3. My Department has not provided any core funding to regional Centres for Constructing Excellence.

The following table shows RDA funding to regional Centres for Constructing Excellence.

RDA funding to regional Centres for Constructing Excellence

RDA	*2001/02*	*2002/03*	*2003/04*	*2004/05*	*2005/06*	*2006/07*	*2007/08*	*£000 2008/09*
AWM	0	0	0	0	712	1,393	1,420	1,393
EEDA	0	0	0	0	0	23	5	0
EMDA	0	0	0	78	402	0	299	304
EDA	0	0	0	0	0	0	0	30
ONE	[1]	[1]	54	54	54	100	130	[2]
SEEDA	0	17	38	44	0	0	15	0
SWRDA	0	0	0	0	0	47	127	128

[1] To identify the funding that has been provided would incur disproportionate cost.
[2] ONE's funding for 2007/08 was re-profiled to include 2008/09. Currently the regional centre has an application in for further funding.

Debts

Mr. Laurence Robertson: To ask the Minister of State, Department for Business, Innovation and Skills how many companies with registered addresses in *(a)* England and Wales and *(b)* Gloucestershire are registered to execute debt relief orders; what recent assessment he has made of the effectiveness of the debt relief scheme; and if he will make a statement. [286013]

Ian Lucas *[holding answer 13 July 2009]:* The Secretary of State has designated six organisations as competent authorities. Those organisations in turn can approve individual advisers to act as intermediaries, that is to confirm that the entry criteria appear to be met and to assist with applications for debt relief orders. On receipt of the completed application and payment of the fee, the official receiver can make the order.

None of the registered addresses of those six organisations is in Gloucestershire. Anyone in Gloucestershire wishing to apply for a debt relief order will be able to seek advice from one of the three designated organisations that offer telephone advice, or will be able to contact the other organisations to inquire about Gloucestershire-based advisers. The organisations are listed in a leaflet available online at:

http://www.insolvency.gov.uk/bankruptcy/DROdebtors.htm

or in hard copy from the Insolvency Service.

It is too early to be able to properly assess the effectiveness of the scheme. Formal evaluation will take place in approximately three years but as this is a new process, the Insolvency Service, which delivers DROs in partnership with the advice sector, is actively monitoring the effectiveness of the new procedures to ensure they are working as envisaged.

Departmental Manpower

Mr. Clifton-Brown: To ask the Minister of State, Department for Business, Innovation and Skills how many members of staff will be employed in his Department's Manufacturing Insight office; and when the office will start operations. [285159]

Ian Lucas: I refer the hon. Member to the answer I gave to him on 9 July 2009, *Official Report*, column 988W.

Dietary Supplements: Channel Islands

Mr. Drew: To ask the Minister of State, Department for Business, Innovation and Skills what recent assessment he has made of the effect on UK *(a)* businesses and *(b)* consumers of the import from the Channel Islands of health food products which contain illegal ingredients or are marketed using illegal claims; and if he will make a statement. [286016]

Kevin Brennan: This Department has made no such assessment. The Food Standards Agency is the Government organisation responsible for the legislation that governs health food products.

Mr. Drew: To ask the Minister of State, Department for Business, Innovation and Skills when officials of his Department last met representatives of the health food industry to discuss the effect of the trade in health food products from the Channel Islands on *(a)* UK businesses and *(b)* UK consumers. [286017]

Kevin Brennan: My officials have not met with representatives of the health food industry to discuss the effect of the trade in health food products from the Channel Islands although they have been in written communication. However, officials from the Food Standards Agency (who have responsibility for the legislation in this area) are in regular discussion with them.

East of England Development Agency: Land

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills what *(a)* land and *(b)* buildings owned by the East of England Development Agency are unused. [270139]

Ms Rosie Winterton: All land and property held by EEDA has been acquired with the intention of eventual disposal for appropriate use in support of regional and local economic strategies.

The process prior to disposal depends on the condition and status of the sites on acquisition and the extent of planning and or access/services provision required to make the sites fit for purpose.

Sites cannot be developed until these issues have been suitably addressed. However, once addressed, these will be disposed of for productive use at the earliest opportunity.

However, some sites are currently vacant due to them being at different stages in the remediation and development process.

On this basis, EEDA has provided the following table of those sites in its ownership which are neither the subject of a binding legal agreement with a developer or potential purchaser at the date of the question, nor forms part of an approved plan with any other party.

Land and buildings currently vacant comprise

Land only	*Land and buildings*
Northwick Road (Canvey, Essex)	Peterborough (South Bank) North (Peterborough, Cambridgeshire) [1]
Wybunbury (Wybunbury, Staffordshire)	Saul's Wharf (Great Yarmouth, Norfolk) [2]
South Denes (Great Yarmouth, Norfolk)	

[1] one short term tenant
[2] empty buildings pending demolition

Education (Student Support) Regulations 2009

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills what assessment he has made of the likely effects of application of the provisions of the Education (Student Support) Regulations 2009 on each type of funding support his Department provides for students in 2009-10. [286993]

Mr. Lammy: None. The Education (Student Support) Regulations 2009 set out funding support for students studying in the academic year starting 1 September 2010: they do not affect the student support available in the 2009-10 academic year.

The Government remain committed to investing in higher education and are increasing funding for student support in 2009-10 financial year by 4 per cent. compared with 2008-09. In cash terms, we are planning to spend over £5 billion on student support in 2009-10, and even more in 2010-11.

Education: Finance

Justine Greening: To ask the Minister of State, Department for Business, Innovation and Skills what assessment he has made of the effect on accelerated support for *(a)* capital projects to improve further education infrastructure and *(b)* accelerated support for projects to improve facilities at higher education institutions of bringing forward capital expenditure from 2010-11 to 2009-10 and 2008-09; and how much of the funding has been spent in each month since it was announced. [286656]

Kevin Brennan: As announced in the pre-Budget report 2008, the former Department for Innovation Universities and Skills accelerated £442 million from 2010-11 budgets into 2008-09 and 2009-10. That capital was accelerated as set out in the following table:

	2008-09	*2009-10*	*£ million Total*
Higher Education Funding Council for England (HEFCE) capital funding for higher education institutions	50	200	250
Learning and Skills Council (LSC) capital funding for further education institutions	110	—	110
Student Loans infrastructure	2	—	2
Research Capital Investment Fund	—	25	25
Natural Environment Research Council facilities	5	—	5
Large Facilities Capital Fund (projects managed by the research councils)	—	50	50
Total	167	275	442

The £50 million of capital that was accelerated to higher education institutions (HEIs) from 2010-11 into 2008-09 was spent in full in that financial year, having been allocated to institutions in January 2009 under the standard Capital Investment Formula. This amount, therefore, formed part of larger payments to HEIs and is not readily distinguishable from them in each month of spend. The £200 million brought forward to 2009-10 has been committed to specific projects, delivering throughout the year. That money will support 144 different projects, in 107 HEIs, and including additional capital leveraged by the initial investment, will deliver more than £370 million of capital activity. Payments will be made to higher education institutions on a quarterly basis, and the first instalment of £25 million was paid by HEFCE in May 2009. Examples of the projects accepted include: £6.4 million for a new arts building at Sussex; £3 million for a new building for the Centre for Immunology and Infection at York; £2.7 million for new mechanical engineering facilities at Imperial; and £2.6 million for chemical engineering and life sciences facilities at Sheffield. Over two-thirds of these projects are already under way.

The further education capital programme has seen nearly 330 colleges and 700 projects benefit since 2001. Only 42 colleges have yet to benefit from investment. In 2008-09, more than 100 further education building projects were completed, as a result of nearly £550 million of investment, including the £110 million accelerated from future budgets. This money was spent to bring forward building work, benefiting learners and regenerating communities. Recent National Audit Office and Public Accounts Committee reports have acknowledged the success of the further education capital programme, and its value for money.

Education: Prisons

Stephen Williams: To ask the Minister of State, Department for Business, Innovation and Skills how many people in prison received *(a)* a student maintenance loan and *(b)* a student grant in each of the last five years. [282730]

Kevin Brennan: In his written statement on 7 February 2008, *Official Report*, columns 85-86WS, on the Education (Student Support) Regulations the Secretary of State announced that he was amending the student support regulations to disallow prisoners who were also full-time students from receiving financial support for maintenance, thereby removing the long-standing provision which had allowed prisoners to claim such support.

In a further written statement on 25 March 2008, *Official Report*, column 6WS, he announced that an investigation showed that 154 individual prisoners had received some form of maintenance payment whilst a full time student since 1998. In total, prisoners received £70,000 in maintenance loans and £160,000 in maintenance grants over that period. The investigation also showed

that assessments for student support were carried out in accordance with the rules that applied at the time. There was also evidence of some maintenance payments made to prisoners between 1990 and 1998.

According to records held by the Student Loans Company no prisoners have applied for or received a maintenance loan toward their living costs in the academic year 2008/09.

The following table gives a breakdown of the number of prisoners receiving maintenance loans and grants by academic year.

Prisoners receiving maintenance loans and grants[1]

Academic year	*Number*
2003/04	18
2004/05	21
2005/06	32
2006/07	48
2007/08	44

[1] The figures reflect the number of prisoners in each year who received a payment. In some cases, prisoners will have received payments in more than one year.

Exports: Yorkshire and the Humber

Hugh Bayley: To ask the Minister of State, Department for Business, Innovation and Skills how many companies in Yorkshire and the Humber exported goods and services in each year since 1997. [285750]

Ms Rosie Winterton: HM Revenue and Customs publishes a regional breakdown for trade in goods. The number of companies in Yorkshire and the Humber region exporting in each year from 1997 is:

	Exporters to EU	*Exporters-non EU*	*Total exporter count*
1997	1,545	4,124	4,359
1998	1,490	4,447	4,653
1999	1,395	4,380	4,609
2000	1,352	4,370	4,581
2001	1,381	4,599	4,837
2002	1,497	4,717	4,998
2003	1,540	5,000	5,273
2004	1,595	5,132	5,407
2005	1,726	5,180	5,534
2006	1,723	5,222	5,591
2007	1,596	5,133	5,434
2008	1,655	5,288	5,582

Foreign Investment in UK: Yorkshire and the Humber

Hugh Bayley: To ask the Minister of State, Department for Business, Innovation and Skills how much foreign investment there has been in *(a)* Yorkshire and the Humber and *(b)* the City of York in each year since 2003; and what estimate he has made of the number of jobs generated. [285751]

Ms Rosie Winterton: A total of 295 foreign direct investments have been recorded in the Yorkshire and Humber (Y&H) region since 2003, of which 27 were in the city of York. These are the foreign direct investments that Yorkshire Forward has been directly involved in.

Breakdown of foreign direct investments since April 2003

	Yorkshire and the Humber	*York*
2003-04	24	2
2004-05	43	3
2005-06	29	6
2006-07	41	2
2007-08	76	3
2008-09	82	11
Total	295	27

Since 2003, the total number of new jobs created in the region as a result of the foreign direct investment totals 9,766. Of this total, 560.5 were in the city of York. The total number of jobs saved in the region as a result of foreign direct investment since 2003 totals 9,967. Of these, 23 were located in York.

	Y&H new jobs	*Y&H safeguarded jobs*	*York new jobs*	*York safeguarded jobs*
2003-04	2,356	460	53	0
2004-05	2,596	1,207	10	3
2005-06	1,700	1,021	21.5	0
2006-07	699	1,034	85	0
2007-08	1,141	2,562	87	0
2008-09	1,274	3,683	304	20
Total	9,766	9,967	560.5	23

Further Education: Energy

Mr. Evennett: To ask the Minister of State, Department for Business, Innovation and Skills what support his Department provides to further education colleges to improve their energy efficiency. [285528]

Kevin Brennan: We provide support through the Learning and Skills Council (LSC) to enable further education colleges to benchmark their performance against the most efficient providers. These toolkits enable colleges to draw comparisons between their estates running costs, including energy costs. In the last spending review, colleges realised £48 million of efficiency savings from the more effective running and maintenance of its estate—which included lowered energy costs.

The standards of environmental sustainability are increasing through a requirement for new college capital projects to meet BREEAM (the building research establishment environment assessment method) 'excellent' criteria introduced by the LSC in March 2008.

The LSC also ran a pilot scheme with SALIX, which made available energy efficiency grants for small projects. The pilot showed that, in cash terms, colleges would be able to recoup their investment within 3.5 years through energy savings. We shall be working in partnership with colleges to examine the scope for them to make further efficiency gains in the future, including improving their energy efficiency.

Further Education: Finance

Mr. Andrew Smith: To ask the Minister of State, Department for Business, Innovation and Skills what the timetable for the next phase of decisions on colleges' capital programmes is; and if he will make a statement. [284022]

Kevin Brennan *[holding answer 6 July 2009]:* After an open and transparent prioritisation exercise in consultation with the sector the Learning and Skills Council (LSC) announced which projects would proceed to the next stage of the process—through value for money challenge to reduce the cost of projects—on 26 June. The LSC have subsequently invited the 13 successful colleges to submit revised proposals by 22 July. As soon as credible cost reductions can be secured, final approvals will be accelerated in order for building to begin as soon as possible.

For colleges which have not been selected to proceed this year, the next steps start this autumn when the LSC will further consult with the sector to agree a robust, fair and transparent process for prioritising the capital investment programme ready for the next spending review period.

Andrew Selous: To ask the Minister of State, Department for Business, Innovation and Skills what the age is of *(a)* the main site and *(b)* any rebuilding or extension of each of the further education colleges (i) which received provision to proceed with their capital projects on 26 June 2009 and (ii) whose capital building programmes remain frozen. [286091]

Kevin Brennan *[holding answer 13 July 2009]:* As independent institutions, further education colleges are responsible for the upkeep and development of their own estates. As such, the Government, via the Learning and Skills Council (LSC), makes available capital grant support to enable further education colleges to undertake such renewal and modernisation. Over this current spending review period, we will invest a record £2.6 billion in the further education sector.

While in the provision of such grant, the LSC requires the respective college to provide details about its capital proposal—it does not require the college to state the age of its buildings. I am therefore unable to provide the hon. Member with the information requested as we, nor the LSC, collect it.

Mr. Cox: To ask the Minister of State, Department for Business, Innovation and Skills whether Ministers played a role in decisions on which further education college building projects for which funding was frozen would be approved; and if he will make a statement. [286705]

Kevin Brennan: Under the Learning and Skills Act 2000, Ministers may not direct the LSC in its decision making regards individual capital approvals. Ministers have discussed with the LSC the overall approach, consistent with their responsibility for determining the strategic direction that the LSC should follow.

Recent decisions made by the LSC regarding which further education college building projects would proceed to the next stage of the approvals process followed a robust and transparent assessment by independent consultants against prioritisation criteria that was agreed with the sector and that built upon the recommendations made by Sir Andrew Foster.

Graduates: Employment

Dr. Kumar: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department is taking to improve the employment prospects of those graduating in 2009. [285335]

Mr. Lammy: The Government are committed to helping new graduates improve their prospects for work in these challenging economic times. The key message is there are still jobs out there—but graduates will need to do their research thoroughly and take every opportunity to gain experience and build their CV. Graduates should take advantage of the professional support available from university careers services and look at all, job opportunities—including non-graduate jobs which can provide a route to their chosen careers.

We are putting in place a range of options for graduates to build their employability skills and boost their CV—the Graduate Talent Pool which will allow graduates to match themselves to thousands of internships from a range of employers; more postgraduate study options; support through Professional and Career Development Loans (PCDLs); volunteering places and help with business start up or entrepreneurship training.

Graduates: Unemployment

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many and what percentage of graduates were unemployed three months after obtaining their degree in each year since 1997. [287756]

Mr. Lammy: Information on destinations of graduates after three months is not available centrally. However, data are collected after six months and these form the basis of the response in the following table.

From 1997 to 2002, leavers were asked to fill out the First Destination of Leavers survey. This changed to the Destinations of Leavers from Higher Education (DLHE) survey in 2003. The wording of the questionnaire changed in this year, as did the coverage to include part-time graduates as well as full-time. Therefore numbers before and after 2003 are not directly comparable.

UK domiciled first degree graduates assumed to be unemployed six months after leaving higher education 1997 to 2008

Year graduated	*Number unemployed*	*Total respondents*	*Percentage unemployed*
1997	11,905	171,280	6.9
1998	9,920	172,660	5.7
1999	9,715	176,205	5.5
2000	9,335	170,735	5.5
2001	11,050	176,405	6.3
2002	12,110	176,375	6.9
Change in coverage and questionnaire			
2003	13,135	196,155	6.7
2004	12,450	200,740	6.2
2005	12,795	202,653	6.3
2006	12,595	204,105	6.2
2007	11,450	203,225	5.6
2008	17,360	213,270	8.1

Note:
Numbers are rounded to the nearest five.
Source:
Higher Education Statistics Authority (HESA)

Higher Education: Admissions

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many people *(a)* applied and *(b)* were accepted through

the Universities and Colleges Admissions Service for a place on a higher education institution undergraduate course in each year since the service was established. [287776]

Mr. Lammy: The information is in the following table:

Applicants and accepted applicants to full-time undergraduate courses via Universities and Colleges Admissions Service 1994 to 2008

Academic year of entry	Applicants	Accepted applicants
1994	405,117	270,898
1995	419,442	290,596
1996	418,400	295,807
1997	458,781	336,338
1998	446,457	329,788
1999	442,931	334,594
2000	442,028	339,747
2001	453,833	358,041
2002	461,365	368,115
2003	476,467	374,307
2004	486,028	377,544
2005	522,155	405,369
2006	586,304	390,890
2007	534,495	413,430
2008	588,689	456,627

Source:
UCAS

In 2008 the nursing and midwifery admissions system (NMAS) was subsumed in to the UCAS application system and part of the increase from 2007 to 2008 can be attributed this factor. In 2008 there were 13,487 applicants who applied via UCAS to ex-NMAS courses only and 14,184 applicants who were accepted to former NMAS courses, the majority of whom were English domiciled (and NMAS was only for English institutions).

Industry: Stress

Chris Ruane: To ask the Minister of State, Department for Business, Innovation and Skills what recent assessment he has made of the effects of levels of work-related stress on the profitability of British industry; and if he will make a statement. [285817]

Jonathan Shaw: I have been asked to reply.

The Health and Safety Executive does not collect data on the effects of work-related stress on the profitability of British industry. However, HSE estimates the economic costs to society of work-related stress in the order of £4 billion a year (2009).

HSE recognise that stress is a major cause of occupational ill health, leading to poor productivity and potential human error. Given the prevalence of work-related stress in Britain, HSE developed the Management Standards for Work-related stress in 2004. This approach is designed to address the key causes of stress at work and help employers, employees and their representatives manage the issue sensibly and minimise the impact on their business.

Innovation Fund

Tony Baldry: To ask the Minister of State, Department for Business, Innovation and Skills whether funding from the new Innovation Fund will be available to *(a)* public and *(b)* private sector companies. [284956]

Mr. Lammy: The UK Innovation Investment Fund will invest in a small number of specialist technology funds. These funds will invest in strategically-important companies in life sciences, clean technologies, digital and advanced manufacturing. Investments in individual companies will ultimately be a commercial decision for the fund manager based on the investment opportunity, the potential risk and the current investment portfolio. These companies may be publicly or privately owned.

Insolvency

Miss McIntosh: To ask the Minister of State, Department for Business, Innovation and Skills how many companies were declared insolvent in *(a)* Vale of York constituency and *(b)* England and Wales in (i) 2005, (ii) 2006, (iii) 2007 and (iv) 2008. [285899]

Ian Lucas: It is not possible to answer part *(a)* of the question asked because statistics covering corporate insolvencies are not currently available at sub-national level within England and Wales. The following table gives the number of corporate insolvencies by insolvency procedure type in England and Wales for the period requested.

Number

	Compulsory liquidations	Creditors' voluntary liquidations (CVLs)[1]	Receivership appointments[2]	Administrations[3]	Company voluntary arrangements (CVAs)
2005	5,233	8,341	590	2,261	604
2006	5,418	8,633	588	3,560	534
2007	5,165	8,437	337	2,512	418
2008	5,494	11,034	867	4,822	587

[1] Includes CVLs following administration.
[2] Includes Law of Property Act receiverships. Receivership figures from 2007 are not consistent with those for the earlier period.
[3] Includes administrator appointments prior to Enterprise Act 2002 and administrations under Enterprise Act 2002.

Miss McIntosh: To ask the Minister of State, Department for Business, Innovation and Skills how many companies went into administration in *(a)* Vale of York constituency and *(b)* England and Wales in (i) 2005, (ii) 2006, (iii) 2007 and (iv) 2008. [285900]

Ian Lucas: It is not possible to answer part *(a)* of the question asked because statistics covering corporate insolvencies are not currently available at sub-national level within England and Wales. The following table gives the number of administrations in England and Wales for the period requested:

Administrations[1]

	Number
2005	2,261
2006	3,560
2007	2,512
2008	4,822

[1] Includes administrator appointments prior to Enterprise Act 2002 and administrations under Enterprise Act 2002.

Insolvency Service: Marketing

John Penrose: To ask the Minister of State, Department for Business, Innovation and Skills how much the Insolvency Service spent on advertising and marketing in each of the last five years. [285442]

Ian Lucas: The Insolvency Service on has not spent anything on advertising and marketing in the last five years, therefore, the answer is nil.

Late Payment of Commercial Debts (Interest) Act 2002

Peter Luff: To ask the Minister of State, Department for Business, Innovation and Skills (1) whether his Department has conducted research on the size of companies bringing forward cases under the Late Payment of Commercial Debts (Interest) Act 2002; and if he will make a statement; [286230]

(2) how many cases brought under the Late Payment of Commercial Debts (Interest) Act 2002 have been heard in court in each of the last five years; and if he will make a statement. [286231]

Ms Rosie Winterton: The Ministry of Justice does not hold any statistical information about court applications (including Scotland) relating specifically to the Late Payment of Commercial Debts (Interest) Act 2002.

This is because the administrative computer systems used in the courts do not presently identify these specific application types. While the relevant cases will be logged on the system, they cannot be distinguished from other types of claims issued. Changing the administrative systems to create specific case types for these types of cases would incur disproportionate cost.

Literacy: Young Offenders

Mr. Grieve: To ask the Minister of State, Department for Business, Innovation and Skills how many young offenders in prison have been recorded as improving their standard of literacy during their sentence in each of the last five years. [285263]

Kevin Brennan: The data provided is from the Learning and Skills Council (LSC) showing the number of literacy enrolments and achievements by young offenders aged 15 to 17 and 18 to 21 for the academic years August 2006 to July 2007 and August 2007 to July 2008. The data collected records the number of literacy enrolments in a year rather than individual learners. As learners may enrol on more than one literacy course in any year, and may achieve at one level and progress to the next level, the number of enrolments and achievements does not represent individual learners.

The Department for Business, Innovation and Skills is responsible for the provision of education in prison and young offender institutions for learners over the age of 18, with the Department for Children, Families and Schools having responsibility for 15 to 17-year-olds. As both sets of data have been supplied by the LSC, they are included for completeness.

	Age group	
	15 to 17	*18 to 21*
Literacy enrolments for the 2006-07 academic year	6,186	8,366
Literacy achievements for the 2006-07 academic year	1,303	2,336
Literacy enrolments for the 2007-08 academic year	6,386	10,567
Literacy achievements for the 2007-08 academic year	1,660	3,357

The information for the 2006/07 academic year may include a small number of enrolments by young offenders serving community sentences because the LSC started recording the custody and community provision separately from the 2007/08 academic year onwards. There is no comparable data prior to 2006 before the LSC became responsible for capturing and recording the information.

Mail Order Selling

Mr. Drew: To ask the Minister of State, Department for Business, Innovation and Skills what representations he has received on enforcement action by the Office of Fair Trading in circumstances where companies repeatedly distribute mail order catalogues containing illegal claims about health products. [288018]

Kevin Brennan: This Department has received no such representations.

Members: Correspondence

Mike Penning: To ask the Minister of State, Department for Business, Innovation and Skills when he plans to reply to the letter from the hon. Member for Hemel Hempstead, on the Enterprise Finance Guarantee Scheme, dated 13 April 2009, transferred to his Department from HM Treasury. [285826]

Ms Rosie Winterton: I apologise for the delay in responding to the hon. Member. My noble Friend, the Parliamentary Under-Secretary of State for Economics Competitiveness, Small Business and Enterprise will respond shortly.

Migrant Workers: Burnley

Kitty Ussher: To ask the Minister of State, Department for Business, Innovation and Skills how many employers in Burnley have had enforcement action taken against them for employing illegal migrant workers in each of the last five years. [286455]

Mr. Woolas: I have been asked to reply.

No illegal working enforcement operations were conducted in Burnley during the period from 1 April 2006 to 31 March 2007.

Two illegal working enforcement operations were conducted in Burnley during the period from 1 April 2007 to 31 March 2008.

Four illegal working enforcement operations were conducted in Burnley during the period from 1 April 2008 to 31 March 2009.

No employers in Burnley have been subject to criminal prosecution under section 8 of the Asylum and Immigration Act 1996 or section 21 of the Immigration, Asylum and Nationality Act 2006 for employing illegal migrant workers in each of the last five years.

One employer was served with a civil penalty under section 15 of the Immigration, Asylum and Nationality Act 2006 in August 2008.

No information relating to enforcement action taken against employers in Burnley for employing illegal migrant workers is available for the period prior to 1 April 2006.

Motor Vehicles: Manufacturing Industries

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills (1) what the average undiscounted retail price has been to date of cars sold under the car scrappage scheme; [278769]

(2) how many sales of cars of each make have attracted support from the car scrappage scheme to date. [278770]

Ian Lucas *[holding answer 9 June 2009]:* 38 manufacturers including makers of the UK best selling cars have signed up to the scheme. Motorists are being offered £2,000 towards a new car or van (up to 3.5 tonnes) if they trade in vehicles they have owned for 12 month plus and which are older than 10 years for scrappage. The £2,000 grant is made up of £1,000 from government with matched funding from industry.

Figures are not available on how many sales of each brand have been supported by the scheme. However, The Prime Minister and my noble Friend the Secretary of State for Business, Innovation and Skills announced on 29 May 2009 that 60,000 scrappage orders had been placed since the scheme was announced. Government do not routinely collect figures on the average retail price of vehicles sold with or without support from the scheme.

National Endowment for Science Technology and the Arts

Mr. Watson: To ask the Minister of State, Department for Business, Innovation and Skills what discussions the Secretary of State and his predecessor had with representatives from the National Endowment for Science, Technology and the Arts in the last two years; and if he will make a statement. [285857]

Mr. Lammy *[holding answer 13 July 2009]:* My noble Friend the Secretary of State for Innovation, Universities and Skills met the chair of the National Endowment for Science, Technology and the Arts (NESTA) on 2 June 2008.

In addition, the Minister for Science and Innovation has met regularly with NESTA representatives in the last two years.

Mr. Watson: To ask the Minister of State, Department for Business, Innovation and Skills who is responsible for making appointments to the Board of Trustees of the National Endowment for Science, Technology and the Arts. [285858]

Mr. Lammy *[holding answer 13 July 2009]:* The appointment of the chair of the Board of Trustees and the Arts Trustee are made jointly by the Secretaries of State for the Department for Business Innovation and Skills and the Department for Culture, Media and Sport. All other appointments are made by my noble Friend the Secretary of State for Business Innovation and Skills.

Mr. Watson: To ask the Minister of State, Department for Business, Innovation and Skills how many people are employed by the National Endowment for Science, Technology and the Arts (NESTA); what the annual salary cost is of *(a)* all NESTA employees and *(b)* its senior management team. [285859]

Mr. Lammy *[holding answer 13 July 2009]:* At 31 March 2009, NESTA employed 92 people, covering the equivalent of 88 full-time posts.

In the year to 31 March 2009, salaries for all NESTA staff totalled £4,150,960, and salaries for the senior management team totalled £584,639.

National Vocational Qualifications: Construction

Justine Greening: To ask the Minister of State, Department for Business, Innovation and Skills how much his Department spent on Government-funded National Vocational Qualification courses in the construction industry in each of the last five years. [281187]

Kevin Brennan: Funding for further education and skills is administered by the Learning and Skills Council (LSC).

The LSC agrees indicative budgets with colleges and providers prior to the start of the academic year based on the expected delivery of an overall volume of learning. The actual funding paid will depend on the choice of learning area made by employers and learners. As funding is not allocated at an individual course level, details of the amount made available to support specific qualifications in this sector are not held centrally in the Department.

Training in the construction industry is also part-funded through a levy raised on employers by the Construction Industry Training Board (CITB) to finance their activities and share the cost of training more evenly between companies. In 2008 the amount of levy income was £181 million.

We have agreed a Train to Gain Sector Compact with the construction sector which will make available £133 million over three years to meet the identified priority skills needs of the industry focused on economic renewal and future growth.

Non-domestic Rates

Mr. Binley: To ask the Minister of State, Department for Business, Innovation and Skills what his most recent estimate is of the percentage of businesses which claim small business rate relief. [286595]

Ms Rosie Winterton: I refer the hon. Member to the answer I gave to the hon. Member for Peterborough (Mr. Jackson) on 8 July 2009, *Official Report*, columns 909-10W.

Non-domestic Rates: Rural Areas

Mr. Binley: To ask the Minister of State, Department for Business, Innovation and Skills (1) which local authorities in rural areas are providing more than 50 per cent. rural rate relief to small businesses; [286569]

(2) which local authorities in rural areas are providing 100 per cent. rural rate relief to small businesses. [286570]

Ms Rosie Winterton: Following is a list of authorities in England that are regarded as being rural under the DEFRA "Classification of local authorities in England for 2007-08" that reported awarding rural rate relief in 2007-08.

Mandatory rural rate relief is awarded at 50 per cent. of a property's non-domestic rates bill. In addition, local authorities can awarded discretionary rural rate relief that tops up the relief granted to up to 100 per cent. of the property's rates bill. It is not possible to award more than 100 per cent. relief.

List of authorities in England that are regarded as being rural under the DEFRA "Classification of local authorities in England for 2007-08" that reported awarding rural rate relief in 2007-08

Data are as reported on audited national non-domestic rates (NNDR) 3 forms completed by all billing authorities in England.

Rural authorities were defined as those authorities that fell into the Significant Rural, Rural-50 or Rural-80 categories of the DEFRA "Classification of Local Authorities in England 2007-08".

North West Development Agency: Public Appointments

Mr. Hoyle: To ask the Minister of State, Department for Business, Innovation and Skills when the Secretary of State expects to appoint a new Chair of the North West Development Agency. [280994]

Ms Rosie Winterton: Before long.

Office of Fair Trading: Freedom of Information

Dan Rogerson: To ask the Minister of State, Department for Business, Innovation and Skills which requests for information received by the Office of Fair Trading under the provisions of the Freedom of Information Act 2000 in 2008 were *(a)* classified as not resolvable and *(b)* refused in full. [286133]

Kevin Brennan: In 2008, of the requests for information received by the Office of Fair Trading (OFT) under the provisions of the Freedom of Information Act 2000, *(a)* three were appealed to the Information Commissioner after an Internal Review and *(b)* 152 were refused in full. The OFT receives a significant number of requests relating to complaints received by the OFT; the disclosure of this information is prohibited under the Enterprise Act 2002 and as a consequence is subject to the absolute exemption from disclosure under section 44 of the Freedom of Information Act. Where the OFT is unable

to provide the information requested, it seeks to provide any advice or information that would be helpful to the requester.

Prisoners: Higher Education

Mr. Galloway: To ask the Minister of State, Department for Business, Innovation and Skills how many of those who were released from prison in each year from 2000 to 2006 *(a)* did and *(b)* did not achieve a degree while in prison. [282235]

Kevin Brennan *[holding answer 29 June 2009]:* The National Offender Management Service, or any other agency, does not collect educational attainment data of prisoners on release. The following table records details of those discharged from prison (excluding those deported without sentence):

England and Wales	*2003*	*2004*	*2005*	*2006*
Males and Females				
Prisoners discharged from determinate sentences on completion of sentence or on licence—adults	69,500	71,500	69,800	65,900
Prisoners discharged from determinate sentences on completion of sentence or on licence—young offenders	15,500	14,800	14,500	12,500
First releases from prison on life licence	223	205	200	135

The following table details the number of OU degrees achieved by prisoners while serving their sentence. Information on degrees awarded by other higher education institutions is not collected centrally.

	Number of prisoners achieving OU degrees
2000	11
2001	17
2002	13
2003	16
2004	17
2005	22
2006	25

It is not possible to say whether prisoners achieving a degree were released in the same year of achieving it.

Mr. Galloway: To ask the Minister of State, Department for Business, Innovation and Skills how many prisoners gained a degree while in prison in *(a)* 2000, *(b)* 2001, *(c)* 2002, *(d)* 2003, *(e)* 2004, *(f)* 2005, *(g)* 2006 and *(h)* 2007. [282237]

Kevin Brennan *[holding answer 29 June 2009]:* The number of offenders gaining Open University degrees while in prison, broken down by year, is as follows:

	Number
2000	11
2001	17
2002	13
2003	16
2004	17
2005	22
2006	25
2007	16

Information on degree qualifications awarded by other higher education institutions is not collected centrally.

Public Houses: Closures

Mr. Don Foster: To ask the Minister of State, Department for Business, Innovation and Skills how many public houses have closed in each region in each of the last three years; and how many of these were *(a)* managed houses, *(b)* tenanted or leased houses and *(c)* freehouses. [288776]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning what estimate has been made of how many public houses have closed in each region in each of the last three years; and how many of these were (a) managed houses, (b) tenanted or leased houses and (c) freehouses. (288776).

Annual statistics on business births, deaths and survival are available from the ONS release on Business Demography. The attached table contains the count of enterprise deaths for each of these categories, for the latest three years available.

Count of enterprise deaths by SIC 55402,55403 and 55404 for 2005-07

	55402—Independent Public Houses and Bars	*55403—Tenanted Public Houses and Bars*	*55404—Managed Public Houses and Bars*
2005			
North East	315	85	5
Northwest	585	565	50
Yorkshire and the Humber	790	175	25
East Midlands	700	160	25
West Midlands	445	495	40

Wales	380	110	5
Scotland	475	40	5
Northern Ireland	80	5	0

Redundancy: Females

Steve Webb: To ask the Minister of State, Department for Business, Innovation and Skills what proportion of those made redundant in each of the last 12 months were women by *(a)* region and *(b)* age. [287328]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking what proportion of those made redundant in each of the last 12 months were women by (a) region and (b) age. (287328)

The attached tables provide estimates for the information requested for the latest four quarters from the Labour Force Survey (LFS). Monthly data are not available.

As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

The figures in the tables are derived from the LFS microdata which are weighted using the official population estimates published in autumn 2007. They are not entirely consistent with the figures published in the monthly Labour Market Statistics Statistical Bulletin which are weighted using more up-to-date population estimates.

Proportion of people aged 16 and over made redundant[1] who were women by region, three-month periods ending June, September, December and March: 2008 to 2009, United Kingdom, not seasonally adjusted

Percentage

		Region						
		North East	*North West*	*Yorkshire and Humberside*	*East Midlands*	*West Midlands*	*Eastern*	*London*

	Q4	40	26	[2]	24	[2]	31
2009	Q1	41	36	22	26	27	34

Proportion of people aged 16 and over made redundant[1] who were women by age, three-month periods ending June, September, December and March: 2008 to 2009, United Kingdom, not seasonally adjusted

Percentage

		Age					
		16-24	*25-34*	*35-49*	*50-59*	*60 and over*	*Total*
2008	Q2	50	37	43	41	30	42
	Q3	32	29	52	49	44	42

Proportion of people aged 16 and over made redundant[1] who were women by age, three-month periods ending June, September, December and March: 2008 to 2009, United Kingdom, not seasonally adjusted

Percentage

		Age					
		16-24	*25-34*	*35-49*	*50-59*	*60 and over*	*Total*
	Q4	23	26	39	32	34	31
2009	Q1	32	34	35	43	25	34

[1] Includes those who have been made redundant in the three months prior to their LFS interview.
[2] Sample size too small for reliable estimates.
Note:
It should be noted that the above estimates exclude people in most types of communal establishment (e.g. hotels, boarding houses, hostels, mobile home sites etc.)
Source:
Labour Force Survey.

Regional Development Agencies: Expenditure

Mr. Ellwood: To ask the Minister of State, Department for Business, Innovation and Skills what recent discussions the Secretary of State has had with the Department for Culture, Media and Sport on levels of funding allocated by regional development agencies for expenditure on support for the tourism industry. [287908]

Ms Rosie Winterton: The Department for Culture, Media and Sport (DCMS) contributes towards the regional development agencies' (RDAs) single programme budget. The single programme budget, once allocated, is available to the RDAs to deliver regional priorities identified in their regional economic strategies and the challenging targets set by them in the corporate plans. RDAs are currently revising their corporate plans and DCMS are involved in this process.

Regional Development Agencies: Finance

Bill Wiggin: To ask the Minister of State, Department for Business, Innovation and Skills what provisional budget his Department has set for regional development agencies in each of the next five years; and if he will make a statement. [285690]

Ms Rosie Winterton: The regional development agencies have an indicative budget of £1.8 billion for 2010-11, and no budgets have been indicated to them beyond that period.

Regional Development Agencies: Pensions

Mrs. Spelman: To ask the Minister of State, Department for Business, Innovation and Skills how much was paid in employer pension contributions to *(a)* the Chief Executive and *(b)* each board member of each regional development agency in each of the last three years. [277993]

Ms Rosie Winterton *[holding answer 4 June 2009]:* The financial value of the employer pension contribution made to both RDA chief executives and RDA chairs are detailed in the tables. RDA board members do not receive a pension from the RDA. The data have been rounded up/down, as appropriate and exclude London, which is the responsibility of the Mayor.

[1] During this period there was a time of overlap where YF had two CEOs. In 2005/06 the outgoing CEX claimed £28,000 while the incoming CEX claimed £4,000 and in 2006/07 the incoming CEX claimed £27,000 while the outgoing claimed £1,000.

Retail Trade: Kent

Mr. Whittingdale: To ask the Minister of State, Department for Business, Innovation and Skills when his Department intends to consult on the wider application of the Kent County Council Act 2001 and the Medway Council Act 2001 for the regulation of markets and occasional sales. [280890]

Kevin Brennan: A consultation on measures to tighten the regulation of markets and occasional sales was recommended in the Gower Review of intellectual property. However, the Department's resources are limited and current efforts are focused on providing targeted help and protection for consumers struggling to make ends meet as a result of the global downturn. It is therefore not possible to give a specific timeframe for implementing this recommendation.

Skilled Workers

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department is taking to increase levels of management skills among employers. [284621]

Kevin Brennan: The Train To Gain Leadership and Management programme provides support and funding for senior managers of small and medium-sized enterprises (SMEs) to access personalised training that meets their development needs. Specialist advisers work with individuals to understand their needs and recommend suitable opportunities. A grant of up to £1,000 can be allocated for employers to spend on any leadership and management development activity deemed appropriate. As part of the Government's package of support developed for SMEs in the economic downturn, the leadership and management programme is now available to all employers with between five and 249 employees.

The Government are increasing investment in Train to Gain. This will rise to over £1 billion by 2010-11.

Skilled Workers: Milton Keynes

Mr. Lancaster: To ask the Minister of State, Department for Business, Innovation and Skills what recent assessment he has made of the adequacy of the skills base in Milton Keynes. [279737]

Kevin Brennan: The Department utilises data and advice from the UKCES and the National Employer Skills Survey to provide a national level picture of skills needs. Information is also available on a regional basis. However, the Department would look to our key partners, regional development agencies and local authorities to work closely with Sector Skills Councils and employers in order to identify skills needs in more defined geographical areas.

South East England Development Agency: Redundancy Pay

Robert Neill: To ask the Minister of State, Department for Business, Innovation and Skills how much the South East England Development Agency has paid out in redundancy payments in the last 24 months; and how much each individual payment was. [286677]

Ms Rosie Winterton: SEEDA has made 33 individual redundancy payments, totalling £663,659.54, between July 2007 and June 2009. These payments have been made as a result of the completion of projects and programmes and the need to restructure teams to focus on new goals requiring different skill sets. Individual payments are listed as follows:

£80,891.90
£49,891.34
£46,174.15
£43,601.33
£36,038.14
£34,285.07
£27,194.50
£24,787.31
£24,539.85
£23,977.98
£23,545.60
£23,497.64
£23,489.37
£19,481.68
£17,620.82
£16,893.12
£16,023.72
£12,844.43
£12,119.94
£11,180.73
£10,121.15
£8,699.71
£8,638.16
£8,469.91
£8,445.29
£8,132.01
£7,718.75
£7,462.54
£7,318.59
£7,292.02
£6,541.63
£3,968.45
£2,766.71

Robert Neill: To ask the Minister of State, Department for Business, Innovation and Skills whether the South East England Development Agency takes account of service in previous public sector employment when calculating redundancy payments for individuals. [286680]

Ms Rosie Winterton: SEEDA is bound by the Civil Service Compensation Scheme for calculating redundancy payments and SEEDA includes service in previous public sector employment in calculating redundancy payments where such service satisfies the rules of the scheme.

Students: Fees and Charges

Stephen Williams: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the cost to the public purse of ending tuition fees for first degree *(a)* full-time and *(b)* part-time undergraduates. [286229]

Mr. Lammy: There are no plans to end tuition fees for either full-time or part-time undergraduate students studying at English Higher Education institutions. Such fees generate an income of around £3 billion annually for Higher Education institutions and it helps them to tackle the challenges Government identified when introducing the new fee and student support arrangements to maintain and improve high standards, to expand and widen access to meet rising skills needs, and to compete globally. Both the number of overall entrants to higher education and those from low participation neighbourhoods has increased since the introduction of tuition fees in 2006.

Students: Loans

Stephen Williams: To ask the Minister of State, Department for Business, Innovation and Skills how many live accounts the Student Loans Company holds in respect of which no repayment is being received; what the reasons are for which no repayments are being made; and how many live accounts are not receiving repayments for each such reason. [286833]

Mr. Lammy *[holding answer 14 July 2009]:* The information requested is published in table 2(ii) for mortgage-style loans and in table 2(iii) for income contingent loans of the Statistical First Release entitled Student Loans for Higher Education in England, Financial Year 2008-09 (provisional) which is available at:

http://www.slc.co.uk/pdf/slcsfr022009.pdf

A copy has been placed in the House Library.

Stephen Williams: To ask the Minister of State, Department for Business, Innovation and Skills how many and what proportion of students enrolled on their first degree course have received a tuition fee loan in each year since 2006. [286834]

Mr. Lammy *[holding answer 14 July 2009]:* The latest figures from the Higher Education Statistics Agency (HESA) show that 981,500 English-domiciled students studying in UK and EU students studying in England enrolled on their first degree in academic year 2006-07 and 1,000,000 in 2007-08. Figures for the 2008-09 academic year will be available in January 2010.

The latest figures published by the Student Loans Company show that 397,300 of English-domiciled students studying in UK and EU students studying in England received a tuition fee loan in academic year 2006-07, 553,600 in 2007-08 and 713,700 in 2008-09 (provisional figures).

The figures are not directly comparable. The HESA figures cover students who enrolled in their first degree and include part-time students whereas the SLC figures cover students who also enrolled in their sub-degree and only cover a small proportion of part-time students i.e. Initial Teacher Training students.

Stephen Williams: To ask the Minister of State, Department for Business, Innovation and Skills how many EU-domiciled students have received a tuition fee loan in each year since 2006. [286836]

Mr. Lammy *[holding answer 14 July 2009]:* The information requested is published in the Statistical First Release entitled Student Support for Higher Education in England, Academic Year 2008/09 (provisional) which is available at:

http://www.slc.co.uk/pdf/slcsfr052008.pdf

A copy has been placed in the House Library.

Tuition fee loans were first introduced in academic year 2006/07. Each academic year the new cohort of students becomes eligible to apply for this loan, thereby increasing the total number of EU-domiciled students who have a tuition fee loan.

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills what proportion of eligible students took out *(a)* a maintenance loan only, *(b)* a tuition fees loan only and *(c)* loans for both for maintenance and tuition from the Student Loans Company in the most recent academic year for which figures are available. [286985]

Mr. Lammy: In 2006/07 the estimated proportion of eligible English domiciled students studying in the UK who took out a maintenance loan is 80 per cent. The information is available at table 4A of the Statistical First Release by the Student Loans Company entitled Student Support for Higher Education in England, Academic Year 2008/09 (Provisional) which is available at:

http://www.slc.co.uk/pdf/slcsfr052008.pdf

A copy is available in the House Library.

It is not possible for us to determine the proportions for the further two categories because the population eligible for tuition fee loans, as opposed to tuition fee grants, cannot be estimated in a robust manner.

As at 31 March 2009, the number of English domiciled borrowers studying in the UK and EU domiciled borrowers studying in England in 2007/08 who had taken out loans is as follows:

52,100 tuition fee loans only;

237,000 maintenance loans only

514,000 tuition and maintenance loans.

Tuition fee loans were introduced in 2006/07 so these figures represent an early stage in the process.

Train to Gain Programme

Dr. Kumar: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of people from the North East registered for Train to Gain courses but who have not yet commenced their training. [280703]

Kevin Brennan: The Learning and Skills Council (LSC) delivers the Train to Gain programme on behalf of the Department. It counts the number of learners who register for Train to Gain at the point where they formally start on programmes. However, there is no formal registration process before a learner starts and therefore no central mechanism is in place to measure the number of people registering an interest.

The LSC is working closely with providers to support ongoing new starts for the remainder of the 2008/09 academic year where providers are within their maximum contract value. Maximum contract values for 2009/10 academic year will be finalised during June.

Train to Gain Programme: Hertfordshire

Mike Penning: To ask the Minister of State, Department for Business, Innovation and Skills how many people resident in *(a)* Hemel Hempstead and *(b)* Hertfordshire have successfully completed a Train to Gain course in each year of its operation. [284564]

Kevin Brennan: The table shows the number of Train to Gain achievements by people living in Hemel Hempstead parliamentary constituency and Hertfordshire local authority.

Train to Gain achievements

	Hertfordshire local authority	*Hemel Hempstead parliamentary constituency*
2005/06	100	—
2006/07	800	70
2007/08	2,800	330

Notes:
1. Geographic area is based on learner's home postcode.
2. Numbers within a local authority have been rounded to the nearest hundred. Numbers within a parliamentary constituency have been rounded to the nearest 10.

Source:
TtG ILR

UK Trade and Investment: Manpower

Mr. Clifton-Brown: To ask the Minister of State, Department for Business, Innovation and Skills how many UK Trade and Investment (UKTI) staff had at least one year's experience in the commercial sector prior to joining UKTI. [281706]

Ian Lucas: Neither the Department nor UK Trade and Investment (UKTI) holds centrally the information requested and it could be provided only at disproportionate costs.

However, people working for UK Trade and Investment do have considerable commercial and business experience. Five out of six members of the UKTI Executive Team and all three of its non-executive directors have business experience as do most of the local staff based in Foreign and Commonwealth Office Posts overseas (some 1,100) and nearly all the International Trade Advisors (just under 300) based in the nine English Regions. UKTI also has a programme of secondments both to and from the private sector.

Unemployment

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 17 June 2009, *Official Report*, column 420W, on unemployment, how many and what percentage of persons in each category not in education, employment or training in the first quarter of 2009 were *(a)* male and *(b)* female. [283993]

Kevin Brennan *[holding answer 14 July 2009]:* The following table shows the number and proportion of people aged[1] 16 to 18 and 19 to 24 not in education, employment or training in England, split by male and female. These estimates are from the Quarter 1 2009 Labour Force Survey.

Numbers not in education, employment or training, Q1 2009

	Male		*Female*	
Age group	*NEET*	*Percentage*	*NEET*	*Percentage*
16-18	123,000	12.3	97,000	10.2
19-24	314,000	15.3	401,000	20.0

[1] Age used is academic age, which is the age of the respondent as at the preceding 31 August.

Base: England only

Source:
Labour Force Survey Q1 2009

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many and what percentage of people aged between 18 and 24 years were not in education, employment or training in the first quarter of each year since 2000. [284312]

Kevin Brennan *[holding answer 14 July 2009]:* The following table shows the number and percentage of people aged[1] 18 to 24 not in education, employment or training (NEET) in England. These estimates are from the Quarter 1 Labour Force Survey (LFS).

NEET estimates are not available from LFS datasets prior to Quarter 2 2000 due to incomplete data.

18 to 24-year-olds not in education, employment or training

Quarter 1	*NEET*	*Percentage*
2001	574,000	14.4
2002	592,000	14.7
2003	612,000	14.9
2004	572,000	13.4
2005	618,000	14.2
2006	674,000	15.2
2007	711,000	15.6
2008	707,000	15.2
2009	827,000	17.6

[1] Age used is academic age, which is the respondents' age at the preceding 31 August.

Q2 Labour Force Survey

Vocational Training

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department is taking to encourage employers to increase skills levels among their employees. [284623]

Kevin Brennan: It is now even more important that we give employers the real help they need to invest in training for their staff so that they can survive the economic downturn and emerge to take advantage of new opportunities when the upturn comes.

Train to Gain is a service for employers which gives them access to a wider range of opportunities for improving the skills of their employees and the productivity of their business. Through Train to Gain employers can access:

A brokerage service to help identify the business' skills needs at all levels and source high quality, vocational skills training, including apprenticeships, delivered at a time and place to suit the business.

Government funding for skills training to sit alongside their own financial contribution. This includes a subsidy of up to 100 per cent. for literacy and numeracy and first full level 2 qualifications, and a fully funded offer for 19 to 25-year-olds up to level 3.

A flexible offer, responsive to and tailored to sector-based variations through sector compacts, and with relaxed funding rules for small and medium-sized enterprises.

The Government are increasing investment in Train to Gain to over £1 billion by 2010-11. Since its launch in 2006, Train to Gain has engaged with 143,000 employers and helped 1.25 million people to start training.

Funding for apprenticeships has increased by almost a quarter since 2007/08 with just over £1 billion available in 2009-10. In January this year, the Prime Minister announced a package for an additional 35,000 apprenticeship places in 2009-10. The number of people starting apprenticeships has increased from 65,000 in 1996/97 to 225,000 in 2007/08.

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills if he will make an estimate of the cost to the public purse of providing 40 per cent. of the workforce with the opportunity to attain a level 4 qualification by 2020. [284625]

Kevin Brennan: It is not possible to build a meaningful estimate of the long-term costs of this goal, given the time span in question and the fact that we do not know the outcome of the 2009 Fees Commission.

Latest labour force survey data shows that just over 31 per cent. of the working age population are qualified to level 4 or above—a generally upward trend from about 25 per cent. eight years ago. We are on target to achieve 40 per cent. by 2020.

Vocational Training: Finance

Mrs. Gillan: To ask the Minister of State, Department for Business, Innovation and Skills how much his Department plans to spend on skills funding in *(a)* England and *(b)* Wales in 2009-10. [285561]

Kevin Brennan: Planned expenditure by the Department for Business Innovation and Skills on adult further education (FE) and skills for 2009-10 in England is £5.2 billion. The Department is not responsible for further education and skills in Wales, which is devolved to the Welsh Assembly Government.

Vocational Training: Trade Unions

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department is taking to involve trade unions in initiatives to increase skills levels. [284622]

Kevin Brennan: Trade unions are making a key contribution to our efforts to raise skill levels in the workplace. Unions and their union learning representatives (ULRs) are uniquely placed to engage with those hard to reach workers with few skills or low confidence in their own ability who employers find it so difficult to reach. To help them do this, we introduced the Union Learning Fund (ULF) in 1998 and will be providing £21.5 million to support this budget in 2009-10.

With the help of ULF, unions and their ULRs have now helped over 800,000 people into learning through a wide range of innovative partnership projects with employers to tackle both organisational and individual skill needs. In 2006, with the Government's support, the TUC established 'unionlearn' to provide additional support and training for ULRs and to maximise the trade union contribution to our efforts to improve work force skills at all levels.

Over 22,000 union learning reps have now been trained and are playing a vital role in helping to combat the economic downturn by providing workers at risk of or facing redundancy with advice and guidance about the wide range of support available to help them improve their skills and employment prospects.

Voluntary Work

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills if he will assess *(a)* the prevalence of unpaid work in the public and private sectors and *(b)* the effect of such work on the economy. [285426]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking *(a)* the prevalence of unpaid work in the public and private sectors and *(b)* the effect of such work on the economy. (285426)

Estimates of the number of people doing unpaid work and the amount of unpaid work they do are available from the Labour Force Survey (LFS). They relate to the number of people in paid employment whose working week includes unpaid overtime, and those people who are unpaid family workers. The attached table provides detail on unpaid work in the public and private sector in terms of number of people, and hours worked, for the latest data available relating to Quarter 1 2009.

Estimates of the effect of unpaid work on the economy are not available. However, the proportion of these unpaid workers and the hours worked as a percentage of total employment are included to give an indication of the prevalence of this in the labour market.

The estimates are derived from the LFS microdata which are weighted using the official population estimates published in autumn 2007. They are not entirely consistent with the figures published in the monthly Labour Market Statistics Statistical Bulletin, which are weighted using more up-to-date population estimates. As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Unpaid work in the public and private sector[1], [2]: Quarter 1, 2009 United Kingdom: Not seasonally adjusted

	Private sector			*Public sector*			*Total*[1]		
	Number (thousand)	*Total usual weekly hours (million)*	*Average usual weekly hours (per person*	*Number (thousand)*	*Total usual weekly hours (million)*	*Average usual weekly hours (per person*	*Number (thousand)*	*Total usual weekly hours (million)*	*Average usual weekly hours (per person*
People who usually work unpaid overtime	3,593	26.3	7	1,803	13.0	7	*5,400	39.3	7
Unpaid family workers	87	1.3	16	n/a	n/a	n/a	*87	1.3	16
Total	3,679	27.6	8	1,803	13.0	7	*5,487	40.8	8
As percentage of the total for all in employment	17	4	n/a	25	5	n/a	19	4	n/a

n/a = Not applicable.
[1] Includes those who did not state whether they worked in the public or private sector.
[2] Coefficients of Variation have been calculated for the latest period as an indication of the quality of the estimates. See Guide to Quality below.
Guide to Quality:
The Coefficient of Variation (CV) indicates the quality of an estimate, the smaller the CV value the higher the quality. The true value is likely to lie within +/- twice the CV—for example, for an estimate of 200 with a CV of 5 per cent. we would expect the population total to be within the range 180-220
Key Coefficient of Variation (CV) (%) Statistical Robustness
* 0 ≤ CV<5 Estimates are considered precise
** 5 ≤ CV <10 Estimates are considered reasonably precise
*** 10 ≤ CV <20 Estimates are considered acceptable
**** CV ≥ 20 Estimates are considered too unreliable for practical purposes
Source:
Annual Population Survey and Annual Labour Force Survey

It should be noted that the above estimates exclude people in most types of communal establishment (e.g. hotels, boarding houses, hostels mobile home sites etc.)

York College: Finance

Hugh Bayley: To ask the Minister of State, Department for Business, Innovation and Skills what budget his Department has provided for York College in *(a)* cash and *(b)* real terms in each year since 2004. [285699]

Kevin Brennan: Funding for post-16 further education (FE) and skills in England is allocated to FE colleges and providers by the Learning and Skills Council (LSC). The following table shows the funding that has been allocated to York College by the LSC, for both young people and adults, in each of the years requested, alongside the corresponding real terms value of these allocations:

£

	Cash allocation[1]	*Real terms*[2]
2004-05	16,570,839	18,252,637
2005-06	18,599,637	20,112,064
2006-07	19,195,411	20,159,859
2007-08	19,592,068	20,020,916
2008-09	20,515,652	20,515,652

[1] LSC allocations data
2 These figures have been calculated using the Gross Domestic Product deflators correct as at 30 June 2009

Written Answers to Questions

Tuesday 21 July 2009

WALES

Damian McBride

Mr. Maude: To ask the Secretary of State for Wales on what date he last met Mr. Damian McBride in the course of his official duties. [287423]

Mr. Hain: I have not met Mr. McBride in either 2008 or 2009. Prior to that Mr. McBride was occasionally present at meetings I attended in the course of my ministerial duties in 2006-07.

Departmental Conditions of Employment

Lynne Featherstone: To ask the Secretary of State for Wales what percentage of employees in his Department *(a)* are on a flexible working contract, *(b)* are on a job share employment contract and *(c)* work from home for more than four hours a week. [287092]

Mr. Hain: The information is as follows:

(a) The Wales Office has 7 per cent. (four staff members) of its staff on a flexible working contract.

(b) None is on a job share employment contract.

(c) One member of staff (2 per cent.) works from home for more than four hours per week.

Departmental Manpower

Jo Swinson: To ask the Secretary of State for Wales what percentage of employees in his Department are *(a)* women and *(b)* men; and what the average hourly pay is of (i) male and (ii) female employees. [288604]

Mr. Hain: Women constitute 52 per cent. of the Wales Office work force. Collectively their average hourly rate of pay is £17.54. The average hourly rate of male staff is £19.24.

Departmental Responsibilities

Mr. Crabb: To ask the Secretary of State for Wales what the executive functions of his Department are. [288645]

Mr. Hain: Most of the executive functions which were the responsibility of the Secretary of State for Wales before 1 July 1999 have been transferred to the Welsh Assembly. The Secretary of State for Wales retains joint responsibility for approving a range of appointments, makes certain election orders for Wales and continues to have responsibility for royal matters, which includes holding the programme budget for lords lieutenant.

The work of the Wales Office is described in detail in its annual reports to Parliament.

PUBLIC ACCOUNTS COMMISSION

Government Departments: Accountancy

Mr. Hurd: To ask the Chairman of the Public Accounts Commission pursuant to the answer to the right hon. Member for Horsham of 24 April 2009, *Official Report*, column 977W, on Government Departments: accountancy, what the nature was of the direction in relation to property and notified regularity in relation to the Icelandic Water Trawlermen Scheme. [289095]

Mr. Alan Williams: This is not a matter for the Public Accounts Commission. The hon. Member may wish to request this information from the Department for Business, Innovation and Skills, which has assumed the responsibility for the scheme from the former Department for Business, Enterprise and Regulatory Reform.

Mr. Hurd: To ask the Chairman of the Public Accounts Commission pursuant to the answer to the right hon. Member for Horsham of 24 April 2009, *Official Report*, column 977W, on Government Departments: accountancy, if he will place in the Library a copy of each letter of direction in relation to property and regularity sent to the Comptroller and Auditor General since 1997. [289096]

Mr. Alan Williams: This is not a matter for the Public Accounts Commission. The hon. Member may wish to request this information from the Departments concerned.

SCOTLAND

Departmental Electronic Equipment

Mr. Philip Hammond: To ask the Secretary of State for Scotland pursuant to the answer of 24 November 2008, *Official Report*, column 807W, on departmental electronic equipment, how much his Department has spent on *(a)* flat screen televisions, *(b)* DVD players and *(c)* stereo equipment since November 2008. [289169]

Ann McKechin: The Scotland Office purchased one flat screen television since November 2008 at a cost of £341 as a replacement for a set which was no longer functioning.

All expenditure has to be incurred in accordance with the principles of Managing Public Money and the Treasury handbook on Regularity and Propriety.

ELECTORAL COMMISSION COMMITTEE

Political Parties: Finance

Mr. Maude: To ask the hon. Member for South West Devon, representing the Speaker's Committee on the Electoral Commission what plans the Electoral Commission has to produce guidance on the new provisions in the Political Parties and Elections Bill on non-resident donors. [288821]

Mr. Streeter: The Electoral Commission informs me that it intends to produce guidance for those it regulates about the new provisions on non-resident donors, and the other changes to the regulatory regime arising from the Bill, in due course.

The timing of publication of each piece of guidance will depend on the timing of the commencement of the relevant provisions in the Bill.

Mr. Maude: To ask the hon. Member for South West Devon, representing the Speaker's Committee on the Electoral Commission what discussions the Electoral Commission has had with HM Revenue and Customs on the enforceability and feasibility of the new provisions in the Political Parties and Elections Bill on non-resident donors. [288863]

Mr. Streeter: The Electoral Commission informs me that it has had no such discussions with HM Revenue and Customs.

WOMEN AND EQUALITY

Commission for Equality and Human Rights

Mr. Grieve: To ask the Minister for Women and Equality what expenditure the Commission for Equality and Human Rights incurred on legal action against *(a)* private and *(b)* public sector organisations in each of the last two years. [286781]

Michael Jabez Foster: The Equality and Human Rights Commission has recorded a spend of £230,868 in 2007-08 and £320,819 in 2008-09 (both including VAT) on external legal costs associated with strategic enforcement litigation carried out in relation to private and public sector organisations.

It is not possible to provide a breakdown of expenditure in terms of public and private sector, as the EHRC does not record expenditure in this way.

Departmental Internet

Mr. Watson: To ask the Minister for Women and Equality pursuant to the answer of 9 July 2009, *Official Report*, column 984W, on departmental internet, what the *(a)* names and *(b)* versions are of the web browsers used on the (i) desktop machines and (ii) laptop computers used by the (A) Director General, (B) chief information officer, (C) head of communications and (D) head of finance of the Government Equalities Office. [289002]

Michael Jabez Foster: The Government Equalities Office uses Microsoft Internet Explorer as its web browser application. The current version in use is v 6.0.3790.1830. This version is used by all staff on both desktop and laptop computers.

Females: Refuge

Robert Key: To ask the Minister for Women and Equality how many women's refuges there are in England; and how many are staffed at all times. [284061]

Michael Jabez Foster: The Government do not collect information centrally on the number of women's refuges in England or the provision of staff within refuges.

The provision of services to victims of domestic violence is a local issue; local decision makers are best placed to assess local needs. The majority of services are delivered through local providers who are supported and funded by local bodies, such as local councils and health organisations.

HOUSE OF COMMONS COMMISSION

Cycling

Gwyn Prosser: To ask the hon. Member for North Devon, representing the House of Commons Commission with reference to the answer of 5 November 2008, *Official Report*, column 475W, on cycling, when he expects to announce the decision on the implementation of a cycle to work scheme for staff of the House; and if he will make a statement. [288503]

Nick Harvey: The House Service has investigated the possible implementation of a cycle to work scheme, taking into account the experiences of other public sector organisations which had implemented a scheme. The conclusion was that the House Service should not implement a scheme. This was based on the low take-up rates found elsewhere, and the unrecoverable overhead costs. The House Service will continue to encourage cycling through the bicycle loan scheme and facilities for cyclists, including bicycle racks and showers.

Yorkshire and the Humber Select Committee

Andrew Mackinlay: To ask the hon. Member for North Devon, representing the House of Commons Commission (1) which witnesses travelled to attend the planned meeting of the Yorkshire and the Humber Regional Select Committee in Leeds; what expenses relating to such travel have been met by the House; and if he will make a statement; [288647]

(2) what expenditure on *(a)* accommodation, *(b)* travel by Committee members and staff and *(c)* other expenses the House has incurred in respect of the meeting of the Yorkshire and Humber Regional Select Committee which was expected to take place in Leeds but which did not do so because the Committee was inquorate. [288703]

Nick Harvey: The witnesses who travelled to Leeds for this meeting were Richard Wightman, president of Yorkshire and Humber Chambers of Commerce; David Wilson, Engineering Employers Federation; Tony Cherry, national vice-chairman, Federation of Small Businesses; and Andrew Palmer, regional director, Confederation of British Industry. No claims for travel expenses have been received from the prospective witnesses. The costs for staff accommodation were £317.95, and for staff travel were £1,115, in both cases for five staff. Other costs, including the hire charge for the room, were £137.

SOLICITOR-GENERAL

BAE Systems

Sir Menzies Campbell: To ask the Solicitor-General what investigations the Serious Fraud Office has conducted into BAE Systems since January 2004. [282068]

The Solicitor-General: There have been four investigations conducted by the Serious Fraud Office (SFO) into BAE Systems plc. All four investigations began on 14 July 2004. The SFO decided to discontinue the investigation into the affairs of BAE Systems plc.—as far as they relate to the Al Yamamah defence contract with the Government of Saudi Arabia—on 14 December 2006. The other three investigations continue.

Complaints

Mr. Sanders: To ask the Solicitor-General what the policy and procedures are of *(a)* the Treasury Solicitor and *(b)* the Law Officers for handling complaints made against their legal staff. [267948]

The Solicitor-General: Complaints received from members of the public about legal staff in the Law Officers' Departments are dealt with according to each Department's individual procedure.

The underlying principle is that there is a tiered system of oversight starting at the local level, progressing, if the complainant remains dissatisfied, to a nominated senior lawyer in that Department. After a Department's own procedure has been concluded the complainant can write to the Attorney General's Office for it to consider whether the complaint was handled fairly, sensitively and in confidence, and whether each concern raised has been appropriately dealt with.

Corruption

Sir Menzies Campbell: To ask the Solicitor-General how many requests from foreign jurisdictions relating to allegations of overseas corruption offences the mutual legal assistance unit of the Serious Fraud Office has received in the last 10 years; from which jurisdictions such requests have come; and how many such requests have resulted in domestic investigations since 2001. [282009]

The Solicitor-General: It would incur disproportionate cost to identify the number of requests received from foreign jurisdictions by the Serious Fraud Office's (SFO) mutual legal assistance Unit over the last 10 years.

The SFO does not disclose details of assistance provided to overseas investigations without consent from the referring jurisdiction or unless the referring jurisdiction has made public disclosures.

Since 2001, only two requests for assistance involving corruption from overseas jurisdictions have resulted in domestic investigations being opened by the SFO. One of these investigations is ongoing, while the other was discontinued in June last year.

Sir Menzies Campbell: To ask the Solicitor-General what criteria the Serious Fraud Office applies in deciding whether to investigate an allegation of overseas bribery. [282007]

The Solicitor-General: The key criterion used by the Serious Fraud Office (SFO) when deciding whether to accept a case is that the suspected fraud or corruption appears to be so serious or complex that its investigation should be carried out by those responsible for its prosecution.

Other factors taken into consideration when deciding whether to accept a case are as follows:

Whether the value of the alleged fraud exceeds £1 million;

If the case has a significant international dimension;

If the case is likely to be of widespread public concern;

If the case requires highly specialised knowledge—for example, of financial markets;

If there is a need to use the SFO's special powers, such as section 2 of the Criminal Justice Act.

The SFO does not have separate criteria that apply to allegations of overseas bribery. Allegations of this nature would have to meet the above criteria for the SFO to commence an investigation.

The SFO could not—and does not—take on every referred case of suspected fraud or corruption. It must focus its resources on the major, most complicated and serious instances of fraud or corruption. Cases which do not meet the SFO's case acceptance criteria may be referred to other authorities for investigation and prosecution.

Sir Menzies Campbell: To ask the Solicitor-General to which countries the Serious Fraud Office has provided assistance in corruption cases since 2001; and if she will make a statement. [282008]

The Solicitor-General: The Serious Fraud Office's (SFO) mutual legal assistance unit has provided assistance to 26 countries since 2001.

There has been a notable increase in the number of countries that the SFO has assisted since the former Solicitor-General (Mr. O'Brien) answered a similar question to this on 11 January 2007, *Official Report*, column 644W.

The SFO does not disclose details of assistance provided to overseas investigations without consent from the referring jurisdiction or unless the referring jurisdiction has made public disclosures.

Sir Menzies Campbell: To ask the Solicitor-General what cases of alleged overseas bribery and corruption which the Serious Fraud Office has accepted for investigation are under investigation; which countries are concerned; and if she will make a statement. [282018]

The Solicitor-General: The Serious Fraud Office is currently investigating a number of significant cases where there are allegations of overseas bribery and corruption, as well as fraud.

It is not possible for operational reasons to give specific details of each of these cases, but two examples of current investigations include an investigation into Kellog Brown and Root in connection with Nigeria and a number of other countries, and an investigation into reinsurance involving the National Insurance Institute in Costa Rica.

A number of other cases are also currently being considered for investigation in the vetting process.

Sir Menzies Campbell: To ask the Solicitor-General how many cases had been recorded on the register of referrals for overseas corruption on the latest date for which figures are available; and how many cases recorded on the register were *(a)* investigated, *(b)* researched to establish whether an investigation was merited, *(c)* closed after investigation and *(d)* passed to another agency in each year since 2001. [282047]

The Solicitor-General: The register of referrals for overseas corruption was maintained by the National Criminal Intelligence Service from 14 February 2002 after sections 108 and 109 of the Anti-Terrorism, Crime and Security Act (2001) came into effect. On 1 August 2005, the Serious Fraud Office (SFO) took over responsibility for maintaining the register.

The SFO had 202 cases recorded on the register of referrals for overseas corruption as of 30 June 2009—the latest date for which figures are available.

In respect of parts *(a)*, *(b)* and *(c)* of the right hon. Member's question, the figures are shown in the following table.

Calendar year	*Cases recorded*	*(a) Investigated (following research)*	*(b) Researched*	*(c) Closed after investigation*
2002[1]	6	0	4	0
2003	7	4	1	2
2004	34	6	18	1
2005	23	6	12	3
2006	24	4	12	3
2007	36	11	17	3
2008	44	16	17	8
2009[2]	28	0	23	0
Total	202	47	104	20

[1] From 14 February 2002.
[2] To 30 June 2009.

In respect of part *(d)* of the question, approximately 30 cases have been passed on to other agencies since the register was opened. A year-by-year breakdown cannot be provided as records are not kept in this format.

Corruption: Prosecution

Sir Menzies Campbell: To ask the Solicitor-General what meetings *(a)* she and *(b)* her officials have had with (i) representatives of business organisations, (ii) representatives of individual companies and (iii) other persons on the prosecution of corruption offences in the last 12 months; and what representations have been received on the matter in that period. [282048]

The Solicitor-General: Officials from the Serious Fraud Office (SFO) frequently meet with representatives of business organisations and individual companies, professional advisers and other interested parties such as non-Government organisations. These meetings often involve discussions about the prosecution of corruption offences as well as other counter-fraud matters. The SFO encourages an open dialogue with a wide range of stakeholders on corruption and continues to receive representations from these on how it can improve its approach to this important issue.

Crown Prosecution Service: Expert Evidence

Mark Pritchard: To ask the Solicitor-General what progress has been made by the Crown Prosecution Service in its evaluation of appropriate standards for expert witnesses in criminal trials. [287015]

The Solicitor-General: The Crown Prosecution Service (CPS) has welcomed and responded to the recent consultation by the Law Commission on the Admissibility of Expert Evidence in Criminal Proceedings. It has also been assisting the independent Forensic Science Regulator in producing a set of Quality Standards for Forensic Experts which have been the subject of consultation. The CPS has established an internal advisory Expert Evidence Assurance Panel (EEAP) to support the Director of Public Prosecutions (DPP) in this area; and it continues to contribute to key criminal justice agencies' work in this field.

Damian McBride

Mr. Maude: To ask the Solicitor-General on what date *(a)* she and *(b)* the Attorney General last met Mr. Damian McBride in the course of their official duties. [287422]

The Solicitor-General: Neither myself nor the Attorney-General met with Mr. Damien McBride in the course of official duties.

Domestic Violence: North West

Andrew Stunell: To ask the Solicitor-General how many *(a)* arrests, *(b)* prosecutions and *(c)* convictions of (i) men and (ii) women for acts of domestic violence there were in (A) Stockport, (B) Greater Manchester and *(c)* the North West in each of the last 10 years. [271177]

The Solicitor-General: The following tables show the number of defendants prosecuted by the Crown Prosecution Service (CPS) in Stockport, Greater Manchester, and the North West for offences of domestic violence in each of the five years (these are the years for which complete records are available). CPS data are confined to defendant case outcomes in a set of proceedings. Information on arrests has been provided by the Home Office in the following tables. This information is captured on a different basis, and cannot easily be associated with CPS data.

Outcomes are divided into convictions, including guilty pleas as well as convictions after trial, and unsuccessful

outcomes, comprising all other outcomes. Figures are shown separately for male and for female defendants. The North West comprises CPS Cumbria and CPS Lancashire.

The tables also show comparable data for England and Wales as a whole for the same period.

Domestic violence outcomes by gender of defendant

Government Legal Service: Complaints

Mr. Sanders: To ask the Solicitor-General what procedures there are within the Government Legal Service for dealing with complaints about non-compliance with the Lexcel standard. [267493]

The Solicitor-General: The procedure in respect of complaints about non-compliance with Lexcel by Treasury Solicitor's Department is that, like any complaint, they should be directed to the Head of Litigation at the Treasury Solicitor's Department or to the Treasury Solicitor for consideration.

Any complaints in respect of other Departments will be dealt with in accordance with the rules of the relevant Department.

Government Legal Service: Manpower

Mr. Sanders: To ask the Solicitor-General what the order of precedence and seniority is of the lawyers within the Government Legal Service; and what procedures are used to reconcile differences of opinion between lawyers of different ranks within the Service. [267508]

The Solicitor-General: The Government Legal Service (GLS) is the organisational name for a group embracing the legal divisions in around 30 Departments, agencies and other organisations across Government. The GLS does not employ staff. Lawyers are employed by Departments, agencies and other organisations across Government. Membership of the GLS is by accreditation of the department or other body to which the lawyer belongs. The organisational management structure and lines of accountability apply to Government lawyers in the same way as they apply to all other civil servants working in the same organisation.

The inter-relationships between Government lawyers' obligations as civil servants and as members of the legal profession are set out in the Guidance Note for Government Lawyers, including the right, and at times the duty, to consult the Law Officers on professional questions.

Government Legal Service: Standards

Mr. Sanders: To ask the Solicitor-General what requirements there are on members of the Government Legal Service who are on the roll of solicitors to report to the Solicitors Regulation Authority the conduct of other members of the Government Legal Service who may not have complied with the professional standards of solicitors. [267507]

The Solicitor-General: Members of the Government Legal Service (GLS) who are enrolled solicitors are under the same requirement as all other enrolled solicitors with regard to the reporting of conduct of solicitors which may have breached professional standards, whether those solicitors are in the GLS, in in-house practice elsewhere or in private practice.

That requirement derives from the Law Society's Code of Conduct which requires the reporting of serious misconduct and serious financial difficulty.

Mr. Sanders: To ask the Solicitor-General what steps have been taken to promote legal professionalism within the Government Legal Service. [267547]

The Solicitor-General: The members of the Government Legal Service (GLS) take their obligation to promote the professionalism of their legal staff very seriously. All Government lawyers are bound by the codes of conduct applicable to their branch of the profession, including the duty to undertake Continuing Professional Development. They are supported in this through access to a tailored programme of Professional Training for Government Lawyers—designed by the GLS and delivered through the National School of Government.

Legal Costs

Mr. Grieve: To ask the Solicitor-General in how many cases costs have been awarded against the Crown Prosecution Service in each of the last three years. [285274]

The Solicitor-General: The following table provides a summary of the total number of payments made and the value of costs awarded against the Crown Prosecution Service (CPS) in the last three financial years. The CPS

holds no central record of the number of cases in respect of which costs were awarded against the Service. The information is held on individual case files and could only be retrieved by examining every relevant file in each CPS office.

	Value (£000)	Number
2006-07	403	262
2007-08	732	333
2008-09	633	485

Every effort has been made to ensure that the information is comprehensive and correct, but a full reconciliation against the original transactions has not been performed as this would incur disproportionate costs.

Legal Profession

Mr. Sanders: To ask the Solicitor-General what the *(a)* employment status and *(b)* requirement to pay national insurance contributions is of counsel whom the Government restrict from undertaking work for others. [267494]

The Solicitor-General: The two First Treasury Counsel (who undertake exclusively civil litigation in which the Crown has an interest) are self-employed barristers. Their national insurance position is a matter between them and Her Majesty's Revenue and Customs.

Negligence: Legal Costs

Mr. Sanders: To ask the Solicitor-General what provision has been made by the Treasury Solicitor to meet any professional negligence claims and complaints in each of the last three years; and what provision has been made for the next three years. [267046]

The Solicitor-General: The Treasury Solicitor's Department has made no provision to meet any professional negligence claims in the last three years and has no plans to make any such provision.

The Treasury Solicitor's Department, in common with other Departments, has a formal procedure for external complaints, details of which are available on its website.

Offences Against the Person Act 1861

Jon Trickett: To ask the Solicitor-General how many defendants were sentenced under the provisions of section 20 of the Offences Against the Person Act 1861 after a plea bargain by the *(a)* Crown Prosecution Service (CPS) nationally and *(b)* West Yorkshire CPS in 2007-08. [285496]

The Solicitor-General: Plea bargaining is not a term recognised by the criminal law of England and Wales. The decision of a prosecutor to accept guilty pleas to offences other than those charged, or on a different factual basis, is governed by section 10 of the Code for Crown Prosecutors and the Attorney-General's guidelines on the acceptance of pleas and the Prosecutor's role in the sentencing exercise.

Crown Prosecution Service records include a count of the number of offences in which a prosecution commenced under s20 of the Offences Against the Person Act 1861, and these figures are as follows. However, CPS records include no particulars of the outcome of proceedings at this level of detail, and to obtain this information would incur disproportionate cost.

Offences reaching a first hearing in magistrates courts

	S18 Offences Against the Person Act 1861	
	CPS England and Wales	*CPS West Yorkshire*
2005-2006	7,158	320
2006-2007	6,617	228
2007-2008	6,770	257
2008-2009	6,672	329

	S20 Offences Against the Person Act 1861	
	CPS England and Wales	*CPS West Yorkshire*
2005-2006	5,642	249
2006-2007	5,457	199
2007-2008	5,321	190
2008-2009	5,072	233

Jon Trickett: To ask the Solicitor-General how many defendants over the age of 21 years were charged with an offence of grievous bodily harm under section 18 of the Offences Against the Person Act 1861 in 2007-08; and how many such defendants subsequently agreed to plead guilty to, and were convicted of, an offence under section 20 of that Act after discussions with the prosecuting authorities. [282017]

The Solicitor-General: The Crown Prosecution Service's system for managing its case data includes a count of the number of offences for which a prosecution is commenced under section 18 of the Offences Against the Person Act 1861, and these figures are as follows. However, the case management system does not record particulars of subsequent amendments to the charges brought. While the CPS records both the outcome of proceedings and the age of defendants, this information is captured at defendant level, not at specific charge level.

Offences against the Person Act 1861 (18)

	Number
2005-06	7,158
2006-07	6,617
2007-08	6,770
2008-09	6,672

Prosecutions

Mr. Grieve: To ask the Solicitor-General how many prosecutions brought by the Crown Prosecution Service have not resulted in a conviction in each of the last three years. [285273]

The Solicitor-General: The following table shows, for each of the last three years, the number of defendants prosecuted by the CPS whose case was completed in magistrates courts and in the Crown court. These are divided into convictions, inclusive of guilty pleas as well as cases convicted after trial, and unsuccessful outcomes, representing all outcomes other than a conviction.

	Magistrates court		Crown court		All courts	
	Number	Percentage	Number	Percentage	Number	Percentage
2006 to 2007						
Conviction outcomes	831,901	84.2	69,118	77.3	901,019	83.6
Unsuccessful outcomes	156,080	15.8	20,290	22.7	176,370	16.4

Total completed outcomes	928,708		103,890		1,032,598	

Prosecutors: Training

David Howarth: To ask the Solicitor-General what training is given to prosecutors who appear in youth courts to enable them to take account of the age and welfare needs of those aged under 18 years. [284301]

The Solicitor-General: The Crown Prosecution Service (CPS) provides a three-day training course, accredited by the Law Society and the Bar Council, that equips prosecutors to conduct youth court cases in a manner that takes into account the age, welfare and developmental needs of young defendants. The CPS also holds regular seminars and an annual inter-agency conference to inform prosecutors of legal, policy and practical developments affecting young defendants.

Solicitor-General: Meetings

Lynne Jones: To ask the Solicitor-General who else attended the meeting on 13 March 2003 between the then Attorney-General, Lord Falconer, and Baroness Morgan; what subjects were discussed at that meeting; what the duration of the meeting was; and whether an official record of the meeting was kept. [281455]

The Solicitor-General: The meeting is referred to in the disclosure statement made under the Freedom of Information Act 2000 by the Cabinet Office and the (then) Legal Secretariat to the Law Officers on 22 May 2006. The statement can be found on the website of the Attorney General's Office at:

http://www.attorneygeneral.gov.uk/sub_disclosure_log_2006.html

No further information about the meeting is held.

Treasury Counsel

Mr. Sanders: To ask the Solicitor-General if she will make it her policy to employ Treasury Counsel on a permanent basis rather than engaging them on a case by case basis with a view to reducing expenditure on legal fees. [267045]

The Solicitor-General: The practice whereby First Treasury Counsel and the members of the Attorney-General's panel of civil counsel are engaged, as practising members of the Bar, to undertake work on individual cases on behalf of Government has served successive Administrations well. There is no intention at present to cease that practice and to engage them on a permanent basis as civil servants.

Treasury Solicitors Department

Mr. Sanders: To ask the Solicitor-General what records exist of payments made by the Treasury Solicitor's Department to counsel instructed by it. [267491]

The Solicitor-General: The Treasury Solicitor's Department maintains electronic and paper records in relation to all payments made to counsel instructed by it. This will include information about disbursements and VAT.

Mr. Sanders: To ask the Solicitor-General which lawyers working in the Treasury Solicitor's Department have professional practising certificates. [267495]

The Solicitor-General: The Bar Council requires barristers who are employed by the Treasury Solicitor's Department to hold practising certificates. Therefore all those members of staff who are members of the Bar hold practising certificates. The Department's staff who are members of the Law Society are not required to hold practising certificates and therefore the Department does not hold records of those members of staff who are solicitors and hold practising certificates.

Treasury Solicitors Department: Complaints

Mr. Sanders: To ask the Solicitor-General what mechanisms are in place to provide redress for individuals in circumstances in which the professional service provided by the Treasury Solicitor's Department is found to have been inadequate. [267479]

The Solicitor-General: The Treasury Solicitor's Department, in common with other Government Departments, has a complaints procedure for external complaints which is publicly available on its website. As well as this internal complaints procedure, an individual who considers that he or she has suffered an injustice as

a result of maladministration by the Department may, through his or her Member of Parliament, make a complaint to the Parliamentary Commissioner for Administration, and details of how to do so are also included on the Department's website.

Mr. Sanders: To ask the Solicitor-General what requirements there are on the Treasury Solicitor's Department in respect of complaints made to it under the Lexcel procedures. [267496]

The Solicitor-General: The requirements are that there should be compliance with Rule 2 of the Solicitors' Code of Conduct, which addresses client relations and, among other matters, covers the provision of information on complaints.

Mr. Sanders: To ask the Solicitor-General how many complaints have been made to the Treasury Solicitor's Department which have been recorded and processed under the Lexcel procedure in the last 12 months; and how many such complaints have still to be processed. [267497]

The Solicitor-General: Treasury Solicitors has recorded 20 external complaints under its complaints procedure (in compliance with Lexcel) within the last 12 months. Of these complaints 18 have been processed and two are outstanding.

Mr. Sanders: To ask the Solicitor-General what procedures are adopted by *(a)* the Treasury Solicitor, including by a delegation to his Deputy, and *(b)* the Law Officers in response to complaints against the Treasury Solicitor or counsel instructed by the Treasury Solicitor that they are acting for parties who claim to be independent of each other. [267498]

The Solicitor-General: The information is as follows:

(a) The detail of procedures adopted by the Treasury Solicitor's Department in respect of complaints that it receives has been set out in the answer to question 267479.

(b) The position in respect of the Treasury Solicitor's Department acting for more than one part of the Crown, or on behalf of bodies or persons who are not the Crown, is set out in the answer to question 267499.

Treasury Solicitors Department: Conflict of Interests

Mr. Sanders: To ask the Solicitor-General (1) what procedures exist within the Treasury Solicitor's Department to ensure that *(a)* the Treasury Solicitor's Department and *(b)* counsel receiving instructions when acting for more than one legal entity in the same case record any conflict of interest; [267499]

(2) what guidance the Treasury Solicitor's Department provides to its legal staff to ensure that legal professionalism is maintained in respect of potential conflicts of interest; [267950]

(3) what procedures there are to ensure that counsel instructed by the Treasury Solicitor do not act for parties with separate interests in disputes in which the Treasury Solicitor acts for more than one party and may have instructed the same counsel for more than one such party. [267951]

The Solicitor-General: The Treasury Solicitor's Department takes its understanding of the concept of "conflict of interest" from the Law Society's Solicitors' Code of Conduct.

When the Treasury Solicitor, or counsel instructed by the Treasury Solicitor, acts for a Secretary of State, a Minister or a Government Department or agency, the client is the Crown itself (which is to say, the Crown in right of the Executive). There can be no conflict of interest in the legal professional sense in acting for a single client in more than one manifestation.

Occasionally, while acting for the Crown, the Treasury Solicitor is requested to act on behalf of bodies or persons who are not the Crown. These may be non-departmental public departments or, very occasionally, individual Crown servants having a personal legal interest in a matter or claim. In such cases, where there is a possibility of conflict of interest, the Treasury Solicitor's Department operates under procedures that have been designed to be compliant with Lexcel, which is the Law Society's practice management standard. That standard embraces policy and practice in relation to conflict of interests. In pursuit of accreditation, the Department has prepared guidance for all its staff which explains the requirements of the Code and details procedures for identifying and handling potential conflicts of interest. Both the policy and the procedures are kept under review.

The procedures have been designed to ensure that conflicts of interest are swiftly identified, the clients are informed and appropriate steps are taken to safeguard the interests of the parties concerned. Such steps may, where the interests of all parties cannot be properly safeguarded, involve the Department's declining to act for the non-Crown party.

In any case where the question of conflict of interest has arisen, the case work file will contain a record of the consideration and the outcome.

Treasury Solicitors Department: Legal Costs

Mr. Sanders: To ask the Solicitor-General what steps the Treasury Solicitor's Department takes on *(a)* certifying and *(b)* claiming costs for work undertaken to ensure that the quantum of costs claimed is accurate, taking into account the indemnity principle. [267505]

The Solicitor-General: The steps taken on *(a)* certifying and *(b)* claiming costs for work undertaken include the drawing up of a Bill of Costs which is checked by a law costs draftsman from the in-house costs team at the Treasury Solicitor's Department with reference to the following:

(i) Information from the Treasury Solicitor's Department Finance Department is obtained which identifies all the elements of work which have been billed to the client Department, including all disbursements.

(ii) Only elements of work which have been charged to the client Department are included in the subject matter of the costs recovery claim and any elements of work charged to a client Department which would not properly be recoverable from the other side are excluded.

(iii) The hourly rates which are applied accord with the Judgment of the Court of Appeal in "Re Eastwood Deed [1975] Ch. 112."

(iv) The Bill of Costs is also usually sent to the Case Officer who had conduct of the litigation for a similar checking/verification process and to the client Department for approval.

(v) On the return of the Bill from the client Department, the law costs draftsman carries out final checks and completes and signs a certificate as to its accuracy, on behalf of the Treasury Solicitor.

In the context of a Summary Assessment of costs a Schedule of Costs is prepared and checked by the litigation case officer with assistance and input, where necessary, from the in-house costs team.

Mr. Sanders: To ask the Solicitor-General what guidance and training materials have been produced by the Treasury Solicitor's Department with regard to costs certifications and claims to ensure compliance with the indemnity principle; and when and how such guidance has been amended in the last five years. [267506]

The Solicitor-General: A guidance note was produced in March 2006, this guidance updated, as necessary, earlier guidance. Furthermore, the in-house costs team are continually providing training, support and advice in respect of all aspects of costs law and procedure, including the indemnity principle as qualified by the judgment of the Court of Appeal in Re Eastwood Deed [1975] Ch. 112. During the last 18 months training in costs law and procedure has been delivered to all the litigation teams within the Department.

Treasury Solicitors Department: Manpower

Mr. Sanders: To ask the Solicitor-General how many lawyers working within the Treasury Solicitor's Department are of senior civil service rank; and how many of them are qualified to practise in England and Wales as *(a)* solicitors and *(b)* barristers. [267500]

The Solicitor-General: There are 61 qualified lawyers in the senior civil service in the Treasury Solicitor's Department. Of these, 39 are qualified solicitors and 22 are qualified barristers.

Mr. Sanders: To ask the Solicitor-General how many lawyers below senior civil Service rank employed by the Government Legal Service are *(a)* qualified solicitors in England and Wales, *(b)* qualified barristers in England and Wales and *(c)* not qualified solicitors or barristers in England and Wales. [267501]

The Solicitor-General: The Government Legal Service database holds records of 1,686 qualified lawyers below the senior civil service employed by Departments who are members of the Government Legal Service. Of these, 1,297 are qualified solicitors and 389 are qualified barristers. The database has no records of unqualified staff.

Mr. Sanders: To ask the Solicitor-General what policies and procedures exist to ensure that the Treasury Solicitor staff do not *(a)* undertake work for which a solicitor's practising certificate is required and *(b)* act for those for whom Government lawyers did not act prior to 1974; and what guidance is provided to the Treasury Solicitor's staff about such restrictions on activities. [267510]

The Solicitor-General: The information is as follows:

(a) The Treasury Solicitor is bound to act within the law and his Department is organised, and work is undertaken, accordingly.

(b) It is presumed that the reference to 1974 is a reference to the passing of the Solicitors Act of that year, which governs the activities of solicitors. The provisions of that Act are not understood as limiting the activities of the Treasury Solicitor or his Department to acting only for clients existing prior to that date.

Mr. Sanders: To ask the Solicitor-General what policies and procedures exist within the *(a)* Treasury Solicitor's Department and *(b)* the Government Legal Service to ensure that its lawyers do not act in conflict of interest situations with particular reference to acting for a party to a dispute and the adjudicator to the dispute. [267545]

The Solicitor-General: The Treasury Solicitor's Department takes its understanding of the concept of "conflict of interest" from the Law Society's Solicitors' Code of Conduct.

As a part of its commitment to compliance with the code, the Department has sought and achieved accreditation with Lexcel which is the Law Society's practice management standard. That standard embraces policy and practice in relation to conflict of interests. In pursuit of accreditation, the Department has prepared guidance for all its staff which explains the requirements of the code and details procedures for identifying and handling potential conflicts of interest.

Both the policy and the procedures are kept under review. In relation to the Government Legal Service, individual Departments are responsible for the conduct of lawyers employed by them.

Treasury Solicitors Department: Pay

Mr. Sanders: To ask the Solicitor-General who the 10 highest paid Treasury counsel were in each of the last three years; and how much each counsel received in each of those years. [267492]

The Solicitor-General: The 10 barristers (being either First Treasury Counsel or members of the Attorney-General's panel of civil counsel) receiving the highest fee payments from the Treasury Solicitor's Department in respect of instructions from that Department in the last three financial years were as follows:

	£
2006-07	
Mr. Philip Sales	530,986
Mr. Tim Eicke	221,882
Miss Lisa Giovannetti	184,172
Mr. Jonathan Crow	165,657
Mr. Andrew O'Connor	150,895
Mr. David Barr	148,816
Mr. Paul Gott	140,914
Mr. Martin Chamberlain	139,248
Mr. Jeremy Johnson	138,239
Mr. Alan Payne	136,524
2007-08	
Mr. Philip Sales	551,163
Mr. Jonathan Swift	226,680
Mr. Jeremy Johnson	219,132

	£
Mr. Parishil Patel	217,303
Miss Lisa Giovannetti	206,850
Mr. Nicholas Moss	197,380
Mr. James Eadie	182,520
Mr. Andrew O'Connor	171,840
Mr. Alan Payne	164,666
Mr. Martin Chamberlain	158,993
2008-09	
Mr. Philip Sales	446,974
Mr. David Evans	286,340
Mr. Jonathan Swift	242,764
Mr. Jeremy Johnson	235,182
Mr. Alan Payne	186,555
Mr. Jonathan Glasson	180,300
Mr. Nicholas Moss	175,620
Mr. Philip Coppel	175,129
Miss Leigh-Ann Mulcahy	172,001
Miss Lisa Giovannetti	164,962

Treasury Solicitors Department: Standards

Mr. Sanders: To ask the Solicitor-General what obligations there are on the Treasury Solicitor and those working for him to comply with the professional obligations of lawyers with practising certificates. [267502]

The Solicitor-General: The holding of practising certificates does not, in itself, impose professional obligations on lawyers. The Treasury Solicitor and his legally qualified staff are under the same obligation to comply with the rules of their professions as any other practising lawyer, solicitor or barrister.

Mr. Sanders: To ask the Solicitor-General what guidance there is to ensure that the Treasury Solicitor's Department advises its clients on obligations concerning *(a)* disclosure and *(b)* statements of truth required in litigation; and what records are kept of material by the Treasury Solicitor on provision of such advice. [267546]

The Solicitor-General: The Crown and its servants are obliged to comply with the terms of the Civil Procedure Rules with regard to disclosure and the making of statements of truth.

The Treasury Solicitor and his legally qualified staff owe the same duty of professional care to the Crown as any solicitor or barrister does to his or her client to act lawfully and in the client's best interests.

As well as these requirements all civil servants are expressly bound by the Civil Service Code to "comply with the law and the administration of justice" and Government lawyers are additionally told by the Attorney General's Guidance Note for Government Lawyers "to give impartial, objective and frank advice". In providing such advice, they must "have particular regard to the fact that it is a fundamental obligation of Government that it should itself act in accordance with, and subject to, the law."

Advice tendered to clients in the course of litigation will be a matter of record in the case file pertaining to the matter.

PRIME MINISTER

Cabinet

Robert Neill: To ask the Prime Minister (1) in what circumstances the Minister of State in the Department for Communities and Local Government, the hon. Member for Doncaster Central, will attend Cabinet; [288292]

(2) in what circumstances the Minister for Housing will attend Cabinet meetings. [288321]

The Prime Minister: I refer the hon. Member to the ministerial appointments press notice issued by my Office. Copies are available in the Library of the House and are also available on the No. 10 website at:

http://www.number10.gov.uk/Page19564

Foreign Relations

Mr. Holloway: To ask the Prime Minister from which *(a)* Heads of State and *(b)* Heads of Government he received a letter of congratulation on his appointment. [288618]

The Prime Minister: Details of this correspondence is not made public, but I was grateful to receive such letters.

Government Departments: Security

Mr. Maude: To ask the Prime Minister what criteria he uses when determining whether to request the Security Commission to investigate a breach of security in Government Departments. [287286]

The Prime Minister: The Prime Minister would refer a case to the Security Commission following consultation.

Members: Surveillance

David Davis: To ask the Prime Minister whether any hon. Member has been subject to *(a)* official surveillance and *(b)* interception of communications in the last two years. [288592]

The Prime Minister: The Wilson doctrine continues to apply to all forms of surveillance and interception that are subject to authorisation by Secretary of State warrant.

Ministerial Policy Advisers

Mr. Grieve: To ask the Prime Minister if he will publish an updated list of the Government's special advisers before the House adjourns for the summer recess. [286779]

The Prime Minister: I refer the hon. Member to the written ministerial statement I made on 16 July 2009, *Official Report*, columns 73-76WS.

National Security Forum

Mr. Dai Davies: To ask the Prime Minister what meetings the National Security Forum has had in July 2009; and what matters were discussed at each meeting. [287494]

The Prime Minister: The Forum met in July, attended by me, to discuss a variety of issues put to it by the Cabinet Committee on national security, international relations and development. As I set out in my written ministerial statement on 9 March 2009, *Official Report*, columns 3-4WS, the Government will report annually on its activity.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Subsidies

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs how many maps of their land submitted by farmers in claiming common agricultural policy subsidies in 2007-08 were judged by his Department to be materially incorrect. [284402]

Jim Fitzpatrick: The Rural Payments Agency (RPA) is responsible for the maintenance of mapping data used to support the single payment scheme (SPS) and other direct support schemes.

RPA cannot determine which map notifications from farmers are materially incorrect (have incorrect boundaries and in field features), other than by undertaking an inspection of the farm. In each scheme year the RPA inspects 5 per cent. of SPS customers. As a result of these inspections, in the 2007 scheme year the need for mapping changes were identified in 3,284 farm businesses, which resulted in 18,375 amended fields. In the 2008 scheme year the need for mapping changes were identified in 3,033 farm businesses, which resulted in 20,860 amended fields.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons the Rural Payments Agency decided to issue a new set of maps in connection with claims for payments under the single payment scheme; and what estimate he has made of the likely cost of doing so. [R] [286065]

Jim Fitzpatrick: The Rural Payments Agency (RPA) is in the process of updating land information used to support the single payment scheme and other direct support schemes. The programme of work is under way to deliver the up-to-date geographic information system, required under EU regulations following criticism in European Commission audits which has the potential to result in financial penalties (disallowance). It is calculated that approximately 5 per cent. of land parcels change every year.

RPA has projected a budget of £21.4 million (covering the period January 2007 to April 2010) to complete the programme of work which includes updating the Rural Land Register (RLR) data with the latest mapping information and confirming the link between each land parcel and a specific claimant; the strategy, necessary IT infrastructure and capability to update the RLR regularly and systematically in future to ensure it meets regulatory requirements and can support further service enhancements such as electronic access.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs by what date farmers are required to notify the Rural Payments Agency of amendments in relation to the new set of maps issued in connection with claims for payment under the single payment scheme; and within what time period the Rural Payments Agency will be required to confirm such amendments. [R] [286070]

Jim Fitzpatrick: The Rural Payments Agency (RPA) is asking farmers to respond within 28 days of receiving their updated maps. The agency appreciates this is a busy time of year and that farmers with a large number of land parcels may need more time to check their maps. In these circumstance farmers are asked to contact the RPA and agree an extended response date.

Map amendments received by RPA within the 28-day period will be reviewed and, once accepted, should be confirmed in a new set of maps sent to the farmer approximately six to eight weeks later. Any map amendments sent in after the 28-day period will take longer to be accepted and confirmed.

The mapping update is being done now as the application period for the 2009 single payment scheme (SPS) has passed and before the payment window opens. The updated maps should be used to pre-populate the 2010 SPS application forms.

Mr. Wallace: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the total monetary value of single farm payments withheld for *(a)* cattle passport infringements and *(b)* other infringements in (i) 2007-08 and (ii) 2008-09. [288500]

Jim Fitzpatrick: The monetary value withheld from single payment scheme (SPS) payments because of cattle passport and cattle identification infringements or other infringements is set out in the following table:

£

SPS Scheme Year	*SPS money withheld for cattle passport and cattle identification infringements*	*SPS money withheld for other reasons*
2007	579,011	7,125,230
2008	446,850	3,815,815

The figures are for 2007 and 2008 SPS years and do not correlate to financial years.

Air Pollution: EU Law

Simon Hughes: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the merits of requiring regional tiers of government to contribute to the payment of fines levied in respect of non-compliance with EU Directives on air quality; and if he will make a statement. [288719]

Jim Fitzpatrick: We have made no such assessment. It is for the European Court of Justice to decide whether any fine should be imposed as a result of a member state's non-compliance with EU legislation.

Climate Change: South East

Sandra Gidley: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment he has made of the likely effects of climate change on the *(a)* ceremonial county of Hampshire and *(b)* South East in the next 10 years. [288402]

Dan Norris: On 18 June, the Government published the latest UK Climate Projections. These projections show the potential changes in climate for the UK for a range of probabilities, climate variables and emissions scenarios. The data are provided by region to a scale of 25km grid squares in 30-year overlapping time slices, starting from the 30-year average between 2010-39. These data are freely available to all to make their own assessments of the likely effects of climate change. The Government have set the framework to allow local authorities to undertake their own assessments of the risks and effects from climate change into the future by including a new performance indicator (National Indicator 188 Planning to Adapt to Climate Change) in the local government performance framework. Under the Climate Change Act 2008 the Government are required to undertake a risk assessment of the impacts of climate change on the UK. The results of this risk assessment will include an assessment by region and are expected to be published in 2012.

Compost

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department has *(a)* commissioned and *(b)* evaluated research into the proportion of households with access to private gardens to facilitate home composting. [288980]

Dan Norris: The Waste and Resources Action Programme (WRAP) has been funded by the Government to promote home composting as a sustainable means of reducing biodegradable waste going to landfill. WRAP estimates that around 80 per cent. of UK households have access to an open space in which they can undertake home composting (including wormeries/vermiculture). Such open spaces can include yards and balconies as well as gardens.

Dairy Farming: Finance

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs if he will assess the merits of using funding from *(a)* his Department's budget and *(b)* Rural Development Programme for England programmes to assist dairy farmers in meeting the cost of slurry stores arising from obligations under the Nitrates Directive. [288406]

Jim Fitzpatrick: To ensure the budget available to England under the Rural Development Programme achieves the best possible value for money, it was decided not to implement measures within the Rural Development Regulation that provide assistance to farmers to adapt to standards based on Community legislation. To provide assistance to farmers that would only implement obligations under the Nitrate Pollution Prevention Regulations 2008 would offer no additionality—an important consideration in spending any taxpayers' money.

No new central Government money will be made available for assisting farmers with the costs of meeting the manure storage capacity requirements established by the Nitrates Regulations. Capital grants could simply increase storage tank supply prices and merely postpone the impact of market forces. Providing grants would also contravene the 'polluter pays' principle.

However, there are ways in which farmers can minimise the need for extra storage, through simple actions such as diverting rainwater away from slurry stores and covering storage tanks. We are providing advice and guidance on these actions and have provided a three-year implementation period.

Slurry storage facilities may also be considered as plant and machinery and therefore eligible for plant and machinery allowances such as the new annual investment allowance, capped at £50,000 per year. Slurry pits also qualify for allowances in their own right under the Capital Allowances Act 2001.

Damian McBride

Mr. Maude: To ask the Secretary of State for Environment, Food and Rural Affairs on what date he last met Mr. Damian McBride in the course of his official duties. [287904]

Dan Norris: Since the date of Mr. McBride's resignation (11 April 2009), my right hon. Friend has had no meetings with Mr. McBride.

Departmental Accountancy

Steve Webb: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to publish his Department's resource accounts for 2008-09. [287335]

Dan Norris: DEFRA intends to lay the Department's resource accounts for 2008-09 before Parliament by 21 July 2009, subject to clearance by the Comptroller and Auditor General. Publication will follow within one month of laying.

Departmental Electronic Equipment

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in his Department; how many there were in each of the last three years; and if he will make a statement. [286174]

Dan Norris: DEFRA currently holds contracts with a number of suppliers for provision of photocopiers, scanning devices and fax machines. No central record of the numbers provided via individual contracts is held and therefore to obtain the number of machines across the Department would incur disproportionate cost.

In the case of all three types of equipment, no ongoing record is kept of the number used so it is not possible to provide historical information for the last three years.

DEFRA is actively involved in accelerating progress with Green ICT and has significant activity in place to reduce the carbon footprint of its IT estate. A print study is currently under way which will address all facets of document production including photocopying and scanning.

Departmental Manpower

Jo Swinson: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of employees in his Department are *(a)* women and *(b)* men; and what the average hourly pay of the (i) male and (ii) female employees in his Department was in the latest period for which figures are available. [287556]

Dan Norris *[holding answer 20 July 2009]:* The latest published data are as at 31 March 2008 and held within the Annual Civil Service Employment Survey statistics published by ONS, which can be accessed by using the following link.

http://www.statistics.gov.uk/pdfdir/cs0109.pdf

Domestic Waste: Waste Disposal

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if he will request the Waste and Resources Action Programme to produce best practice guidance on the operation of weekly collections of residual household waste. [288979]

Dan Norris: WRAP has produced guidance on a wide variety of collection approaches and best practice for specific material streams. Its forward work programme is agreed annually with DEFRA. DEFRA has not asked WRAP to produce guidance specifically on best practice on weekly collections of household waste to date. We will continue to work with WRAP to ensure the guidance that it provides gives a range of advice that is valuable to local authorities in assisting them in the decisions they have to make about approaches to collecting household waste at a local level.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the answer to the hon. Member for Beckenham of 9 October 2008, *Official Report*, column 724W, on domestic waste: waste management, whether other local authorities have reinstated weekly collections of residual household rubbish *(a)* in whole and *(b)* in part for summer months. [288987]

Dan Norris: DEFRA does not keep such records and the Waste and Resources Action Programme is not aware of any other local authorities that have reinstated weekly collections of residual waste either in whole or in part since 9 October 2008.

Fisheries: Prosecutions

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs how many prosecutions for offences involving harm or disturbance to marine wildlife and habitats have been brought in each of the last five years. [288208]

Huw Irranca-Davies: The following table from the Ministry of Justice (MOJ) shows the number of prosecutions brought under the Wildlife and Countryside Act 1981 (for those sections for which data are available) from 2003 to 2007. The MOJ cannot separately identify from the Act those offences that specifically relate to offences involving harm or disturbance to marine wildlife and habitats.

Wildlife and Countryside Act Prosecutions 2003 to 2007

		Defendants

Wildlife and Countryside Act Prosecutions 2003 to 2007

Statute	Offence description	Defendants 2003	2004	2005	2006	2007
Total		59	90	62	150	49

Notes:
1. The figures given in the table on court proceedings relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences it is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Court proceedings data held by RDS—Office for Criminal Justice Reform—Ministry of Justice.

Gatwick Airport: Noise

Sir John Stanley: To ask the Secretary of State for Environment, Food and Rural Affairs when he plans to send to the right hon. Member for Tonbridge and Malling a copy of the report sent to the European Commission in relation to noise mapping of the area around Gatwick airport which he undertook to enclose in his letter to the right hon. Member of 9 June 2009. [288557]

Jim Fitzpatrick: Two copies of the report sent to the European Commission in relation to noise mapping around Gatwick airport were sent to the right hon. Member on 16 July.

Genetically Modified Organisms: Hampshire

Sandra Gidley: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department has authorised sites in the non-metropolitan county of Hampshire for use for experiments relating to genetically-modified foods. [288400]

Dan Norris: Between 1995 and 1998 we authorised experimental trials of GM crop plants to take place at various sites in Hampshire, as set out in the following table. No trials have been authorised in Hampshire since 1998.

Town or village	Ordnance Survey grid reference	Crop type
Martyr Worthy	SU 518 341	Oilseed rape
Martyr Worthy	SU 514 340	Oilseed rape

[1] Best available information

Glasgow

John Mason: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to visit Glasgow on official business during the summer Adjournment. [288916]

Dan Norris: My right hon. Friend has no current plans to do so.

Nature Conservation: Crime

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many reported incidents of wildlife crime there were in each of the last 10 years. [288211]

Huw Irranca-Davies: The National Wildlife Crime Unit (NWCU) has recorded wildlife incidents across the UK since April 2007. Information on incidents that occurred prior to April 2007 is not held centrally but would be available from each individual police force across the UK.

The NWCU cannot currently provide details of how many of the following incidents have since been given a crime number by the reporting force. Therefore, these figures must be looked at only as incidents, not accurate figures of wildlife crime.

Incidents reported to NWCU (April 2007 to December 2007) for whole of UK

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many people were charged with offences related to wildlife crime in each of the last 10 years. [288212]

Huw Irranca-Davies: Information on how many people were charged with offences related to wildlife crime in each of the last 10 years is not held centrally.

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many prosecutions for offences related to wildlife crime there were in each of the last 10 years. [288213]

Huw Irranca-Davies: The following table shows the number of defendants proceeded against at magistrates courts for offences under the Wildlife and Countryside Act 1981, Protection of Badgers Act 1992, Deer Act 1991, Control of Trade in Endangered Species (Enforcement) Regulation 1997, and the Conservation of Seals Act 1970, in England and Wales for the years 1998 to 2007.

	Proceeded against

2005	108
2006	190
2007	88

Oil: Waste Disposal

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance he has issued on the point at which a waste oil ceases to be considered a waste product. [287409]

Dan Norris: My Department has not issued guidance on the stage when a waste oil ceases to be waste. However, the Environment Agency has issued an end-of-waste protocol on "the production and use of processed fuel oil from waste lubricating oil". Waste lubricating oil which meets the criteria set in the post-consultation version of the protocol will be considered by the Agency to have ceased to be waste.

Recycling: Business

Mr. Wallace: To ask the Secretary of State for Environment, Food and Rural Affairs what initiatives his Department is undertaking to encourage businesses to recycle waste. [288501]

Dan Norris: Since the Waste Strategy for England 2007 was published, DEFRA has been engaging with key waste stakeholders on priorities for commercial and industrial waste policy and we are aiming to publish a further statement of our strategic aims on commercial and industrial waste later this year.

DEFRA funds a number of delivery bodies to help stimulate and support business to be more resource efficient and reduce and recycle its waste.

These include:

Envirowise—waste and water minimisation.

The National Industrial Symbiosis Programme (NISP) to facilitate one operator's waste being used as a raw material by another.

The Waste and Resources Action Programme (WRAP) to encourage recycling by business and consumers.

The Centre for Reuse and Remanufacturing, the Construction Resources and Waste Platform to encourage greater resource efficiency in the construction sector.

Action Sustainability to support more sustainable procurement.

The Business Resource Efficiency and Waste (BREW) Centre for local authorities to provide tailored advice to business communities on waste and resource efficiency issues.

In line with the Government's Business Support Simplification Programme and following the outcome of the Delivery Landscape Review, DEFRA has made WRAP responsible for overseeing funded support for material resource efficiency. The development and implementation of measures to minimise and recycle commercial and industrial waste will continue to be a key priority for this body.

Rural Payments Agency: Manpower

Mr. Wallace: To ask the Secretary of State for Environment, Food and Rural Affairs how many full-time equivalent members of staff of each grade have been employed by the Rural Payments Agency in each year since 2007. [288482]

Jim Fitzpatrick: Full-time equivalent members of staff by grade employed by the Rural Payments Agency in each year since 2007 are as follows:

Grade	*2007-08*	*2008-09*
Senior Civil Servant	8	7
Grade 6	24	27
Grade 7	73	84
Senior Executive Officer	155	163
Higher Executive Officer	353	391
Executive Officer	1,002	953
Administrative Officer	1,910	1,708
Administrative Assistant	15	6
Staff total	3,540	3,339

Set-aside Schemes

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what timetable he plans for the establishment of a voluntary approach to set-aside. [287820]

Jim Fitzpatrick: Following a public consultation, on 9 July the Secretary of State announced our decision to pursue an industry-led voluntary approach to set-aside mitigation, known as the Campaign for the Farmed Environment. The campaign has already established its key principles, agreed targets and attracted support from a range of industry partners, Government and others. A memorandum of understanding between the various parties is close to completion and the campaign is working up more detailed plans.

Sheep: Tagging

Mr. Carmichael: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 6 July 2009, *Official Report*, columns 531-32W, on sheep: tagging, when he plans to announce his proposals for the further reduction of the implementation burden on the industry of the electronic identification of sheep. [288836]

Jim Fitzpatrick: Further changes were secured to Council Regulation 21/2004 on 14 July at the Standing Committee of the Food Chain and Animal Health. These changes permit movements to be read on behalf of keepers at central reading points, such as markets and abattoirs. We estimate that this change will save the UK sheep industry between £7 million and £18 million each year.

Combined with the two-year deferment to implementation and the other changes that were secured, the overall cost to the industry could be reduced by up to £65 million, depending on how the industry uses the concessions which were won for them.

In England we will be working closely with industry over the coming months to put in place a practical and workable system for electronic identification of sheep by 31 December 2009.

Trading Standards

Mr. Wallace: To ask the Secretary of State for Environment, Food and Rural Affairs what procedures are in place to facilitate information-sharing between his Department and trading standards officials. [288499]

Jim Fitzpatrick: DEFRA assesses each request to share information on its merits, in accordance with the Data Protection Act 1998, the Human Rights Act 1998 and any other applicable legislation, to ensure effective and cost-efficient delivery of public services. If a regular exchange of information is required, data-sharing protocols can be set up to facilitate the process.

There is a close working relationship between Animal Health and Trading Standards in the larger rural counties. Information sharing takes place on many levels:

Working together on enforcement issues including animal welfare cases and many other Animal Health enforcement issues results (notably bovine tuberculosis) in sharing of information on an informal and weekly/daily basis.

Additional funding for Trading Standards offices has been supplied from DEFRA in recent years. Monitoring/auditing this work and our partnership has been done in regular meetings (often quarterly) under what we call the Framework Agreement. This involves sharing of information on a more formal basis.

Animal Health managers are invited to Trading Standards regional meetings of the Central England Animal Health and Welfare Group (CenTSA) on a quarterly basis where information can be shared.

There is an IT system referred to as AMES where information on the activities of Trading Standards staff is recorded. These data are available to both Animal Health and Trading Standards.

Requests from Trading Standards are occasionally received for Animal Health to supply data from Animal Health IT systems. With due regard to data protection legislations, these requests are usually facilitated.

Waste Disposal: Private Finance Initiative

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how many waste management private finance initiative schemes have been successfully concluded to date; and how many such schemes are awaiting planning permission. [287411]

Dan Norris: 19 waste management private finance initiative (PFI) schemes have reached financial close to date. Six of these projects are currently awaiting planning permission.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how many waste disposal private finance initiative schemes have been successfully concluded to date; and how many such schemes are awaiting planning permission. [287428]

Dan Norris: To date, 19 waste private finance initiative (PFI) schemes have reached financial close. Of the 19 closed projects there are 18 in which the scope of the service includes ultimate disposal of waste. Six of these projects are currently awaiting planning permission for the disposal facility.

Water Charges

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the environmental effects of the proposed new surface water drainage charge system. [288125]

Huw Irranca-Davies: In 2003, following a review of the various options, Ofwat recommended that charging in relation to site area is the fairest approach to charging for surface water drainage. The larger the site area, the more surface water is likely to drain from it. Charging by site area therefore better reflects the actual costs imposed on the system by customers.

Charging by site area is also considered to be the most environmentally responsible approach in that it provides a financial incentive for site owners to reduce the amount of water that is directed into the public sewerage system. Options for achieving reductions include such things as: replacing an asphalt or concrete car parking area with a gravel one, and the installation of soakaways. This will reduce the likelihood of flooding from overloaded sewers.

Surface water drainage needs to be managed more sustainably, by allowing for the increased capture and reuse of water, slow absorption through the ground, and more above-ground storage and routing of surface water separate from the foul sewer, where it is appropriate to do so. Water should increasingly be managed on the surface, rather than relying on the wholesale upgrade of the sewer system which would be a costly and lengthy process.

The Environment Agency has estimated that around two-thirds of the flooding in summer 2007 was due to surface water. Surface water flooding is extremely difficult to predict as it is often a result of sudden localised rainfall events, and very small variations in the built environment can have significant effects on the way the water flows.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what the average *(a)* metered and *(b)* unmetered water bill was in each water company area in each year since 1989. [288506]

Huw Irranca-Davies: A spreadsheet giving figures for metered and unmetered water bills in each water company area since 1989, in 2009-10 prices, has been placed in the Library of the House.

DEFENCE

Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence how many rounds of each type of ammunition were discharged during the last roulement in Afghanistan. [280821]

Bill Rammell: Officials are collating and validating the data needed and this is taking longer than anticipated. I will write to the hon. Member with the information requested.

Mr. Laws: To ask the Secretary of State for Defence how many urgent operational requests made in relation to Afghanistan in the last 12 months had not been met by 13 July 2009; and if he will make a statement. [286820]

Mr. Bob Ainsworth: The Urgent Operational Requirement (UOR) process exists to address unforeseen capability gaps for imminent or current operations. Over 70 UORs for Afghanistan were approved in the period 13 July 2008 to 13 July 2009. We would generally expect these programmes to begin delivering capability to theatre between six and 18 months after approval. We would not, therefore, expect the majority of requirements associated with these programmes to be fully met within the period stated in the question.

Mr. Ingram: To ask the Secretary of State for Defence which non-NATO member countries have contributed to the ISAF military mission to Afghanistan in each of the last five years; and what contribution each such country has made. [287545]

Mr. Bob Ainsworth *[holding answer 20 July 2009]:* There are currently 14 non-NATO nations contributing to ISAF operations. They are as follows:

Australia
Austria
Azerbaijan
Bosnia and Herzegovina
Finland
Former Yugoslav Republic of Macedonia
Georgia
Ireland
Jordan
New Zealand
Sweden
Singapore
Ukraine
United Arab Emirates

Details of contributing nations are available on the NATO website at

http://www.nato.int/isaf/structure/nations/index.html

Information about each nation's contributions is a matter for each nation. Information from 2007 is available at

http://www.nato.int/isaf/docu/epub/pdf/placemat.html

Armed Forces: Aviation

Dr. Fox: To ask the Secretary of State for Defence how many and what percentage of flights *(a)* to and *(b)* from operational theatres have been (i) cancelled and (ii) delayed in each year since 2007; what the (A) location and (B) destination was of each such delayed flight; and what the (1) the length of time of and (2) reason for the delay was of each such delayed flight. [274978]

Mr. Bob Ainsworth: I will write to the hon. Member.

Substantive answer from Bill Rammell to Liam Fox:

My predecessor undertook to write to you in answer to your Parliamentary Question of the 13 May 2009 (Official Report, column 762W) about the number of airbridge aircraft delayed in each year since 2007.

Delay statistics are routinely collected for the passenger airbridge only. The passenger airbridge has provided a consistent and reliable service over the period, moving large numbers of personnel into sometimes hostile environments and under difficult conditions. Every effort is made to minimise delays and over 92% of airbridge flights arrive within six hours of their scheduled time.

No airbridge tasks to Op Telic or Op Herrick have been cancelled since 2007. Delays may occur for a number of reasons. The location and reason for each delay is not held centrally and could only be provided at disproportionate cost. Individual tasks could be delayed for more than one reason. Examples include: Air Traffic Control and airspace restrictions, missing imposed theatre arrival slot times, technical and equipment failures, diplomatic clearance, weather, crew duty hours, passenger and ground handling issues, fuelling, and holding aircraft to facilitate deployment of priority aeromedical teams to theatre.

Information on delays to civil aircraft chartered by the MOD to operate the passenger airbridge is given in the following tables. For 2007 delays were measured against the scheduled time of departure. Since January 2008 delays have been measured against scheduled time of arrival. It is not possible to distinguish between outbound and inbound charter flights. The data are held by calendar year and percentages have been rounded to the nearest whole number.

Op Telic civil chartered aircraft delays to and from theatre

	Operated on time or within 1 hour	*% on time or within 1 hour*	*Delayed 1-3 hours*	*% 1-3 hours*	*Delayed 3-6 hours*	*% 3-6 hours*	*Delayed 6 hours and over*	*% 6 hours and over*
2007 February to December	289	65	106	24	30	7	17	4
2008	376	85	21	5	16	4	28	6
2009 January to April	98	86	9	8	0	0	7	6

Op Herrick civil chartered aircraft delays to and from theatre

	Operated on time or within 1 hour	*% on time or within 1 hour*	*Delayed 1-3 hours*	*% 1-3 hours*	*Delayed 3-6 hours*	*% 3-6 hours*	*Delayed 6 hours and over*	*% 6 hours and over*
2007 February to December	63	82	11	14	2	3	1	1
2008	111	94	4	3	0	0	3	3
2009 January to April	117	80	12	8	6	4	12	8

Information on delays to RAF Tristar aircraft undertaking the passenger airbridge outbound from the UK to Op Herrick is given in the following table. Delays have been measured against scheduled time of arrival. The data are held by financial year and percentages have been rounded to the nearest whole number.

Op Herrick RAF Tristar UK to theatre

Financial year	*Operated on time or within 1 hour*	*% on time or within 1 hour*	*Delayed 1-3 hours*	*% 1-3 hours*	*Delayed 3-6 hours*	*% 3-6 hours*	*Delayed 6 hours and over*	*% 6 hours and over*
2007-08	176	72	44	18	19	8	5	2
2008-09	152	57	59	22	29	11	25	9

Information on delays to RAF Tristar aircraft undertaking the passenger airbridge inbound from the Op Herrick theatre to the UK are only available from January 2008 and are given in the following table. Delays are measured against the scheduled time of departure from theatre and the available statistics only allow identification of delays of between 1-3 hours and over 3 hours. The data are held by financial year and percentages have been rounded to the nearest whole number.

Op Herrick RAF Tristar theatre to UK

	Operated on time or within 1 hour	*% on time or within 1 hour*	*Delayed 1 -3 hours*	*% 1-3 hours*	*Delayed 3 hours and over*	*% 3 hours and over*
2008 January to March	30	67	7	16	8	18
Financial year 2008-09	121	51	59	25	55	23

Armed Forces: Detainees

Adam Price: To ask the Secretary of State for Defence what the names are of all detainees who have died in the custody of UK forces in each year since 2001; and what the *(a)* date and *(b)* cause of death was in each case. [260499]

Mr. Bob Ainsworth *[holding answer 3 March 2009]:* The following table lists the detainees that have died while within the custody of the UK in Iraq. Where known, the official cause of death is included. However, burial is often within 24 hours in accordance with religious custom, preventing a post mortem from occurring.

Operation Telic

Date of death	*Name of deceased*	*Post Mortem Cause of Death*
12 April 2003	Tarik Mahmud	Not established
8 May 2003	Ahmed Jabber Kareem	Drowned
8 May 2003	Radhi Numa (Radhi Nu'ma Jaber)	Heart Attack
17 May 2003	Abd Al Jubbu Mousa Ali	Not established
24 May 2003	Said Shabram	Not established
7 August 2003	AJKhalif	Not established
15 September 2003	Baha Mousa	Asphyxia
10 April 2004	Unknown	Not established

Those Afghans involved in engagements with coalition or Afghan forces who died within a UK facility in Afghanistan from the wounds they sustained in these engagements are listed in the following table. Despite our best efforts, these eight individuals did not survive what were life-threatening injuries. No detainees have died while in a UK detention facility in Afghanistan.

Operation Herrick

Date of death	*Name of deceased*	*Post Mortem Cause of Death*
13 January 2007	Unknown	Not established
5 April 2007	Haji Mohammad	Not established
5 April 2007	Ghos Mohammad	Not established
30 April 2007	Unknown	Not established
3 July 2007	Hadi Abdul	Not established
15 July 2007	Sardar Mohammed	Not established
5 December 2007	Abdul Ahad	Not established
8 September2008	Unknown	Not established

To the best of our knowledge this is a complete record. My predecesaor's statement to the House on 26 February reported on detention records in Afghanistan since the deployment of Task Force Helmand in July 2006 and on detention records in Iraq from 15 December 2003 onwards. Most of the fatalities listed above for Iraq occurred before 15 December and so were not covered in that statement. It is also possible that incidents that occurred before 15 December 2003 in Iraq are not captured in our records.

Armed Forces: Discharges

Willie Rennie: To ask the Secretary of State for Defence how many members of the armed forces retired from front line operational duties for reasons of ill health in each year since 1997. [283342]

Mr. Kevan Jones: The single services record the numbers of personnel who are at any one time "unfit for task" or "unable to deploy", although their figures do not distinguish between the majority who are temporarily non-deployable and the minority for whom this is a permanent diagnosis. Details of the numbers of personnel "fit for task" and "fit to deploy" in each quarter since 2006 were given in my answers to the hon. Member for Woodspring (Dr. Fox) on 20 and 22 January 2009, *Official Report*, columns 1262-64W and 1664-66W, and to the hon. Member for North Devon (Nick Harvey) on 28 April 2009, *Official Report*, column 1156W.

The numbers of personnel in these categories will be constantly changing and the majority of armed forces personnel who for medical reasons become temporarily unfit to deploy to front line duties will subsequently recover and return to full-fitness. In a relatively small number of cases, their injury or condition may mean that they become permanently unable to deploy. Reasons for this are various, but might include a serious permanent injury (physical or mental) or because during service they develop a medical condition that is incompatible with front line duties.

The majority of those personnel who fall into the category of medically "not fully fit" remain fit enough to work in some capacity and therefore continue to make a contribution to operational effectiveness, often within theatres of operation.

Service personnel with medical conditions or fitness issues which affect their ability to perform their duties will generally be referred to a medical board for a medical examination and review of their medical grading. In clear-cut cases where the individual's fitness falls below the service employment and retention standards, the board will recommend a medical discharge without further delay. In many cases however, the patient will first be downgraded, to allow for treatment, recovery and rehabilitation. For personnel who do not make a total recovery, the board may recommend the patient is retained as permanently downgraded with limited duties, or they may recommend a medical discharge. The numbers of service personnel medically discharged during the period 1997 to 2008 are shown in the following table:

Year of medical discharge	*Naval Service (Royal Navy and Royal Marines)*	*Army*	*RAF*
1997	392	1,062	232
1998	454	1,069	160
1999	456	1,148	178
2000	483	1,063	187
2001	414	1,035	185
2002	392	1,022	137
2003	320	998	251
2004	379	1,084	202
2005	396	1,047	207
2006	357	1,009	241
2007	350	1,000	229
2008	332	842	192
Total	4,725	12,379	2,401

Armed Forces: Health Services

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* average, *(b)* shortest and *(c)* longest period of time is for newly trained medical officers to be allocated to postings in the latest period for which figures are available. [280826]

Mr. Kevan Jones: The arrangements in place for the three services are as follows.

All newly qualified military doctors have to undertake two years of foundation training after qualifying from medical school. They then have to complete the course for new entry officers relevant to their particular service, normally six months for the Royal Navy and Army, five months for the Royal Air Force.

In the case of the Royal Navy and the Army, these courses are followed by assignments to ships, Royal Marine commando units, medical regiments, Field Army units or medical centres. RN Medical Officers appointed to submarines undertake a further six months of submarine specific training. In the RAF officers are assigned after the new entry course to GP vocational training, specialist hospital training or to supervised practice in an RAF medical centre.

The period of time from the start of foundation training until initial posting into either a service delivery appointment or, in the case of the RAF, specialty training, can thus be expressed as follows.

	Shortest period	Longest period	Months Average period
Royal Navy	30	36	32
Army	30	30	30
Royal Air Force	29	29	29

Armed Forces: Helicopters

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* required and *(b)* actual number of training instructors for each helicopter type was in each of the last five years. [284526]

Bill Rammell: Qualified Helicopter Instructors (QHIs) are taught at RAF Shawbury by the tri-service Central Flying School (Helicopters).

The current requirement and actual number of armed forces QHIs are provided in the following table.

Helicopter Type	Required number of instructors	Actual number of instructors
Lynx	49	40
Gazelle	5	5
Apache	40	35
N3 Dauphin	2	2
Bell 212 Griffin	53	49
Squirrel	19	18
Chinook	25	23
Puma	27	20
Merlin	39	31
Sea King	52	46
Augusta 109	0	0

Historical figures are not held centrally and could be provided only at disproportionate cost.

The figures provided are the required establishment and the available strength to fulfil the task, and represent flying instructors in current flying instructional positions of all ranks. To avoid double-counting, each instructor is shown only once against a single type, but 13 QHIs instruct on more than one aircraft type, and in this sense the table understates the availability of instructors by type. In addition, the figures in the table do not include those who previously qualified as instructors but are currently employed in other, non-instructor, Defence posts as part of their career development.

Since the answer given by the then Minister for the Armed Forces (Mr. Ingram) to the hon. Member for Portsmouth, South (Mr. Hancock) on 29 March 2006, *Official Report*, column 1004W, the number of Apache QHIs has almost doubled. However, the 2009 establishment figure has been raised recently from 35 to 40 to increase training capacity.

Required and actual numbers will both vary with time due to many factors including operational requirements, the introduction of newly trained instructors on completion of training courses at set times during the year, injuries, and service leavers. Differences between required figures and actual figures also reflect the time taken to train an instructor on new aircraft types, such as Merlin.

Armed Forces: Higher Education

Dr. Fox: To ask the Secretary of State for Defence (1) how many *(a)* masters and *(b)* doctoral military students attending the Defence Academy of the United Kingdom his Department has funded since 2003; [284523]

(2) what expenditure his Department incurred on postgraduate education for serving members of the armed forces in each year since 2003; and what estimate he has made of such expenditure in each of the next three years. [284524]

Bill Rammell: Three colleges within the Defence Academy of the United Kingdom offer courses which are classed as postgraduate education and include either masters or doctorates.

The fees and numbers attending postgraduate education at the Defence Academy College of Management and Technology for serving members of the armed forces in the period 2003-12 are shown in the table:

Table 1

Academic year	Cost (£ million)	Military staff on masters courses	Military staff on doctorates
2002-03	9.5	[1]	[1]
2003-04	9.4	[1]	[1]
2004-05	9.9	[1]	[1]
2005-06	9.0	248	3
2006-07	6.4	315	7
2007-08	7.8	366	13
2008-09	6.9	418	11
2009-10	7.4	470	13
2010-11	[2]	[2]	[2]
2011-12	[2]	[2]	[2]

[1] This information is not held centrally and could be provided only at disproportionate cost.

[2] Costs and student numbers are not planned to vary significantly from the 2009-10 figures during these two academic years although there may be a modest increase in numbers.

Notes:

1. Figures are provided by academic year (1 September-31 July).
2. The figures in the cost column do not include: salaries of students, accommodation costs or Defence Academy overheads. The figures cover the cost of all postgraduate courses and activities during that academic year but it should be noted that some civil servants and overseas students will also have attended these courses and their costs have not been separated out.

The fees and charges relating to a masters degree offered by Royal College of Defence Studies are as follows:

Table 2

Academic year	*Cost (£ million)*	*Military staff undertaking a masters*
2003	0.009	3
2004	0.020	6
2005	0.036	11
2006	0.036	11
2007	0.022	6
2008	0.018	5
2009	0.049	11
2010-11-12	[1]0.066	[1]8

[1] Per year

Note:

The RCDS offers to its membership an optional MA in International Studies. The option is usually taken up by a quarter of the course. The RCDS course itself provides 60 per cent. of the MA with the remaining 40 per cent. being completed through supplementary seminars, essays, dissertations and exams.

The fees and charges relating to masters degree offered by Joint Services Command and Staff College during the Advanced Command and Staff Course are as follows:

Table 3

Academic year	*Cost (£ million)*	*Military staff undertaking a masters*
2002-03	0.042	139
2003-04	0.040	130
2004-05	0.041	135
2005-06	0.044	148
2006-07	0.043	143
2007-08	0.046	152
2008-09	0.048	161
2010-11-12	0.048	[1]160

[1] Proposed

Note:

These are not full term masters degrees; they are postgraduate degrees gained through supplementary work and an exam on top of the accreditation to the masters degree earned through participation on the JSCSC Advanced Command and Staff Course.

The information requested relating to the courses attended by service personnel outside of the Defence Academy is not held centrally and could be provided only at disproportionate cost.

Armed Forces: Mental Health

Clare Short: To ask the Secretary of State for Defence what his latest estimate is of the incidence of *(a)* post-traumatic stress disorder and *(b)* other mental illnesses among soldiers in each age group who have served in (i) Bosnia, (ii) Kosovo, (iii) Iraq and (iv) Afghanistan. [286700]

Mr. Kevan Jones: The MOD's Defence Analytical Services and Advice (DASA) organisation publishes statistics on new attendances to the MOD's Departments of Community Mental Health (DCMH) in the UK Armed Forces Psychiatric Morbidity reports. Reports for the whole of 2007 and 2008 are now available both in the Library of the House and on the DASA website at:

www.dasa.mod.uk

DASA only analyses attendances by deployment on recent operations to the Iraq and Afghanistan theatres of operation. Breakdowns by deployment to Bosnia and Kosovo could be provided only at disproportionate cost.

The following table shows the number of new attendances at the MOD's DCMHs in 2008 who were assessed as having a mental disorder at an initial assessment and who had been deployed to the Iraq theatre of operation prior to their appointment. The number of these individuals who were assessed as having post-traumatic stress disorder (PTSD) is also included.

Age	*Strength*	*Patients assessed with a mental disorder*	*Of which: Assessed with PTSD*
Under 20	1,100	33	—
20 to 24	16,000	353	28
25 to 29	23,100	403	26
30 to 34	17,400	250	21
35 to 39	19,500	206	20
40 to 44	9,600	102	—
45 to 49	4,200	28	0
50+	1,700	8	0

'—' Signifies a number fewer than 5.

The following table shows the number of new attendances at the MOD's DCMHs in 2008, who were assessed as having a mental disorder at an initial assessment and who had been deployed to the Afghanistan theatre of operation prior to their appointment. The number of these individuals who were assessed as having PTSD is also included.

Age	*Strength*	*Patients assessed with a mental disorder*	*Of which: Assessed with PTSD*
Under 20	1,000	35	0
20 to 24	9,700	170	22
25 to 29	11,200	171	12
30 to 34	7,700	108	14
35 to 39	8,000	115	8
40 to 44	3,900	43	—
45 to 49	1,800	11	0
50+	700	4	—

'—' Signifies a number fewer than 5.

Both tables include individuals who have been deployed to both the Iraq and Afghanistan theatres of operation. Therefore, some individuals will appear in both tables.

Finally, the following table shows the number of new attendances at the MOD's DCMHs in 2008 who were assessed as having a mental disorder at an initial assessment and who had not deployed to either the Iraq or Afghanistan theatres of operation prior to their appointment. The number of these individuals who were assessed as having PTSD is also included.

Age	*Strength*	*Patients assessed with a mental disorder*	*Of which: Assessed with PTSD*
Under 20	13,600	213	6
20 to 24	22,000	440	7
25 to 29	14,400	253	—
30 to 34	8,300	167	—
35 to 39	10,900	174	—
40 to 44	7,300	76	—
45 to 49	5,000	44	—
50+	3,600	28	—

'—' Signifies a number fewer than 5.

Ms Abbott: To ask the Secretary of State for Defence (1) what provision has been made for the psychological rehabilitation of members of the armed forces returning from military operations; how much funding has been made available for such provision in 2009-10; and if he will make a statement; [281598]

(2) what percentage of members of the armed forces returned from military operations with *(a)* a psychological disorder and *(b)* post-traumatic stress disorder in the latest period for which figures are available; and if he will make a statement. [281599]

Mr. Kevan Jones: Diagnosis and treatment of mental health disorders in the armed forces is performed by fully trained and accredited mental health personnel, and measures are in place to increase awareness at all levels and to mitigate the development of operational stresses. In Afghanistan, we deploy uniformed mental health nurses to provide the necessary in-theatre care and treatment for our personnel. If personnel need to leave the operational environment, then their care continues either on an out or in-patient basis in the UK.

In the UK, our mental health services are configured to provide community-based mental health care, primarily through our 15 military Departments of Community Mental Health (DCMH) across the UK (plus satellite centres overseas), which provide out-patient mental health care. The DCMH mental health teams comprise psychiatrists, mental health nurses, clinical psychologists and mental health social workers. A wide range of psychiatric and psychological treatments are available (including psychological therapies, environmental adjustment and medication) where appropriate. The Defence Mental Health Services have particular expertise in treatments for psychological injury.

For the relatively small number of patients who need it, in-patient care is currently provided by a group of seven NHS trusts located throughout England and Scotland, led by South Staffordshire and Shropshire NHS Foundation Trust (SSSFT) through a central MOD contract.

The organisational structure of the Defence Medical Services means that comprehensive figures for mental health care expenditure cannot be provided without disproportionate cost as the sums involved are disaggregated and embedded in the budgets of individual military units and overall operational budgets. Under the contract with SSSFT, payment for in-patient care is made on a case-by-case basis; as a point of comparison, payments totalling £3.3 million were made for in-patient care in 2008-09; most of this was paid to the previous in-patient provider.

Since July 2007 the Defence Analytical Services and Advice (DASA) organisation has reported on the Psychiatric Morbidity of the UK Armed Forces. Quarterly reports for 2007 and 2008 are available in the Library of the House and on the DASA website found at the following link:

www.dasa.mod.uk

Willie Rennie: To ask the Secretary of State for Defence pursuant to the answer of 15 July 2009, *Official Report*, column 377W, on armed forces: mental health, what recent inspections of the Department of Community Mental Health have been carried out. [289006]

Mr. Kevan Jones: The Healthcare Commission reported its review of the Defence Medical Services (DMS) in March 2009. As part of that review it looked at the provision of mental health care and visited military Departments of Community Mental Health (DCMHs) in Plymouth, Lisburn and Cranwell.

All three Defence Medical Services have processes for inspecting DCMHs, utilising a Common Healthcare Assurance Framework which is based on the Department of Health's "Standards for Better Health". All DMS units will be subject to a biennial set of visits, utilising the framework, from the single services. In addition, the post of inspector-general has been established recently within the Surgeon General's Department and his team will visit units as part of his clinical audit and assurance activities.

Willie Rennie: To ask the Secretary of State for Defence pursuant to the answer of 15 July 2009, *Official Report*, column 377W, on armed forces: mental health, what mechanisms are in place for monitoring the health of service personnel diagnosed with a mental health disorder. [289007]

Mr. Kevan Jones: Service personnel who are identified as suffering from a mental health condition will be followed up or referred on by the medical staff who first had contact with them. Some personnel will have their conditions managed wholly by primary care staff, who also have the capability to downgrade medically personnel if required; to treat and refer on personnel to military Departments of Community Mental Health (DCMHs); or to liaise with DCMH staff if advice is required, including cases where direct referral to an in-patient facility might be appropriate.

Patients are provided with appropriate treatment and care. If patients cannot be returned to a medically fit state consistent with continuing service, then they will be medically discharged from their service. If this route is required, DCMH social workers will continue to support discharged personnel for the year following discharge to ensure they are getting appropriate care within the NHS.

Willie Rennie: To ask the Secretary of State for Defence pursuant to the answer of 15 July 2009, *Official Report*, column 377W, on armed forces: mental health, what mental health assessments are provided for service personnel who report to the Department of Community Mental Health. [289008]

Mr. Kevan Jones: Personnel who are referred to one of the military Departments of Community Mental Health (DCMHs) will undergo a routine biopsychosocial assessment which will comprise an interview with a mental health professional. This usually takes the form of a one-to-one interview, although further reports (for example, from medical providers or from the chain of command) may be requested and psychometric questionnaires might be used where appropriate. The initial DCMH assessment will focus not just on the problem that led to referral but will take a holistic approach to the difficulties that an individual might be experiencing at the time of referral.

Willie Rennie: To ask the Secretary of State for Defence pursuant to the answer of 15 July 2009,

Official Report, column 377W, on armed forces: mental health, whether the Department of Community Mental Health provides treatment for *(a)* nicotine, *(b)* alcohol, *(c)* drug and *(d)* other addictions. [289009]

Mr. Kevan Jones: Our military Departments of Community Mental Health (DCMHs) provide treatment for addictive behaviours, with referral to in-patient facilities if this is necessary, where individuals are retained in service. Smoking cessation services are provided within primary care. It is frequently the case that such treatment is provided in conjunction with chain of command-led workplace support. Personnel with an addiction that is incompatible with continuing service in the HM armed forces will be supported by military mental health staff during the discharge process.

Armed Forces: Suicide

Mr. Ellwood: To ask the Secretary of State for Defence how many active service personnel are known to have committed suicide following service in either Iraq or Afghanistan since those engagements commenced. [287884]

Mr. Bob Ainsworth *[holding answer 20 July 2009]:* We are aware of a total of 27 regular service personnel whose deaths have been recorded as coroner confirmed suicides or open verdicts and who had previously served in Iraq or Afghanistan. The areas of deployment are:

24 who had been deployed to Iraq only;

one who had been deployed to Afghanistan only;

two who had been deployed to both operational theatres.

There have also been five Reservist personnel whose deaths were recorded as suicide or open verdict who had previously served in Iraq.

Additionally there are currently nine deaths that are classified as violent and unnatural causes, where the mechanism is consistent with suicide, but have yet to be confirmed as either a suicide or open verdict by a coroner.

There were two deaths of personnel in Afghanistan and four in Iraq that have been found to be suicide.

Armed Forces: Training

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* required and *(b)* actual number of phase (i) 1 and (ii) 2 training instructors is in each of the armed services. [284528]

Bill Rammell: The requirement and actual figures for instructors in phase 1 and 2 training for the services as of 3 July 2009 is shown in the following table (rounded to the nearest 10). There is a difference between the required and actual strength of instructors due to the posting process, operational manning requirements, instructors leaving post, and instructors being able to cover more than one course.

(i) Phase 1	*(a) Required instructors*	*(b) Actual instructors*
Army[1]	1,730	1,710
Royal Navy	590	540
Royal Air Force	280	250

(ii) Phase 2	*(a) Required instructors*	*(b) Actual instructors*
Army	2,100	1,940
Royal Navy	760	660
Royal Air Force	1,190	1,070
Defence Intelligence and Security College (DISC)	140	130
Joint Medical Command (JMC)	50	50
RAF Honington (Phase 1 and Phase 2 combined)	70	60

[1] Phase 1 instructor figures for the Army include those at the Infantry Training Centre Catterick, where the combined Phase 1/Phase 2 Combat Infantryman's Course is taught and the Phase 2 Infantry Course for those who completed their Phase 1 training at either the Army Foundation College Harrogate or at the Army Training Regiment Winchester.

The instructor numbers shown for each service include the defence colleges which are grouped together under that service. The Defence Intelligence and Security College (DISC) and Joint Medical Command (JMC) which do not provide phase 1 training, do not fall under single service management and are therefore shown separately.

It is not possible to differentiate between numbers of phase 1 and phase 2 instructors at RAF Honington, as the split can fluctuate with personnel movement.

Dr. Fox: To ask the Secretary of State for Defence what the drop-out rate is of each recruit training establishment listed in the Ofsted report on the duty of care for recruits and trainees in the armed forces. [284530]

Bill Rammell: The drop-out percentages for financial year 2008-09 (termed as Premature Voluntary Outflow—this comprises all those who elected to leave the service of their own accord) for the training establishments listed in the Ofsted report on the duty of care for recruits and trainees in the armed forces, are shown in the following table. The percentages shown are typical of what the Department expect given the nature of the military training undertaken:

Training establishment	*Drop-out rate (percentage) (rounded to nearest 1 per cent.)*
25 Training Regiment-Deepcut	21
Defence Medical Services Training Centre	5
HMS Raleigh	7
Army Training Centre, Pirbright	19
RAF Halton, Recruit Training Squadron	9
Defence School of Transport	8
RAF Regiment, Regimental Training Squadron (Basics), RAF Honington	27
Army School of Ammunition, Kineton	9
Commando Training Centre, Royal Marines	31
Army Training Regiment, Bassingbourn	19
Army Training Regiment, Winchester	21
Infantry Training Centre, Catterick	24

Mark Pritchard: To ask the Secretary of State for Defence when he expects to announce the maingate timetable for the Defence Training Review Programme. [287391]

Bill Rammell: The DTR Package 1 programme is under review. I anticipate an announcement of the new date for the Package 1 Main Gate to be made to the House in the autumn.

Mrs. Gillan: To ask the Secretary of State for Defence on what date he plans to award the pre-contract agreement letter on Defence Training Review Package 1 to the preferred bidder. [288062]

Bill Rammell *[holding answer 20 July 2009]:* The mandatory sitting 14 days for the PCAL2 Review Note submitted in the Departmental Minute to Parliament on 26 June expired on 17 July. However, the PCAL2 underwrite is still subject to the normal process of negotiation and agreement with the preferred bidder, which is ongoing.

Armed Forces: Young People

Lynne Featherstone: To ask the Secretary of State for Defence how many people under 18 years old serving in the armed forces have been court-martialled in each of the last five years; and what charges were brought at each court-martial where proceedings have been completed. [288412]

Mr. Kevan Jones: I refer the hon. Member to the answer given to the hon. Member for North Devon (Nick Harvey) on 1 September 2008, *Official Report*, columns 1446-47W. Further to that answer, I can add that the number of service personnel under 18 years old court-martialled in 2008, and the charges they faced were as follows:

Royal Navy:

1 x Battery

Army:

1 x Battery

1 x Assault occasioning actual bodily harm and the supply of drugs

Lynne Featherstone: To ask the Secretary of State for Defence how many *(a)* males and *(b)* females under 18 years old of each (i) age, (ii) ethnic origin and (iii) disability have been detained with adults in the Military Correction Training Centre in Colchester in each of the last five years. [288413]

Bill Rammell: The Military Correction Training Centre (MCTC) is a key pillar of the military criminal justice system, which has proved to be successful. It is not a prison; it is a military unit, established for military corrective training. It provides detention facilities for men and women of the armed forces and can hold a number of different categories of detainees, the majority of whom are not sentenced for criminal offences and return to their military duties on release.

The provision of information broken down into the categories requested may lead to the identification of one or more of the individuals. This information is regarded as sensitive data and its release would contravene the Department's policy on disclosure and confidentiality.

The total number of personnel under 18 years of age who have been detained in the Military Corrective Training Centre in Colchester in each of the last full years is provided in the following table.

	Number of personnel
2004-05	15
2005-06	[1]—
2006-07	10
2007-08	5
2008-09	[1]—
2009-10	[1]—

[1] Fewer than 5.

The figures have been rounded to the nearest five to limit disclosure and ensure confidentiality.

Army: Manpower

Dr. Fox: To ask the Secretary of State for Defence (1) what the *(a)* required and *(b)* actual personnel medically fit for purpose strength is for each battalion of the infantry; [280814]

(2) what the *(a)* required, *(b)* actual and *(c)* fit for duty strength of each infantry battalion is. [284527]

Bill Rammell: The Army's manning situation is improving fast due to a number of factors including the introduction of exceptional action measures, financial incentives, improved marketing and the current economic situation. However, there will be fluctuations in the strength of individual battalions, according to their planned duties at any specific time.

'Required strength' has been interpreted as the maximum number of posts in a battalion's peace time configuration.

'Actual strength' has been interpreted as the number of personnel assigned to a battalion for its planned duties. It will also include augmentees who are temporarily assigned if needed to support the role of the battalion (for operational military tasks and events that cannot be achieved within required strengths). Similarly, the figures exclude those assigned out of the battalion to augment other units.

'Fit for duty' has been interpreted as fit for primary role, including personnel listed as having limited deployability, plus personnel who are unfit for deployment but who can perform a role in an alternative capacity. The difference between the actual strength and number fit for duty represents those who are medically non-effective, i.e. are unfit for any form of duty.

'Medically fit for purpose' has been interpreted as fit for primary role, including personnel listed as having limited deployability, but excluding those who are not fit to deploy and those who are medically non-effective for any form of duty.

The figures requested are shown in the following tables:

Division	*Unit*	*Required strength*	*Actual strength*	*Number fit for duty*	*Number medically fit for purpose*
Guards	1 Grenadier Guards	632	549	544	502
	1 Coldstream Guards	629	587	557	534
	1 Scots Guards	685	580	574	549
	1 Irish Guards	633	584	583	561
	1 Welsh Guards	626	608	596	570
Scots	1 Scots	630	493	493	434
	2 Scots	627	479	473	437
	3 Scots	629	616	611	595

Division	Unit	Required strength	Actual strength	Number fit for duty	Number medically fit for purpose
	4 Scots	686	548	522	497
	5 Scots	657	533	533	517
Queens	1 Princess of Wales Royal Regiment	685	638	626	598
	2 Princess of Wales Royal Regiment	605	588	588	566
	1 Royal Regt. Fusiliers	686	616	610	597
	2 Royal Regt. Fusiliers	626	546	539	516
	1 Royal Anglian	670	707	692	665
	2 Royal Anglian	6200	635	627	604
Kings	1 Lancs	658	684	676	619
	2 Lancs	612	597	593	572
	1 Yorks	629	586	574	572
	2 Yorks	623	495	494	459
	3 Yorks	686	549	541	497
Prince of Wales	1 Mercian incl. Gurkha Reinforcement Company 2	628	612	608	573
	2 Mercian	623	549	544	527
	3 Mercian	659	616	610	570
	1 Royal Welsh	623	580	577	551
	2 Royal Welsh	751	679	671	633
Rifles	1 Rifles	623	683	683	654
	2 Rifles	623	679	668	647
	3 Rifles	623	634	632	631
	4 Rifles	711	682	677	660
	5 Rifles	686	785	-785	783 ~
Royal Irish	1 Royal Irish	650	564	554	529
Para	2 Para	650	633	617	602
	3 Para	650	603	602	590
Royal Gurkha Rifles	1 Royal Gurkha Rifles	643	631	623	612
	2 Royal Gurkha Rifles incl. Gurkha Reinforcement Company 1	758	841	838	807

In addition to the battalions shown above there are three incremental Guards companies which are primarily for public duties but which can also be used to augment the other Guards battalions as required;

Unit	Required strength	Actual strength	Number fit for duty	Number medically fit for purpose
Nijmegen Coy Grenadier Guards	108	110	110	101
7 Coy Coldstream Guards	108	82	81	77
F Coy Scots Guards	108	93	92	90

The figures in both tables include personnel filling all roles within each battalion, not just infantrymen.

Chinook Helicopters

Sir Peter Viggers: To ask the Secretary of State for Defence how many Chinook helicopters are inoperable because they are awaiting modifications. [288646]

Mr. Quentin Davies: In addition to eight Chinook Mk3 aircraft that are being converted to provide additional support helicopter capability, there are currently four Chinook Mk2/2a helicopters that are being modified to provide them with an enhanced capability on operations.

Defence: Procurement

Nick Harvey: To ask the Secretary of State for Defence what recent estimate he has made of the cost of preparing the Defence Industrial Strategy; and when the strategy will be published. [283656]

Mr. Bob Ainsworth: We remain committed to the Defence Industrial Strategy (DIS) 2005, which we intend to update in due course. No recent estimate has been made of the total cost of the DIS.

Mr. Wallace: To ask the Secretary of State for Defence when he last met representatives of Nexter to discuss defence procurement. [288201]

Mr. Kevan Jones: The Secretary of State for Defence has not met with representatives of Nexter to discuss defence procurement.

Departmental Buildings

Grant Shapps: To ask the Secretary of State for Defence what properties *(a)* his Department, *(b)* its agencies and *(c)* its non-departmental public bodies have sold in each of the last five years; and how many have been sold for housing developments. [265108]

Mr. Kevan Jones: I will place a copy of the list of land and property sold by the Department and its agencies in each of the last five years, together with an indication of the expected planning use in the Library of the House. This replaces any previous lists. It should be noted that actual future use is a matter for the purchasers and local planning authorities to determine.

The MOD and the Department for Communities and Local Government are delivering affordable housing as part of wider Government agenda. We have in the past sold a large number of strategic sites to DCLG, including Oakington barracks in Cambridge, Connaught barracks

in Dover and Roussillon barracks in Chichester. This relationship continues with other sites at Aldershot, Daws Hill and Borden being currently discussed.

Substantive answer from Kevan Jones to Grant Shapps:

In my answer of 27 April (Official Report, column 1022W) I undertook to write to you with details of what Ministry of Defence (MOD) properties have been sold in each of the last five years and how many have been sold for housing developments.

The requested list of properties, including details of their expected planning use, has been placed in the Library of the House.

This list does not include details of sites which subsequent to sale by this Department may have been sold on and then used for residential development. This issue is would be a matter for the new owner and MOD does not maintain a record of such cases.

Departmental Databases

Jenny Willott: To ask the Secretary of State for Defence (1) what categories of personal information on members of the public are contained on each database which contains such data managed by his Department and its agencies; when each category of information was first collected; and if he will make a statement; [284895]

(2) what databases managed by his Department and its agencies hold personal information on members of the public; on what date each such database became operational; and if he will make a statement; [285986]

(3) which of the planned databases that will be managed by his Department or one of its agencies and which will hold personal information on members of the public are expected to become operational in each of the next five years; and if he will make a statement. [286144]

Bill Rammell: Ministry of Defence officials are currently collating and validating the data needed to answer these questions. I will write to the hon. Member again shortly.

Departmental Finance

Dr. Fox: To ask the Secretary of State for Defence what his Department's *(a)* gross resource outturn, *(b)* operating appropriations on aid outturn, *(c)* gross capital outturn and *(d)* non-operating appropriations on aid outturn was under each budgetary sub-heading in (i) near cash and (ii) non-cash terms for the financial year 2007-08. [284569]

Bill Rammell: I have placed a copy of this information in the Library of the House.

Departmental Housing

Mr. Neil Turner: To ask the Secretary of State for Defence how many units of accommodation of *(a)* one, *(b)* two and *(c)* three or more bedrooms his Department retains for the purposes of accommodating serving (i) officers and (ii) officials on long-term secondment to his Department; and what his most recent estimate is of the average annual (A) gross and (B) net cost of each type of accommodation in each such category. [273432]

Mr. Kevan Jones: I will write to the hon. Member.

Substantive answer from Kevan Jones to Neil Turner:

I undertook to write to you in answer to your Parliamentary Question on 14 May 2009 (Official Report, column 946W), about Service accommodation for senior Officers and officials on long-term secondment to the Department.

Service accommodation is provided to house entitled Service personnel and their families in accordance with the entitlements set out in the Tri-Service Accommodation Regulations (TSARs). The Ministry of Defence (MOD) currently holds the following numbers of Service Family Accommodation properties (SFA) to accommodate entitled senior officers:

Type	*Bedrooms*	*Indicative Entitlement*	*UK SFA*	*Overseas SFA*
I	4/5	Major General and equivalent and above	68	9
II	4/5	Colonel and equivalent and above	316	36

Senior Officers may also occupy SFA of a lesser type in cases where SFA to entitlement is not available or in other circumstances set out in the TSARs.

All Officers of the equivalent rank of major and above are entitled to Single Living Accommodation (SLA) comprising an en-suite bedroom and separate sitting area. There are currently 2,418 SLA bed-spaces of this type in the UK with a further 219 overseas.

The information on cost is not held in the format requested and could only be provided at disproportionate cost.

The MOD does not retain any accommodation for the purposes of accommodating civilian officials. However, in areas where there is a temporary surplus of SFA, eligible civilians may occupy properties on a non-entitled basis, on the understanding that it be vacated if required for an entitled Service family. The number of civilians who occupy SFA on this basis is not held centrally and could only be provided at disproportionate cost.

Future Large Aircraft

Mr. Wallace: To ask the Secretary of State for Defence if he will terminate negotiations with partner countries on procurement plans for the A400M aircraft. [288615]

Mr. Quentin Davies: I have no immediate plans to terminate discussions with partner nations and I am continuing to seek acceptable conditions under which the UK can continue to support the programme. I am meeting with Ministers from participating nations on 24 July, with the objective of reaching a joint decision on the future of the A400M programme.

Joint Strike Fighter Aircraft

Mr. Wallace: To ask the Secretary of State for Defence what discussions he has had with the Joint Strike Fighter consortium on final assembly and checkout of the aircraft in the UK. [288196]

Mr. Quentin Davies: The primary production facility for the Joint Strike Fighter (JSF) has been established at Lockheed Martin's plant in Fort Worth, Texas, building on the huge investment already made in the development phase of JSF, 90 per cent. of which has been funded by the US. All nine JSF partner nations that have signed the JSF Production, Sustainment and Follow-on Development (PSFD) Memorandum of Understanding (MOU) in 2006, including the UK, are committed to funding an equitable share of this production facility,

which will eventually produce in excess of 3,000 JSF aircraft. It is our intention to use this best value solution for the build of all UK JSF aircraft.

UK industry has benefited within the development programme to date and is well placed to continue through production. We estimate UK industry will provide in excess of 10 per cent. of the JSF production programme as we progress through the PSFD phase.

Military Aircraft

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* required and *(b)* actual crew number for each aircraft type in the armed forces was in each of the last five years. [284542]

Bill Rammell: The historical information requested is not held centrally and could be produced only at disproportionate cost.

The required and actual crew number for each aircraft type in the armed forces as at 9 July 2009 is given in the following table. Air crew numbers fluctuate on a day-by-day basis as individuals are re-assigned, medically downgraded or leave the service. The variations in the required and actual crew numbers are principally due to an increased requirement to support new and increased aircraft types, such as the Typhoon, where it takes time to train aircrew to meet the associated manpower requirement. Similarly, aircraft types such as the Hercules C130K and Tornado F3 are in the process of drawing down and crew numbers are temporarily in excess of requirement. These changes are reflected in the figures. However, action is taken to ensure that current operations are not affected.

Aircraft type	*Required*	*Actual*
Royal Navy:		
Lynx Mk 3/8	133	124
Merlin Mk 1	189	174
Sea King Mk 5	68	65
Sea King Mk 7	46	43
Army Air Corps:		
Apache AH Mk 1	100	80
Lynx Mk 7/9	100	106
Gazelle Mk 1	34	34
Dauphin N3 AH Mk 1	7	6
Bell 212	24	24
SAAVN	46	41
Royal Air Force:		
Hercules C130J	201	191
Hercules C130K	178	168
VC10	146	124
TriStar	103	98
C17A	91	81
HS125	17	16
BAe146	10	7
Tornado GR4	267	248
Typhoon	67	60
Tornado F3	32	50

Squirrel	20	19
SeaKing	140	132
Griffin	62	61
Augusta 109	5	5
Reaper	34	34
Islander	8	8
Navy and RAF:		
Joint Force Harrier	66	66

Nick Harvey: To ask the Secretary of State for Defence what his most recent estimate is of the cost per flying hour of a *(a)* Tornado and *(b)* Typhoon jet. [284989]

Mr. Quentin Davies: I will write to the hon. Member.

Substantive answer from Quentin Davies to Nick Harvey:

I undertook to write to you in answer to your Parliamentary Question of the 13 July 2009 (Official Report, column 27W), asking for the most recent estimate of the cost per flying hour of a (a) Tornado and (b) Typhoon-jet. I apologise for the delay in replying.

The total cost per funded flying hour is provided in the table below.

Aircraft	Cost (K) Financial Year 2009-10
Tornado F3	45K
Tornado GR4	28K
Typhoon	90K

This includes forward and depth servicing, fuel costs, crew costs, training costs and the cost of capital charge and depreciation. The Typhoon cost per flying hour reflects the smaller numbers of aircraft currently in the fleet and their relatively short period in service. This is expected to reduce significantly over the in-service life of the aircraft.

Military Aircraft: Helicopters

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* planned and *(b)* actual average flying hours for each helicopter type in the (i) Army, (ii) Royal Navy and (iii) Royal Air Force were in each month of (A) 2008 and (B) 2009 to date. [279960]

Bill Rammell: I refer the hon. Member to the answer given by the then Minister for the Armed Forces on 7 January 2008, *Official Report*, column 44W.

Between November 2006 and April 2009, we have increased flying hours for helicopters in Afghanistan by 84 per cent.

The following tables give the total planned and actual flying hours, including training as well as operations, for each helicopter type by month from January 2008 to May 2009:

Army Air Corps

	Apache		*Augusta*		*Gazelle*		*Lynx Mk7/9*

It is normal for there to be considerable variation between monthly "planned" and "actual" flying hours. "Planned" hours are based on the total amount of flying that could be supported by the Platform Project Teams for a given aircraft type and are not broken down by individual airframe. There is no requirement to hold data on average flying hours. The figures are agreed in Joint Business Agreements (JBAs) between Front Line Commands (FLCs) and the Defence Equipment and Support organisation, and are forecast up to a year ahead. The month by month Profile is to enable forward resource planning within the overall total for the year, not a definitive prediction of requirements, which will vary during the year.

"Actual" hours are the total of all hours flown for training and on operations.

The reasons why actual hours may be less than planned include aircraft unavailability through routine maintenance, running repairs, essential upgrades and modification programmes; air crew unavailability through recuperation, absence on training courses, and leave; changes in training schedules; adverse weather; or cancellation of tasking. Taskings on operations clearly depend on mission requirements at any given time, which are difficult to predict several months ahead.

Flying hours required for training are managed within this framework by the FLCs but priority is given to operations.

"Planned" flying hours not consumed may be carried forward into subsequent months. Hours flown on operations in excess of the year's JBA total flying hours may be funded by the reserve.

Mr. Wallace: To ask the Secretary of State for Defence what assessment he has made of the merits of equipping UK military helicopters with air-to-air refuelling capabilities. [288202]

Mr. Quentin Davies: While we keep our helicopter capabilities under review, there is currently no requirement to equip our helicopters with air-to-air refuelling capabilities.

NATO Cyber Defence Centre of Excellence

Mrs. Curtis-Thomas: To ask the Secretary of State for Defence what his policy is on UK membership of the NATO Cyber Defence Centre of Excellence. [286946]

Mr. Bob Ainsworth: The United Kingdom is fully supportive of this Estonian-hosted Cyber Defence initiative and its endeavours in this important area. However, given the need to co-ordinate Cyber Defence with a number of other Government Departments and allies, the MOD's preferred means of support is by participation in specific mutually beneficial workstreams rather than attaching personnel permanently to Estonia. The United Kingdom is not formally a sponsoring nation of this Centre of Excellence but this position will be kept under review.

Both the current Head of the MOD Defence Security and Assurance Service and his predecessor, as well as other senior officers, have visited the Co-operative Cyber Defence Centre of Excellence, participated in its conferences, and provided additional assistance to its development over the past two years.

Navy: Drug Seizures

Nick Harvey: To ask the Secretary of State for Defence what drug seizures were made by Royal Navy vessels since 1997; where the seizures took place; what the value of each seizure was; and if he will make a statement. [271390]

Mr. Bob Ainsworth: I will write to the hon. Member.

Substantive answer from Bill Rammell to Nick Harvey:

In my predecessor's written answer, on 12 May 2009, (Official Report, column 753W), it was undertaken to write to you regarding your request for a list of the drug seizures made by Royal Naval vessels since 1997; where the seizures took place; and what the value of each seizure was. In the course of this research, US officials have been consulted, who have kindly shared information from their own very detailed records.

As you will recognise, disrupting illegal trafficking of weapons and narcotics is among the many important tasks we ask our Armed Forces to conduct. The Royal Navy conducts Flag State Verification procedures on Gulf Region Shipping and has also provided significant support to US counter-narcotics operations in the Caribbean. Further disruption operations are conducted whenever opportunities arise during the Royal Navy's standing patrol tasks, including within UK territorial waters, in support of operations led by the Serious Organised Crime Agency. These operations have contributed to the seizure of large quantities of illegal narcotics which otherwise might have ended up on UK, US and European streets. A comprehensive list of seizures since 1997 is set out below. This information updates previous estimates and draws on additional information provided by US law enforcement officials.

Year	*Month*	*Unit*	*Location*	*Quantity*	*Est value (£)*
1997	Apr	HMS York	Home Waters	4 tonnes cannabis	11.5 million

	Oct	HMS Northumberland	Middle East	20 Kg Hashish; 1000 Kg (assessed) jettisoned	2.9 million
	Dec	HMS Portland	Middle East	1.4 tonnes hashish	4 million
2009	Feb	HMS Richmond	Middle East Waters	80-90 bales (approx 2000kg) of hashish jettisoned by smugglers	5.7 million
	Apr	HMS Portland	Middle East	27 bales (each of 31 Kgs) hashish (837 Kgs)	2.4 million

Notes:
1. SOCA estimates, as at June 2009, of UK street values have been applied to all seizures.
2. Where only the number of bales is known/estimated, but not their weight, no street value can be estimated retrospectively.

The results from forensic analysis of the many seizures in the Caribbean, provided to us by the American Joint Inter-Agency Task Force (South), have enabled us to update many of our previous estimates of the size of these seizures. Our previous answers were drawn from figures often estimated by the UK vessel at the time of the interdiction; subsequent investigations by law enforcement officials would usually have been completed after the UK vessel had left the vicinity and thus not reflected in the initial UK estimate. For interdictions when cargoes were jettisoned by the traffickers we have continued to provide the sizes assessed by the UK crew before the contraband was lost.

The table also includes a small number of additional interdictions that have not previously been reported. In some cases these omissions are due to different approaches by individual UK ships in recording an incident as a 'seizure' or as an 'interdiction' (which may have resulted in a jettison). In others cases the reliance upon disparate ships' records may have resulted in a small number of accidental omissions as our historic responses were consolidated. The positive outcome is that the Royal Navy has had an even greater impact on narcotics trafficking than previously reported.

It is very difficult to estimate street value of the illegal drugs seized or destroyed in these operations. The price varies greatly depending on a number of factors including supply and demand, the intended destination of the product as well as the purity of the drugs themselves when they reach their market. Not all of the

seized drugs would have been intended for the UK, however for simplicity the estimated values in the table are based on the assumption that the product would have reached the UK with street values of £40,000 per kilogram of cocaine, of £45,000 per kilogram of heroin and of £2,880 per kilogram of cannabis.

In agreement with the Serious Organised Crime Agency these valuations have been applied retrospectively across the entire historical record; thus detailing estimated values of seizures as if they had reached UK streets in 2009. We have done this because there is no reliable record of street values year on year since 1997, particularly prior to the Agency's creation in 2006. Where only the number and not size of bales seized were recorded, we have not attempted to assign a street value.

The successes of these counter narcotics operations are considerable and to ensure that a full and accurate picture is maintained in future, I have put in place revised record-keeping policies and established a more centralised reporting mechanism which will be updated where possible with US post-forensic results.

I hope you will find this information useful.

I am copying this letter to other MPs who have asked similar questions in the past.

Nuclear Weapons

Nick Harvey: To ask the Secretary of State for Defence what proposals the Government intend to make at the next NATO summit on *(a)* nuclear sharing, *(b)* nuclear first-strike and *(c)* the reliance by NATO members on nuclear weapons as a guarantee for their security; and if he will make a statement. [287910]

Mr. Bob Ainsworth: The Declaration on Alliance Security that was agreed in April at the NATO summit in Strasbourg/Kehl makes clear that

"Deterrence, based on an appropriate mix of nuclear and conventional capabilities, remains a core element of (the Alliance's) overall strategy".

This provides the basis of discussions between Allies on a revised Strategic Concept for NATO, which is due to be agreed at next year's summit meeting. The UK will play a full part in these discussions.

Warships: Wrecks

Mr. Andrew Smith: To ask the Secretary of State for Defence pursuant to the answer of 18 March 2009, *Official Report*, column 1141W, on HMS Victory, whether his Department plans to enter into a salvage agreement with Odyssey Marine Exploration. [288467]

Bill Rammell: The MOD has no current plans to enter into a salvage agreement with Odyssey Marine Exploration. Discussions on the future management of the wreck site continue with other Government Departments and English Heritage.

White Phosphorus

Mr. Dai Davies: To ask the Secretary of State for Defence pursuant to the answer to the right hon. Member for Fife North East, on 1 June 2009, *Official Report*, columns 48-49W, on white phosphorus, in which theatres of operation UK forces have used white phosphorus in the last 10 years; and whether his Department has taken steps to establish the long-term health effects of such usage on people exposed to the munitions. [278712]

Mr. Bob Ainsworth: In the last five years, white phosphorus munitions have been used by UK forces in both the Iraq and Afghanistan theatres of operation. Information covering the last 10 years is not held centrally and could be provided only at disproportionate cost.

White phosphorus munitions are only used by UK forces to protect troops on operations by producing a smoke screen to provide cover in accordance with the Third Protocol of the UN Convention on Prohibitions or Restrictions on the use of Certain Conventional Weapons, ratified by the UK in 1995, when it became illegal to use white phosphorus as a primary incendiary weapon under UK law. Training of UK forces in the use of white phosphorus emphasises that it should only be used for its intended purpose as an obscurant and not as an anti-personnel weapon. White phosphorus is always used in accordance with UK Rules of Engagement and UK forces will do their utmost to avoid civilian casualties, whatever weapons are being deployed.

The Ministry of Defence has not carried out any work on possible long-term health effects resulting from exposure to white phosphorous.

TRANSPORT

Air Travel Organisers Licence

Mr. Brazier: To ask the Minister of State, Department for Transport if he will make an assessment of the merits of introducing a permanent increase in the level of the Air Travel Organisers Licence protection contribution. [287274]

Chris Mole: A written ministerial statement laid in the House on 16 July 2009 announced that the Secretary of State for Transport had approved the Civil Aviation Authority's (CAA) recommendation to increase the Air Travel Organisers Licence (ATOL) Protection Contribution (APC) to £2.50 per passenger, with effect from 1 October 2009. The CAA intend to review the level of the APC before the Air Travel Trust Fund deficit has been repaid, projected to be by the end of March 2012.

Automatic Train Protection

Mrs. Villiers: To ask the Minister of State, Department for Transport what percentage of the high-speed passenger network operates with automatic train protection. [289191]

Chris Mole: Automatic Train Protection (ATP) is currently provided on part of the Great Western Mainline, on High Speed One, Heathrow Express and part of the Chiltern route out of Marylebone (although the last two routes are not high speed). The Department for Transport has published on its website the deployment plan for the European Rail Traffic Management System (ERTMS), which includes ATP. The Department's ERTMS deployment plan can be found at:

http://www.dft.gov.uk/adobepdf/165234/349552/ukertmsplan.pdf

In the meantime, the Train Protection and Warning System (TPWS)—a form of intermittent ATP—has been installed where appropriate across the entire rail network, and has resulted in a 85 per cent. fall in risk from Signals Passed at Danger (SPADs).

Aviation

Mr. Brazier: To ask the Minister of State, Department for Transport whether he plans to extend the scope of financial protection for air passengers. [287275]

Paul Clark: As set out in the consumer white paper 'A Better Deal for Consumers: Delivering Real Help Now and Change for the Future' published on 2 July 2009, the Department for Transport intends to consult on the reform of the Air Travel Organisers Licence (ATOL) scheme in the autumn, with the aim of providing greater clarity for consumers about which holidays are covered by ATOL. There are no plans to extend financial protection to all air passengers. The Government rejected this option in 2005 as disproportionate to the risks involved and this remains our position.

Bus Services

Mrs. Villiers: To ask the Minister of State, Department for Transport how many guided bus schemes have been introduced in each year since 2000. [289190]

Mr. Khan: The following transport schemes which incorporate some element of guided busway have opened since 2000:

2001: A64 York Road/A63 Selby Road section of Leeds Superbus project

2002: Manchester Road Quality Bus Initiative in Bradford

2003: Crawley Fastway

Bus Services: Concessions

Geraldine Smith: To ask the Minister of State, Department for Transport what assessment he has made of the effect of the concessionary bus travel scheme on levels of bus usage by older people; and if he will make a statement. [288441]

Mr. Khan: The table shows that the number of bus passenger journeys in England increased by 6.5 per cent. in the year following the introduction of free local concessionary fares in April 2006 and by 3.2 per cent. in the year following the introduction of the national concession in April 2008. However, these statistics count journeys made by all passengers, whether or not they are eligible for the free travel concession:

Bus passenger journeys: England, 2000-01 to 2008-09

	Local bus journeys (million)	*Year-on-year percentage change*
2000-01	3,842	—
2001-02	3,881	1.0
2002-03	3,964	2.1
2003-04	4,087	3.1
2004-05	4,140	1.3
2005-06	4,196	1.3
2006-07	4,470	6.5
2007-08	4,530	1.3
2008-09 (provisional)	4,674	3.2

Source:
Bus and Light Rail Statistics: Q1 2009

The Department for Transport has commissioned research from the Institute of Transport Studies (ITS), which will consider the impact of the national and local concessionary travel schemes on overall usage of bus services. The research is due to be published early next year.

Bus Services: Finance

Mrs. Villiers: To ask the Minister of State, Department for Transport with reference to page 92 of Building Britain's Future, Cm 7654, for how many years his Department plans to allocate £2.5 billion a year in support of bus services. [289225]

Mr. Khan: Based on current assumptions and projections central and local government support for bus services is expected to be around £2.5 billion this year and over the next two financial years. Decisions on funding for bus services from the years from 2012-13 will be made when departmental budgets are allocated as part of normal Government-wide processes.

Car Clubs: Environment Protection

Colin Challen: To ask the Minister of State, Department for Transport what his most recent assessment is of the environmental benefits of car clubs. [288070]

Mr. Khan: The Department for Transport endorses car clubs and sponsors Carplus, an organisation which promotes car clubs nationally.

Carplus publish an annual survey produced in conjunction with the Transport Research Laboratory which shows the environmental benefits of car clubs. The most recent, for 2008-09, was published in April this year. This can be found on their website at:

www.carplus.org.uk

Car Clubs: Greater London

Colin Challen: To ask the Minister of State, Department for Transport what his policy is on the expansion of the car clubs infrastructure in London as promoted by Transport for London; and if he will make a statement. [288069]

Mr. Khan: The Department for Transport believes that car clubs have an important role to play where they are likely to be well used, such as London.

It is, however, a matter for Transport for London to make a statement specifically about the car clubs infrastructure in London.

Cycling: Finance

Mrs. Villiers: To ask the Minister of State, Department for Transport with reference to page 92 of Building Britain's Future, Cm 7654, for how many years his Department plans to make £60 million per annum available for cycling. [289223]

Mr. Khan: Cycling England's current three-year budget of £140 million is allocated as follows:

£20 million in 2008-09;

£60 million in 2009-10; and

£60 million in 2010-11.

Decisions on funding for cycling for the years from 2011-12 will be made when the Department for Transport's overall budget is allocated as part of normal Government-wide processes.

Cycling: Hampshire

Sandra Gidley: To ask the Minister of State, Department for Transport how much his Department allocated for cycle safety training in *(a)* Test Valley borough and *(b)* Southampton for each of the last five years. [288894]

Mr. Khan: We have provided grants for National Standard/Bikeability cycle training to a number of local highway authorities in Hampshire since 2008-09. All bids were met in full. No bids for grant from Hampshire authorities were received prior to the 2008-09 bidding round. Details of the grants awarded are set out in the following table:

Local authority cycle training grants

£

	2006-07	2007-08	2008-09	2009-10
Southampton city council	—	—	—	120,000.00
Hampshire county council	—	—	100,000.00	200,000.00
Portsmouth city council	—	—	—	91,400.00

In addition to the above funding the Wavell School in Hampshire (Farnborough) received a School Sports Partnership cycle training grant from the Department of £12,000.00 in 2006-07.

Cycling: Lancashire

Geraldine Smith: To ask the Minister of State, Department for Transport how much funding his Department has allocated to encourage bicycle usage in Morecambe and Lunesdale in each of the last three years. [288361]

Mr. Khan: Lancaster with Morecambe is one of the Department for Transport's cycle demonstration towns. We provided funding of £1,311,775.00 for the period 2005-08. We have extended their funding for 2009-11 as set out in the table:

Lancaster with Morecambe	£
2005-08 (1 November 2005-31 March 2008)	1,311,775
2008-09	500,000
2009-10	500,000
2010-11	500,000
Total	2,899,200

In addition we funded a cycle training grant bid in full from Lancaster city council for the cycle demonstration town area of £15,000.00 for 2009-10.

Departmental Billing

John Mason: To ask the Minister of State, Department for Transport what percentage of invoices from suppliers his Department paid within 10 days of receipt in June 2009. [288905]

Chris Mole: The Department for Transport has paid 82.82 per cent. of valid invoices received in June 2009 within 10 days measured against the total number of 18,490 valid invoices received.

Departmental Carbon Emissions

Mr. Paice: To ask the Minister of State, Department for Transport what estimate he has made of the volume of carbon dioxide emissions arising from air travel by staff in his Department in *(a)* 2006-07 and *(b)* 2007-08 (i) in total and (ii) per full-time equivalent member of staff. [281012]

Chris Mole: The Department for Transport can estimate the carbon emissions arising from air transport for the central Department and four of its agencies (DVLA, DSA, HA, VCA) for 2006-07 and 2007-08. These amount to 1,015.1 tonnes of CO_2 in 2006-07 and 999.4 tonnes in 2007-08. This equates to 0.071 tonnes per FTE member of staff in 2006-07 and 0.070 in 2007-08.

In addition the Department can report 2007-08 figures for the Maritime and Coastguard Agency of 345.8 tonnes of CO_2 and an aggregate figure across the five agencies of 0.081 tonnes per FTE member of staff.

The Department anticipates being able to report estimates for all agencies from 2008-09.

Departmental Contracts

Lorely Burt: To ask the Minister of State, Department for Transport how many contracts let by his Department were awarded to businesses with fewer than 50 employees in each of the last five years; and what the monetary value of such contracts was in each such year. [287806]

Chris Mole: The Department for Transport does not hold the information centrally and it could be provided only at disproportionate cost. However, where the information is available, it has been set out in the following table.

	2005	2006	2007	2008	2009	Total
Department for Transport Central						
Number of contracts	33	20	11	9	1	74
Estimated value (£)	3,997,619	5,737,100	1,326,748	4,048,384	80,000	15,189,851
Vehicle and Operator Services Agency						
Number of contracts	71	58	61	55	6	251
Estimated value (£)	6,720,251	4,227,811	3,712,081	2,528,622	197,450	17,386,215

	2005	2006	2007	2008	2009[1]	Total
Driving Standards Agency						
Number of contracts	3	9	6	7	7	32
Estimated value (£)	268,053	750,582	871,101	256,733	13,107,769	15,254,179
Vehicle Certification Agency						
Number of contracts	1	0	0	0	0	1
Estimated value (£)	388,330	0	0	0	0	388,330
Total						
Number of contracts	108	87	78	70	14	350
Estimated value (£)	11,374,253	10,715,493	15,909,930	6,033,799	13,385,159	58,210,576

[1] To June 2009.

Notes:

1. The table contains the information that is available centrally for contracts that were formally tendered or contracts that were let as a call-off or mini-competition under a framework agreement within the main procurement units. It largely excludes local or low value procurement activity or purchases, and information that is not held centrally.
2. The Driver and Vehicle Licensing Agency, the Government Car and Despatch Agency and the Maritime and Coast Guard Agency do not keep records centrally and the information would be available only at disproportionate costs.
3. The Highways Agency (HA) keeps records indicating which of its suppliers are small and medium-sized enterprises (SMEs), but it does not record which of these are small enterprises of fewer than 50 employees.

Departmental Finance

Mrs. Villiers: To ask the Minister of State, Department for Transport pursuant to the answer of 18 June 2009, *Official Report*, column 427W, on carbon sequestration: finance, how much was available in total in accumulated underspends from prior years as at 28 June 2009; and by how much his Department underspent on each project in each of the last five years. [288574]

Chris Mole: "Public Expenditure 2008-09: Provisional Outturn" (Cm 7606) sets out the Department for Transport's End Year Flexibility (EYF) entitlements resulting from underspends in 2008-09 and previous years. These are shown in the following table:

	£000
Resource:	
Admin	66,896
Programme	572,841
Total Resource:	640,737
Of which near cash	262,704
Capital	148,378

Budget allocations are generally made at a programme level, rather than to individual projects, allowing managers to offset and balance the normal increases and reductions in spending in-year on those individual projects. Similarly, programme level budgets may be adjusted during the year to reflect emerging opportunities and pressures. This means that it is not possible to produce a project-by-project breakdown of annual underspends.

Departmental Manpower

Mrs. Villiers: To ask the Minister of State, Department for Transport how many *(a)* external contractors and *(b)* other non-departmental staff were employed by his Department in London in each of the last five financial years; and at what cost such staff were employed in each such year. [279315]

Chris Mole: The number of *(a)* external contractors and *(b)* other non-departmental staff employed by the Department for Transport in London in each of the last five financial years is set out in table. The cost of employing these staff in each year could be provided only at disproportionate cost:

	External contractors	*Other non-departmental staff*[1]
2004-05	81	106
2005-06	137	162
2006-07	123	215
2007-08	154	218
2008-09	107	240

[1] Consultants, agency staff, non-civil servants, and fee paid staff

The figures exclude *(a)* the Government Car and Despatch Agency who could collect the data only at disproportionate cost and *(b)* other non-departmental staff employed by the Driver and Vehicle Licensing Agency, which that agency was not able to provide.

Jo Swinson: To ask the Minister of State, Department for Transport what percentage of employees in his Department are *(a)* women and *(b)* men; and what the average hourly pay is of (i) male and (ii) female employees. [286628]

Chris Mole: The latest available published figures showing the percentage of male and female employees in the Department for Transport with their associated median salaries are contained in the Annual Civil Service Employment Survey statistics published by the Office for National Statistics (Annex A). It is not possible to determine an hourly rate on these salaries because the conditioned hours of staff may vary due to work location.

Departmental Pay

Jeremy Corbyn: To ask the Minister of State, Department for Transport what the *(a)* mean and *(b)* median consolidated salary of full-time equivalent civil servants working in (i) his Department and (ii) its agencies outside London is. [283686]

Chris Mole: The mean consolidated salary of full-time equivalent civil servants working in the Department for Transport outside of London is £23,287. The mean consolidated salary of full-time equivalent civil servants working in the Department for Transport agencies outside of London is £22,982.

The median consolidated salary of full-time equivalent civil servants working in the Department for Transport outside of London is £19,953. The median consolidated salary of full-time equivalent civil servants working in the Department for Transport agencies outside of London is £19,953.

Departmental Procurement

Bob Spink: To ask the Minister of State, Department for Transport what changes have been made to his Department's *(a)* office equipment and *(b)* stationery purchasing policy in the last six months. [285317]

Chris Mole: The Department for Transport has not made any changes to its purchasing policy in relation to *(a)* office equipment and *(b)* stationery in the past six months. Existing policies aim to deliver value for money using collaborative procurement deals where available.

Departmental Public Appointments

Keith Vaz: To ask the Minister of State, Department for Transport to which organisations the Secretary of State makes appointments. [283995]

Chris Mole: Ministers for the Department for Transport make appointments to a range of organisations including non-departmental public bodies, such as the Commission for Integrated Transport, public corporations such as the Civil Aviation Authority and trust ports such as Dover.

Ministers also make appointments to the British Transport Police Authority, Cycling England, Disabled Persons Transport Advisory Committee, Northern Lighthouse Board, Office of Rail Regulation, Passenger Focus, Railway Heritage Committee, and the Renewable Fuels Agency. The Secretary of State for Transport has powers to appoint some board members to other trust ports in England and Wales the most significant of which are London, Tyne, Harwich and Milford Haven.

A fully comprehensive list is not held centrally in the Department and could be provided only at disproportionate cost.

Departmental Travel

Simon Hughes: To ask the Minister of State, Department for Transport how much his Department has spent on *(a)* ministerial cars and drivers, *(b)* taxis, *(c)* train travel, *(d)* the use of helicopters, *(e)* airline tickets and *(f)* chartered aeroplanes in each year since 1997. [289065]

Chris Mole: The Government Car and Despatch Agency is responsible for providing ministerial cars and drivers. Information for years 2000-01 to 2002-03 is as follows:

	2000-01		2001-02		Post general election 2001		2002-03	
	Number of cars	*Annual contracted value (£)*	*Number of cars*	*Annual contracted value (£)*	*Number of cars*	*Annual contracted value (£)*	*Number of cars*	*Annual contracted value (£)*

Home Office	7	408,900
Law Officers	2	106,400
NIO	5	362,600
ODPM	7	394,300
Privy Council	1	56,000
Scotland Office	1	49,200
Wales Office	3	140,700
Total	87	5,081,000

Notes:
1. Cabinet Office figures prior to the Machinery of Government changes include cars for the Prime Minister's Office, the Leader of the House of Lords, the Chief Whips in both Chambers and the Minister without Portfolio. After the changes the figures exclude the Government Chief Whip for the House of Lords.
2. The Lord Chancellor's Department (LCD) became the Department for Constitutional Affairs (DCA) following Machinery of Government changes in June 2003.
3. The Government Car Service no longer provided services to the Ministry of Defence.

Information for 2004-05 is as follows:

Department	2004-05 Number of cars	2004-05 Annual contracted value (£)
Cabinet Office[1]	8	487,400
ODPM	6	366,800
DCMS	4	255,000

DfT	4	239,200
DWP	6	357,500
Total	85	5,163,600

[1] Cabinet Office figures include cars for the Prime Minister's Office, the Leader of the House of Lords, the Chief Whips in both Chambers and the Minister without Portfolio.
[2] No Government Car Service (GCS) cars or drivers were provided to the Ministry of Defence during 2003-04 or 2004-05.
[3] The right hon. Alistair Darling MP was both Secretary of State for Transport and Secretary of State for Scotland. All his GCS costs were met by the Department for Transport. The right hon. Peter Hain MP was both Secretary of State for Northern Ireland and Secretary of State for Wales. All his GCS costs were met by the Northern Ireland Office.
[4] The GCS car and driver provided to the Scotland Office was shared by the Parliamentary Under-Secretary of State, David Cairns MP, and the Advocate-General, Dr. Lynda Clark QC.

Information on costs for ministerial cars and drivers for 2005-06 and 2006-07 was published in a written ministerial statement on 26 July 2007, *Official Report*, columns 109-11WS; for 2007-08 in a written ministerial statement on 22 July 2008, *Official Report*, columns 116-18WS; and for 2008-09 in a written ministerial statement on 16 July 2009, *Official Report*, columns 79-80WS.

Information for earlier years is not readily available and could be obtained only at a disproportionate cost.

Additional information to answer parts *(b)* to *(f)* could be provided only at disproportionate cost.

Driving: Licensing

Norman Baker: To ask the Minister of State, Department for Transport how many people successfully applied for a provisional driving licence for motorcycles only in each year since 1997. [288276]

Paul Clark *[holding answer 20 July 2009]*: The information requested is not held. Provisional driving licences are not issued with motorcycle entitlement only. Since 1 February 2002, all provisional licences automatically include motorcycle entitlement. Prior to this date, drivers who wanted provisional motorcycle entitlement had to request that it was included on their licence; it was then limited to two years.

Driving: Training

Mr. Greg Knight: To ask the Minister of State, Department for Transport how much his Department has spent providing training courses on road safety offered to drivers who would otherwise be fined for speeding; and if he will make a statement. [288378]

Paul Clark: The Department for Transport is not responsible for the funding of courses offered to drivers as an alternative to a fixed penalty for a speeding offence. Speed awareness courses are run by the police and designed to be self-funding with the client fee covering the costs involved.

East Coast Railway Line

Hugh Bayley: To ask the Minister of State, Department for Transport pursuant to the answer of 13 July 2009, *Official Report*, column 93W, on the east

Coast Railway Line, what information his Department holds on the operating surplus made by Intercity services in each of the last 10 years during which British Rail operated those services; if he will commission research to establish the proportion of that surplus which was attributable to the Intercity services run on the East Coast Main Line; and if he will make a statement. [287815]

Chris Mole: Further to my answer of 13 July 2009, *Official Report*, column 94W, the Department for Transport does not hold this information.

Hugh Bayley: To ask the Minister of State, Department for Transport pursuant to the answer of 13 July 2009, *Official Report*, column 93W, on East Coast Railway line, if he will set a target for the surplus of income over operating costs to be met in relation to services on the East Coast Main Line during the period that those services are in public sector management; and if he will make a statement. [287865]

Chris Mole: The Department for Transport will be considering ways of incentivising the East Coast Main Line company to operate efficiently.

Mrs. Villiers: To ask the Minister of State, Department for Transport when his Department plans to begin the pre-qualification process for invitations to tender for the Inter-City East Coast franchise. [289205]

Chris Mole: In the event that a state company takes on responsibility for the inter-city east coast services later this year, the Department for Transport will consult on a new franchise specification with a view to issuing an invitation to tender in the summer of 2010.

Mrs. Villiers: To ask the Minister of State, Department for Transport what assessment he has made of the effect of proposed public ownership of East Coast Main Line services on open access operators on this route. [289206]

Chris Mole: The operation of the East Coast Main Line franchise under public ownership should have no impact on open access operators on the route.

While the East Coast Main Line franchise is under public ownership, it will abide by the same industry schemes, mechanisms and regulatory regimes as are currently applicable under the National Express operated franchise. These same regimes are generally applicable to open access operators.

East Coast Railway Line: Finance

Mrs. Villiers: To ask the Minister of State, Department for Transport whether funds have been allocated from *(a)* the current rail budget for Control Period 4 and (ii) other transport budgets in respect of the cost of (i) the public company set up to run services on the East Coast Main Line and (ii) re-letting the Inter-City East Coast franchise. [289199]

Chris Mole: The Government will seek to recover the costs of setting up the public company to run services on the East Coast Main Line and the costs of re-letting the Inter-City East Coast Franchise from the performance bond in the National Express East Coast franchise, and as such, no funds have currently been allocated from the Control Period 4 rail budget or other transport budgets.

Mrs. Villiers: To ask the Minister of State, Department for Transport what estimate his Department has made of the annual cost to the public purse of running National Express East Coast rail services under *(a)* a management contract with a private operator and *(b)* a Government-owned company set up by his Department. [289200]

Chris Mole: Due to timescale and procurement issues, the Government concluded that running services on the east coast main line under a management contract with a private sector operator was not a practical option. Work is in hand on developing a costed business plan for the publically owned company that has been created by the Department for Transport to take over the operation of services on the east coast main line as and when National Express East Coast cease to operate those services.

Eurostar

Norman Baker: To ask the Minister of State, Department for Transport pursuant to the answer of 26 June 2009, *Official Report*, column 1162W, on high speed trains, if he will make it his policy to sell Eurostar UK by competitive auction. [288056]

Chris Mole: Negotiations are well under way with our international partners to facilitate the development of the Eurostar partnership by merging the UK, French and Belgian operations into a single incorporated UK-based company.

The aim is to create a Eurostar that is financially stable, can develop its services for the benefit of passengers, can meet the challenge of competition for international rail passengers from 2010, and is free from future Government support.

The Government will retain the ability to sell their shareholding in the new business by competitive auction at a future date.

Norman Baker: To ask the Minister of State, Department for Transport pursuant to the written ministerial statement of 25 June 2009, on Eurostar, by what means his Department intends to demonstrate value for money for the taxpayer by negotiating the incorporation of Eurostar UK into a single company in which the Government have a minority stake; what expressions of interest in Eurostar UK have been received; what assessment he has made of the likely effects on the provision of new services to Amsterdam and Cologne of the establishment of a single Eurostar company; and if he will make a statement. [288057]

Chris Mole: Deutsche Bahn indicated to the Government their general interest in Eurostar UK Ltd. (EUKL), but this did not result in a formal offer for the company.

The assessment of value has been based on a comparison between endeavouring to sell EUKL as an undertaking separate to its current successful partnership, and the benefits of an incorporation deal.

The Government believe that a sale of EUKL as a separate entity would be of uncertain value and considerable risk. In contrast incorporation offers an opportunity to shape the provision of Eurostar's cross-Channel rail services to the benefit of passengers, while creating a tradable shareholding in a future business that is more stable and certain than EUKL on its own.

Separately the Government remain keen to encourage competition on cross-Channel rail passenger routes to the benefit of the High Speed 1 business. We aim to sell a concession for High Speed 1 as soon as market conditions allow and the concessionaire will be incentivised to promote competition on the line—to Paris, Brussels and beyond. The newly incorporated Eurostar will be in a position to compete with any future competitors on a fair and equal basis.

Fisheries: Accidents

Mrs. Villiers: To ask the Minister of State, Department for Transport what steps have been taken since 2000 to reduce the numbers of *(a)* fishermen and *(b)* other persons killed at sea. [289189]

Paul Clark: Since 2000 the Maritime and Coastguard Agency (MCA), the Department for Transport and the Seafish Industry Authority, working in partnership, have:

Introduced Codes of Safety for Fishing Vessels of 15m to 24m in length, and under 15m in length;

Published 25 Merchant Shipping Notices (MSN) and Marine Guidance Notes (MGN) exclusively for the fishing industry, and 92 MSNs and MGNs intended for both merchant and fishing fleets;

Introduced a system of Risk Assessment for fishing vessels, so that skippers and fishermen can review their own operations and develop effective solutions to the risks faced;

Introduced Small Fishing Vessel Safety Guidance booklet to assist in their Risk Assessment process;

Ensuring a robust regime for all Fishing Vessels undergoing their renewal surveys and mid-term safety inspections by MCA surveyors;

Introduced a Prepare yourself for Survey booklet to assist fishermen in preparing their vessel for survey and for ongoing assessment of its condition by them;

Introduced a programme of inspection of small Fishing Vessels by local Coastguard Officers, who are able to deploy their local knowledge and the high regard in which the CG is held, to improve relations with local fishermen;

Further developed this programme of inspection with the use of surveyors on larger under 15m vessels and introduced, initially as a trial and now expected to be formalised dedicated inspection teams whereby trained inspectors can use higher technical skills and local knowledge to enhance safety of vessels and safety culture of fishermen;

Opened new Fishing Vessel Survey Offices in Brixham and Newlyn so that surveyors can be close at hand to large concentrations of Fishing Vessels;

Employed a skipper to conduct on board visits to vessels in Scotland to discuss safety with the crews;

Seafish has developed new standards for the hull construction and equipment of new Fishing Vessels under 24m;

New vessels are unable to Register as Fishing Vessels unless they are being built, surveyed and certificated to the Seafish Construction Standards. Vessels built prior to 2001 must also be surveyed by Seafish against the standards who then provide a report to MCA who then decide on the basis of this report whether the vessel can be registered;

Enhanced the mandatory training requirements for basic safety training in Sea Survival, Fire Fighting, First Aid, Health and Safety for all fishermen, focused in particular to ensure that young entrants to the industry receive sufficient basic safety training and experienced fishermen receive Safety Awareness training;

Developed new courses for skippers of smaller vessels in Navigation and Engine Room Watchkeeping and Stability Awareness, which lead to a Skippers Certificate;

Obtained grants from the EU Financial Instrument for Fisheries to allow the free provision of basic safety training in Sea Survival, Fire Fighting, First Aid, Health and Safety and Safety Awareness from 2001 to 2007;

Is providing funds from Seafish and DFT to provide free training in the Navigation and Engine Room Watchkeeping and Stability Awareness (between July 2008 and March 2009 the funding provided was £536,271); and

Conducted numerous safety campaigns with fishermen.

Further details of safety initiatives affecting other seafarers can be found in Annual Report and Accounts of the MCA submitted to Parliament each year and placed in the Libraries of both Houses.

Glasgow

John Mason: To ask the Minister of State, Department for Transport whether he plans to visit Glasgow on official business during the summer Adjournment. [288906]

Mr. Khan: At present, I have no plans to visit Glasgow on official business during the summer Adjournment. However, my plans for visits have not been finalised yet.

Great North Eastern Railway: Connex

Norman Baker: To ask the Minister of State, Department for Transport how many members of staff within *(a)* his Department and *(b)* the Strategic Rail Authority were assigned to duties related to ensuring the continuity of rail services following the surrender of franchises by (i) GNER and (ii) Connex. [283038]

Chris Mole: Although the GNER franchise was not surrendered, but converted into a management contract, there were three people employed by the Department for Transport who led on this process. However, others in the Department, including specialists in the finance and legal teams, would have contributed to the work.

The Department does not hold information in relation to the number of staff within the Strategic Rail Authority who worked on ensuring the continuity of rail services when the Connex franchise was surrendered. The Strategic Rail Authority would have been solely responsible for this.

Helicopters: Safety

Mr. Doran: To ask the Minister of State, Department for Transport what assessment the Civil Aviation Authority has made of the safety implications of the wearing of wrist watch personal location beacons by passengers on helicopters serving the North Sea oil and gas industry *(a)* during the initial proof and concept trials carried out by British Petroleum and *(b)* after those trials. [288066]

Paul Clark: The Civil Aviation Authority did not make a specific assessment of the safety implications of wearing wrist watch personal locator beacons. This is because such beacons are not part of an aircraft's approved equipment and are treated in the same way as any other personal portable electronic device, such as mobile telephones, which have been the subject of a safety assessment. Operators remain responsible for ensuring that passengers are aware of and comply with the restrictions on their use.

Mr. Doran: To ask the Minister of State, Department for Transport when the Civil Aviation Authority received reports on the potential effects on helicopter communications systems of the use of wrist watch personal locator beacons by passengers on helicopters serving the North Sea oil and gas industry; and what steps the authority took in response to those reports. [288067]

Paul Clark: The Civil Aviation Authority (CAA) started to receive occasional reports concerning interference with frequency 121.5 Mhz, the international civil distress frequency, in 2003. Reports were also received regarding breakthrough on frequencies adjacent to 121.5 Mhz.

In January 2009 the CAA held a meeting with helicopter operators and other stakeholders to discuss the concerns about the potential effects of inadvertent transmissions. These include radio interference on the emergency frequency, interference with aircraft systems, interference with other beacons, and the generation of false alarms. As a result the CAA established a working group to examine the issues in depth, and work by this group continues.

Highways Agency

Mrs. Villiers: To ask the Minister of State, Department for Transport with reference to page 73 of Building Britain's Future, Cm 7654, what estimate he has made of the savings to be made from new efficiencies in the Highways Agency in 2010-11. [289233]

Chris Mole: The Highways Agency's 2007 comprehensive spending review settlement covering the financial years 2008-09 to 2010-11 includes a target to deliver value for money gains of £144 million by the end of that period. As announced in the November 2008 pre-Budget report, the Highways Agency is also committed to working to identify a further £150 million efficiency savings by 31 March 2011.

Inter-City East Coast Franchise: Finance

Mrs. Villiers: To ask the Minister of State, Department for Transport what the cost to the public purse was of letting the Inter-City East Coast franchise to *(a)* GNER in 2005 and *(b)* National Express East Coast in 2007. [289207]

Chris Mole: I refer the hon. Member to my answer of 16 July 2009, *Official Report*, column 619W.

Lighting: Finance

Mrs. Villiers: To ask the Minister of State, Department for Transport how much funding his Department has made available to local authorities through private finance initiative credits for signed street lighting contracts in each year since 2000. [289212]

Mr. Khan: The following table shows the amount of PFI credits allocated to local authority street lighting PFI projects in the financial year that each contract was signed:

Financial year	*PFI credits allocated (million)*
2001-02	18.6
2002-03	0
2003-04	166.8
2004-05	0
2005-06	101.8
2006-07	149.9
2007-08	94.9
2008-09	0

A Highway Maintenance PFI contract signed in Portsmouth in 2003 and worth £121 million PFI credits also includes the local authority's entire street lighting stock. This is not included in the above table.

Lorries: Roads

Mrs. Villiers: To ask the Minister of State, Department for Transport which strategic routes have dedicated heavy goods vehicle lanes. [289198]

Chris Mole: There are no dedicated heavy goods vehicle (HGV) lanes on the Highways Agency's strategic road network. However, crawler or climbing lanes for slower vehicles, such as HGVs, are in operation on many parts of the network, including:

M4 Eastbound Junctions 19-18
M5 Northbound Junctions 20-19
M5 Northbound Junctions 18-17
M5 Southbound Junctions 19-20
M27 North and Southbound Junctions 11-12
M3 Northbound Junctions 9-8
M62 Westbound Junctions 25-24
A1(M) Northbound Junctions 60-61
A1 (M) Southbound Junctions 61-63

M25

Mrs. Villiers: To ask the Minister of State, Department for Transport how much of the budget allocated to the M25 private finance initiative project has not been spent to date. [289201]

Chris Mole: The M25 Design Build Finance and Operate (DBFO) contract awarded by the Highways Agency in May 2009 is worth a total of £6.2 billion. These costs will be incurred over the 30-year lifetime of the project.

During contract negotiations, the Government expressed a willingness to co-fund if necessary a proportion of the capital spending by the project consortium. In the event, no co-funding was necessary as all of the required funds were raised by the private sector.

Motor Vehicles: Exhaust Emissions

Mrs. Villiers: To ask the Minister of State, Department for Transport with reference to page 85 of Building Britain's Future, Cm 7654, what incentives his Department plans to put in place to increase take-up of low-carbon vehicles. [289235]

Mr. Khan: On 1 July, the Secretary of State for Transport announced a new £30 million Green Bus Fund from which bus companies and local authorities in England can compete over the next two years for funds to help them buy new low carbon buses.

In addition, changes to Bus Service Operators Grant (BSOG) have been announced whereby, from 1 April 2009, an additional 6p per kilometre will be payable for all eligible kilometres operated by low carbon emission buses in England.

All of this is in addition to our plans for electric vehicles and vans.

Motorways: Exhaust Emissions

Simon Hughes: To ask the Minister of State, Department for Transport what recent assessment he has made of the costs of *(a)* congestion and *(b)* pollution resulting from traffic on English motorways; and if he will make a statement. [287895]

Chris Mole *[holding answer 20 July 2009]:* The Department for Transport uses valuations to assess changes, either to the costs of congestion over time, or for particular interventions. Valuations are therefore in terms of comparisons with a base year or with regard to a scenario without a scheme or proposal.

The Eddington study, published in 2006, made use of analysis from the Department's National Transport Model. This looked at the costs of additional road congestion as it is predicted to increase over time, rather than the absolute costs of congestion. It estimated that the increase in time lost in England due to road congestion between 2003 and 2025 for all travellers including business and freight would be worth £23 to £24 billion by 2025 in 2002 prices.

Because the impacts of pollution are often locally specific, an assessment of pollution resulting from the whole motorway network would be very complex and so is not undertaken. When individual proposals are assessed, detailed analysis is undertaken.

With regard to CO_2 produced in the motorway network, changes to CO_2 emissions over time, and as a result of schemes are produced as set out in the Department's Road Transport Forecasts 2008, and the Active Traffic Management study. Some of this evidence will include valuations of the CO_2 changes.

National Express: East Coast Railway Line

Mrs. Villiers: To ask the Minister of State, Department for Transport if he will place in the Library a copy of each report on the due diligence process carried out by his Department on the financial viability of the east coast bid in the course of the franchising process. [289204]

Chris Mole: The National Express pre-qualification application was compliant in accordance with Treasury procurement guidelines. National Express Group committed, as part of its bid, a £40 million loan facility that was sufficient to maintain its contractual liquidity requirements, given its bid revenue projections, over the franchise term. Its bid was considered affordable.

Mrs. Villiers: To ask the Minister of State, Department for Transport whether his Department has engaged consultants to advise on the status of the cross-default clauses in the National Express east coast franchise. [289222]

Chris Mole: The Department for Transport is taking extensive legal advice on the status of the cross-default clauses in the National Express east coast franchise.

Parking

Mr. Fabian Hamilton: To ask the Minister of State, Department for Transport what regulatory provisions apply to the operation of public car parks operated by private companies. [284285]

Mr. Khan: The management of privately-owned car parks must be carried out in accordance with the general legislation applying to businesses, including consumer legislation and employment legislation.

Passenger Ships

Mr. Greg Knight: To ask the Minister of State, Department for Transport whether alcohol will be allowed to be served in designated smoking cabins when the forthcoming smoking bans on cruise ships and passenger ferries come into force. [287943]

Paul Clark: Legislation on when and where alcohol may be served on cruise ships and passenger ferries will not be affected by the draft "Merchant Shipping (Prohibition of Smoking on Ships) Regulations" which are currently the subject of a public consultation exercise.

Mr. Greg Knight: To ask the Minister of State, Department for Transport what assessment he has made of the adequacy of resources available to the Maritime and Coastguard Agency to enable enforcement of the proposed prohibition on smoking on ships and ferries. [288417]

Paul Clark: The deployment of Maritime and Coastguard Agency (MCA) resources is considered as part of the regular discussions between the Agency and the Department for Transport on all aspects on MCA business.

Public Expenditure

Mrs. Villiers: To ask the Minister of State, Department for Transport how much of his Department's budget is linked to objectives of promoting health and well-being. [289208]

Chris Mole: The Department for Transport's annual report and accounts for 2008-09, published on 16 July 2009, sets out the Department's budgets by Departmental

Strategic Objective (DSO) (annex A, table A2 page 218). Spend on promoting health and well-being is predominantly included within DSO 3 ("contribute to better safety, security and health") and DSO 5 ("improve quality of life and to promote a healthy natural environment").

Mrs. Villiers: To ask the Minister of State, Department for Transport how much he plans to allocate to each of the schemes referred to in "Building Britain's Future", Cm 7654, which are not directly related to transport. [289234]

Chris Mole: The Department for Transport has provided £350 million towards the £1.5 billion additional investment over the next two years to deliver 20,000 additional energy efficient, affordable homes to rent or buy. It is not contributing to any other schemes referred to in "Building Britain's Future" that are not directly related to transport.

Railways

Mrs. Villiers: To ask the Minister of State, Department for Transport on what percentage of rail routes slam-door carriages have been removed since 2000. [289196]

Chris Mole: The withdrawal from all routes of Mark 1 design slam-door carriages, which were the subject of the 10-Year Plan for Transport, was completed in November 2005, apart from two units on the Lymington Branch which will be retired shortly.

Other slam-door designs, such as Mark 2s and 3s, remain in service but these were not the subject of the 10-Year Plan for Transport as they are fitted with central door locking, which prevents the doors from being opened while the train is in motion.

Railways: Electrification

Norman Baker: To ask the Minister of State, Department for Transport pursuant to the answer of 23 June 2009, *Official Report*, column 769W, on rail: electrification, when Transport for London indicated to his Department that there was little likelihood of it funding and bearing the risks of the electrification scheme. [288059]

Chris Mole: Transport for London (TfL) wrote to the Department for Transport on 18 March 2009 to indicate that it does not wish to provide the funding to meet the balance of the Gospel Oak to Barking electrification scheme costs over and above the offer by the Secretary of State for Transport to TfL of a contribution of a capital sum of up to £25 million.

Norman Baker: To ask the Minister of State, Department for Transport pursuant to the answers of 23 June 2009, *Official Report*, column 769W and 6 July 2009, *Official Report*, column 539W, on rail: electrification, whether the offer made in January 2009 remains open. [288068]

Chris Mole: The offer was conditional on Transport for London taking forward the project, including working up a business case, finding the balance of the cost and bearing all risks. Transport for London wrote to us on 18 March 2009 to advise us that it was not willing to take the project forward on this basis.

Mrs. Villiers: To ask the Minister of State, Department for Transport with reference to page 11 of "Building Britain's Future", Cm 7654, what estimate his Department has made of the cost of electrification per mile of railway line on the *(a)* Midland main line and *(b)* Great Western line. [289226]

Chris Mole: The Department for Transport has been carrying out detailed work on electrification and expects to make an announcement, including details of costs, shortly.

Railways: Finance

Mrs. Villiers: To ask the Minister of State, Department for Transport what contingency measures he has in place to address any potential shortfall in his Department's budget as a result of rail franchise defaults in rail Control Period Four, 2009-14. [288187]

Chris Mole: If the Government are required to take rail franchises into the public sector on a temporary basis, they will ensure that sufficient funds are available to secure the continuation of rail services should the revenue from the fare box not be sufficient to meet the running costs. The transaction costs incurred in transferring franchises to the public sector in such circumstances are usually met from the franchise's performance bond.

Mrs. Villiers: To ask the Minister of State, Department for Transport how much of the rail budget for Control Period 4 is unallocated and available. [289209]

Chris Mole: The Government set out the funds they have allocated to specific rail programmes in the White Paper "Delivering a Sustainable Railway" which was published in July 2007. Funding for any other programmes or projects that are not contained in that White Paper will be made available as necessary.

Mrs. Villiers: To ask the Minister of State, Department for Transport for which smaller rail schemes funding in Control Period 4 is available. [289220]

Chris Mole: The Government set out their strategy for Control Period 4 (CP4) in their White Paper, "Delivering a Sustainable Railway", which was published in July 2007. The rail schemes that are being delivered under that strategy are set out in the Office of Rail Regulation's determination of Network Rail's income for CP4. This is available on the Office of Rail Regulation's website at:

www.rail-reg.gov.uk

Mrs. Villiers: To ask the Minister of State, Department for Transport with reference to page 52 of "Building Britain's Future", Cm 7654 and the written ministerial statement, *Official Report*, columns 21-22WS, on franchise rail services, how much has been allocated to programmes related to *(a)* Reading Station, *(b)* Thameslink, *(c)* Birmingham New Street and *(d)* Kings Cross rail schemes during Control Period 4. [289221]

Chris Mole: Work on enhancement projects during Control Period 4 is undertaken by Network Rail in accordance with the ORR Determination.

In their determination relating to enhancements for control Period 4, ORR specified the four projects for which information is requested without allocating specific values to each project. ORR stated in its determination that:

"Although we have estimated the costs of delivering individual projects when determining how much revenue Network Rail needs in total, Network Rail is free to budget for individual schemes as it sees fit."

Mrs. Villiers: To ask the Minister of State, Department for Transport pursuant to the evidence submitted by his Department to the Transport Select Committee's inquiry into "Delivering a Sustainable railway: a 30-year strategy for the railways", HC 219 (2007-08), how much his Department plans to spend in Control Period 4 *(a)* on improvements to medium-sized stations, *(b)* to facilitate strategic freight network infrastructure, *(c)* on the Network Rail Discretionary Fund and *(d)* on the delivery of 1,300 extra carriages. [289224]

Chris Mole: These projects are to be financed and delivered by Network Rail and the Rolling Stock Leasing Companies. The Government have set out the funding of over £10 billion that it intends to make available for the Railway during Control Period 4 in its White Paper, "Delivering a Sustainable Railway".

Railways: Franchises

Mrs. Villiers: To ask the Minister of State, Department for Transport pursuant to the answer of 17 June 2009, *Official Report*, column 294W, on railways: franchises, how much revenue support is available to each train operating company in each year of its franchise. [289232]

Chris Mole: The amount of revenue support that is payable to franchised rail operators is determined by the contracts that those operators have with the Government. The Department for Transport makes internal forecasts for amounts payable under the revenue sharing provisions and funding is available to ensure that it can honour its obligations under those contracts.

Railways: Rolling Stock

Mrs. Villiers: To ask the Minister of State, Department for Transport what percentage of the rail network has had the train protection and warning system installed. [289197]

Chris Mole: 100 per cent. of the train protection and warning system has been installed across the entire rail network as required by the Railway Safety Regulations 1999 and as set out by the Government's 10-Year Plan for Transport.

This programme of work has resulted in a 85 per cent. fall in risk from signals passed at danger.

Railways: South East

Mrs. Villiers: To ask the Minister of State, Department for Transport pursuant to the answer of 16 June 2009, *Official Report*, column 178W, on railways: South East, what his most recent estimate is of the additional costs likely to be incurred during the mobilisation phase of the project; how much his Department has allocated for expenditure on those additional costs; and when he expects to be able to make a final estimate of those additional costs. [289227]

Chris Mole: The total cost of the mobilisation phase of the South Central franchise project is not yet known, given that this phase only commenced on 8 June 2009 and runs until the franchise commences on 20 September 2009. The estimated external costs for this phase of the project are £180,000.

Roads: Accidents

Mr. Crausby: To ask the Minister of State, Department for Transport what steps his Department is taking to reduce the number of road accidents involving *(a)* cyclists, *(b)* pedestrians and *(c)* motorcyclists. [288452]

Paul Clark: Measures currently under way include providing better infrastructure, funding cycle and child pedestrian training, improved training and testing for motorists, including motorcyclists, and encouraging these groups to make themselves conspicuous and, in the case of cyclists, by wearing a safety helmet.

Other initiatives such as anti-drink-drive and speeding campaigns and the provision of 20 mph zones can also contribute to the safety of these groups.

The effect of such measures are reflected in the 2008 road casualty statistics, which recorded a fall in the numbers of deaths of pedestrians, cyclists and motorcyclists by 11 per cent., 15 per cent. and 16 per cent. respectively.

Earlier this year we consulted on proposals for a new road safety strategy for the period beyond 2010. The consultation closed this month and we will be issuing a new strategy later this year.

Roads: Repairs and Maintenance

Mrs. Villiers: To ask the Minister of State, Department for Transport what recent estimate he has made of the size of the backlog of road maintenance for strategic roads; and what his estimate is of the cost of clearing the backlog. [288575]

Chris Mole: There is no backlog of road maintenance on the strategic road network in England. The network is maintained by applying whole life cost principles, and takes account of the fact that it is not practical or sustainable to maintain the whole network in an as new condition. The condition of the strategic road network is monitored on a regular basis and an annual performance target is set in the Highways Agency Business Plan. This target has been met since it was introduced in 2004-05 in the Highways Agency's Business Plan.

Mrs. Villiers: To ask the Minister of State, Department for Transport how much his Department has spent on emergency repairs to the strategic road network in each year since 2000. [289211]

Chris Mole: The Highways Agency does not separately record or report the cost of emergency repairs to the strategic road network. However, the annual accounts for the HA have reported the following in terms of expenditure on maintenance.

	£ million
2008-09	914
2007-08	879
2006-07	850
2005-06	852
2004-05	732
2003-04	726
2002-03	760
2001-02	711
2000-01	736

The expenditure figures are for maintenance on the strategic road network managed and maintained by the Highways Agency. This includes renewal of the road surface and repairs to structures, as well as routine maintenance such as gully clearing, white lining, cleaning and winter maintenance. Costs excluded are those associated with our PFI contracts and our traffic and incident management service.

Expenditure figures have been adjusted to account for spend relating to roads trunked or detrunked in the financial year.

Roads: Safety

Norman Baker: To ask the Minister of State, Department for Transport whether his Department considers signalled junctions with pedestrian facilities that do not meet the 2005 Department for Transport safety guidelines to be unsafe. [288045]

Mr. Khan: The Department for Transport (DfT) issues good practice guidance to local highway authorities on pedestrian facilities at signal-controlled junctions, which is contained in Traffic Advisory Leaflet 5/05. The document is on the internet at the following address:

http://www.dft.gov.uk/pgr/roads/tpm/tal/signsandsignals/pedestrianfacilities/

and has been placed in the Libraries of the House.

The relevant highway authority is responsible for the design, implementation and any subsequent monitoring of new crossings—including the consideration of safety issues. It is for them to decide if it is appropriate to follow DfT guidelines, depending on the circumstances of each case.

Slough-Windsor Railway Line

Susan Kramer: To ask the Minister of State, Department for Transport what discussions he has had on the upgrade and expansion of the Windsor and Eton Riverside commuter rail line to take 10-carriage trains. [288722]

Chris Mole: The Department for Transport is working with the train operator and Network Rail to extend platforms on the south-western network to increase capacity on suburban routes, including the Windsor and Eton Riverside line, to enable the operation of 10-carriage trains.

South Central Franchise

Mrs. Villiers: To ask the Minister of State, Department for Transport pursuant to the answer of 17 June 2009, *Official Report*, column 298W, on Southern: standards, (1) and the Written Ministerial Statement of 9 June 2009, *Official Report*, columns 32-34WS, on the South Central franchise, what *(a)* enhancements and *(b)* expenditure the Government have agreed to fund as part of the South Central franchise award; [289229]

(2) whether the Government expect Southern Railways to deliver any specific *(a)* enhancements and *(b)* investments during its operation of the South Central franchise. [289231]

Chris Mole: Under the South Central franchise agreement a number of investments and enhancements will be delivered by the franchisee over the next five years and 10 months. The minimum enhancements required by Government were set out in the invitation to tender dated 3 November 2008. In many areas GoVia has committed to exceed the minimum specified enhancements. In other areas it has committed to additional outputs that were not specified.

The Department for Transport has agreed to purchase an option offered by the franchisee to refurbish an additional 27 stations. This is in addition to funding the installation of ticket gates at 14 south London stations announced earlier this year.

Enhancements and investments included in the franchise agreement include:

14 per cent. additional a.m. peak vehicles arrivals into London terminal stations;

24 per cent. additional a.m. peak vehicles arrivals into Brighton;

New late evening and weekend services on routes in south London and on the south coast, and some services on Boxing Day;

Improved station staffing in the London area;

120 additional ticket vending machines;

Smartcards across the franchise from 2012;

1,122 additional car park spaces;

1,500 additional secure cycle parking spaces;

Additional gating schemes at 22 stations (in additional to the 14 already being sponsored by the DfT);

Station deep clean at all south central managed stations;

34 stations to benefit from refurbishment;

CCTV on all trains and all stations;

Rolling stock refurbishment;

30 stations to have station travel plans with a £1.25 million implementation budget;

Information provision improvements on trains and at stations including help points at 40 additional stations.

Mrs. Villiers: To ask the Minister of State, Department for Transport pursuant to the answer of 17 June 2009, *Official Report*, column 298W, on Southern: standards, what targets Southern Railways

has set for *(a)* trains, *(b)* stations and *(c)* customer service in the (i) south London, (ii) Sussex and coast and (iii) Gatwick Express service group of its franchise. [289230]

Chris Mole: GoVia, as part of the South Central franchise agreement, has committed to achieve the following customer satisfaction scores for 2010 and 2014 as measured by the National Passenger Survey:

NPS targets	*Stations*	*Trains*	*Percentage Customer service*
2010			
Sussex and coast	73	75	76
South London	67	62	66
Gatwick Express[1]	n/a	86	81
2014			
Sussex and coast	81	80	81
South London	76	65	73
Gatwick Express[1]	n/a	88	85

[1] Gatwick Express refers to Gatwick to London Victoria non-stop services only.

Targets within the franchise agreement are set on a year by year basis and are measured as the average of the two NPS surveys per year. No targets are set for Gatwick Express stations as Network Rail manages both stations at which Gatwick Express calls.

Strategic Investment Fund

Mrs. Villiers: To ask the Minister of State, Department for Transport with reference to page 49 of "Building Britain's Future", Cm 7654, how much his Department has contributed to the Strategic Investment Fund. [289188]

Chris Mole: The Department for Transport has not made any contribution to the Strategic Investment Fund.

Suburban Development Research

Mrs. Spelman: To ask the Minister of State, Department for Transport with reference to the answer to the hon. Member for Brentwood and Ongar of 19 October 2006, *Official Report*, column 1424W, on suburban development research, whether the Engineering and Physical Sciences Research Council's SOLUTIONS project has *(a)* reached its conclusions and *(b)* published its recommendations; and how much the programme has received from the public purse. [288256]

Mr. Khan: The Sustainability of Land Use and Transport in Outer Neighbourhoods (SOLUTIONS) project has finished case studies of London and the Wider South East Regions and of the Tyne and Wear City Region and is awaiting feedback from our non-academic partners before reaching final conclusions.

The project has not yet published its final recommendations but has posted draft reports about the project and case studies on the website www.regionalvisions.ac.uk. The final version of the reports will be published on the website and we will provide a copy for the Libraries of the House.

The programme of research over a period of five years has received £1.75 million from Engineering and Physical Sciences Research Council and funding from the Department for Transport and the Department for Communities and Local Government. The expected contribution is expected be approximately £120,000 between the two Departments.

Transport Innovation Fund

Mrs. Villiers: To ask the Minister of State, Department for Transport pursuant to the answer of 30 April 2009, *Official Report*, columns 1445-46W, on the Transport Innovation Fund, and with reference to his Department's publication, "Supporting the development of TIF packages", published on 4 March 2009, how much funding his Department intends to allocate to the Transport Innovation Fund in each year to 2018-19. [288190]

Mr. Khan *[holding answer 20 July 2009]:* The following table shows the total value in each year of allocations of support to individual projects that have already been made from the Transport Innovation Fund (TIF). Decisions on the total of TIF funding will be taken as any further projects come up for approval, and for the years from 2011-12 decisions will be made when the Department for Transport's overall budget is allocated as part of Government-wide processes:

	£ million
2007-08	120
2008-09	106
2009-10	356
2010-11	291
2011-12	622
2012-13	1,250
2013-14	1,313
2014-15	1,142
2015-16	800
2016-17	0
2017-18	0
2018-19	0

Mrs. Villiers: To ask the Minister of State, Department for Transport pursuant to the answer of 13 July 2009, *Official Report*, column 103W, on the Transport Innovation Fund, how much funding has been allocated to each of the projects named in the answer; and over what timescale in each case. [288572]

Mr. Khan: The following table sets out the total funding allocated by year from the Transport Innovation Fund to each of the projects:

	2007-08	*2008-09*	*2009-10*	*2010-11*	*2011-12*	*2012-13*	*2013-14*	*2014-15*	*2015-16*	*£ million Total*
Rail freight schemes										
Gospel Oak/Barking	—	18.5	—	—	—	—	—	—	—	18.5

	2007-08	2008-09	2009-10	2010-11	2011-12	2012-13	2013-14	2014-15	2015-16	£ million Total
Humber ports	—	1.0	3.0	2.0	—	—	—	—	—	6.0
Peterborough/Nuneaton	—	20.0	30.0	30.0	—	—	—	—	—	80.0
Southampton/ Birmingham	—	15.0	27.8	—	—	—	—	—	—	42.8
Olive Mount Chord	—	0.8	0.9	—	—	—	—	—	—	1.7
Total rail freight schemes	—	55.3	61.7	32.0	—	—	—	—	—	149.0
Highways Agency traffic management schemes										
Birmingham Box (gross cost)	—	40.7	76.3	31.6	—	—	—	—	—	148.6
A14 (gross cost)	—	10.0	66.8	11.9	—	—	—	—	—	88.7
HA contribution to schemes	—	—	-20.6	-4.9	—	—	—	—	—	-25.5
Net TIF cost of HA schemes	—	50.7	122.5	38.6	—	—	—	—	—	211.8
Crossrail (DFT grant)	120.0	—	172.0	220.0	622.0	1,250.0	1,343.0	1,142.0	800.0	5,639.0

Mrs. Villiers: To ask the Minister of State, Department for Transport pursuant to the answer of 30 April 2009, *Official Report*, column 1445W, on the Transport Innovation Fund, how much of the Government's contribution to Crossrail will be supported by the Transport Innovation Fund; and from which stream. [289228]

Mr. Khan: All of the Government's grant contribution to the cost of Crossrail will be supported by the Transport Innovation Fund in recognition of its significant contribution to national economic productivity.

Transport: Public Expenditure

Mrs. Villiers: To ask the Minister of State, Department for Transport pursuant to the Statement made by the Secretary of State on 15 January 2009, *Official Report*, column 335, on transport infrastructure, what his most recent estimate is of levels of spending on transport in the current three year period. [288573]

Chris Mole: The Department for Transport's Annual Report and Resource Accounts 2008-09 (HC 454) sets out, in Appendix A, the outturn for spending in 2008-09 and existing plans within departmental expenditure limits (DEL) and annually managed expenditure (AME) for 2009-10 and 2010-11. The following table repeats the total figures shown in that Appendix:

	2008-09 Outturn	2009-10 Plans	£0,000 2010-11 Plans
Resource			
DEL	5,518	6,398	6,371
AME	3,729	4,265	4,493
Total resource budgets	9,247	10,663	10,864
Capital			
DEL	7,183	8,314	7,412
AME	0	0	0
Total capital budgets	7,183	8,314	7,412

Planned expenditure in-year for 2009-10 and 2010-11 may vary depending, in particular, on decisions made on the take-up of end year flexibility from previous years.

Transport: Radioactive Materials

Simon Hughes: To ask the Minister of State, Department for Transport how many radioactive material movements within the UK there were by each mode of transport in each year since 1997; and how much waste was transported in each such year. [288422]

Paul Clark: The regulations for the transport of radioactive material require that the Secretary of State be notified of certain shipments of radioactive material. These shipments usually involve particularly large amounts of radioactivity and will include shipments of high level waste and irradiated nuclear fuel (often referred to as waste).

In addition, this Department sponsors periodic surveys into the radiological impact of the normal transport of radioactive material in the UK. These surveys involve collecting data on the number and nature of shipments of radioactive material during a particular year. The reports on these surveys have been placed in the House Libraries and are available via the Department for Transport website at the following address:

http://www.dft.gov.uk/pgr/freight/dgt1/road/guidance/guidance/guidance7class/theradiologicalimpactofthetr1178

The latest reports in this series were produced in: 2009 (sea transport, Ref. HPA-RPD-050), 2005 (road/rail, Ref. NRPB-W66) and 2003 (air, Ref, NRPB W39).

The Office for Civil Nuclear Security (OCNS) is the security regulator for the UK's civil nuclear industry. It is responsible for approving security arrangements within the industry and enforcing compliance. For data specific to the transportation of civil nuclear material falling under the Nuclear Industries Security Regulations 2003, you may also wish to view the OCNS annual reports entitled "The state of security in the civil nuclear industry and the effectiveness of security regulation" via the HSE website at the following address:

http://www.hse.gov.uk/nuclear/ocns/publications.htm

Transport: Wakefield

Jon Trickett: To ask the Minister of State, Department for Transport how much local transport grant his Department has allocated to Wakefield metropolitan and district council in each year since its creation. [288660]

Mr. Khan: The Department for Transport has allocated the following capital funding to Wakefield metropolitan district council (MDC) under the local transport plan system. This funding is not ring-fenced and Wakefield MDC has discretion to spend the allocations in line with its priorities. Funding for Integrated Transport reflects agreement within West Yorkshire on appropriate allocations between the district councils and the Integrated Transport Authority:

£ million

	Integrated transport block	*Highways maintenance*	*Total local transport funding*
2009-10	3.695	3.011	6.706
2008-09	3.564	3.004	6.568
2007-08	3.300	2.924	6.224
2006-07	3.279	3.399	6.678
2005-06	3.087	3.252	6.339
2004-05	2.801	3.639	6.440
2003-04	2.806	4.190	6.996
2002-03	2.886	3.762	6.648
2001-02	3.679	3.968	7.648
2000-01	—	4.608	4.608
Pre LTP funding			
1999-2000	2.882	—	2.882
1998-99	2.490	—	2.490

Note:
Information on funding for Wakefield from before 1998-99 is not available.

In addition to the above allocations £30.066 million has been provided to Wakefield MDC in the past three years for major projects:

£ million

	Project	*Funding*
2009-10	Hemsworth to A1 Link Road	6.381
2008-09	Hemsworth to A1 Link Road	14.654
	Glasshoughton Coalfields Link Road	2.977
2007-08	Hemsworth to A1 Link Road	2.519
	Glasshoughton Coalfields Link Road	3.535

Wakefield MDC receives a general revenue allocation on transport through the Department for Communities and Local Government's formula grant.

Travel

Stephen Hammond: To ask the Minister of State, Department for Transport (1) what recent estimate his Department has made of the comparative journey times from city centre to city centre between *(a)* London and Paris, *(b)* London and Brussels, *(c)* London and Amsterdam and *(d)* London and Cologne when travelling by (i) air and (ii) rail; [284548]

(2) what recent assessment his Department has made of the relationship between journey times and the proportion of journeys made by rail for *(a)* inter-city journeys within England, *(b)* inter-city journeys between England and Scotland, *(c)* inter-city journeys between London and continental Europe and *(d)* inter-city journeys between UK cities other than London and continental Europe. [284549]

Paul Clark: Journey time is only one of the factors that people consider when they are making a choice about how to travel. Other factors include reliability, frequency and price. The Department for Transport has not carried out a detailed assessment of comparative journey times by rail and air. However the evidence does point to passengers making rail their first choice when it can provide a fast and convenient service.

For example, passengers on short-haul trips to European destinations are already increasingly turning to rail where that is an attractive option. Flights to Paris have fallen by over 20 per cent. since 2000, and flights to Brussels by over one third. Increasing the speed of trains within the UK can also have benefits. The journey time between Manchester and London has decreased from nearly three hours in 2007 to around two hours now. The number of rail passengers between Manchester and London increased by 64 per cent. between 2003 and 2008 from 2.1 million to 3.3 million per annum and over the same time period the number of air passengers has decreased from 1.9 million to 1.4 million, a 30 per cent. decrease.

On 15 January 2009 the Government announced that they were setting up a company, High Speed 2, to consider the case for new high speed rail services from London to Scotland.

UK Innovation Fund

Mrs. Villiers: To ask the Minister of State, Department for Transport with reference to page 51 of "Building Britain's Future", Cm 7654, how much his Department plans to contribute to the UK Innovation Fund in each of the next 10 years. [289203]

Chris Mole: The Department for Transport has no plans, at this time, to contribute to the UK Innovation Fund.

Waterloo Station

Susan Kramer: To ask the Minister of State, Department for Transport when he expects platforms 21 to 24 at Waterloo station to receive domestic rail services; and if he will make a statement. [289090]

Chris Mole: Capacity at Waterloo will be increased by lengthening platforms thereby allowing longer trains, carrying more people.

We are working with Network Rail to extend platforms at Waterloo station and across the whole south western network to increase capacity on some suburban routes from eight to 10-carriage trains by 2014.

As part of this, we are investigating how Waterloo and Waterloo International Terminal platforms 20 to 24 can be used to help increase capacity on the network. Work has been carried out on platform 20 and option

development work is now progressing on other platforms and enhancing the tracks outside the station to support the increase in capacity. We are continuing to work with South West Trains to provide the additional carriages for longer trains.

INTERNATIONAL DEVELOPMENT

Afghanistan: Overseas Aid

Mr. Frank Field: To ask the Secretary of State for International Development what steps he is taking to ensure that fertiliser supplied to Afghanistan from his Department's budget is not misappropriated by the Taliban for use in weapon production. [289005]

Mr. Michael Foster: The Department for International Development (DFID), the stabilisation Aid Fund and USAID jointly funded the governor of Helmand's wheat seed distribution programme ($11 million in 2008-09). The fertiliser was distributed through a USAID contractor who tracked recipients through a post-distribution monitoring structure. Military and civilian planners in Helmand assessed that the risk of the distributed fertiliser being used in bomb making was low.

This year's counter narcotic plan will distribute low nitrogen content fertilisers, so it will be difficult to use in weapons construction. The distribution and use of fertiliser will be monitored.

Mr. Ellwood: To ask the Secretary of State for International Development how much his Department spent on aid to Afghanistan in 2008-09; and what proportion of such aid was delivered directly in Helmand province.[1] [289143]

Mr. Michael Foster: The Department for International Development (DFID) provided £143 million of support to Afghanistan in 2008-09 through its bilateral programme. Of this, we spent £21.9 million on growth, livelihoods and governance programmes directly in Helmand province.

DFID publishes expenditure in its Annual Report and the Statistics in International Development publication. These are available in the Library of the House and on the DFID website:

www.dfid.gov.uk

Africa: Overseas Aid

Mr. Andrew Mitchell: To ask the Secretary of State for International Development how much funding his Department has allocated to the agricultural sector in each of the bilateral country programmes in sub-Saharan Africa in each of the last five years. [287268]

Mr. Thomas: The total amounts that Department for International Development (DFID) has spent on projects and programmes in the agriculture sector through its bilateral programme in sub-Saharan Africa in the last five years are set out in table 1. Table 2 sets out the amounts that DFID has spent on food aid and food security programmes in sub-Saharan Africa over the same period. In addition to this, DFID also provides funds to national Governments through general budget support. Last year (2008-09) we estimate that £15.6 million of DFID's bilateral budget support was spent on the agriculture sector in Africa.

DFID's White Paper, published on 6 July, sets out our vision for a doubling of agricultural production in Africa over the next 20 years.

Table 1: DFID bilateral spending on agriculture programmes in sub-Saharan Africa (SSA)

1. *[Official Report, 12 October 2009, Vol. 497, c. 2MC.]*

Africa: Poverty

Andrew Stunell: To ask the Secretary of State for International Development what recent discussions he has had with his G8 counterparts on progress towards meeting the target of doubling funding for the alleviating of poverty in Africa between 2005 and 2010; and on what dates these discussions were held. [285692]

Mr. Thomas: The Secretary of State discussed this issue when he met counterparts from Germany, France and the United States at the World Bank annual meetings, held in Washington in April on 25-26 April. Further to this, I attended the G8 Development Ministers meeting in Rome on 11-12 June, where these issues were also discussed. Ministers and officials have regular conversations on this subject with counterparts.

The G8, at its summit in Italy, agreed a renewed commitment to development and to meeting its aid commitments including those for Africa. A mechanism for achieving greater accountability and transparency of G8 promises including an interim accountability framework was also agreed. In addition, the Prime Minister secured agreement for an international assessment of what is needed to meet the Millennium Development Goals, to take place in 2010.

CDC

Dr. Pugh: To ask the Secretary of State for International Development if he will direct CDC to cease conducting business through each of its subsidiaries located in off-shore financial centres. [288181]

Mr. Douglas Alexander: CDC will in future only commit capital to new funds and direct investments in jurisdictions implementing the international tax standard and in developing countries they are aiming to help.

Children's Rights

Mr. Dai Davies: To ask the Secretary of State for International Development what recent representations he has had from UNICEF on its Promise Me campaign on children's rights in respect of climate change and HIV/AIDS. [287538]

Mr. Michael Foster: The Department for International Development has not to date received representations from UNICEF on this campaign.

Damian McBride

Mr. Maude: To ask the Secretary of State for International Development on what date he last met Mr. Damian McBride in the course of his official duties. [287401]

Mr. Douglas Alexander: I have not met with Mr. McBride in the course of my ministerial duties since his resignation on 11 April 2009.

Departmental Accountancy

Steve Webb: To ask the Secretary of State for International Development when he expects to publish his Department's resource accounts for 2008-09. [287331]

Mr. Michael Foster: The Department for International Development's (DFID) resource accounts were published with the annual departmental report on the 16 July 2009. Copies are available in the Library of the House and on the DFID website:

www.dfid.gov.uk

Departmental Billing

John Mason: To ask the Secretary of State for International Development what percentage of invoices from suppliers his Department paid within 10 days of receipt in June 2009. [288911]

Mr. Michael Foster: The Department for International Development paid 90 per cent. of correctly rendered invoices within 10 days of receipt in June 2009.

Departmental Conditions of Employment

Lynne Featherstone: To ask the Secretary of State for International Development what percentage of employees in his Department *(a)* are on a flexible working contract, *(b)* are on a job share employment contract and *(c)* work from home for more than four hours a week. [287069]

Mr. Michael Foster: The Department for International Development (DFID) is committed to improving the work/life balance of its staff, and provides a wide range of flexible work pattern options.

On joining DFID, and at any subsequent time, all staff have the option to request to join our Flexible Working Hours Scheme (FWHS). Agreement to this is made by line managers, taking into account the operating needs of their unit. Options include home and remote working; term-time working; reduced hours; compressed hours; and flexible start and finish times.

We do not retain a central register of staff who have asked to join our FWHS, nor of all those who are working under those arrangements, but as at 30 June 2009, 145 (i.e. 8.6 per cent.) of our Home Civil Service (HCS) staff were working reduced hours.

DFID does not hold central records of those on job share employment contracts. Similarly, there are no central records of employees who work from home for more than four hours per week. To provide this would incur disproportionate cost.

Departmental Contracts

Lorely Burt: To ask the Secretary of State for International Development how many contracts let by his Department were awarded to businesses with fewer than 50 employees in each of the last five years; and what the monetary value of such contracts was in each such year. [287003]

Mr. Michael Foster: The number of contracts let by the Department for International Development (DFID) to suppliers with fewer than 50 members of staff could not be made available without incurring disproportionate cost.

Departmental Internet

Mr. Watson: To ask the Secretary of State for International Development pursuant to the answer of 14 July 2009, *Official Report*, column 250W, on departmental internet, what the *(a)* names and *(b)* versions are of the web browsers used on the (i) desktop machines and (ii) laptop computers used by his Department's (A) Permanent Secretary, (B) chief information officer, (C) head of communications and (D) head of finance. [288995]

Mr. Michael Foster: All Department for International Development desktop and laptop computers use a standard PC build that includes Internet Explorer 7.

Departmental Manpower

Jo Swinson: To ask the Secretary of State for International Development what percentage of employees in his Department are *(a)* women and *(b)* men; and what the average hourly pay of the (i) male and (ii) female employees in his Department was in the latest period for which figures are available. [287519]

Mr. Michael Foster: Civil service statistics are collected by ONS from the annual civil service employment survey. The latest published statistics are for 31 March 2008.

http://www.statistics.gov.uk/pdfdir/cst0109.pdf

Departmental Marketing

Mr. Clifton-Brown: To ask the Secretary of State for International Development (1) what he estimates the cost to his Department of the rebranding of his Department's overseas aid will be; from which line in his Department's budget the cost will be paid; what the cost was of designing the new UKaid logo; which company designed it; if he will place in the Library a copy of the design contract; and what names other than UKaid were considered for the rebranding; [285338]

(2) if he will place in the Library a copy of each logo which was considered during the redesign process for rebranding his Department's overseas aid; on which *(a)* items, *(b)* buildings, *(c)* vehicles and *(d)* other places the new logo will be placed; what he estimates the cost of printing (i) stationery, (ii) business cards and (iii) other items with the new logo will be; and if he will make a statement. [285339]

Mr. Douglas Alexander: 'UKaid' was developed through a process of research and testing with the UK public. From this research a range of designs were tested, of which 'UKaid' was the preferred option. It would be inappropriate to make public copies of unsuccessful designs.

We anticipate spending approximately £130,000 on re-branding our overseas aid, which will come from DFID's central communications budget. Of this, just over £98,000 was spent on developing, designing and testing the logo to ensure that it was meaningful to the UK public. It was commissioned via the Government's Central Office of Information (COI), following best practice and ensuring optimal value for money. As COI are the Government's procurement specialists no design contract was required.

In order to minimise the additional costs, and to ensure that the logo is introduced sensitively and appropriately, 'UKaid' will be phased in both in the UK and in the countries where we work. Within the UK the 'UKaid' logo will be used on a range of public communications, as well as DFID's website. Electronic templates will be updated at no extra cost; the logo will be incorporated into products as they are due to be replaced or replenished.

Departmental Postal Services

Mr. Weir: To ask the Secretary of State for International Development how much his Department spent on Royal Mail services in each of the last two years. [288746]

Mr. Michael Foster: The Department for International Development spent the following sums using the Royal Mail in the last two years:

2007-08: £31,084

2008-09: £28,000

Departmental Procurement

Lorely Burt: To ask the Secretary of State for International Development what progress his Department has made in implementing the recommendations of the Glover Report in its procurement processes. [287142]

Mr. Michael Foster: The Department for International Development (DFID) current procurement processes now meet or partially meet the majority of the Glover Report recommendations. We have introduced a new Commercial Strategy which encourages the use of outcome based specifications, and our contract award details are published online. DFID's Innovation Procurement Plan will be finalised this year. We are on track to meet the other recommendations through the strategic reforms we are bringing in as part of DFID's Procurement Improvement Plan.

Developing Countries: Debts

Mr. Drew: To ask the Secretary of State for International Development what recent representations he has received on *(a)* the effect of the operation of vulture funds on standards of living in the developing world and *(b)* the extent to which UK businesses participate in such funds. [288014]

Mr. Thomas: The Department for International Development has received regular representations from members of the public and non-governmental organisations on the harmful impacts of 'vulture funds'. These representations usually stress that 'vulture funds' divert much-needed resources away from developing countries and exploit debt relief that was provided with the aim of relieving poverty. They also express concern at the use of UK courts to pursue legal claims. A survey by the International Monetary Fund and the World Bank in 2008 reported that 10 businesses based in the UK and UK overseas territories had brought legal action on debts owed by heavily indebted poor countries (HIPC), although creditors may litigate for a variety of reasons.

The UK Government have already taken a range of actions to reduce the extent of the problem of 'vulture funds'. In addition, I am pleased that today my hon. Friend the Economic Secretary to the Treasury has launched a consultation on legislation that would restrict the proportion of past HIPC debts that a creditor could reclaim under UK laws. Copies have been placed in the Libraries of both Houses and are available on the Treasury's website:

http://www.hm-treasury.gov.uk/

Developing Countries: Health Services

Mr. Dai Davies: To ask the Secretary of State for International Development what recent representations he has received on the introduction of a currency transaction levy to raise funds for health initiatives in the least developed countries. [287544]

Mr. Michael Foster: The Department for International Development (DFID) has received representations about the currency transaction levy (CTL) in relation to the work of the High Level Taskforce on Innovative International Financing for Health Systems from NGOs in various meetings at official level. The Taskforce Secretariat, of which the United Kingdom is a member, has received 33 campaign e-mails about CTL to date. It has also received two written submissions about CTL in response to its public consultation exercise. In addition, the Prime Minister has received three letters about the CTL.

The Prime Minister co-chairs the taskforce together with World Bank President Robert Zoellick. The taskforce aims to mobilise additional resources for health systems strengthening in the poorest countries in the world through the use of innovative financing mechanisms. The Taskforce report is available at:

http://www.internationalhealthpartnership.net/en/taskforce

Glasgow

John Mason: To ask the Secretary of State for International Development whether he plans to visit Glasgow on official business during the summer Adjournment. [288912]

Mr. Douglas Alexander: I will next be visiting the Department's joint headquarters in Glasgow on Friday.

Iran: Afghanistan

Mr. Wallace: To ask the Secretary of State for International Development what recent discussions he has had with his Iranian counterpart on support for Afghan refugees in Iran. [288578]

Mr. Michael Foster: The Secretary of State for International Development has not had any recent discussions with the Iranian Government about support for Afghan refugees in Iran.

The Department for International Development has contributed £19 million to the office of the United Nations High Commissioner for Refugees (UNHCR) in Geneva to address refugee issues worldwide including in Afghanistan and Iran.

Maldives: Housing

Mr. Streeter: To ask the Secretary of State for International Development what steps his Department intends to take to support the President of the Maldives in the delivery of additional social housing. [287783]

Mr. Michael Foster: Since 2005-06 the Department for International Development (DFID) has not provided any bilateral overseas development assistance to the Maldives.

DFID continues to provide support indirectly to the Maldives through its contribution to the European Community (EC). The EC's country strategy in the Maldives focuses on institutional capacity building, support to social sectors and the environment. DFID is also an important stakeholder and funder to international financial institutions such as the World Bank and the Asian Development Bank. Their main focus in the Maldives is policy and institutional reform. We have encouraged these institutions to engage constructively with the Maldivian Government.

Overseas Aid

Mr. Andrew Mitchell: To ask the Secretary of State for International Development how much funding his Department has allocated to *(a)* agriculture and *(b)* food security in each of the last three years in (i) bilateral expenditure, (ii) multilateral contributions and (iii) research; and how much it intends to allocate to each such category in each of the next three years. [287294]

Mr. Michael Foster: The following table sets out the Department for International Development's (DFID) spending on agriculture and food security for the years 2005-06 to 2007-08. Comparable figures are not yet available for 2008-09.

The Prime Minister announced the Government's commitment to spend £1.1 billion on agriculture and food security over the period 2009-10 to 2011-12. Programming of this expenditure is not yet finalised.

DFID agriculture and food security spending

£ million

	2005-06	*2006-07*	*2007-08*
Bilateral			
Agriculture	83	95	77
Fisheries	4	6	2
Rural development	26	25	49
Sub total	114	126	128
Food security	18	19	36
Total agriculture and food security	132	145	164
of which RNR Research	33	26	27
Multilateral			
Agriculture	32	108	93
Fisheries	6	2	6

DFID agriculture and food security spending

£ million

	2005-06	*2006-07*	*2007-08*
Rural development	20	29	19
of which RNR Research	6	3	6
Sub total	58	138	120
Food security	31	27	19
Total agriculture and food security	89	165	139
Total	221	310	303
of which RNR Research	38	30	32

1. Excludes emergency humanitarian food aid and basic nutrition
2. Multilateral sectoral share—latest data available 2007-08
3. Agriculture includes livestock
4. RNR research includes agriculture, fisheries and forestry

Palestinians: EC Aid

Andrew Stunell: To ask the Secretary of State for International Development what recent discussions he has had with the European Commission on non-governmental organisations delivering humanitarian aid to Gaza in co-operation with Hamas. [286919]

Mr. Douglas Alexander: The issue was most recently discussed at a meeting between Department for International Development and EU officials on 6 May.

Palestinians: International Assistance

Andrew Stunell: To ask the Secretary of State for International Development what representations he has made to the United States Treasury Department's Office of Foreign Aid Control on the provision of emergency licences to USAID-partner organisations to engage social services and civil society in Gaza. [286920]

Mr. Douglas Alexander: I have not made representations to the United States Department of the Treasury on this issue.

Andrew Stunell: To ask the Secretary of State for International Development what steps his Department plans to take in respect of UK-based, aid-giving non-governmental organisations which deliver aid with the co-operation of Hamas. [286921]

Mr. Douglas Alexander: The UK Government expect all partner organisations and agencies to take the utmost care when carrying out their work in Gaza to fulfil their obligations under EU and UK legislation, including in relation to contact with Hamas. We have informed our partners of this position.

Mr. Wallace: To ask the Secretary of State for International Development what assistance his Department is giving to enable aid to reach Gaza. [288359]

Mr. Douglas Alexander: The Department for International Development (DFID) has provided £1 million to the World Food Programme (WFP) to co-ordinate the relief items brought into Gaza by the UN and non-governmental organisations, to ensure that aid reaches those in most need. WFP's work includes the provision of transport, logistics and co-ordination of advocacy for improved access. This is part of DFID's almost £50 million overall response to the recent fighting in Gaza.

The UK Government continue to press the Israeli Government to allow full, consistent and unhindered access to Gaza for aid and aid workers, as well as to relax restrictions on the types of goods that are allowed to cross the border.

Senegal: Overseas Aid

Mark Pritchard: To ask the Secretary of State for International Development what *(a)* direct and *(b)* indirect aid his Department provided to Senegal in 2008. [287024]

Mr. Thomas: Details of the Department for International Development's (DFID) bilateral expenditure were published in DFID's Annual Report 2009 which is available from the Commons Library or online at:

www.dfid.gov.uk

In financial year 2008-09 the only DFID bilateral aid to Senegal was delivered by not-for-profit organisations through the Civil Society Challenge Fund and amounted to £163,000. Data on DFID's share of multilateral aid to Senegal for 2008-09 are not yet available, but in 2007-08 it is estimated that £9.2 million of DFID's core contributions to multilateral organisations went to Senegal.

Sri Lanka: Politics and Government

Mr. Burstow: To ask the Secretary of State for International Development what assessment he has made of the humanitarian situation in Sri Lanka since the end of the conflict in that country; and what steps his Department is taking to support internallydisplaced Tamils. [288582]

Mr. Michael Foster: I refer the hon. Member to the written ministerial statement made on 14 July 2009, *Official Report*, columns 12-13WS. This sets out our assessment of the humanitarian situation in Sri Lanka and our efforts to urge the Government of Sri Lanka to meet its pledge of returning internally displaced persons to their homes as soon as possible.

Written Questions: Government Responses

Mr. Burstow: To ask the Secretary of State for International Development when he plans to answer Question 280485, tabled on 12 June 2009, on payments to contractors; and if he will make a statement. [287774]

Mr. Michael Foster: The answer to question 280485 will be given today.

FOREIGN AND COMMONWEALTH OFFICE

British Council: Finance

Mr. Paul Goodman: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 3 March 2009, *Official Report*, column 1413W, on terrorism: finance, what criteria the British Council is using to allocate funding to each *(a)* country and *(b)* project; and how it plans to assess the effectiveness of such expenditure. [262407]

Chris Bryant: The spending profile of the £6 million allocated to the British Council's Reconnect initiative to tackle radicalisation and promote understanding overseas will be £1 million, £2 million and £3 million from 2008-09 to 2010-11 respectively. There is no ring-fenced allocation for each country. Allocations depend on the quality of project proposals submitted for funding, measured by anticipated impact, and the priority accorded to that country. The British Council has a rolling professional evaluation process in place for all its programmes.

British Overseas Territories: Discrimination

Mr. Holloway: To ask the Secretary of State for Foreign and Commonwealth Affairs which UK overseas territories do not have constitutions which prohibit discrimination on the grounds of *(a)* sexual orientation, *(b)* ethnicity and *(c)* gender. [287993]

Chris Bryant *[holding reply of 20 July 2009]:* Three overseas territories have constitutions with Bills of Rights dating from before 1997, namely Bermuda, Montserrat and Anguilla. Six overseas territories have new constitutions agreed since 1997 (Turks and Caicos Islands, Gibraltar, Falkland Islands, British Virgin Islands and—not yet in force—Cayman Islands, and St Helena, Ascension and Tristan da Cunha), each of which has a Bill of Rights.

All of the Bills of Rights have an open-ended non-discrimination provision prohibiting discrimination on grounds of a status listed or other status. It is not therefore necessary to set out every status in the provision. Where existing constitutional provisions fall short of this, we ensure that negotiations on a new constitution result in a Bill of Rights which reflects at a minimum the European convention on human rights and the international covenant on civil and political rights.

Compensation: Foreigners

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department has paid in compensatory or consolatory payments to non-UK nationals in each year since 1997. [285282]

Chris Bryant: The Foreign and Commonwealth Office does not keep such records of total amounts of compensatory or consolatory payments made to non-UK nationals.

Damian McBride

Mr. Maude: To ask the Secretary of State for Foreign and Commonwealth Affairs on what date he last met Mr. Damian McBride in the course of his official duties. [287403]

Chris Bryant: My right hon. Friend the Foreign Secretary has never had a meeting with Mr. Damian McBride in or outside his ministerial duties.

Departmental Cybercrime

Jenny Willott: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last reviewed his Department's policy on recording numbers of attempted attacks against its computer systems. [288179]

Chris Bryant: The Foreign and Commonwealth Office complies with the mandatory requirements of the Security Policy Framework in relation to information security. The relevant requirement states that:

"All ICT (information and Communications technology) systems must have suitable identification and authentication controls to manage the risk of unauthorised access, enable auditing and the correct management of user accounts".

Departmental Internet

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department has spent on advertising its Locate system for British nationals who plan to travel abroad in each year since its inception. [288246]

Chris Bryant *[holding answer 20 July 2009]:* The promotion of Locate is a feature of the Foreign and Commonwealth Office's (FCO) Know Before You Go public information campaign aimed at helping British travellers to stay safe and healthy abroad. It is impossible to calculate the exact spend on advertising Locate because the campaign combines a number of different travel safety messages, and local promotion initiatives have been funded from Posts' devolved budgets. However, we are able to specify that in 2008 the FCO paid £25,000 for Locate's media launch in the UK, and £24,300 for artwork and the development/printing of Locate leaflets and posters, mainly for use by our Posts abroad.

Departmental Procurement

Lorely Burt: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress his Department has made in implementing the recommendations of the Glover Report in its procurement processes. [287139]

Chris Bryant: The Foreign and Commonwealth Office (FCO) has been engaging with the Office of Government Commerce (OGC) on the Glover report and made the following progress in respect of the recommendations:

We advertise our higher value UK requirements on the FCO website. The portal is being developed by OGC and consideration is being given to advertising on the Supply 2 Gov portal as an interim solution for our UK requirements.

We have been running a pilot of an OGC approved e-tendering system and we expect to meet this recommendation by the deadline.

We already do this for contracts advertised on the FCO website, but using the single portal will be considered in conjunction with the OGC development of the opportunities portal.

We already seek detail of all previous relevant experience, not just that limited to the public sector.

We published our Innovation Procurement Strategy and Implementation Plan on the FCO website on 15 July 2009.

We encourage greater use of outcome-based specifications.

We have altered our supplier adoption processes to clearly identify small and medium-sized enterprises (SMEs) and enable the collection of SME expenditure data.

The OGC will be rolling out guidance to facilitate the implementation of the remaining Glover recommendations and the FCO will seek to adopt this guidance into its policy and processes in the required time scales.

Departmental Training

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department has spent on training for *(a)* him and *(b)* each other Minister in his Department in the last 12 months; and what the purpose of each training activity was. [286123]

Chris Bryant: I refer the hon. Member to the answer by my hon. Friend, the then Parliamentary Under-Secretary for Foreign and Commonwealth Affairs (Gillian Merron) of 20 April 2009, *Official Report*, column 505W.

In addition to the training detailed in that reply, in the last 12 months £125 has been spent on IT training for my right hon. and noble Friend the Minister for Africa, Asia and the UN, Lord Malloch-Brown.

Departmental Work Experience

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what provision is made to enable students to undertake work experience in his Department; by what means members of the public may obtain information about work experience in his Department; and if he will make a statement. [288728]

Chris Bryant: The Foreign and Commonwealth Office's (FCO) centrally run work experience programmes are aimed at broadening the diversity of our work force.

We currently offer up to 40 students a place every year on the Partner University Placement Scheme, a positive action work experience programme to promote social inclusion and ethnic diversity within the FCO.

The FCO also participates in Cabinet Office diversity internships; taking up to 10 students and recent graduates from the Summer Development Programme (SDP) and the Summer Placement Scheme (SPS). The SDP is an internship for students from a black or minority ethnic background and the SPS is for students with a registered disability.

We are also taking part in the Department for Business, Innovation and Skills Public Sector Graduate Internships, offering up to 30 places through financial year 2009-10.

Members of the public can find details of our centrally run work experience schemes through the work experience pages of the FCO website at:

www.fco.gov.uk/workexperience

Eritrea: International Assistance

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will seek agreement at EU level to withhold EU aid payments to Eritrea if there is no agreed improvement in Eritrea's performance on human rights. [288025]

Mr. Ivan Lewis: We remain concerned about the reports of human rights abuses in Eritrea.

The Eritrean Government have requested a discussion of human rights at the next EU Article 8 Political Dialogue meeting in September 2009.

The European Commission is conducting a mid-term review of its European development fund 10 (EDF 10) in October 2009. This assesses the relevance and performance of the current allocation of €122 million against the guidelines set out in the Commission's Eritrea country strategy paper.

We will consult closely with the European Commission in October if there is no improvement in Eritrea's performance on human rights.

Eritrea: Overseas Aid

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what financial support his Department has provided to Eritrea in the last 12 months. [288026]

Mr. Ivan Lewis: In the last 12 months, the Foreign and Commonwealth Office has provided £107,000 to a female genital mutilation project to support the National Union of Eritrean Women and £95,000 supporting agricultural workers, via the National Federation of Eritrean Workers, to obtain fair pay and working conditions. Both projects are run through the Government of Eritrea but are closely monitored by our embassy in Asmara through, for example, visiting local health clinics where workshops are taking place.

Foreign Relations

Mr. Wallace: To ask the Secretary of State for Foreign and Commonwealth Affairs which ambassadors to the UK he has requested to attend the Foreign and Commonwealth Office in the last two years; and for what reasons in each case. [288541]

Chris Bryant: Ministers and senior officials regularly meet ambassadors at the Foreign and Commonwealth Office and a full list of invitations to meetings would be disproportionately costly to provide.

Gilad Shalit

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department is taking to secure the release of Gilad Shalit. [283350]

Mr. Ivan Lewis *[holding answer July 2009]:* The UK continues to call on Hamas for the immediate, unconditional, and safe release of Corporal Shalit. My right hon. Friend the Foreign Secretary made this clear

in his press statement on 25 June 2009 and the message was also reiterated during the EU Foreign Ministers' meeting on 15 June 2009.

Glasgow

John Mason: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to visit Glasgow on official business during the summer Adjournment. [288920]

Chris Bryant: My right hon. Friend the Foreign Secretary has no plans to visit Glasgow on official business during the summer Adjournment.

Hamas

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with aid agencies based in the UK to ensure that aid they provide is not misappropriated by Hamas; and if he will make a statement. [287519]

Mr. Douglas Alexander: All the organisations the Department for International Development (DFID) funds must meet their obligations in respect to EU and UK legislation on contact with Hamas. DFID officials are in regular contact with our partners to underline this position.

Holidays Abroad: Death

Mr. Evans: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British citizens died whilst on holiday in another EU member state in each of the last five years. [248392]

Chris Bryant: Given the volume of information, my predecessor, the then Parliamentary Under-Secretary (Gillian Merron) placed a copy in the Library of the House.

Iran: Diplomatic Service

Sir John Stanley: To ask the Secretary of State for Foreign and Commonwealth Affairs how many locally employed British Embassy staff in Iran have immunity from jurisdiction under Article 38.1 of the Vienna Convention on Diplomatic Relations 1961. [287299]

Mr. Ivan Lewis *[holding answer 20 July 2009]:* No locally employed members of staff at British Embassy in Tehran have immunity under Article 38.1 of the Vienna Convention on Diplomatic Relations 1961.

Sir John Stanley: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the merits of conferring diplomatic status on non-Diplomatic Service staff employed by the British Embassy in Iran in accordance with the Diplomatic Service Regulations 2006. [287302]

Mr. Ivan Lewis: Staff are appointed under article 7 of the Vienna Convention on Diplomatic Regulations 1961, according to the functions they perform at the mission. In practice, the privileges and immunities staff enjoy stem from the receiving state's recognition that they have been appropriately classified, in line with their functions. The diplomatic service regulations do not apply to locally engaged staff who are employed on local terms and conditions, governed by local law and practice.

Jordan: Asylum

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how many Jordanian nationals were granted asylum in the UK in 2007-08. [282303]

Mr. Woolas: I have been asked to reply.

One Jordanian national was granted asylum in the UK in the financial year 2007-08.

Languages

Mr. Holloway: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of staff required by his Department who speak each foreign language; how many staff in his Department speak each such language; how many staff in his Department have learnt a language in the last 12 months; and if he will make a statement. [288612]

Chris Bryant: The following table shows the estimate of the number of operational speakers required by language. These figures are drawn from central human resources records which are constantly under review and subject to change at short notice for operational reasons. I am awaiting a report regarding the number of speakers in each language, which I will place in the Library once available.

209 officers have learnt a language in the last 12 months where it was necessary to do so to fulfil the job specification. In addition, a further 73 officers have learnt a language in order to help in-country acclimatisation.

Lithuania: Sexuality

Tony Lloyd: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Lithuanian Government on the effect of recent changes to Lithuanian law on the lesbian, gay, bisexual and transgender community in that country. [288820]

Chris Bryant: The Government are disappointed that on 14 July 2009 the Lithuanian Parliament overruled the veto of their outgoing President, Valdas Adamkus, and passed the controversial law on the Protection of Minors against the Detrimental Effect of Public Information.

The new law contains a clause which classifies "agitating in favour" of homosexual or bisexual relationships as potentially harmful to the development of minors. Our ambassador to Lithuania, together with EU partners, has expressed our concerns about this law, including in a meeting with President Adamkus on 22 June 2009. Lithuania's incoming President, Dalia Grybauskaite, is obliged to sign the Bill into law.

The Government welcome President Grybauskaite's statement that she disapproves of aspects of the law and will take all legal measures to seek its improvement. We will continue to work with EU partners to ensure that Lithuania satisfies its human rights obligations.

Lord Malloch-Brown: Official Residences

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs when Lord Malloch-Brown plans to vacate Flat 2, Admiralty House; and what use is envisaged for the property after it is vacated. [287424]

Chris Bryant: Lord Malloch-Brown intends to vacate his ministerial residence on 27 July 2009.

With regard to the future use of the property, I refer the hon. Member to the answer given by my right hon. Friend the Prime Minister on 20 July 2009, *Official Report*, column 770W.

Middle East: Armed Conflict

Mr. Wallace: To ask the Secretary of State for Foreign and Commonwealth Affairs whether evidence has been reported to him of war crimes being committed in Gaza by *(a)* the Israeli Defence Force and *(b)* Hamas. [288379]

Mr. Ivan Lewis: There are several reports in the public domain submitted by various international organisations and non-governmental organisations (NGOs) on the issue of alleged war crimes committed by both sides during the recent Gaza conflict. The most recent report of 2 July 2009 from Amnesty alleges that breaches of international humanitarian law were committed by both Israel and Hamas.

As my right hon. Friend the Foreign Secretary has continued to state since 12 January 2009, we take seriously all allegations of breaches of international humanitarian law during the Gaza conflict and have consistently stated that they should be properly investigated.

Morocco: Fishery Agreements

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Moroccan fishing zones referred to in the EU-Morocco Fisheries Partnership Agreement are those in the Moroccan Exclusive Economic Zone. [288002]

Huw Irranca-Davies: I have been asked to reply.

The Moroccan fishing zones referred to in the EU Morocco Fisheries Partnership Agreement are the Atlantic waters of the Moroccan EEZ. They do not cover the Mediterranean waters of Morocco's EEZ.

Palestinians: Israel

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he *(a)* has taken and *(b)* plans to take during the next 12 months at the United Nations in respect of recognition by the Palestinian Authority of the State of Israel as a Jewish state; and if he will make a statement. [287521]

Mr. Ivan Lewis: We welcome the fact that the Palestinian Authority recognises the state of Israel and is prepared to negotiate a peace deal with it.

The nature of the state of Israel, and the role that religion plays, are matters for Israelis, although we would expect Israel to respect the rights of minorities as undertaken in Israel's declaration of independence and basic laws. We welcome the fact that the Israeli Government have not said that Palestinian recognition of Israel as a Jewish state should be a precondition for entering negotiations with the Palestinians.

The UK position is clear that a comprehensive peace should be based on two states, living side by side within secure and agreed borders based on those of 1967, with

Jerusalem as the capital for both states. Such a solution is the only way to do justice to the national aspirations of the Jewish people and of the Palestinians.

The two-state solution was envisioned in UN Security Council resolution (UNSCR) 1850 of 16 December 2008, which the UK supported, and reaffirmed by the UK-led UNSCR 1860 of 8 January 2009. The UK will continue to make this position clear in future UN discussions.

Shanghai World Expo

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to attend the Shanghai World Expo 2010 event. [287021]

Mr. Ivan Lewis: The Government are committed to giving full support to Shanghai Expo 2010. Questions of ministerial attendance have not yet been finalised.

Spirit of Humanity

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects to complete his investigation into the Spirit of Humanity interception; and by what means he plans to communicate his findings to hon. Members. [288870]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary raised this issue with the Israeli Foreign Minister on 1 July 2009. We have also raised this with officials from the Israeli embassy in London and await further clarification.

Sri Lanka

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has made an assessment of humanitarian conditions in the Manik Farm camp in Sri Lanka; and if he will make a statement. [287108]

Mr. Michael Foster: I have been asked to reply.

There are an estimated 284,000 internally displaced persons (IDPs) in the Manik Farm camp. The Department for International Development's (DFID) humanitarian experts' latest assessment is that the conditions in the camp remain basic but continue to improve as the priority needs of shelter, food, medicine and immediate access to surgical treatment are gradually met. However, we are increasingly concerned about the lack of freedom of movement for the IDP population and the restrictions put on protection activities, such as ensuring the safety of the IDPs and reuniting children with their families.

I also refer the hon. Member to the written ministerial statement made on 14 July, *Official Report*; column 12-13WS. This sets out DFID's current position on the humanitarian situation in Sri Lanka.

Sri Lanka: International Assistance

Mr. Burstow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the International Monetary Fund on the proposed emergency loan package to the Sri Lankan Government; and if he will make a statement. [288634][1]

Mr. Timms: I have been asked to reply.

The Government are deeply concerned about the humanitarian situation in Sri Lanka and are also committed to helping Sri Lanka avoid an economic crisis that would impact most on Sri Lanka's poor.

The Chancellor is in close contact with the IMF and with ministerial colleagues, especially the Foreign Secretary and the Secretary of State for International Development.

The International Monetary Fund has not yet presented a programme for Sri Lanka. Once a programme is presented, it will be assessed on its merits and the situation on the ground in Sri Lanka at the time.

Ukraine: Monuments

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library a copy of the report by Major J. Dart on the monuments and sites significant to United Kingdom military history in the Crimea; and if he will make a statement. [287691]

Chris Bryant *[holding answer 20 July 2009]:* I have placed a copy of Major Dart's report in the Library. There have been a number of developments since this report was written in May 2007.

Our embassy in Kyiv, in conjunction with local Sevastopol authorities, has been actively seeking a successful resolution to the long-standing issue of the Cathcart Hill monument. This private monument was built by a local entrepreneur in 1993 supported by public subscription, but has fallen into disrepair due to weathering, vandalism, theft and lack of maintenance by its owner.

Following the efforts of the embassy, the land on which the monument stands and associated historical artefacts have now been transferred to the ownership of the Sevastopol city administration, a prerequisite for the expenditure of Ukrainian state funds. Work is now under way for the official British Crimean War memorial near the village of Dergachi to become the focus for official commemoration with the complex at Cathcart Hill being simplified to become a place for quiet contemplation.

WORK AND PENSIONS

Asbestos

Mr. Gibb: To ask the Secretary of State for Work and Pensions (1) what assessment her Department has made of the health risks to *(a)* a child aged five years and *(b)* an adult aged 30 years from an exposure to 48 fibres of (i) crocidolite and (ii) amosite per millilitre of air in a 12-week period; [288723]

(2) what assessment her Department has made of the risk of *(a)* a child aged five years and *(b)* and adult aged 30 years developing mesothelioma as a consequence of exposure to asbestos; [288724]

(3) what assessment she has made of the health risks to *(a)* a child aged five years and (b) an adult aged 30 years from an exposure to 72 fibres of chrysotile per millilitre of air in a 12-week period. [288832]

1. *[Official Report, 9 September 2009, Vol. 496, c. 34-36MC.]*

Jonathan Shaw: The information requested could be produced only at disproportionate cost as it is currently not available or cannot be produced on a sound scientific basis in respect of a five-year-old.

The exposures in the question appear to relate to the "action levels" in the 2002 Control of Asbestos at Work Regulations which are no longer current. The current limit in the 2006 regulations is lower at 0.1 fibres per millilitre of air averaged over a four-hour period. Irrespective of this limit the regulations require exposures to be reduced to the lowest reasonably practicable level below 0.1 fibres per millilitre.

Risk assessment models are available for mesothelioma and asbestos-related lung cancer. These can be used to assess risk for given levels of exposure, exposure durations, types of asbestos, and the age at which exposure occurs—but only within the working age range.

Attendance Allowance

Miss McIntosh: To ask the Secretary of State for Work and Pensions how many people claimed attendance allowance in *(a)* Vale of York constituency and *(b)* England in (i) 1980, (ii) 1997, (iii) 2001, (iv) 2005 and (v) 2008. [286003]

Jonathan Shaw: The available information is in the following table:

Attendance allowance—cases in payment

Date	Vale of York parliamentary constituency	England
November 1980	—	—
November 1997	1,300	1,006,300
November 2001	1,500	1,072,600
November 2005	1,960	1,213,340
November 2008	2,370	1,321,380

Notes:
1. The information is not available for 1980.
2. Figures taken from the 100 per cent data. (November 2005 and November 2008) are rounded to the nearest 10.
3. Figures for November 1997 and November 2001 are based on 5 per cent. sample caseload data, adjusted to 100 per cent. caseload data and rounded to the nearest 100, and are subject to sampling error.
4. Figures show the number of people in receipt of an allowance, and exclude people with entitlement where the payment has been suspended, for example if they are in hospital.

Source:
DWP Information Directorate: Work and Pensions Longitudinal Study and 5 per cent. sample

Miss McIntosh: To ask the Secretary of State for Work and Pensions what the monetary value of attendance allowance paid to residents from *(a)* the Vale of York and *(b)* England was in (i) 1980, (ii) 1997, (iii) 2001, (iv) 2005 and (v) 2008. [287393]

Jonathan Shaw: The available information is in the table.

Expenditure on attendance allowance in (a) the Vale of York and (b) England

Financial year	Vale of York	Cash prices (£ million) England
1980	—	—
1997	3.0	2,073
2001	3.8	2,566
2005	5.3	3,200
2008	7.1	3,929

Notes:
1. Estimates are not available for 1980.
2. Estimates for 1997 and 2001 are based on 5 per cent. sample caseload data, adjusted to 100 per cent. caseload data and to published benefit expenditure.
3. Estimates for 2005 and 2008 are based on the Work and Pensions Longitudinal Study.
4. Estimates for 2008 are based on averaging August and November 2008.
5. Estimates are adjusted to published benefit expenditure.

DWP statistical and accounting data

Carer's Allowance

Andrew George: To ask the Secretary of State for Work and Pensions how many people have claimed carer's allowance in *(a)* St Ives constituency, *(b)* Cornwall and *(c)* England in each of the last five years. [287975]

Jonathan Shaw: The available information is in the following table.

Number of people who became entitled to Carer's Allowance

	St. Ives parliamentary constituency	Cornwall	England
2004	360	1,790	141,780
2005	390	1,910	146,470
2006	320	1,740	147,120
2007	370	1,670	125,590
2008	350	1,710	143,400

Notes:
1. Figures are rounded to the nearest 10.
2. Figures exclude some short term flows not captured by the relevant scans.
3. Figures exclude flows where people move out of one area and into another while remaining on the benefit.
4. Figures include people with entitlement but who do not actually receive Carer's Allowance, for example, because of the overlapping benefits rule.

Source:
DWP Information Directorate: Work and Pensions Longitudinal Study

Mr. Kemp: To ask the Secretary of State for Work and Pensions how many people resident in *(a)* Sunderland and *(b)* England were in receipt of carer's allowance on the latest date for which figures are available. [289161]

Jonathan Shaw: The information is provided in the following table.

Number of people in Sunderland and England receiving carer's allowance at November 2008

	Number
Sunderland local authority	3,340
England	417,800

Notes:
1. Excludes those with entitlement but payment has been suspended.
2. Figures rounded to nearest 10.

Source:
Department for Work and Pensions Longitudinal Study

Carer's Allowance: Morecambe

Geraldine Smith: To ask the Secretary of State for Work and Pensions (1) how many people in Morecambe and Lunesdale constituency received carer's allowance in the latest period for which figures are available; [287835]

(2) how many people in Morecambe and Lunesdale constituency *(a)* are entitled to and *(b)* receive carers' benefit. [288444]

Jonathan Shaw: The available information is in the following table.

The number of people entitled to or receiving carer's allowance in Morecambe and Lunesdale parliamentary constituency

	Number
Number of people with entitlement	1,810
Number of people receiving carer's allowance	850

Notes:
1. Data are rounded to the nearest 10.
2. Number of people with entitlement includes those where carer's allowance is not in payment but retain underlying entitlement.
3. Number of people receiving carer's allowance excludes those with entitlement where the payment has been suspended.

Information Directorate: Work and Pensions Longitudinal Study

Child Maintenance and Enforcement Commission: Complaints

Sandra Gidley: To ask the Secretary of State for Work and Pensions what the average time taken for complaints against *(a)* the Child Support Agency and *(b)* the Child Maintenance and Enforcement Commission to be resolved was in the latest period for which figures are available. [288888]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the hon. Member with the information requested and I have seen the response.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, what the average length of time for complaints against (a) the Child Support Agency and (b) the Child Maintenance and Enforcement Commission to be solved was in the latest period for which figures areavailable. [288888]

The Child Maintenance and Enforcement Commission took responsibility for the Child Support Agency from 1 November 2008. The information the Commission collates on the average length of time to solve complaints is limited to the percentage of complaints which have been fully resolved or have a resolution plan put in place within 15 working days of receipt of the complaint.

The latest available information shows that in the year to March 2009, 97% of complaints have been fully resolved and/or have a resolution plan in place within 15 working days of receipt.

The information the Commission collates does not allow it to distinguish between complaints addressed to the Child Support Agency and those to the Child Maintenance and Enforcement Commission.

I hope you find this answer helpful.

Child Support Agency: Manpower

Bob Spink: To ask the Secretary of State for Work and Pensions (1) how many *(a)* directors, *(b)* senior managers, *(c)* specialist and delivery managers and *(d)* executive support and administration staff there were in each Child Support Agency office in each of the last five years; [280318]

(2) how much was paid in bonuses to *(a)* directors, *(b)* senior managers, *(c)* specialist and delivery managers and *(d)* executive support and administration staff in the Child Support Agency in each of the last five years. [280606]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the Hon. Member with the information requested and I have seen the response.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the then Secretary of State for the Department for Work and Pensions, how many *(a)* directors *(b)* senior managers *(c)* specialist and delivery managers and *(d)* executive support and administration staff there were in each Child Support Agency office in each of the last five years. [280318] and;

How much was paid in bonuses to *(a)* directors, *(b)* senior managers, *(c)* specialist and delivery managers and *(d)* executive support and administration staff in the Child Support Agency in each of the last five years. [280606]

The Child Maintenance and Enforcement Commission took responsibility for the Child Support Agency from 1 November 2008. The available information on the number of directors, senior managers, specialist, delivery managers, executive support and administration people is set out in the attached Table 1. The information provided includes some elements of estimation due to the significant organisational changes since 2005, and in particular within the past year meaning that it is difficult to make like for like comparisons.

Over the period from 2004 to 2009, two separate Department for Work and Pensions schemes for payment of bonuses have operated within the Child Support Agency; a modest special bonus scheme and an individual performance bonus scheme. The guidelines, policy funding and framework for these schemes were set by the Department. Individual performance bonuses are based on annual appraisal markings and are awarded at the end of the operational year. Additional special bonuses can be awarded to an individual outside the annual appraisal system, to recognise and reward an exceptional personal or team achievement.

Table 2 shows the total amount paid to Agency employees as individual performance bonuses for the years 2007-08 and 2008-09 only. For the period 2004-05 to 2006-07, we are unable to analyse the total spend by job role and have therefore given information on the total spend in each year. Information on special bonus payments broken down by job role is also not available. The total spend is therefore shown for all employees for all years requested.

I hope you find this answer helpful.

March 2006	Estimate - Based on Number of Senior Managers	29
March 2007	Estimate - Based on Number of Senior Managers	33
March 2008	By Organisation Design	35
March 2009	By Organisation Design	37

Notes:

1. The Child Maintenance and Enforcement Commission took responsibility for the Child Support Agency (CSA) from the Department for Work and Pensions on 1 November 2009. As a result, information available on the number of managers and support staff working within the CSA for the 2008-09 year is limited as the existing organisational structure underwent significant change.
2. There will be some managers shown as working for the CSA in the 2008-09 year who may have been working entirely within the new services offered by the Child Maintenance and Enforcement Commission.
3. Information on the numbers of Executive Support and Administration Staff can not be extracted from CSA data. An estimate of the number of staff deployed in those roles has therefore been provided. This estimate is extrapolated from the number of senior managers in the CSA for 2005 to 2007, and on the organisational design from 2007-08 and 2008-09.
4. The Child Support Agency operates from six main sites with a supporting network of around 100 smaller sites.

Table 2: Child Support Agency Bonus Payments by Job Role

£'000

Children: Maintenance

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what the cost of implementing the child support elements of the Child Support, Pensions and Social Security Act 2000 *(a)* were estimated to be on introduction of the legislation and *(b)* have been. [279116]

Helen Goodman *[holding answer 12 June 2009]:* The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions what the cost of implementing the child support elements of the Child Support Pensions and Social Security Act 2000 *(a)* were estimated to be and *(b)* have been to date. [279116]

The Child Support Agency's Reform Programme was closed by October 2005, and it had spent £539m on implementing the reforms, compared to an estimated cost in the original business case of £608m.

I hope you find this answer helpful.

Mr. Sanders: To ask the Secretary of State for Work and Pensions what procedures there are for non-resident parents to appeal against liability orders for child maintenance. [281764]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the hon. Member, with the information requested and I have seen the response.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner. The Child Support Agency is now the responsibility of the Child Maintenance Enforcement Commission.

You asked the Secretary of State for Work and Pensions, what procedures there are for non-resident parents to appeal against liability orders for child maintenance. [281764]

Liability Orders are currently made in the Magistrates' Court (or Sheriff Court in Scotland). The non-resident parent may appeal such an order to the Administrative Court of Appeal, or Court of Session in Scotland, on the grounds that the decision was wrong in law or the court did not have the jurisdiction to make the decision.

I hope you find this answer helpful.

Mr. Sanders: To ask the Secretary of State for Work and Pensions what steps the Child Maintenance and Enforcement Commission is taking to resolve cases of arrears in the payment of child maintenance. [281840]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Maintenance and Enforcement Commission, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner.

You asked the Secretary of State for Work and Pensions what steps the Child Maintenance and Enforcement Commission is taking to resolve cases of arrears in the payment of child maintenance. [281840]

Collection of maintenance, including arrears, remains a priority for the Child Maintenance and Enforcement Commission. In March 2009 alone, the Commission collected and arranged over £100 million in maintenance, almost £14 million of which was arrears, and collected a total of £158 million in child maintenance arrears in the year to the end of March 2009.

The current amount of arrears owed by non-resident parents is the cumulative total of sixteen years of maintenance owed. In order to address these cases, the Commission is continually improving enforcement. In the twelve months to January 2009, the Commission completed 120,970 enforcement actions, including almost 70,000 deduction from earnings orders.

The Commission can already apply to the court for a non-resident parent who wilfully refuses to pay child maintenance to be disqualified from driving or committed to prison. Powers yet to be commenced under the 2008 Act include asking the court to impose a curfew or to disqualify the non-resident parent from holding or obtaining a passport.

The measures proposed in this year's Welfare Reform Bill include the Commission having the ability to remove passports and driving licences administratively, without needing to go through the courts. It is such measures which we will continue to use to take action against those parents who owe arrears to their children.

I hope you find this answer helpful.

Mr. Sanders: To ask the Secretary of State for Work and Pensions whether her Department has *(a)* commissioned and *(b)* reviewed recent research on the effectiveness of the Child Maintenance and Enforcement Commission and its predecessor agency in recovering child maintenance payments from non-resident parents. [281843]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Maintenance and Enforcement Commission, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner.

You asked the Secretary of State for Work and Pensions, whether her Department has (a) commissioned and (b) reviewed recent research on the effect of the Child Maintenance and Enforcement Commission and its predecessor agency on the recovery of child maintenance payments from non-resident parents. [281843]

The Commission publishes a quarterly Summary of Statistics which contains a full range of statistical information assessing the impact of the Child Support Agency on the recovery of child maintenance. The latest copy is available in the House of Commons library or online at:

www.childmaintenance.org/publications/statistics.html

In addition, in 2007 the Child Support Agency commissioned research to better understand the client experience, and the issues and service that clients believe need to be improved. This research was published in February 2008 as the DWP Research Report: No 471 CSA Client Insight Research 2007. The Agency also commissioned two reports on the use of deduction from earnings orders in the collection of child maintenance; DWP Research Reports 520 and 530.

The Department for Work and Pensions commissioned the Relationship and Separation survey in 2008, DWP Research Report 503, to inform the changes to the system of child maintenance which led to the introduction of the Child Maintenance and Enforcement Commission. This report focuses on the number and form of child maintenance arrangements in place, demographic information about the child maintenance population, past and future use of information and support, views on the changes to the child support system and likely behaviour as a result of these.

There have also been extensive reports conducted by DWP in the past on compliance levels, the effects of maintenance direct and international perspectives on child support.

Full details of all the Departments research reports are published online at the following link:

www.dwp.gov.uk/asd/asd5/rrs-index.asp.

The Commission has begun its own programme of research, measurement and evaluation to provide robust measures of the impact of such services provided by the Commission, on our clients, as well as to understand more about the attitudes, behaviours, service needs and expectations of its current and potential future clients.

We will continue to work on increasing our understanding and knowledge of external research, and programmes are in place internally to provide an ongoing appraisal of the research landscape.

I hope you find this answer helpful.

Jo Swinson: To ask the Secretary of State for Work and Pensions what procedures are in place for obtaining child maintenance payments from a non-resident parent who has no permanent contact address. [288296]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the hon. Member, with the information requested and I have seen the response.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about child maintenance, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner.

You asked the Secretary of State for the Department for Work and Pensions, what procedures are in place for obtaining child maintenance payments from a non-resident parent who has no permanent contact address. [288296]

The lack of a permanent address is not necessarily a barrier to the assessment and collection of child maintenance. If a non-resident parent can be contacted by telephone the information needed to carry out a maintenance calculation will be gathered by telephone and a contact address is not needed. If the non-resident parent has an employer correspondence can be sent via the employer. The Child Maintenance and Enforcement Commission has several means which it can use to trace those non-resident parents who are evading their financial responsibilities, including contacting the DVLA, the Prison Location Service and credit reference agencies. The small numbers of cases where the non-resident parent can not be traced are kept under review and the child maintenance liability does not come to an end.

The lack of a permanent address is also not a barrier to the collection of child maintenance in many cases. Where the non-resident parent is in receipt of benefit, a contribution to maintenance can be taken from the benefit without a permanent contact address. Similarly if a non resident parent is in employment, maintenance can be deducted direct from wages. Maintenance can also be paid by direct debit or standing order as well as by cheque or cash.

I hope you find this answer helpful.

David Taylor: To ask the Secretary of State for Work and Pensions whether the Child Maintenance and Enforcement Commission will take account of tax credits in its calculation of non-resident parents' income from 2011; and if she will make a statement. [28861]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the hon. Member with the information requested and I have seen the response.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about Child Maintenance and Enforcement Commission, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner.

You asked the Secretary of State for the Department for Work and Pensions, whether the Child Maintenance and Enforcement Commission will take account of tax credits in its calculation of non-resident parents' income from 2011; and if she will make a statement. [28861]

Tax Credits will no longer be taken into account in the calculation of non-resident parent's income from 2011 as a consequence of the move from net income to gross income.

The White Paper proposed that tax credits should no longer be included in the calculation of a non-resident parent's gross weekly income. It stated (at paragraph 4.17) "It would not be appropriate for a liability to be based on a combination of tax credits that are currently being received and income from a previous period. Including tax credits from the previous year would complicate, rather than simplify, the way in which maintenance is assessed. Accordingly, and to reduce the complexity of administrative arrangements, we have concluded that tax credits should no longer be included as income."

The Government has committed to move to using information supplied by HM Revenue and Customs (HMRC), which will make maintenance calculations in the future scheme faster, more accurate and enable a more transparent process. HMRC taxable income information supplied to the Commission will largely derive from employers' end of year PAYE returns and from individual taxpayers' self-assessment returns. Neither data source will include tax credits as they do not form part of taxable income.

The Child Maintenance and Enforcement Commission is continuing to work with HMRC to decide how to make best use of this information and the outcome of this work will be reflected in a detailed definition of the income measure to be used in the maintenance calculation. This will be included in a set of affirmative regulations, which will be introduced for parliamentary scrutiny in advance of the planned start date of 2011 for the future scheme.

I hope you find this answer helpful.

David Taylor: To ask the Secretary of State for Work and Pensions what recent representations she has received on the adjustment of child maintenance payments to take account of a reduction in the working hours of a non-resident parent. [28864]

Helen Goodman: Child maintenance assessments are based on the income of a non-resident parent rather than their working hours. I have responded recently to a parliamentary question on this subject raised by the hon. Member for South-West Bedfordshire (Andrew Selous) in which I confirmed that the Child Maintenance and Enforcement Commission routinely re-assesses child maintenance liability once a non-resident parent informs them of a reduction in their working hours which has reduced their income.

Cold Weather Payments

Mr. Vara: To ask the Secretary of State for Work and Pensions how many cold weather payments have been made as a result of temperatures reported by each weather station in each year since such payments were first made; and which weather stations cover each constituency. [27785]

Helen Goodman: Information on the estimated number of cold weather payments made for each weather station in Great Britain in 1999-2000 and each year from 2001-02 has been placed in the Library. (Information for other years is not available).

A list of the weather stations linked to each parliamentary constituency in Great Britain for winter 2008-09 has been placed in the Library.

Council Tax Benefits: Essex

Bob Spink: To ask the Secretary of State for Work and Pensions how many households in *(a)* Essex and *(b)* Castle Point receive 100 per cent. council tax benefit. [28266]

Helen Goodman: The information is not available in the format requested.

Crisis Loans

John Penrose: To ask the Secretary of State for Work and Pensions how many crisis loans decision-makers are in post; and how many she expects to be in post by May 2010. [28436]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many Crisis Loan decision makers are in post; and how many she expects to be in post by May 2010. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Since January 2009 we have seen increases in Crisis Loan applications and for the past five months they have averaged around 279,000 per month. Therefore, a decision was made to increase the number of Crisis Loan decision makers. We now have 1800 Crisis Loan decision makers taking calls with a further 200 expected to be fully operational by the end of September.

Across Jobcentre Plus we are currently recruiting staff into customer service operational roles to ensure we are able to deal with current increases in workload. We continuously review staffing levels on this basis therefore I am unable to say how many Crisis Loan decision makers are expected to be in post in May 2010.

Crisis Loans Line

Mr. Drew: To ask the Secretary of State for Work and Pensions (1) what steps she is taking to increase the proportion of calls made to the Crisis Loans Line which are answered; and how many calls the line *(a)* received and *(b)* answered in the latest period for which figures are available; [287983]

(2) what steps she is taking to increase the number of telephone calls to the Crisis Loans Line which are answered. [286942]

Helen Goodman: Jobcentre Plus does not have a single Crisis Loan call line. There are 20 Crisis Loan Benefit Delivery Centres nationally, each with their own dedicated 0800 telephone number and we do not have robust statistical information on a national level.

In March 2008 Jobcentre Plus had 900 Crisis Loan decision makers answering telephones and making decisions in the 20 Benefit Delivery Centres that handle applications for Crisis Loans. Crisis Loan applications have more than doubled since October 2006, (taking us to an average of 220,000 applications per month at the end of 2008) and plans were put in place to deploy an extra 700 staff from our Contact Centre Directorate. This work was completed in April 2009 and enabled us to answer more calls first time.

However, we have seen further increases in Crisis Loan applications since January 2009 and for the past five months they have averaged around 279,000 per month. Therefore, a decision was made to increase the number of our Crisis Loan decision makers even further. We now have 1,800 Crisis Loan decision makers taking calls with a further 200 expected to be fully operational by the end of September.

This will enable Jobcentre Plus to answer more calls first time.

Debt: Advisory Services

Mr. Drew: To ask the Secretary of State for Work and Pensions what financial support her Department provided to debt counselling agencies in the latest year for which figures are available. [283341]

Helen Goodman: My Department does not currently provide financial support to debt counselling agencies. However, the Department for Business, Innovation and Skills is providing funding of approximately £28 million in 2009-10 for the face-to-face debt advice project.

Departmental Accountancy

Steve Webb: To ask the Secretary of State for Work and Pensions when she plans to publish her Department's resource accounts for 2008-09. [287295]

Jim Knight: The Department's resource accounts for 2008-09 are due to be laid before the House on Monday 20th July 2009. This will be a typeset version of the account, with a published version being made available by The Stationery Office during August 2009 (exact date yet to be confirmed).

This is the third year in succession that the Department will have laid its resource accounts before the recess.

Departmental Conditions of Employment

Lynne Featherstone: To ask the Secretary of State for Work and Pensions what percentage of employees in her Department are on a flexible working contract. [287106]

Jim Knight: The information is as follows.

Flexible working contracts

At the end of May 2009, 33 per cent. (36,037) of employees in the Department for Work and Pensions were on part-time flexible working contracts.

Flexible contracts are only one of a range of flexible working arrangements including flexible working patterns that are available to DWP employees. DWP also promotes flexibility through home working and job sharing.

Employees are made aware of civil service wide job sharing opportunities through a direct link to the civil service online job-share notice board, hosted on the civil service website.

Departmental Consultants

Geraldine Smith: To ask the Secretary of State for Work and Pensions how much her Department spent on consultants in 2009. [288469]

Jim Knight: The Department has spent £9.7 million on management consultants in the three months from January to March 2009, the latest period for which validated figures are available. This represents a 49 per cent. reduction on the equivalent period in 2008.

Departmental Contracts

Lorely Burt: To ask the Secretary of State for Work and Pensions how many contracts let by her Department were awarded to businesses with fewer than 50 employees in each of the last five years; and what the monetary value of such contracts was in each such year. [287809]

Jim Knight: The information requested is not collated centrally and could be provided only at disproportionate cost.

Departmental Databases

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) which of the planned databases that will be managed by her Department or one of its agencies and which will hold personal information on members of the public are expected to become operational in each of the next five years; and if she will make a statement; [286149]

(2) what categories of personal information on members of the public will be held on each of her

Department's and its agency's databases expected to become operational in the next five years; what estimate she has made of the likely number of individuals' details each such database will hold when fully operational; and if she will make a statement. [286500]

Jim Knight: The Department intends that one new database (known as CAMLite) will become operational during this period. CAMLite will enable improvements in the delivery of services so that customer requirements can be handled more effectively and efficiently, and it will record every contact with a customer. When fully operational, CAMLite is expected to hold details of around 7 million customers.

The categories of personal information that the database is expected to contain will comply with the Department's formal registration under the Data Protection Act.

Following the publication of the cross-Government data handling review in June 2008, privacy impact assessments are conducted where new IT systems hold significant amounts of personal data.

Departmental Electronic Equipment

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions with reference to the answer of 24 November 2008, *Official Report*, column 980W, on departmental electronic equipment, how much *(a)* her Department and *(b)* its agencies have spent on (i) flat screen televisions, (ii) DVD players and (iii) stereo equipment since November 2008. [289192]

Jim Knight: The information requested is not readily available and can be obtained only at disproportionate costs.

Departmental Manpower

Jo Swinson: To ask the Secretary of State for Work and Pensions what percentage of employees in her Department are *(a)* women and *(b)* men; and what the average hourly pay is of the (i) male and (ii) female employees. [288627]

Jim Knight: The DWP workforce as at June 2009 is made up of 68 per cent. female and 32 per cent. male. The DWP pays employees an annual salary and does not use an hourly rate. There are seven grades below the senior civil service (SCS) in DWP. Male and female employees in each grade are paid within the same payscale regardless of their gender. An employee's exact position on their payscale will depend upon their personal pay history.

The most recent DWP Equal Pay Audit published in 2008 shows that the average male and female salaries are £19,911 and £19,085 respectively. This information does not include SCS salaries.

Departmental Official Engagements

Mr. Harper: To ask the Secretary of State for Work and Pensions what the official engagements of Ministers in her Department were between *(a)* 1 and 31 March, *(b)* 1 and 30 April and *(c)* 1 and 31 May 2009. [279570]

Jim Knight *[holding answer 12 June 2009]:* I am depositing a table of information in the Library.

Departmental Postal Services

Mr. Weir: To ask the Secretary of State for Work and Pensions how much her Department spent on Royal Mail services in each of the last two years. [288741]

Jim Knight: The last two financial years of DWP spending with Royal Mail Group is given in the table.

	£
2008-09	184,857,504
2007-08	189,469,725

Departmental Procurement

Lorely Burt: To ask the Secretary of State for Work and Pensions what progress her Department has made in implementing the recommendations of the Glover Report in its procurement processes. [287146]

Jim Knight: The Department has built the requirements of the Glover Report into its Commercial Strategy and a revised version was published in March 2009. The Strategy expressly recognises the specialist expertise that small enterprises can provide and states that DWP will encourage the use of small and medium sized enterprises (SME) in its supply chains. The Strategy has objectives to make it easier for suppliers to compete for contracts and to encourage a diverse supply base, it also commits to monitor the use of these enterprises.

The lead on most of the 12 recommendations of the Glover report is with the Office of Government Commerce (OGC). The Department fully supports all the recommendations and is actively engaged with OGC to facilitate development and adoption of the new procedures and tools required by Glover. The Department's progress in implementing each of the Glover recommendations is that DWP:

(i) advertises key contracts via electronic media and publishes key contract awards electronically, it is on course to do both these things for all contracts via an OGC public sector online portal by 2010 - addressing Glover recommendations 1,2 and 3;

(ii) already flags tendering opportunities thought especially suitable for SMEs during the advertising process - meeting Glover recommendation 4;

(iii) has adopted standard pre-qualification questionnaires—meeting Glover recommendation 5;

(iv) adopts a principle of competitive neutrality so all relevant experience of all bidders is taken into account when selecting tenderers—meeting Glover recommendation 6;

(v) takes a flexible approach to supplier accreditation, where appropriate allowing businesses to refer to other accreditations they already hold—meeting Glover recommendation 7;

(vi) published its Innovation Procurement Plan on 19th May 2009 which meets the requirements of Glover recommendation 8;

(vii) adopts outcome based specifications requiring continuous improvement as a means of driving innovation—meeting Glover recommendation 9;

(viii) will expect prime contractors to make their sub-contracting opportunities accessible through an on-line portal, when made available by OGC, and that they use contract conditions for their contractors in DWP supply chains that are no worse than those DWP has with the prime contractor—addressing Glover recommendations 10 and 11;

(ix) has, since 2002, reported annually the value of DWP contract spend with SMEs—meeting Glover recommendation 12. The value of DWP contracts with SMEs in 2008/9 was £252 million, about 7 per cent. of total commercial spend in that year.

In summary the Department has made good progress in implementing the Glover recommendations. Its action to date means it has already met seven of the recommendations and, working with OGC, is on course to meet the remaining five recommendations to the set timetable.

Departmental Safety

Bob Spink: To ask the Secretary of State for Work and Pensions how much her Department spent on compliance with requirements of health and safety at work legislation in each of the last five years; and if she will make a statement. [274532]

Jonathan Shaw: The information requested is not collated centrally and could be provided only at disproportionate cost.

Electronic Government

Mr. Maude: To ask the Secretary of State for Work and Pensions what steps are being taken to improve the usability of the Directgov website. [287203]

Jim Knight: In 2009 Directgov conducted a baseline exercise to benchmark the quality of the website and has put in place a plan for improvement, which is now being implemented as part of the overall web rationalisation and convergence programme.

Directgov is in the process of designing a further continuous user improvement programme for the Directgov website which will start in 2009. The programme of user testing will involve both citizen and expert reviews. Each wave of research will review a number of different user journeys across the site to identify any usability issues. This is an on-going project. Each wave will test different journeys with different user groups in order to continually improve the customer experience.

Strategies are being put in place to monitor search engine optimisation, metrics and customer comments to improve the Directgov service by making it easier for people to find what they want.

Directgov recently improved the design of its homepage based on feedback from a representative sample of customers. The new homepage design is structured in a way that allows customers to quickly find essential Government information on topical issues such as swine flu, and allows customers to easily distinguish main navigation links from secondary and peripheral content.

Directgov has also commissioned a project that looks at the future shape of the website. The project is following a user-centred design approach with frequent rounds of user testing to ensure optimal findability and usability of content.

Employment and Support Allowance

Steve Webb: To ask the Secretary of State for Work and Pensions what information her Department holds on the proportion of claimants for employment and support allowance (ESA) that *(a)* do not meet work capability assessment qualification criteria for receipt of ESA, *(b)* meet work capability assessment qualifying criteria for the work related activity group and *(c)* meet the criteria for the support group, broken down by type of sickness or impairment; and if she will make a statement. [287902]

Mr. Harper: To ask the Secretary of State for Work and Pensions how many work capability assessments have taken place; and what estimate her Department has made of the number and proportion of customers who have taken the work capability assessment who have been moved onto *(a)* jobseeker's allowance, *(b)* ESA Work Related Activity Group and *(c)* ESA Support Group in each month since October 2008. [287934]

Jonathan Shaw *[holding answer 20 July 2009]:* Detailed information on the work capability assessment for receipt of employment and support allowance is not available at the present time.

Employment and support allowance replaced incapacity benefit for new claims from 27 October 2008. The latest quarterly data available is November 2008. More comprehensive figures are expected to be available when the February 2009 publication is produced in August 2009.

Mr. Harper: To ask the Secretary of State for Work and Pensions how many and what proportion of incapacity benefit claimants she expects will be migrated to employment and support allowance in each of the next three years. [288620]

Jonathan Shaw: In the White Paper, we set out our intention to migrate incapacity benefit customers to employment and support allowance between 2010 and 2013, using the Work Capability Assessment. We are currently looking closely at the process of migrating customers to employment and support allowance, to plan for implementation and develop a detailed strategy. We will ensure that the transition runs smoothly, fits within our overall programme and that our plans are flexible enough to adapt to changing economic circumstances as necessary.

Employment Schemes

Paul Rowen: To ask the Secretary of State for Work and Pensions (1) how many people in each region have participated in the *(a)* Workstep, *(b)* Work Preparation, *(c)* Employment Zones, *(d)* Progress2Work, *(e)* Work Path and *(f)* New Deal for (i) 50 plus, (ii) disabled people, (iii) partners and (iii) musicians programme more than once in each relevant year since 2001; [268686]

(2) how many people in each region have participated in the *(a)* Workstep, *(b)* Work Preparation, *(c)* Work Path, *(d)* Progress2Work and *(e)* Employment Zones programme in each (i) relevant year since 2001 and (ii) of the last eight quarters; [268687]

(3) how many individuals have been on the *(a)* Work Trial, *(b)* Workstep, *(c)* Work Preparation, *(d)* Work Path, *(e)* Progress2Work and *(f)* Employment Zones

programme more than once in a year by region since their inception. [286689]

Jim Knight: New Deal for Musicians is an integral part of New Deal for Young People and New Deal 25 plus. Information on people participating more then once in New Deal for Musicians, New Deal 50 plus, New Deal for Partners and WorkTrial is not collated centrally.

Work Path is not a programme in itself, rather an umbrella name for three employment programmes; Access to Work, Work Preparation and Workstep. As such, the information is not available in the format requested.

Information about Employment Zones is not available by region.

The available information has been placed in the Library.

Mrs. May: To ask the Secretary of State for Work and Pensions how many and what proportion of 18 to 24 year-olds claiming jobseeker's allowance moving towards 12 months are expected to move on to *(a)* a job provided by the Future Jobs Fund, *(b)* support to take an existing job in a key employment sector, *(c)* a work-focused training place and *(d)* a place on the community task force as part of the Government's Young Person's Guarantee. [283564]

Jim Knight: We do not forecast unemployment and are therefore unable to predict numbers of take-up for each element of the Young Person's Guarantee.

When the Young Person's Guarantee is introduced early next year, all 18 to 24-year-olds approaching 12 months unemployment on jobseeker's allowance will be guaranteed an offer of either a job under the Future Jobs Fund, support to take a job in a key employment sector, a work focused training place or a place on a community task force.

Mrs. May: To ask the Secretary of State for Work and Pensions who will provide assistance in relation to *(a)* the Future Jobs Fund, *(b)* support to take an existing job in a key employment sector, *(c)* work-focused training places and *(d)* places on a community task force under the Young Person's Guarantee. [283576]

Jim Knight: The fund will be managed centrally by the Department for Work and Pensions. Advisers in every Government office in England are available to support potential bidders with the process.

In Scotland and Wales, Jobcentre Plus will provide support to potential bidders, in consultation with the devolved Administrations and the Scottish and Welsh Offices.

Jobcentre Plus will play a key role in identifying customer needs and referring customers to the full range of support on offer. For the training element, young people will also be able to go direct to a provider, Nextstep or the Careers Advice Service.

Mrs. May: To ask the Secretary of State for Work and Pensions (1) what recent estimate she has made of the average cost per participant in *(a)* the Future Jobs Fund, *(b)* the Community Task Force, *(c)* training under the Young Person's Guarantee and *(d)* support to obtain an existing job in a key employment sector; [286739]

(2) what recent estimate she has made of *(a)* the likely average cost per participant of the Young Persons' Guarantee in 2009-10, *(b)* the number of young people aged between 18 and 24 years old likely to participate in the Young Persons' Guarantee in (i) 2009-10, (ii) 2010-11 and (iii) 2011-12 and *(c)* the cost of the Young Persons' Guarantee in the next three years; [286740]

(3) what estimate she has made of the cost of *(a)* the Community Task Force and *(b)* additional training places provided under the Young Persons' Guarantee in (i) 2009-10, (ii) 2010-11 and (iii) 2011-12. [286754]

Jim Knight: The estimated average costs are commercially sensitive but will be met within the allocated budget for the Young Person's Guarantee.

The Government do not publish unemployment forecasts. We will, however, meet the terms of the Young Person's Guarantee and all 18 to 24-year-olds will receive an offer of employment, training or community work.

Funding has not been allocated beyond 2010-11.

Funding for the Community Task Force and the Work-Focused Training was announced as part of the Budget settlement for the Young Person's Guarantee funding. The budget for the Young Person's Guarantee is approximately £1.1 billion over 2009-10 and 2010-11.

The budget for the training element of the Young Person's Guarantee is £122 million over 2009-11.

We are unable to estimate the cost of the Community Task Force element as expenditure will depend on the demand for the programme.

Steve Webb: To ask the Secretary of State for Work and Pensions how Jobcentre Plus plans to inform 18 to 24-year-old jobseekers of the job guarantee scheme announced on 22 April 2009; and if she will make a statement. [288753]

Jim Knight: All Jobcentre Plus advisers will be made aware of the jobs and training opportunities created by the Young Persons Guarantee in their area. Jobcentre Plus staff will ensure that all eligible customers are made aware of the relevant opportunities. This will be an integral part of the ongoing support given to customers to find work.

Steve Webb: To ask the Secretary of State for Work and Pensions by what means 18 to 24-year-olds who have been unemployed for over 12 months at the time of the introduction of the job guarantee announced on 22 April 2009 will be given access to the scheme; what priority will be accorded to them in relation to 18 to 24-year-olds who become unemployed for over 12 months after the introduction of the scheme; and if she will make a statement. [288754]

Jim Knight: Customers who are already in long-term unemployment need intensive support and this is best delivered out with the Young Person's Guarantee. When the guarantee is introduced young people who have been unemployed for 12 months or more will already be receiving this support through either the Flexible New Deal or other existing programmes.

Employment Schemes: Lone Parents

Mrs. May: To ask the Secretary of State for Work and Pensions how many lone parents have received a training allowance of up to £400 since September 2007. [275895]

Helen Goodman *[holding answer 15 May 2009]:* This training allowance refers to Train to Gain. This is administered by the Learning Skills Council and sits within the stewardship of BIS.

Employment Services

Geraldine Smith: To ask the Secretary of State for Work and Pensions what steps her Department is taking to help the long-term unemployed return to work. [288362]

Ms Abbott: To ask the Secretary of State for Work and Pensions what steps her Department is taking to assist people who have been out of work for over a year; and if she will make a statement. [288589]

Jim Knight: The Department is keen to ensure that everyone who is out of work has the support they need to find a job, and this help increases the longer someone has been unemployed.

The introduction of the flexible new deal in phase 1 areas from October 2009 will establish a new, unified approach for every jobseeker, whatever their age, skills or barriers to work, from the 12-month point of their claim. The flexible new deal will deliver work-focused support, tailored to each individual's needs and local labour market requirements. It is envisaged that we will introduce this scheme in phase 2 areas from October 2010.

Until the flexible new deal is introduced, the new deals will continue to run in phase 2 areas.

The 2009 Budget made an additional £2.8 billion available to DWP, on top of the £1.3 billion funding announced in the pre-Budget report, which will ensure we can continue to maintain our support to jobseekers through the economic downturn, including funding to support the flexible new deal.

£1.1 billion of this will fund the young person's guarantee; from January 2010, all customers aged 18-24 who are approaching 12 months of their claim to jobseeker's allowance will have access to one of the following offers:

A new job created through the Future Jobs Fund;

Support to move into an existing job in a key employment sector;

Work-focused training; or

A work experience placement through the Community Task Force.

Some elements of the guarantee will be available sooner. In October of this year the first jobs created by the Future Jobs Fund will be available, and training to enter key employment sectors will be available in the autumn.

Jobseeker's allowance customers can do unlimited volunteering, and train for up to 16 hours per week, alongside active job search. Jobseekers may also undertake up to two weeks of full-time training in any 12-month period, without jeopardising their benefit entitlements.

Employment: Young People

Ms Abbott: To ask the Secretary of State for Work and Pensions what steps her Department is taking to assist young people who are out of work; and if she will make a statement. [288588]

Jim Knight: The Department is committed to giving everyone the support they need to find employment as quickly as possible, whatever their age.

On 6 April 2009, as part of the Government's response to the economic downturn, the Department for Work and Pensions put in place extra support for newly unemployed customers, including information and advice about the latest job search techniques and coaching on how to make the most of transferable skills. Extra help for those who have been claiming jobseeker's allowance for six months was also introduced, including recruitment subsidies, work-focused training, support to become self-employed and opportunities to volunteer.

Because the Government are determined that young people should not be permanently disadvantaged by the economic downturn, from next year, all customers aged 18-24 who are approaching 12 months of their claim to jobseeker's allowance will have access to the Young Person's Guarantee. From January 2010, this group will be given access to either:

A new job created through the future jobs fund;

Support to move into an existing job in a key employment sector;

Work-focused training; or

A work experience placement through the community task force.

Some elements of the guarantee will be available sooner. In October of this year the first jobs created by the future jobs fund will be available. Training to enter key employment sectors will be available in the autumn.

Since last autumn, the Department has also quadrupled the available funding for the rapid response service, which provides advice and support to customers facing redundancy. It has extended local employment partnerships, the adviser discretionary fund and access to work so they are available to customers from the first day of their claim, alongside the support they receive from their Jobcentre Plus personal adviser.

Paul Rowen: To ask the Secretary of State for Work and Pensions what steps her Department is taking to assist young people with no educational qualifications to enter employment. [284028]

Jim Knight *[holding answer 3 July 2009]:* The Department is committed to ensuring that all jobseekers, including young people, have the support they need to overcome their individual barriers to work. People who are unemployed and on jobseeker's allowance can undertake part-time education or training at any point in their claim providing it is for less than 16 hours per week. In some cases, customers can also undertake full-time training, particularly to address basic skills needs, if it is needed in order to gain the necessary skills to enter employment.

Our current Integrated Employment and Skills trials are also testing approaches to ensure that every Jobcentre Plus customer has access to specialist skills services,

including comprehensive skills assessments, to identify work related skills needs and recommend steps to addressing those barriers. The Integrated Employment and Skills service will be available across England in April 2010.

In addition, young people in England who are under the notice of redundancy are now eligible for the additional training support available through the Response to Redundancy programme, funded by the European Social Fund and Train to Gain. Jobseekers who find themselves out of work for six months or more may be eligible for the work-focused training element of the six-month offer of extra support to all jobseekers.

Furthermore, from January 2010 all young people approaching 12 months on jobseeker's allowance will be guaranteed the offer of either a subsidised job, training or meaningful activity. Training delivered under this offer will be tailored to the individual and relevant to the local labour market.

Ethnic Employment Taskforce

Peter Luff: To ask the Secretary of State for Work and Pensions pursuant to the Answer of 8 July 2009, *Official Report*, columns 833-4W, on the Ethnic Employment Taskforce, how much of the expenditure on the research project she expects to be attributable to *(a)* fieldwork, *(b)* analysis of data, *(c)* production of the final report, *(d)* administrative costs, *(e)* staffing costs and *(f)* other costs of each type; and what assessment she has made of the conclusions of the project. [288186]

Jim Knight: Although the internal cost structure of the Department for Work and Pensions research contracts is commercial in confidence, suppliers are chosen through procurement procedures that promote value for money.

The Ministerial Ethnic Minority Employment Task Force will be considering the conclusions of the Racial Discrimination in Recruitment research, which are due to be published in the autumn.

EU Law

Bob Spink: To ask the Secretary of State for Work and Pensions what estimate she has made of the cost to her Department of the statutory obligations upon it in legislation introduced as a consequence of obligations arising from EU legislation in the most recent 12 months for which figures are available. [283469]

Jim Knight: It is estimated that no additional costs have been incurred by the Department as a result of domestic legislation made in the 2008-09 session to date, as a consequence of obligations arising from EU legislation.

Fetes: Safety

Robert Neill: To ask the Secretary of State for Work and Pensions what guidance the Health and Safety Executive provides to the organisers of local fetes. [288281]

Jonathan Shaw: HSE has not produced any specific guidance on local fetes. HSE has published the Events Safety Guide (HSG195) for those organising larger scale musical and similar events. This guidance is not directed at those organising small local fetes where the risk to public safety will be low, although organisers may find some of the advice contained within the guide useful.

Local authorities have enforcement responsibilities at local fetes where there is an employment activity. They may also provide specific advice or guidance at a local level to organisers of fetes.

Financial Assistance Scheme

Mrs. May: To ask the Secretary of State for Work and Pensions what the cost of *(a)* consultants and advisers to and *(b)* administration of the Financial Assistance Scheme has been in each year since its establishment. [283545]

Angela Eagle: The administration costs for the Financial Assistance Scheme Operational Unit are set out in the following table. The earlier years include one-off set-up costs.

£ million

	2004-05	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Administration[1]	[2]1.06	[3]4.730	[3]3.968	2.328	[3]2.283
Consultants and advisers[4]	0	0.034	0.323	0.036	0.206

[1] Excludes overheads such as estates which are met from DWP corporate budgets.
[2] Includes one-off costs for implementation, which were not accounted for separately.
[3] Excludes one-off costs for implementation of the December 2007 announcement and the transfer of the FAS functions to the Board of the Pension Protection Fund which are now accounted for separately—£2.621 million.
[4] Includes the cost of consultants relating to policy development and the transfer of the FAS functions.

Bob Spink: To ask the Secretary of State for Work and Pensions (1) what the decline in real value has been of Financial Assistance Scheme annuities since 1997; and if she will make a statement; [283645]

(2) what estimate she has made of the average difference between Financial Assistance Scheme (FAS) annuities and the expected annuities lost after 1997 by pensioners enrolled in the FAS; and if she will make a statement. [283646]

Angela Eagle: 666 schemes qualify for the Financial Assistance Scheme. Of these, trustees responsible for 446 schemes have bought or expect to buy annuities to cover all or some of scheme members' entitlements. These annuities may include provision for indexation, but detailed information on this is not currently available.

The Financial Assistance Scheme will top up these annuities to 90 per cent. of expected pension at the date of wind-up, subject to an overall limit of £26,000, and regulations currently before Parliament would make provision for this top-up to include indexation on rights accrued after 1997.

Bob Spink: To ask the Secretary of State for Work and Pensions what recent assessment she has made of poverty levels among pensioners receiving Financial Assistance Scheme annuities; and if she will make a statement. [283647]

Angela Eagle: The Financial Assistance Scheme does not provide annuities.

The information requested is not available.

Funeral Payments

Joan Walley: To ask the Secretary of State for Work and Pensions how long on average elapsed between her Department's receipt of an application for a funeral payment and any payment being made in the last period for which figures are available; and if she will make a statement. [288872]

Helen Goodman: The average actual clearance time for funeral payments processed in the financial year to date (April to June 2009) was 13.9 working days.

Notes:

1. The information provided is management information. Our preference is to answer all queries using official/National Statistics but in this case we only have management information available. It is not quality assured to the same extent as official/National Statistics and there are some issues with the data; for example, they do not include claims which were processed clerically and have not yet been entered on to the Social Fund computer system.

2. The clearance time for an individual funeral payment claim is measured in whole working days from the date the claim is received to the date of the decision, inclusive. The minimum clearance time recorded for an individual claim is one day, even if the claim is processed immediately.

3. The average actual clearance time is based on all claims, both those where a payment was made and those which were refused.

4. The average actual clearance time is based on claims processed during April to June 2009, not on claims received then.

5. Once a decision has been taken, any payment is normally made straight away.

DWP Social Fund Policy, Budget and Management Information System.

Future Jobs Fund

Mrs. May: To ask the Secretary of State for Work and Pensions (1) how many bids from *(a)* private companies, *(b)* local authorities and *(c)* voluntary sector organisations her Department has received for the Future Jobs Fund; [283570]

(2) how many bids her Department has received to deliver jobs through the Future Jobs Fund. [283574]

Steve Webb: To ask the Secretary of State for Work and Pensions how many bids for funding from the Future Jobs Fund her Department has received; and when she plans to announce the successful bidders. [287341]

Jim Knight: We will be announcing details of the successful bidders later this summer.

Ms Buck: To ask the Secretary of State for Work and Pensions what resources her Department has allocated to each *(a)* regional development agency and *(b)* London local authority through the Future Jobs Fund. [288254]

Jim Knight: I refer my hon. Friend to the reply I gave her on 14 July 2009, *Official Report*, column 284W.

Future Jobs Fund: Wales

Mr. Dai Davies: To ask the Secretary of State for Work and Pensions with reference to paragraph 30 of the Building Britain's Future document, Cm 7654, whether the £1 billion Future Jobs Fund to cover new jobs in areas of high unemployment applies to Wales; and by what mechanisms this fund is to be distributed. [287867]

Jim Knight: Employers in Wales are eligible to apply to the Future Jobs Fund. The definition of an area of high unemployment is one in which the unemployment rate is 1.5 percentage points above the national average. This flexible definition gives organisations the opportunity to develop bids with a narrow focus (such as wards) or a much broader base (such as partnerships of several local authorities).

The Department for Work and Pensions will distribute the fund to successful bidders. The amount paid will depend on the details of the successful bid.

Future Jobs Programme

Mr. Rooney: To ask the Secretary of State for Work and Pensions what plans she has to evaluate the effectiveness of the *(a)* Future Jobs Programme and *(b)* Young Person's Guarantee. [288704]

Jim Knight: The Department for Work and Pensions will assess the implementation and impact of the Young Persons Guarantee, including the Future Jobs Fund. The key aim of the evaluation will be to understand the impact that the package has had on getting customers into sustained work and off benefits. We will monitor delivery against key performance and success measures during the programme and an overall assessment will be conducted at the programme's end.

Glasgow

John Mason: To ask the Secretary of State for Work and Pensions whether she plans to visit Glasgow on official business during the summer Adjournment. [288939]

Yvette Cooper: At present I have no such plans.

Housing Benefit

Robert Neill: To ask the Secretary of State for Work and Pensions if she will commission research into the effect of local housing allowance on vulnerable tenants who find it difficult to manage their personal finances. [288282]

Helen Goodman: The Department has committed to completing a review of the local housing allowance (LHA) scheme over a two-year period, starting from the commencement of its roll-out in April 2008. The aim of the review is to monitor the impact of the LHA at a national level, against the original LHA policy objectives.

The review will include a qualitative study of tenants and advisers, which will consider the impact of LHA on tenants who find it difficult to manage their finances. Safeguards are in place that enable local authorities to make payments of LHA to the landlord in circumstances where tenants are in arrears or where they are likely to have difficulty in managing their rent payments.

Steve Webb: To ask the Secretary of State for Work and Pensions how many applications for reassessment for housing benefit from *(a)* council tenants, *(b)* private tenants and *(c)* housing association tenants were made in each quarter in each of the last five years. [288751]

Helen Goodman: The latest available information is in the table. The question asked for numbers of applications for reassessment for housing benefit. The figures supplied relate to the number of changes of circumstances reported by customers and decided by local authorities.

Quarter ending	Local authority tenants	Private tenants	Housing Association tenants
June 2003	327,000	245,000	402,000
September 2003	404,000	279,000	333,000
December 2003	321,000	236,000	272,000
March 2004	485,000	281,000	475,000
June 2004	457,000	346,000	536,000
September 2004	422,000	366,000	408,000
December 2004	338,000	352,000	359,000
March 2005	386,000	316,000	417,000
June 2005	300,000	295,000	469,000
September 2005	251,000	258,000	297,000
December 2005	249,000	228,000	259,000
March 2006	215,000	233,000	511,000
June 2006	213,000	239,000	485,000
September 2006	192,000	228,000	282,000
December 2006	193,000	218,000	242,000
March 2007	144,000	176,000	618,000
June 2007	202,000	267,000	500,000
September 2007	196,000	244,000	293,000
December 2007	179,000	220,000	238,000
March 2008	173,000	224,000	834,000

Notes:
1. Figures are rounded the figures to the nearest 1,000.
2. Quarterly Housing Benefit and Council Tax Benefit Administration Data Quarterly Housing Benefit and Council Tax Benefit administration data are supplied to DWP by local authorities and are un-audited.

Steve Webb: To ask the Secretary of State for Work and Pensions how many and what proportion of applications for reassessment for housing benefit resulted in a reduction in payments in each quarter of the last five years; and what the average *(a)* increase and *(b)* decrease was in reassessed housing benefits claims. [288752]

Helen Goodman: The information requested is not available.

Housing Benefit: Morecambe

Geraldine Smith: To ask the Secretary of State for Work and Pensions how many people in Morecambe and Lunesdale constituency were in receipt of housing benefit on the latest date for which figures are available. [287995]

Helen Goodman: Housing benefit information is not available at constituency level.

Incapacity Benefit

Hugh Bayley: To ask the Secretary of State for Work and Pensions how many people in *(a)* the UK, *(b)* Yorkshire and the Humber and *(c)* York (i) applied for incapacity benefit, (ii) were required to attend a personal capability assessment, (iii) had their incapacity benefit refused following an assessment and (iv) had their incapacity benefit reinstated following a review or appeal in the latest 12-month period for which information is available. [283108]

Jonathan Shaw: The available information covering Great Britain is provided in the following tables. Information is not available on the number of people who had their incapacity benefit award reinstated following a review or appeal in the last 12 months.

Incapacity benefit applications received June 2008 to May 2009

	Number
Great Britain	385,699
Yorkshire and Humber region	35,111
York Benefit Delivery Centre	3,566

Note:
York Benefit Delivery Centre processes incapacity benefit applications for North Yorkshire area.
Source:
Jobcentre Plus Management Information System Programme.

People required to attend a Personal Capability Assessment from June 2008 to May 2009

	Number
Great Britain	456,153
Yorkshire and Humber region	43,292
York	2,464

Notes:
1. Not all applications for incapacity benefit will require a Personal Capability Assessment.
2. The figures given for York include all those postcodes commencing with YO.
Source:
Commercial Employment Provision.

The number of assessments is greater than the number of applications received for the same period. This is because it includes all current incapacity benefit recipients who were required to have an assessment.

Incapacity benefit claims terminated for failing a Personal Capability Assessment/Own Occupation Test between December 2007 and November 2008

	Number
Great Britain	135,000
Yorkshire and Humber region	13,900

Notes:
1. Figures do not include any late notifications and are subject to change.
2. Figures rounded to nearest 100.
3. Figures for York not provided as nil or negligible due to small sampling size.
Source:
Department for Work and Pensions Information Directorate five per cent. Samples.

Steve Webb: To ask the Secretary of State for Work and Pensions how many recipients of incapacity benefit are receiving age-related additional payments; how many such recipients experienced a reduction in the monetary value of such additions in April 2009; and what the total monetary value was of the reductions in *(a)* 2009-10 and *(b)* 2008-09. [286093]

Jonathan Shaw *[holding answer 13 July 2009]:* I refer the hon. Member to the answer I gave to the hon. Member for Hertsmere (Mr. Clappison) on 16 March 2009, *Official Report*, column 866W.

Mr. Harper: To ask the Secretary of State for Work and Pensions how many work-focused interviews her Department plans to conduct for recipients of *(a)* incapacity benefit and *(b)* employment and support

allowance aged between (i) 18 and 24, (ii) 25 and 49 and (iii) 50 and 64 years old in each of the next two years. [288621]

Jonathan Shaw: I refer the hon. Member to the written answer I gave to the right hon. Member for Maidenhead, (Mrs. May) on 23 February 2009, *Official Report*, column 70W.

From October 2009 we plan to provide three work-focused interviews to existing incapacity benefits claimants under the age of 25 in Jobcentre Plus-led Pathways to Work areas. We estimate that there will be 28,000 individuals in this group.

From October 2010 we shall be providing existing incapacity benefit claimants aged 25 to 49 with three work-focused interviews as they migrate to employment and support allowance. Those aged over 50 will receive one work-focused interview, also on migration.

New customers to employment and support allowance from October 2010 will receive quarterly work-focused interviews as well as the six-monthly work-focused interviews that current employment and support allowance customers receive.

Mr. Harper: To ask the Secretary of State for Work and Pensions how many and what proportion of claimants of *(a)* incapacity benefit and *(b)* employment and support allowance, are recorded as receiving the benefit and not making a job start after having attended (i) one work-focused interview, (ii) two or three work-focused interviews, (iii) between four and six work-focused interviews and (iv) more than six work-focused interviews. [288622]

Jonathan Shaw: This information could be made available only at disproportionate cost.

Mr. Harper: To ask the Secretary of State for Work and Pensions what estimate her Department has made of the average cost of conducting a work-focused interview for a claimant of either incapacity benefit or employment and support allowance; and how many work-focused interviews have been undertaken for *(a)* existing incapacity benefit claimants and *(b)* new employment and support allowance claimants in each month of the last three years for which figures are available. [288623]

Jonathan Shaw: The estimated cost of conducting a work-focused interview for a claimant of either incapacity benefit or employment and support allowance within Jobcentre Plus is £35. This does not include the costs of any subsequent work-focused provision that a claimant may be referred to.

Information on the number of work-focused interviews conducted could be made available only at disproportionate cost.

Incapacity Benefit: Morecambe

Geraldine Smith: To ask the Secretary of State for Work and Pensions how many people in Morecambe and Lunesdale constituency received incapacity benefit in the latest period for which figures are available. [287836]

Jonathan Shaw: The available information is in the following table.

Number of people receiving incapacity benefit/severe disablement allowance in Morecambe and Lunesdale parliamentary constituency

	Number
November 2008	4,600

Notes:
1. Figures rounded to nearest 10.
2. Data cover quarter ending November 2008.

Information Directorate: Work and Pensions Longitudinal Study 100 per cent. data

Income Support Mortgage Interest: Applications

Sarah Teather: To ask the Secretary of State for Work and Pensions how many applications for income support mortgage interest (ISMI) payments have been made since November 2008; how many such applications were rejected; how many appeals against a rejection *(a)* were made and *(b)* resulted in an award; how many such appeals were not processed within the target time; and how many staff in her Department process ISMI payments. [284492]

Helen Goodman: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your questions asking how many applications for income support mortgage interest (ISMI) payments have been made since November 2008; and how many such applications were rejected; how many appeals against a rejection were made and resulted in an award; how many such appeals were not processed within the target time; and how many staff in the Department process ISMI payments. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Jobcentre Plus does record the actual number of claims received for ISMI, along with the number of claims awarded, and refused. Please find attached below this information by month, since November 2008.

Jobcentre Plus does not capture the number of claims appealed or awarded on appeal, nor does it have a target time for appeals for ISMI. ISMI is not a separate benefit but rather forms an integral part of IS. The customer may not be eligible to claim ISMI from day one of their claim and as a result that element will be processed later in the life of that claim. This is why we do not capture the clearance time.

Jobcentre Plus holds details of the staff deployed in processing new IS claims and those deployed in IS claims maintenance. Any activity relating to processing ISMI payments will be part of these roles and this lower level of staffing detail is not available.

Income support mortgage interest claims November 2008 - May 2009

	2008		2009					
	Nov	Dec	Jan	Feb	Mar	Apr	2009	Total
IS claims received (mortgage interest)	2,405	1,852	2,009	2,127	2,242	1,776	1,627	14,038
IS mortgage claim processed	2,279	1,902	2,158	2,075	2,184	1,572	1,408	13,578
IS mortgage claim awarded	1,515	1,339	1,657	1,549	1,718	1,244	1,149	10,171

Income support mortgage interest claims November 2008 - May 2009

	2008		2009

Jobcentre Plus Management Information System Programme - extracted on 7 July 2009

Industrial Diseases: Compensation

Julie Morgan: To ask the Secretary of State for Work and Pensions how much her Department has paid out *(a)* under the provisions of the Pneumoconiosis Act 1979, *(b)* in industrial injuries disablement benefit and *(c)* under the provisions of the Child Maintenance and Other Payments Act 2008 to people with long latency diseases in each of the last five years. [286692]

Jonathan Shaw: Information on the monies paid out in each of the last five years under the provisions of the Pneumoconiosis Act 1979 is in the following table.

Financial year	*Expenditure (£ million, cash)*
2004-05	21
2005-06	25
2006-07	26
2007-08	27
2008-09	32

Note:
Figures rounded to the nearest £ million.
Source:
DWP statistical and accounting data

Available information on the monies paid through industrial injuries disablement benefit on long latency diseases is in the following table.

Financial year	*Expenditure (£ million, cash)*
2004-05	36
2005-06	39
2006-07	40

Notes:
1. Figures rounded to the nearest £ million.
2. Industrial injuries disablement benefit expenditure on particular diseases is estimated using annual statistical data. Latest finalised annual statistical data are for 2006-07.
Source:
DWP statistical and accounting data

The Child Maintenance and Other Payments Act 2008 made provision for the introduction of the 2008 Mesothelioma Scheme. This scheme was introduced in October 2008, and expenditure up to March 2009 was £5.5 million.

DWP statistical and accounting data, excludes Northern Ireland payments under this scheme.

Jobcentre Plus

Mrs. May: To ask the Secretary of State for Work and Pensions how many Jobcentre Plus accredited providers there were in each year since 1997. [271722]

Jim Knight: Jobcentre Plus providers undertake accreditation if the value of the contract is greater than £50,000 (the level was initially set at £10,000 for 2005-06).

We do not hold any accreditation information earlier than 2005.

There are two types of accreditation: passed and passed conditionally. Passed means they meet all the criteria for accreditation and passed conditionally means they meet most of the criteria but must review and address issues before undergoing accreditation renewal the following year. The increase in the number of passed conditionally reflects changes in legislation which requires providers to take additional steps to bring current practices in line with the new requirements. The following table sets out the number of providers accredited in each year since June 2005.

	Passed	*Passed conditionally*	*Total*
June 2005 to December 2005	51	0	51
January 2006 to December 2006	436	47	483
January 2007 to December 2007	300	62	362
January 2008 to December 2008	345	99	444
January 2009 to 3 July 2009 (To date)	212	57	269

Source:
Commercial Directorate Solutions.

Accreditation is renewed annually. The renewal date is dependent on the original date of application. The figure for January to 3 July 2009 represents providers whose accreditation date has fallen within these months. Our current list of accredited providers totals 458 and therefore we will be expecting a further 189 providers to seek accreditation renewal in the remaining months of the year, notwithstanding any new applications or contracts being ended. Details of our accredited suppliers are published on Supplying DWP.

To date, there has only been one provider who failed. Upon notification, the provider worked with the DWP and the accreditation contractor addressed the concerns and upon resubmission, they achieved accreditation. The Department when requested will assist providers with guidance to help meet the accreditation requirements.

Mrs. May: To ask the Secretary of State for Work and Pensions what steps Jobcentre Plus has taken to adapt its office space to accommodate increases in demand on its services arising from higher benefit caseloads. [285797]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking what steps Jobcentre Plus has taken to increase its adept office space to accommodate increases in demand on its services

arising from higher benefit caseloads. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Jobcentre Plus has reviewed the existing service delivery arrangements in meeting the challenge of the current economic climate and taking into account the planned welfare reform changes for the next two to three years. This review took into account the latest known information on the expected increase in business and customer volumes. This included the capacity for dealing with higher benefit caseloads.

We have embarked on a programme of converting or extending our existing buildings where necessary. In addition, we aim to make our services more accessible to customers by providing a range of support through outreach, often delivering advisory and other support on partners' premises. We are supplementing these measures by operating extended opening hours in some locations where the need for this is identified locally. This includes some offices opening to the public on Saturday. We will only acquire new space where all other measures are insufficient.

This programme is primarily focused on those buildings where we provide a face to face service for members of the public but we are also implementing solutions across our network of Benefit Delivery Centres and Contact Centres to ensure they are equipped to meet any capacity challenge.

Mr. Harper: To ask the Secretary of State for Work and Pensions what the average annual cost of running a Jobcentre Plus office was in the latest period for which figures are available; and what the average cost of operating each office function was. [285843]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State for Work and Pensions has asked me to respond to your question asking what the average annual cost of running a Jobcentre Plus office was in the latest period for which figures are available; and what the average cost of operating each office function was. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The average annual direct cost of running a customer facing Jobcentre Plus office in 2008/09 was approximately £550k. The actual cost of running each office varies widely dependant on their size and the number of staff employed in the office.

The majority of the direct costs are the salary costs of staff employed in the Jobcentre Plus office. Other costs associated with running the Jobcentre Plus offices such as estates costs, IT costs, payroll and financial services are dealt with nationally and are not included in the direct cost stated above.

Mrs. May: To ask the Secretary of State for Work and Pensions (1) pursuant to the answer of 13 July 2009, *Official Report*, column 65W, on Jobcentre Plus, which Jobcentre Plus offices were identified as facing capacity pressures; [287986]

(2) pursuant to the answer of 13 July 2009, *Official Report*, column 65W, which 18 Jobcentre Plus buildings have already had estates work undertaken to increase capacity; and 151 Jobcentre Plus offices have estates works planned. [287988]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your questions asking her, pursuant to the Answer of 13 July 2009, Official Report, column 65W to: list the Jobcentre Plus offices which were identified as facing capacity pressures, and; list (a) the 18 Jobcentre Plus buildings which have already had estates work undertaken to increase capacity and (b) the 151 Jobcentre Plus offices for which estates works are planned. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Our response to the current capacity pressure within Jobcentre Plus is progressing on a daily basis. The latest available information has been placed in the Library.

Mrs. May: To ask the Secretary of State for Work and Pensions pursuant to the answer of 13 July 2009, *Official Report*, column 65W, on Jobcentre Plus, how much her Department has spent on converting or extending existing Jobcentre Plus offices where necessary; and what the total expected cost is of making all necessary conversions and expansions to Jobcentre Plus to cope with capacity pressures. [287987]

Jim Knight *[holding answer 20 July 2009]:* The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State for Work and Pensions has asked me to reply to your question, pursuant to the answer of 13 July 2009, *Official Report*, column 65W, on Jobcentre Plus, how much her Department has spent on converting or extending existing Jobcentre Plus offices where necessary, and what the total expected cost is of making all necessary conversions and expansions to Jobcentre Plus to cope with capacity pressures. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Jobcentre Plus are continuously reviewing existing service delivery arrangements in order to meet the challenge of the current economic climate and the planned welfare reform changes for the next two to three years. The latest reviews have taken account of the most up to date information on the expected increases in business and customer volumes.

In the light of the unprecedented customer demand we have secured the required funding to convert or extend our existing buildings where necessary. In addition, we aim to make our services accessible to customers by providing a range of support through outreach facilities, often delivering advisory and other support on partners' premises. We are supplementing these measures by operating extended opening hours in some locations where the need for this is identified locally. This includes some offices opening to the public on Saturday. We will therefore only acquire new space where all other measures are insufficient.

As at 30 June 2009, estates work had been undertaken and completed on 18 of our buildings at a cost of £1m, increasing our capacity to deliver additional customer service to the public. Estates work is planned on a further 151 buildings. This work is currently at an early stage and therefore the costs are not fully known.

Mrs. May: To ask the Secretary of State for Work and Pensions pursuant to the answer of 13 July 2009, *Official Report*, column 65W, on Jobcentre Plus, if she will place in the Library a copy of each review conducted by Jobcentre Plus Customer Service Directors of their existing service delivery arrangements in meeting the challenge of the current economic climate and taking into account the planned welfare reform changes for the next two to three years, taking into account the latest known information on

the expected increase in business and customer volumes. [287989]

Jim Knight *[holding answer 20 July 2009]*: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question, pursuant to the Answer of 13 July 2009, Official Report, column 65W, on Jobcentre Plus, if she will place in the Library copies of the reviews conducted by Jobcentre Plus Customer Service Directors of their existing service delivery arrangements in meeting the challenge of the current economic climate and taking into account the planned welfare reform changes for the next two to three years, taking into account the latest known information on the expected increase in business and customer volumes. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The outputs from the review of existing service delivery arrangements conducted by Customer Services Directors were products produced purely for internal planning purposes and not in a format appropriate for lodging in the House library. When the proposals identified by the Customer Services Directors have been reviewed and approved, we will be able to provide detail of all sites where we will be implementing solutions to meet the current capacity challenge.

Mrs. May: To ask the Secretary of State for Work and Pensions pursuant to the answer of 13 July 2009, *Official Report*, column 65W, on Jobcentre Plus, which Jobcentre Plus offices are operating *(a)* extended opening hours and *(b)* Saturday openings. [287990]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question, pursuant to the Answer of 13 July 2009 Official Report column 65W on Jobcentre Plus if she will list the Jobcentre Plus offices which are operating (a) extended opening hours and (b) Saturday openings. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The most recent list of Jobcentre Plus offices which are operating extended service hours and/or operating on Saturdays, along with details of our normal hours of business and the areas involved in the extended opening hours pilot have been placed in the Library.

Our normal hours of business vary across the different services that we provide, predominantly on the basis of customer demand. Typically Jobcentres had been open from 9am to 5pm, except Wednesdays where we opened at 10am to allow for staff training and communications—a practice not uncommon in customer-facing organisations.

We have been keeping that position under constant review since November 2008 in the light of rising workloads and taken a number of steps in response. Specifically we have:

asked existing staff to work additional hours to allow us to provide extended service hours;

ensured that all new recruits are on an 8am to 8pm contract to allow greater flexibility in our service hours;

suspended the Wednesday late opening hour; and

commenced a structured pilot of extended opening hours across our key service lines.

Steve Webb: To ask the Secretary of State for Work and Pensions pursuant to the answer to the hon. Member for Maidenhead of 13 July 2009, *Official Report*, columns 63-4W, on Jobcentre Plus, what the locations are of *(a)* the 18 buildings that have already been modified and *(b)* the 151 buildings her Department is planning to modify; how much has been spent on the 18 Jobcentre Plus buildings that have already been modified to increase capacity; and if she will estimate the cost of modifying 151 Jobcentre Plus buildings to increase capacity. [288483]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking her, pursuant to the Answer of 13 July 2009, Official Report, column 63-4W, to list the locations of (a) the 18 buildings that have already been modified and (b) the 151 buildings her Department is planning to modify; how much has been spent on the 18 Jobcentre Plus buildings that have already been modified to increase capacity; and for an estimate of the cost of modifying 151 Jobcentre Plus buildings to increase capacity. This is something which falls with the responsibilities to me as Acting Chief Executive.

As at 30 June 2009, estates work had been undertaken and completed on 18 of our buildings at a cost of £1m, increasing our capacity to deliver additional customer service to the public. Our response to the current capacity pressure within Jobcentre Plus is progressing on a daily basis. The latest available information has been placed in the Library.

Steve Webb: To ask the Secretary of State for Work and Pensions what mechanisms are in place to monitor the accuracy of benefits and compliance advice given to Jobcentre Plus customers by Jobcentre staff; and if she will make a statement. [288737]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking what mechanisms are in place to monitor the accuracy of benefits and compliance advice given to Jobcentre Plus customers by Jobcentre staff. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

All Jobcentre Plus staff are extensively trained to provide accurate advice to customers. If customers in receipt of benefits administered by Jobcentre Plus have an enquiry about their benefit, they are asked to contact either the Benefit Enquiry Line, the Benefit Delivery Centre handling their claim or their local Jobcentre Plus office. Customers in receipt of work-focussed benefits have regular and close contact with Jobcentre Plus to ensure their benefits are, and continue to be, paid accurately and that they are aware and reminded of their responsibilities during the lifetime of their claim. For example, customers who want to claim Jobseeker's Allowance will discuss and agree with a personal adviser realistic and achievable job goals and appropriate steps to offer the best chance of finding work. The information is recorded in the Jobseeker's Agreement, which provides a record of the advice given and forms the basis of future discussions every time someone attends the Jobcentre Plus office.

As part of Jobcentre Plus' Customer Service Target, we check the accuracy of information given to customers via a Mystery Shopping programme. The Mystery Shoppers, working on behalf of Jobcentre Plus, pose a range of scenarios to our staff both in person and via telephone calls to test this knowledge. The scenarios cover a wide range of Jobcentre Plus services including benefits

advice. These checks include ensuring that the information provided on our websites is accurate and up to date.

We also have a Quality Assurance Framework in place within Jobcentres to monitor and assess the quality of service given to our customers. It sets out the standards and skills individuals are expected to demonstrate when dealing with customers and explains the procedures to follow to achieve them. The Quality Assurance Framework is supplemented by a rigorous monitoring and checking regime which scrutinises the accuracy of a sample of claims on a monthly basis.

Jobcentre Plus: Essex

Bob Spink: To ask the Secretary of State for Work and Pensions how many *(a)* permanent, *(b)* temporary and *(c)* agency staff were employed in (i) benefit delivery centres and (ii) customer-facing jobcentres operated by Jobcentre Plus in each constituency in Essex in (A) each year since 2001 and (B) each of the last 24 months. [286423]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many (a) permanent, (b) temporary and (c) agency staff were employed in (i) benefit delivery centres and (ii) customer-facing jobcentres operated by Jobcentre Plus in each constituency in Essex in (A) each year since 2001 and (B) each of the last 24 months. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Available information is shown in the tables attached at Annex A and B.

Information has been provided on how many staff we have employed in total in our Essex Jobcentres and Basildon Benefit Delivery Centre from December 2007 to June 2009. We have not used any agency staff in Essex between December 2007 and June 2009.

I am unable to provide the information you have requested from 2001 onwards as we do not hold it for this period. I am also unable to provide you with details for each constituency in Essex as we do not record information for these specific locations.

We have ongoing plans to recruit further staff for our Jobcentres in Southend, Rayleigh, Canvey Island, Basildon, Brentwood, Grays and Harlow and for our Benefit Delivery Centre in Basildon. In addition to the staff employed in our Jobcentres and Basildon Benefit Delivery Centre, we also employ a number of specialist staff who help support our customers within the Office of the District Manager for Jobcentre Plus in Essex.

Neil Bretnell, District Manager for Essex, will be happy to talk to you further if you have any further questions. Neil can be contacted on 01245 214242, by post at Government Buildings, Beeches Road, Chelmsford, Essex CM1 2RT or by email at:

Neil.Bretnell@jobcentreplus.gsi.gov.uk

Jobcentre Plus: Finance

Ms Abbott: To ask the Secretary of State for Work and Pensions how much funding Jobcentre Plus has been given to deal with the increased numbers of unemployed people in the last 12 months; and if she will make a statement. [280587]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State for Work and Pensions has asked me to reply to your question asking how much funding Jobcentre Plus has been given to deal with the increased numbers of unemployed people in the last 12 months. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The funding announced in both the November 2008 pre-budget report and Budget 2009, means that Jobcentre Plus budgets have increased by approximately £2.032m over 2009/10 and 2010/11 compared with original plans. The remainder of the funding to the Department will go towards other areas which are affected by the recession, such as employment programmes and funding to local authorities for the administration of Housing Benefit.

Jobcentre Plus: Greater London

Justine Greening: To ask the Secretary of State for Work and Pensions how many *(a)* benefit delivery centres and *(b)* customer-facing jobcentres were operated by Jobcentre Plus in each London borough in each of the last 24 months. [275518]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many (a) benefit delivery centres and; (b) customer-facing jobcentres were operated by Jobcentre Plus in each London borough in each of the last 24 months. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Tables showing the number of offices in which benefits were processed, and the number of Jobcentres, in each London Borough from July 2007 to June 2009 have been placed in the Library.

Justine Greening: To ask the Secretary of State for Work and Pensions (1) how many *(a)* permanent, *(b)* temporary and *(c)* agency staff were employed in (i) benefit delivery centres and (ii) customer-facing jobcentres operated by Jobcentre Plus in each London borough in (A) each year since 2002 and (B) each of the last 24 months; [276546]

(2) when she plans to answer Question 276546, on Jobcentre Plus, tabled on 15 May 2009. [285015]

Jim Knight *[holding answer 20 May 2009]:* The administration of Jobcentre Plus is a matter for the acting chief executive, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many (a) permanent (b) temporary and (c) agency staff were employed in (i) benefit delivery centres and (ii) customer-facing jobcentres operated by Jobcentre Plus in each London borough in (A) each year since 2002 and (B) each of the last 24 months. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Tables giving an estimate of Benefit Delivery Centre and Jobcentre staffing in each London Borough from December 2007 to April 2009 have been placed in the Library as Annexes 1 to 17.

Jobcentre Plus in London did not employ any agency staff during the period in question.

Jobcentre Plus: Interviews

Mrs. May: To ask the Secretary of State for Work and Pensions what guidance her Department has issued to Jobcentre Plus on the duration of jobseekers' interviews; whether jobseeker interviews are required to be on a one-to-one basis; how frequently jobseekers may be required to sign on; what recent guidance her Department has issued to Jobcentre Plus on caseload management; and if she will place in the Library a copy of this guidance. [271621]

Jim Knight: Jobcentre Plus operations are built around the need to provide the support that people need to help them find work as soon as possible.

The average length of the initial interview is 40 minutes, but the actual time taken will vary depending upon individual customer needs. Everyone making a claim for jobseeker's allowance (JSA) has this one-to-one interview with a personal adviser to assess their circumstances, discuss and set in place a jobseeker's agreement and make sure they have information about and access to the help they need. The interview may be shorter if, for example, some of the information is already held.

Following the initial interview, jobseekers are normally then asked to attend the local office fortnightly for a

jobsearch review. The average time allocation for these contacts is 7.5 minutes, but the actual time taken will vary depending upon customer needs. For those people who do not find work quickly, a review is undertaken at or around 13 weeks. The average length of this review is 20 minutes, but the method of delivery and duration of contact will vary, depending upon individual needs. Further interviews take place if the claim lasts longer and interviews taking place at key points such as six months would be of a longer duration.

Detailed guidance has been issued to Jobcentre Plus staff, particularly in view of the introduction of new services in April. Copies have been placed in the Library.

Jobcentre Plus: Manpower

Tony Baldry: To ask the Secretary of State for Work and Pensions what estimate she has made of the proportion of Jobcentre Plus staff engaged in *(a)* administering benefits and *(b)* helping jobseekers find employment. [285704]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking what estimate has been made of the proportion of Jobcentre Plus staff engaged in (a) administrating benefits and (b) helping job seekers find employment. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

As at May 2009, Jobcentre Plus deployed around 31,300 full-time equivalents in activity relating to benefit processing and around 25,900 full-time equivalents in activity which helps job seekers find employment. These staff make up 43 per cent and 36 per cent respectively of the total Jobcentre Plus staffing. However, there are also over 5,200 full-time equivalents (a further seven per cent of total staffing) undertaking activity as contact centre agents. This activity covers a mix of benefit processing and job broking services.

In addition, there are 8,036 carrying out operational business management and support roles and 1,780 are in supporting functions in National Directorates such as Finance, Planning and HR but we do not attribute them specifically to either benefit processing or job broking.

We are continuously reviewing the levels of staffing within Jobcentre Plus to ensure that we maintain a service to our customers as workloads change.

Mrs. May: To ask the Secretary of State for Work and Pensions what her most recent estimate is of *(a)* the number of Jobcentre Plus staff required for the delivery of the jobseeker's regime under the Flexible New Deal and *(b)* the number of Jobcentre Plus staff recruited to deliver the regime in 2009-10. [286743]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State for Work and Pensions has asked me to respond to your question asking what her most recent estimate is of (a) the number of Jobcentre Plus staff required for the delivery of the jobseeker's regime under the Flexible New Deal and (b) the number of additional Jobcentre Plus staff recruited for this purpose. This is something which falls within the responsibilities delegated to me as Acting Chief Executive.

Latest figures are for May 2009 and show there are 857 staff working on the Flexible New Deal.

The Jobseeker's Regime and Flexible New Deal programme was developed so that it could be delivered on a cost-neutral basis, that is at no additional cost over and above the cost of delivering the existing New Deal for people claiming Jobseeker's Allowance.

We are continuously reviewing the levels of staffing within Jobcentre Plus to ensure that we can provide an appropriate level of service to our customers as workloads constantly change. This means that numbers of staff on front line activities may be switched to meet workload demands.

Mrs. May: To ask the Secretary of State for Work and Pensions what estimate she has made of the number of Jobcentre Plus staff required to deliver fortnightly jobsearch reviews as part of jobseeker's allowance; and how many of the additional *(a)* 6,000 staff announced in the Pre-Budget Report and *(b)* 10,000 staff announced in Budget 2009 will undertake fortnightly jobsearch reviews. [286744]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State for Work and Pensions has asked me to respond to your question asking what estimate she has made of the number of Jobcentre Plus staff necessary to deliver fortnightly job search reviews as part of Jobseeker's Allowance; and how many of the additional (a) 6,000 staff announced in the Pre-Budget Report and (b) 10,000 staff announced in Budget 2009 will undertake fortnightly job search reviews. This is something which falls within the responsibilities delegated to me as Acting Chief Executive.

As at May 2009, Jobcentre Plus deployed around 31,300 full-time equivalents in activity relating to benefit processing and around 25,900 full-time equivalents in activity which helps job seekers find employment. Following the announcements made in the Pre-budget report and this year's Budget our latest estimates are that Jobcentre Plus will have approximately 6,000 staff delivering fortnightly job search reviews. However, there are also over 5,200 full-time equivalents undertaking activity as contact centre agents. This activity covers a mix of benefit processing and job broking services.

We are continuously reviewing the levels of staffing within Jobcentre Plus to ensure that we can provide an appropriate level of service to our customers as workloads constantly change. This means that numbers of staff on front line activities may be switched to meet workload demands.

Geraldine Smith: To ask the Secretary of State for Work and Pensions how many staff Jobcentre Plus have recruited to deal with the effects of the economic downturn. [288449]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide my hon. Friend with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many staff Jobcentre Plus has recruited to deal with the effects of the economic downturn. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

For the period from November 2008 to June 2009, Jobcentre Plus had recruited around 9,500 full-time equivalents to deal with the increased workloads resulting from the economic downturn. People who have been recruited are employed on a range of customer facing roles, covering benefit processing and job broking services.

Further recruitment is currently ongoing. We are continually reviewing the levels of staffing within Jobcentre Plus to ensure that services to our customers are maintained as workloads change.

Jobcentre Plus: Pay

Steve Webb: To ask the Secretary of State for Work and Pensions how much has been spent on *(a)* Jobcentre Plus staff bonuses for staff in each district and *(b)* Pension Service staff bonuses in each month of (i) 2009-10 to date, (ii) 2008-09 and (iii) 2007-08. [256641]

Jim Knight: The information is not available and could be obtained only at disproportionate cost.

Jobcentre Plus: Tamworth

Mr. Jenkins: To ask the Secretary of State for Work and Pensions how many vacancies were advertised in the Tamworth Jobcentre in 2008; and for how long on average each such job was advertised. [283848]

Jim Knight: The available information is in the following table.

Number of vacancies advertised in Tamworth Jobcentre

2008	*Notified vacancies*	*Live unfilled vacancies*	*Median duration (days)*
January	431	695	47.3
February	727	629	45.5
March	753	707	54.9
April	876	936	42.0
May	650	576	40.0
June	854	739	40.9
July	665	684	46.5
August	989	814	39.5
September	701	782	39.0
October	811	771	35.9
November	713	604	39.3
December	546	554	50.6

Notes:

1. Interpretation of these data needs to take account of changes in recent years to Jobcentre Plus procedures for taking and handling vacancies. These figures are not fully comparable over time and may not indicate developments in the labour market. A more detailed explanation is available on the nomis website at: https://www.nomisweb.co.uk/Default.asp
2. The stocks of unfilled vacancies reflect more accurately job opportunities available via Jobcentre Plus. In the case of unfilled vacancies, use of the figures on live vacancies is recommended (i.e. excluding suspended vacancies), and this is the default option. Live vacancies may still include some vacancies which have already been filled or are otherwise no longer open to recruits, due to natural lags in procedures for following up vacancies with employers.
3. Data are unrounded.
4. Comprehensive estimates of all job vacancies (not just those notified to Jobcentre Plus) are available from the monthly ONS vacancy survey since April 2001, based on a sample of some 6,000 enterprises. However, the ONS survey is currently designed to provide national estimates only.
5. Median duration is measured in days and is the median time between notification and closure of vacancies.

Jobcentre Plus Labour Market System.

Jobcentre Plus: Telephone Services

Mr. Sanders: To ask the Secretary of State for Work and Pensions if she will instruct Jobcentre Plus to permit its telephones to be used for calls made for the purpose of applying for a crisis loan. [282617]

Jim Knight: The administration of Jobcentre Plus is the responsibility of the acting chief executive, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking if she will instruct Jobcentre Plus to permit its telephones to be used for calls made for the purpose of applying for a crisis loan. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Our position on this issue was set out for the Work and Pensions Select Committee in Neil Couling's letter to Terry Rooney dated 9 July 2008. A copy of that letter is attached.

I hope this is helpful.

Letter from Neil Couling:

Early in the New Year, I wrote to you outlining a pilot we were running to allow vulnerable customers to make applications for Social Fund Crisis Loans (SFCLs) using Customer Access Points (CAPs or 'warm phones') in Jobcentres. This follows the Committee's recommendation in its 2006-07 report. We worked with the Public and Commercial Services (PCS) Union to agree these arrangements. The small pilot ran from 7 January to 28 March this year and we have now completed the evaluation, which I have attached.

Our current procedures mean that customers cannot use warm phones to make SFCL applications. This is because a customer could receive an adverse decision in an unscreened area and so, if aggrieved, could pose a risk to themselves, staff or other customers. This control measure is a key part of our agreement with the PCS on working in unscreened offices. The result is that, at present, some vulnerable customers—who use a face-to-face procedure instead of our normal channel of making a telephone claim from home—are referred to a screened office to receive their decision (be that favourable or adverse).

The main replacement control measures for the pilot, agreed with the PCS, meant that Floor Managers and Customer Care Officers were always aware of calls of this type, and—crucially—that the Decision Maker in the Benefit Delivery Centre would contact the Jobcentre on a dedicated telephone line if the application was about to be refused. This allows the Floor Manager and Customer Care Officers to be in place to offer any further assistance to the customer on receipt of an adverse decision. Given the potential risks, and PCS concerns to such an approach, we agreed to a small pilot which ran in five offices in Northumbria.

During the three month pilot seven customers used the service, compared to two using the existing face-to-face service in the preceding 14 months in the whole Northumbria District. Four were awarded a Crisis Loan and there were no incidents of unacceptable customer behaviour linked to any of these customers.

The qualitative evaluation revealed that Jobcentre staff locally were confident that this service was restricted to appropriately vulnerable customers; that they enjoyed the discretion and flexibility this service provided; and, that it was an improvement in access for those customers who are currently turned away or sent to a screened office for a face-to-face decision.

Whilst this pilot has been encouraging, we do not feel that it provides sufficiently strong evidence to roll out nationally—volumes were low and, as the evaluation report reveals, the effectiveness of the alternative control measures was not properly tested. To ensure that this is a safe and effective approach we intend to pilot the scheme again in London, with the option to roll out nationally if it is successful.

We will consult the Public and Commercial Services Union on this basis. We also need to develop the approach along side

Accessing Jobcentre Customer Services (AJCS), which seeks to enhance services for vulnerable customers, and any changes to the Social Fund. Given these factors, and the full change agenda facing Jobcentre Plus—including the rollout of the Employment and Support Allowance—we are looking to run this large scale pilot as early as is practicable 2009.

I hope this is helpful and that you are encouraged, as we are, by these early findings. I will update you as the pilot progresses and am happy to answer any question that you or the Committee have in the meantime.

Jobcentre Plus: Train

Mrs. May: To ask the Secretary of State for Work and Pensions how many Jobcentre Plus *(a)* personal advisers and *(b)* other staff have (i) retrained and (ii) received supplementary training to manage new claims for benefits in the last 12 months. [275549]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked the Acting Chief Executive to provide the right hon. Member with the information requested

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking how many Jobcentre Plus *(a)* personal advisers and *(b)* other staff have (i) retrained and (ii) received supplementary training to manage new claims for benefits in the last 12 months. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Although I am in a position to provide you with the overall amount of training provided to Jobcentre Plus staff to manage new claims for benefits in the last twelve months, current management information systems in place across the Department do not allow me to provide the level of breakdown requested.

I have therefore broken down the information requested to cover learning relating to action for New Jobseekers Interviews, and the three key benefits, Income Support, Jobseeker's Allowance (JSA) and Employment and Support Allowance (ESA).

Over the last twelve months 2,040 Jobcentre Plus members of staff are recorded as having completed learning relating to action for New Jobseekers Interviews. A supplementary refresher event for New Jobseeker Interviews has also been developed and available in Jobcentre Plus since April 2009.

In addition the following numbers of staff have received training over the last twelve months to manage new claims:

113 have received Income Support / Incapacity Benefit training;

2,067 have received JSA Training; and

16,456 have received ESA training.

Simon Hughes: To ask the Secretary of State for Work and Pensions what training is provided to Jobcentre Plus staff to assist graduate and highly-skilled jobseekers; and if she will make a statement. [288710]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking what training is provided to Jobcentre Plus staff to assist graduate and highly skilled jobseekers. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

All Jobcentre Plus Personal Advisers receive a full programme of training to support all customers in identifying job goals. This training is designed to deal with all of our individual customers holistically rather than segmented according to background, so learning products do not include specific training aimed at assisting graduate or highly skilled jobseekers to find work. In helping customers to achieve their job goals, Personal Advisors do take into account the customer's circumstances, such as skills and qualifications to direct them to the appropriate resources and support.

As you will be aware, the Government has introduced new help for professional and executive jobseekers and has a cross Government package of support for graduates. Jobcentre Plus advisers have been trained on these offerings and also how best to signpost customers to other sources of help tailored to their needs.

Steve Webb: To ask the Secretary of State for Work and Pensions what training *(a)* personal advisers, *(b)* decision-makers, *(c)* disability benefit advisers and *(d)* specialist lone parents advisers who are (i) new and (ii) existing Jobcentre Plus employees are required to complete on benefit rules and compliance before starting their positions; whether such people are required to take refresher training in benefit rules and compliance; and what criteria are used to assess their competency. [288756]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your questions asking: how many hours of training would-be (a) personal advisers, (b) decision-makers, (c) disability benefit advisers and (d) specialist lone parents advisers who are (i) new and (ii) existing Jobcentre Plus employees are required to complete before starting their positions.

what training (a) personal advisers, (b) decision-makers, (c) disability benefit advisers and (d) specialist lone parents advisers who are (i) new and (ii) existing Jobcentre Plus employees are required to complete on benefit rules and compliance before starting their positions; whether such people are required to take refresher training in benefit rules and compliance; and what criteria are used to assess their competency.

This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

New personal advisers, decision makers, disability benefit advisers and specialist lone parents advisers all undertake 60 hours of induction/foundation learning. In addition to this, personal advisers receive 130 hours of training, disability benefit advisers receive 59 hours of training and specialist lone parent advisers receive 47.5 hours of training before starting their positions. Decision makers receive 65 hours of foundation learning and generic decision making training before starting their position. Dependent upon the business area, decision makers may also be required to complete supplementary training in that particular field of expertise.

With regard to benefit rules and compliance, new Jobcentre Plus personal advisers, disability benefit advisers and specialist lone parent advisers are required to complete two hours of benefit rules and compliance training.

The required training for benefit rules and compliance for decision makers is dependent upon the business areas and decision making responsibilities that they are to undertake. For example, for Jobseeker's Allowance there are 145 hours of benefit rules and compliance learning available from which a decision maker would complete the individual products appropriate to their allocated decision making duties.

The amount of training, including benefit rules and compliance, required for existing Jobcentre Plus employees is dependant upon their existing skills and knowledge. In consultation with line managers, employees would assess their existing skills and knowledge and identify the appropriate training products they would require to take up a change of job role. These training products would be from the same product set as that for new staff.

The need for refresher training on benefit rules and compliance is dependant upon the employee's performance and would be assessed in consultation with their line managers.

Line managers observe personal adviser interviews against a set of behaviour criteria set out in the Jobcentre Plus Quality Assessment Framework to identify any further learning needs. Accuracy and quality checks are carried out on decision makers and these support the line managers in identifying further learning requirements.

Jobseeker's Allowance

Mrs. May: To ask the Secretary of State for Work and Pensions what estimate she has made of the number of people who will have been claiming income-based jobseeker's allowance for *(a)* six months or more, *(b)* 12 months or more, *(c)* 18 months or more and *(d)* 24 months or more in (i) 2009-10 and (ii) 2010-11 on the basis of the assumptions about unemployment made in respect of the 2009 Budget. [277804]

Jim Knight *[holding answer 1 June 2009]:* The Department has not estimated the number of people who will have been claiming the income-based component of jobseeker's allowance for different durations.

Steve Webb: To ask the Secretary of State for Work and Pensions what the average number of days between the completion of processing of an application for jobseeker's allowance (JSA) and the first payment of JSA was in the latest period for which figures are available; and if she will make a statement. [286642]

Jim Knight: The administration of Jobcentre Plus is the responsibility of the acting chief executive, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking what the average number of days between the completion of processing of an application for Jobseeker's Allowance and the first payment of Jobseeker's Allowance was in the latest period for which figures are available; and if she will make a statement. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The current Jobcentre Plus target for the average actual clearance time taken to process Jobseeker's Allowance claims is 11.5 days. This time is calculated across an average of all the claims cleared in any given month looking at the date the customer first contacted Jobcentre Plus or the customer's first day of unemployment, whichever is the later. The end date is the date a formal decision is made on the claim and a notification is issued to the customer on entitlement.

The current year to date achievement is 9.7 days to May 2009. The first payment of Jobseeker's Allowance is issued to the customer as soon as entitlement is decided.

Jobseeker's Allowance: Young People

Steve Webb: To ask the Secretary of State for Work and Pensions how many *(a)* 18 and *(b)* 19 year-old jobseeker's allowance claimants reported having been unemployed for over 12 months on initial application in the latest period for which information is available; and if she will make a statement. [287313]

Jim Knight: The information is not available.

Members: Correspondence

Mr. McLoughlin: To ask the Secretary of State for Work and Pensions when the Parliamentary Under-Secretary of State will respond to the letter from the right hon. Member for West Derbyshire of 30 April 2009 on statutory adoption pay. [285494]

Mr. McFadden: I have been asked to reply.

My noble Friend, the Minister for Postal Affairs and Employment Relations, responded to the right hon. Member on 16 July.

Mortgages: Government Assistance

Mr. Barstow: To ask the Secretary of State for Work and Pensions pursuant to the answer to the hon. Member for Bury North of 10 March 2009, *Official Report*, column 270W, on mortgages: Government assistance, how many claims for mortgage relief made with *(a)* jobseeker's allowance and *(b)* income support were (i) received, (ii) processed, (iii) awarded and (iv) refused in each jobcentre in each region in (A) January 2008 and (B) January 2009; and if she will make a statement. [264353]

Helen Goodman: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question, pursuant to the answer to the hon. Member for Bury North of 10 March 2009, *Official Report*, column 270W, on mortgages: Government assistance, how many claims for mortgage relief made with *(a)* jobseeker's allowance and *(b)* income support were (i) received, (ii) processed, (iii) awarded and (iv) refused in each jobcentre in each region in (A) January 2008 and (B) January 2009; and if he will make a statement. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Claims with a mortgage interest element are received by our Benefit Delivery Centres. I can provide you with data for both January 2008 and January 2009 by Benefit Delivery Centre, but not by Jobcentre as you have requested. Information by Jobcentre in each region could only be obtained at disproportionate cost.

For Jobseeker's Allowance, we collect data on claims with a mortgage interest element received and claims processed. Our benefit processing system for Jobseeker's Allowance does not record data about the number of awards and refusals.

For Income Support, we record data about claims with a mortgage interest element received, processed, awarded and refused.

The available information has been placed in the Library.

New Deal Schemes

Mrs. May: To ask the Secretary of State for Work and Pensions what changes have been made to the new Jobcentre Plus jobseekers' regime designed as part of the Flexible New Deal since it was first announced. [283565]

Jim Knight: The Government first announced their intention to introduce the Flexible New Deal in the July 2007 Green Paper 'In work, better off: next steps to full employment'[Cm 7130]. Following a period of consultation, the different stages of the Jobseeker's Regime were set out in the December 2007 DWP publication 'Ready for work: full employment in our generation'[Cm 7290].

The Social Security (Flexible New Deal) Regulations 2009 (SI 2009 No. 480) were laid in March 2009 and the new regime was launched in phase 1 areas from 6 April 2009.

Since April 2009, the Department has also introduced a number of measures to provide extra support to jobseekers in light of the economic downturn in addition to that already provided in the Jobseeker's Regime.

On 6 April 2009, the Department introduced targeted support for the newly unemployed, including support tailored to professionals to enable them to refresh their job search skills.

On the same day, the Department introduced an offer of extra support for customers who have been claiming Jobseeker's Allowance for six months (Stage 3 of the Jobseeker's Regime). This includes access to recruitment subsidies, work-focused training, help to become self-employed and volunteering opportunities.

The Government also recently announced a Young Person's Guarantee: a guaranteed offer of a job, work-focused training or work experience placement for young jobseekers. This will be available from January 2010 to all Jobseeker's Allowance customers aged 18 to 24 who are approaching 12 months of their claim.

Steve Webb: To ask the Secretary of State for Work and Pensions (1) what criteria apply for jobseeker's allowance claimants to be fast-tracked to the gateway period of the Flexible New Deal; [287314]

(2) how many and what proportion of jobseeker's allowance claimants she expects to be fast-tracked to the gateway stage of the Flexible New Deal in each of the next 12 months. [287315]

Jim Knight: As part of the refreshed jobseeker's allowance regime, some jobseekers will be fast-tracked to the supported jobsearch stage (Stage 3) of the regime at the start of their claim. Stage 3 is normally reserved for customers out of work for six months, and comprises more intensive adviser-led support, and access to the new package of support at six months, comprising recruitment subsidies, help to become self-employed, and access to training and volunteering opportunities.

The refreshed jobseeker's allowance regime was launched in Phase One areas in April this year; we expect it to be launched in Phase Two areas in April next year.

Fast-tracking applies to:

Customers with a history of claiming benefit who have spent 22 of the previous 24 months on Jobseeker's Allowance;

18 year olds who have been continuously out of employment, education or training for six months prior to making a claim, or whose period out of employment, education or training and Jobseeker's Allowance claim together reach six months.

Other disadvantaged groups can volunteer for early entry to Stage 3, at adviser discretion and subject to capacity.

We have placed no limit on the number of people fast-tracking will apply to, nor are we subject to limitations about the overall proportion of customers to whom the measures will apply.

New Deal Schemes: Hemsworth

Jon Trickett: To ask the Secretary of State for Work and Pensions how many people aged between 18 and 24 in Hemsworth constituency have received assistance under the New Deal since 1997; and how many such people have moved into employment. [288786]

Jim Knight: People aged between 18 and 24 can benefit from the New Deal for Young People, which was rolled out nationally from April 1998. In the Hemsworth constituency 2,430 young people entered the New Deal up to February 2009 and 1,640 people went on from the New Deal into work up to November 2008, which is the latest date for which data are available.

Note:

Figures are rounded to the nearest 10.

Source:

Department for Work and Pensions, Information Directorate

New Deal Schemes: Lancashire

Geraldine Smith: To ask the Secretary of State for Work and Pensions how many people in Morecambe and Lunesdale constituency have received assistance through New Deal schemes in each year since 1997. [288443]

Jim Knight: The information requested is in the following tables:

Time series of starters (individuals), people starting all new deal programmes in Morecambe and Lunesdale constituency

	Number of people
1998	320
1999	500
2000	440
2001	460
2002	540
2003	530
2004	550
2005	590
2006	580
2007	820
2008	870
2009	150

Notes:

1. Figures are rounded to the nearest 10.
2. Parliamentary constituency (post May 2005) is allocated using the ONS Postcode Directory and customer's postcode.
3. The new deal for young people pilots began in January 1998 and full national roll-out occurred in April 1998.
4. The new deal for 25plus programme was introduced in July 1998.
5. The new deal for lone parents programme was introduced in October 1988.
6. The new deal for disabled people was introduced in July 2001.
7. Data on new deal 50plus are available from January 2004 (programme was introduced in April 2000).
8. Data for new deal for partners are available from April 2004 (programme started in May 1999).

Nuclear Reactors: Safety

Mr. Dai Davies: To ask the Secretary of State for Work and Pensions what assessment she has made of the implications for nuclear safety regulation of the civil nuclear industry of the comparative inspection effort expended for the performance of inspection per nuclear power reactor set out in the extract from Committee on Nuclear Regulatory Activities of the Nuclear Energy Agency working group on inspection practices published in annex F of the paper presented to the Health and Safety Executive Board in January 2009, No. HSE/09/13. [287495]

Jonathan Shaw: It is correct that the number of HSE nuclear inspectors per nuclear installation is less than most other countries with active nuclear programmes. This is not a recent development and is a consequence of the goal setting nature of the UK regulatory system with its emphasis on ensuring that nuclear operators understand the hazards of their activities and how to control them, and take full responsibility for nuclear safety on their sites.

Unlike many foreign regulatory authorities referred to in the Nuclear Energy Agency reference, HSE's nuclear inspector resources are not used to develop detailed regulations that prescribe how the nuclear operators should carry out their business. The nuclear installations inspectorate (NII) sets safety goals that are embodied in the licence conditions for each nuclear licensed site and require the operators to make and implement arrangements to meet these goals. UK law holds the nuclear operators responsible for safety. The NII's role is to ensure that they meet this obligation. The law, however, gives the NII the powers to intervene when and where appropriate, and seek further improvements in nuclear safety where reasonably practicable.

The system requires highly experienced and technically qualified nuclear inspectors to operate efficiently and effectively. Government have agreed with HSE interim measures to ensure that the NII has the resources needed to continue to effectively meet current and future regulatory challenges. Furthermore, the Government are proposing, in their recent consultation document on the Restructuring of the Heath and Safety Executive's Nuclear Directorate, further measures to sustain this capability into the future.

Occupational Pensions

Mrs. May: To ask the Secretary of State for Work and Pensions what estimate she has made of the number of people who have lost part of their pension because the sponsoring employer is insolvent or no longer exists. [283546]

Angela Eagle: The information is not available in the form requested. However, such information as is available is as follows.

The Government estimate that around 130,000 members of schemes with insolvent sponsoring employers will benefit from the Financial Assistance Scheme.

In addition the Pension Protection Fund (PPF) protects members of eligible defined benefit pension schemes whose sponsoring employer experiences a qualifying insolvency event after April 2005. As at 30 June 2009, the PPF had 30,443 transferred members from 101 schemes. A further 193,228 members of 319 schemes remain in the PPF assessment period as of 30 June 2009 some of whom may have lost part of their pension. Since 2005, 32 schemes with 3352 members have wound up outside the PPF; these members would receive more than PPF compensation, but may not receive the full benefits originally promised by their scheme. A further 7,436 schemes were rejected as ineligible for assessment.

Pathways to Work

Mr. Harper: To ask the Secretary of State for Work and Pensions how many customers of Pathways to Work have been awarded Return to Work Credit where no job start had been recorded since the inception of the credit; and what the total monetary value was of those awards in each year for which data are available. [287935]

Jim Knight *[holding answer 20 July 2009]:* 11,200 individuals found work as a result of Provider Led Pathways to Work. Of these 4,500 did not claim the Return to Work Credit, 3,230 claimed the Return to Work Credit and appear on HM Revenue and Customs data. 3,470 claimed Return to Work Credit but are not recorded as having a job on the HM Revenue and Customs database. A further 20 individuals, who had found a job through Workstep did not appear on either the Return to Work Credit or the HM Revenue and Customs database.

137,110 individuals found work as a result of Jobcentre Plus Pathways to Work. Of these 54,830 did not claim the Return to Work Credit, 28,530 claimed the Return to Work Credit and appear on HM Revenue and Customs data. 41,770 claimed Return to Work Credit but are not recorded as having a job on the HM Revenue and Customs database. A further 11,980 individuals who had found a job through Workstep or New Deal for Disabled People did not appear on either the Return to Work Credit or the HM Revenue and Customs database.

There are several reasons, for example low earnings or self-employment, why someone in work should not appear on the HM Revenue and Customs database as this only covers those eligible to pay PAYE.

The Return to Work Credit is a payment of £40 a week for up to 52 weeks if earnings are no more than £15,000 a year, gross, and where certain other eligibility conditions are satisfied. It is not possible to give monetary values in the form requested.

Note:

Figures are rounded to the nearest 10. Totals may not sum due to rounding.

Steve Webb: To ask the Secretary of State for Work and Pensions what criteria apply in respect of Ofsted inspections of Pathways to Work providers; how many

and what proportion of Pathways to Work providers have not met those criteria in each year since inspections began; and if she will make a statement. [288474]

Jim Knight: The Department for Work and Pensions is currently working with Ofsted in England, Estyn in Wales and HMIE in Scotland to develop and pilot an inspection model, tailored to their respective inspection frameworks, to give assurance on the quality of Provider Pathways.

Following this process, external inspection of Provider Led Pathways will start from the autumn in England and Wales; and from January 2010 in Scotland.

Mr. Harper: To ask the Secretary of State for Work and Pensions how many customers have made starts onto Pathways to Work since the programme's inception; how many have been recorded as making job starts; and how many customers who started jobs remain in employment. [288511]

Jonathan Shaw *[holding answer 20 July 2009]:* Official statistics on the number of participants in Pathways to Work are available up to January 2009, these are published at:

http://research.dwp.gov.uk/asd/workingage/ib_ref_ p2w.asp

Data on starts are available up to January 2009. Data on job entries are available up to October 2008. To allow for comparisons between starts and job entries over the same time period, starts to Pathways are shown up to the end of October 2008. Official statistics use both HMRC data and Return to Work Credit data to calculate how many Pathways customers have moved into employment. Information on job end dates can only be derived for individuals who have a matching employment spell on the HMRC data. Individuals who have started jobs in the six months prior to the end of October 2008 will not have had time to sustain their employment for at least six months. Numbers of individuals who remain in employment for six months on this database are shown in the table.

Number of individuals who started Pathways to Work and subsequently found employment

	Number of individuals	*Of which: are Return to Work credit only starts*	*Of which: are job outcome target job entries*	*Of which: are job outcome target job entries sustained for at least six months*
Provider - Led Pathways starts	101,230	—	—	—
Jobcentre Plus Pathways starts	812,470	—	—	—
Provider - Led Pathways job entries	11,200	3,470	7,720	1,170
Jobcentre Plus Pathways job entries	137,110	42,190	83,360	39,230

Notes:
1. Figures are rounded to the nearest 10. Totals may not sum due to rounding.
2. If a person has started employment more than once in the period, then their most recent employment is counted.

Source:
DWP Jobcentre Plus and Provider-Led databases

Mr. Harper: To ask the Secretary of State for Work and Pensions how many customers who have made job starts under Pathways to Work have remained in employment for spells of *(a)* under 13 weeks, *(b)* between 13 and 26 weeks, *(c)* between 26 and 52 weeks and *(d)* over 53 weeks. [288512]

Jim Knight *[holding answer 20 July 2009]:* Official statistics on the number of participants in Pathways to Work are available up to January 2009, these are published at:

http://research.dwp.gov.uk/asd/workingage/i_ref_p2w.asp

Data on starts are available up to January 2009. Data on job entries are available up to October 2008. The following table shows the duration of jobs for all jobs up to October 2007. This is to allow sufficient time for a customer to have remained in work for 12 months. Official statistics use both HMRC data and Return to Work Credit data to calculate how many Pathways customers have moved into employment. Information on job end dates can only be derived for individuals who have a matching employment spell on the HMRC data. Numbers of individuals who remain in employment on this database are shown in the table.

Number of individuals with job entries in Pathways to Work areas and the employment duration of those which have an HMRC record

Duration in employment	*Provider-led*	*Jobcentre Plus*
Total job entries (up to end of October 2008)	11,200	137,110
Total job entries (up to end of October 2007)	n/a	90,070
Of which:		
Are HMRC-recorded jobs	n/a	51,330
Under 13 weeks	n/a	14,400
13 to 26 weeks	n/a	7,500
26 to 52 weeks	n/a	7,260
52 weeks and over	n/a	22,170

Notes:
1. Figures are rounded to the nearest 10.
2. If a person has started employment more than once in the period, then their most recent employment is counted.

Source:
DWP Jobcentre Plus and Provider-led databases

Mr. Harper: To ask the Secretary of State for Work and Pensions what estimate her Department has made of *(a)* the number of customers which have started Pathways to Work and *(b)* the proportion of Pathways to Work customers who have made recorded job starts in each year for which figures are available. [288518]

Jonathan Shaw *[holding answer 20 July 2009]:* Official statistics on the number of participants in Pathways to Work are available up to January 2009, these are published at:

http://research.dwp.gov.uk/asd/workingage/ib_ref_p2w.asp

Data on starts to Pathways are available up to January 2009. Data on job entries are available up to October

2008. As a result, the numbers who find employment within 91 days of their last contact with Pathways for the years 2008 and 2009 years are not fully complete as not all customers have had time to move into employment. Numbers of individuals who start Pathways and move into employment are shown in the following tables.

Number of individuals who started Pathways to Work and subsequently found employment in Pathfinder-led areas

	Individual Pathfinder-led starts	*Number which find employment within 91 days of last contact with Pathways*	*Proportion of Pathfinder-led starts which entered employment within 91 days of last contact with Pathways (percentage)*
October 2003 to December 2003	n/a	n/a	n/a
January 2004 to December 2004	n/a	n/a	n/a
January 2005 to December 2005	n/a	n/a	n/a
January 2006 to December 2006	n/a	n/a	n/a
January 2007 to December 2007	1,960	650	33.3

Number of individuals who started Pathways to Work and subsequently found employment in Jobcentre Plus areas

	Individual Jobcentre Plus starts	*Number of which found employment within 91 days of last contact with Pathways*	*Proportion of Jobcentre Plus starts which entered employment within 91 days of last contact with Pathways (percentage)*
October 2003 to December 2003	6,160	1,330	21.6
January 2004 to December 2004	72,920	14,490	19.9
January 2005 to December 2005	104,390	17,410	16.7
January 2006 to December 2006	209,020	35,450	17.0
January 2007 to December 2007	301,060	56,490	18.8

Notes:
1. Figures are rounded to the nearest 10.
2. If a person has started Pathways or employment more than once in each year, then their first spell is counted each year.
3. A person is counted only once in each year, though they may appear in several years. As a result, the total number of individuals which have participated in Pathways since its inception cannot be derived by adding the number of individuals which have participated each year.

DWP Jobcentre Plus and Provider-led databases

Pension Credit

Mrs. May: To ask the Secretary of State for Work and Pensions what plans her Department has *(a)* to introduce automatic payments of pension credit and *(b)* to automate some parts of the pension credit claim process; what estimate she has made of the number of claimants affected; and what assessment she has made of the effect of such changes on levels of pension credit take-up. [285798]

Angela Eagle: We have no current plans to introduce wholesale automatic payments of pension credit. However, for existing customers moving from a means-tested working age benefit onto pension credit we are proposing to smooth the transition between benefits using the information already held, where it is considered safe to do so.

Steve Webb: To ask the Secretary of State for Work and Pensions how many and what proportion of *(a)* new and *(b)* re-assessed pension credit applications were processed in (i) 10 days and fewer, (ii) 11 to 15 days, (iii) 16 to 20 days, (iv) 21 to 25 days and (v) over 25 days in each of the last six quarters; and if she will make a statement. [287320]

Angela Eagle: We are unable to provide the level of detail requested. However the following table details the average actual clearance times (AACT) for pension credit, each year since 2007.

Pension credit clearance times

	2007-08	*2008-09*	*June YTD[1] 2009-10*
Target (days)	[2]AACT 15	AACT 15	AACT 15
Total Processed	280,097	298,075	74,894
AACT (days)	15.6	15	15.7

[1] Year to date.
[2] Actual average clearance time.

MISP (Management Information Systems Program)

Jim Cousins: To ask the Secretary of State for Work and Pensions what her most recent estimate is of the number of male claimants of pension credit between 60 and 65 years old in each region of *(a)* England, *(b)* Wales, *(c)* Scotland and *(d)* Northern Ireland. [287711]

Angela Eagle: The requested information is in the following table. In Northern Ireland, pension credit administration is a matter for the Northern Ireland Assembly.

Pension credit case load: number of claimants who are male and aged 60-64

Government office region	*Number of claimants*
North East	13,630
North West	30,820
Yorkshire and the Humber	20,810
East Midlands	15,090
West Midlands	22,070
East of England	16,680
London	27,240
South East	21,250
South West	16,510
England	184,100
Wales	13,360
Scotland	22,730
Total	220,230

Notes:
1. The case load figures are rounded to the nearest 10.
2. Totals may not sum due to rounding.

Source:
DWP Information Directorate: Work and Pensions Longitudinal Study 100 per cent. data.

Jim Cousins: To ask the Secretary of State for Work and Pensions what her most recent estimate is of the number of claimants of carer's premium to those in receipt of pension credit in each region of *(a)* England, *(b)* Wales, *(c)* Scotland and *(d)* Northern Ireland; and what proportion of total claims of pension credit this represents in each case. [287712]

Angela Eagle: The information requested is in the following table. In Northern Ireland pension credit administration is a matter for the Northern Ireland Assembly.

Government office region	*Households in receipt of pension credit with an additional amount for caring*	*Households in receipt of pension credit*	*Proportion (Percentage)*
North East	15,160	157,000	9.66
North West	38,220	359,730	10.62
Yorkshire and The Humber	23,540	261,350	9.01
East Midlands	18,910	195,480	9.67
West Midlands	29,120	278,930	10.44
East of England	21,580	226,880	9.51
London	15,960	294,480	5.42
South East	20,240	286,680	7.06
South West	20,780	226,080	9.19
England	203,500	2,286,610	8.90
Wales	20,060	163,410	12.28
Scotland	29,620	281,030	10.54
Total	253,200	2,731,370	9.27

Notes:
1. The number of households in receipt are rounded to the nearest 10.
2. Totals may not sum due to rounding.
3. Household recipients are those people who claim pension credit either for themselves only or on behalf of a household.

Source:
WP Information Directorate: Work and Pensions Longitudinal Study 100 per cent. data.

Andrew George: To ask the Secretary of State for Work and Pensions (1) what estimate her Department has made of the number of people entitled to pension credit who have not claimed it in *(a)* St. Ives

constituency, *(b)* Cornwall and *(c)* England in each of the last five years; [287924]

(2) how many people claimed pension credit in *(a)* St. Ives constituency, *(b)* Cornwall and *(c)* England in each of the last five years. [287925]

Angela Eagle: Estimates of eligibility and therefore those who are entitled to pension credit but have not claimed it are not available below the level of Great Britain.

The latest estimates of the take-up rates and the number of those entitled to but not receiving pension credit are published in the report "Income Related Benefits Estimates of Take-Up in 2007-08".

The number of household recipients of pension credit in St. Ives parliamentary constituency, Cornwall and England are shown in the following table.

As at November each year	*St. Ives*	*Cornwall*	*England*
2004	5,810	27,580	2,200,630
2005	6,060	28,260	2,266,420
2006	6,140	28,740	2,290,810
2007	6,150	28,830	2,287,390
2008	6,170	28,900	2,286,610

Notes:
1. The number of households in receipt are rounded to the nearest 10.
2. Totals may not sum due to rounding.
3. Household recipients are those people who claim pension credit either for themselves only or on behalf of a household.

Source:
DWP Information Directorate Work and Pensions Longitudinal Study 100 per cent. data.

Pension Credit: Bexley

Mr. Evennett: To ask the Secretary of State for Work and Pensions how many households in Bexleyheath and Crayford were in receipt of pension credit in the last 12 month period for which figures are available. [288772]

Angela Eagle: The information requested is in the following table:

Household recipients of pension credit in the Bexleyheath and Crayford parliamentary constituency

2008	*Number*
February	2,750
May	2,750
August	2,750
November	2,770

Notes:
1. The number of households in receipt are rounded to the nearest 10.
2. Household recipients are those people who claim pension credit either for themselves only or on behalf of a household.

Source:
DWP Information Directorate Work and Pensions Longitudinal Study 100 per cent. data.

Pension Protection Fund: East of England

Bob Spink: To ask the Secretary of State for Work and Pensions how many people in *(a)* Essex and *(b)* the East of England have received Pension Protection Fund payments in each year since the fund's inception; and what the average size of payment was in each year. [285730]

Angela Eagle: The information is not available in the form requested. However, such information as is available is as follows:

455 people in the East of England are currently receiving compensation from the Pension Protection Fund. Two people from the region were receiving such compensation in May 2007 and 111 people in June 2008.

The national average annual payment of compensation is currently around £3,700; a regional breakdown of this figure is not available.

Pension Service: Internet

Justine Greening: To ask the Secretary of State for Work and Pensions on what dates since January 2009 the Pension Service's state pension forecast e-service pages have not had full service available; for how long on each occasion; and if she will make a statement. [287546]

Angela Eagle *[holding answer 20 July 2009]:* The following table provides details of the occasions since January 2009 when the Pension Service's on-line state pension forecast service (RTPF) has been unavailable together with the duration of that unavailability. With the exception of the period from 30 March 2009 to 5 April 2009 when there was unprecedented demand for the service, downtime is normally as a result of planned maintenance work or the planned introduction of system improvements.

Advanced notification of RTPF downtime from January 2009

Date of downtime	*Time of downtime*
8 January 2009	[1]09.25-11.25
13 January 2009	[1]10.21-11.28

The RTPF system

Pensioners

Mr. Willetts: To ask the Secretary of State for Work and Pensions if she will publish an update of the data in figure 6.41 on page 293 of the report of the Turner Commission. A new pension settlement for the 21st century, on public expenditure on pensioner benefits as a percentage of GDP, for the period covered by the figure; and if she will publish the same information in the case of each age cohort. [269821]

Angela Eagle *[holding answer 20 April 2009]:* Such figures as are available were published in an update to the Pensions Reform Bill Regulatory Impact Assessment in May 2007. They can be found at:

http://www.dwp.gov.uk/docs/pensions-reform-factsheet.pdf

figure 14, p16. More recent figures, and a breakdown by age cohort, are not available, and could be provided only at disproportionate cost.

Notes:

1. Figures are consistent with DWP long-term projections published at Budget 2007.

2. Post-reform figures are consistent with the pensions reform proposals at the time of publication (May 2007) and not necessarily with the Turner Commission report.

Pensioners: Social Security Benefits

Steve Webb: To ask the Secretary of State for Work and Pensions if she will estimate the cost to the Exchequer of assuming that any income earned from savings for the purposes of pensioners' eligibility for *(a)* pension credit, *(b)* housing benefit and *(c)* council tax benefit is one per cent. higher than the Bank of England base rate (i) beyond and (ii) instead of existing capital disregards. [276774]

Angela Eagle: The following table shows the estimated cost of assuming different illustrative Bank of England rates of around 1 per cent. and 5 per cent. (averaged over a year), with and without the £6,000 capital disregard.

Estimated cost of tariff income set at approximately 1 per cent. higher than Bank of England base rate for pension credit, housing benefit and council tax benefit (2009-10 prices)

Rate applied to income above the disregard	*(i) Cost keeping current disregard (£ million)*	*(ii) Cost removing current disregard (£ million)*
2 per cent.	350	240
6 per cent.	170	110

Notes:
1. These estimates have been calculated using the Policy Simulation Model (PSM) which uses data from the Family Resources Survey (FRS). Estimates are subject to sampling and modelling uncertainty.
2. Income taken into account is rounded up to the next £1.
3. In column (i) the interest rate is applied to capital above the capital disregard.
4. Estimates do not include the cost of applying the rules to those in care/nursing homes.
5. Costs have been calculated against the current £6,000 threshold and not against the revised threshold of £10,000 that will apply from November 2009.
6. Costs have been rounded to the nearest £10 million.

Pensions Service: Incentives

Bob Spink: To ask the Secretary of State for Work and Pensions how much was paid in bonuses to *(a)* directors, *(b)* senior managers, *(c)* specialist and delivery managers and *(d)* executive support and administration staff in the Pensions Service in each of the last five years. [280620]

Angela Eagle: The information available is in the following table

Amount paid in bonuses for 2007-08 and 2008-09

The Pension Service[1]	*Bonuses (£)* 2007-08	*Bonuses (£)* 2008-09
Directors	86,200	[2]
Senior managers	334,404	[2]
Specialist and delivery managers	592,836	313,510
Executive support and administration staff	3,212,325	1,816,466

[1] The Pension Service ceased to exist from 1 April 2008, when it merged with the Disability and Carers Service to form the Pension, Disability and Carers Service (PDCS). The figures entered for 2008-09 therefore represent bonuses paid to ex-The Pension Service staff who are now working within PDCS and broadly carrying out the same roles as in 2007-08.
[2] There is not a directly comparable figure for Directors and Senior Managers in the new organisation, whose roles span the whole new agency.

Resource Management (RM) System—Payroll

Pensions: York

Hugh Bayley: To ask the Secretary of State for Work and Pensions how many people in *(a)* the City of York local authority area and *(b)* City of York constituency are in receipt of (i) the basic state pension and (ii) pension credit; and what the average weekly value of pension credit received is in each case. [285754]

Angela Eagle: The information requested is in the following table.

	People in receipt of the basic state pension	*Households in receipt of pension credit*	*Average weekly amount of pension credit (£)*
York local authority	36,900	6,680	45.41
City of York parliamentary constituency	18,700	4,350	46.39

Notes:
1. Numbers in receipt of basic state pension rounded to the nearest hundred.
2. The number of households in receipt are rounded to the nearest 10.
3. Household recipients are those people who claim pension credit either for themselves only or on behalf of a household.
Source:
DWP Information Directorate Work and Pensions Longitudinal Study 100 per cent. data and DWP Information Directorate 5 per cent. sample data.

Pilot Schemes

Mrs. May: To ask the Secretary of State for Work and Pensions what her Department's definition is of *(a)* a pilot and *(b)* a pathfinder programme. [286746]

Jim Knight: The Department has no formal definition for pilots or pathfinders. A pilot is considered to be a feasibility study or activity aimed at testing and evaluating the effectiveness of an initiative on a small scale before considering whether or not to implement it more widely. A pathfinder is an advance part of implementation

when a decision has been made to deploy a project. Pathfinders are generally the initial phase in rolling out initiatives.

Poverty: Essex

Bob Spink: To ask the Secretary of State for Work and Pensions how many people in *(a)* Essex and *(b)* Castle Point constituency were in relative poverty in each of the last five years. [273373]

Angela Eagle: Poverty statistics, published in the Households Below Average Income series, only allow a breakdown of the overall number of people in relative poverty at Government office region level or for inner or outer London. This means information for Essex and the Castle Point constituency is not available.

Poverty: Parents

Bob Spink: To ask the Secretary of State for Work and Pensions what her most recent assessment is of levels of poverty among working parents who are not eligible for tax credits. [282865]

Mr. Timms: I have been asked to reply.

The child tax credit is a single, inclusive system of support for all families with children with an income up to £58,000. Families with a child aged under 16, or a young person aged 16-19 and in qualifying work, education or training, are eligible. Around nine out of 10 families with children are entitled to the child tax credit, there is little or no risk of poverty for families with incomes above the income threshold.

Recruitment: Discrimination

Philip Davies: To ask the Secretary of State for Work and Pensions what criteria applied in the selection of employers by her Department in respect of its recent study into discrimination in recruitment practices. [287770]

Jim Knight: Applications were made to advertised job vacancies. No specific employers or sectors of industry were targeted. Full details of the methodology of the research will be published in the autumn.

Remploy: South Yorkshire

Mr. Betts: To ask the Secretary of State for Work and Pensions what estimate she has made of the number of people who left the employment of Remploy in South Yorkshire in the last *(a)* 12 months and *(b)* five years who are in permanent employment. [288833]

Jim Knight: The number of people who left the employment of Remploy in South Yorkshire in the last 12 months is 31. In the last five years, 139 people left the employment of Remploy in South Yorkshire.

Remploy has confirmed that it does not collate destination information for former employees, therefore, we are unable to provide information on how many are in permanent employment.

Self-Employed: Government Assistance

Mr. Clappison: To ask the Secretary of State for Work and Pensions (1) how the self employment support available under the six month offer will differ from that offered under the New Deal for Self Employment; [288004]

(2) what estimate she has made of the number of people she expects to support into self-employment under the six month offer in *(a)* 2009-10, *(b)* 2010-11 and *(c)* 2011-12; [288005]

(3) whether a last trading period will be available to a person receiving self-employment support as part of the six month offer; [288006]

(4) how much funding has been assigned to the self-employment support to be made available under the six month offer in *(a)* 2009-10, *(b)* 2010-11 and *(c)* 2011-12. [288007]

Jim Knight: The self-employment element of the six month offer was introduced on 6 April 2009 and provides substantial advice and support to enable people to move into self-employment or to start their own business. There is an active programme of intensive support delivered by Business Link in England by Flexible Support for Business in Wales and by Business Gateway and Training for Work in Scotland. Those moving into self-employment will be entitled to a self-employment credit made up of 16 weekly payments of £50 to help with the transition into work and to underpin finances for the first few months of the business.

There is no new deal for the self-employed although both the new deal for young people and the new deal 25-plus include options offering self-employment support. Under flexible new deal providers will also be able to provide self employment support. The new deal and six month offer routes into self employment are broadly similar. Both offer intensive support and advice to those who need it. To ease the transition into sustainable self-employment the new deals give customers an opportunity to undertake a period of test-trading for up to 26 weeks. Test trading enables the customer to begin work while remaining on benefits, whereas under the six month offer the self-employment credit is payable.

We have anticipated the six month offer providing 500,000 opportunities for jobseekers and have made an investment in the offer of £0.5 billion. On current estimates we expect to be able to provide self employment support to 135,000 people.

The offers are voluntary and are therefore demand led. The overall package is designed to be flexible and respond to customer needs. It is also possible that for any individual customer, a mix of offers may be appropriate.

Social Fund

Mr. Sanders: To ask the Secretary of State for Work and Pensions what progress her Department has made in its review of the Social Fund since the publication in November 2008 of its consultation document, The Social Fund: a new approach. [281574]

Helen Goodman: The Government's response to the consultation document 'The Social Fund: A New Approach—Response Document' was published on the

Department for Work and Pensions' website in February 2009. A copy has been placed in the Library. It can be downloaded from:

http://www.dwp.gov.uk/consultations/2008/sf-new-approach-response.pdf

We anticipate that a further consultation document focused on the longer-term reform of the Social Fund will be published later this year.

Social Security Benefits

Mrs. May: To ask the Secretary of State for Work and Pensions (1) how many and what proportion of claims for *(a)* budgeting loans, *(b)* crisis loans, *(c)* community care grants, *(d)* jobseeker's allowance, *(e)* incapacity benefit/employment and support allowance, *(f)* income support and *(g)* pension credit were processed within the target actual average clearance time in the last (i) 12 months and (ii) five years for which information is available; [286180]

(2) what the average clearance time for claims for *(a)* budgeting loans, *(b)* crisis loans, *(c)* community care grants, *(d)* jobseeker's allowance, *(e)* incapacity benefit/employment and support allowance, *(f)* income support and (g) pension credit was in cases where the claim was longer than the average clearance time in each of the last (i) 12 months and (ii) five years. [286181]

Jim Knight: The Jobcentre Plus target for processing jobseeker's allowance, income support and incapacity benefit claims is an average actual clearance time. Not all cases will be processed within the target for that benefit for a variety of reasons, but a calculation based on the average time taken across all claims processed within any given month is used as a measure of overall performance. As a result the Department's computer systems do not gather data in the way they have been requested.

The average actual clearance time information for budgeting loan, crisis loan and community care grant applications that are processed outside of the standard is not available.

Detailed information on clearance times for receipt of employment and support allowance is not available at the present time.

Employment and support allowance replaced incapacity benefit for new claims from 27 October 2008. The latest quarterly data available are November 2008. More comprehensive figures are expected to be available when the February 2009 publication is produced in August 2009.

The available information has been placed in the Library.

Mrs. May: To ask the Secretary of State for Work and Pensions what start and end point is used to measure average actual clearance times for benefit claims. [286745]

Jim Knight: The Department for Work and Pensions administers a wide range of benefits. The clearance performance for some of these is measured in Average Actual Clearance Times (AACT). AACTs are calculated by dividing the total number of working days taken to clear cases by the total number of cases cleared. Details of the start and end point for each such benefit are given in the following table.

Benefit	*Start point*	*End point*
Disability Living Allowance	Date on which a properly completed claim pack is received within a Department for Work and Pensions office	Date on which decision is recorded on the computer system and a notification of the decision is sent to the customer
Attendance Allowance	As above	As above
Carers Allowance	As above	As above
Pension Credit	Date on which all evidence is received to enable a decision to be made	As above
State Pension	Date on which a properly completed claim pack is received within a Department for Work and Pensions office. For telephone claims this is the date on which the customer makes the initial contact	As above
Jobseeker's Allowance	Date on which the customer first contacts Jobcentre Plus or the customer's first day of unemployment, whichever is the later	As above
Income Support	Date on which all evidence is received to enable a decision to be made	As above
Employment and Support Allowance	Date on which the customer first contacts Jobcentre Plus or the customer's first day of sickness, whichever is the later	As above
Incapacity Benefit	Date on which a properly completed claim form is received within a Department for Work and Pensions office	As above

Steve Webb: To ask the Secretary of State for Work and Pensions (1) how many and what proportion of *(a)* new and *(b)* re-assessed council tax benefit claims were processed in (i) 10 days or less, (ii) 11 to 15 days, (iii) 16 to 20 days, (iv) 21 to 25 days, (v) 26 to 30 days, (vi) 31 to 35 days, (vii) 36 to 40 days, (viii) 41 to 45 days and (ix) over 45 days in each (A) region and (B) local authority in each of the last six quarters; [287317]

(2) how many and what proportion of *(a)* new and *(b)* re-assessed housing benefit claims were processed in (i) 10 days and fewer, (ii) 11 to 15 days, (iii) 16 to 20 days, (iv) 21 to 25 days, (v) 26 to 30 days, (vi) 31 to 35 days, (vii) 36 to 40 days, (viii) 41 to 45 days and (ix) over 45 days in each (A) region and (B) local authority in each of the last six quarters. [287318]

Helen Goodman: The information requested is currently not available.

Steve Webb: To ask the Secretary of State for Work and Pensions under what circumstances benefit claimants become Gateway outstayers. [288489]

Jim Knight: Gateway overstayers are New Deal participants who have not started a mandatory New Deal Option or Intensive Activity Period (IAP) before the end of the maximum period they can remain on a Personal Adviser caseload, which is 16 weeks. This can happen for a number of reasons, including:

The participant has a firm offer of employment which is due to start shortly after the end of Gateway;

The provision of the option/activity the participant was due to take up unexpectedly becomes unavailable;

The participant is shortly due to emigrate to a country outside Great Britain;

The participant has suffered the bereavement of a close member of their family;

The participant is referred to an activity/option, but fails to start/attend.

Steve Webb: To ask the Secretary of State for Work and Pensions what mechanisms are in place to monitor the effect of changing the backdating period for *(a)* pension credit, *(b)* council tax benefit and *(c)* housing benefit in October 2008; and if she will make a statement. [288758]

Helen Goodman: All benefits are kept under review as part of our continual steps to make sure that everyone is getting all of the help that they are entitled to and we are always working to make our benefits more accessible.

The Pension, Disability and Carers Service continues to promote take-up of benefits by pressing forward with data matching to identify those who might be entitled to, but not receiving pension credit, to conduct around 13,000 home visits for vulnerable customers each week, targeted local marketing and media campaigns and ever closer working with partner organisations.

The claims process has been simplified and from November 2008 housing benefit and council tax benefit can be claimed over the phone alongside pension credit without the need to sign a claim form.

We are also taking powers in the current Welfare Reform Bill to explore whether the Department can make better use of the information it already holds to improve the take-up of pension credit.

As with pension credit, there are no specific plans to monitor the effect of the change in the time allowed for customers of pension credit age to claim housing benefit and council tax benefit.

For working age customers, the Government have said that they will review the effect of the changes to the housing benefit and council tax benefit backdating rules for this group at the end of 2009. To do this we will use information from the Single Housing Benefit Extract, the Department's principal source of data for housing benefit and council tax benefit administration. In addition, two further methods will be used to inform a review of the policy at the end of 2009. First, the last half-yearly Omnibus Survey of local authorities contained questions which specifically asked them about the impact of these changes. Second, a survey has been running on the DWP website since 2 March, inviting stakeholders such as welfare rights agencies, local authority associations and housing organisations to submit their assessment of the effect of the new rules. This survey, which was devised with the assistance of key stakeholders and ends on 31 July, also includes a case study section so that respondents can contribute detailed information about the impact on individual cases.

Social Security Benefits: Contracts

Lynne Jones: To ask the Secretary of State for Work and Pensions what reports have been compiled as a result of inspection and validation of contract compliance of her Department's external contractors working on programmes with benefit recipients. [286697]

Jim Knight: DWP contract managers undertake regular contractor performance reviews to monitor contract compliance. These then inform the preparation of the contractor's Performance Development Plan which sets out any remedial action.

DWP officials also undertake independent monitoring visits to provide assurance that welfare to work contractors have appropriate financial controls and effective systems in place. A report of the findings is produced and forms the basis of an agreed action plan.

The Department works closely with Ofsted in England, and Estyn in Wales, to produce an annual programme of inspection, ensuring all welfare to work contracts delivered by external contractors are inspected over the course of an inspection cycle. Reports from external inspections are in the public domain.

Social Security Benefits: Disabled

Mrs. Lait: To ask the Secretary of State for Work and Pensions (1) how many people have received their health checks for invalidity benefits in each month since the introduction of the current health checks scheme; how many people were planned to receive such checks but have not; how long it is expected to take to provide checks to such people; and what the cost of doing so will be; [271988]

(2) how many people have come off each type of invalidity benefit in each month since the new system of health checks came into effect; and how many people remain on each benefit. [271989]

Jonathan Shaw: The employment and support allowance was introduced in October 2008 and has replaced incapacity benefits for new customers. Alongside the employment and support allowance we have introduced a new more robust medical assessment—the work capability assessment, which focuses on what people can do, as well as what they cannot. The number of face-to-face medical assessments for all incapacity benefits completed by Atos Healthcare during each month is as follows:

Month	*Assessments*
October 2008	55,487
November 2008	52,352
December 2008	45,904
January 2009	53,050
February 2009	49,453
March 2009	68,051
April 2009	63,315
May 2009	64,106
June 2009	66,575
Total	518,293

The number of medical assessments undertaken was, until recently, below the number of cases coming in for assessment, but action has been taken which will by the summer raise these to a level that will clear the accumulated backlog. No additional payments will be made to clear overdue work capability assessments. The prices paid for assessments remain confidential.

As at November 2008, there were 2,593,010 incapacity benefit/severe disablement allowance claimants in Great Britain and, based on provisional figures, an additional 51,000 claimants of employment and support allowance.

Figures for the number of claimants moving off incapacity benefit/severe disablement allowance are only available for November 2008, one month after the work capability assessment was introduced. Figures for the number of claimants moving off employment and support allowance are not yet available but are expected to be released later this summer.

Social Security Benefits: Disqualification

Mr. Jenkins: To ask the Secretary of State for Work and Pensions what assessment she has made of the effect of the Government's policies on welfare reform on families in Tamworth constituency. [282739]

Jim Knight: The welfare reform programme will allow us to bring about the most radical reform of the welfare state for generations. We remain committed to further reform to reduce welfare dependency and support more people into work, provide greater support and control for disabled people and strengthen parental responsibility.

Since 2001, the Government have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Tamworth will have benefited from these improvements in disability rights. Similarly, families with severely disabled three and four year old children who are unable, or virtually unable to walk will have benefited from the Government's decision to lower the minimum age entitlement to the higher rate mobility component of disability living allowance from April 2001, whilst older and less well-off carers have gained extra help through the provisions within the national carers strategy. The Welfare Reform Bill currently before Parliament contains powers to increase choice and control for disabled adults, including disabled parents, enabling them to choose how certain state support is used to meet their individual needs.

There are over 10 million people with a limiting long-term illness, impairment or disability in Great Britain making up 18 per cent. of the population. (Family resources survey 2007-08). The prevalence of disability rises with age; around one in 20 children are disabled, compared to around one in seven working age adults and almost one in two people over state pension age. All of these people would meet the definition of disability in the Disability Discrimination Act (DDA). The figures can be disaggregated to a regional level which shows that 23 per cent. of adults and 7 per cent. of children in the west midlands are disabled. (Family resources survey 2007-08).

Information on the numbers of customers in Tamworth who are in receipt of disability living allowance (DLA) and attendance allowance (AA) is in the following table.

	Tamworth	
November each year	*DLA recipients*	*AA recipients*
2005	4,530	2,120
2006	4,680	2,210
2007	4,880	2,240
2008	4,960	2,320

Note:
Caseload figures are rounded to the nearest 10; some additional disclosure control has also been applied. Totals show the number of people in receipt of an allowance, and exclude people with entitlement where the payment has been suspended, for example if they are in hospital.
Source:
DWP Information Directorate: Work and Pensions Longitudinal Study

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. Since 1997, although the number of people claiming as unemployed in Tamworth has increased by 58 per cent., the number of long-term unemployed has decreased by 62 per cent. Since 1997 to November 2009 the number of people claiming income support for lone parents in Tamworth has decreased by 28 per cent. to 990.

Our new deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Nationally almost 2.14 million people have been helped into work by the new deals, with over 3,000 in Tamworth alone.

Significant progress has also been made in tackling child poverty. Since 1998-99 the number of children in relative low-income households fell by 500,000 from 3.4 million to 2.9 million on a before housing costs (BHC) basis.

Social Security Benefits: Fraud

Bob Russell: To ask the Secretary of State for Work and Pensions how many complaints her Department has received from benefit claimants over lost payment due to fraudulent use of chip and PIN cards in the last 12 months; what estimate she has made of the total monetary value of benefits stolen in this way; and if she will make a statement. [278152]

Helen Goodman: No such complaints have been recorded by the Department in the last 12 months. We would expect customers who were concerned about chip and PIN fraud to contact their account provider rather than the Department.

Social Security Benefits: Mental Health

Mr. Clappison: To ask the Secretary of State for Work and Pensions how many and what proportion of people in receipt of incapacity benefit or employment and support allowance had their capability for work assessed as limited by mental ill-health in each year since 1997. [282547]

Jonathan Shaw: The number of people claiming incapacity benefit has fallen in recent years. The number of people claiming for physical conditions has fallen significantly as a result of Government programmes to get more people who are able to work back into suitable employment. The number of people claiming incapacity benefit for mental health conditions has remained broadly unchanged over the last few years.

The Government are developing more action to help those with mental health conditions get back into work including a new Mental Health and Employment strategy due to be published in the autumn and the Perkins review on how we help people with mental health conditions back into work.

We have replaced the old system of incapacity benefits with the more work-focused employment and support allowance to engage with people more actively and to ensure they are aware of opportunities available.

The essential rule for entitlement to either incapacity benefit or employment and support allowance does not depend on an individual's diagnosis or condition, but on the effect that condition, or a combination of conditions, has on each individual's mental and physical function.

Information for employment and support allowance is not yet available. Information for incapacity benefit is provided in the following table.

Proportion of IB claimants with mental and behavioural disorders as main disabling condition, November 1997 to 2008

As at November each year:	*All conditions (Number)*	*Mental and behavioural disorders (Number)*	*Physical and other conditions (Number)*	*Percentage of incapacity benefit claimants with mental and behavioural disorders*
1997	2,837,540	768,850	2,068,600	27.1
1998	2,767,606	805,530	1,962,100	29.1
1999	2,738,130	847,920	1,890,210	32.1
2000	2,764,140	902,590	1,861,550	33.7
2001	2,787,710	952,160	1,835,550	35.2
2002	2,818,480	1,005,750	1,812,730	37.1
2003	2,822,270	1,048,920	1,773,330	38.6
2004	2,814,410	1,082,450	1,731,960	40.1
2005	2,752,900	1,085,920	1,666,980	41.1
2006	2,714,950	1,102,550	1,612,400	42.5
2007	2,683,750	1,115,790	1,567,960	43.6
2008	2,593,010	1,092,110	1,500,900	44.2

Notes:
1. Causes of incapacity are based on the International Classification of Diseases, 10th Revision, published by the World Health Organisation.
2. To qualify for incapacity benefit/severe disablement allowance, claimants must undertake a medical assessment of incapacity for work called the personal capability assessment. Therefore, the medical condition recorded on the claim form does not itself confer benefit entitlement.
3. Figures are rounded to the nearest 10.
4. Percentages are rounded to 1 decimal place.
5. Figures for 1997 and 1998 have been derived by applying 5 per cent. proportions to 100 per cent. WPLS totals.

Source:
DWP Information Directorate: Work and Pensions Longitudinal Study 5 per cent. and 100 per cent. data.

There is no clear evidence for the increase in mental illness as the main disabling condition. Informed suggestions for the increase are multi-factorial and include:

(i) Better diagnosis—particularly of behavioural conditions such as autism;

(ii) Less stigma—more people are willing to talk about the mental health issues affecting them;

(iii) Better treatment of physical conditions—particularly musculo-skeletal conditions; and

(iv) The changing nature of business—work intensity.

The Government believe that, with the right help and support, many more people with a mental health condition or disability can achieve independent and fulfilling lives, including through employment.

We have successfully introduced the more work-focused employment and support allowance for new customers, engaging with people more actively and ensuring they are aware of support and opportunities available. Pathways to Work, including the condition management programme, is available to everyone receiving incapacity benefits and employment and support allowance in Great Britain. Evidence on its effectiveness for customers with mental health conditions is mainly positive. A study of existing customers found that the employment impact for customers with mental health conditions was higher than for those without.

We have also committed to ensuring that the personalised support delivered through Pathways to Work is as co-ordinated as possible with the increase in mental health treatment provision delivered through the Improving Access to Psychological Therapies programme in England, and similar programmes in Scotland and Wales.

From December, we will pilot an occupational health helpline for employers, especially small and micro businesses, to help them to manage and support people who have mental health conditions to remain in or return to work.

Social Security Benefits: Standards

Mrs. May: To ask the Secretary of State for Work and Pensions (1) how many outstanding claims for *(a)* incapacity benefit and *(b)* employment and support allowance have there been in each benefit delivery centre in each month of the last two years; [274990]

(2) what the average actual clearance time for *(a)* incapacity benefit and *(b)* employment and support allowance claims has been in each month of the last two years for which figures are available; [274991]

(3) for what reasons average actual clearance times (AACTs) for *(a)* incapacity benefit and *(b)* employment and support allowance exceed her Department's target times; and what steps she is taking to ensure that AACTs targets for each such benefit are met; [275025]

(4) what assessment she has made of her Department's performance in the introduction of employment and support allowance; [275027]

(5) what assessment she has made of her Department's performance in implementing the employment and support allowance; and if she will make a statement. [275550]

Jonathan Shaw: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your questions asking:

how many outstanding claims for (a) incapacity benefit and (b) employment and support allowance have there been in each benefit delivery centre in each month of the last two years;

what the average actual clearance times for (a) incapacity benefit and (b) employment and support allowance claims have been in each month of the last two years for which figures are available;

for what reasons average actual clearance times (AACTs) for (a) incapacity benefit and (b) employment and support allowance exceed his Department's target times; and what steps he is taking to ensure that AACTs targets for each such benefit are met;

what assessment he has made of his Department's performance in the introduction of the new employment and support allowance; and

what assessment he has made of his Department's performance in implementing the employment and support allowance; and if he will make a statement.

This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The available information about AACTs over the last two years has been placed in the Library. The AACT for Incapacity Benefit is calculated from the date a properly completed claim form is received by Jobcentre Plus to the date a decision is made on the claim. Our benefit processing system calculates the AACTs by taking each claim's clearance time using the dates as described and calculates an average across the volume of claims processed.

The Department also published experimental monthly early estimates for Employment and Support Allowance and incapacity benefits caseload figures on 17 June 2009. Furthermore there will be an independent evaluation report published in summer 2010.

Social Security Benefits: Young People

Mr. Sanders: To ask the Secretary of State for Work and Pensions if she will commission research to examine the adequacy of benefit provision for the basic living costs of people under 25 years; and if she will make a statement. [282606]

Jim Knight: I have no plans to commission research. Benefits for people under 25 years are uprated each year in line with prices which ensures that they maintain their value in real terms. Additional provision is available for help with housing costs and for disabled young people. Young families with children will be eligible for child benefit and the working tax credit and child tax credit.

State Retirement Pensions

Steve Webb: To ask the Secretary of State for Work and Pensions if she will estimate the average weekly payment of the basic state pension for *(a)* men and *(b)* women in (i) 2010, (ii) 2020, (iii) 2030, (iv) 2040 and (v) 2050; and if she will make a statement. [287327]

Angela Eagle: The information is in the following table.

Average weekly amounts of the basic state pension, Great Britain

£

	2010	*2020*	*2030*	*2040*	*2050*
Cash					
Men	93	141	219	346	558
Women	80	127	211	348	563
Real terms (2008-09 prices)					
Men	88	101	119	141	172
Women	76	91	115	142	173

Notes:
1. Figures have been rounded to the nearest £1.
2. Forecasts of basic state pension average amounts in 2010-11 are based on the Budget 2009 forecasts. Basic state pension average amounts from 2020-21 onwards are based on the latest published long-term projections which were published Budget 2008.
3. The real terms figures are calculated from the Budget 2008 GDP deflator.

Source:
Budget 2009 forecasts and Budget 2008 long-term projections.

Mr. Burstow: To ask the Secretary of State for Work and Pensions how many people are in receipt of the 25p age addition; when the size of the addition was last reviewed; how much it would be if it had been uprated in line with *(a)* prices and *(b)* earnings since its introduction; and if she will make a statement. [287682]

Angela Eagle: There are currently 2.7 million people in receipt of 25p age addition. The 25p weekly age addition was introduced in 1971 for those pensioners over the age of 80. This amount has not been uprated by successive governments.

(a) Uprating the 25p age addition by prices since 1971 would make it worth £2.90 in 2009-10.

(b) Uprating the 25p age addition by earnings since 1971 would make it worth £4.91 in 2009-10.

Travelling People: Housing Benefit

Mr. Stewart Jackson: To ask the Secretary of State for Work and Pensions what guidance her Department has issued to local authorities on the eligibility of occupants of illegal Traveller sites for housing benefit. [284094]

Helen Goodman: We have not issued any specific guidance on this subject.

Unemployment

Mr. Harper: To ask the Secretary of State for Work and Pensions if she will place in the Library a copy of the Jobcentre Plus National Workload Projection update for July 2009. [287780]

Jim Knight: The information is not available in the format requested.

Unemployment Benefits: Lone Parents

Steve Webb: To ask the Secretary of State for Work and Pensions with reference to page 11 of the Explanatory Memorandum to the Social Security (Lone Parents and Miscellaneous Amendments) Regulations 2008, if she will update her estimate of the number of lone parents projected to be on out of work benefits. [278417]

Helen Goodman: The estimates of the number of lone parents projected to be on out of work benefits were based on the best available data and were sensitive to the particular assumptions used. The information necessary to revise these estimates is not available as the latest data do not yet reflect the impact of lone parent obligations on the number of lone parents on out of work benefits.

Unemployment: Essex

Bob Spink: To ask the Secretary of State for Work and Pensions what steps her Department is taking to reduce levels of youth unemployment in *(a)* Essex and *(b)* Castle Point. [287501]

Jim Knight: The Government are committed to giving everyone the support they need to find employment as quickly as possible, whatever their age and wherever they live.

On 6 April 2009, as part of the Government's response to the economic downturn, the Department for Work and Pensions put in place extra support for newly unemployed customers, including information and advice about the latest job search techniques and coaching on how to make the most of transferable skills. Extra help for those who have been claiming jobseeker's allowance for six months was also introduced, including opportunities to volunteer, support to become self-employed, recruitment subsidies and work-focused training.

Since last autumn, the Department has also quadrupled the available funding for the Rapid Response Service, which provides advice and support to customers facing redundancy. It has extended Local Employment Partnerships, the Adviser Discretion Fund and Access to Work so they are available to customers from the first day of their claim, alongside the support they receive from their Jobcentre Plus personal adviser.

The introduction of the flexible new deal across phase 1 areas from October 2009 will give providers the freedom to offer personalised, tailored support to everyone who has been claiming jobseeker's allowance for 12 months, helping them overcome their individual barriers to work. We expect to introduce flexible new deal in phase 2 areas from October 2010.

This will be available to jobseeker's allowance customers of all ages, throughout England, Scotland and Wales, to ensure that everyone has the best possible chance of finding work.

Furthermore, from next year all customers aged 18-24 who are approaching 12 months of their claim to jobseeker's allowance will have access to the young person's guarantee. This will offer the following from January 2010:

1. A new job created through the Future Jobs Fund;
2. Support to move into an existing job in a key employment sector;
3. Work-focused training; or
4. A work experience place through the Community Task Force.

Some elements of the guarantee will be available sooner. In October of this year the first jobs created by the Future Jobs Fund will be available. Training to enter key employment sectors will be available in the autumn.

Unemployment: Young People

Derek Twigg: To ask the Secretary of State for Work and Pensions what recent representations her Department has received on youth unemployment; and what steps her Department is taking to reduce levels of youth unemployment in *(a)* England, *(b)* the North West, *(c)* Merseyside and *(d)* Cheshire. [284131]

Mike Penning: To ask the Secretary of State for Work and Pensions what recent representations her Department has received on youth unemployment; and what steps her Department is taking to reduce youth unemployment in *(a)* Hemel Hempstead, *(b)* Hertfordshire, *(c)* the South of England and *(d)* England. [284444]

Jim Knight: The Department receives representations on youth unemployment from a wide range of people.

The Department is committed to giving everyone the support they need to find employment as quickly as possible, whatever their age.

On 6 April 2009, as part of the Government's response to the economic downturn, the Department for Work and Pensions put in place extra support for newly unemployed customers, including information and advice about the latest job search techniques and coaching on how to make the most of transferable skills. Extra help for those who have been claiming jobseeker's allowance for six months was also introduced, including opportunities to volunteer, support to become self-employed, recruitment subsidies and work-focused training.

Since last autumn, the Department has also quadrupled the available funding for the Rapid Response Service, which provides advice and support to customers facing redundancy. It has extended Local Employment Partnerships, the Adviser Discretion Fund and Access

to Work so they are available to customers from the first day of their claim, alongside the support they receive from their Jobcentre Plus personal adviser.

The introduction of the Flexible New Deal across Phase 1 areas from this October will give providers the freedom to offer personalised, tailored support to everyone who has been claiming jobseeker's allowance for twelve months, helping them overcome their individual barriers to work. It is expected that Flexible New Deal will be introduced in Phase 2 areas from October 2010.

This will be available to jobseeker's allowance customers of all ages, throughout England, Scotland and Wales, to ensure that everyone has the best possible chance of finding work.

Furthermore, from next year all customers aged 18-24 who are approaching 12 months of their claim to jobseeker's allowance will have access to the Young Person's Guarantee. This will offer the following from January 2010:

A new job created through the Future Jobs Fund;

Support to move into an existing job in a key employment sector;

Work-focused training; or

A work experience place through the Community Task Force.

Some elements of the guarantee will be available sooner. In October of this year the first jobs created by the Future Jobs Fund will be available. Training to enter key employment sectors will be available in the autumn.

Waste Disposal: Safety

Robert Neill: To ask the Secretary of State for Work and Pensions whether the Health and Safety Executive has assessed the safety of household wheeled refuse containers in relation to deliberate fires. [288270]

Jonathan Shaw: The Health and Safety Executive has not assessed the safety of household refuse containers in relation to deliberate fires, and has no current plans to do so.

Work Experience

Mr. Burstow: To ask the Secretary of State for Work and Pensions if she will give job centres the discretion to vary the time and day on which a person is required to sign on to allow them to undertake an internship; and if she will make a statement. [288586]

Jim Knight: A customer claiming jobseeker's allowance is normally expected to attend (sign) each fortnight on their benefit week ending date, which is determined by their national insurance number. In circumstances where a customer cannot attend on their normal benefit week ending date, Jobcentres already have the discretion to allocate a different attendance day.

Where a person in receipt of jobseeker's allowance wants to undertake an internship and continue to receive jobseeker's allowance, they must comply with the conditions of entitlement. These conditions require the jobseeker not to be in remunerative work, and to be actively seeking and available for work of at least 40 hours per week. Jobseekers engaged in full-time work experience/internships will not usually be able to satisfy these conditions.

Additionally, jobseekers may be considered to be in remunerative work if the activities they do are for, on average, 16 hours or more per week and equivalent to that being undertaken by a paid employee. In such cases, regardless of whether they receive pay for the work they are doing, they would have no entitlement to jobseeker's allowance.

Changes are underway that will see graduates who have left university this year and are still unemployed after six months, being able to undertake an internship for up to 13 weeks and remain on benefits. This group will move off jobseeker's allowance and onto a training allowance and will not be required to attend every fortnight as a condition of payment.

Work Experience: Disabled

Mr. Harper: To ask the Secretary of State for Work and Pensions how many work trial placements her Department and its agencies have *(a)* offered to and *(b)* fulfilled for disabled people in each of the last three years. [285801]

Jonathan Shaw *[holding answer 13 July 2009]:* Work Trials are available to support the recruitment of employees under Local Employment Partnership arrangements. These are not specific to disabled people. No central records are kept by DWP businesses on when these are used and obtaining such information would be at a disproportionate cost.

Workstep

Paul Rowen: To ask the Secretary of State for Work and Pensions how many Workstep places were available in each region in *(a)* each of the last five years and *(b)* 2009. [284952]

Jonathan Shaw *[holding answer 7 July 2009]:* The information is in the following table.

The number of contracted Workstep places by region over the last five years, and preliminary allocations for 2009-10

	2004-05	2005-06	2006-07	2007-08	2008-09	2009-10
East Midlands	711	711	711	714	663	594
North East	435	435	561	560	467	389

Notes:

1. Figures are full-time equivalent rounded to the nearest whole figure.
2. Figures are an average, full-time equivalent for each year shown except the current year.
3. Figures for 2009-10 represent preliminary allocations. Additional places will be awarded to reflect local need and provider performance. Overall number of places will match 2008-09.
4. The 'Nationals' column represents providers who deliver support across the country.

Written Questions: Government Responses

Steve Webb: To ask the Secretary of State for Work and Pensions when she plans to reply to Question *(a)* 269292 and *(b)* 269293, tabled on 20 April 2009, on the state retirement pension. [281733]

Angela Eagle *[holding answer 22 June 2009]:* I replied to the hon. Member's questions on 23 June 2009, *Official Report*, column 817W.

Andrew Selous: To ask the Secretary of State for Work and Pensions when she plans to answer Question 283625, tabled on 2 July 2009, on claims for benefits relating to housing. [287734]

Helen Goodman *[holding answer 20 July 2009]:* I replied to the hon. Member's question on 15 July 2009, *Official Report*, column 427W.

Young People

Paul Rowen: To ask the Secretary of State for Work and Pensions when she expects her Department to achieve its public service agreement target in respect of people aged between 16 and 18 years old who are not in education, employment or training. [284029]

Mr. Iain Wright *[holding answer 3 July 2009]:* I have been asked to reply.

The Department's public service agreement target is to reduce the proportion of 16 to 18-year-olds not in education, employment or training (NEET) by 2 percentage points by the end of 2010, from a baseline of 9.6 per cent. at the end of 2004. The figures for 2010 are due to be published in June 2011.

Young Person's Guarantee

Mrs. May: To ask the Secretary of State for Work and Pensions (1) what funding arrangements have been put in place to enable her Department to transfer the Young Persons' Guarantee from a discretionary to mandatory basis; and if she will make a statement; [286626]

(2) if she will estimate the likely cost to her Department of making the Young Persons' Guarantee mandatory. [286741]

Mr. Clappison: To ask the Secretary of State for Work and Pensions when she plans to make the young persons guarantee mandatory. [288008]

Jim Knight: The 2009 Budget made £1.1 billion available to deliver the Future Jobs Fund and Young Person's Guarantee. Together they will create new jobs in areas of high unemployment and provide a guaranteed job, work placement or training place for the minority of young people aged between 18 and 24 who reach 12 months unemployment. From next year young people will be required to accept one of the guaranteed offers. This will be met from within the existing funding and there will be no additional costs.

Mrs. May: To ask the Secretary of State for Work and Pensions how many places the Government plans to provide under *(a)* the Future Jobs Fund, *(b)* support to take an existing job in a key employment sector, *(c)* work-focused training places and *(d)* places on a community task force to fulfil the Young Person's Guarantee in the period January 2010 to March 2011. [283578]

Mr. Harper: To ask the Secretary of State for Work and Pensions (1) how many *(a)* jobs from the Future Jobs Fund, *(b)* training places, *(c)* community task force places and *(d)* offers of support to take an existing job in a key employment sector will be provided in order to deliver the Young Persons' Guarantee in 2009-10; [285144]

(2) how many *(a)* jobs under the Future Jobs Fund, *(b)* training places, *(c)* community task force places and *(d)* offers of support to take an existing job in a key employment sector are required to enable the change in the Young Persons' Guarantee from a voluntary to a mandatory programme. [285145]

Jim Knight: The Future Jobs Fund aims to create 150,000 new jobs. Of this total, at least 100,000 will be created for young people. The remaining 50,000 will be allocated to unemployment hot spots—in these areas all individuals approaching 12 months or more on out of work benefits will be eligible for a Future Jobs Fund job.

We expect the work-focused training offer to support around 80,000 young people, including pre-employment training. The Community Task Force element of the offer will see young people participating in work placements to deliver real help to their community. This element is responsive to demand. In addition, Jobcentre Plus will work with growth sectors to help up to 100,000 young people access existing jobs in key employment sectors.

The Young Persons Guarantee will provide jobs and training opportunities to meet the terms of the guarantee in 2009-10 and 2010-11.

DWP does not forecast unemployment among young people, however, systems are in place to ensure that the Government will deliver on their commitment to provide sufficient jobs, training or community task force places to meet demand when the Young Person's Guarantee becomes mandatory.

OLYMPICS

Departmental Procurement

Lorely Burt: To ask the Minister for the Olympics what progress the Government Olympic Executive has made in implementing the recommendations of the Glover Report in its procurement processes. [287143]

Tessa Jowell: The Government Olympic Executive (GOE) is part of the Department for Culture, Media and Sport—reporting to me through the Permanent Secretary of the Department for Culture, Media and Sport. GOE procurement will therefore be included in the answer provided by the Secretary of State for Culture, Media and Sport.

Olympic Games 2012: Contracts

Lorely Burt: To ask the Minister for the Olympics what level of security clearance is required for applicants for contracts associated with the London 2012 Olympics; and how long on average it has taken each such applicant to obtain that clearance. [285688]

Tessa Jowell: Security clearance is not required from companies at the bidding stage; save for circumstances when the procurement is highly sensitive, for example, where only List X (Government security accreditation) companies could be invited to bid.

At the first stage of the tender process (pre-qualification questionnaire), the Olympic Delivery Authority (ODA) checks the company registration details, financial status and governance status.

Following procurement, all ODA contractors, as a minimum requirement, must provide the identity of their staff for checking in accordance with 'Basic Check - Annex B' as detailed within the Cabinet Office document Her Majesty's Government's (HMG) Baseline Personnel Security Standards. Clearance time is dependent on each contractor successfully providing the required information and records of such timings are not kept.

TREASURY

Business: Government Assistance

Geraldine Smith: To ask the Chancellor of the Exchequer what support his Department is providing to businesses during the economic downturn. [288436]

Ian Pearson: The Government have introduced a range of measures to support cash flow, credit and investment, to help businesses get through the recession.

This includes HMRC's Business Payment Support Service, which has allowed businesses to spread £3 billion of tax payments over a longer, timetable, and a temporary extension of the time that businesses can claim tax relief for trading losses from one to three years (for losses up to £50,000). Capital allowances have also been increased temporarily, meaning that all firms investing more than £50,000 this year will benefit from higher tax relief. In addition, the small companies rate of corporation tax will not increase this year and the threshold at which empty property becomes liable for business rates has been temporarily increased.

On 14 January 2009 the Business Secretary, Lord Mandelson, announced a package of measures including:

The Working Capital Scheme, which guarantees banks' portfolios of existing loans to businesses with turnover up to £500 million. Over £1 billion of guarantees have now been issued under this scheme;

The Enterprise Finance Guarantee Scheme, securing up to £1.3 billion of additional bank loans to small firms with a turnover of up to £25 million. Over 3,600 businesses have been offered loans totalling over £364.33 million;

A £75 million Capital for Enterprise Fund (£50 million from Government augmented by £25 million from the banks) to invest in small businesses which need equity; and

A Trade Credit Insurance Scheme to top-up cover if insurers reduce credit limits.

Business: Location

Mr. Amess: To ask the Chancellor of the Exchequer what estimate he has made of the number of companies which relocated their headquarters from the UK to countries outside the United Kingdom in the last 12 months; and if he will make a statement. [287822]

Mr. Timms: The Government are aware of a small number of British companies moving the tax residence of their parent company out of the UK over the last 12 months. Activity appears to have slowed since 2008, with only three groups moving in 2009.

The Government have committed to reforming the way in which the UK taxes foreign corporate profits. From the first of this month, a wide ranging dividend exemption was introduced which enhances the UK's competitive position, allowing companies, including UK headquarters, to bring profits back to the UK tax free.

The Government have also committed to reforming the controlled foreign company regime; these rules are often cited as a key reason for groups relocating. In consultation with business we aim to modernise the rules to enhance the UK's competitive position while protecting the UK tax base.

Child Benefit

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how many nationals of each A8 country were receiving child benefit for a child or children living in another EEA member state at the end of June 2009; and in respect of how many such children child benefit was being paid on that date. [288616]

Mr. Timms: Around 7.5 million families are currently claiming child benefit for around 13 million children. Out of that total, at the end of June 2009, there were 25,494 ongoing child benefit awards to A8 nationals recorded as receiving child benefit for 41,740 children living in another EEA member state. These awards are made by virtue of EC social security co-ordinating regulations which the UK has administered since it joined the European Economic Community in 1973.

The estimated breakdown by nationality is as follows.

Country	*Number of awards at 30 June 2009*	*Number of children included in awards*
Czech Republic	158	267
Estonia	16	28
Hungary	69	112
Latvia	252	330
Lithuania	721	1057
Poland	22,805	37,433
Slovakia	1,470	2,508
Slovenia	3	5
Total	25,494	41,740

Child Trust Fund: Yorkshire and the Humber

Jon Trickett: To ask the Chancellor of the Exchequer how many children in *(a)* Yorkshire and the Humber and *(b)* Hemsworth constituency had received child trust fund payments by the latest date for which figures are available. [288661]

Sarah McCarthy-Fry: I refer the hon. Member to the answer I gave to the hon. Member for City of York (Hugh Bayley) on 13 July 2009, *Official Report*, column 80W.

Consultants

Mr. Philip Hammond: To ask the Chancellor of the Exchequer pursuant to the answer of 24 April 2009, *Official Report*, column 983W, on consultants, for

which assignments his Department and its agencies have engaged external consultants in the last 12 months; and what the cost to his Department has been of each such assignment. [289099]

Sarah McCarthy-Fry: I refer the hon. Member to the answer given by the former Exchequer Secretary (Angela Eagle) on 24 April 2009, *Official Report*, column 983W to the hon. Member for Twickenham (Dr. Cable). The Treasury does not hold a central record of the individual assignments for which external consultants are engaged and the information could be provided only at disproportionate cost.

Contracts

Mrs. Spelman: To ask the Chancellor of the Exchequer what the monetary value is of the contracts awarded through OGCbuying. solutions to *(a)* Drivas Jonas, *(b)* GVA Grimley and *(c)* Lambert Smith Hampton for (i) negotiation of rating assessments and (ii) appeals against valuation assessments. [284931]

Ian Pearson: Buying Solutions does not hold the data requested.

Council Tax: Valuation Office Agency

Mrs. Spelman: To ask the Chancellor of the Exchequer whether a privacy impact assessment was undertaken in relation to the Valuation Office Agency's council tax banding support tool. [288978]

Mr. Timms: No. The tool was developed before privacy impact assessment became mandatory and the project posed no risk to the privacy of an individual.

Damian McBride

Mr. Maude: To ask the Chancellor of the Exchequer on what date he last met Mr. Damian McBride in the course of his official duties. [287903]

Sarah McCarthy-Fry: The Chancellor of the Exchequer has not met Damian McBride since he retired as a special adviser on 11 April 2009.

Departmental Ethnic Minority Staff

Andrew Rosindell: To ask the Chancellor of the Exchequer how many people from ethnic minority backgrounds are employed by his Department. [287946]

Sarah McCarthy-Fry: The Treasury Group reports on staff diversity annually in its departmental report, a copy of which is available in the Library of the House and on the Treasury's website.

Departmental Press

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what *(a)* newspapers and *(b)* periodicals are delivered to the private office of each Minister in his Department; and at what cost in the latest period for which figures are available. [279427]

Sarah McCarthy-Fry: The following list shows the newspapers and periodicals provided for Treasury Ministers in May 2009 at a cost of £923.39.

The Sun
Financial Times
Daily Telegraph
The Observer
Daily Record
The Economist
The New Statesman
Daily Mail
The Times
The Independent
Evening Standard
The Scotsman
Business Week
Daily Mirror
The Guardian
Daily Express
Herald International
Glasgow Herald
Private Eye

Departmental Procurement

Bob Spink: To ask the Chancellor of the Exchequer what changes have been made to his Department's *(a)* office equipment and *(b)* stationery purchasing policy in the last six months. [285319]

Sarah McCarthy-Fry: The Treasury has made no changes to its purchasing policies for office equipment or stationery in the last six months.

Drinking Water

Andrew Rosindell: To ask the Chancellor of the Exchequer (1) how much his Department spent on water coolers in each of the last six months; [287956]

(2) how much his Department spent on bottled water in each of the last six months. [287952]

Sarah McCarthy-Fry: For information on spending on bottled water, I refer the hon. Member to the answer given to him by the former Exchequer Secretary (Kitty Ussher) on 11 June 2009, *Official Report*, column 979W. The cost of water coolers for the 2008-09 financial year was £2,224, equating to £185 per calendar month.

Equality

Andrew Rosindell: To ask the Chancellor of the Exchequer what recent steps his Department has taken to increase levels of equality for employees in his Department. [287957]

Sarah McCarthy-Fry: The Treasury's Diversity Strategy 2009-11 was launched in the Department on 3 July 2009 and sets out what recent steps have been taken to increase equality, particularly in recruitment, performance management and talent management.

In addition to this work, the Treasury's current equality schemes, available on the Treasury's website, detail how the Department promotes equality of opportunity for all.

Equitable Life Assurance Society: Compensation

Mr. Burstow: To ask the Chancellor of the Exchequer pursuant to the answer of 11 March 2009, *Official Report*, column 420W, on Equitable Life, and the Oral Statement of 15 January 2009, *Official Report*, columns 377-80, if he will publish the estimate his Department made of the length of time it would take to make compensation payments as recommended by the Ombudsman; and if he will make a statement. [288635]

Mr. Byrne: The Government are committed to delivering justice to the policyholders of Equitable Life and to delivering an ex-gratia payments scheme that corrects the injustices which have been accepted by Government. They accept that speed is of the essence for establishing a payments scheme.

Sir John Chadwick has been commissioned by Government to provide advice on matters arising from its response to the ombudsman's report and findings of maladministration resulting from injustice that the Government have accepted. The Government would of course consider Sir John's advice once it is published and make ex-gratia payments to policyholders as it decides appropriate.

It is important that Sir John progresses with urgency, but that he also provides the right advice, especially in light of the enormous amount of information Sir John must go through.

I have today issued a written ministerial statement updating the House on the progress of Sir John's work. Both the Government and Sir John have committed to providing regular updates on progress.

Mr. Burstow: To ask the Chancellor of the Exchequer pursuant to the answer of 16 March 2009, *Official Report*, column 858W, on Equitable Life: compensation, when he expects the ex-gratia payment scheme for older people who have lost money with Equitable Life to commence; and if he will make a statement. [288640]

Mr. Byrne: The Government are committed to delivering justice to the policyholders of Equitable Life and to delivering an ex-gratia payments scheme that corrects the injustices which have been accepted by Government.

They have commissioned Sir John Chadwick to review available information and consider a number of issues in relation to determining relative losses suffered by Equitable Life policyholders, and their impact. Sir John's work will inform the establishment of an ex-gratia payments scheme.

Sir John is very aware of the need to reach a conclusion on this matter. It is important that he progresses his work with urgency, but that he also provides the right advice, especially in light of the enormous amounts of information that he must go through.

I have today issued a written ministerial statement updating the House on the progress of Sir John's work. Both the Government and Sir John have committed to providing regular updates on progress.

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer what the Government's long-term plans are for the compensation of those identified by the Parliamentary Ombudsman as having lost money with Equitable Life as a result of failure of the regulatory process. [288814]

Mr. Byrne: The Government are committed to delivering justice to the policyholders of Equitable Life and to delivering an ex-gratia payments scheme that corrects the injustices which have been accepted by Government.

They have commissioned Sir John Chadwick to provide advice on matters arising from its response to the ombudsman's report and findings of maladministration resulting from injustice which the Government have accepted. The Government would make careful consideration of Sir John's advice once it is published and make ex-gratia payments to policyholders as it decides appropriate.

Equitable Life Assurance Society: Coventry

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer what *(a)* financial and *(b)* other assistance his Department is providing to pensioners in Coventry who have lost money with Equitable Life. [288816]

Mr. Byrne: The Government are committed to delivering justice to the policyholders of Equitable Life and to delivering an ex-gratia payments scheme that corrects the injustices which have been accepted by Government.

They have commissioned Sir John Chadwick to review available information and consider a number of issues in relation to determining relative losses suffered by Equitable Life policyholders, and their impact. His work will inform the establishment of an ex-gratia payments scheme.

Both Sir John and the Government are very aware of the need to reach a conclusion on this matter and work is being progressed with expediency, but at this stage it is not possible to identify the nature of specific assistance that will be provided to specific groups of policyholders.

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer what steps his Department has taken in respect of those resident in Coventry who have lost money with Equitable Life. [288817]

Mr. Byrne: The Government are committed to delivering justice to the policyholders of Equitable Life and to delivering an ex-gratia payments scheme that corrects the injustices which have been accepted by Government.

They have commissioned Sir John Chadwick to review available information and consider a number of issues in relation to determining relative losses suffered by Equitable Life policyholders, and their impact. His work will inform the establishment of an ex-gratia payments scheme.

Both Sir John and the Government are very aware of the need to reach a conclusion on this matter and work is being progressed with expediency, but at this stage it is not possible to identify the nature of specific assistance that will be provided to specific groups of policyholders.

Equitable Life Assurance Society: Pensioners

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer what his most recent estimate is of the number of pensioners who have lost money in Equitable Life. [288815]

Mr. Byrne: The Government have commissioned Sir John Chadwick to review available information and consider a number of issues in relation to determining relative losses suffered by Equitable Life policyholders, and their impact.

Sir John is progressing his work with expediency and today, a written ministerial statement has been published outlining his progress.

On the issue of the number of pensioners who have lost money with Equitable Life, the Government are awaiting their Sir John Chadwick's advice to inform its view on this matter.

EU Grants and Loans: Wales

Hywel Williams: To ask the Chancellor of the Exchequer whether any change has been made to the overall block grant received by the Welsh Assembly Government as a result of monies received from the EU Convergence Programme in each year from 2007 to date; and whether any such change is likely to be made in each year from 2010-13. [287266]

Mr. Byrne: No change was made to the block grant as a result of monies received from the EU Convergence Programme from 2007 and no changes are expected. Monies received from the EU Convergence Programme are additional to the block grant received by the Welsh Assembly Government from the UK Government.

Financial Action Task Force

Nick Ainger: To ask the Chancellor of the Exchequer what progress is being made by the Financial Action Task Force of the Organisation for Economic Co-operation and Development in its work on effective due diligence by banks and the ending of secrecy on beneficial ownership of companies and trusts; and if he will make a statement. [288331]

Sarah McCarthy-Fry: The Financial Action Task Force (FATF) has issued 40+9 recommendations on the prevention of money laundering and terrorist financing. These require countries to ensure that banks conduct due diligence on their customers, and that the beneficial ownership information of companies and trusts is collected and accessible to competent authorities. The FATF is currently preparing for its fourth round of assessment of countries against the standards, which will focus on how effectively the measures work in practice.

Financial Services Authority

Nick Ainger: To ask the Chancellor of the Exchequer (1) what steps the Financial Services Authority is taking to ensure that UK-regulated banks are compliant with requirements on due diligence to prevent funds from corrupt sources entering the UK; [288332]

(2) what powers the Financial Services Authority has in respect of UK-regulated banks in the event of their failure to carry out effective due diligence on the source of funds in accounts which they administer. [288333]

Sarah McCarthy-Fry: Under the Money Laundering Regulations 2007, a UK-authorised bank is required to undertake enhanced customer due diligence checks, including taking adequate measures to establish the source of wealth and source of funds, where it deals with a politically exposed person. It is also required to undertake enhanced ongoing monitoring. A politically exposed person is an individual who may be more vulnerable to corruption.

The Financial Services Authority (FSA) is the supervisory authority for banks. It is required to effectively monitor those banks and take the necessary measures to ensure they comply with the Money Laundering Regulations. It meets this obligation by assessing risks in individual firms, and risks that impact across a range of firms within a particular market or industry sector.

The FSA has both criminal and civil sanctions to address breaches of the Money Laundering Regulations. The Money Laundering Regulations add to the range of options available to the FSA under the Financial Services and Markets Act for dealing with anti-money laundering failures.

Financial Services Authority: Manpower

Mr. Hurd: To ask the Chancellor of the Exchequer how many permanent staff at the Financial Services Authority *(a)* hot desk and *(b)* do not have permanently allocated desks. [288669]

Sarah McCarthy-Fry: The matter raised in this question is the responsibility of the Financial Services Authority (FSA), whose day to day operations are independent from Government control and influence.

Financial Services: Regulation

Andrew Rosindell: To ask the Chancellor of the Exchequer what recent assessment he has made of the performance of the tripartite regulatory regime in relation to the regulation of banks. [287945]

Sarah McCarthy-Fry: Banking regulation is conducted by the Financial Services Authority, the independent financial regulator. As is the case in every developed economy, responsibility for financial stability in the UK is shared between the financial regulator, the central bank and the finance and economics ministry. The Government have recently published "Reforming financial markets" which includes proposals to formalise the structures, and increase the transparency, of co-operation between the FSA, the Bank of England and the Treasury.

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer what steps his Department has taken in strengthen the regulation of the financial services sector in the last 12 months. [288818]

Sarah McCarthy-Fry: "Reforming financial markets", which sets out the Government's strategy for strengthening the regulation of financial services, including actions taken to date, was published on 8 July.

Fuel: Prices

Mr. Carmichael: To ask the Chancellor of the Exchequer whether he has taken steps to identify possible locations for a pilot scheme for reduced fuel prices in island communities. [288783]

Sarah McCarthy-Fry: I refer the hon. Member to the answer given by the Parliamentary Under-Secretary of State for Scotland on 20 July 2009, *Official Report*, column 767W.

Government Departments: Aviation

Mr. Maude: To ask the Chancellor of the Exchequer pursuant to the answer of 24 April 2009, *Official Report*, column 985W, on Government departments: aviation, whether the Government Air Programme includes flights by *(a)* Foreign and Commonwealth Office staff, *(b)* Ministry of Defence civilian staff, *(c)* members of the armed forces and *(d)* Department for International Development staff. [287289]

Ian Pearson: The Government air programme does include flights by Foreign and Commonwealth Office and Department for International Development staff. It does not include Ministry of Defence civilian staff or armed forces.

Mr. Maude: To ask the Chancellor of the Exchequer pursuant to the answer of 24 April 2009, *Official Report*, column 985W, on Government departments: aviation, what the estimated expenditure on domestic flights is of each year of the Government Air Programme contract. [287290]

Ian Pearson: Historic data suggest that 22 per cent. of the air spend relates to domestic flights. Using the estimated £69.6 million per annum applying to the Government air programme this would equate to an estimated £15.3 million per annum.

Mr. Hurd: To ask the Chancellor of the Exchequer pursuant to the answer to the right hon. Member for Horsham of 24 April 2009, *Official Report*, column 985W, on government departments: aviation, whether the Government Air Programme will encompass domestic and international air travel by officials from *(a)* central government departments, *(b)* executive agencies and *(c)* non-departmental public bodies. [289049]

Sarah McCarthy-Fry: The Government Air Programme enables domestic and international air travel by officials from central Government Departments, Executive agencies and non-departmental public bodies.

Infrastructure UK: Finance

Robert Neill: To ask the Chancellor of the Exchequer what the planned budget is for the new Infrastructure UK advisory body. [288301]

Mr. Byrne: Building Britain's Future announced that Lord Davies of Abersoch would lead the development of Infrastructure UK. He will consider the appropriate terms of reference for Infrastructure UK and will report to the Prime Minister, Chancellor and the First Secretary of State at the pre-Budget report. The resource required for Infrastructure UK will be decided once these details have been considered fully.

Lloyds Banking Group: Islamic Bank of Britain

Jo Swinson: To ask the Chancellor of the Exchequer whether officials of his Department have had recent discussions with representatives of Lloyds Banking Group on its decision to order the Islamic Bank of Britain to cease processing payments for Interpal. [288313]

Sarah McCarthy-Fry *[holding answer 20 July 2009]:* The Treasury has regular discussions with the banking sector on financial crime and financial sanctions issues. This includes ongoing discussions about the provision of banking services to individuals or entities who are on UK, US or international sanctions lists.

Local Authorities: Fees and Charges

Mrs. Spelman: To ask the Chancellor of the Exchequer whether local authority search fees are liable for value added tax. [288977]

Mr. Timms: When a local authority provides a person with access to its registers and databases in order to undertake property searches, that is a statutory activity and so is free of VAT.

However, where a local authority compiles the information it holds and provides that in return for payment, that service is subject to VAT.

Meat: Procurement

David Taylor: To ask the Chancellor of the Exchequer (1) if he will instruct the Office of Government Commerce to classify halal meat to a category 1 food for the purposes of public procurement; [287721]

(2) what guidance the Office of Government Commerce provides to the public sector on procuring *(a)* pre-stunned and *(b)* non-stunned halal meat. [287724]

Ian Pearson *[holding answers 20 July 2009]:* The purpose of the Food Quality Standards published by the OGC is to provide guidance for suppliers on the general quality of products sought in food procurements undertaken by all public sector authorities. In the Standards, matters relating to food policy have been provided by DEFRA, those related to food safety provided by the Food Standards Agency. The Standards are not to be considered as a series of product specifications but as a guide to the minimum quality criteria that authorities may include in their specifications and will expect the contractor to deliver.

Mandatory requirements, for example around food safety, are contained in legislation rather than in the Standards. There are no mandatory requirements around quality assurance.

The Standards state, however, that contractors should ensure that wherever possible the supply of all raw food should originate from sources participating in recognised national or international assurance schemes or equivalent standards where such schemes exist.

For raw food products (other than fish) contractors should supply to the authority unprocessed commodities, lightly processed foods and drinks, and composite products, produced in accordance with one or more of four categories.

Category 1 denotes food produced in accordance with relevant parts of Standards such as Red Tractor, Food Assurance Scheme or equivalent Standard or, in the case of eggs in their shells, the Lion Quality Mark or equivalent. The procurement of food using alternative schemes shall be subject to prior approval by the authority.

The Standards do not contain specific guidance on Halal foods other than to state that ethnic food products must be sourced, prepared, processed and packed in accordance with the specific requirements of the religious law, where these apply eg Halal or Kosher foods. The assurance schemes in category 1 can be applied to Halal meat as to other products.

Members: Correspondence

Mr. Howard: To ask the Chancellor of the Exchequer when he plans to reply to the letters dated 3 March, 28 May and 15 June 2009 from the right hon. and learned Member for Folkestone and Hythe, with regard to Mr. Bernard Lockett. [287042]

Sarah McCarthy-Fry: A reply has been sent to the right hon. and learned Member.

Sir John Stanley: To ask the Chancellor of the Exchequer when he will reply to the letters sent to him by the right hon. Member for Tonbridge and Malling on 12 November 2008 and 13 February 2009 on behalf of his constituents Mr. and Mrs. Patrick Miller. [288035]

Sarah McCarthy-Fry: A reply has been sent to the hon. Member.

Mortgages

Grant Shapps: To ask the Chancellor of the Exchequer (1) whether he plans to take further steps in co-operation with the mortgage insurance industry to assist first-time buyers to gain access to mortgage finance; [283904]

(2) if he will take further steps to assist first-time buyers to gain access to mortgage finance; [283905]

(3) which of the banks in which the Government has purchased a shareholding provide mortgage finance for purchases under the *(a)* HomeBuy Direct, *(b)* OwnHome, *(c)* OpenMarket HomeBuy, *(d)* the First-time Buyers' Initiative, *(e)* MyChoice HomeBuy, *(f)* New Build HomeBuy, *(g)* Social HomeBuy and *(h)* Rent to HomeBuy schemes. [284698]

Sarah McCarthy-Fry: The Government's key objective for housing is to ensure everyone has access to a decent home at a price they can afford. The Government remain committed to the delivery of affordable housing, including through both shared equity and shared ownership schemes. Since 1997 the Government have helped more than 110,000 households into low cost homeownership through shared ownership and shared equity.

Decisions concerning whether to engage in lending to support shared equity of shared ownership remain commercial decisions for firms. Where there is public sector investment in financial institutions these stakes will be managed on an arm's length and independent basis by UK Financial Investments Ltd.

Mr. Burstow: To ask the Chancellor of the Exchequer what representations he has received on the effect on the availability of mortgages of deferring mortgage applications to an underwriter; and if he will make a statement. [288639]

Sarah McCarthy-Fry: Treasury Ministers and officials receive representations from a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery. As was the case with previous administrations, it is not the Government's practice to provide details of all such representations.

Property

Sarah Teather: To ask the Chancellor of the Exchequer what estimate he has made of the *(a)* proportion and *(b)* monetary value of UK property which is held offshore by investment funds or limited partnerships. [287513]

Sarah McCarthy-Fry: The information requested is not available.

Property Unit Trusts

Sarah Teather: To ask the Chancellor of the Exchequer how many authorised property units trusts there are; and what types of property they are allowed to invest in. [287515]

Sarah McCarthy-Fry: Information on authorised unit trusts, including those that invest in property, is available from the Financial Services Authority. Details on the types of assets that authorised funds can invest in are also available via the FSA.

Sarah Teather: To ask the Chancellor of the Exchequer what estimate he has made of the cost to the public purse of exempting authorised property unit trusts exempt from corporation tax in 2010-11. [287522]

Sarah McCarthy-Fry: No estimate is available for the amount of corporation tax paid by property unit trusts.

Since April 2008, following extensive consultation with industry, the Government introduced the Property Authorised Investment Fund regime, which enables tax efficient investment for funds that wish to invest predominately in property income generating assets. Subject to certain conditions being met, investors are taxed as if they had owned the underlying assets directly.

Public Bodies: Reviews

Mr. Hurd: To ask the Chancellor of the Exchequer what the terms of reference are of his Department's review of public bodies. [288670]

Mr. Byrne: On 3 July 2009 I announced that a review of arm's length bodies would be taken forward as part of the Public Value Programme. Discussions with colleagues

are ongoing to agree the scope of the review. The pre-Budget report will provide a progress report on the Public Value Programme.

Public Expenditure

Robert Neill: To ask the Chancellor of the Exchequer what financial transfers are being made from the budget of each other Government department to the Department for Communities and Local Government to fund the housing expenditure announced in the 2009 Draft Legislative Programme; and what programmes in each department are having reductions in their funding to meet that expenditure. [286682]

Mr. Byrne: The departmental contributions towards the housing expenditure announced in the 2009 draft legislative programme will come from a mixture of reprioritisation, efficient programme management and anticipated underspends. Up to £930 million will be contributed from the following sources:

£350 million from the Department for Transport;

£100 million from the Department for Children, Schools and Families;

£90 million from the Home Office;

£50 million from the Department for Business, Innovation and Skills;

£340 million of anticipated capital underspends in the Department of Health, Department for Children, Schools and Families, and the Department for Communities and Local Government.

The remaining £586 million will be provided by the Department for Communities and Local Government.

Public Sector: Hospitality

Mr. Maude: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2009, *Official Report*, column 1187W, on public sector: hospitality, how many visits each customer department booked through the Expotel contract in the most recent year for which figures are available; and what expenditure each customer department incurred in relation to such visits. [269938]

Ian Pearson: As previously stated, Buying solutions only holds summary data for the framework, that is aggregate data for all public sector organisations. Data are not held centrally for the 182 individual public sector bodies that use the framework. Obtaining such a breakdown could be done only at disproportionate cost and I apologise for the delay in responding.

Public Sector: Pensions

Mr. Maude: To ask the Chancellor of the Exchequer what his most recent estimate is of the size of public sector pension liabilities. [270260]

Mr. Philip Hammond: To ask the Chancellor of the Exchequer (1) what his most recent estimate is of the service cost of all unfunded public sector pension schemes for *(a)* 2006-07 and *(b)* 2007-08; [271171]

(2) when he plans to answer Question 271171, tabled on 24 April 2009, on unfunded public sector pension schemes. [282337]

Mr. Byrne: The total liability of all pay as you go public service occupational pension schemes will be published in the Long Term Public Finance Report later this year and will include the current service costs of these schemes.

Public Services: Finance

Hywel Williams: To ask the Chancellor of the Exchequer pursuant to the answer of 14 July 2009, *Official Report*, column 362W, on public services: finance, if he will publish his Department's 1994 Needs Assessment for Scotland, Wales and Northern Ireland. [288502]

Mr. Byrne *[holding answer 20 July 2009]:* Today I am placing copies of the internal updates to the 1979 Needs Assessments for Scotland, Wales and Northern Ireland produced by the Treasury in 1994 in the Library of the House.

Real Estate Investments Trusts

Sarah Teather: To ask the Chancellor of the Exchequer how many commercial Real Estate Investments Trusts have been established; and what effect their establishment has had on levels of receipts of the Exchequer. [287512]

Sarah McCarthy-Fry: Around 20 UK Real Estate Investments Trusts have been established. It is too early to assess the full effect of their establishment on the Exchequer.

Revenue and Customs: Chorley

Mr. Hoyle: To ask the Chancellor of the Exchequer how many cases have been processed by the HM Revenue and Customs office in Chorley in each of the last four months. [285573]

Mr. Timms: HM Revenue and Customs processing staff based in Chorley have completed the following work in the last four months (March to June):

Capture of 1,225 SA Tax Returns

(847 in March, 378 in April)

Replied to 1,391 items of Customer Correspondence

(829 in March, 323 in April, 128 in May, 111 in June)

Dealt with 15,940 forms from Employers

(3,473 in March, 2,912 in April, 5,244 in May, 4,311 in June)

Dealt with 8,896 miscellaneous processing items such as worklist entries

(2,022 in March, 2,063 in April, 2,772 in May, 2,039 in June)

Revenue and Customs: Pay

Bob Spink: To ask the Chancellor of the Exchequer (1) how much was paid in bonuses to *(a)* directors, *(b)* senior managers, *(c)* specialist and delivery managers and *(d)* executive support and administration staff in HM Revenue and Customs in each of the last five years; [280618]

(2) how much was paid in bonuses to *(a)* administration assistants, *(b)* assistant officers, *(c)* officers, *(d)* higher officers, *(e)* senior officers, *(f)* fast stream trainees, *(g)* Grade 7 employees, *(h)* Grade 6

employees and *(i)* senior civil servants in each HM Revenue and Customs office in each of the last five years. [286395]

Mr. Timms: Information on bonuses paid by job role in not available.

In 2007-08 bonus payments were made to top performers and good performers on the pay band range maximum, as they had received a lower consolidated pay award.

In 2008-09 bonuses were paid only to top performers. The amounts paid out by HMRC were as follows:

	Total bonus paid (rounded to nearest £000)		*Staff in post*	
	2007-08	*2008-09*	*April 2008*	*April 2009*
Admin Assistant	1,423,000	467,000	12,640	11,005
Admin Officer	4,500,000	1,736,000	37,187	37,113
Officer	4,764,000	2,421,000	22,164	21,591
Higher Officer	3,013,000	1,830,000	10,501	10,410
Senior Officer	1,603,000	1,096,000	3,919	4,089
Fast Stream	77,000	46,000	617	491
Grade 7	830,000	754,000	2,387	2,556
Grade 6	633,000	653,000	1,153	1,213
Senior Civil Service	2,213,000	2,552,000	393	407
Total	19,056,000	11,555,000	90,961	88,875

Providing details of bonuses paid split by grade and by office could jeopardise staff confidentiality. The small number of staff in some of the local offices means that when the bonus figures are combined with post numbers it is possible to identify individual bonus payments.

We have provided a split of total bonus payments by office for the years above. This detail has been deposited in the Library of the House. For confidentiality reasons, total bonuses for those offices with less than 20 staff have not been included.

HMRC does not hold the required data for earlier years in an easily accessible format and the information requested could be provided only at disproportionate cost.

Scotland

Mrs. Spelman: To ask the Chancellor of the Exchequer what arrangements *(a)* his Department and *(b)* the Public Works Loan Board made with the Scottish Executive in relation to housing debt of those local authorities in Scotland which (a) undertook stock transfer prior to devolution and (b) have undertaken such transfers after devolution. [288976]

Sarah McCarthy-Fry: The Government operate similar financial arrangements on stock transfers in Scotland as in England. The policy on stock transfers is a devolved matter. However where stock transfers from local authorities to housing associations give rise to receipts which are insufficient to cover the debt, the Government have made available additional provision to the Scottish Executive to cover the overhanging debt repaid by the relevant Scottish local authorities to the Public Works Loan Board. These arrangements did not exist prior to devolution in either England or Scotland.

Shared Ownership Schemes

Dan Rogerson: To ask the Chancellor of the Exchequer what guidance *(a)* his Department and *(b)* the Financial Services Authority has issued on the level of cash deposit lenders when granting mortgages for those participating in shared ownership schemes. [281697]

Sarah McCarthy-Fry: Decisions concerning whether and on what terms to engage in lending to support shared ownership remain commercial decisions for firms.

The Government remain committed to the delivery of affordable housing, including through both shared equity and shared ownership schemes.

Dan Rogerson: To ask the Chancellor of the Exchequer if he will make an assessment of the merits of introducing *(a)* a loan guarantee scheme and *(b)* direct lending from banks wholly or partly in public ownership for first-time buyers to participate in shared ownership schemes. [284411]

Sarah McCarthy-Fry: The Government's key objective for housing is to ensure everyone has access to a decent home at a price they can afford. The Government remain committed to the delivery of affordable housing, including through both shared equity and shared ownership schemes. Since 1997 the Government have helped more than 110,000 households into low cost homeownership through shared ownership and shared equity.

Decisions concerning whether to engage in lending to support shared equity of shared ownership remain commercial decisions for firms. Where there is public sector investment in financial institutions these stakes will be managed on an arm's length and independent basis by UK Financial Investments Ltd.

Valuation Office

Mrs. Spelman: To ask the Chancellor of the Exchequer with reference to the answer of 15 June 2007, *Official Report*, column 1422W, on the Valuation Office Agency, and to the decision of the Government to publish the ID Card Gateway Reviews, if he will place in the Library a copy of the Gate 4 review of the Valuations Project. [270670]

Ian Pearson: A copy of the review, with appropriate redactions, has been placed in the Library.

VAT: Registration

Danny Alexander: To ask the Chancellor of the Exchequer how many applications for value added tax registration submitted in the last 12 months took over *(a)* one week, *(b)* two weeks, *(c)* three weeks, *(d)* four weeks, *(e)* five weeks, *(f)* six weeks, *(g)* seven weeks, *(h)* eight weeks, *(i)* nine weeks, *(j)* 10 weeks, *(k)* 11 weeks and *(l)* 12 weeks to clear. [288556]

Mr. Timms: HM Revenue and Customs does not collect data at the level of detail requested.

HMRC departmental strategic objective is to process 70 per cent. of applications within 12 days (reduced from 13 days in 2008-09) allowing for 30 per cent. that require further work before they can be processed because they are incomplete or need further risk checks.

In 2008-09 HMRC achieved an overall performance of 74.9 per cent. against the 13-day target and for April and May 2009 72 per cent. and 70.4 per cent. against the 12-day target. HMRC has seen a significant increase in the number of cases requiring further risk checks which take longer to process, and this has impacted on June's performance which is 69.0 per cent.

VAT: Tax Rates and Bands

Jo Swinson: To ask the Chancellor of the Exchequer what assessment he has made of the merits of postponing the reversion of the rate of value added tax to 17.5 per cent. until after the January 2010 sales period. [288626]

Mr. Timms: The Government recognise that changing the rate at this time will be challenging for some businesses and have considered the representations businesses have made very carefully. The decision to reconfirm the 1 January reversion date that was announced last November has not been taken lightly. We have had to balance the needs of the economy as a whole against the challenges for businesses. Deferring the change by a month, as some have suggested, would have cost a further £800 million.

By confirming the date for the end of the rate change in Finance Bill, businesses have a long lead time over which to plan for the change. HMRC will continue to talk to businesses with a view to identifying satisfactory arrangements for any particularly awkward cases.

Welfare Tax Credit: Bexley

Mr. Evennett: To ask the Chancellor of the Exchequer how many households in Bexleyheath and Crayford constituency were in receipt of *(a)* working tax credit and *(b)* child tax credit in the last 12 month period for which figures are available. [288774]

Mr. Timms: The latest estimates of the average number of families benefiting from child and working tax credits awards, based on final family circumstances and incomes, are available in the HMRC publication, "Child and Working Tax Credits Statistics Finalised Annual Awards Geographical Analyses" for 2007-08. The publication is available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm

HMRC do not produce these statistics separately for child tax credit and working tax credit.

Welfare Tax Credit: Hemsworth

Jon Trickett: To ask the Chancellor of the Exchequer (1) how many people in Hemsworth constituency are receiving *(a)* child and *(b)* working tax credit; and what the average monetary value of tax credits to those households was in the latest period for which figures are available; [288666]

(2) how many families in Hemsworth constituency have received working families tax credit since its inception. [288787]

Mr. Timms: Working families tax credit was replaced by child tax credit and working tax credit in April 2003.

Estimates of the number of recipient families of working families tax credit, by parliamentary constituency, are given in the HM Revenue and Customs (HMRC) quarterly publication 'Working Families' and Disabled Person's Tax Credit Statistics Geographical analyses' for the quarters ended May 2001 to November 2002. The publications are available on the HMRC website at

http://www.hmrc.gov.uk/stats/wftc/wfdptc_geog.htm

The latest information on the number of recipient families of Child and Working Tax Credits, by parliamentary constituency, is given in the HMRC snapshot publication, 'Child and Working Tax Credits Statistics Geographical Analyses April 2009'.

The latest estimates of the average annual entitlements by each parliamentary constituency, based on incomes and final family circumstances, are shown in the HMRC publication 'Child and Working Tax Credits Statistics Finalised annual awards Geographical Analyses' for 2007-08.

These publications are available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm

HMRC do not produce these statistics separately for child tax credit and working tax credit.

Welfare Tax Credit: Overpayments

Mr. Evennett: To ask the Chancellor of the Exchequer how many households in Bexleyheath and Crayford constituency were overpaid *(a)* working tax credit and *(b)* child tax credit in the last 12 month period for which figures are available. [288773]

Mr. Timms: The information requested is available only at disproportionate cost.

However, estimates of the number of tax credits overpayments by parliamentary constituency, are available in the HMRC publication, "Child and Working Tax Credits Statistics Finalised annual awards Supplement on payments Geographical Analyses" for 2007-08. This publication is available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm

Working Tax Credit

Mr. Greg Knight: To ask the Chancellor of the Exchequer what estimate his Department has made of the number of people who had their eligibility for tax credits removed as a result of failing to submit a renewal claim by 31 July in the last three years for which figures are available. [287942]

Mr. Timms: The information is not available.

The following table shows the number of tax credit claims ended and the number restored during each of the last three years.

During year	*Total number of claims ended*	*Total number of claims restored*
2006-07	283,533	121,427
2007-08	433,420	223,165
2008-09	465,305	214,556

Ms Buck: To ask the Chancellor of the Exchequer how many households with children are in receipt of working tax credit in each local authority area. [288334]

Mr. Timms: Estimates of the average number of families with children benefiting from working tax credit by country, region and local authority are given in the HM Revenue and Customs (HMRC) finalised awards geographical publication, "Child and Working Tax Credits statistics Finalised annual awards Geographical analyses" for 2007-08. The publication is available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm

NORTHERN IRELAND

Departmental Accountancy

Steve Webb: To ask the Secretary of State for Northern Ireland when he expects to publish his Department's resource accounts for 2008-09. [287329]

Mr. Woodward: The Northern Ireland Office resource accounts for 2008-09 have been laid in Parliament on 15 July 2009 in time for the summer recess. The printed and bound version will be made available within four weeks of 15 July 2009.

Departmental Carbon Emissions

Mr. Paterson: To ask the Secretary of State for Northern Ireland how much his Department spent on offsetting its carbon dioxide emissions in each of the last five years. [287482]

Mr. Woodward: The Northern Ireland Office (NIO) has participated in stage one of the Government Carbon Offsetting Fund (GCOF) from 2006 to meet a Prime Ministerial commitment to offset ministerial and official air travel.

GCOF works by requiring individual Government Departments to provide payments to offset relevant emissions.

Payments to GCOF by the NIO, including the Public Prosecution Service Northern Ireland, and excluding its agencies and NDPBs in each of the last five years is shown in the following table.

	£
2008-09	6,447.91
2007-08	6,338.83
2006-07	11,384.56
2005-06	0
2004-05	0

Departmental Conditions of Employment

Lynne Featherstone: To ask the Secretary of State for Northern Ireland what percentage of employees in his Department are on a *(a)* flexible working contract and *(b)* job share employment contract. [287095]

Paul Goggins: Within the Northern Ireland Office staff are expected to work conditioned hours, however there is a considerable amount of flexibility in the way staff are permitted to work. Flexible working time (that is, a flexible start and finish each day) is available to the majority of staff where operational/business needs permit.

In line with The Employment (NI) Order 2002 the Northern Ireland Office has processes in place to allow staff to request flexible working hours to enable them to balance their family and employment responsibilities.

The following table shows the percentage of staff, in the Northern Ireland Office and its agencies, on a flexible working contract (reduced hours, term time full-time and term time part-time) or job share employment contract at 1 June 2009.

	Staff on a flexible working contract
Total number of employees	2,143
Percentage of staff on flexible working contract	12.7
Percentage of staff on job share contract	0.7

Departmental Flags

Mr. Paterson: To ask the Secretary of State for Northern Ireland how much his Department spent on *(a)* purchasing and *(b)* maintaining flags in each of the last five years. [287486]

Mr. Woodward: The Northern Ireland Office, including the Public Prosecution Service Northern Ireland, and excluding its agencies and NDPBs has had no expenditure on *(a)* purchasing and *(b)* maintaining flags in each of the last five years.

Departmental Furniture

Mr. Paterson: To ask the Secretary of State for Northern Ireland how much his Department spent on furniture in each of the last five years. [287479]

Paul Goggins: Expenditure on furniture in the last five years by the Northern Ireland Office, including the Public Prosecution Service Northern Ireland but excluding its Agencies and Executive NDPBs is shown in the following table:

	£
2004-05	200,540
2005-06	188,670
2006-07	325,440
2007-08	339,774
2008-09	233,359

The Northern Ireland Office procures furniture across a number of sites which are mainly located in Belfast and London. This furniture is required to facilitate staff in providing a quality service and the expenditure has

been incurred in accordance with the principles of Managing Public Money and the Treasury handbook on Regularity and Propriety.

Departmental Operating Costs

Sammy Wilson: To ask the Secretary of State for Northern Ireland what estimate he has made of the running costs associated with his Department's Northern Ireland Information Service in each of the last five years. [286424]

Paul Goggins: The following table shows the running costs associated with the Northern Ireland Information Service in each of the last five years.

	Running costs (£)
2008-09	2,264,937
2007-08	1,580,513
2006-07	2,337,542
2005-06	1,771,136
2004-05	2,117,072

Departmental Responsibilities

Mr. Crabb: To ask the Secretary of State for Northern Ireland what the executive functions of his Department are. [288644]

Paul Goggins: Following the restoration of the Northern Ireland Assembly on 8 May 2007, the Northern Ireland Office retains responsibility for a range of the reserved and excepted policy matters set out in Schedules 2 and 3 of the Northern Ireland Act 1998 and for executive functions within these areas.

Departmental Training

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many staff away days his Department *(a)* held in 2008-09 and *(b)* plans to hold in 2009-10. [287483]

Paul Goggins: In 2008-09 the Department held 15 development events for staff. Two events have taken place in 2009-10. Currently there are no other events planned for 2009 but further events would be organised if there is a business need.

Departmental Travel

Grant Shapps: To ask the Secretary of State for Northern Ireland how much his Department spent on tickets for *(a)* air and *(b)* rail travel for (i) Ministers, (ii) special advisers and (iii) civil servants in his Department which were not used in each of the last three years. [280009]

Mr. Woodward: Details of rail and flight costs for 2008-09 are set out in the following tables. Information for earlier years could be gathered only at disproportionate cost.

Travel costs 2008-09

£

	Rail	*Flight*
Ministers	0	287.87
Special advisers	0	0
Staff	42.00	7,392.22

Where practical, staff in my Department book fully flexible and refundable tickets so as to reduce the cost of travel that is unavoidably cancelled.

Driving Offences: Insurance

Mr. Paterson: To ask the Secretary of State for Northern Ireland what his estimate is of the number of uninsured vehicles in Northern Ireland. [287491]

Paul Goggins: I have made no such assessment. Regulations regarding the insurance requirements for vehicles are a matter for the Northern Ireland Administration.

Economic Situation

Mr. Paterson: To ask the Secretary of State for Northern Ireland what recent discussions he has had with the First Minister and the Deputy First Minister on the effects of the recession on Northern Ireland. [287475]

Mr. Woodward: I have regular discussions with the First and Deputy First Minister on a range of issues relating to the economy in Northern Ireland.

Energy Supply

Mr. Paterson: To ask the Secretary of State for Northern Ireland what recent discussions he has had with *(a)* ministerial colleagues and *(b)* the Northern Ireland Executive on the security of energy supply across the border with the Republic of Ireland. [287563]

Paul Goggins: Energy supply in Northern Ireland is a devolved matter and is the responsibility of the Northern Ireland Minister for Enterprise, Trade and Investment. Energy supply and security has also been discussed at recent summit meetings of the British-Irish Council, attended by representatives of both the Government and the Northern Ireland Executive.

Fire and Ambulance Services

Mr. Paterson: To ask the Secretary of State for Northern Ireland (1) how many fire engines in Northern Ireland were *(a)* damaged and *(b)* taken out of service due to criminal acts in each month of the last five years; and at what cost to the public purse; [287658]

(2) how many ambulances in Northern Ireland were *(a)* damaged and *(b)* taken out of service due to criminal acts in each month of the last five years; and at what cost. [287659]

Paul Goggins: These are matters that are the responsibility of the Northern Ireland Administration.

Fire Services: Crimes of Violence

Mr. Paterson: To ask the Secretary of State for Northern Ireland what steps are being taken to protect fire service crews in Northern Ireland from attacks whilst on duty. [287608]

Paul Goggins: The safety of fire service crew is the responsibility of the fire and rescue service of Northern Ireland and is a matter for the Northern Ireland Administration.

Glasgow

John Mason: To ask the Secretary of State for Northern Ireland whether he plans to visit Glasgow on official business during the summer adjournment. [288933]

Mr. Woodward: I have no plans to visit Glasgow on official business during the summer adjournment.

Police Service of Northern Ireland: Firearms

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many complaints were made against Police Service of Northern Ireland officers relating to their use of firearms in the last five years. [287667]

Paul Goggins: Dealing with such complaints is the operational responsibility of the Office of the Police Ombudsman for Northern Ireland. I have asked the chief executive to reply to the hon. Member directly, and will arrange for a copy of the letter to be placed in the Library of the House.

Police Service of Northern Ireland: Reserve Forces

Mr. Paterson: To ask the Secretary of State for Northern Ireland what recent discussions he has had with the Police Federation for Northern Ireland on the full-time police reserve. [287607]

Paul Goggins: The Secretary of State has met representatives of the Police Federation twice in the last six months to hear directly their views on areas of interest to their members, including their concerns about the continuing programme of phasing out of the Full-Time Reserve. The Federation is also in regular contact with officials, including at the quarterly meetings of the Police Advisory Board for Northern Ireland, at which the future of the FTR has been discussed.

Decisions on the future of the Full-Time Reserve will continue to be made by the Chief Constable in light of his assessment of the security situation and policing needs.

Police Service of Northern Ireland: Training

Mr. Paterson: To ask the Secretary of State for Northern Ireland how much his Department plans to spend on *(a)* Irish and *(b)* Ulster Scots lessons for Police Service of Northern Ireland officers in 2009-10. [287655]

Paul Goggins: That is an operational matter for the Chief Constable. I have asked him to reply directly to the hon. Member, and a copy of his letter will be placed in the Library of the House.

Political Directorate: Operating Costs

Sammy Wilson: To ask the Secretary of State for Northern Ireland what estimate he has made of the running costs associated with his Department's political directorate in each of the last five years. [286427]

Paul Goggins: The following table shows how much the Political Directorate of the Northern Ireland office has spent in running costs in each of the last five years.

	Running costs (£)
2008-09	11,404,448
2007-08	6,136,998
2006-07	6,852,184
2005-06	7,214,155
2004-05	6,838,692

The Political Directorate provides parliamentary and private office support to Ministers as well as policy support for the Northern Ireland political process and other issues including elections, human rights and public inquiries. In preparation for the completion of devolution, the directorate, which will form the core of the future NIO, has also taken management responsibility for relevant corporate services, hence the increase in expenditure in 2008-09.

Postal Boxes: Vandalism

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many post boxes in Northern Ireland were vandalised in each of the last 12 months. [287587]

Mr. McFadden: I have been asked to reply.

The condition of Royal Mail's post boxes is an operational matter which is the direct responsibility of the company's management. I have therefore asked the chief executive of Royal Mail, Adam Crozier, to provide a direct reply to the hon. Member.

A copy of the response will be placed in the Libraries of the House.

Security Guards: Licensing

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many companies notified his Department of changes in security staff as required by Article 13(1) of Schedule 13 of the Terrorism Act 2000 in each of the last five years. [287675]

Mr. Woodward: The Terrorism Act 2000 provisions fell in 2007 and were replaced by interim arrangements as set out in schedule 6 to the Justice and Security (Northern Ireland) Act 2007. The numbers of companies notifying the Department of changes up to 2007 was as follows:

	Number of companies notifying changes
2004	49
2005	38
2006	51
2007[1]	38

[1] Only to 31 July. Arrangements as set out in the Justice and Security (Northern Ireland) Act 2007 came into force on 1 August.

Terrorism

Mr. Paterson: To ask the Secretary of State for Northern Ireland what steps he is taking to reduce the level of criminal activity of loyalist groups which have decommissioned their arms. [287662]

Paul Goggins: I remain committed to seeking further reductions in all criminal activity by providing support to the PSNI and other law enforcement agencies including through the work of the Organised Crime Task Force.

Mr. Paterson: To ask the Secretary of State for Northern Ireland what reports he has received on progress in disbanding the command structures of loyalist paramilitary groups which have recently decommissioned their arms. [287663]

Paul Goggins: The 21st report of the independent monitoring commission stated that the UVF is in the process of downsizing and that most elements in the leadership of the UDA were seeking to downsize their organisation.

Weapons

Mr. Paterson: To ask the Secretary of State for Northern Ireland what recent discussions he has had on personal protection weapons. [287617]

Paul Goggins: The PSNI have briefed the Secretary of State and myself on the outcome of the internal review of their policy on personal protection weapons, and we have held meetings with a number of political representatives on foot of requests received.

JUSTICE

Single Parents: Custodial Sentences

10. **Lorely Burt:** To ask the Secretary of State for Justice what recent consideration he has given to the effects on dependent children of custodial sentences for single parents. [288147]

Maria Eagle: We have a significant programme of work across Government to meet the needs of offenders' children, many of whom are vulnerable, including:

through the Think Family programme, ensuring key services are supporting them; and

our plans to reduce the number of women in prison and provide additional community services, through £15.6 million of new funding.

Employment Tribunals

16. **Mr. Todd:** To ask the Secretary of State for Justice what recent assessment he has made of the effectiveness of procedures for the enforcement of employment tribunal awards; and if he will make a statement. [288153]

Bridget Prentice: The tribunals service recently undertook research into the enforcement of employment tribunal awards. My right hon. Friend, the Secretary of State for Justice and Lord Chancellor (Jack Straw) made a statement on 19 May 2009 announcing the publication of this research and the measures that the Government are taking to improve the enforcement of these awards.

Correspondence

17. **Dr. Harris:** To ask the Secretary of State for Justice when he plans to reply to the letter from the hon. Member for Oxford West and Abingdon on ways of working with non-governmental organisations to publicise the abolition of the offences of sedition and criminal libel in England and Wales. [288154]

Claire Ward: I apologise to the hon. Member for Oxford, West and Abingdon (Dr. Harris) for the delay in replying to his letter of 9 June 2009. He will by now have received from my right hon. Friend, the Secretary of State for Justice and Lord Chancellor (Jack Straw) a letter of 16 July 2009 which addresses the issue he raises.

International Criminal Law

18. **Simon Hughes:** To ask the Secretary of State for Justice what recent representations he has received on the jurisdiction of UK courts over cases involving crimes under international law committed in other countries. [288155]

Danny Alexander: To ask the Secretary of State for Justice what recent representations he has received on the jurisdiction of UK courts over cases involving crimes under international law committed in other countries. [288139]

Claire Ward: The Government receive representations from time to time about the jurisdiction of the UK courts for particular categories of crimes under international law. We have received representations recently about genocide, war crimes and crimes against humanity. We have responded positively to these representations.

Prison Officers

19. **Mr. Hoyle:** To ask the Secretary of State for Justice what the ratio of prison officers to prisoners was at HM Prison Wymott and HM Prison Garth in the latest period for which figures are available; and if he will make a statement. [288156]

Maria Eagle: As at 31 May 2009, the ratio of prison officers to prisoners at HMP Wymott was 1:5.04. The ratio at HMP Garth was 1:3.4.

This ratio refers to basic prison officer grades only—senior officer and principal officers are not included.

Family Courts

20. **Judy Mallaber:** To ask the Secretary of State for Justice what steps he is taking to increase public confidence in the operation of family courts. [288157]

Bridget Prentice: The Government are making good progress. In April, we changed court rules so that accredited media have the right to attend most family proceedings. We are also developing information pilots which will place anonymised judgments online, and we will be bringing forward legislation in the next session to revise reporting restrictions in the family courts to allow for greater reporting of family proceedings.

Interpretation Services

21. **Malcolm Bruce:** To ask the Secretary of State for Justice what arrangements his Department makes for the provision of legal services to people requiring a sign language interpreter; and if he will make a statement. [288158]

Bridget Prentice: The Ministry of Justice has a strong commitment to disability equality in the delivery of its services. Courts and tribunals can provide British sign language and other sign language interpreters for hearings and will meet the reasonable costs of these. In addition, where necessary the Legal Services Commission's rules allow (for those clients who are eligible) for sign language interpreter costs to be met from legal aid.

Constitutional Renewal Bill

22. **Jo Swinson:** To ask the Secretary of State for Justice what progress has been made on the Constitutional Renewal Bill; and if he will make a statement. [288159]

Mr. Wills: The Government introduced the Constitutional Reform and Governance Bill in the House of Commons on 20 July 2009.

Electoral Reform

23. **Mr. Sanders** To ask the Secretary of State for Justice what recent assessment he has made of the merits of proposals for reform of the electoral system for general elections. [288160]

Mr. Wills: Last year the Government published a review of voting systems. It considers the experience of the voting systems introduced in the United Kingdom since 1997. It found that there is no definitive evidence that one system is better or worse than another.

The debate over the respective merits of different electoral systems continues and last month, the Prime Minister confirmed that the Government will be setting out proposals for taking this debate forward.

Complaints: Budgets

Mr. Burrowes: To ask the Secretary of State for Justice what the *(a)* resource and *(b)* capital budget of the Office for Legal Complaints is for 2009-10. [287696]

Bridget Prentice: The Office for Legal Complaints (OLC) was formed on 1 July 2009 and will not be fully operational until 2010 and so financial plans are still in the process of being finalised. The resource budget for the OLC in 2009-10 currently stands at £6 million and capital budget is £0 million. However, these figures will be reviewed for the winter estimates. The OLC is in the process of finalising its business plan, which will provide further clarity over the capital and resource split for the 2009-10 and 2010-11 years. However, the implementation and running costs for the OLC will be recovered through a levy on the legal profession.

Patrick Brendon Smith

Mr. Timpson: To ask the Secretary of State for Justice (1) what Oasys categorisation was applied to Patrick Brendon Smith following his release from the sentence imposed by Preston Crown Court in October 2008; [288094]

(2) on what occasions Patrick Brendon Smith breached the terms of his post-release licence following his release from the sentence imposed by Preston Crown Court in October 2008; [288095]

(3) whether a serious case review has been held following the conviction of Patrick Brendon Smith for two offences of grooming. [288097]

Mr. Straw: With regard to the Oasys risk categorisation and any breaches of licence, the National Offender Management Service (NOMS) does not ordinarily, having due regard to relevant legislation, disclose operational details about how it is managing an individual offender. However, there has been extensive public interest in the case. In these circumstances, I can inform the hon. Gentleman of the following:

Oasys categorisation:

Following his release from the sentence imposed by Preston Crown Court in October 2008, the Oasys categorisation for Patrick Smith was 'medium' risk of re-offending and medium risk of serious harm to children and the public. (The risk of serious harm classification was subsequently raised to 'high' when further information about the offender came to light.)

Breach of terms of licence:

In November 2008, the Probation Area then supervising Mr. Smith decided to issue a written warning to him following a breach of the rules of residence in the approved premises in which he was required to reside as a condition of licence. (There were no other breaches of licence prior to his recall to prison following his arrest for the serious further offence.)

Serious further offence review:

A serious further offence review has been undertaken on this case, in line with the requirements of Probation Circular 22/2008. It was completed on 1 July 2009 and has been quality assured by the Public Protection Unit (PPU) in the National Offender Management Service (NOMS). The Probation Areas involved in the management of the offender will be reporting to the PPU on progress in addressing the learning points from the review by 18 December 2009.

The Government take all cases of serious further offending by offenders under supervision very seriously indeed. I have asked to be kept informed of progress in addressing the concerns which arose in this particular case.

Anti-terrorism Control Orders

Chris Huhne: To ask the Secretary of State for Justice what the cost to the public purse has been of each legal action in respect of which proceedings have been completed in which a person subject to a control order has challenged its terms. [285725]

Bridget Prentice: Legal aid funding is available under the Community Legal Service (CLS) administered by the Legal Services Commission (LSC). According to records supplied by the LSC, 24 certificates have been granted to challenge the terms of control orders made under the Prevention of Terrorism Act 2005. Of these, only nine cases have concluded and the total amounts paid under each certificate is as follows.

£201,416
£7,910
£14,486
£84,434
£6,118
£6,817
£7,642
£11,025
£12,271

These figures include solicitors' costs, counsels' fees, disbursements and VAT, where applicable. Costs in some of these cases may include costs of appeal proceedings up to and including appeals to the House of Lords. Costs of judicial reviews are not included, as these cannot be separately identified.

It is not possible to identify the court costs to Her Majesty's Court Service (HMCS) as the administrative costs for these proceedings are not recorded separately from the costs of other proceedings.

The Ministry of Justice does not hold information on how much it costs the state to defend challenges made to the terms of a control order.

Aviation

Mr. Grieve: To ask the Secretary of State for Justice (1) how many convictions there were for endangering the safety of an aircraft in each of the last 10 years; [286776]

(2) how many offenders received a *(a)* fine, *(b)* community penalty and *(c)* custodial sentence upon conviction for endangering the safety of an aircraft in 2008; and what the average (i) fine and (ii) custodial sentence imposed in such cases was. [286777]

Mr. Straw: The number of defendants found guilty at all courts in England and Wales for endangering the safety of an aircraft, 1998 to 2007 (latest available) is shown in table 1.

Sentencing statistics for 2008 are not available until later in the year therefore data for 2007 are shown in table 2.

The statistics given relate to persons for whom these offences were the principal offences for which they were dealt with. For example, when a defendant has been found guilty of two or more offences, the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2008 will be available in autumn 2009.

Table 1: Number of defendants found guilty at all courts in England and Wales for offences relating to the endangerment of aircraft, from 1998 to 2007[1,2]

Statue/offence	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*
Statutes—Aviation Security Act 1982:	7	10	8	3	9	1	1	1	0	0
Section 1: Seizing an aircraft in flight by unlawful use of force or threats by person on board the aircraft										
Section 2: Destroying, damaging or endangering safety of aircraft										
Section 3: Other acts of endangering or likely to endanger safety of aircraft										
Section 6: Inducing or assisting in the commission of an offence outside the UK										
Statutes:	n/a	n/a	n/a	n/a	n/a	n/a	4	3	1	6
Air Navigation Order 2000 Articles 63 and 122(6) and schedule 12(C)										
Air Navigation Order 2005 Articles 73 and 148(7) and Schedule 14(C)										
Recklessly or negligently acting in a manner likely to endanger an aircraft or any person therein										

n/a = Not applicable.

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences, the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Office for Criminal Justice Reform: Evidence and Analysis Unit.

Table 2: Offenders sentenced for endangering safety of an aircraft[1], 2007

	Number
Fine[2]	2
Community sentence	1
Suspended sentence	1
Immediate custody[3]	2
Total sentenced	6

[1] Air Navigation Order 2005: Endangering safety of aircraft.
[2] One fine of £100 and one of £150
[3] One immediate custodial sentence of 8.0 months and one of 12.0 months.
Notes:
1. These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.
2. These data are presented on the principal offence basis. Where an offender has been sentenced for more than one offence, the principal offence is the one for which the heaviest sentence was imposed. Where the same sentence has been imposed for two or more offences, the principal offence is the one for which the statutory maximum is most severe.

OMS Analytical Services, Ministry of Justice.

Cannabis: Fines

Chris Huhne: To ask the Secretary of State for Justice how many fines for cannabis possession remained unpaid *(a)* six and *(b)* 12 months after issue in each of the last five years. [288428]

Bridget Prentice: Information on paid, part paid and unpaid fines for offences of possessing cannabis is not collected centrally. Information on the enforcement rate of financial penalties imposed by courts is held but cannot identify the originating offence.

It is therefore not possible to establish how many fines remain unpaid over the last five years for cannabis possession.

The overall payment rate for all financial penalties in the financial year to July 2009 is 82 per cent.

Consultants

Mr. Grieve: To ask the Secretary of State for Justice how much the Office for Criminal Justice Reform spent on *(a)* external consultants, *(b)* public opinion research and *(c)* communications in the last year for which information is available. [287128]

Mr. Straw: In 2008-09, OCJR spent £14.7 million on external consultants, including specialists working on the development of cross CJS information technology and cross CJS projects, £1.9 million on public opinion research, of which, £1.4 million is for the Witness and Victims Experience Survey (WAVES) of the criminal justice system used to underpin the public service agreement; and £2.3 million on communications including staff costs, the costs of the CJS online website, Inside Justice week and the costs of corporate publications and leaflets.

Crime Act 2002

Mr. Burrowes: To ask the Secretary of State for Justice what the monetary value was of defence costs orders arising from cases determined by the Proceeds of Crime Act 2002 in *(a)* 2007, *(b)* 2008 and *(c)* 2009 to date. [286005]

Bridget Prentice: Data are not currently collected on the volume of Recovery of Defence Costs Orders (RDCOs) made in respect of cases under the Proceeds of Crime Act 2002. This level of information could be obtained only at disproportionate cost.

The Legal Services Commission does collect data on the overall number and monetary value of RDCOs made and this detail is set out in the following table.

	Number of RDCOs made	*Value of RDCOs made (£ million)*
2006-07	330	4.2
2007-08	220	6.0

The figures are not yet available for 2008-09.

Departmental Accountancy

Steve Webb: To ask the Secretary of State for Justice when he expects to publish his Department's resource accounts for 2008-09. [287330]

Mr. Wills: The Ministry of Justice resource accounts have been laid before the House of Commons today. The resource accounts will be made available on the MOJ website shortly after and published within a month.

Departmental Consultants

Chris Huhne: To ask the Secretary of State for Justice how much *(a)* his Department and its predecessor and *(b)* its agencies spent on consultants in each year since 1997. [285788]

Mr. Straw: The information requested is as follows.

Consultants

The Ministry of Justice was formed on the 9 May 2007. This merger included the former Department of Constitutional Affairs and the National Offender Management Service (NOMS). NOMS previously formed part of the Home Office. The following information is fragmented due to Machinery of Government and organisational changes. The Ministry of Justice do not hold data in relation to the National Offender Management (NOMS) for years prior to the Machinery of Government change in 2007-08. For this reason, NOMS consultancy costs, prior to 2007-08 cannot be provided in this answer.

While it appears possible to get detail of consultancy spend for the whole Home Office before the Machinery of Government change on 9 May 2007, it is not possible to get the spend relating to just those sections that are now part of the Ministry of Justice as these figures are not held centrally and could be provided only at disproportionate cost.

(a) Subject to the above, the Department and its predecessors spent the following amounts on consultancy in each accounting year:

Ministry of Justice (MOJ) 2007-08 to 2008-09

Accounting year	*£ million*
2008-09	[1]53.6
2007-08	56.0

[1] Provisional. This figure was an early estimate and has been extrapolated based on the nine month actual position. The 2008-09 consultancy figure will be finalised following a manual data collection exercise for April 2008 to March 2009. This exercise is scheduled to commence in the summer of 2009, with a target date for availability on 31 October 2009.
Note:
The figures between 2007-08 and 2008-09 are based on spend provided from the Department's systems. These figures do not include the Office of the Public Guardian.

Department of Constitutional Affairs (DCA) 2003-04 to 2006-07

Accounting year	£ million
2006-07	10.7
2005-06	15.5
2004-05	10.6
2003-04	9.0

The Lord Chancellors Department (LCD) 1997-08 to 2002-03

Accounting year	£ million
2002-03	5.7
2001-02	6.5

Due to the organisation reshuffle of the former Lord Chancellor's Department, figures prior to 2001-02 are unavailable and can be obtained only via disproportionate costs.

(b) The figures above can be broken down into spend by individual agencies as follows:

Ministry of Justice (MOJ) 2008-09

A breakdown of MOJ consultancy costs by agency[1] for 2008-09 is not yet available. A manual data collection exercise for the period April 2008 to March 2009 is scheduled to commence in the summer of 2009 with a target date for the availability of the full data set on 31 October 2009.

[1] The 2008-09 breakdown will highlight the Ministry of Justice, National Offender Management Services and HM Prison Services spend only. Lower level breakdown of the 2008-09 data by agency can be obtained only via disproportionate costs.

Ministry of Justice (MOJ) 2007-08

	£ million
Ministry of Justice	36.0
National Offender Management Services and HM Prison Services	20.0
Total	56.0

Lower level breakdown of the 2007-08 data by agency can be obtained only via disproportionate costs.

Department of Constitutional Affairs (DCA) 2003-04 to 2006-07

		£ million
	2005-06	2006-07
Department of Constitutional Affairs	10.1	6.6
HM Court Service	5.0	3.3
Tribunals Service	0.4	0.6
Office of the Public Guardian	0.05	0.2
Total	15.5	10.7

Between 2003-04 and 2004-05 a breakdown of DCA's (formally LCD's) consultancy costs by agencies can be obtained only via disproportionate costs.

Lord Chancellors Office (LCD) 1997-08 to 2002-03

Between 2001-02 and 2002-03 a breakdown of LCD's consultancy costs by agencies can be obtained only via disproportionate costs.

Departmental Dismissal

Chris Huhne: To ask the Secretary of State for Justice how many members of staff at each pay band in *(a)* his Department and *(b)* its agencies have been suspended (i) on full pay and (ii) on sick pay for (A) over 12 months, (B) between six and 12 months and (C) between three and six months, broken down by pay band. [285822]

Mr. Straw: For the Ministry of Justice (MOJ) excluding the National Offender Management Service (NOMS), the number of staff currently suspended on full pay is 20, see table.

Length of suspension

Pay band	Over 12 months	Between 6 and 12 months	Between 3 and 6 months	Up to three months	Total
A	—	—	—	—	—
B	—	—	1	—	1
C	—	—	—	—	—
D	—	—	1	5	6
E	—	—	3	9	12
F	—	—	—	1	1
Total	—	—	5	15	20

For those staff on sick pay the information is not held centrally in a format that would enable us to answer this part of the question without incurring disproportionate cost.

The National Offender Management Service does not hold any of the detailed information centrally in a format that would enable us to answer this question without incurring disproportionate cost. I have given instructions that this information must in future be collected.

Departmental Manpower

Mr. Grieve: To ask the Secretary of State for Justice what estimate he has made of the change in the employee headcount in *(a)* his Department and *(b)* each of its agencies in the next 12 months. [285258]

Mr. Straw: In October 2008, the Ministry of Justice announced controls on recruitment to enable the Department to drive out inefficiencies and look strategically at where we have skills gaps and how to manage our people more effectively across the business.

We estimate a reduction of 1,135 in the Full Time Equivalent (FTE) headcount between March 2009 and 2010. This estimate does not include information relating to the Land Registry, National Archives, Scotland Office, Wales Office or National Probation Service, where responsibility for staffing lies with each individual body.

The table breaks down the changes in Full Time Equivalent headcount by agency. The figures include employees and agency/interim staff.

These figures are projections; as with all projections, future operational and policy decisions will also influence what actually happens. The information provided in this answer is not part of the Department's Official Statistics and is not covered by the Code of Practice for Official statistics.

Estimated change in FTEs over the 12 months to 31 March 2010

	Reduction of:
MoJHQ	[1]80
NOMS[2]	750
HMCS	205
Tribunals Service	65
Office of the Public Guardian (OPG)	35

[1] Full Time Equivalents.

[2] The figures for NOMS refer to HQ and directly employed staff in public sector prisons only. They do not include the National Probation Service where the responsibility for staffing lies with the 42 areas and trusts who employ these staff.

Mr. Grieve: To ask the Secretary of State for Justice how many people were employed by *(a)* his Department and *(b)* each of its agencies at the latest date for which figures are available. [283259]

Mr. Straw: The Office for National Statistics publish public sector employment statistics quarterly. The latest available data are from 31 March 2009, and are set out in the table.

The table provides full-time equivalent (FTE) figures for the Department as published by the ONS.

	FTEs as at 31 March 2009
MOJ HQ	2,990
NOMS[1]	51,060
HMCS	19,100
Tribunals Service	2,810
Office of the Public Guardian (OPG)	360
Land Registry	6,930
National Archives	620
Scotland Office	90
Wales Office	60
Total	84,020

[1] The figures for the National Offender Management Service (NOMS) refer to HQ and directly employed staff in public sector prisons only. They do not include the National Probation Service where the responsibility for staffing lies with the 42 areas and trusts who employ these staff

Drugs: Prisons

Jenny Willott: To ask the Secretary of State for Justice how many prison officers at each prison have been *(a)* dismissed, *(b)* charged and *(c)* convicted for smuggling drugs into prison in each of the last five years; and if he will make a statement. [286492]

Maria Eagle: Central National Offender Management Service (NOMS) records show six prison officers have been dismissed under the internal disciplinary procedures for bringing drugs into a prison since January 2005.

	Number of staff dismissed
2005	3
2007	2
2008	1

NOMS has accepted and implemented the Blakey report on disrupting the supply of illicit drugs and mobile phones into prisons and is determined to address this security threat. In line with Blakey's recommendations, we are using legislation where appropriate to deal with prisoners, visitors or staff who attempt to smuggle such items. There are a range of offences used to prosecute staff in these circumstances, including misconduct in public office, possession with intent to supply, and the offences created by the Offender Management Act 2007 which attract tough penalties of up to 10 years imprisonment and an unlimited fine.

We do not, though, record information in the form requested. To do so would incur disproportionate cost. However, we are taking steps to record more detailed information in this area.

Employment Tribunals Service

Grant Shapps: To ask the Secretary of State for Justice how many actions under employment law have been brought against his Department in each of the last three years; how many such actions were brought under each category of action; and how many such actions were contested by his Department at an employment tribunal. [277415]

Mr. Straw: The data are only held centrally for the two years since the creation of the Ministry of Justice. To obtain the data now for the year 2006-07 would incur disproportionate costs.

In each of the last two years, the following numbers of claims were issued at the Employment Tribunal against the Ministry of Justice:

	Number of claims
2007-08	
Total Claims issued	306
Age Discrimination	19
Disability Discrimination	41
Equal Pay	58
Maternity Leave Pay	1
Non-standard Casework	1
Pension Rights	2
Race Discrimination	16
Sexual Discrimination	35
Sexual Orientation Discrimination	1
Terms of Employment	3
Trade Union Activity	3
TUPE	1
Unfair/Constructive Dismissal	91
Wages Claim	28
Whistleblowing	4
Working Time Regulations	2
2008-09	
Total Claims issued	215
Age Discrimination	5
Disability Discrimination	34
Equal Pay	3
Maternity Leave Pay	1
Non-standard Casework	4
Other	5
Race Discrimination	13
Sexual Discrimination	27
Sexual Orientation Discrimination	1
Terms of Employment	8
Trade Union Activity	4
Unfair/Constructive Dismissal	88
Wages Claim	20
Working Time Regulations	2

In 2007-08 the MoJ employed 78,789 people and in 2008-09, 81,402.

All of these claims were defended by the Ministry at the initial stage in the process, although some were subsequently settled. The outcome of these Employment Tribunals for 2007-08 and 2008-09 is shown in the following table.

	MoJ Win	MoJ Lost	Settled	Outstanding	Total
2007-08					
Age Discrimination	6	0	3	10	19
Disability Discrimination	16	0	11	14	41
Equal Pay	2	0	0	[1]36	38
Maternity Leave Pay	0	0	1	0	1
Non-Standard Casework	0	0	1	0	1
Pension Rights	2	0	0	0	2
Race Discrimination	10	1	0	5	16
Sexual Discrimination	11	1	7	16	35
Sexual Orientation Discrimination	0	0	1	0	1
Terms of Employment	0	0	0	3	3
Trade Union Activity	3	0	0	0	3
TUPE	1	0	0	0	1
Unfair/ Constructive Dismissal	38	2	25	26	91
Wages Claim	10	1	10	7	28
Whistleblowing	0	1	1	2	4
Working Time Regulations	0	0	1	1	2
Total	99	6	61	140	306
2008-09					
Age Discrimination	0	0	0	5	5
Disability Discrimination	5	0	4	25	34
Equal Pay	0	0	0	3	3
Maternity Leave Pay	0	0	0	1	1
Non-Standard Casework	0	0	1	3	4

[1] 19 of these cases showing as outstanding have actually been finalised, but the outcomes have not yet been updated. The results are awaited from the Treasury Solicitor.

The data for the number of cases contested at an Employment Tribunal hearing are not held centrally and it would incur disproportionate cost to obtain them.

Glasgow

John Mason: To ask the Secretary of State for Justice whether he plans to visit Glasgow on official business during the summer adjournment. [288918]

Mr. Straw: I have no current plans to visit Glasgow on official business during the summer recess but I am always happy to consider invitations, including from the hon. Member.

Information Tribunal

Mrs. Laing: To ask the Secretary of State for Justice how many information tribunals have sat in each year since 2004. [287939]

Bridget Prentice: The number of Information Tribunal appeals which reached a conclusion in each year since 2004 is shown in the following table. The figures include oral and paper hearings and withdrawn appeals.

Number of information tribunal appeals cleared

	Appeals
2004-05	0
2005-06	18
2006-07	62
2007-08	123
2008-09	113
2009[1]	37

[1] From 1 April to 30 June

Mrs. Laing: To ask the Secretary of State for Justice how many information tribunals have sat *(a)* in public and *(b)* other than in public in each year since 2004. [287940]

Bridget Prentice: Information Tribunals are ordinarily held in public but individual sessions of the hearing will sometimes need to be held in private. If private sessions are considered necessary, the Tribunal Chairman will advise the parties of the reasons for doing so.

The Information Tribunal does not keep detailed records of the number of sessions that are held in camera. This information could be provided only at disproportionate cost by carrying out a manual check of each case file to establish the status of each session of each hearing.

Mrs. Laing: To ask the Secretary of State for Justice what legal costs were incurred by the Information Commissioner in respect of the Information Tribunal hearing in relation to the request for information under the Freedom of Information Act 2000 by Mr. Martin Sixsmith. [288063]

Mr. Wills: The Information Commissioner's Office (ICO) is the independent authority which enforces compliance with the Data Protection Act 1998 and the Freedom of Information Act 2000.

The total cost to the ICO for counsel in the recent Information Tribunal case "Secretary of State for Communities and Local Government v IC" was £7,606.38. In addition, considerable time was spent on the case by the ICO's own in-house solicitors.

This information was provided by the ICO.

Legal Aid

Mr. Brady: To ask the Secretary of State for Justice what representations the Legal Services Commission has received on the ability of law firms to deliver legally-aided criminal defence services following the implementation of best value tendering in 2010. [285668]

Bridget Prentice: The Legal Services Commission (LSC) received 1,503 responses from representative bodies, individual practitioners and other interested parties, to its consultation exercise on proposals to introduce Best Value Tendering (BVT) of criminal defence services in the police station and magistrates court.

My noble Friend Lord Bach's written ministerial statement of 20 July 2009 announced the publication of the Legal Services Commission's (LSC) response to consultation on BVT. A copy of the consultation response and accompanying impact assessment has been placed in the House Library. The documents are also available on the consultation section of the LSC website at:

www.legalservices.gov.uk

Mrs. Laing: To ask the Secretary of State for Justice how much was spent on the administration of legal aid in each of the last 12 years. [287188]

Bridget Prentice: The Legal Services Commission's (LSC) administration expenditure in each of the last 12 years is shown in the table. The costs to the courts for administering the grant and payment of legal aid is not recorded separately.

Total LSC administration expenditure

	£ million
1996-97	53.8
1997-98	57.5
1998-99	59.9
1999-2000	62.4
2000-01	72.4
2001-02	71.6
2002-03	73.4
2003-04	90.2
2004-05	102.7
2005-06	96.8
2006-07	114.4
2007-08	132.5

Legal Aid: Foreigners

Mr. Grieve: To ask the Secretary of State for Justice what expenditure his Department has incurred on legal aid payments to foreign nationals involved in cases before the Special Immigration Appeals Commission in each of the last seven years. [285266]

Mr. Straw: The Legal Services Commission did not specifically collate costs data on SIAC expenditure prior to the 7 July 2005 terrorist incidents in London.

Expenditure in subsequent financial years, and from April 2009 to June 2009 was as follows:

	£000
2006-07	385
2007-08	731
2008-09	889
2009-10	156

Legal Services Commission

Bob Spink: To ask the Secretary of State for Justice if he will hold discussions with the Legal Services Commission on its procedures for best value tendering; and if he will make a statement. [287038]

Bridget Prentice: My noble Friend Lord Bach the Minister for Legal Aid routinely discusses a wide range of issues with the Legal Services Commission including best value tendering.

My noble Friend Lord Bach's written ministerial statement of 20 July 2009 announced the publication of the Legal Services Commission's (LSC) response to consultation on Best Value Tendering of criminal defence services.

A copy of the consultation response and accompanying impact assessment has been placed in the House Library. The documents are also available on the consultation section of the LSC website at:

www.legalservices.gov.uk

Magistrates Courts: Costs

Grant Shapps: To ask the Secretary of State for Justice how many magistrates clerks were employed in each of the last three years; and how much was spent on employing them in each such year. [276751]

Mr. Straw: The title "Magistrates' Clerk" is a historic title and no longer used in magistrates court. Justice clerks and legal advisers fulfil the roles closest to that of a magistrates clerk, although the role is not directly comparable and both fulfil different functions. I provide in the tables the requested figures for both justice clerks and legal advisers.

Legal advisers

	2006-07*		2007-08		2008-09	
Region	FTE	Salary cost (£)	FTE	Salary cost (£)	FTE	Salary cost (£)

South West	10	1,051,987	10	1,095,269	6.2	719,574

It has not been possible to provide exact staff numbers or the breakdown in salary costs for legal advisers and justice clerks for London and the South East region. Further work is taking place to extract this information from local data. I will write to the hon. Member with this information when this has been completed. The following table shows the combined salary costs for legal advisers and justice clerks in London and the South East.

Region	2006-07[1]	2007-08	Salary cost (£) 2008-09
London	—	17,089,462	17,449,073
South East	—	18,223,171	17,892,698

[1] Historical pay data are not held on the HR information system in HMCS and due to a change in accounting procedures brought in across HMCS on 1 April 2007 some regions have not been able to provide this information for 2006-07 from their records.

[2] Staff numbers are quoted as full-time equivalent in post.

Mass Media

Mr. Grieve: To ask the Secretary of State for Justice (1) how much his Department and its predecessors spent on *(a)* commissioning of public opinion research and *(b)* contracts with press monitoring services in each of the last five years; [257754]

(2) what the cost of contracts between his Department's *(a)* agencies and *(b)* non-departmental public bodies' and press monitoring services was in each of the last five years. [257755]

Mr. Straw: Details of the available information on expenditure on public opinion research and organisations providing media monitoring services in the Ministry of Justice (MoJ) and its predecessor are provided in the following table.

Table 1: Public opinion research

	£
Department for Constitutional Affairs (DCA)	
2004-05	1,410,000
2005-06	1,634,000
2006-07	219,000
Ministry of Justice (created in May 2007)	
2007-08	3,000,000
2008-09	2,945,000

Notes:
Figures shown are estimates including VAT and are based on a collation of local returns as no central records are available. They include NDPBs.

The reason for the fluctuation of spend reflects a smaller research programme in 2006-07. The figures in 2007-08 and 2008-09 for the Ministry of Justice reflect the inclusion of Public Opinion Research for the Office of Criminal Justice Reform and National Offender Management Service.

Table 2: Press monitoring

	Press cuttings (£)
Department for Constitutional Affairs (DCA)	
2003-04	50,344.00
2004-05	48,641.00
2005-06	59,606.61
2006-07	20,548.55
Ministry of Justice (created in May 2007)	
2007-08	56,662.93

The reason for the fluctuation in spend between 2005-06, 2006-07 and 2007-08 is due to a revision of the cuttings specification. For 2006-07 the specification was significantly narrowed and this resulted in fewer cuttings being charged to the Department. However, due to the creation of the Ministry of Justice in May 2007, the cuttings specification was widened to cover the additional subjects covered by the new Ministry and an increase in national and regional press.

The following figures are for costs of press monitoring services for the Department's agencies and non-departmental public bodies (NDPBs). The Ministry of Justice was created in May 2007. Figures before this relate to expenditure under previous Departments.

Executive Agencies:

National Offender Management service (NOMS)

The cost of press monitoring for NOMS from May 2007 is incorporated in the MoJ cost. Press monitoring costs for NOMS prior to May 2007 were paid by the Home Office.

Her Majesty's Court Service (HMCS)

Created in April 2005. Since 2005, HMCS press monitoring services have been part of DCA/MoJ contracts.

Office of the Public Guardian (OPG)

The Office of the Public Guardian formed on 1 October 2007, replacing the Public Guardianship Office.

Office of the Public Guardian

	Durrants (press cuttings service) (£)
2006-07	6,118.70
2007-08	7,118.74

Tribunals Service

The Tribunals Service was created in April 2006, as an executive agency of the Ministry of Justice. The Press Association and Meltwater News provide the

Tribunals Service with press monitoring services. To date they have paid in total £6,564.63 to PA; and £4,136 to Meltwater News.

National Archives

The National Archives is a non-ministerial department and executive agency of the Ministry of Justice. The finance documents pre-2006 are kept off-site in a repository in Cheshire, and it would incur disproportionate cost to recover them. Following figures are provided for 2006 onwards.

National Archives

£

	Cision (media management)	Cision (clippings and media monitoring)	Meltwater News	Total
2006-07	23,446.00	220.00	0.00	23,666.00
2007-08	11,660.00	13,169.00	5,288.00	24,829.00

NDPBs:

Boundary Commission—England

No spend.

Boundary Commission—Wales Office

No spend.

Her Majesty's Land Registry (HMLR)

Her Majesty's Land Registry (HMLR)

	Durrants (press cuttings service) (£)
2003-04	13,175.31
2004-05	15,052.92
2005-06	19,537.24
2006-07	28,751.35
2007-08	28,035.64

Legal Services Commission (LSC)

Legal Services Commission (LSC)

	Durrants (press cuttings service) (£)
2003-04	0.00
2004-05	13,333.47
2005-06	24,038.20
2006-07	24,170.03
2007-08	27,159.00

The costs for the Legal Services Commission and Her Majesty's Land Registry increased primarily because there was more media relevant to their work which needed to be monitored. For Her Majesty's Land Registry, a key case of this was the launch in October 2006 of the monthly House Price Index.

Judicial Appointments Commission

The JAC does not hold its own contracts with press monitoring services; instead they are served by the Judicial Communications Office contract.

Press monitoring services include clippings of newspaper articles, compiled on a daily basis, that are relevant to the Department. The Government's Central Office of Information's Media Monitoring Unit provides a press summary service for the Department, but also includes broadcast coverage in these summaries. It is not possible to breakdown the cost of MMU summaries between press monitoring and monitoring of other media. It is important to monitor the climate of opinion and the evolving views of commentators and the media to ensure that policy development takes place in the fullest context and the Department is well placed to respond to events. Press and media monitoring is one way to do this and also provides useful instant feedback on announcements.

National Offender Management Service: Finance

David Taylor: To ask the Secretary of State for Justice how much of the projected £30 million savings from the Specification, Benchmarking and Costing (SBC) Programme are expected to be made by *(a)* the Probation Service and *(b)* the Prison Service; and what the SBC expenditure reduction targets are for each service. [275387]

Maria Eagle: The Specification, Benchmarking and Costing (SBC) Programme is targeted to deliver more than £50 million of savings during 2009-10. The target for probation is £21 million and prisons £32 million. The probation savings will be achieved through the work of the SBC programme but also supported by the Probation Trust Programme and the introduction of best value.

Further savings are anticipated in future years from the SBC programme and work is currently ongoing to define and quantify the potential costs, benefits and impact.

David Taylor: To ask the Secretary of State for Justice how much of the projected £117 million savings for the National Offender Management Service is expected to be made by *(a)* the Probation Service, *(b)* the Prison Service and *(c)* National Offender Management Service headquarters. [275388]

Maria Eagle: The National Offender Management Service has plans in place to achieve savings of £171 million in 2009-10. The savings will be realised through a range of programmes and initiatives to ensure that offender management is delivered effectively and efficiently.

A broad description of the savings is given in the table.

Initiative	Description	Planned saving 2009-10 (£ million)
Specification, Benchmarking and Costing Programme (prisons)	Achieving better value for money by reducing unnecessary variation in service provisions in prisons	32
Regional and National HQ structures	Streamlining and restructuring	28
Specification, Benchmarking and Costing Programme (probation)	Achieving better value for money by reducing unnecessary variation in service provisions in probation	21
Spending Plan Adjustments	Adjustments to spending plans to take account of reducing inflation and lower VAT	12
Management reductions and delayering	Reforms to workforce structures for new uniformed staff and reducing management costs in public prisons	16

Initiative	Description	Planned saving 2009-10 (£ million)
Other Savings	Including, greater efficiency in the Capacity Programme; further procurement improvement; a reduction in non-essential maintenance; prison clustering; modernising staff rostering processes and restructuring training services	70
Total		171

National Probation Service for England and Wales: Manpower

Chris Huhne: To ask the Secretary of State for Justice what the average ratio of *(a)* probation staff to offenders and *(b)* offender managers to offenders was in each probation service area in each year since 1997. [288426]

Maria Eagle: The information requested is shown in the following table for the years 2004 to 2007 inclusive. Reliable offender caseload data by probation service area are not available prior to 2004.

(a) The average ratio of probation staff to offenders, by each probation service area in England and Wales at 31 December in each year from 2004-07

Area	2004	2005	2006	2007
Avon and Somerset	8.1	7.8	8.1	9.4
Bedfordshire	13.8	12.0	10.7	11.5

National Security Appeals Panel

Mrs. Laing: To ask the Secretary of State for Justice how many times the National Security Appeals Panel has sat in each year since 2004. [287941]

Bridget Prentice: The number of appeals to the National Security Appeals Panel which reached a conclusion in each year since 2004 is shown in the following table. Withdrawn appeals were withdrawn prior to the Tribunal hearing.

Number of national security appeals panel appeals cleared

	Hearings	Withdrawals
2004-05	0	0
2005-06	2	0
2006-07	0	2
2007-08	0	0
2008-09	0	2
2009 (From 1 April to 30 June)	1	1

Office of the Public Guardian

Mr. Burrowes: To ask the Secretary of State for Justice what the *(a)* resource budget, *(b)* capital budget, *(c)* fee income and *(d)* amount of public funding is for the Office of the Public Guardian in (i) 2008-09, (ii) 2009-10 and (iii) 2010-11. [287697]

Bridget Prentice: Information about Office of the Public Guardian (OPG)[1] funding is contained in the following table. Prior to April 2009 the OPG provided the administration for the Court of Protection, whereas the administration is now provided by HM Courts Service.

£000

	2008-09 Spring supplementary estimate[2]	2009-10 Main estimate[2]	2010-11 Indicative[2]
Resource DEL	1,100	(2,310)	(2,310)
Resource Budget	21,600	23,670	23,670
Capital Budget	500	1,500	419
Fee Income	(20,500)	(25,980)	(25,980)
Public Funding Resource[3]	2,000	2,600	3,000
Public Funding Capital	0	0	0

[1] These figures also include the costs of the Court of Protection for each year. The financial planning process to incorporate the budgetary transfers which are predicated on the organisational changes for the Court of protection is not complete, the figures therefore reflect the OPG and CP as one entity.
[2] These figures have been taken from the Ministry of Justice's Departmental Annual Report 2008-09 and also include Court of Protection.
[3] The public resource funding is due to remissions and exemptions.

Parole

Chris Huhne: To ask the Secretary of State for Justice how many *(a)* male and *(b)* female prisoners in each prison who were eligible for parole had been sitting (i) under a month, (ii) between one and three months, (iii) between three and six months and (iv) over six months for a parole hearing on the latest date for which figures are available. [288425]

Bridget Prentice: As at 30 June 2009, the number of indeterminate sentenced prisoners referred to the Parole Board where the target for a parole hearing has passed are as follows:

(i) 223 under a month;

(ii) 451 between one and three months;

(iii) 213 between three and six months; and

(iv) 192 over six months.

A further 95 cases have had hearing dates cancelled or deferred and will need new hearing dates arranged.

In relation to determinate sentence prisoners, the Parole Board has no backlog of cases awaiting parole consideration.

To provide figures broken down by gender and prison could be done only at a disproportionate cost.

Political Parties and Elections Bill

Mr. Maude: To ask the Secretary of State for Justice what timetable he anticipates for the commencement of each substantive element of the Political Parties and Elections Bill following Royal Ascent. [287361]

Mr. Straw: The commencement of the provisions of the Political Parties and Elections Bill, which I introduced to this House on 17 July 2008, will depend on its progress through its final stages in Parliament and the date upon which it receives Royal Assent.

Provisions which are proposed to commence automatically on Royal Assent are listed under clause 41(3). The remaining provisions shall be commenced by order at a time to be determined by me.

As I made clear in the debates at Commons' Report stage on 9 February 2009, the provision in clause 20[1][1] restricting pre-candidacy election expenses will not be commenced until restrictions on the use of the communications allowance have been agreed by the House: "the two matters were linked—one depends on the other" (9 February 2009, *Official Report*, columns 1221-23). As my hon. Friend, the Deputy Leader of the House (Barbara Keeley), made clear in a written answer to the right hon. Member for Horsham (Mr. Maude) on 20 July 2009, *Official Report*, column 800W, the Leader of the House hopes to bring forward the necessary amendments shortly after the summer adjournment.

Prisoner Escapes: Sudbury Prison

Mr. McLoughlin: To ask the Secretary of State for Justice how many prisoners have absconded from Sudbury Prison in the last 18 months. [286412]

Maria Eagle: Absconds occur where a prisoner absents himself from prison custody without lawful authority and without overcoming physical security barriers or

restraints, conditions typically found in open prisons. HMP Sudbury is an adult male, open prison. 50 prisoners absconded from Sudbury prison in the period 1 October 2007 to 31 March 2009. This compares with 106 absconds for the 18-month period prior to that (1 April 2006 to 30 September 2007). The rate of absconding across England and Wales continues to fall and the number of absconds are presently at their lowest level since centralised reporting of this type of incident began in 1995.

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Figures on absconds and a range of other prison performance statistics are available at:

www.hmprisonservice.gov.uk/abouttheservice/prisonperformance/performancestatistics/

Prisoner Release

John McDonnell: To ask the Secretary of State for Justice (1) what powers he has to reject the recommendation of the Parole Board on the release of a prisoner; and what criteria he uses in deciding whether to reject such a recommendation; [285748]

(2) what recommendation the Parole Board made to him in respect of the release of Ronald Biggs following its recent deliberations; [286125]

(3) what advice he received from officials in his Department in respect of the release of Ronald Biggs following the recent recommendation of the Parole Board; [286126]

(4) on how many occasions since 1 January 2001 the relevant Minister has not agreed with the recommendation of the Parole Board to release an individual prisoner; [286127]

(5) on how many occasions the Parole Board recommended the release of a prisoner in *(a)* 2007, *(b)* 2008 and *(c)* 2009; [286128]

(6) on how many occasions during *(a)* 2007, *(b)* 2008 and *(c)* 2009 officials of his Department endorsed Parole Board decisions to release individual prisoners. [286129]

Mr. Straw: Section 35(1) of the Criminal Justice Act 1991, in conjunction with the Parole Board (Transfer of Functions) Order 1998, provides for the Secretary of State to determine whether prisoners serving a determinate sentence of 15 years or more, and who are subject to the release provisions of that Act, should be released on parole, subject to a positive recommendation for early release from the Parole Board. The factors considered when deciding whether or not to accept a recommendation from the Board are set out in directions given by the Secretary of State to the Board. The primary factor is the risk to the public of a further offence being committed at a time when the prisoner would otherwise be in prison and whether any such risk is acceptable.

On 15 June 2009 the Parole Board recommended that Ronald Biggs should be released on parole licence.

To release the advice given to Ministers by officials about the release of Mr. Biggs would be likely to prejudice the provision of full and frank advice to Ministers in future and I am therefore not making this advice public.

The number of prisoners' cases where a recommendation for early release from the Parole Board was turned down in the period 2004-09 is given in the following table. All the cases were those of prisoners serving determinate sentences of 15 years or more and subject to the release provisions of the Criminal Justice Act 1991. Figures for years prior to those provided are not held centrally and would require a manual trawl of available data. To do so would incur a disproportionate cost.

	Number of prisoners
2004	1
2005	3
2006	3
2007	3
2008	0
2009 (as of 8 July 2009)	1

The number of cases where the Parole Board made a recommendation for release in the period 2007-09 is given in the following table. All the cases were those of prisoners serving determinate sentences of 15 years or more and subject to the release provisions of the Criminal Justice Act 1991.

	Number of prisoners
2007	46
2008	31
2009 (as of 9 July 2009)	12

These figures have been drawn from internal records and may be subject to inaccuracies due to data inputting errors.

The number of cases where officials, on behalf of the Secretary of State and without formally seeking ministerial approval, endorsed Parole Board recommendations for the release of prisoners on parole for the period 2007-09 is given in the following table. All the cases were those of prisoners serving determinate sentences of 15 years or more and subject to the release provisions of the Criminal Justice Act 1991.

	Number of prisoners
2007	40
2008	31
2009 (as of 9 July 09)	11

These figures have been drawn from internal records possibly subject to data inputting errors.

Prisoners: Human Rights

Mr. Hayes: To ask the Secretary of State for Justice (1) how much the Government has paid to prisoners as a consequence of judgments of the European Court of Human Rights on cases relating to parole and release of prisoners in the last five years; and if he will make a statement; [277179]

(2) how many occasions prisoners have been released from prison on a date changed as a result of a European Court of Human Rights judgment in the last five years. [277180]

Mr. Straw: Compensation paid to prisoners is recorded centrally against the main type of allegation recorded in the claim for compensation. Whether the claim followed

as a consequence of a European Court of Human Rights (ECtHR) ruling and whether a prisoner was released on a date changed as a consequence of the ruling is not recorded centrally. To establish how many prisoners have been paid compensation over the last five years as a consequence of judgments handed down by the ECtHR would involve interrogating over 3,000 individual litigation files.

Prisoners: Pregnant Women

Anne Milton: To ask the Secretary of State for Justice how many pregnant women there were in prisons in England and Wales in each of the last five years. [287371]

Maria Eagle: As a result of configuration problems experienced with the database used to record information on the number of pregnant women that were in prisons in England and Wales, this information can not be provided at present.

A review of the systems used to record these data is being undertaken to ensure effective processes for data collection and retention are in place. Every effort will be made to consolidate historical data and I will write to the hon. Member when this work is complete to provide all the information that is available in response to her question.

Prisoners: Rehabilitation

Andrew Stunell: To ask the Secretary of State for Justice (1) how many prisoners serving indeterminate sentences for public protection have been offered places on courses promoting their rehabilitation in the most recent period for which figures are available; [285302]

(2) how many prisoners serving indeterminate sentences for public protection have completed courses promoting their rehabilitation in the latest period for which figures are available; [285303]

(3) when he expects the National Offender Management Service review of indeterminate sentences for public protection intervention needs to be complete. [285305]

Mr. Straw: Information on how many prisoners have been offered places on courses promoting their rehabilitation is not centrally recorded, and could be obtained only at disproportionate cost by checking the files of the prisoners concerned.

At the end of June 2009, 3,189 prisoners serving indeterminate sentences for public protection (IPPS) had completed at least one accredited offending behaviour or drug treatment programme in custody. In addition, prisoners may have completed other activities such as training, education, work, non-accredited courses, specialist support or resettlement work which also have a significant part to play in promoting rehabilitation. This information is not centrally recorded.

The programme of work to review the intervention needs of IPPS should be completed in the next 18 months. Much work has already been completed but it now needs to be integrated into a broader programme of work covering the intervention needs of all offenders, the range of programmes, and the resources to deliver them.

Prisoners: Suicide

Andrew Stunell: To ask the Secretary of State for Justice how many prisoners serving indeterminate sentences for public protection have committed suicide since such sentences were introduced. [285304]

Maria Eagle: Any death in prison custody is a tragic event. The Government, Ministry of Justice and the National Offender Management Service (NOMS) is committed to learning from such events and reducing the number of self-inflicted deaths in prison custody. NOMS has a broad, integrated and evidence-based prisoner suicide prevention and self-harm management strategy that seeks to reduce the distress of all those in prison. This encompasses a wide spectrum of prison and Department of Health work around such issues as mental health, substance misuse and resettlement. Any prisoner identified as at risk of suicide or self-harm is cared for using the Assessment, Care in Custody and Teamwork (ACCT) procedures. ACCT is the prisoner-centred flexible care-planning system introduced across the prisons estate in partnership with the Department of Health during 2005-07.

Indeterminate sentences for public protection (IPP) were introduced in 2005. Prisoners serving such sentences account for 6 per cent. of all prisoners. There have been a total of 12 self-inflicted deaths involving prisoners with IPP status. These numbers are detailed in the following table.

	Self-inflicted deaths involving prisoners on indeterminate sentences for public protection sentences
2005	0
2006	2
2007	4
2008	4
2009[1]	2

[1] 2009 figures cover January to June only.

Prisons: Smuggling

Mr. Garnier: To ask the Secretary of State for Justice how many *(a)* prison officers, *(b)* staff in governor grades and *(c)* other staff employed in prisons and young offender institutions have been convicted of offences involving the taking of (i) drugs and (ii) mobile telephones into such establishments in each of the last three years for which figures are available. [288862]

Maria Eagle: All Prison Service staff are expected to meet high standards of professional and personal conduct. Allegations of staff misconduct, which are potentially criminal in nature, are referred to the police for investigation and, where appropriate, prosecution.

In order to provide the detailed information requested, we would need to contact all public sector Prison Service establishments, ask them to check their local records for the period required and ask them to submit this information to headquarters so that the central records can be updated. This would incur disproportionate cost.

Public Opinion: Ministry of Justice

Mr. Grieve: To ask the Secretary of State for Justice how much was spent by his Department on *(a)* focus groups and *(b)* opinion polling in 2008-09. [279240]

Mr. Straw: The information requested on expenditure is not held centrally, however a search of local records has identified a number of projects undertaken in the 2008-09 financial year. Based on these returns the Ministry of Justice Department (not including NDPBs) spent around £647,000 including VAT on focus groups, and £247,000 including VAT on opinion polls.

Note:

The figures given are based on local returns and do not separately identify the elements of projects that were specifically focus groups or opinion polls This figure does not include wider market and opinion research that extends beyond opinion polling and focus groups.

Public Service: Misconduct

Mr. Grieve: To ask the Secretary of State for Justice pursuant to the answer of 15 December 2008, *Official Report*, column 478W, on misconduct in public office, when he plans to place in the Library a copy of his letter. [278335]

Mr. Straw: I have written to the hon. Member on 19 July 2009 and have placed a copy in the Library of the House. I apologise for the delay.

Reoffenders: Essex

Bob Spink: To ask the Secretary of State for Justice what the re-offending rate of people in each age group in the Essex probation area was in each of the last five years. [287034]

Maria Eagle: The local re-offending figures are produced by aggregating the data of four snapshots of the probation caseload at the end of each quarter. Therefore the number of offenders quoted in the following table is approximately four times the number of offenders on the caseload at any one time.

The most recent re-offending rates for Essex are shown in the following table.

Local re-offending rates for Essex, 1 January—31 December 2008

	Number of offenders	*Actual re-offending rate (percentage)*
Essex probation area	20,217	8.17

The local re-offending rate is not broken down by age band.

Local adult re-offending rates by probation area or local authority are not available for periods prior to 1 October 2007 to 30 September 2008.

Further details on local adult re-offending are available at:

http://www.justice.gov.uk/publications/docs/local-adult-reoffending-2008-ii.pdf

Sexual Offences

Chris Huhne: To ask the Secretary of State for Justice how many and what proportion of people convicted of (a) rape and (b) sexual assault were aged (i) under 16, (ii) 16 to 18, (iii) 19 to 65 and (iv) over 65 years in each year since 1997. [285790]

Claire Ward: The number of persons found guilty at all courts for rape and sexual assault, in England and Wales, by age group, from 1997 to 2007 (latest available) is shown in the following tables.

The figures given in the tables relate to persons for whom these offences were the principal offence for which they were dealt with. For example, when a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2008 will be available in the autumn of 2009.

Sexual Offences Act 2003 S.6
Assault of a male child under 13 by penetration
Assault of a female child under 13 by penetration
Sexual Offences Act 2003 S.7
Sexual assault of a female child under 13
Sexual assault of a male child under 13
5 Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[6] Staffordshire Police Force were only able to submit sample data for persons proceeded against and convicted at magistrates' courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.

Office for Criminal Justice Reform - Evidence and Analysis Unit (OCJR-E&A)

Social Security Benefits: Disqualification

Philip Davies: To ask the Secretary of State for Justice what progress has been made in the pilot benefit sanction scheme operated by magistrates' courts; what assessment has been made of the effect of the scheme on levels of crime in the pilot areas; and whether he plans to extend that scheme to other areas. [276515]

Jim Knight: I have been asked to reply.

A written statement was made on 27 February 2009, announcing the intention to end the community sentence sanction pilots, subject to parliamentary approval. Initial evaluation research showed a modest 1.8 per cent. improvement in compliance by sanctioned offenders, directly attributable to the impact of the policy.

Taking into account the overall cost-effectiveness of running the pilot scheme and other measures introduced to strengthen compliance and enforcement, it was decided that the pilots should end and should not be rolled out nationally. The appropriate legislation to end the pilots is being taken forward as part of the Welfare Reform Bill.

Victim Support Schemes

Mr. Burrowes: To ask the Secretary of State for Justice how much has been distributed from the Victims Fund on 2008-09; and which groups received money from the fund for the provision of services to victims of hate crime or homicide in that year. [288222]

Mr. Alan Campbell *[holding answer 20 July 2009]:* I have been asked to reply.

The Government distributed a total of £277,618.08 from the Victims Fund between 13 groups for the provision of services to victims of hate crime or homicide for the period 2008-09. £1.25 million was allocated to victims of sexual violence.

£109,976 was distributed for the provision of services to victims of homicide to five groups and they were as follows:

Support After Murder and Manslaughter (Merseyside)—awarded £20,450

National Victims Association—awarded £30,985

Child Bereavement Charity—awarded £20,887

Victims of Crime Trust—awarded £17,700

Victim Support (Bedfordshire)—awarded £19,954.08

£167,642 was distributed for the provision of services to victims of hate crime to eight groups and they were as follows:

Voice UK—awarded £34,900

Greenwich Action Committee Against Racist Attacks—awarded £19,920

Kirklees Metropolitan Council—awarded £15,000

Gender Identity Research and Education Society—awarded £4,750

North Herts People First—£53,180

Victim Support Teesside—£4,130

Greater Manchester Police, Bury Division—£15,762

West Yorkshire Police—£20,000

Young Offenders

Mr. Grieve: To ask the Secretary of State for Justice how many under 18 year olds have been *(a)* prosecuted and *(b)* convicted for (i) sexual offences, (ii) robbery, (iii) criminal damage, (iv) drug offences and (v) violent offences in each year since 1999. [277797]

Mr. Straw: The number of persons aged 10 to 17 who were proceeded against at magistrates courts and found guilty at all courts for the requested offence groups in England and Wales, for the years 1999 to 2007 (latest available) can be viewed in the following table.

The Sexual Offences Act 2003 significantly modernised and strengthened the laws on sexual offences in England and Wales to provide extra protection to children from sexual exploitation. This makes direct comparisons with previous legislation very difficult. Many new offences created by the Act will not have a direct equivalent under the old legislation.

These data are on the principal offence basis. The figures given in the table on court proceedings relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2008 will be available in the autumn of 2009.

Number of persons aged 10 to 17 who were proceeded against at magistrates courts and found guilty at all courts for selected indictable offences[1], England and Wales 1999 to 2007[2, 3]

2005	1,146	5,809	4,434	5,214	11,168	554	3,079	3,268	4,628	7,428
2006	987	6,418	4,742	4,977	11,052	492	3,701	3,669	4,455	7,520
2007	1,009	6,808	4,623	5,855	10,738	543	4,115	3,627	5,264	7,679

[1] Includes Indictable and triable-either way offences, 'Indictable only' are the most serious breaches of the criminal law and must be dealt with at the Crown court. Triable-either-way offences may be tried at either the Crown court or at magistrates courts. The offence groups do not include summary offences.

[2] The figures given in the table on court proceedings relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences it is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] Sexual Offences includes data for the Sexual Offences Act 2003, which came into force on 1 May 2004.

[5] Sexual Offences offence type includes the following offence classes:

Buggery
Sexual Assault on a Male
Indecency between Males
Rape of a Female
Rape of a Male
Sexual Assault on a Female
Sexual Activity with child under 13
Sexual Activity with child under 16
Familial Sexual Offences (Incest)
Exploitation of Prostitution
Abduction

Bigamy
Soliciting of women by Men
Sexual activity etc. with a person with a mental disorder
Abuse of children through prostitution and pornography
Trafficking for sexual exploitation
Abuse of trust—sexual offences
Gross Indecency with Children
Miscellaneous sexual offences
[6] Robbery offence type includes the following offence class:
Robbery
[7] Criminal Damage offence type includes the following offence classes:
Arson
Criminal Damage Endangering Life
Other Criminal Damage
Threat etc., to commit Criminal Damage
[8] Drug offences includes the following offence classes:
Unlawful importation—Class A
Unlawful importation—Class B
Unlawful importation—Class C
Unlawful importation—Class unspecified
Unlawful exportation—Class A
Unlawful exportation—Class B
Unlawful exportation—Class C
Unlawful exportation—Class Unspecified
Production, supply and possession with intent to supply a controlled drug—Class A
Production—Class B
Production—Class C
Production—Class unspecified
Possession of a controlled drug—Class A
Possession—Class B
Possession—Class C
Possession—Class unspecified
Other drug offences
[9] Violence against the person offence type includes the following offence classes:
Murder
Attempted Murder
Threat or Conspiracy to Murder
Manslaughter
Infanticide
Child Destruction
Causing Death by Dangerous Driving
Manslaughter Due to Diminished Responsibility
Causing Death by Careless Driving when under the influence of Drink or Drugs
Causing Death of a child or vulnerable person
Wounding or other act Endangering Life
Endangering Railway Passenger
Endangering Life at Sea
Malicious Wounding etc.
Cruelty to or Neglect of Children
Abandoning Child aged under Two Years
Child Abduction
Procuring Illegal Abortion
Concealment of Birth
Causing Death by Aggravated Vehicle Taking
[10] Staffordshire police force were only able to submit sample data for persons proceeded against and convicted in the magistrates courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.
Source:
OCJR—E and A: Office for Criminal Justice Reform—Evidence and Analysis Unit, Ministry of Justice

Mr. Burrowes: To ask the Secretary of State for Justice what assessment he has made of the effect of the costs of *(a)* national and regional management and administration, *(b)* premises, *(c)* insurance, *(d)* staff pensions, *(e)* depreciation, *(f)* land, *(g)* capital and *(h)* other central expenditure on his estimate of the average annual cost of providing a custodial place for a young offender. [288651]

Maria Eagle: The overall average resource cost per place of a young offender institution in 2007-08 (the latest year for which figures are available) was:

Direct net expenditure met locally at establishments: £32,799

Other net expenditure met centrally by the Prison Service: 14,960

(HMPS)and the National Offender Management Service (NOMS)

Total overall average resource cost per place: £47,759

The direct resource expenditure met locally at each establishment is as reported in the Annual Report and Accounts of HMPS 2007-08. Resource expenditure met centrally by HMPS and NOMS includes for example: national and regional management and administration, major maintenance, depreciation and cost of capital of land and buildings, and prisoner escort service. This involves some estimation. Income from the Youth Justice Board (YJB) in respect of services recharged to the YJB is excluded in order to show the overall cost to the Ministry of Justice, as is any spend by other Government Departments (e.g. for health and education). Capital expenditure is not included.

Youth Custody

Mr. Todd: To ask the Secretary of State for Justice pursuant to the answer of 6 July 2009, *Official Report*, column 622W, on youth custody, if he will issue guidance on the time of day by which juvenile offenders should be delivered to places of detention. [286420]

Mr. Coaker: I have been asked to reply.

The Youth Justice Board is working with the National Offender Management Service, which manages the contracts for escorts to young offender institutions, on measures to ensure that young people under 18 who are sent to young offender institutions arrive at a reasonable hour.

Escort arrangements for young people sent to secure training centres and secure children's homes are managed by the Youth Justice Board. At the conclusion of court business, service providers are contractually required to take the young person direct to the establishment, which minimises the risk of a late arrival.

Zuzanna Zommer

Mr. Garnier: To ask the Secretary of State for Justice (1) if he will publish a summary of the serious case reviews relating to the murder of Zuzanna Zommer in October 2007; [288700]

(2) if he will hold an inquiry into the circumstances surrounding the death of Zuzanna Zommer in October 2007. [288701]

Mr. Straw: There have been two reviews relating to the murder of Zuzanna Zommer by Michael Clark, who was subject to the sex offender notification requirements but not subject to statutory probation supervision at the time of the murder.

The first was a non-statutory review commissioned by the strategic management board (SMB) for West Yorkshire multi-agency public protection arrangements (MAPPA). No summary has been prepared for publication, but the SMB is prepared and has offered to share the findings of the review with the family of Zuzanna Zommer.

In December 2008, the National Offender Management Service and the association of chief police officers introduced a requirement for MAPPA serious case reviews to be completed where an offender managed at level 2 or 3 of MAPPA is charged with murder, rape, manslaughter, attempted murder or attempted rape. Where MAPPA serious case reviews are undertaken, it is a requirement of the process that SMBs produce an overview report, summarising the review, to be shared with the victim or the victim's family.

The second review has been commissioned by Leeds Local Safeguarding Children Board (LSCB) and is yet to report. In line with usual practice with such statutory reviews, an executive summary of this review will be published once completed.

We will consider, in the light of the MAPPA serious case review and the anticipated report from the LSCB, what further action may be necessary.

CHILDREN, SCHOOLS AND FAMILIES

Academies

Mr. Sanders: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effect of the academies programme on the provision of basic skills. [285429]

Mr. Coaker: The PricewaterhouseCoopers Academies evaluation looked at pupil progress in English and maths and science at KS3. They found that in English:

"...the average improvement for all Academies over the period 2002-2007 in the percentage of pupils achieving Level 5 or above at KS3 is 5.2% per year. This is substantially higher than the average annual change for the average of the three Comparison Groups and for England as a whole over the same period."

In Maths they reported that

"the average annual improvement per Academy for the period (3.7%) is well above that for England as a whole, though only slightly above that for the three Comparison Groups."

In science the report found that

"the average improvement per Academy (5.1%) is also much higher than the average improvements for the Comparison Groups and for England as a whole."

Following the 2008 GCSE results, the 36 academies which have been open long enough to have results in both 2007 and 2008 had an increase of 4.3 percentage points in the percentage of pupils at the end of key stage 4 gaining five or more A*-C grades at GCSE and equivalent including English and Maths (up to 29.5 per cent.) compared to 2.5 percentage points nationally.

Arts: Teachers

Mr. Don Foster: To ask the Secretary of State for Children, Schools and Families how many trained *(a)* music, *(b)* drama and *(c)* art teachers have been employed in maintained schools in each of the last five years. [288524]

Mr. Coaker: The number of teachers of music, drama and art in maintained secondary schools in England is collected as part of the Secondary School Curriculum and Staffing Survey. This is an occasional survey that does not provide a full time series. The survey has only been conducted in 2007 in the most recent five years.

The following table gives data from the 2007 survey, the most recent survey available, for full-time equivalent teachers. It shows the number of teachers teaching at least one period a week of the subject, and the proportions with a post A-level qualification relevant to the subject.

Number of music, drama and art teachers, and the proportions with a post A-level qualification in the subject in maintained secondary schools in England; 2007

	Number of teachers (FTE)[1]	*Proportion with a relevant post A-level qualification (percentage)*
Music	6,500	87
Drama	9,000	56
Art and design	10,100	78

[1] Teachers are counted once under each subject they teach. A teacher is included in the total for Music if they teach at least one period per timetable rotation of Music for example.

Secondary School Curriculum and Staffing Survey, 2007.

Building Schools for the Future Programme

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what recent progress his Department has made on its objective of bringing secondary school buildings up to 21st century standards; and if he will make a statement. [286961]

Mr. Coaker: In the three years to 2010-11, we are investing £21.9 billion in our schools estate: a record amount and seven times the rate in 1997. This includes £9.3 billion for Building Schools for the Future, our strategic programme to provide world-class teaching and learning environments for all secondary school pupils, teachers and communities in England. 85 local authorities and about a third of all secondary schools are now engaged in the BSF programme. This includes

the six new projects which were announced on 15 July to enter the programme this month. They will be followed by six more starts in the next quarter and six more in the quarter after that.

Almost 90 schools have now benefited from BSF investment across England. We have also opened 133 academies, around half of which have brand new facilities, and we are well on our way to our target of 400 academies. In addition, schools and local authorities can invest their own funding to improve schools; secondary schools across the country share over £350 million of devolved formula capital grant in 2009-10. We are currently collecting information on the impact of our investment across the school estate and will publish our findings in due course.

Angela Watkinson: To ask the Secretary of State for Children, Schools and Families whether he plans to include sixth form colleges in the Building Schools for the Future programme. [288118]

Mr. Coaker: Pursuant to the answer of 21 April 2009, *Official Report*, column 529W, I restate that we have made our intention clear to bring Sixth Form Colleges within the scope of the Building Schools for the Future programme. That remains our position. We will make the details clear as soon as we are able.

Building Schools for the Future Programme: Birmingham

Richard Burden: To ask the Secretary of State for Children, Schools and Families what progress has been made on Building Schools for the Future projects *(a)* in progress and *(b)* planned in Birmingham; and what projects have been completed in Birmingham. [288864]

Mr. Coaker: Birmingham is making good progress in Building Schools for the Future (BSF). It has a large programme with around 80 schools to deliver in total.

With regards to projects in progress—the five sample schools in Birmingham's Wave 2 BSF project (which consists of 11 schools and eight academies in total) are due to start construction on or before financial close has been reached. This is scheduled to take place before the end of August 2009. The first schools in this wave are scheduled to open at the start of 2011.

A further 14 schools will be delivered through Birmingham's Wave 5 BSF project. This project is progressing well, with the local authority currently finalising its education strategy. The first schools in this wave are currently scheduled to start construction at the end of 2010 and open in 2012.

Birmingham also has a number of follow-on projects which are not yet active in BSF. These projects will deliver the remaining schools in the local authority. No BSF projects have yet been completed in Birmingham.

Building Schools for the Future Programme: Finance

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what his most recent estimate is of the funding to be allocated to the Building Schools for the Future programme for *(a)* 2009-10 and *(b)* 2010-11. [288696]

Mr. Coaker: Resources from comprehensive spending review 2007 provided £9.3 billion for the building schools for the future and academies programmes for the period 2008-09 to 2010-11. This was made up of £3.7 billion PFI credits, and £5.6 billion of capital grant. £1.1 billion of capital grant was spent in 2008-09, with the balance to be allocated over the remaining two years, the timing of which will depend on the achievement of project milestones.

Children in Care

Adam Price: To ask the Secretary of State for Children, Schools and Families how many children have been placed in care in the last five years; and what proportion were returned to their parents within two months. [285000]

Mr. Coaker: Information on the number of children that have been placed in care in the last five years and the proportion that returned with their parents within two months can be found in the following table.

Children started to be looked after and the proportion who ceased to be looked after within two months due to returning to parents or those with parental responsibility[1,2,3], 2004 to 2008, Coverage: England

Years ending 31 March	*Children that started to be looked after during the year*	*Percentage returned to their parents (or those with parental responsibility) within two months*
2004	23,000	21
2005	24,900	21
2006	24,600	20
2007	24,000	19
2008[4]	23,000	18

[1] Only the first occasion on which a child started to be looked in the year has been counted.

[2] Figures exclude children looked after under an agreed series of short-term placements.

[3] Reason episode ceased defined as "Returned home to live with parents, relatives, or other person with parental responsibility (not under a residence order or special guardianship order)".

[4] Children who started to be looked after during the last two months of the year may subsequently return to their parents within two months but this information will not be available until the next data collection. Therefore the percentage could increase.

Source:
SSDA903

Jim Dobbin: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the average cost to the public purse of meeting the legal requirements associated with placing a child in care in the latest period for which figures are available. [288311]

Dawn Primarolo: Loughborough university has conducted research into the costs of providing children's services. This work calculated that the costs to children's services of obtaining a court order at 2006/07 prices were £2,765.

The fees (in current prices) charged by the courts for obtaining a care order are as follows. There are three stages to these fees with costs varying depending on which stage is reached in proceedings.

1. On an application for a care or supervision order under Section 31 of the Children Act 1989: £2,225

2. Where an issues resolution hearing or pre-hearing review has been listed: £700

3. Where a final hearing has been listed: £1,900.

In response to the recommendation about court fees set out in Lord Laming's report 'The Protection of Children in England: A Progress Report', the Ministry of Justice has appointed Francis Plowden to conduct a review of court fees, and to establish whether or not the level of court fees act as a deterrent when local authorities decide whether or not to commence care proceedings. Francis Plowden is expected to present his findings to the Lord Chancellor and to the Secretary of State for Justice by mid September 2009.

Children in Care: Missing Persons

Bob Spink: To ask the Secretary of State for Children, Schools and Families how many children went missing from care homes in *(a)* Essex and *(b)* Castle Point in each year since 1997. [285477]

Dawn Primarolo: I refer my hon. Member to the reply given on 12 June, *Official Report*, column 1068W, to the hon. Member for North-West Cambridgeshire (Mr. Vara). Information on the number of looked after children that went missing from care homes was not collected prior to 2001. This information cannot be provided below local authority level.

Children: Abuse

Annette Brooke: To ask the Secretary of State for Children, Schools and Families if he will establish mechanisms to track the annual number of cases of *(a)* violence, *(b)* sexual abuse, *(c)* neglect, *(d)* maltreatment and *(e)* exploitation of children, including, (i) within the family, (ii) in schools and (iii) in institutional or other care. [288650]

Dawn Primarolo: National data show 29,200 children were the subject of a child protection plan at 31 March 2008. A child has a child protection plan where there are concerns about their safety and welfare as set out in the statutory guidance "Working Together to Safeguard Children" (2006). 45 per cent. of these plans were due to neglect, 25 per cent. due to emotional abuse, 15 per cent. due to physical abuse, 7 per cent. due to sexual abuse and 8 per cent. due to multiple abuses.

Children: Disadvantaged

Ms Buck: To ask the Secretary of State for Children, Schools and Families what his most recent estimate is of the number of households in poverty with children of school age who do not receive free school meals. [288335]

Dawn Primarolo: It is estimated that on a Before Housing Costs basis, in 2007/08 that 0.9 million households in the United Kingdom in poverty with children did not receive free school meals.

Notes:

1. The FRS undercounts the total number of children receiving free school meals when compared to administrative data.

2. These statistics are based on Households Below Average Income, sourced from the Family Resources Survey.

3. The estimates exclude households with only children aged under four years who would not be at school.

4. Small differences should be treated with caution as these will be affected by sampling error and variability in non-response.

5. The reference period for Households Below Average Income figures are single financial years.

6. The income measures used to derive the estimates shown employ the same methodology as the Department for Work and Pensions publication 'Households Below Average Income' series, which uses net disposable household income, adjusted (or "equivalised") for household size and composition, as an income measure as a proxy for standard of living.

7. Incomes have been equivalised using OECD equalisation factors.

8. Numbers of households have been rounded to the nearest 100,000 people.

Source:

Family Resources Survey (FRS) 2007-08.

Children: Exercise

Bob Spink: To ask the Secretary of State for Children, Schools and Families how much funding the Government has allocated to encourage children in *(a)* Essex and *(b)* Castle Point to adopt more active lifestyles in each year since 1992. [285924]

Ms Diana R. Johnson: The Government do not allocate discrete funding for this purpose on an area basis and it is not possible to provide an answer in the format requested.

Encouraging all children and young people to adopt a more active lifestyle is a priority for this Government. Our strategic approach to this is set out in 'Be Active, Be Healthy', 'Healthy lives, brighter futures: the strategy for children and young people's Health' and 'Healthy Weight, Healthy Lives: a Cross-Government Strategy for England'.

These strategies support the Chief Medical Officer's recommendation that children and young people should achieve a total of at least 60 minutes of at least moderate intensity physical activity each day, and at least twice a week this should include activities to improve bone health, muscle strength and flexibility.

Individuals can achieve this level of activity through a variety of routes, including everyday activity, such as walking or cycling, active recreation, such as play, dance, or swimming, and through sport, both for competition and for individual exercise. The role of parents and carers in influencing children's activity levels is crucial, so the Government support initiatives to improve family based activity as well as a range of initiatives in children's settings, all of which are available to children and young people in Castle Point and Essex.

Initiatives which focus on supporting children and their families to be physically active include:

the Change4Life social marketing campaign, backed by £75 million of funding over three years to 2011, promotes an 'eat well, move more, live longer' message to families with children aged five to 11. Since its launch in January 2009, over 255,000 families have contacted Change4Life and received tailored materials on physical activity and healthy eating as a result;

Sure Start Children's Centres, which should engage parents to promote a whole-family approach to eating well and keeping active, and organise and promote physical activities;

the universal, NHS-delivered Healthy Child Programme for ages 0 to five supports parents in keeping their children healthy, and focuses on developing and maintaining healthy nutritional and lifestyle habits from a very early age;

the Play Strategy, through which 3,500 new or refurbished play areas and 30 staffed adventure playgrounds are being delivered, aimed at eight to 13-year-olds, with a focus on disadvantaged

areas. Details of funding for play schemes in Essex and Castle Point were given in answer to a previous question (Commons written question 282065);

nearly 60 per cent. of local authorities have promised to provide free swimming for the under 16s and have opted-in to the Free Swimming Programme which the Government are supporting with £140 million over the period 2008-09 to 2010-11.

Initiatives which are delivered through early years settings, schools and colleges include:

the PE and School Sport for Young People strategy, through which 90 per cent. of pupils aged five to 16 now participate in at least two hours a week of high quality PE and school sport. The strategy also aims to ensure that all five to 19-year-olds have the opportunity for an additional three hours of sport a week outside the school day;

the National Healthy Schools Programme: almost every school in the country has achieved, or is working towards, Healthy School status, which sets national standards for health and well-being around four core themes, including physical activity;

schools offering access to Extended Services offer access to a wide range of services from 8 am to 6 pm, 48 weeks a year. The services include play, recreation and sports, and community access to facilities including adult learning and sports facilities;

the £140 million joint DCSF and DFT Travel to School Initiative promotes walking and cycling: 17,392 (69 per cent.) of schools have active travel plans worth around £5,000 for a typical primary and around £10,000 for a typical secondary school;

the Bikeability scheme aims to train 500,000 children to level 2 by 2010. Over 146,000 have already received training;

since September 2008, sports co-ordinators have been appointed in 358 FE colleges, so almost all FE colleges have a co-ordinator in place.

Children: Protection

Mr. Jack: To ask the Secretary of State for Children, Schools and Families how he plans to monitor the effectiveness of the provisions of the Safeguarding Vulnerable Groups Act 2006 in protecting vulnerable young people under the age of eight. [287241]

Dawn Primarolo: Once we phase in registration with the Independent Safeguarding Authority (ISA), there will be duties to check registration, and penalties for non-compliance. If, for example, a person permits staff to look after children under the age of eight in a crèche, it will be an offence if that person does not check that the staff are ISA-registered, or uses staff who are not ISA-registered, or knowingly uses staff who are barred from working with children. If anyone suspects that a person is committing such an offence, they should report it to the police.

Bob Spink: To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to improve child protection services in Castle Point. [287504]

Dawn Primarolo: Ofsted's 2008 Joint Area Review of Essex County Council's children's services judged services for safeguarding and looked after children to be inadequate. Essex County Council's 2008 Annual Performance Assessment included an inadequate judgment for the Every Child Matters outcome "staying safe ". The Government subsequently issued the Council with an Improvement Notice setting measurable targets that must be met within twelve months. External experts have been appointed to carry out a review of policies and procedures relating to child protection, children in need and looked after children and to undertake an audit of a broad sample of individual cases. Experts have also been appointed to undertake a review of the Local Safeguarding Children Board and to sit on the Government Office chaired Improvement Board to provide additional external scrutiny and challenge of progress in Essex.

The Government have made clear their determination to make sure that child protection services in every area meet the needs of the vulnerable children they serve. That is why we asked Lord Laming to prepare an urgent report of progress across the country in implementing effective arrangements for safeguarding children. The Government have accepted all of Lord Laming's recommendations and published a detailed action plan on 6 May.

James Brokenshire: To ask the Secretary of State for Children, Schools and Families how many people were on the barred list maintained under the Protection of Children Act 1999 in each of the last five years. [287922]

Dawn Primarolo: The total number of people who are included on the barred list maintained under the Protection of Children Act 1999 in each of the last five years is as follows:

Calendar year	*Number*
2004	1,110
2005	1,311
2006	1,580
2007	2,195
2008	2,409

Natascha Engel: To ask the Secretary of State for Children, Schools and Families if he will bring forward proposals for automatic, independent and public reviews of any unexpected death or serious injury involving children in care or in custody. [288438]

Dawn Primarolo: There is already a process for investigating such deaths or serious injury. Where a death in custody engages the investigative requirement in Article 2 of the European Convention on Human Rights, the requirement would normally be met by means of an inquest or a combination of the inquest, criminal proceedings and serious case review. In addition, any death in custody will be the subject of an investigation by the Prisons and Probation Ombudsman. In the case of a death or serious injury of a child who is looked after by a local authority, and where abuse or neglect is known or suspected to be a factor, the Local Safeguarding Children Board will consider whether a Serious Case Review (SCR) should be undertaken, as they would following the death of any child in those circumstances. Executive Summaries of SCRs are made publicly available.

Natascha Engel: To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of progress in the implementation of the

recommendations of the UN Secretary-General's Study on violence against children (A/61299) in ensuring that every child is protected from all forms of physical, sexual and mental violence. [286446]

Dawn Primarolo: The Government took note of the 'World Report on Violence against Children' and welcomes UN follow-up work, including the appointment, in May this year, of the Special Representative on violence against children. It has made clear its determination to do everything possible to make sure that all child protection services meet the needs of the vulnerable children they serve, and that child protection arrangements are effective everywhere. That is why the Government asked Lord Laming to prepare an urgent report of progress across the country in implementing effective arrangements for safeguarding children.

Lord Laming's progress report confirmed that robust legislative, structural and policy foundations were now in place, but stressed the need for a renewed commitment to child protection at every level of government and across all local services.

The Government have accepted all of Lord Laming's recommendations. Implementation will include a revision of the statutory guidance, 'Working Together to Safeguard Children', which sets out how organisations and individuals should work together to safeguard and promote the welfare of children.

The Government have also published new guidance on safeguarding children from specific forms of child abuse, including sexual exploitation and trafficking, and have recently consulted on guidance aimed at safeguarding children and young people who may be affected by gang activity.

Children's Centres: Hampshire

Sandra Gidley: To ask the Secretary of State for Children, Schools and Families (1) how many Sure Start children's centres were operating in *(a)* Test Valley borough and *(b)* the City of Southampton on the latest date for which figures are available; and how many such centres were originally planned to be operational on that date; [286309]

(2) how many Sure Start children's centres are planned for *(a)* Test Valley borough and *(b)* the City of Southampton; and when he expects all such centres to be operational; [286310]

(3) what estimate he has made of the number of children in each age group who are eligible for participation in the Sure Start children's centres programme in *(a)* Test Valley borough and *(b)* the City of Southampton; what the capacity of such children's centres was in those areas on the latest date for which figures are available; and how many such children were participating in that programme on that date. [286307]

Dawn Primarolo: Sure Start children's centres provide a universal service for all children under five and their parents or carers when they need it. Local authorities are responsible for planning and delivering sure start children's centres in their areas.

Test Valley borough council currently has four Sure Start children's centres up and running, offering access to services to around 4,285 children under five and their families. A further two centres are planned for the Test Valley area by March 2010. The city of Southampton currently has 11 children's centres offering services to approximately 10,057 children under five with a further three planned by March 2010.

There are 12,600 children under five[1] in Southampton and 71,700 in Hampshire. We are unable to provide figures for the Test Valley area as figures are set at local authority level. The Department does not collect information centrally on the number of children using children's centres services.

[1] *Source:*
ONS Survey 2007.

Citizenship: Education

Mr. Wallace: To ask the Secretary of State for Children, Schools and Families (1) what contribution his Department has made to the development of citizenship education in mosque schools through the Islam Citizenship Education Project; [286116]

(2) what financial contribution *(a)* the Schools Development Support Agency and *(b)* community-based organisations have made to the development of citizenship education in mosque schools. [286117]

Ms Diana R. Johnson: The Islam and Citizenship Education (ICE) Project is jointly funded by the Department for Children, Schools and Families (DCSF) and the Department for Communities and Local Government. We awarded a contract, worth £318,652, to the School Development Support Agency (SDSA) running from February 2008 to July 2009 to develop and pilot citizenship lessons for use in mosque schools. The SDSA, working in conjunction with Muslim communities, has successfully delivered this contract. We are currently in the process of tendering for the next stage of the ICE Project to roll out the lessons to mosque schools nationally. Apart from fulfilling their contractual obligations, the SDSA and community-based organisations have made no financial contribution towards the ICE Project.

Class Sizes

Mike Penning: To ask the Secretary of State for Children, Schools and Families how many children were taught in classes of more than 30 pupils in *(a)* Hemel Hempstead constituency, *(b)* Dacorum, *(c)* Hertfordshire and *(d)* the South East in each year since 1997. [285892]

Mr. Coaker: The available information is shown in the table.

Dacorum is a local government district within the local authority of Hertfordshire. Data for Dacorum have been included for three years only as to provide for the full 12-year period would incur disproportionate cost.

The tables cover classes in primary and secondary schools. There is a legal limit of 30 pupils for infant classes.

Maintained primary[1] and state-funded secondary[1,2] schools: number of pupils in classes[3] of more than 30 pupils—As at January each year in south-east Government office region, Hertfordshire, Dacorum, and Hemel Hempstead constituency

	South-east			Hertfordshire		
	Number of pupils in classes of over 30	*Number of pupils in all classes*	*Percentage of pupils in classes of over 30*	*Number of pupils in classes of over 30*	*Number of pupils in all classes*	*Percentage of pupils in classes of over 30*

School Census

Departmental Accountancy

Steve Webb: To ask the Secretary of State for Children, Schools and Families when he expects to publish his Department's resource accounts for 2008-09. [287324]

Ms Diana R. Johnson: The Department for Children, Schools and Families 2008-09 resource account was published on 9 July 2009 (ref. HC 448).

Departmental Budgets

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what scenario planning is being undertaken within his Department in relation to possible reductions in its budget; and if he will make a statement. [285210]

Ms Diana R. Johnson: We are currently focused on embedding the 2010-11 budget savings, agreed as part of the Budget 2009 statement, into current and future plans in such a way as to protect front line delivery while achieving best value for money from the expenditure. Scenario planning will form part of our preparation for a future spending review.

Departmental Conditions of Employment

Lynne Featherstone: To ask the Secretary of State for Children, Schools and Families what percentage of employees in his Department *(a)* are on a flexible working contract and *(b)* work from home for more than four hours a week. [287094]

Ms Diana R. Johnson: In the Department, any member of staff can request a change to their working pattern and line managers consider requests in line with the Department's policy and guidance. Staff below the senior civil service can also work to a flexi-time agreement and local records are kept of hours worked.

Currently 15.5 per cent. of staff work part-time but we do not keep comprehensive central records of other flexible working arrangements and this information could be obtained only at disproportionate cost.

All employees can agree with their line managers to work from home occasionally and 64 per cent. have broadband access to the Department's systems through authorised encryption. We do not, however, keep central records of staff who work over four hours each week from home and information could be obtained only at disproportionate cost.

Departmental Contracts

Lorely Burt: To ask the Secretary of State for Children, Schools and Families how many contracts let by his Department were awarded to businesses with fewer than 50 employees in each of the last five years; and what the monetary value of such contracts was in each such year. [287795]

Ms Diana R. Johnson: This information could be provided only at disproportionate cost.

Departmental Data Protection

Jenny Willott: To ask the Secretary of State for Children, Schools and Families how many *(a)* attempts and *(b)* successful attempts were made to gain unauthorised access to each (i) database and (ii) ICT system run by his Department in each of the last five years; and if he will make a statement. [286551]

Ms Diana R. Johnson: It is not in the interests of the UK's national security for departments to confirm information on the number of attempts, successful or otherwise, to gain unauthorised access to departmental systems or databases. Such disclosure could undermine the integrity and security of departmental systems and thereby expose them to potential threats.

DCSF complies with the mandatory requirements of the Security Policy Framework in relation to information security including managing the risk of unauthorised access to ICT systems.

Departmental Databases

Mr. Watson: To ask the Secretary of State for Children, Schools and Families what internal computer databases his Department maintains; and which of them contain personal information. [284393]

Ms Diana R. Johnson: Department for Children, Schools and Families has a small number of internal corporate computer databases. In addition each directorate maintains its own smaller databases for a number of different purposes. We do not hold a central list of these databases and it would only be possible to provide details of them at disproportionate cost.

The main internal corporate DCSF computer databases maintained are as follows:

Internal database	*Purpose*	*Personal information*
IFIS	Finance System	Yes
TRENT	HR staff database	Yes
IWP (Intranet)	Staff directory and numerous databases	Yes
Assyst	Helpdesk call management and asset system	Yes
Meridio	Electronic documents records management	Yes
ECHO	Correspondence handling system	Yes
HONOURS	Honours database system	Yes
BIS	Briefing information system	Yes

Departmental Electronic Education

Jenny Willott: To ask the Secretary of State for Children, Schools and Families how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in his Department; how many there were in his Department and its predecessors in each of the last three years; and if he will make a statement. [286179]

Ms Diana R. Johnson: To reduce the use of power and consumables, the Department for Children, Schools and Families (DCSF) is in the process of replacing its printers, scanners, photocopiers and fax machines with multi-function devices across its sites.

At this time, some single-function devices are still in use although it is anticipated that this number will diminish further to leave a very small number of single-function devices, primarily for reasonable adjustments and contingency purposes.

The approximate number of single-function devices known to be currently in use within DCSF HQ sites is:

Photocopiers: 0

Scanners: 31

Fax machines: 52

DCSF does not maintain a comprehensive central list of the number of photocopiers, scanning devices or fax machines in use in past years throughout its estate and therefore the information as requested in the latter part of the question is not available. However, procurement records show that 138 leased photocopiers were in use throughout the Department in April 2007.

The Department does not hold records for its arm's length bodies.

Departmental Pay

Michael Gove: To ask the Secretary of State for Children, Schools and Families how much has been paid in bonuses to staff of each non-departmental body his Department sponsors in the last 12 months. [286387]

Ms Diana R. Johnson: All non-departmental public bodies (NDPBs) for which the Department of Children Schools and Families has responsibility for have their own remuneration and reward systems. Ministers are involved in agreeing pay remits for NDPBs in line with the Government's policy on public sector pay. Details of payments made to individual members of staff are not held centrally in the Department and could be obtained only at disproportionate cost.

Departmental Procurement

Bob Spink: To ask the Secretary of State for Children, Schools and Families what changes have been made to his Department's *(a)* office equipment and *(b)* stationery purchasing policy in the last six months. [285306]

Ms Diana R. Johnson: The Department for Children, Schools and Families (DCSF) is developing a category management approach to procurement which will result in realigning and brigading a number of our national contracts, including those for personalised printed business

stationery and desktop stationery, to reduce costs and obtain better value for money.

Initially this has resulted in the award, from 1 June 2009, of a six year contract for a publishing delivery service. Our existing national contract for personalised printed business stationery is currently in the process of being novated to this new contract and it is likely our national contract for desktop stationery will join at a future date.

Lorely Burt: To ask the Secretary of State for Children, Schools and Families what progress his Department has made in implementing the recommendations of the Glover Report in its procurement processes. [287133]

Ms Diana R. Johnson: The Department for Children Schools and Families' commercial policy is based around the EU treaty principles of transparency, equal treatment, non-discrimination and proportionality for all its dealings with third parties.

Consequently the Department has a good record for awarding contracts and grants to SMEs as they have an equal opportunity to gain the Department's work as any other organisation.

The Department has already implemented a number of the 12 recommendations given in the Glover Report ('Accelerating the SME economic engine: through transparent, simple and strategic procurement').

We utilise Supply2gov for our sub EU threshold requirements as well as for advertising competitive grants. Over EU threshold requirements are advertised in the Official Journal of the European Union (OJEU) which is available online.

To allow for electronic tendering the DCSF has licenses to the BRAVO system. The majority offenders are already issued electronically, and request electronic bids. Currently a paper version is still requested rather than encrypted electronic versions.

It is a requirement for procurements subject to the Public Contract Regulations to have contract award notices published. However DCSF do not currently publish sub-threshold award notices as a matter of course though bidders are advised of the organisation the contract has been awarded to.

All our procurements are open to all organisations in line with EU treaty principles.

We use OGC's pre qualification questionnaire (PQQ), although the PQQ questions may change depending on the specific requirement the majority of the questions are asked in a standard format.

Our policy is to evaluate all experience quoted by an organisation, against the same criteria.

Any request for standards or certificates also specifies that equivalents are acceptable.

Our innovation procurement plan will be published at the end of July 2009. Our commercial policy encourages innovative procurements through advertising and output based specifications.

We use output based specifications on the majority of our procurements.

We encourage prime contractors to subcontract to SME's and supported businesses. However currently it is not mandatory for prime contractors to advertise on Supply2gov or elsewhere.

Our terms and conditions include requirements for reciprocal contract terms for subcontractors.

We do not currently have the facilities to separate out and measure SME spend. However it is expected that the MI from the new RM system due for implementation in November 2009 will provide this information.

Departmental Secondment

Sarah Teather: To ask the Secretary of State for Children, Schools and Families how many employees of his Department and its predecessors have been posted to work in offices of hon. Members of each political party in each of the last five years. [284978]

Ms Diana R. Johnson: Civil servants are required to act in accordance with the requirements of the civil service code.

Departmental Work Experience

Mr. Willis: To ask the Secretary of State for Children, Schools and Families how many interns work in his Department; what terms of reference apply to their appointment; what remuneration they receive; and how long on average an intern appointment lasts. [286827]

Ms Diana R. Johnson: The Department has recruited 32 graduate and undergraduate interns whose internships started on 29 June 2009 for six to eight weeks as part of a Cabinet Office internship programme. Successful candidates are nominated or allocated to the Department by the Cabinet Office from applications through its external recruitment website, at university campus events and through recruitment agencies that specialise in diversity.

Payments for internships in 2009 are £350 per week in London and £300 per week outside London.

The Department also intends to be part of the 'Graduate Talent Pool' programme that has been developed by the Department for Business Innovation and Skills.

Education Maintenance Allowance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much his Department spent on education maintenance allowance for *(a)* 16, *(b)* 17, *(c)* 18 and *(d)* 19 year olds in the most recent year for which figures are available. [287528]

Mr. Iain Wright: The Department spent a total of £532.9 million on the education maintenance allowance in the academic year 2007/08. Information on how much was spent on education maintenance allowance is not broken down by age.

Education Maintenance Allowance: Morecambe

Geraldine Smith: To ask the Secretary of State for Children, Schools and Families how many students in post-16 education in Morecambe and Lunesdale are in receipt of education maintenance allowance. [288363]

Mr. Iain Wright: This is a matter for the Learning and Skills Council (LSC) who operate the Education Maintenance Allowance (EMA) for the Department for Children, Schools and Families (DCSF). Geoffrey Russell the LSC's Chief Executive, will write to the hon. Member with the information requested and a copy of his reply will be placed in the House Libraries.

Education: Morecambe

Geraldine Smith: To ask the Secretary of State for Children, Schools and Families how much capital expenditure from the public purse there has been in the education sector in Morecambe and Lunesdale constituency since 1997. [288445]

Mr. Coaker: The Department allocates much of its capital resources to local authority areas. Information by constituency is not held centrally. Support for capital investment in schools in Lancashire is shown in the following table.

Financial year	*£ million* *Schools*
1997-98	13.3
1998-99	19.5
1999-2000	[1]36.8
2000-01	42.2
2001-02	40.6
2002-03	63.6
2003-04	72.7
2004-05	60.6
2005-06	55.1
2006-07	55.7
2007-08	62.0
2008-09	62.4
2009-10	[2]91.8
2010-11	[2]57.7

[1] Includes a PFI project of £13.4 million.
[2] Includes Primary Capital Programme.

In addition, Lancashire has a Building Schools for the Future wave 1 project with an indicative allocation of £77.9 million of conventional funding and £254.3 million of PFI credits.

Educational Visits

Mr. Don Foster: To ask the Secretary of State for Children, Schools and Families how many school educational visits to *(a)* national museums and *(b)* English Heritage sites there have been in each of the last five years. [288523]

Ms Diana R. Johnson: Information is not collected centrally on school visits made to museums and English Heritage sites by primary and secondary schools in the UK.

Evolution: Curriculum

Dr. Evan Harris: To ask the Secretary of State for Children, Schools and Families what assessment he made of the merits of including learning about evolution in the scientific and technological understanding area of learning of the proposed primary curriculum; and if he will make a statement. [288165]

Ms Diana R. Johnson: The proposed scientific and technological understanding area of learning was developed by a wide range of key stakeholders, including primary head teachers, teachers, subject specialists and learned societies. It contains the scientific and technological knowledge, skills and understanding stakeholders considered to be essential learning for children aged 5 to 11.

The proposals are subject to a consultation exercise that closes on 24 July 2009. The consultation is available at

www.qca.org.uk/curriculumconsultation.

We will take final decisions on the proposals for a new primary curriculum in the autumn.

Foster Care

Jim Dobbin: To ask the Secretary of State for Children, Schools and Families how many fostered children returned home after a period in care in the latest period for which figures are available. [288310]

Dawn Primarolo: Of the 12,600 children who ceased to be looked after during the year ending 31 March 2008 and were on a foster placement on ceasing, 7,000 returned home to live with parents or relatives with other parental responsibility.

Further information about looked after children can be found in our publication 'Children looked after in England (including adoption and care leavers) year ending 31 March 2008', which is available on the Department's website via the following link. Table D1 gives a breakdown of the number of children who ceased to be looked after by reason episode ceased and table D2 shows the number who ceased to be looked after by their placement on ceasing.

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000810/index.shtml

Jim Dobbin: To ask the Secretary of State for Children, Schools and Families (1) how many children were placed in foster *(a)* homes and *(b)* placements outside their borough of residence on the latest date for which figures are available; [288314]

(2) how many children were in foster care on the latest date for which figures are available. [288315]

Dawn Primarolo: Information on how many children were placed in foster placements outside the boundary of the responsible local authority can be found in table A6 in the excel link labelled (1st set of additional tables)

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000810/index.shtml.

Information on how many children were in foster care can be found in table A3 in the excel link labelled (National tables A1 to H1 from the SFR)

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000810/index.shtml.

GCE A-level

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils sat an A-level in *(a)* media studies, *(b)* psychology, *(c)* law, *(d)* mathematics, *(e)* physics and *(f)* history in each type of school or college in each year since 1997. [286384]

Mr. Coaker: The information is presented in the following tables and covers students aged 16 to 18 attempting GCE A level examinations during the academic year in question.

2002	16,798	3,698	267	2	6,853	5,118	2,777	35,513
2003	17,138	3,884	329	4	6,849	5,323	2,986	36,513
2004	17,957	4,076	375	16	7,167	5,532	3,027	38,150
2005	18,532	4,237	419	27	7,084	5,979	2,920	39,198
2006	19,401	4,313	443	27	7,150	6,252	3,087	40,673
2007	19,279	4,447	429	65	7,174	6,181	2,967	40,542
2008	20,042	4,541	440	76	7,377	6,439	3,192	42,107

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what proportion of year 13 students in comprehensive maintained schools were entered for one or more A-level examinations in each year since 1997. [286388]

Mr. Coaker: It is not possible to provide the proportion of year 13 students entered for A level examinations. It is normal in post-16 statistics to give figures as a percentage of candidates entered for qualifications at least equivalent to one A level. That would not make sense in this context—all the percentages would be 100 per cent.

The numbers required are given in the following table:

	Number of students in comprehensive schools entered for A levels
1996/97	90,697
1997/98	95,508
1998/99	97,050
1999/2000	96,998
2000/01	100,940
2001/02	107,197
2002/03	111,565
2003/04	113,013
2004/05	116,452
2005/06	116,545
2006/07	113,081
2007/08	116,947

Notes:

1. Figures relate to all comprehensive schools including Academies and CTCs.
2. Figures relate to 16-18 year olds (age at start of academic year, i.e. 31st August) at the end of their advanced study. Figures for 1996/97 to 1999/2000 relate to all 16-18 year olds.
3. Figures for 1996/97 to 1999/2000 relate to entries in GCE A levels.
4. Since 2001, figures relate to entries in GCE/VCE/applied A levels and double awards.
5. Figures for 2001 onwards were taken from table 1 of the following statistical first releases:
2001 and 2002 http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000387/index.shtml
2003 http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000475/index.shtml
2004 http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000586/index.shtml
2005 http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000663/index.shtml
2006 http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000703/index.shtml
2007 http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000769/index.shtml
2008 http://www.dcsf.gov.uk/rsgateway/DB/SFR/s00Q827/index.shtml
6. Figures prior to 2001 were derived from the achievement and attainment tables.
data.

GCE A-level: Females

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many and what proportion of A-level examinations in *(a)* physics, *(b)* chemistry, *(c)* mathematics, *(d)* information and communications technology and *(e)* a modern language were sat by women in each year since 2001; and if he will make a statement. [284283]

Mr. Coaker: The information required is as follows:

	Number of entries by females	Percentage of entries made by females	All entries
Chemistry			
2008	17,703	48.7	36,328
2007	17,406	49.6	35,077
2006	16,814	48.7	34,534
2005	16,380	49.4	33,164
2004	16,289	50.7	32,130
2003	15,941	51.3	31,065
2002	16,392	50.7	32,324
2001	16,747	49.4	33,871
Physics			
2008	5,285	21.4	24,703
2007	5,194	21.7	23,887
2006	4,970	21.0	23,657
2005	5,174	21.5	24,094
2004	5,383	21.9	24,606
2003	5,908	22.5	26,278
2002	6,319	22.7	27,860
2001	6,021	21.5	28,031
Mathematics			
2008	22,809	39.6	57,618

2005	17,423	37.8	46,034
2004	17,638	38.3	46,017
2003	16,753	37.7	44,453
2002	16,381	37.1	44,156
2001	20,254	37.4	54,157
ICT			
2008	3,561	36.8	9,670
2007	3,994	36.7	10,885
2006	4,332	35.6	12,181
2005	4,504	35.0	12,853
2004	5,031	34.8	14,449
2003	5,575	34.2	16,309
2002	5,224	34.7	15,037
2001	3,044	33.0	9,216
Modern Foreign Languages			
2008	18,992	64.5	29,423
2007	18,250	64.3	28,377
2006	18,121	64.7	28,010
2005	17,320	65.0	26,665
2004	17,730	65.5	27,052
2003	17,989	65.5	27,475
2002	18,715	66.2	28,256
2001	20,800	67.3	30,910

Note:
Figures relate to 16 to 18-year-olds (age at start of academic year, i.e. 31 August) in all schools.
Source:
School and College Achievement and Attainment Tables data.

The numbers of entries used to answer this PQ are taken from table 11 of the following Statistical First Release:

DCSF: GCEA/CE/Applied A/AS and Equivalent Results in England, 2007/08 (Revised):

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000827/index.shtml

GCSE

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many students in *(a)* comprehensive and *(b)* independent schools achieved an A* in GCSE (i) history and (ii) English literature in 2008. [283465]

Ms Diana R. Johnson: The figures are given in the following table:

Number of students who in 2008 achieved A at GCSE in selected subjects*

Subject	Comprehensive	Independent
English literature	14,765	6,924
History	11,048	7,376

Source:
National Pupil Database (NPD).

Figures relate to pupils at the end of key stage 4.

Mr. Sanders: To ask the Secretary of State for Children, Schools and Families what the average change was in the percentage of pupils gaining five A* to C GCSE grades in *(a)* academies and *(b)* other schools between 2004 and 2008. [285430]

Mr. Coaker: Only 11 academies have been open over the full period 2004 to 2008.

The proportion of pupils achieving 5 + GCSEs at grades A*-C or equivalent in these schools increased from 24.2 per cent. in 2004 to 36.9 per cent. in 2008, an increase of 12.7 percentage points. The equivalent figures for all schools (maintained mainstream schools, CTCs and academies) showed an increase from 53.0 per cent. in 2004 to 65.6 per cent. in 2008, an increase of 12.6 percentage points.

The proportion of pupils achieving 5 + GCSEs at grades A*-C or equivalent including English and maths in the 11 academies with data for 2004 and 2008 increased from 12.0 per cent. in 2004 to 26.4 per cent. in 2008, an increase of 14.4 percentage points. Over the same period there was an increase in the proportion of pupils achieving 5 + GCSEs or equivalent including English and maths nationally from 41.1 per cent. to 49.1 per cent., an increase of 8.0 percentage points.

Further detail is provided in the following table:

	Maintained mainstream schools, CTCs and academies		Academies with results 2004 to 2008 (11 schools)	
	5+A* to C (percentage)	5+A* to C incl. English and maths (percentage)	5+A* to C (percentage)	5+A* to C incl. English and maths (percentage)
2004	53.0	41.1	24.2	12.0
2005	55.6	43.1	27.2	13.1
2006	58.2	44.7	29.6	17.5
2007	61.0	46.6	32.2	19.4
2008	65.6	49.1	36.9	26.4
Percentage point change 2004-08	12.6	8.0	12.7	14.4

Notes:
1. 5 + A* to C (percentage) refers to the proportion of pupils achieving five or more GCSEs at grades A* to C.
2. 5 + A* to C (percentage) including English and maths refers to the proportion of pupils achieving five or more GCSEs at grades A* to C including GCSEs in English and maths at grade C or above. Both measures include equivalent qualifications.
3. The 2007 data for academies are based on only 10 schools because Walsall Academy had no results in 2007. When quoting figures it is advisable to focus on the change between 2004 and 2008 as data for these years are based on the same number of schools and are therefore directly comparable.
4. Coverage for the 'maintained mainstream schools, CTCs and academies' figures is all schools (including the 11 Academies for which results are presented separately). The total number of schools in this category varies year on year.

Source:
2008 DCSF national pupil database

Mr. Sanders: To ask the Secretary of State for Children, Schools and Families what proportion of pupils in *(a)* academies and *(b)* other schools did not achieve five A* to C GCSE grades in 2008. [285498]

Mr. Coaker: The proportions of pupils achieving at least five A*-C grades at GCSE and equivalent by school type are given in table 6 of the statistical first release on GCSE and equivalent results in England, 2007/08 (revised), accessible via:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000826/index.shtml

The proportions of pupils who did not achieve this standard can be derived from this table.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) how many and what proportion of pupils who attended independent schools have been entered for GCSE Latin in each year since 1997; [284576]

(2) how many and what proportion of pupils have been entered for GCSE Latin in each year since 1997. [284577]

Mr. Coaker: The information requested can be found in the following table:

Number and proportion of students in all schools and in independent schools entered for GCSE Latin in each year since 1997

	All schools		Independent schools	
	Number	Percentage	Number	Percentage
1997	10,992	1.9	7,151	17.1
1998	10,076	1.8	6,692	16.5
1999	9,708	1.7	6,403	15.0
2000	9,598	1.7	6,213	14.5
2001	9,796	1.6	6,287	14.3
2002	9,479	1.6	6,203	14.1
2003	9,350	1.5	6,033	13.6
2004	9,190	1.4	6,093	13.0
2005	9,177	1.4	6,181	13.2
2006	9,556	1.5	6,299	12.9
2007	9,563	1.5	6,574	13.7
2008	9,378	1.4	6,329	13.2

Source:
Attainment and Achievement Tables (AATs).

Figures for 1997-2003 are based on 15-year-olds. Figures for 2004-08 are based on pupils at the end of KS4.

Health Education: Sex

Mr. Amess: To ask the Secretary of State for Children, Schools and Families (1) when information on how to obtain an abortion was first included in school sex education lessons; at what age pupils are provided with such information; whom he consulted on the matter; what recent representations he has received *(a)* in favour of and *(b)* against the current policy; and if he will make a statement; [285540]

(2) what research his Department *(a)* has commissioned, *(b)* plans to commission and *(c)* has evaluated on the effectiveness of teaching sex education in schools; and if he will make a statement. [285541]

Ms Diana R. Johnson: Apart from the statutory elements of Sex and Relationships Education (SRE) that are included in National Curriculum Science, schools currently have flexibility to decide the content of SRE provided within Personal, Social and Health Education (PSHE). DCSF has provided a non-statutory programme of study indicating what it believes it is appropriate to include within PSHE which—in Key Stage 4 (age 14 to 16)—includes 'informing pupils about where they can go to obtain health information'. This would include information, advice and treatment on contraception and sexual health issues. Subject to public consultation, the Government intend to make PSHE (and the programme of study that underpins it) statutory. First and foremost, however, the principal aim of SRE is to encourage young people to delay early sexual activity. Within secondary schools pupils are taught the skills to enable them to avoid being pressurised into unwanted or unprotected sex, and given factual information to enable them to negotiate safer sex when they do become sexually active. However, we make it clear in our "Sex and Relationship Education Guidance" (July 2000) to schools that any programme of study must be tailored to the age and the physical and emotional maturity of the children.

As part of the Children's Plan we gave a commitment to review best practice in effective sex and relationship education (SRE) and how it is delivered in schools. Importantly, we involved young people fully in the review, many of whom told us that they did not have the knowledge they needed to make safe and responsible choices about relationships and sexual health.

International evidence, as well as evidence from local areas that have made most progress in reducing under-18 conception rates since the Teenage Pregnancy Strategy was launched, shows that comprehensive, age-appropriate SRE, alongside easy access to contraceptive and sexual health services, brings down rates.

In response to the review recommendations, we announced our intention, subject to public consultation, to make SRE compulsory as part of statutory Personal Social Health and Economic (PSHE) education. This will ensure that as well as receiving factual information, children and young people will have the opportunities to develop the skills they need to deal with the real life situations they face.

We asked Sir Alasdair Macdonald to conduct an independent review of how the principle that PSHE should have statutory status can be translated into a practicable way forward. Following the publication of Sir Alasdair's review in April there is now a full public consultation on his recommendations, including the programmes of study to be included within statutory PSHE. This is scheduled to be completed by the end of the summer term, following which the Qualifications and Curriculum Authority will analyse the results and report to Ministers.

Learning Grid Programmes

Adam Afriyie: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effect of Learning Grid programmes on the teaching of science, technology, engineering and mathematics subjects in schools; what funding his Department has provided for the Learning Grid in each year since it was founded; and what the Government's future plans for the Learning Grid are. [287256]

Ms Diana R. Johnson: The Department has not provided any funding for the Learning Grid or made any assessment of the impact that the Learning Grid has had upon teaching of STEM subjects in schools. Similarly, because the Department is not involved in funding or managing the work of the Learning Grid, we do not have any plans for its future development or sustainability.

Manufacturing the Future Programme

Mr. Clifton-Brown: To ask the Secretary of State for Children, Schools and Families how many people will work on the Manufacturing the Future programme in schools when the programme becomes operational; how many are working to prepare the programme; when the programme will start; how much has been spent on preparing the programme; and how much funding has been allocated for the programme in total. [286289]

Kevin Brennan: I have been asked to reply.

A part of the Manufacturing the Future programme focuses on presenting young people in schools and colleges, with positive images of the wide range of good careers in the Manufacturing sector. STEMNET (the Science, Technology, Engineering and Mathematics Network) has been tasked with preparing a set of six product based case studies, which will be resources for teachers, to demonstrate the breadth of careers within the manufacturing sector. The products have been carefully selected as being of genuine interest to young people, particularly teenagers. STEMNET began this work in January 2009, and will complete it in July 2009, with the expectation that the resources will be posted to every UK secondary school during September 2009. A total of £54,000 has been allocated to this particular project. This will pay for six individual products to be featured, each of which contains a number of 'real-life' examples of the people who have used STEM and related skills in their manufacture.

National Curriculum Tests

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of children from the *(a)* 10 and *(b)* 20 per cent. most deprived local authorities who did not attain the national standard in (a) English, (b) mathematics and (c) science in Key Stage 1 assessment achieved the national standard in Key Stage 2 assessments in each year since 1997. [252086]

Mr. Coaker: The information requested can be provided only at disproportionate cost.

Outdoor Education

Mr. Cox: To ask the Secretary of State for Children, Schools and Families what steps he is taking to provide children with access to outdoor and adventurous school-related activities. [286703]

Ms Diana R. Johnson: In November 2006 the Department launched the Learning Outside the Classroom Manifesto with the aim that every young person should experience the world beyond the classroom as an essential part of learning and personal development, whatever their age, ability or circumstances. The Manifesto partnership is steered by a National Advisory Group (NAG) made up from representatives from each of the eight Manifesto sectors, specialist advisers, and user representatives. Adventurous Activities are included as one of the eight sector partnerships.

Since its launch, and with the help of the Manifesto partnership, the Department has:

produced on-line training, resources and guidance available for schools, youth clubs and early years settings to help them plan and implement a successful all types of learning outside the classroom experiences for their learners.

www.lotc.org.uk

launched a new Quality Badge to bring together existing badges combining the essential elements of provision—learning and safety—into one easily recognisable and trusted Badge for all types of Learning Outside the Classroom provider organisations.

www.lotcqualitybadge.org.uk

launched a new Independent Council for Learning Outside the Classroom to promote and champion learning outside the classroom, and to become a leading voice, influencing and challenging relevant policy and practice. By raising the profile of learning outside the classroom, the Council will promote its benefits and aim to increase the number of quality learning experiences outside the classroom.

In addition, between 2004 and 2008, the Department has provided opportunities for nearly 35,000 young people to take part in a range of adventurous and curriculum-focused residential courses. This formed part of the London Challenge's £7.4 million New Views project to widen young Londoner's experiences and raise their aspirations.

Primary Education: Free School Meals

Dr. Stoate: To ask the Secretary of State for Children, Schools and Families what funding is available to maintained primary schools to meet the cost of providing a free school meal service for all their pupils. [287681]

Ms Diana R. Johnson: Funding for the provision of school meals, including free school meals is given to all local authorities via their Standards Fund allocation. It is for individual local authorities to decide how much funding to allocate to school meal provision. Where a primary school chooses to manage its own budget for school meals, it is also responsible for deciding how much to allocate.

Schools must provide free school meals to pupils from families that meet the national eligibility criteria and who have registered to receive them. In addition, local authorities may choose to provide free meals for all pupils or a particular phase of pupils such as primary pupils, if they choose to do so. This department and the Department of Health are jointly funding pilots with three local authorities to evaluate the benefits of extending eligibility to free school meals within England.

Qualifications and Curriculum Authority

Mr. Laws: To ask the Secretary of State for Children, Schools and Families on what date Dr. Ken Boston offered his resignation from the Qualifications and Curriculum Authority; and on what date it was accepted. [287532]

Mr. Iain Wright: Dr. Ken Boston offered his resignation to the board of QCA on 12 December 2008. QCA announced his resignation the following day. A full investigation and review by the board of QCA was then undertaken. QCA announced the acceptance of his resignation and termination of employment on 1 April 2009.

Safeguarding Vulnerable Groups Act 2006

Mr. Jack: To ask the Secretary of State for Children, Schools and Families when the measures to regulate childcare for children under eight years old contained in the Safeguarding Vulnerable Groups Act 2006 will be implemented; and whether they will apply to children's crèches. [286936]

Dawn Primarolo: A person who is barred from working with children is already barred from working in child care for under-8s, including in a crèche, under current barring schemes. From October 2009, the Independent Safeguarding Authority (ISA) will bar unsuitable persons from "regulated activity" under the Safeguarding Vulnerable Groups Act 2006, replacing current barred lists. Working with under-8s, or with children in a crèche, will both be included in regulated activity. From July 2010, we will start to phase in a duty for staff to register with the ISA under the Act. That duty will also apply to those working in regulated activity with children, including in children's crèches.

School Meals

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of *(a)* primary and *(b)* secondary schools in each local authority area had (i) no kitchen facilities for producing school meals and (ii) no daily access to hot school meals for pupils in the latest period for which figures are available; and if he will make a statement. [286959]

Ms Diana R. Johnson: The Department for Children, Schools and Families does not collect this information.

Schools

Bob Spink: To ask the Secretary of State for Children, Schools and Families what his most recent assessment is of levels of compliance with his Department's guidance to schools on measures to accommodate *(a)* religious and *(b)* cultural beliefs. [287601]

Mr. Coaker: The Department does not undertake assessment of the levels of compliance with guidance to schools on measures to accommodate religious or cultural beliefs. However, Ofsted, as part of its inspection framework does monitor the extent to which the school promotes equality and tackles discrimination.

Schools for the Future - Inspirational Design for Kitchen and Dining Spaces

Michael Gove: To ask the Secretary of State for Children, Schools and Families if he will place in the Library a copy of his Department's document, Schools for the Future - Inspirational Design for Kitchen and Dining Spaces. [287235]

Mr. Coaker: I will arrange for a copy of the document to be placed in the House Libraries. The Department has also recently published "Kitchen and Dining Spaces—a Design Note" which provides a summary of key design points, mainly for school heads and governors. The booklet is available at the following address

http://www.teachernet.gov.uk/wholeschool/healthyliving/schoolfoodanddrink/diningrooms/

Schools: Admissions

Mike Penning: To ask the Secretary of State for Children, Schools and Families how many school places there are in *(a)* Hemel Hempstead, *(b)* Dacorum and *(c)* Hertfordshire. [285243]

Ms Diana R. Johnson: The Department collects information annually from each local authority on the number of school places at schools in their area, as part of the surplus places survey. The latest data available relate to the position as at January 2008. The following table gives a breakdown of the capacity of schools located in *(a)* Hemel Hempstead *(b)* Dacorum and *(c)* Hertfordshire.

Area	*Primary school capacity*	*Secondary school capacity*
Hemel Hempstead	9,017	7,928
Dacorum	11,669	11,452
Hertfordshire	93,532	88,293

Schools: Asbestos

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) what recent assessment he has made of the implications for his Department's policy on the wellbeing of children of the presence of asbestos in schools; and if he would make a statement; [288695]

(2) what measures are in place to *(a)* identify and *(b)* remove asbestos in schools being refurbished under (i) Building Schools for the Future and (ii) the Primary Capital Programme. [288725]

Mr. Coaker: Asbestos in schools should be managed in accordance with the Control of Asbestos Regulations 2006. The legal requirements and associated guidance provides a framework that enables those responsible for schools to manage the risks from asbestos within school buildings. Asbestos is identified by surveys and removed where necessary in accordance with HSE guidance. Partnerships for Schools has included requirements for asbestos surveys in its standard contract documentation for Building Schools for the Future. Work carried out under the Primary Capital programme is subject to local procurement and asbestos management procedures which must comply with the Control of Asbestos Regulations 2006.

It is DCSF and HSE's assessment that where asbestos is managed in accordance with the Control of Asbestos Regulations teachers and pupils are not likely to be at risk in the course of their normal activities.

Providing asbestos materials are maintained in good condition they can normally be left in situ and managed until the building reaches the end of its life when the asbestos containing materials can be removed without risk of exposing building users to risks arising from significant disturbance.

Schools: Biometrics

Sir John Stanley: To ask the Secretary of State for Children, Schools and Families (1) if he will make it obligatory for schools to obtain the written consent of a child's parents before assembling biometric data on a child based on fingerprint recognition; [288558]

(2) if he will make it obligatory for schools to destroy biometric data based on fingerprint recognition they hold on pupils when a child leaves their school; [288559]

(3) what steps he will take to ensure that *(a)* police forces and *(b)* other third parties have no direct or indirect access to biometric data based on fingerprint recognition held by schools in relation to their pupils. [288560]

Mr. Coaker: In July 2007 Becta issued guidance on the use of biometric technology in schools. This guidance was supported by complementary guidance from the Information Commissioner's Office. The Becta guidance made it clear that while consent is not required for all processing of personal data under the Data Protection Act, schools should normally involve pupils and parents in their decisions to use biometric technologies, as is the case with other decisions made during the school life of children.

The Becta guidance also makes it clear that schools must follow the Data Protection Act in regards to the retention and storage of personal data. In accordance with the Act, schools must ensure all personal data are processed fairly and lawfully, for limited purposes, in line with individuals' rights and not held for longer than necessary. Additionally, schools need to issue a fair processing notice (FPN) to parents summarising the information held about their child or children, why it is held, and the third parties to whom it may be passed on.

Schools: Closures

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many schools have been placed in special measures more than once since 1997; and how many of those schools have been closed. [287222]

Mr. Coaker: This is a matter for Ofsted. HMCI Christine Gilbert has written to the hon. Member and a copy will be placed in the Library.

Letter from Christine Gilbert, dated 17 July 2009:

Parliamentary question number 287222: To ask the Secretary of State for Children, Schools and Families, how many schools have been placed in special measures more than once since 1997 and how many of those schools have been closed.

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for a response.

Between 1 September 1997 and 3 April 2009, 72 maintained schools were placed in special measures more than once, including one school that had been placed in special measures three times. Twenty three of these schools are now closed.

Of the 72 schools that required special measures a second time, seven remained in special measures at their re-inspection without ever being removed from this category. Data for the summer term 2009 have not yet been published and are not included in these figures.

A copy of this reply has been sent to Vernon Coaker MP, Minister of State for Schools and Learners, and will be placed in the library of both Houses.

Schools: Construction

Philip Davies: To ask the Secretary of State for Children, Schools and Families what guidance his Department issues to local authorities on the construction of new school buildings. [287771]

Mr. Coaker: The Department publishes a wide range of design guidance for new school buildings and remodelling existing buildings. The current list of publications available can be found on the following website at:

http://www.teachernet.gov.uk/management/resourcesfinanceandbuilding/schoolbuildings/sbdupublications/

For Building Schools for the Future projects, Partnership for Schools publishes design specification guidance. The guidance is available on the following website at:

http://www.partnershipsforschools.org.uk/library/bsf_standard_docs.jsp#OutputSpecification

The Department and Partnerships for Schools also publish a range of design case studies.

Schools: Governing Bodies

Anne Main: To ask the Secretary of State for Children, Schools and Families pursuant to the statement of 30 June 200[illegible] *Official Report*, columns 165-80, on 21st century schools, how many members he

expects a slimmer school governing body to comprise; and what criteria he plans to apply to reduce the size of school governing bodies. [284070]

Mr. Coaker: Governing bodies of maintained schools in England are constituted under a stakeholder model which prescribes the percentage representation of each group on the governing body. They can vary in total size from nine to 20 members. It is not our intention to prescribe a smaller size. Each governing body will continue to be free to choose a membership of between nine and 20 which best suits their individual circumstances. We will, however, relax the percentages in the stakeholder model, while retaining safeguards to ensure that each stakeholder group is represented and that there is no reduction in the percentage of parent governors, to give further freedom to governing bodies to choose the optimal membership to meet their needs.

Schools: Hemsworth

Jon Trickett: To ask the Secretary of State for Children, Schools and Families how many full-time equivalent *(a)* teachers, *(b)* teaching assistants and *(c)* support staff there were in local education authority schools in (i) the Wakefield district and (ii) Hemsworth constituency in (A) 1997 and (B) at the latest date for which figures are available. [288806]

Mr. Coaker: The following table provides the full-time equivalent number of teachers, teaching assistants and support staff in service in local authority maintained schools in Wakefield local authority and Hemsworth constituency in January 1997 and 2008, the latest year for which information is available.

Full-time equivalent teachers, teaching assistants and support staff in local authority maintained schools[1]; Years: January 1997 and 2008; Coverage: Wakefield local authority and Hemsworth constituency

	1997		2008	
	Wakefield	Hemsworth	Wakefield	Hemsworth
Teachers[2]	2,670	850	2,830	960
Teaching assistants[3]	540	170	1,200	430
Support staff[3,4]	1,000	330	2,160	720

[1] Excludes academies and city technology colleges.
[2] Source: Annual survey of teachers and teacher vacancies (618g) for Wakefield, School Census for Hemsworth.
[3] Source: School Census.
[4] Includes teaching assistants.

Jon Trickett: To ask the Secretary of State for Children, Schools and Families what the average pupil-to-teacher ratio in maintained *(a)* primary and *(b)* secondary schools in Hemsworth constituency was in each year since 1996-97. [288807]

Mr. Coaker: The following table provides the pupil:teacher ratios in local authority maintained primary and secondary schools in Hemsworth constituency in January of each year, 1997 to 2008, the latest year for which information is available.

Pupil:teacher ratio (PTR)[1] of local authority maintained primary and secondary schools[2]; Years: January 1997 to 2008; Coverage: Hemsworth constituency

	Pupil:teacher ratio	
	Primary	Secondary
1997	24:7	17:2
1998	24:9	17:2
1999	24:8	18:1
2000	24:7	18:2
2001	23:6	18:1
2002	23:0	17:5
2003	23:2	17:8
2004	23:5	17:2
2005	23:9	16:6
2006	23:3	16:3
2007	23:2	16:0
2008	23:1	15:6

[1] The within-school PTR is calculated by dividing the total FTE number of pupils on roll in schools by the total FTE number of qualified teachers regularly employed in schools.
[2] Excludes academies.
Source:
School Census

Jon Trickett: To ask the Secretary of State for Children, Schools and Families what capital funding has been allocated to schools in Hemsworth constituency in each year since 1997. [288809]

Mr. Coaker: The Department allocates much of its capital resources to local authority areas. Information by constituency is not held centrally. Support for capital investment in schools in Wakefield local authority is shown in the following table:

Financial year	£ million
1997-98	5.2
1998-99	7.9
1999-2000	7.4
2000-01	13.4
2001-02	13.7
2002-03	17.3
2003-04	20.6
2004-05	19.4
2005-06	21.2
2006-07	16.7
2007-08	15.7
2008-09	15.0
2009-10	†24.5
2010-11	†23.3

† Includes Primary Capital Programme.

Schools: Inspection

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 16 June 2009, *Official Report*, columns 235-6W, on Ofsted: finance, what the projected future costs are of the new schools' inspection regime in each year for which information is available. [285597]

Mr. Coaker: This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the House Libraries.

Letter from Christine Gilbert, dated 14 July 2009:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for a response.

In response to parliamentary question 278406, I provided information on the gross cost of the inspection of schools. This information was derived from a detailed analysis of Ofsted's 2008-09 and prior year financial accounts. At the end of each

year, we undertake a retrospective analysis of our costs. It is not possible to produce such a projected analysis of similarly specific costs because of the scale of change in place in Ofsted; several major changes to Ofsted's organisational structure and operations will be implemented at the same time as the introduction of the new school inspection regime. We are also currently planning to outsource significant aspects of our early years work and this will impact on support costs.

Consequently, we cannot provide meaningful projections of the future gross cost of the inspection of schools, which are comparable with the costs included in our previous response. This information will not be available until spring 2010.

However, I am able to provide details of the estimated savings in the direct costs of the schools' inspection activity, excluding the indirect and overhead costs that were included in the figures provided in our previous response. This covers those inspections affected by the introduction of the new inspection regime, including those carried out under Section 5 of the Education Act 2005 (the routine programme of inspections of maintained schools) and those carried out under Section 8 of the Education Act 2005 (additional monitoring visits for maintained schools judged to be in a category of concern or judged to be satisfactory). Currently, the annual saving as a result of the introduction of the new inspection regime is projected to be £3.9m. This represents a 7.8% savings on the direct cost of the inspection of schools in 2008-09. These savings are based on a range of assumptions, for example, the number of active schools in the future and the proportion of schools judged good or better.

A copy of this reply has been sent to Vernon Coaker MP, Minister of State for Schools and Learners, and will be placed in the library of both Houses.

Schools: Internet

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families with reference to paragraph 2.38, page 40 of his Department's publication, Your child, your schools, our future, what estimate he has made of the likely cost of the virtual school gates pilot programme for parents and carers. [286889]

Ms Diana R. Johnson: The Department is currently in on-going discussions with Netmums and the Family Matters Institute, which runs Dad Talk, about the virtual school gates pilot which will build on their existing web services. We estimate it will cost up to £60,000 plus evaluation costs.

Schools: Manpower

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many support staff were employed in English schools in *(a)* 1997, *(b)* 2002, *(c)* 2006 and *(d)* 2008. [286359]

Mr. Coaker: The requested information is contained in Table 1 of the School Workforce in England (including pupil: teacher ratios and pupil: adult ratios), January 2009 (Provisional) Statistical First Release published in May 2009:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000844/index.shtml

Schools: Nurses

Bob Russell: To ask the Secretary of State for Children, Schools and Families if he will take steps to ensure that school nurses and school health workers are informed of the life-saving service provided by the MedicAlert Foundation; and if he will make a statement. [283413]

Ms Diana R. Johnson: The Department has not taken steps to specifically promote MedicAlert services. The use of various devices bearing clinical and other information carried on the person to be accessible to healthcare staff in the event of injury, illness or exacerbation of a pre-existing condition, is already widely recognised as an option. Their use is a matter of personal choice.

In February we published, jointly with the Department for Health, 'Healthy Lives, Brighter Futures: The strategy for children and young people's health', copies of which have been placed in the Library. The strategy includes a commitment to update the 2005 document 'Managing Medicines in Schools and Early Years Settings'. This guidance addresses the need for schools to have access to the information necessary to support children with healthcare needs who fall ill, and the contact details and arrangements appropriate to managing the situation.

Schools: Output Area Code

Michael Gove: To ask the Secretary of State for Children, Schools and Families what the lower layer super output area code is for each *(a)* maintained mainstream and *(b)* independent school in England. [287255]

Mr. Coaker: The requested information has been placed in the House Libraries. Information on schools in England including geographic information area can be found on EduBase, the Department's database of educational establishments

www.edubase.gov.uk

Schools: Playing Fields

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many maintained schools do not have a playing field. [287225]

Mr. Coaker: The Department does not hold an estimate of the number of maintained schools that do not have playing fields.

Whether or not schools have on-site playing fields, which may not be possible in urban settings, they are required to have access to team game playing fields proportionate to their pupil numbers and type.

Schools: Public Expenditure

Miss McIntosh: To ask the Secretary of State for Children, Schools and Families (1) how many primary schools in *(a)* the Vale of York, *(b)* North Yorkshire and *(c)* England have had revenue balances in excess of those predicted in each year since 1997; [287394]

(2) how many secondary schools in *(a)* the Vale of York, *(b)* North Yorkshire and *(c)* England have had revenue balances in excess of those predicted in each year since 1997; [287395]

(3) what the *(a)* revenues raised by and *(b)* public expenditure on (i) primary and (ii) secondary schools in (A) the Vale of York and (B) England has been in each year since 1997. [287414]

Mr. Cooker: The Department collects figures of the balances held by schools and the amount of revenues raised by schools via the section 52 outturn statements. We have collected information on balances since 1999-2000 and information on revenues raised since 2002-03. There are no figures available for previous years. The section 52 outturn statements are completed by all local authorities in England and we request only the final figures for the schools in their area. We do not collect predicted figures.

The following table shows the number of schools in York, North Yorkshire and England that held surplus balances from 1999-2000 to 2007-08. The Department does not hold figures by constituency.

Number of maintained primary and secondary schools in surplus[1] in England and York and North Yorkshire local authorities: 1999-2000 to 2007-08[2]

	LA name	Primary schools in surplus	Secondary schools in surplus
1999-2000	England	16,695	2,700
	North Yorkshire	317	42
	York	61	9
2000-01	England	17,138	2,919
	North Yorkshire	323	43
	York	57	10
2001-02	England	17,093	2,857
	North Yorkshire	329	44
	York	56	10
2002-03	England	16,535	2,693
	North Yorkshire	324	42
	York	51	8
2003-04	England	16,187	2,756
	North Yorkshire	323	41
	York	49	8
2004-05	England	16,506	2,834
	North Yorkshire	327	43
	York	50	9
2005-06	England	16,302	2,745
	North Yorkshire	327	42
	York	51	8
2006-07	England	16,213	2,740
	North Yorkshire	325	42
	York	51	9
2007-08	England	16,276	2,829
	North Yorkshire	319	39
	York	50	11

[1] A school's total revenue balance is calculated from the combination of any unspent allocations (including unspent standards fund grants) and the cumulative balance of income less expenditure from revenue funding sources during the financial year and any balances carried forward from previous years. This is drawn by adding together the unspent allocations and balance carried forward columns from local authorities section 52 outturn statements 1999-2000 to 2001-02 (table 2), consistent financial reporting categories B01 and B02 from local authorities section 52 outturn statements (table B) 2002-03 to 2005-06 and consistent financial reporting categories B01, B02 and B09 from local authorities section 52 outturn statements (table B) 2006-07 onwards.
[2] School level revenue balances are not available prior to the inception of Section 52 for the 1999-2000 financial year.

In February 2009, we published the figures for balances and deficits held by schools for the financial year 2007-08. The information for 2008-09 is due to be submitted to the Department by 25 August 2009.

The following table shows the amount of revenue that schools have raised which are held by schools with their budget. These figures are presented alongside the amount of public expenditure allocated on a national and local authority level for York. Further information on these figures can be found in the section 52 outturn statements which the Department publishes on our website at:

http://www.dcsf.gov.uk/localauthorities/section52/subPage.cfm?action=section52.default&ID=64

Note that if schools form a company for the use of their premises for community purposes and hold a separate bank account for these charges, then the funds

raised in that account are not subject to the provisions laid upon school revenue funding but are subject to company law.

Revenue raised by England and York local authority maintained primary and secondary schools in England: 2002-03 to 2007-08, compared with public expenditure

		Total income including donations and/or voluntary funds[1]		*Total funding*[2]	
		Primary	*Secondary*	*Primary*	*Secondary*
2002-03	England	551,138,796	707,095,785	10,494,337,638	10,541,823,696
	York	1,408,066	1,818,593	32,437,446	31,533,495
2003-04	England	623,614,541	788,227,393	11,401,399,490	11,924,975,908
	York	1,521,827	1,495,139	33,264,389	34,908,444
2004-05	England	667,015,306	873,081,128	12,035,908,906	12,752,004,480
	York	1,932,485	1,676,790	35,772,953	38,072,974
2005-06	England	750,736,189	994,129,752	12,789,877,891	13,555,581,500
	York	2,692,088	2,311,242	38,166,522	39,401,808
2006-07	England	785,448,729	1,032,332,053	13,498,889,480	14,295,028,942
	York	2,822,511	2,961,480	40,168,539	40,640,639
2007-08	England	871,799,097	1,099,864,863	14,347,256,953	15,148,426,895
	York	3,310,897	3,581,284	41,960,380	42,965,892

[1] For the years 2002-03 to 2005-06 these totals include "Other grants and payments received" (107), "Income from facilities and services" (108), "Income from catering" (109), "Receipts from supply teacher insurance claims" (110), "Receipts from other insurance claims" (111), "Income from contributions to visits etc." (112) and "Donations and/or voluntary funds" (113). For subsequent years they include these plus "Community focused extended school facilities income" (117).
[2] For the years 2002-03 to 2005-06 these totals include "Funds delegated by the LA" (101), "Funding for sixth form students" (102), "SEN Funding" (103), "Funding for minority ethnic pupils" (104), "Standards Fund" (105) and "Other government grants" (106). For subsequent years they include these plus "School Standards Grant (SSG)—Pupil focused" (114), "Pupil focused extended school funding and/or grants" (115) and "Community focused extended school funding and/or grants" (116).
Note:
Cash terms figures as reported by local authorities as at 16 July.

The Education (Outturn Statements) (England) Regulations

Schools: Specialised Diplomas

Michael Gove: To ask the Secretary of State for Children, Schools and Families which *(a)* maintained mainstream schools and *(b)* independent schools are offering a diploma course in the 2008-09 academic year; and how many pupils are taking each diploma course in each such school. [287248]

Mr. Iain Wright: We do not have a central record of which maintained mainstream schools are offering the diploma in 2008/09. Consortia (and hence their member providers) are approved through the diploma gateway process to deliver diplomas. We collect information about members of consortia at the time of their applications. Once approved, it is up to consortia and local authorities to manage delivery plans and offer the entitlement.

There are no independent schools offering diplomas in 2008/09.

Around 12,000 young people enrolled on a diploma course last autumn. We collect a breakdown of this figure at a local authority level, but not at institutional level.

Schools: Standards

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils' results were exempted from appearing in school league tables in each of the last 10 years. [286386]

Mr. Coaker: No pupils' results are excluded completely from the Achievement and Attainment Tables. Since 2000, individual schools have been able to request that results of non-English speaking pupils who have recently arrived from overseas are not reported in their school's published performance data. However, these pupils' results continue to be included in local authority and national level figures published in the tables.

The table shows the number of pupils' results removed from the school level data in the Achievement and Attainment Tables since 2000.

	Key Stage 2	*Key Stage 3*	*Key Stage 4*
2000	1,277	*	1,598
2001	1,642	*	1,980
2002	1,702	*	2,149
2003	1,847	*	2,502
2004	1,800	684	2,418
2005	2,152	818	1,898
2006	2,433	1,155	2,115
2007	2,674	1,418	2,451
2008	2,366	n/a	2,699

From 2000-03 Key Stage 3 results were included as part of the Key Stage 4 Tables. Therefore the number of pupils' results exempted is combined.

There are no Key Stage 3 Achievement and Attainment Tables for 2008.

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many schools were rated unsatisfactory in both of their last two Ofsted inspections; [287245]

(2) how many schools were rated unsatisfactory in both of their last two Ofsted inspections; [287247]

(3) how many schools rated unsatisfactory in their most recent Ofsted inspection had been rated satisfactory in the preceding inspection. [287246]

Mr. Coaker: These are matters for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and copies of her replies have been placed in the Library.

Letter from Christine Gilbert, dated 20 July 2009:

Parliamentary question numbers 287245 and 287247: To ask the Secretary of State for Children, Schools and Families, how many schools were rated unsatisfactory in both of their last two Ofsted inspections

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for a response.

The 'inadequate' inspection outcome was introduced in September 2005 as part of a four-point scale: outstanding, good, satisfactory, inadequate. Before September 2005, judgements were made on a seven-point scale and under a different inspection framework. For this reason, only schools which have been inspected more than once under the current inspection arrangements, including pilot inspections carried out during the academic year 2004/05, have been included in this analysis.

Table A shows that, as of 3 April 2009, 53 schools were rated inadequate in both their last two Ofsted inspections under the current inspection framework (commonly known as section 5).

Table A: Schools inspected more than once under the current inspection framework and judged inadequate at both of their last two inspections, up to 3 April 2009

Number of schools

Inadequate	Satisfactory	0	42	39	0	2	83

A copy of this reply has been sent to Vernon Coaker MP, Minister of State for Schools and Learners, and will be placed in the library of both Houses.

Schools: Taxis

Michael Gove: To ask the Secretary of State for Children, Schools and Families how much each local authority spent on taxis to transport children to and from school under each category for which a taxi was required in each of the last five years. [285723]

Ms Diana R. Johnson: The Department does not collect information on local authority expenditure on taxis for home to school transport.

Schools: Teaching Methods

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families with reference to page 35 of his Department's publication, Your child, your schools, our future, on the Pupil Guarantee, how many secondary schools use such a personal tutor system. [286885]

Ms Diana R. Johnson: Every secondary school pupil and their families will have access to a named Personal Tutor from September 2010. Officials in this Department and the Training and Development Agency for Schools (TDA) are currently working to support local authorities and schools to enable them to meet that commitment. We know from this work with schools that many already have similar systems in place. However, we do not collect the information from schools that would enable us to say how many currently have a similar system in place.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families with reference to paragraph 2.22, page 31 of his Department's publication, Your child, your schools, our future, what additional funding will be allocated in support of the guarantee of one-to-one catch-up tuition in English and mathematics. [286887]

Ms Diana R. Johnson: Funding for the one-to-one tuition programme was announced as part of the most recent comprehensive spending review (CSR) settlement. There is a total of £468 million funding over the CSR period: £15 million to support 36,000 children in year 5 and year 6 in 2008/09; £138 million to support 3.5 per cent. of the Key Stage 2, Key Stage 3 (and in National Challenge schools Key Stage 4) cohort in each of English and maths in 2009/10; and £315 million to support 300,000 pupils in English and 300,000 children in mathematics in 2010/11. The funding is sufficient to support the guarantee of one-to-one tuition in English and mathematics for pupils falling behind in Key Stage 2 from September 2010. This funding is also sufficient to cover the one-to-one element of the guarantee for catch-up support for pupils who enter Year 7 behind expectations.

Schools: Vetting

James Brokenshire: To ask the Secretary of State for Children, Schools and Families how many people have been added to List 99 *(a)* in each of the last five years and *(b)* by the Independent Safeguarding Authority since January 2009. [288861]

Dawn Primarolo: Information on List 99 numbers has been reported to the House by successive Secretaries of State since 2006. This is set out as follows.

In her statement of 19 January 2006 the then Secretary of State, my right hon. Friend the Member for Bolton, West (Ruth Kelly), reported that 4,045 people were on List 99. This included 513 people who had been added to List 99 in 2005.

In his statement of 28 February 2007 the then Secretary of State, my right hon. Friend the Member for Kingston upon Hull, West and Hessle (Alan Johnson), reported that there were a total of 4,921 individuals on List 99.

The present Secretary of State, my right hon. Friend the Member for Normanton (Ed Balls), reported in his statement of 17 March 2008 that the total number of individuals on List 99 was 8,036. He made a statement on 20 January 2009 in which he reported that the total number on List 99 was 12,992.

In response to *(b)*, since 20 January 2009, the Independent Safeguarding Authority (ISA) received new powers to place individuals on the Children's List maintained under the Safeguarding Vulnerable Groups Act 2006. For the time being, this has equivalent effect to inclusion on List 99 or the PoCA list. The ISA has confirmed that 2,100 individuals have been added to the Children's List since that date.

Science: Education

Lembit Öpik: To ask the Secretary of State for Children, Schools and Families if he will regularly review the effects on levels of attainment in science subjects by children at secondary level of the replacement of science as a core subject in primary schools if the proposal of the Rose Review on that matter is implemented; and if he will make a statement. [286304]

Ms Diana R. Johnson: We regularly review levels of science attainment at secondary level, and the factors which impact upon it. In future, this will include changes to the primary science curriculum and assessment arrangements.

These changes have been widely supported by the science education community. They will provide a basis for schools and teachers to improve the quality of the science education experience in primary schools, reflecting more closely the practical and investigative nature of the subject, making it more enjoyable for pupils, and so encouraging more of them to pursue it at higher levels.

Science: GCSE

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families how many schools in *(a)* the maintained mainstream sector and *(b)* the independent sector had one or more students achieve a double award science GCSE in each year since 2005. [278959]

Mr. Coaker: The figures available are given in the table:

Number of schools in which one or more students achieved a Double Award Science GCSE between 2005 and 2007

	Maintained mainstream	*Independent*
2005	3,017	630
2006	2,992	637
2007	2,998	654
2008	116	9

Source:
Attainment and Achievement Tables.

Figures relate to pupils at the end of Key Stage 4.

Accreditation of Double Award Science expired in 2008.

Secondary Education: Admissions

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which local authorities *(a)* have been selected and *(b)* are under consideration for participation in the trial of the new requirement in relation to parents' views on secondary school places, as referred to in paragraph 5.39 of the Building a 21st Century Schools System White Paper; and what criteria his Department uses to select local authorities to participate in such trials. [286954]

Ms Diana R. Johnson: The Department has not yet selected local authorities to participate in the trial to seek parents' views on secondary school places. We intend to approach authorities with a mixture of the following characteristics: urban and rural (from different regions of England); mixed socio-economic circumstances; and with a different mix of provision, such as single sex, or selective schools.

Secondary Education: Sports

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many hours were spent on sport by secondary school pupils on average in *(a)* maintained mainstream schools and *(b)* independent schools in the latest period for which figures are available. [287234]

Ms Diana R. Johnson: The annual school sport survey collects data from maintained schools in England relating to the percentage of pupils participating in at least two hours high quality PE and school sport a week. The 2007/08 survey found that 83 per cent. of all secondary pupils took part in at least two hours high quality PE and sport each week. The survey does not collect comparable data from independent schools.

Sixth Form Education: Lancaster

Mr. Wallace: To ask the Secretary of State for Children, Schools and Families which schools in Lancaster and Wyre constituency received less funding for sixth form places in the final yearly allocations for 2009-10 than was indicated in the provisional figures. [288369]

Mr. Iain Wright: Following the further increase of £655 million in the Budget 2009, the LSC have now issued revised letters of allocation to all schools, colleges and independent training providers. This means we have now reinstated the original allocations as at March 2009 where schools, colleges and training providers indicated they would deliver an additional 34,500 places for young people aged 16-18. But the Budget allocation has enabled Ministers to approve a revised set of allocations that will mean a further increase of 22,500 places will be made available this September.

We are not able to provide a breakdown of the information based on a constituency basis; however the allocation for schools in the Lancashire area, which includes Lancaster and Wyre, is £23,088,202.

Social Services: Complaints

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many complaints were made against children's social services departments in each local authority area in the latest period for which figures are available. [287227]

Dawn Primarolo: This information is not collected centrally. However, local authorities are required to keep a record of each representation or complaint received; the decisions made in response and any action to be taken; and whether there was compliance with the time limits. The local authority must produce an annual report drawing on this information.

Special Educational Needs: Sight Impaired

Mr. Todd: To ask the Secretary of State for Children, Schools and Families what recent progress he has made in increasing the availability of textbooks to blind and partially-sighted children. [286956]

Ms Diana R. Johnson: We recently signed a contract agreement with a commercial provider to deliver an innovative pilot project over two years (2009-11) to develop curriculum materials in alternative formats for visually impaired/dyslexic children. The preparatory work is being undertaken at the moment and we will be making a formal announcement releasing more details shortly.

Specialised Diplomas

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many 14 to 19 providers formerly part of a diploma consortium have informed his Department that they will no longer be offering diploma lines from September 2009; and if he will make a statement. [286957]

Mr. Iain Wright: We do not collect this information centrally. Consortia (and hence their member providers) are approved through the Diploma Gateway process to deliver diplomas.

We collect information about members of consortia at the time of their applications. Once approved, it is up to consortia and local authorities to manage delivery plans and offer the entitlement.

Consortia in 142 local authorities are approved to deliver from September 2009, an increase compared to the 101 local authorities that had consortia approved to deliver in September 2008.

There are 305 consortia approved to deliver diplomas from September 2009, up from 146 consortia in 2008.

Specialised Diplomas: Disadvantaged

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of pupils enrolled on each diploma course are entitled to free school meals; and if he will make a statement. [287527]

Mr. Coaker: We do not have comprehensive analysis of these figures because data are based upon the information entered into the Diploma Aggregation Service and use a 'snapshot' of participation from the 18 April 2009. This does not include every diploma learner as some learners will not be registered on the system until the 2009/10 academic year, when they are due to claim their diploma. Eligibility for free school meals is based on school census data.

Specialist Teachers

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many specialist history teachers there were in mainstream maintained secondary schools in each of the last 10 years; [287232]

(2) how many specialist physical education teachers there were in mainstream maintained schools in each of the last 10 years. [287233]

Mr. Coaker: Information on the number of specialist subject teachers is only available for maintained secondary schools. It is derived from the Secondary School Curriculum and Staffing Survey, (SSCSS), a sample survey last completed in 2007. The survey revealed that of the estimated 15,700 full-time equivalent (FTE) history and 21,700 physical education teachers, who taught at least one period per week in these subjects, some 76 and 83 per cent. respectively held a relevant post A level qualification.
